Unless otherwise specified or the context requires otherwise in this prospectus, all references to:

- "2024 season to date" are to the period from January 1, 2024 through end of July or early August 2024, as available;
- "Adjusted EBITDA" are to EBITDA (consolidated net income (loss) adjusted for interest income, interest expense, income tax benefit (expense) and depreciation, amortization and impairment) as further adjusted for non-cash Private Placement derivatives gains and losses, loss on Private Placement refinancing, currency gains or losses, stock-based compensation expense and other financial income (loss) (which includes forward gains and losses, gain or loss on disposition of assets, certain non-cash fair value adjustments, restructuring charges and non-recurring items);
- "Adjusted EBITDA Margin" are to the ratio, expressed as a percentage, of Adjusted EBITDA divided by Adjusted Gross Margin;
- "Adjusted FCF Conversion" are to the ratio, expressed as a percentage, of Adjusted FCF divided by Adjusted EBITDA;
- "Adjusted Free Cash Flow" or "Adjusted FCF" are to net cash flow from (used in) operating activities as adjusted for interest paid, interest payments for lease liabilities, interest received, and Ongoing Capex, as further adjusted for cash portion of interest expense related to our Series C Preference Shares. Our Series C Preference Shares automatically converted into ordinary shares immediately prior to the consummation of our IPO;

- "Adjusted Gross Margin" are to gross margin adjusted for vessel operating expenses and ship depreciation and impairment. Gross margin is calculated pursuant to IFRS as total revenue less total cruise operating expenses and ship depreciation and impairment;
- "Advance Bookings" are to the aggregate ticketed amount for guest bookings for our voyages at a specific point in time, and include bookings for cruises, land extensions and air;
- "average age" are, for ships or vessels, to average age of those ships or vessels weighted by berth;
- "berth" are to a space for one passenger. Almost all of our staterooms are double occupancy, or two berth staterooms, but we have some staterooms that are single occupancy, or single berth staterooms;
- "CAGR" are to compound annual growth rate;
- "Capacity Passenger Cruise Days" or "Capacity PCDs," with respect to any given period, are to measurements of capacity that represent, for each ship operating during the relevant period, the number of berths multiplied by the number of Ship Operating Days, determined on an aggregated basis for all ships in operation during the relevant period;
- "China JV Investment" are to the joint venture between us and China Merchants Shekou, a subsidiary of China Merchants Group, to build a cruise line offering Chinese coastal sailing for Mandarin-speaking populations in China. The China JV Investment is primarily operated by CMV, in which we have a 10% interest;
- "China Outbound" are to our outbound river cruise product marketed to Mandarin-speaking passengers. China Outbound is separate from the China JV Investment and wholly owned by us;
- "CMV" are to China Merchants Viking Cruises Limited, the entity of the China JV Investment that operates the China JV Investment's first ship, the *Zhao Shang Yi Dun*;
- "direct" in relationship to the sales distribution channel are to passengers who purchased their cruise packages directly from us;
- "guest quality ratings" are to a metric that represents the average response provided by our guests when completing the onboard surveys provided in staterooms on each voyage (one per guest). These responses are collected on a 4-level scale, with 1 – Poor, 2 – Fair, 3 – Good, and 4 – Great;
- "Invested Capital" are to the average of the most recent four quarters of indebtedness, gross of loan fees, less cash and cash equivalents, plus total shareholders' equity;

- "large public cruise lines" are to Carnival Corporation, Norwegian Cruise Line Holdings Ltd. and Royal Caribbean Cruises Ltd.;

Net Promoter Scores are measured through customer response to a single question on how likely they are to recommend the product or service to others and are reported with a number that ranges from -100 to +100. A higher score is more desirable, and score ranges tend to vary by industry. Viking's score is calculated by asking guests, "How likely are you to recommend Viking Cruises to a friend?" on a 0 to 10 scale. Percent 9 to 10 is calculated (as promoters), percent 7 to 8 is ignored (passives) and percent 0 to 6 (detractors) is calculated and subtracted from the percent of 9 to 10 scores. This results in a composite measure of share of promoters less share of detractors;
- "Net Yield" are to Adjusted Gross Margin divided by Passenger Cruise Days;
- "NM" are to certain metrics that were not meaningful and as such were excluded, including due to the impact of the novel coronavirus ("COVID-19");
- "North America" and "North American" are to the United States of America and Canada;

- "Occupancy" are to the ratio, expressed as a percentage, of Passenger Cruise Days to Capacity Passenger Cruise Days with respect to any given period. Contrary to many of our competitors, we do not allow more than two passengers to occupy a two-berth stateroom. Additionally, we have guests who choose to travel alone and are willing to pay higher prices for single occupancy in a two-berth stateroom. As a result, our Occupancy cannot exceed 100%, and may be less than 100%, even if all our staterooms are booked;
- "Ongoing Capex" are to investments in property, plant and equipment and intangible assets ("PP&E"), adjusted to exclude additions to PP&E for vessels and ships under construction and additions to PP&E for vessels and ships delivered in the relevant period;
- "our Antarctic expedition market share" are to our share of passenger volume for all expedition vessels that carried guests to Antarctica, where passenger volume is defined as the total number of passengers carried on non-governmental expeditions on ships which could land on shore for the 2023 season, as reported to the Secretariat of the Antarctic Treaty Electronic Information Exchange System. BACKGROUND

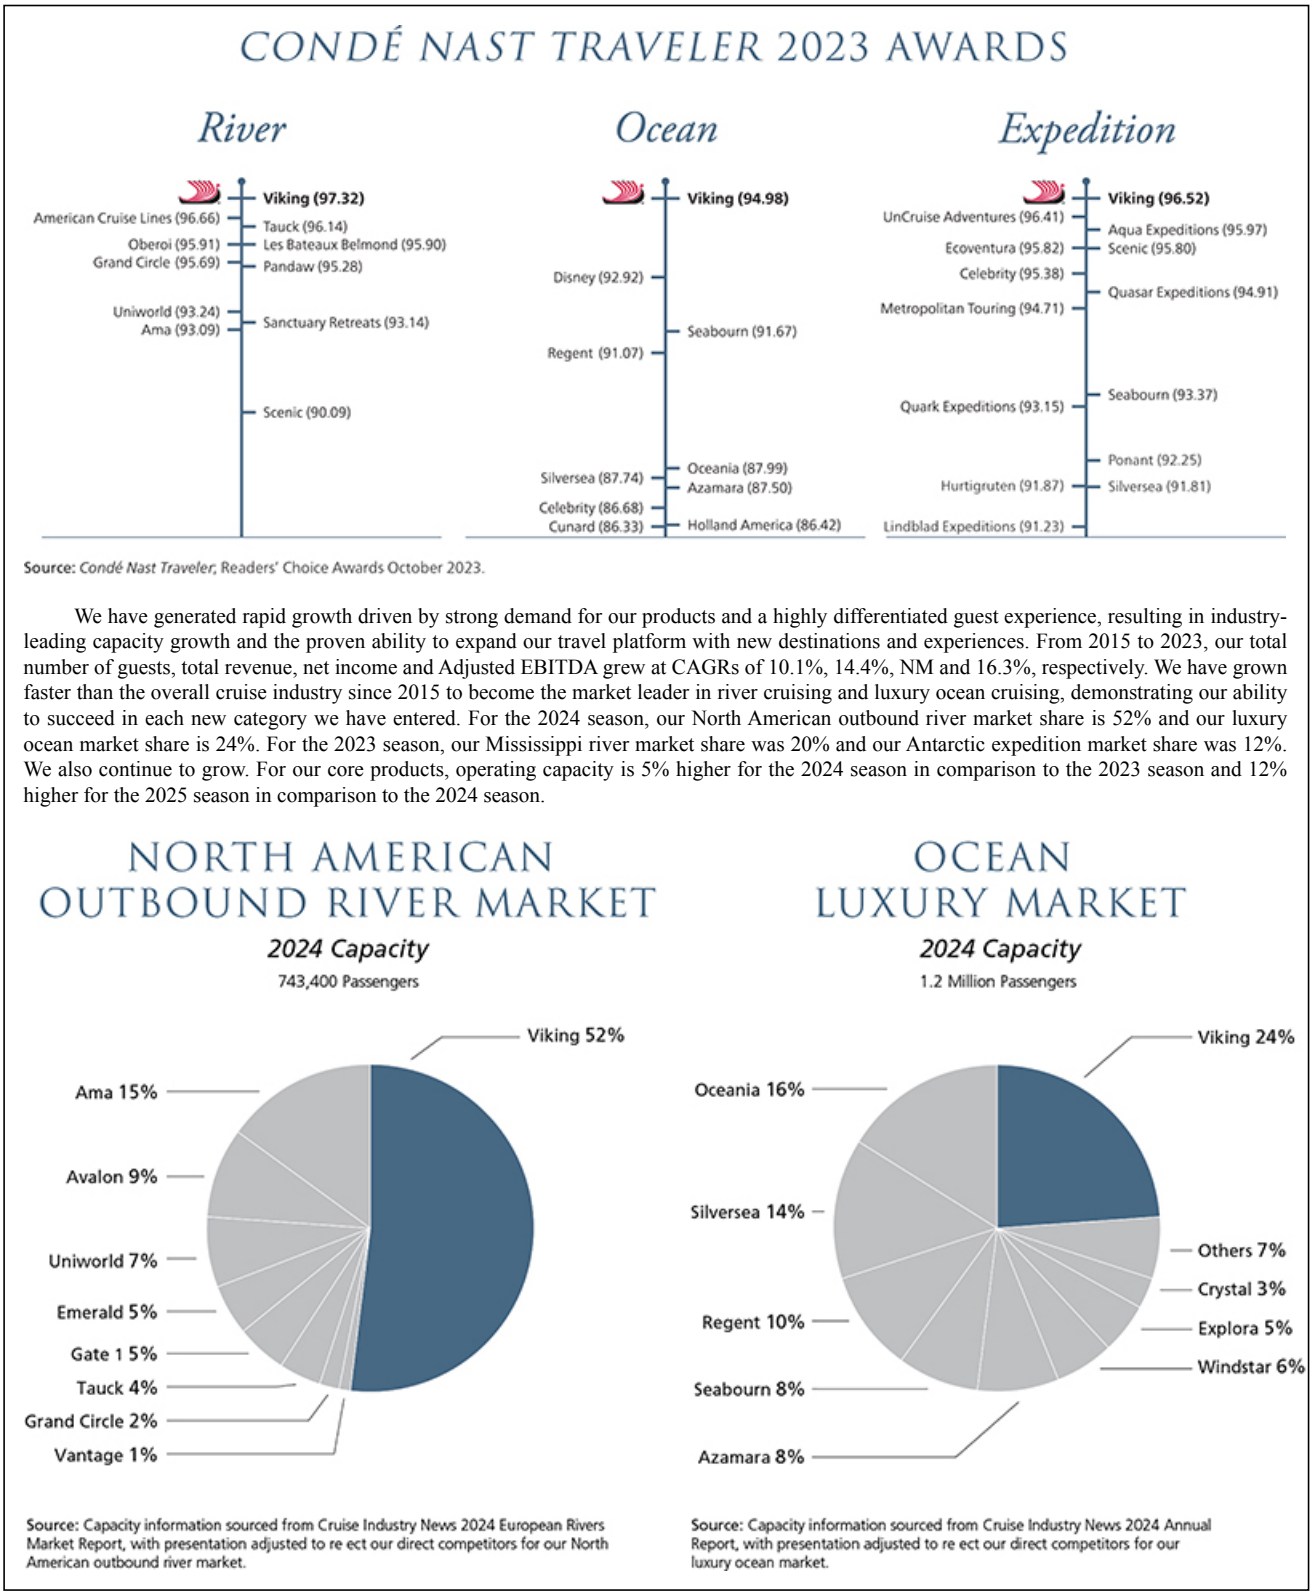
Viking was founded in 1997 with four river vessels and a simple vision that travel could be more destination-focused and culturally immersive.

Today, we have grown into one of the world's leading travel companies, with a fleet of 93 small, state-of-the-art ships, which we view as floating hotels. From our iconic journeys on the world's great rivers, including our new Mississippi River itineraries, to our ocean voyages around the globe and our extraordinary expeditions to the ends of the earth, we offer meaningful travel experiences on all seven continents in all three categories of the cruise industry—river, ocean and expedition cruising.

Note: The average age is as of June 30, 2024.

With more than 450 awards to our name, we are a leader in the industry and were rated #1 for Rivers, #1 for Oceans (for ships sized 500 to 2,500 berths) and #1 for Expeditions by *Condé Nast Traveler* in the 2023 Readers' Choice Awards. This is the first time a travel company has been voted #1 in all three categories simultaneously.



Source: *Condé Nast Traveler*, Readers' Choice Awards October 2023.

We have generated rapid growth driven by strong demand for our products and a highly differentiated guest experience, resulting in industry-leading capacity growth and the proven ability to expand our travel platform with new destinations and experiences. From 2015 to 2023, our total number of guests, total revenue, net income and Adjusted EBITDA grew at CAGRs of 10.1%, 14.4%, NM and 16.3%, respectively. We have grown faster than the overall cruise industry since 2015 to become the market leader in river cruising and luxury ocean cruising, demonstrating our ability to succeed in each new category we have entered. For the 2024 season, our North American outbound river market share is 52% and our luxury ocean market share is 24%. For the 2023 season, our Mississippi river market share was 20% and our Antarctic expedition market share was 12%. We also continue to grow. For our core products, operating capacity is 5% higher for the 2024 season in comparison to the 2023 season and 12% higher for the 2025 season in comparison to the 2024 season.

Source: Capacity information sourced from Cruise Industry News 2024 Annual Report, with presentation adjusted to re ect our direct competitors for our luxury ocean market.

For the year ended December 31, 2023, nearly 650,000 guests traveled with us, and we generated total revenue of $4,710.5 million, a net loss of $1,858.6 million and Adjusted EBITDA of $1,090.3 million. For the six months ended June 30, 2024, over 290,000 guests traveled with us, and we generated total revenue of $2,305.4 million, a net loss of $338.1 million and Adjusted EBITDA of $488.1 million. See "—Summary Consolidated Financial and Other Data" for additional information about Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to net income (loss). We have also generated industry-leading ROIC of 27.5% for the year ended December 31, 2023, up from 26.1% for the year ended December 31, 2019. As of June 30, 2024, we had $1.8 billion of cash and cash equivalents and $5.2 billion of Total Debt. Our payback period for a Longship is on average approximately four to five years based on contributions to operations by a Longship. Our payback period for an ocean ship is on average about five to six years based on contributions to operations by an ocean ship.

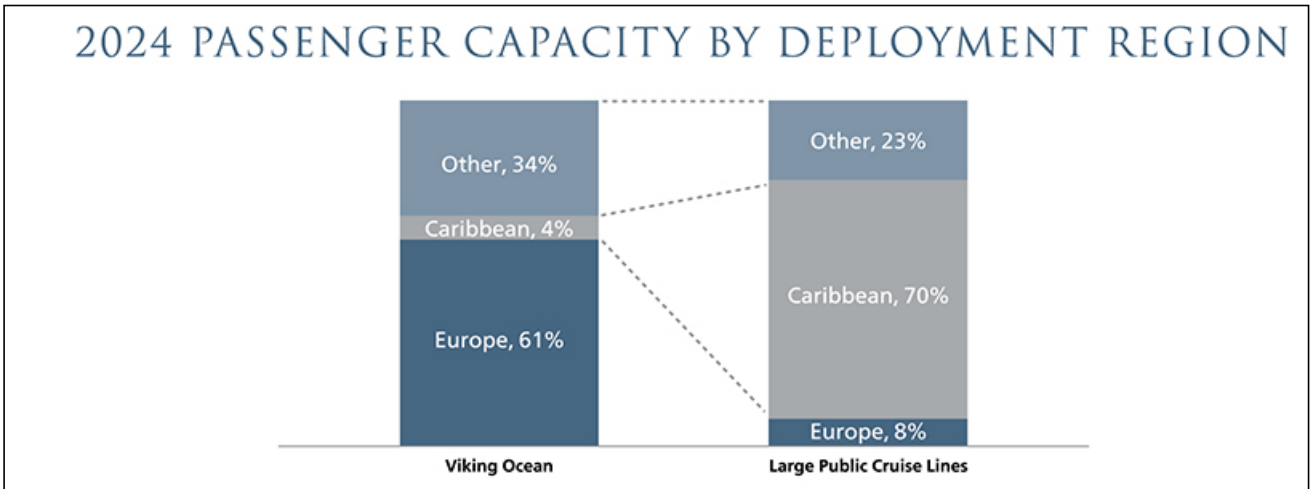
We believe we are well-positioned for future growth. To address the strong demand from our guests, we have ordered 17 new river vessels for delivery through 2026 and eight new ocean ships for delivery through 2029 (two of which are still subject to certain financing conditions).

THE VIKING DIFFERENCE

1. One Brand: Among our guests and across the industry, the Viking brand is synonymous with excellence. Our guests can experience all three categories of the cruise industry—ocean, river and expedition cruising—under our single brand. Rather than creating a conglomerate of different brands, all of our products are a consistent extension of the Viking brand. As a result, our marketing spend and strong brand loyalty drive growth for all of our products. We also leverage our strong brand loyalty for future product launches, with over 60% of bookings for each of the inaugural seasons for Viking Ocean, Viking Expedition and Viking Mississippi made by past guests. Our guests know they can expect a consistent, excellent experience on each voyage they take with us, which has allowed us to expand our travel platform successfully with new destinations and experiences. Our repeat guest percentage has steadily increased over time from 27% for the 2015 season to 53% for the 2024 season to date.

2. Identical Small Ships: Our fleet includes 58 identical Longships accommodating 190 passengers, nine identical ocean ships accommodating 930 passengers and two identical expedition ships accommodating 378 passengers**.** Within each product, our ships are indistinguishable to our guests. This simplifies the sales and marketing process as potential guests shop by itinerary versus by specific ship or age of ship, and it allows older ships to achieve similar yields, even when introducing new ships. Identical ships also create operational flexibility, as well as efficiencies around shipbuilding, maintenance and crew, which improves our margins. Our small ships can dock in ports where larger ships cannot, providing our guests more time ashore for cultural discovery and exploration and offering our guests experiences they cannot have with other cruise lines.

3. Clearly Defined, Destination-Focused Experience: We are the only cruise line offering experiences on all seven continents with itineraries across five oceans, 21 rivers and five lakes, and a focus primarily on destinations in Europe and the Mediterranean, rather than the Caribbean. We deliver a highly differentiated experience for our guests by prioritizing exploration of the destination versus onboard consumption and traditional entertainment. The Viking experience is well-defined and all-inclusive, with a shore excursion included in every port. We are also known for the things that we do not do. For example, no children under 18, no casinos and no hidden ancillary costs, such as charges for alternative restaurants, wi-fi or beer and wine at lunch and dinner. Because of these strategic choices, our guests instantly recognize the Viking way of travel.



Source: Cruise Industry News 2024 Annual Report.

4. Clear Customer Focus: We are intently focused on the travel needs of our core demographic of curious, affluent, English-speaking travelers aged 55 years and older, which is an attractive segment of the travel market. We believe we know our core demographic better than anyone else in the industry and we have tailored our products to specifically address the travel needs of the Thinking Person. We attract individuals seeking travel experiences that offer cultural insight and personal enrichment.

5. Strong Direct Marketing: Since 1997, we have invested $3.0 billion in all aspects of marketing, most of which is direct marketing spend. This investment has helped build and solidify the value of our brand with our target market. Our marketing database includes more than 56 million North American households, including 1.5 million households that have traveled with us before. We generate our own demand through our direct marketing, which allows us to obtain industry-leading early booking rates. Our marketing also drives direct bookings. For the year ended December 31, 2023 and for the 2024 season to date, more than 50% of our guests booked directly with us.

6. Only Pure-Play Luxury Public Cruise Line: Viking is the only pure-play luxury public cruise line. In contrast, the large public cruise lines have multiple brands that serve all three categories of the cruise market, with luxury representing only a small percentage of their overall capacity. Our total revenue per passenger was $7,902 for the six months ended June 30, 2024. Viking defines the luxury category of the river cruise and ocean cruise markets. We believe these are the most attractive segments of the cruise industry and the global luxury leisure travel market given their growth potential.

VIKING STRENGTHS

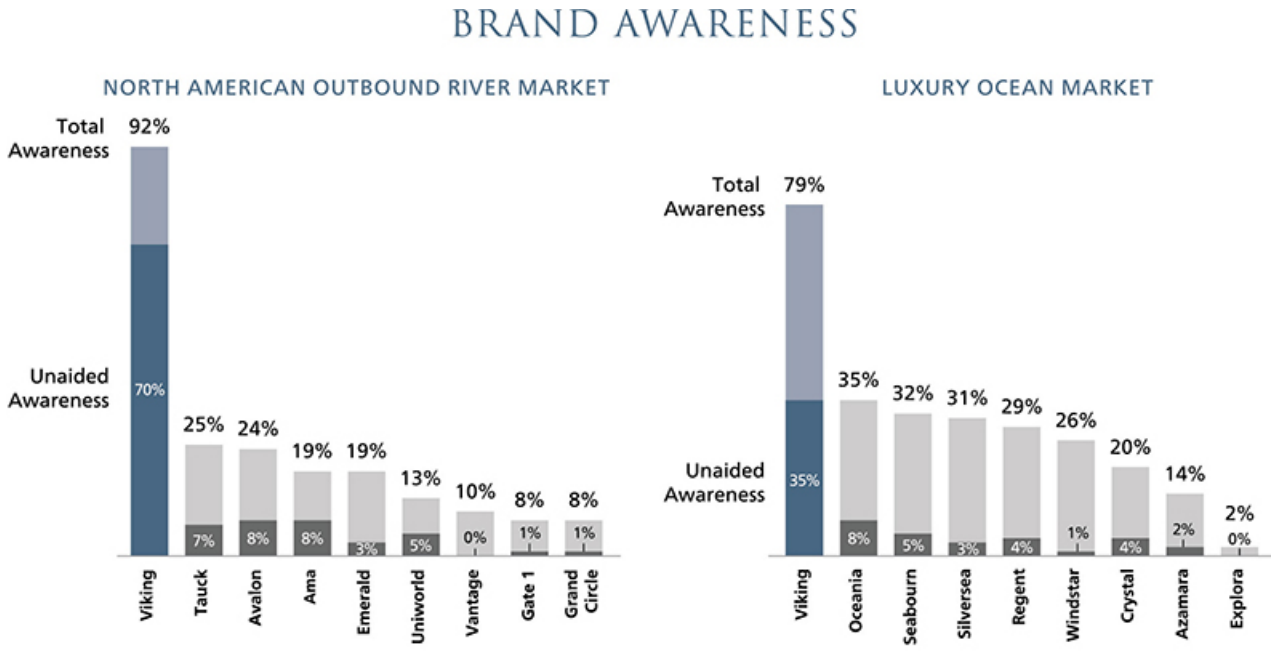
High quality products drive strong guest satisfaction and brand loyalty.

We have a proven track record of delivering high quality travel experiences that resonate with our guests, driving strong guest satisfaction and brand loyalty. As a result, our guests are often our greatest promoters. For the 2024 season, as of June 30, 2024, our Net Promoter Scores were 72 for Viking River, 68 for Viking Ocean and 74 for Viking Expedition. Based on our 2024 season survey, as of June 30, 2024, on a scale of 0 to 10, 79.0% and 76.6% of our Viking River and Viking Ocean guests, respectively, answered “9” or “10” on likelihood of recommending Viking to a friend. All our products are also highly rated by our guests. For the 2024 season, as of June 30, 2024, the average guest quality rating of our products was 3.8 on a 4.0 scale, based on onboard surveys completed by over 65% of our guests.

Our strong guest satisfaction and brand loyalty drive repeat bookings with Viking. For the 2024 season to date, our repeat guest percentage is 53% and more than 50% of our guests booked directly with us. Our new product launches have also experienced overwhelming support from our past guests, with over 60% of bookings for each of the inaugural seasons for Viking Ocean, Viking Expedition and Viking Mississippi made by past guests. We have also seen comparable booking trends by past guests for the launch of new river itineraries in Egypt and Vietnam. Our guests trust us to create best-in-class travel experiences, whether it be a new itinerary for a product they already love or a completely new product experience, and we leverage our strong bookings for future seasons and our robust customer insights practice to help identify and deliver on the needs of our core demographic. Expanding our travel platform enables us to capture a greater portion of our core demographic's travel spend, while reinforcing brand loyalty, building customer lifetime value and increasing our repeat guest percentage, all of which generate shareholder value.

Single Viking brand drives awareness.

For the past 27 years, we have built a single Viking brand that is highly recognized in our target markets and around the world. Today, we are the leading brand in the North American outbound river market and the luxury ocean market. In the second quarter of 2024, we had 92% and 79% total brand awareness for river cruises and ocean cruises, respectively, among our target demographic in the United States. Our total brand awareness for ocean cruises is comparable to the large public cruise lines. Our total brand awareness for river cruises far exceeds the total brand awareness of our nearest competitor in the North American outbound river market and the Mississippi river market.



Source: Based on surveys of approximately 1,000 Americans aged 55 years and older who have cruised or traveled internationally within the past five years or have plans to do so in the next three years and expressed a willingness to cruise, which were collected for us by a third-party during the second quarter of 2024.

With a single Viking brand, our strong brand awareness drives growth for our entire travel platform as all of our products are a consistent extension of the Viking experience. We are also able to streamline our marketing, with word-of-mouth marketing and traditional marketing spend driving brand awareness and growth for all of our products.

Clear customer focus on an attractive demographic.

We are intently focused on our core demographic of curious, affluent travelers aged 55 years and older, which we believe is an attractive segment that has been and continues to be underserved by the travel market.

The U.S. population aged 55 years and older comprises 30% of the total population, has the largest spending power of any demographic based on annual expenditures and holds over 70% of U.S. wealth as measured by the U.S. Federal Reserve. The U.S. population aged 55 years and older is also the fastest growing segment of the population, with expected growth from 98 million people in 2020 to 110 million people in 2030, according to the Congressional Budget Office. Our target demographic has greater financial stability, which can make them more resilient to economic conditions and more willing to invest in high-quality travel experiences, including luxury accommodations, unique excursions and cultural activities. Our target demographic often appreciates comfort, convenience and experiential travel that provides a balance between adventure and luxury. Many of our guests are also retired or approaching retirement, which means they often have flexible schedules that allow them to book earlier and plan for extended travel.

After 27 years, we believe we know our core demographic better than anyone else in the industry and have tailored our products to specifically address their unmet needs in the broader travel market. Leveraging our robust customer insights practice and two decades of experience, we know what our guests expect in their travels—a calm onboard atmosphere, with a destination-focused experience offering cultural or scientific enrichment. Our guests spend their time enjoying the peaceful ambiance of resident musicians, participating in enriching educational opportunities, such as onboard lectures from local historians, or debriefing their exciting day with fellow guests over a delicious meal from the ship's regional specialties menu. At Viking, we think of every detail, so our guests can focus on exploring and learning about their destinations.

Data-driven marketing platform drives demand.

Since 1997, we have invested $3.0 billion across all aspects of marketing. We have been a national corporate sponsor of PBS's Masterpiece Theatre since 2011 when Downton Abbey was on the air, establishing Viking as a household name, and we continue to run television advertisements on other national programming targeting our core demographic, including during NBC's coverage of the Paris Games. We have forged partnerships with prestigious cultural institutions, such as the Los Angeles Philharmonic, the British Museum and the Metropolitan Opera. We also created Viking.tv, one of the travel industry's most extensive libraries of online content. This award-winning free enrichment channel was initially conceived to maintain daily contact with our guests during the COVID-19 pandemic, and continues to stream daily, with over 1,000 unique episodes since first airing. Additionally, we host hundreds of journalists and influencers on board our ships each year, generating robust earned media coverage and social media content. These efforts create a clear path for positive affiliation with the Viking brand—helping move guests from awareness into consideration.

Built over the last 27 years, our marketing database includes more than 56 million North American households, including 1.5 million households that have traveled with us before. While we have always relied on traditional marketing strategies, including direct mail, TV, print and trade marketing, our marketing approach today is omnichannel, with robust digital capabilities and data-driven decision-making. For example, our marketing is underpinned by digital industry tools that provide programmatic execution, machine learning capabilities, look-alike prospecting, online to offline conversions and call tracking, emerging artificial intelligence ("AI") supported functionality and data-driven marketing attribution. The households in our database are modeled and scored for their propensity to book. These scores, combined with our attribution systems and a robust consumer insights practice, direct how we tailor our marketing in order to meet consumers where they are, with the right message at the right time. We also continue to shift our marketing spend towards digital channels.

Once guests travel with us, our marketing positioning is reinforced by a shared experience among individuals seeking travel experiences for the Thinking Person. Our guests connect with each other over mutual interests in history, art, culture and travel, and as a result, countless new friendships are forged on board our ships each year. Approximately 18% of our Viking Ocean and Viking Expedition guests booked their next Viking voyage while on board in 2023—with many planning future trips together with fellow travelers. And, just like the fervent communities formed around beloved books and films, guests self-described as "hooked on Viking" have launched their own fan groups—several of which have amassed more than 40,000 members—on social media platforms where we are able to target them with digital marketing for their next Viking voyage.

Our multiple distribution channels optimize yields and improve margins.

We provide our guests with a variety of ways to seamlessly book their voyages, so that they can transact with us however they are most comfortable. Guests have the option to book with a third-party travel agent or directly with Viking. By offering multiple channels to serve our guests, we reduce friction in the booking process, which optimizes yields. Guests can book directly with Viking through multiple outlets, including our website, via online chat with an agent, over the phone, or on board our ships that have a dedicated travel consultant. For the year ended December 31, 2023 and the 2024 season to date, more than 50% of our guests booked directly with us.

We also partner with travel agencies to generate a significant portion of our sales. We have preferred relationships with large travel agent consortia and we are committed to maintaining and strengthening our relationships with our travel agent partners. With a marketing database that includes more than 56 million North American households, we also believe our marketing spend benefits all distribution channels and drives earlier bookings, including during times of softening demand in the broader travel market.

Early bookings create strong revenue visibility and facilitate long-term planning.

For the 2024 season, we began selling select itineraries more than two years prior to the start of the season. On average for the 2023 season, our guests booked 11 months in advance and paid seven months prior to departure. By generating early demand through our direct marketing, we believe we attain bookings earlier than the large public cruise lines. Additionally, we collect payment earlier than the large public cruise lines, which we believe reduces cancellations. This creates future revenue visibility, which enables us to better manage our capacity and pricing. This visibility also gives us the ability to plan for future ship commitments years in advance.

We have a proven track record of selling Capacity PCDs well in advance of sailing. For our core products, operating capacity is 5% higher for the 2024 season in comparison to the 2023 season and 12% higher for the 2025 season in comparison to the 2024 season. As of August 11, 2024, for our core products, and for the 2024 and 2025 seasons, we had sold 95% and 55%, respectively, of our Capacity PCDs and had $4,642 million and $3,442 million, respectively, of Advance Bookings. Advance Bookings were 14% and 20% higher in comparison to the 2023 and 2024 seasons, respectively, at the same point in time. Advance Bookings per PCD for the 2024 season was $731, 8% higher than the 2023 season at the same point in time, and Advance Bookings per PCD for the 2025 season was $833, 10% higher than the 2024 season at the same point in time.

Young fleet with innovative design drives efficiency and profitability.

At Viking, we build innovative ships that are the right size for the experience. From the outset, we creatively balance competing preferences for smaller ships and spacious, uncrowded shared areas through greater efficiencies in space utilization and operations. No space is wasted onboard, and the overall ship design

thoughtfully optimizes efficiency and profitability. For example, for Viking Ocean, the layout of our ships allows us to operate with fewer crew while still delivering an exemplary level of service. And for Viking River, the unique design of our Longships allows us to comfortably accommodate approximately 20% more guests than typical European river vessels, improving the profitability of our vessels.

As part of our approach to fleet design, our Viking Ocean, Viking Expedition and the majority of our Viking River fleet are identical at the product level, which provides us with many benefits. This simplifies the sales and marketing process as potential guests shop by itinerary versus by specific ship or age of ship and allows older ships to achieve similar yields, even when introducing new ships. From an operational perspective, fleet commonality creates efficiencies around maintenance, as spare parts can be purchased in bulk in advance for unforeseen or planned maintenance, and crew, as crew can be moved around the fleet with minimal additional training. Lastly, our identical fleet gives us operational flexibility to interchange guests between ships in the event of unexpected disruptions, such as when we positioned identical Longships on adjacent sides of low water areas to avoid any cancellations during record low water levels in Europe in 2022. In 2022, 14% of our Rhine River sailings involved ship swaps and these sailings received high guest quality ratings that were comparable to our guest quality ratings for non-impacted Rhine River sailings.

We also have one of the youngest fleets in the industry. As of June 30, 2024, the average age for our fleet available for operations, which excludes six Russia and Ukraine river vessels, was 7.0 years, which is younger than the average age for the large public cruise lines. We believe customers are willing to pay a premium to sail on newer ships, which results in higher yields. A young fleet also has more efficient operations, including from technological advances that result in lower fuel consumption, resulting in stronger margins. A young fleet also requires lower maintenance capital expenditures, which allows us to direct most of our capital expenditures to fleet expansion and the launch of new product offerings, which ultimately means that more of our capital is invested in initiatives designed to grow our revenue and cash flows as opposed to maintaining revenue and cash flows at current levels.

Fuel-efficient fleet designed to meet future environmental regulations.

From the outset, we have designed all of our ships thoughtfully to reduce their fuel consumption, carbon footprint and overall environmental impact. Our Longships are one of the first cruise vessels to be voluntarily certified with the Green Award and are also certified with the European ISO 14001 Environmental Management practices. Our ocean ships, with their sleek hull design and closed-loop scrubbers that allow us to use more cost-efficient fuel, exceed the current requirements of the International Maritime Organization ("IMO") Energy Efficiency Design Index ("EEDI") by approximately 25%, and will exceed the 2025 EEDI requirements by almost 20%. Our expedition ships set a new standard for responsible travel by exceeding the current requirements of the EEDI by nearly 38%. Due to the design choices across our fleet, our fuel costs represented only 5.7% of our Adjusted Gross Margin for the year ended December 31, 2023, favorably positioning us if fuel prices increase or regulations require the use of more expensive fuel types. With only minor modifications, the engines of our Longships, ocean ships, and expedition ships can also operate on hydrotreated vegetable oil ("HVO") renewable diesel, which could reduce greenhouse gases by up to 90% over the fuel's life cycle compared to diesel.

Looking forward, we are working to make our next generation of ocean ships even more environmentally friendly. We have made the principled decision not to invest in liquefied natural gas ("LNG"), which is composed almost exclusively of methane, a greenhouse gas with a global warming potential more than 80 times (over a 20-year period) or 28 times (over a 100-year period) that of carbon dioxide. Instead, we are working on a project for a partial hybrid propulsion system based on liquid hydrogen and fuel cells, which could allow us to operate at zero-emission in the Norwegian Fjords and other sensitive environments.

Seasoned, proven management team committed to long-term shareholder value.

We are a founder-led and inspired organization with an enduring commitment to creating shareholder value over the long-term. In addition to Torstein Hagen, our Chairman and Chief Executive Officer, we benefit from the industry expertise and tenure of our proven management team of Leah Talactac, our Chief Financial Officer, Linh Banh, our Executive Vice President, Finance, Jeff Dash, our Executive Vice President, Head of Business Development, Karine Hagen, our Executive Vice President, Product, Anton Hofmann, our Executive Vice President, Group Operations, Milton Hugh, our Executive Vice President, Sales and Richard Marnell, our Executive Vice President, Marketing, who have all worked together for over 15 years.

Excluding our Chairman and Chief Executive Officer, our management team has an average tenure of 21 years at Viking and 25 years in the travel industry. The same management team revolutionized the river cruising industry with the design and launch of the Longships in 2012, and introduced Viking Ocean in 2015, which marked the industry's first entirely new ocean cruise line in nearly a decade. This team identified a market need for a smaller ship, destination-focused ocean product, which continues to be a key driver in our growth. More recently, this team launched Viking Expedition and Viking Mississippi in 2022, meeting guest demands. Along with launching new products, this team has also been successful in broadening our presence in existing source markets and garnering leading market share and entering new source markets, such as China. From 2020 to June 30, 2024, this team also added 18 new ships to our fleet, including 11 river vessels, four ocean ships, two expedition ships and the *Viking Mississippi*. This team has driven our growth over the past two decades, with our annual guests growing from 80,000 in 2007 to nearly 650,000 in 2023, an increase of over 700%. This team also has a proven record of capitalizing on opportunities as they arise. For example, given our long-term outlook, we have a record of ordering newbuilds, including our initial ocean ships, during off cycles when other cruise operators focused on conserving capital. Currently, we have ordered 25 additional newbuilds through 2029 to capture future demand (two of which are still subject to certain financing conditions).

Our management team has capitalized on opportunities during times of adversity, weathered several economic cycles together and ultimately built Viking to be the company it is today—a household brand name with industry-leading quality ratings, numerous awards and a sizeable market share in the fast-growing luxury cruise market.

Dedicated crew delivers exemplary level of service.

Our crew, with over 9,500 crewmembers from over 90 different countries at the peak of the 2023 season, are dedicated to making our guests' journeys as memorable as possible. Our crew is essential to our success. Our crew's friendliness, attentiveness and attention to detail have garnered us more consumer and industry awards than any other travel company on rivers or oceans. Most importantly, our crew is a significant reason that we receive high satisfaction ratings from our guests.

As part of the Viking family, we care deeply about our crew, and we provide the training, skills and resources needed for them to excel. Our proprietary training program, Viking College, helps our crew learn and grow. We also place great value on promotion from within, rewarding hard work, enthusiasm, initiative and a sense of responsibility and ownership. We aspire to be the employer of choice among cruise lines and our crew retention rate of about 80% as of December 31, 2023 is a source of great pride. Retaining our crew season after season lowers our recruiting and training costs. It also supports our growth—we are able to distribute our tenured crew across our new ships to streamline the hiring and training of new crew. A mix of new and tenured crew on each ship ensures a consistent high quality of service and a familiar onboard experience for our guests as we grow our business.

VIKING STRATEGIES FOR GROWTH

We believe our journey as one of the most recognized luxury travel brands in the world is just beginning. We believe we are well-positioned to drive future growth and profitability with the following strategies, each of which represents a continuation of the proven strategies we have been executing over the past 27 years.

Expand our fleet to address unmet demand from our core demographic.

We believe the travel market for curious, affluent travelers aged 55 years and older continues to be significantly underserved. There is also a general gap between demand and supply in cruising, which we have an opportunity to address.

To capitalize on this growing and unmet demand, we plan to continue expanding our fleet, with the most contracted future ship deliveries in the industry. According to the 2024 Cruise Industry News Orderbook Data (published August 2024), approximately 15% of total new berths coming online globally by 2029 are attributable to ships in the luxury ocean market and our contracted capacity represents approximately 37% of this new comparable supply, positioning us favorably to take advantage of increased demand for cruising within our target market. For Viking River, we have ordered 17 new vessels for delivery by 2026, including 11 river vessels for the European rivers, five river vessels that will operate in Egypt and a chartered river vessel that will travel through Vietnam and Cambodia, and we expect to sustain our market leading position in the river cruising market well into the future. We also have options for eight additional river newbuilds, with four for delivery in 2027 and four for delivery in 2028. For Viking Ocean, we believe there is significant future growth potential, which we will begin to achieve with eight new ocean ships on order for delivery through 2029. We also have options for two additional ocean newbuilds for delivery in 2030. Based on our committed orderbook, we expect a 47.0% increase in total berths for our fleet available for operations, which excludes six Russia and Ukraine river vessels, from 2023 to 2029. Our orderbook, the largest in the cruise industry, is driven by a disciplined strategy that relies heavily on robust consumer insights and market demand assessment, combined with financing and yield considerations.

Note: Orderbook does not include the *Viking Hathor*, which was delivered in August 2024 for operation in Egypt.

As we add new capacity, we conduct extensive research to identify new itineraries that will fill gaps in the travel market for our core demographic. For example, we recently added new itineraries in China and Japan for our core demographic on the *Zhao Shang Yi Dun*, which we are marketing as the *Viking Yi Dun* for our core

demographic. Based on prior experience, we expect new itineraries to inspire past guests to travel again and attract new guests to the Viking brand, which we believe will result in a higher repeat guest percentage and enhanced customer lifetime value at marginal marketing expense.

In addition to growing our fleet and adding new itineraries, we also plan to continue optimizing our inventory of add-on products, such as pre-and post-trip cruise extensions, which unlock additional revenue growth opportunities without significant capital expenditures. Our pre-and post-trip cruise extensions, such as a three-night tour of the historic town of Oxford and Highclere Castle or the real "Downton Abbey," further enrich the destination-focused experience of our itineraries and provide another opportunity for us to connect our guests with the cultures and destinations on our itineraries. In 2023, 37% of our guests purchased a pre-or post-trip cruise extension to take advantage of these opportunities. Pre-or post-trip cruise extensions are currently offered at an average of over $900 per extension and are typically two or three days. In 2023, our guests spent on average $45 per PCD on pre- and post-trip cruise extensions.

Increase guests from outside of North America.

While North America is the largest source market for the cruise industry, generally about 50% of all cruisers globally are from markets outside of North America, according to the Cruise Lines International Association ("CLIA"). In contrast, for the year ended December 31, 2023, 90.5% of our guests came from North America, with the remainder primarily coming from the United Kingdom, Australia and New Zealand. We believe there is significant unmet demand for our core products in the United Kingdom, Australia and New Zealand. We also believe there is an opportunity to source guests for our core products from other markets, such as India, Singapore and the Nordic countries. In order to provide a seamless experience for our guests, all of our onboard and onshore programming is offered in a singular language. For our core products, all programming is in English and for our China Outbound product, all programming is in Mandarin.

Continue to expand Viking China and launch products for new source markets.

The Chinese market is a large source for leisure travel. According to the World Bank and CLIA, there were 154.6 million international departures from China in 2019 and 1.9 million passengers from China traveled on a cruise line in 2019, which made it one of the largest and fastest growing outbound travel markets in the world. While the Chinese outbound market has been slower to rebound from the COVID-19 pandemic, we believe Chinese tourists maintain a strong desire to travel internationally. According to Oxford Economics, China is expected to regain its pre-pandemic share of global outbound visits, which was 7.1% in 2019, by 2026.

In 2016, we brought our brand of curiosity-driven travel to the Chinese source market by launching China Outbound, a river cruise experience in Europe with 100% Mandarin-speaking crew, and food, entertainment and excursions completely dedicated to Chinese guests. As a result, we believe we are uniquely positioned to capitalize on the Chinese market, which represents a continued opportunity for growth. Mandarin-speaking travelers in China, as well as other Asian-source markets, have been historically underserved by the cruise industry and we have identified a sizeable addressable market. We believe we are the only cruise line with a product dedicated to Mandarin-speaking guests in Europe and the launch of China Outbound in 2016 was just the beginning. By leveraging our brand awareness in China and our extensive research into the travel preferences of affluent Mandarin-speaking guests, we plan to continue to develop China Outbound, with the possibility of growing the fleet or expanding to include other offerings, such as ocean cruising. For coastal cruising in China, the China JV Investment's *Zhao Shang Yi Dun* has a competitive advantage in the upper premium cruise line space as it is the only modern cruise ship currently in this market. We have entered into an accommodation purchase agreement with CMV pursuant to which we have the exclusive right to the accommodation and services on board the *Zhao Shang Yi Dun* for sales to Mandarin-speaking populations in China and guests in other Asian countries, including Japan.

There are also opportunities to bring our brand of curiosity-driven travel to other source markets. Similar to China Outbound, new source markets provide an exciting opportunity to tailor our existing products exclusively to these source markets, while leveraging our experience building our core products with a singular language and potentially using a portion of our existing fleet.

Strategically expand our product portfolio.

We believe we can harness our global travel expertise, experienced operational team and deep understanding of our core demographic to further expand our platform. Based on our robust customer insights practice and third-party research, we believe there is considerable demand for other Viking products from our past guests, as well as from our broader core demographic. In particular, we believe there is significant future opportunity to expand beyond floating hotels to create dedicated land-based products given the strong demand for our pre-and post-trip extensions. As our guests generally enjoy multiple forms of travel and take multiple trips per year, land-based product offerings would meet an additional portion of the travel needs of our core demographic. This would enable us to capture a greater share of our guests' travel spend and extend our customer lifetime value and connection to the Viking brand.

FINANCIAL PERFORMANCE

Our financial performance reflects the growing demand for our products, our strong capacity growth and the benefits of our loyal customer base. Our loyal guests book their journeys well in advance, and as a result, we have industry-leading early booking rates, which give us a competitive advantage in allocating capacity, optimizing pricing, managing yield and planning for future ship commitments years in advance. As a result, we are able to generate high margins and leading ROIC among the large public cruise lines. For the year ended December 31, 2023, our ROIC was 27.5%. We have also historically generated substantial net cash flow from operating activities and Adjusted FCF that we have reinvested in our business to support growth. For the year ended December 31, 2023, we generated $1.4 billion in net cash flow from operating activities and $1.0 billion of Adjusted FCF, which translates to an Adjusted FCF Conversion of 92.3%. See "—Summary Consolidated Financial and Other Data" for additional information about ROIC and Adjusted FCF, including a calculation of ROIC and a reconciliation of net cash flow from operating activities to Adjusted FCF. Our strong balance sheet provides flexibility to finance future growth at attractive terms. As of June 30, 2024, we had $1.8 billion of cash and cash equivalents and $5.2 billion of Total Debt.

Like all other companies in the travel industry, our operations were impacted by the COVID-19 pandemic. In March 2020, we were the first cruise line to halt operations. From that point on, we spent significant resources implementing new health and safety protocols, including adding onboard testing laboratories on our ocean and expedition ships. These investments allowed us to restart operations in May 2021, with more than half of our river fleet and all six of our ocean ships operating at the peak of the 2021 season.

By 2022, more of our guests were traveling again. In 2022, 469,935 guests traveled with us, with an Occupancy of 78.4%, and in 2023, 649,669 guests traveled with us (38.2% more than 2022 and 26.7% more than 2019), with an Occupancy of 93.7%. We believe our nimble operations, our experienced, cohesive management team and our consistent execution distinguishes us from other travel businesses and accelerated our recovery, both on a total revenue and an Adjusted EBITDA basis, in comparison to the large public cruise lines.

This strategy resulted in the following results from 2017 to 2023:

- Total revenue increased from $1.9 billion for the year ended December 31, 2017 to $4.7 billion for the year ended December 31, 2023.

Our Series C Preference Shares are no longer outstanding.
- Adjusted EBITDA and Adjusted EBITDA Margin increased from $390.7 million and 28.7%, respectively, for the six months ended June 30, 2023 to $488.1 million and 31.8%, respectively, for the six months ended June 30, 2024.

See "—Summary Consolidated Financial and Other Data" for additional information about Adjusted Gross Margin and Adjusted EBITDA, including a reconciliation of Adjusted Gross Margin to gross margin and a reconciliation of Adjusted EBITDA to net income (loss).

RISK FACTORS

Investing in our ordinary shares involves substantial risks, and our ability to successfully operate our business and execute our growth plan is subject to numerous risks. You should carefully consider the risks described in “Risk Factors” before making a decision to invest in our ordinary shares. If any of these risks actually occur, our business, financial condition or results of operations could be materially and adversely

affected. In such case, the trading price of our ordinary shares would likely decline, and you may lose all or part of your investment. These risks include, among others, the following:

- Changes in the general worldwide economic and political environment could reduce the demand for cruises.
- Adverse weather conditions or other natural disasters, including high or low river water levels, may require us to alter our itineraries or cancel existing cruises.
- Adverse incidents involving cruise ships may adversely affect our business, financial condition and results of operations.
- Disease outbreaks or pandemics have had, and in the future could have, a significant impact on the travel industry generally and on our business and results of operations.
- The threat of terrorist attacks, wars, acts of piracy and other events affecting the safety and security of travel can reduce the demand for cruises or require us to cancel existing bookings.
- Changes in fuel prices would affect the cost of our cruise ship operations and our hedging strategies may not protect us from increased costs related to fuel prices.
- Increased labor costs or our inability to recruit or retain employees may adversely affect our business, financial condition and results of operations.
- Increases in inflation could adversely affect our business, financial condition and results of operations.
- Fluctuations in foreign currency exchange rates could affect our financial results.
- An increase in cruise capacity without a corresponding increase in demand and infrastructure could adversely affect our business, financial condition and results of operations.
- Our success is substantially dependent on the continued service of our senior management.
- Our expansion into new products may be unsuccessful.
- Conducting business internationally may result in increased costs and risks.
- If we experience delays in ship construction or ship repairs, maintenance or refurbishments or changes in costs, our business, financial condition and results of operations could be adversely affected.
- Lack of continuing availability of attractive, convenient and safe port destinations could adversely affect our business, financial condition and results of operations.
- We rely on travel agencies to generate a material portion of our sales.
- Reductions in the availability of and increases in the prices for the services and products provided by our vendors could adversely affect our business and revenues.
- We rely on scheduled commercial airline services to transport our guests to or from the cities where our cruises embark and disembark.
- Credit card processing terms and requirements, adverse changes in guest payment policies, and consumer protection legislation or regulations could negatively affect our financial condition.
- The Viking name and brand are integral to the success of our business.
- Breaches in data security or other disturbances to our information technology systems and networks and operations could adversely affect our business, financial condition and results of operations.
- We are highly leveraged. We have substantial indebtedness and we may not be able to generate sufficient cash to service all of our indebtedness or to obtain additional financing if necessary.

- We are subject to complex laws and regulations, including environmental laws and regulations.
- Amendments to existing tax laws, rules or regulations or enactment of new unfavorable tax laws, rules or regulations could have an adverse effect on our business and financial performance.

IMPLICATIONS OF BEING A FOREIGN PRIVATE ISSUER

We report under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as a foreign private issuer. As a foreign private issuer, we may take advantage of certain provisions under NYSE rules that allows us to follow Bermuda law for certain corporate governance matters.

As long as we continue to qualify as a foreign private issuer under the Exchange Act, we will be exempt from certain provisions of the Exchange Act that are applicable to U.S. domestic public companies, including:

- the rules under the Exchange Act requiring domestic filers to issue financial statements prepared under U.S. generally accepted accounting principles ("GAAP");
- the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations with respect to a security registered under the Exchange Act;
- the sections of the Exchange Act requiring insiders to file public reports of their share ownership and trading activities and liability for insiders who profit from trades made in a short period of time;
- the rules under the Exchange Act requiring the filing with the Securities and Exchange Commission (the "SEC") of quarterly reports on Form 10-Q, containing unaudited financial statements and other specified information, and current reports on Form 8-K, upon the occurrence of specified significant events; and
- Regulation Fair Disclosure ("Regulation FD"), which regulates selective disclosures of material information by issuers.

In addition, as a foreign private issuer, we are not required to file annual reports and financial statements with the SEC as promptly as U.S. domestic issuers. Foreign private issuers are also exempt from certain more stringent executive compensation disclosure rules.

We may take advantage of these exemptions until such time as we are no longer a foreign private issuer. We are required to determine our status as a foreign private issuer on an annual basis at the end of our second fiscal quarter. We would cease to be a foreign private issuer at such time as more than 50% of the voting power of our issued and outstanding share capital is held by U.S. residents and any of the following three circumstances applies: (1) the majority of our executive officers or directors are U.S. citizens or residents; (2) more than 50% of our assets are located in the United States; or (3) our business is administered principally in the United States.

OUR PRINCIPAL SHAREHOLDER

Viking Capital Limited ("our principal shareholder") holds 98,302,850 ordinary shares and 127,704,616 special shares, which represents approximately 87% of the voting power of our issued and outstanding share capital.

In connection with the issuance of Series C Preference Shares to our financial shareholders (as described below), we issued two warrants to our principal shareholder to purchase up to an aggregate of 8,733,400 ordinary shares at an exercise purchase price of $0.01 per ordinary share. The number of warrants that vest is based on either the proceeds to our financial shareholders or the trading price of our ordinary shares starting 180 days after our IPO. The number of warrants that vest depends on the value per ordinary share, with 0% vesting at $15.38 or lower price per ordinary share and 100% vesting at $23.08 or higher price per ordinary share, and linear vesting between $15.38 and $23.08 per ordinary share. The vesting period for each warrant expires upon the later of February 8, 2026, or the sale, distribution or other transfer of 100% of the respective financial shareholder's shares held in us.

Our principal shareholder has the ability to determine the outcome of all matters submitted to our shareholders for approval, including the election and removal of directors and any merger, amalgamation, consolidation or sale of all or substantially all of our assets. See "Risk Factors—Risks Related to this Offering and Ownership of Our Ordinary Shares—Our two-class structure has the effect of concentrating voting control with our principal shareholder, which could limit your ability to influence certain key matters affecting our business and affairs."

As a result of our principal shareholder's ownership, we are a "controlled company" within the meaning of the rules of the NYSE. Under these rules, a company of which more than 50% of the voting power is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of the board of directors consist of "independent directors" as defined under the rules of the NYSE;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- the requirement for an annual performance evaluation of the nominating and corporate governance and compensation committees.

We intend to continue utilizing certain of these exemptions. See "Risk Factors—Risks Related to this Offering and Ownership of Our Ordinary Shares—We are a "controlled company" under the NYSE rules, and we are able to rely on exemptions from certain corporate governance requirements that provide protection to shareholders of companies that are not controlled companies."

OUR FINANCIAL SHAREHOLDERS

Upon the consummation of this offering, CPP Investments will hold 51,852,297 ordinary shares (or 50,508,695 ordinary shares if the underwriters exercise their option to purchase additional ordinary shares in full), which will represent approximately 3.3% of the voting power of our issued and outstanding share capital (or approximately 3.2% of the voting power of our issued and outstanding share capital if the underwriters exercise their option to purchase additional ordinary shares in full).

We entered into the Investor Rights Agreement (as defined herein) with our financial shareholders that includes certain board designation and registration rights. Depending on the size of this offering, our financial shareholders may not maintain the requisite ownership thresholds to retain their rights under the Investor Rights Agreement upon consummation of this offering. The non-IFRS financial measures and operating information are unaudited for all periods.

You should read this information together with our audited consolidated financial statements and related notes appearing elsewhere in this prospectus and the information under the captions "Capitalization" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." Our historical results are not necessarily indicative of our future results. Additionally, our historical results for the years ended December 31, 2020, 2021 and 2022 reflect the impact of COVID-19 on our business. Our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares are no longer outstanding. For the years ended December 31, 2019, 2020, 2021, 2022 and 2023, interest expense included net $54.5 million, $79.5 million, $69.5 million, $94.2 million and $94.8 million, respectively, related to the expense recognized for dividends, amortization of issuance costs and modification gains (losses) for our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares. For the six months ended June 30, 2023 and 2024, interest expense included net $47.3 million and $32.0 million, respectively, related to the expense recognized for dividends and amortization of issuance costs for our Series C Preference Shares.

(3) See Note 22 to our audited consolidated financial statements and Note 15 to our unaudited interim condensed consolidated financial statements included elsewhere in this prospectus for an explanation of the method used to calculate our basic and diluted net (loss) income per ordinary share and special share and the weighted average number of shares used in the computation of per share amounts.

(4) Adjusted EBITDA represents EBITDA (consolidated net income (loss) adjusted for interest income, interest expense, income tax benefit (expense) and depreciation, amortization and impairment) as further adjusted for non-cash Private Placement derivatives gains and losses, loss on Private Placement refinancing, currency gains or losses, stock-based compensation expense and other financial income (loss) (which includes forward gains and losses, gain or loss on disposition of assets, certain non-cash fair value adjustments, restructuring charges and non-recurring items). Adjusted EBITDA Margin represents the ratio, expressed as a percentage, of Adjusted EBITDA divided by Adjusted Gross Margin. Adjusted EBITDA and Adjusted EBITDA Margin are non-IFRS financial measures. Adjusted EBITDA does not comply with IFRS because it is adjusted to exclude certain cash and non-cash expenses. We present Adjusted EBITDA as a performance measure because we believe it facilitates a comparison of our consolidated operating performance on a consistent basis from period-to-period and provides for a more complete understanding of factors and trends affecting our business than measures under IFRS can provide alone. We also believe that Adjusted EBITDA is useful to investors in evaluating our operating performance because it provides a means to evaluate the operating performance of our business on an ongoing basis using criteria that our management uses for evaluation and planning purposes. Because Adjusted EBITDA facilitates internal comparisons of our historical financial position and consolidated operating performance on a more consistent basis, our management also uses Adjusted EBITDA in measuring our performance relative to that of our competitors, assessing our ability to incur and service our indebtedness and in communications with our board of directors concerning our operating performance.

We also believe Adjusted EBITDA is a useful tool because it is frequently used by securities analysts, investors and other interested parties in their evaluation of the operating performance of companies in industries similar to ours. However, our definition of Adjusted EBITDA may not be the same as similarly titled measures used by other companies and does not correspond to the definition of "Consolidated EBITDA" in the indentures governing our senior notes.

Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. For example, Adjusted EBITDA does not reflect:

- cash outlays for capital expenditures, including payments for leases capitalized under IFRS 16, or future contractual commitments;
- interest expense, or the cash requirements necessary to service interest, or principal payments, on indebtedness;
- income tax expense or the cash necessary to pay income taxes;

- cash requirements for assets being depreciated and amortized, which will often have to be replaced in the future;
- losses associated with currency exchanges and forward options, included in other financial income (loss); and
- non-cash stock-based compensation expense.

Because of these limitations, you should rely primarily on net income (loss) as determined in accordance with IFRS and use Adjusted EBITDA only as a supplement. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses similar to those for which adjustments are made in calculating Adjusted EBITDA. Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.

The following tables reconcile net income (loss), the most directly comparable IFRS measure, to Adjusted EBITDA and calculate Adjusted EBITDA Margin for the years ended December 31, 2019, 2020, 2021, 2022 and 2023 and for the six months ended June 30, 2023 and 2024:

(a) Private Placement derivatives loss (gain) represents the non-cash loss (gain) on the remeasurement of the fair value of the derivatives associated with our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares. Our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares are no longer outstanding.

(b) Warrants loss (gain) represents the non-cash loss (gain) on the remeasurement of the warrant liability and is included in other financial loss (income) on the unaudited interim condensed consolidated statements of operations. Warrants loss (gain) was previously included in the Adjusted EBITDA table in other financial (income) loss. Presentation for the years ended December 31, 2019, 2020, 2021, 2022 and 2023 has been updated to conform to the presentation for the six months ended June 30, 2023 and 2024 to reflect warrants loss (gain) as a separate line item.

(5) Adjusted Earnings per Share ("Adjusted EPS") is a non-IFRS financial measure that represents Adjusted Net Income attributable to Viking Holdings Ltd divided by Adjusted Weighted Average Shares Outstanding. We present Adjusted EPS because we believe it provides additional information to us and our investors about the earnings performance of our primary operating business. Adjusted Net Income attributable to Viking Holdings Ltd is a non-IFRS financial measure that represents net income (loss) attributable to Viking Holdings Ltd excluding certain items that we believe are not part of our primary operating business and are not an indication of our future earnings performance. We believe that interest expense and Private Placement derivatives gain (loss) related to our Series C Preference Shares, warrants gain (loss), debt extinguishment and modification costs, gain (loss) on embedded derivatives associated with debt and financial liabilities, impairment charges and reversals and certain other gains and losses are not a part of our primary operating business and are not an indication of our future earnings performance. Adjusted Weighted Average Shares Outstanding represents the diluted weighted average ordinary shares and special shares outstanding, adjusted for outstanding warrants and the impact of RSUs and

stock options under the treasury stock method to the extent not included in diluted weighted average ordinary shares outstanding, as further adjusted in 2024 to reflect the conversion of the Series C Preference Shares and preference shares as if it had occurred at the beginning of the year. We have presented Adjusted EPS for periods beginning in 2024 due to the changes in our capital structure as a result of our IPO.

The following tables show the calculation of Adjusted EPS for the six months ended June 30, 2024. Additionally, the following tables reconcile net loss attributable to Viking Holdings Ltd, the most directly comparable IFRS measure, to Adjusted Net Income attributable to Viking Holdings Ltd and diluted weighted-average ordinary shares and special shares outstanding, the most directly comparable IFRS measure, to Adjusted Weighted Average Shares Outstanding for the six months ended June 30, 2024:

Unaudited Non-IFRS Financial Measures

The following table sets forth certain unaudited Non-IFRS financial measures for the years ended December 31, 2019 and 2023.

	Year Ended December 31, 2019	2023
Adjusted FCF(1) *(in thousands)*	$ 893,893	$ 1,006,079
Adjusted FCF Conversion(1)	117.0%	92.3%
ROIC(2)	26.1%	27.5%

(1) Adjusted FCF represents net cash flow from operating activities as adjusted for interest paid, interest payments for lease liabilities, interest received, and Ongoing Capex, as further adjusted for the cash portion of interest expense related to our Series C Preference Shares. Our Series C Preference Shares will automatically convert into ordinary shares immediately prior to the consummation of this offering. Adjusted FCF Conversion represents the ratio, expressed as a percentage, of Adjusted FCF divided by Adjusted EBITDA. Adjusted FCF and Adjusted FCF Conversion are non-IFRS financial measures. Management believes these are a relevant measure of our liquidity because Adjusted FCF provides additional information on our ability to support the future growth of the business and repay debt after making capital investments to support ongoing business operations and Adjusted FCF Conversion quantifies how efficiently we generate cash on an ongoing basis. Adjusted FCF does not represent the residual cash flow available for discretionary expenditures as it excludes certain mandatory expenditures such as repayment of debt. Adjusted FCF and Adjusted FCF Conversion have limitations as analytical tools, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. The following tables reconcile net cash flow from (used in) operating activities, the most directly comparable IFRS measure, to Adjusted FCF for the years ended December 31, 2019 and 2023.

(2) ROIC is the ratio, expressed as a percentage, of operating income (loss) adjusted for income tax expense, divided by Invested Capital. ROIC is a non-IFRS financial measure. Management believes this is a relevant measure of our performance because it quantifies how efficiently we generated operating income relative to the total capital we have invested in the business. ROIC has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. The tables below show the calculation of ROIC for the years ended December 31, 2019 and 2023.

(1) Adjusted Gross Margin is a non-IFRS financial measure. Management believes this is a relevant measure of our performance because it reflects revenue earned net of certain direct variable costs. Adjusted Gross Margin has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS.

(2) Vessel operating expenses excluding fuel is a non-IFRS financial measure. Management believes this is a relevant measure for evaluating our ability to control costs. Vessel operating expenses excluding fuel has limitations as an analytical tool because it excludes an expense necessary for conducting our operations, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. The following table reconciles vessel operating expenses excluding fuel to vessel operating expenses, the most directly comparable IFRS measure, for the years ended December 31, 2019, 2020, 2021, 2022 and 2023 and for the six months ended June 30, 2023 and 2024:

Operating Information—Advance Bookings

Advance Bookings reflects the aggregate ticketed amount for guest bookings for our voyages at a specific point in time, and include bookings for cruises, land extensions and air. Advance Bookings does not reflect changes to guest reservations after the applicable specific point in time. Advance Bookings are presented in U.S. dollars. As guests from Australia, Canada and the United Kingdom make reservations in local currencies, the ticketed amounts are converted based on the relevant exchange rate. Advance Bookings includes redemptions of vouchers.

For our core products, operating capacity is 5% higher for the 2024 season in comparison to the 2023 season and 12% higher for the 2025 season in comparison to the 2024 season. RISK FACTORS

Investing in our ordinary shares involves a high degree of risk. You should carefully consider the risks and uncertainties described below, in addition to the other information set forth in this prospectus, including the financial statements and the related notes included elsewhere in this prospectus, before purchasing our ordinary shares. If any of the following risks actually occur, our business, financial condition, cash flows and results of operations could be negatively impacted. In that case, the trading price of our ordinary shares would likely decline and you might lose all or part of your investment. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also adversely affect our business, financial condition, cash flows and results of operations.

Risks Related to Our Business, Our Operations and Our Industry

Changes in the general worldwide economic and political environment could reduce the demand for cruises.

The demand for cruises is affected by international, national and local economic and market conditions. Adverse changes in the perceived or actual economic climate in North America or globally, such as volatility in fuel prices, higher interest rates, inflation, stock and real estate market declines or volatility, more restrictive credit markets, higher unemployment rates, higher taxes or changes in governmental policies could reduce the level of discretionary income or consumer confidence in the countries from which we source our guests. Consequently, this may negatively affect demand for cruises, which are discretionary purchases, in these countries. In addition, inflation or any other increase in the cost of goods and services purchased by us as a result of economic and market conditions would increase our operating costs and we may not be able to offset these cost increases without raising prices, which could reduce the demand for cruises. In the event of higher interest rates, we may also experience a change in guest booking and payment patterns as guests may be less likely to pay in full for their cruises for early booking discounts, which may adversely affect our business, financial condition and results of operations. Any decrease in demand for cruise vacations could result in price discounting, which, in turn, could adversely affect our business, financial condition and results of operations. Changes in the general political environment (including an outbreak of armed conflict, such as the Russia-Ukraine and Israel-Hamas conflicts) could also impact economic and market conditions and cause an increase in the cost of goods or affect the supply chain.

Changes in international, national and local political conditions could also reduce the demand for cruises. For example, Russia's adverse relationship with the United States, European countries and others, including as a result of the Russia-Ukraine conflict, has affected the public's attitude towards visiting Russia, Ukraine and other Eastern European countries, which has led to declining demand for cruises in those regions. Likewise, continued political unrest in the Middle East, including as a result of the Israel-Hamas conflict, may adversely affect travel in the region. The threat of additional attacks and of armed hostilities internationally or locally may cause prospective travelers to cancel their plans, including plans for cruise vacations, which may have a material adverse effect on our results of operations and financial condition. Additionally, the United States Department of State has issued advisories regarding travel to Russia, Ukraine and certain countries in the Middle East, impeding the ability of travelers to attain travel insurance and thereby adversely affecting demand for travel to these regions. Even after resolution of the Russia-Ukraine and Israel-Hamas conflicts, there is no guarantee that demand for cruises in these regions will return.

Adverse weather conditions or other natural disasters, including high or low river water levels, may require us to alter our itineraries or cancel existing cruises.

Our operations may be impacted by adverse weather patterns, natural disasters or environmental changes, such as hurricanes, high or low river water levels, earthquakes, floods, fires, tornados, tsunamis, typhoons or volcanic eruptions. These events could result in, among other things, alterations to our itineraries or cancellations of cruises, shore excursions or pre- and post-trip cruise extensions, which could adversely affect our business, financial condition and results of operations.

For example, in 2018 and 2022, several regions in Europe experienced significant low water conditions, which resulted in the disruption or cancellation of certain river cruises. To minimize the impact of these disruptions, we continued our passengers' journeys on the disrupted cruises by transferring them between our fleet of identical Longships, which we positioned on adjacent sides of the low water areas. In instances where cruises are disrupted or cancelled as a result of adverse weather conditions or other natural disasters, we provide cash refunds or issue future cruise vouchers.

Extreme weather events, such as hurricanes, floods and typhoons, natural disasters and other environmental changes may not only cause disruptions, alterations or cancellations of cruises, shore excursions or pre- and post-trip cruise extensions, but may also adversely affect commercial airline flights and other transport or prevent our guests from electing to cruise altogether. For example, the 2010 volcanic eruptions at Eyjafjallajôkull in Iceland resulted in a six-day air travel ban across western and northern Europe, with 95,000 flights cancelled. Such extreme events may also disrupt the supply of provisions, fuel or shore power, and may limit our ability to safely embark and disembark our guests. In addition, these extreme events could result in increased wave and wind activity, which would make it more challenging to sail and dock our ships. These events could have an adverse impact on the safety and satisfaction of cruising and could have an adverse impact on our business, financial condition and results of operations.

Adverse incidents involving cruise ships may adversely affect our business, financial condition and results of operations.

The operation of cruise ships carries an inherent risk of loss caused by adverse weather conditions and maritime disasters, including, but not limited to, oil spills and other environmental mishaps, extreme weather conditions such as hurricanes, floods and typhoons, volcanoes, earthquakes, rogue waves, tsunamis, fire, mechanical failure, collisions, human error, war, terrorism, piracy, political action, civil unrest or insurrection in various countries. Any such event may result in loss of life or property, loss of revenue or increased costs. If there is a significant accident, mechanical failure or similar problem involving a ship, we may also have to place the ship in an extended dry-dock period for repairs, which could result in material lost revenue or significant expenditures. The operation of our fleet also involves the risk of other incidents at sea or while in port, including missing guests, inappropriate crew or guest behavior, an outbreak of illness onboard or onboard crimes, which may bring into question guest safety, may adversely affect future industry performance and may lead to litigation against us. Although we place guest safety as the highest priority in the design and operation of our fleet, we have experienced accidents and other incidents involving our cruise ships, including the partial evacuation of the *Viking Sky* in Norway in 2019, the collision involving the *Viking Sigyn* in Budapest in 2019 and the rogue wave that hit the *Viking Polaris* in 2022. There can be no assurance that similar events will not occur in the future. It is possible that we could be forced to cancel cruises or alter itineraries due to these factors or incur increased port-related and other costs resulting from such adverse events. Any such event involving our cruise ships or other cruise ships may adversely affect guests' perceptions of safety or result in increased governmental or other regulatory oversight. An adverse judgment or settlement in respect of any of the ongoing claims or any future claims against us may also lead to negative publicity about us.

Maintaining a good reputation is also critical to our business. Reports, whether true or not, of ship accidents and other incidents at sea or while in port can result in negative publicity, cruise cancellations, employee absenteeism or the perception that cruising is more dangerous than other vacation alternatives. The considerable expansion in the use of social media over recent years has compounded the potential scope of the negative publicity that could be generated by those incidents. Anything that damages our reputation, whether or not justified, including adverse publicity about the safety and guest satisfaction of cruising, even if such publicity is not directly related to our operations, could have an adverse impact on demand, which could lead to price discounting and a reduction in our sales and could adversely affect our business, financial condition and results of operations.

Disease outbreaks or pandemics have had, and in the future could have, a significant impact on the travel industry generally and on our business and results of operations.

In the event of a disease outbreak or pandemic, we could be adversely impacted by the following:

- negative publicity regarding cruising, including as a result of the initial responses and measures taken by us or other cruise lines in response to a disease outbreak or pandemic, and public perceptions of the safety of cruising, including as a result of governmental guidance, such as advisories issued by the U.S. Centers for Disease Control and Prevention;
- governmental restrictions or shutdowns, including the closure of borders or the closure or congestion of certain ports to our ships, which may change from time to time due to the fluid nature of a pandemic;
- reduction in demand or an increase in guest cancellations, and as a result, reductions in booking rates, future revenues and cash flow;
- reduction in our revenues and cash flows as a result of changes to our cancellation policies, and issuances, or redemptions, of vouchers for cancelled or disrupted cruises;
- increased costs as a result of measures required to be taken, or that we elect to take, to protect the safety of our guests and crew, including potential increased investments in medical testing equipment and supplies, costs of health screenings for our guests and crew, enhanced cleaning and disinfecting protocols, measures with respect to food and beverage service and compliance with any regulations or policies regarding reduced occupancy or social distancing;
- increased costs or interruptions of service for airlines, ports or any of the other key vendors in our supply chain, including travel agencies, hotel, restaurant and shore excursion suppliers;
- supply chain issues caused by restrictions on movement of goods, impacting our ability to provide our guests with food, linens or toiletries; and
- potential lawsuits stemming from exposure to illnesses.

For example, in 2020 and 2021, the COVID-19 pandemic resulted in significant disruption and additional risks to our business, the cruise industry and the global economy such as those discussed above. In particular, on March 11, 2020, we became the first cruise line to announce a suspension of worldwide cruise operations and we did not resume any operations until May 2021 when we began operating select ocean cruises, which were limited to certain locations and reduced occupancy. In an attempt to limit the spread of COVID-19, various governments also imposed travel restrictions, restricted business activities or closed ports to cruise ships, which made travel exceedingly complicated.

The extent of the impact of a disease outbreak or pandemic on our business, financial condition and results of operations depends on many factors, including the duration, spread and severity of the outbreak, any resurgence or new variants, the duration and geographic scope of related travel advisories and restrictions, the extent of the impact on overall demand for travel, the impact on unemployment rates and consumer discretionary spending and our ability to reduce expenses and conserve cash as needed, all of which are highly uncertain and cannot be predicted. Our core demographic may also be more apprehensive about traveling during, or following, a disease outbreak or pandemic given their age profile, which could have a significant impact on our business, financial condition and results of operations.

Actions taken by us in response to a disease outbreak or pandemic, either to conserve cash, increase demand for our cruises or otherwise, may also affect our business, financial condition and results of operations for periods following containment of the outbreak. Specifically, since 2020, when we have cancelled sailings, guests have generally had the option to receive either a refund in cash or a voucher. In addition, for bookings made through June 30, 2022, we temporarily updated our cancellation policies to give our guests the option to cancel cruises closer to the date of departure and receive Risk Free Vouchers instead of incurring cancellation penalties. If guests use vouchers, including Risk Free Vouchers, to book cruises in future periods, our cash flow from bookings in those periods will be lower.

The threat of terrorist attacks, wars, acts of piracy and other events affecting the safety and security of travel can reduce the demand for cruises or require us to cancel existing bookings.

Demand for cruises has been, and is expected to continue to be, affected by the public's attitude towards the safety and security of travel. For example, the terrorist attacks in the United States on September 11, 2001, in France on November 13, 2015 and in Belgium on March 22, 2016 had a significant adverse impact on demand and, consequently, pricing for cruises and other travel and vacation options. The threat or possibility of future terrorist acts, an outbreak of hostilities or armed conflict or the possibility or fear of such events, political unrest and instability, the issuance of travel advisory warnings or elevated national threat warnings by national governments, an increase in the activity of pirates or other geopolitical uncertainties could have a similar adverse impact on the demand for cruises in the future. The continuation of the Russia-Ukraine and Israel-Hamas conflicts could similarly have an adverse impact on demand for travel in Europe, the Middle East and in nearby regions. Any decrease in demand for cruises could impact our pricing, yields and booking curves, which could adversely affect our business, financial condition and results of operations.

Adverse political conditions and events, such as an outbreak of hostilities or armed conflict, could also require us to modify or cancel existing bookings, which would result in greater refunds, lower capacity utilization and reduced reliability of bookings as an indicator of future revenues. For example, due to political unrest in Ukraine at the time, we decided not to operate certain itineraries for the 2015 to 2017 seasons. Beginning with the onset of the Russia-Ukraine conflict in 2022, we decided not to operate our Ukraine and Russia itineraries and we continue not to have any of these itineraries for sale. Currently, we have one river vessel in Ukraine and five river vessels in Russia. In 2022, we recognized a $28.6 million impairment to decrease the carrying value of these vessels to their estimated values in use of zero. Additionally, beginning in October 2023, the Israel-Hamas conflict caused us to reroute ocean itineraries with stops in Israel and to cancel pre- and post-trip cruise extensions in Israel. If the Russia-Ukraine or Israel-Hamas conflicts are not resolved or there is an outbreak or escalation of hostilities in other regions, it may lead to cancellations or adjustments in our sailing routes in future seasons, or it could result in the impairment or loss of other ships, which could adversely affect our business, financial condition and results of operations.

Changes in fuel prices would affect the cost of our cruise ship operations and our hedging strategies may not protect us from increased costs related to fuel prices.

For the year ended December 31, 2023, fuel costs were 14.4% of our vessel operating expenses. The cost of fuel rose substantially in 2022 and remained high throughout 2023 and 2024. Increases in the cost of fuel globally, including as a result of global inflation, geopolitical events, including the Russia-Ukraine and Israel-Hamas conflicts, or regulatory requirements that require us to use more expensive types of fuel would increase our fuel costs. Any increase in the cost of fuel or increase in our fuel consumption, or any regulations requiring the use of more expensive fuel types, would increase our operating costs and we may be unable to implement fuel conservation initiatives and other practices to help offset these fuel cost increases. An increase in fuel prices not only affects our fuel costs, but also some of our other expenses, such as crew travel, freight and commodity prices and the price of airfare for our guests, which, in turn, could increase our expenses and have an adverse effect on our business, financial condition and results of operations. Despite any fuel financial instruments, we are currently a party to, or may enter into in the future, increases in fuel prices could have a material adverse effect on our business, financial condition and results of operations. Our risk management program may not be successful in mitigating higher fuel costs, and any price protection provided may be limited due to market conditions. To the extent that we use derivative contracts that have the potential to create an obligation to pay upon settlement if fuel prices decline significantly, such derivative contracts may limit our ability to benefit fully from lower fuel costs in the future as a result of payments we may be required to make in connection therewith. There can be no assurance that our derivative arrangements will be cost-effective, will provide any particular level of protection against rises in fuel prices or that our counterparties will be able to satisfy their obligations under our derivative arrangements. Additionally, deterioration in our financial condition could negatively affect our ability to enter into new derivative contracts in the future.

Increased labor costs or our inability to recruit or retain employees may adversely affect our business, financial condition and results of operations.

We must continue to recruit, retain and motivate our employees in order to maintain our current business and support our projected growth. We need to hire and train a considerable number of qualified crew members to staff our ships and in some jurisdictions, we are subject to legal or regulatory requirements that limit the available labor pool to select nationalities. Factors outside of our control, including, but not limited to, high demand for skilled employees with limited supply, labor shortages, other general inflationary pressures or changes in applicable laws and regulations, could make it more difficult for us to attract and retain employees generally and could require us to enhance our wage and benefits packages. This may require significant efforts on the part of our management team, and our inability to hire a sufficient number of qualified crew members could adversely affect our business, financial condition and results of operations. Currently, we are party to a collective bargaining agreement with the Norwegian Seafarers' Union and the Associated Marine Officers' and Seamen's Union of the Philippines to set out the terms and conditions of certain employees on our ships, except for those ships registered in the Ordinary Norwegian Registry. Any future amendments to such collective bargaining agreements or inability to satisfactorily renegotiate such agreements may increase our labor costs and have a negative impact on our financial condition. In addition, although our collective bargaining agreements have a no-strike provision, they may not prevent a disruption in work on our ships in the future. Any such disruptions in work could have a material adverse effect on our financial results.

Increases in inflation could adversely affect our business, financial condition and results of operations.

Many of the factors affecting us, our guests and our vendors are outside of our control. Global economic factors such as inflation, which may cause increases in fuel prices and labor costs as discussed above, may increase our operating costs and have a negative impact on our business. In June 2022, inflation rates reached their highest levels in approximately three decades in the United States. Although the inflation rate has subsequently decreased, in this inflationary environment, we experienced increases in our operating costs due to the rising cost of labor, fuel, food and other services and products provided by our vendors. Continued elevated levels of inflation in the United States, Europe and the other countries in which we operate creates significant uncertainty around costs and could adversely affect our business, financial condition and results of operations. In addition, concerns about inflation may cause our guests to save money and postpone traveling with us, which could adversely affect our business, financial condition and results of operations.

Fluctuations in foreign currency exchange rates could affect our financial results.

We earn revenue, pay expenses and incur liabilities in countries using currencies other than the U.S. dollar. The most significant non-U.S. dollar currency for our business is the euro, as a substantial portion of our operating expenses and costs of newbuilds are in euros. Because our consolidated financial statements are presented in U.S. dollars, we must translate revenues and expenses, as well as assets and liabilities, into U.S. dollars at exchange rates in effect during or at the end of each reporting period. As a result, fluctuations in foreign currency exchange rates, particularly the weakening of the U.S. dollar against other major currencies, unless effectively hedged, could adversely affect our business, financial condition and results of operations.

For the year ended December 31, 2023, 12.0%, of our total revenue was generated in currencies other than the U.S. dollar. For the year ended December 31, 2023, 31.1% of total commissions and transportation costs, direct costs of cruise, land and onboard, vessel operating and selling and administration expenses were incurred in currencies other than the U.S. dollar. For these expenses, we estimated that a 10% increase or decrease in the value of the U.S. dollar against the euro, with all other variables held constant, would have resulted in a $80.3 million effect on our loss before income taxes for the year ended December 31, 2023 not taking into consideration any hedging activities.

Additionally, certain of our loans are denominated in currencies other than the U.S. dollar, primarily the loans associated with financing the *Viking Neptune* and the *Viking Saturn,* which are denominated in euros.

Based on our outstanding *Viking Neptune* and *Viking Saturn* loan balances as of December 31, 2023, a 10% increase or decrease in the value of the U.S. dollar against the euro, with all other variables held constant, would have resulted in a $65.5 million decrease or increase on the balance of the bank loans.

Because we operate globally, we are exposed to foreign exchange risks in the form of both transaction risks and translation risks. Our policy is to monitor our exchange rate exposure and determine if we should enter into financial transactions, such as hedges, to completely or partly mitigate risks resulting from fluctuating currency exchange rate movements. In 2022, we entered into forward foreign currency contracts to purchase €235.0 million at an average euro to U.S. dollar rate of 1.05, with maturities on various dates in 2023. In 2023, we entered into €470.0 million in forward foreign currency contracts at an average euro to U.S. dollar rate of 1.09, with maturities on various dates in 2024. In 2024, we entered into €470.0 million in forward foreign currency contracts at an average euro to U.S. dollar rate of 1.10, with maturities on various dates in 2025. There can be no assurance, however, that our decisions on whether to enter into hedges and any hedges we enter into will prove successful in mitigating the potentially negative impact of exchange rate fluctuations. Additionally, significant volatility in the relevant exchange rates may increase our hedging costs, as well as limit our ability to hedge our exchange rate exposure. In particular, we may not adequately hedge against unfavorable exchange rate movements, including those of certain emerging market currencies, which could have an adverse effect on our financial condition and results of operations.

An increase in cruise capacity without a corresponding increase in demand and infrastructure could adversely affect our business, financial condition and results of operations.

We continue to expand our fleet. These increases in capacity may cause us to experience reduced Occupancy and engage in discounted pricing, which could adversely affect our business, financial condition and results of operations. We also base our fleet expansion decisions on certain assumptions regarding future guest demand. We can give no assurance that future guest demand will be as expected and various factors, including factors outside of our control, could negatively affect demand for our cruises.

In addition, there can be no guarantee that there will be sufficient infrastructure to support an increase in cruise capacity. As the size of the cruise industry increases, the availability of docking space and ports of call on routes on which we operate could become scarce. If we are unable to secure sufficient docking space or ports of call that are convenient to the cultural attractions and excursions we offer, our guests' experiences and our operations could be adversely affected. Similarly, an increasing supply of cruises could adversely affect our ability to attract and train qualified cruise personnel and access desirable local hotels, buses and tour guides in locations in which we operate. Any of these factors could lead to a limitation of our future growth and adversely affect our ability to grow our business.

Overcapacity and competition in the cruise and land-based vacation industry may lead to a decline in our cruise sales, pricing and destination options.

We may be impacted by increases in capacity in the cruise and land-based vacation industry, which may result in capacity growth beyond demand, either globally or for a region, or for a particular itinerary. We face competition from other cruise brands on the basis of overall experience, destinations, types and sizes of ships and cabins, travel agent preferences and value. In addition, we compete with land-based vacation alternatives throughout the world on the basis of overall experience, destinations and value.

Our success is substantially dependent on the continued service of our senior management.

Our success is substantially dependent on the continued service of our senior management, including our Chairman of our board of directors and Chief Executive Officer. The loss of the services of our senior management could make it more difficult to successfully operate our business and achieve our business goals. We also may be unable to retain existing management who are critical to our success, which could result in harm

to our guest and employee relationships, loss of key information, expertise or know-how and unanticipated recruitment and training costs.

We have not obtained key man life insurance policies on any member of our senior management team. As a result, we would not be protected against the associated financial loss if we were to lose the services of members of our senior management team.

We operate in a highly competitive industry and we may not be able to compete effectively.

The cruise industry is highly competitive, and we expect that competition will continue to increase. We face significant competition both on the basis of pricing and in terms of the types of ships, services, itineraries and destinations being offered. Our principal competitors within the river cruise industry include such companies as AMA Waterways, Inc., Avalon Waterways, Emerald Cruises, Tauck, and Uniworld River Cruises, Inc. Our principal competitors within the ocean cruise industry include premium and luxury ocean cruise operators such as Azamara Cruises, Celebrity Cruises, Crystal Cruises, Holland America Line, MSC Explora, Oceania Cruises, Princess Cruises, Regent Seven Seas Cruises, Seabourn Cruise Line and Silversea Cruise Holding Ltd. Our Viking Expedition product faces competition from companies such as Hurtigruten Expeditions, Lindblad Expeditions, Pearl Seas Cruises, Ponant, Quark Expeditions and Silversea Cruise Holding Ltd. The Viking Mississippi product competes with American Cruise Lines. We also face competition from land-based vacation alternatives, such as hotels and resorts, package holidays, tours, vacation ownership properties, casinos and tourist destinations throughout the world. In the event that we do not compete effectively, our business, financial condition and results of operations could be adversely affected.

Our expansion into new products may be unsuccessful.

We regularly evaluate opportunities to expand our itineraries and product offerings. We launched Viking Expedition in January 2022 and Viking Mississippi in September 2022. We believe there remain significant opportunities to expand our itineraries and product offerings. Expansion into new products requires significant levels of investment, start-up costs and attention from management. We also believe there may be opportunities to expand our business beyond the cruise market. There can be no assurance that these cruise or non-cruise products will develop as anticipated or that we will have success in these products. If we do not, we may be unable to recover our investment to expand our business into these markets and may forgo opportunities in more lucrative products, which could adversely affect our business, financial condition and results of operations.

Our expansion into the China market, including China Outbound and the China JV Investment, may not be successful.

During 2016, we launched European river cruise itineraries that are designed specifically for guests from the Chinese outbound travel market. As a result of government-imposed travel restrictions preventing outbound travel, we did not operate China Outbound in 2020, 2021 or 2022. Although we resumed our China Outbound operations in June 2023 with two Longships, there are no assurances that government-imposed travel restrictions will remain lifted, that Chinese guests will be attracted to our product or that this product will produce the anticipated rate of return we expect, or at all, which, in turn, could adversely affect our business, financial condition and results of operations. The Chinese government could, from time to time, also change its policies toward international travel by its citizens, which could reduce demand for China Outbound or create a shortage of qualified crew members for China Outbound. Geopolitical developments in the Asia-Pacific region, including any outbreak or escalation of armed conflict in the region, could also result in reduced international travel by Chinese citizens.

We are also required to obtain applicable permits and approvals from different regulatory authorities in China to operate China Outbound. If we are unable to obtain or maintain access to any of the required permits,

licenses or approvals, we may be subject to various penalties, such as fines or suspension of operations in these regulated businesses, which could severely disrupt China Outbound. As a result, our business, financial condition and results of operations may be adversely affected.

In addition, in 2020, we entered into the China JV Investment with a subsidiary of China Merchants Group to build a cruise line servicing the Mandarin-speaking populations in China. There can be no assurance that this new cruise line will develop as anticipated or that the China JV Investment will be successful. If the China JV Investment is not successful, we may be unable to recover our investment, which could adversely affect our business, financial condition and results of operations. Geopolitical developments in the Asia-Pacific region could also impact the success of the China JV Investment.

Further, operating in China also exposes us to political, legal and economic risks. In particular, the political, legal and economic climate in China, both nationally and regionally, is fluid. Our ability to operate in China may be adversely affected by changes in U.S. and Chinese laws and regulations, such as those related to, among other things, taxation, import and export tariffs, trade, financial and economic sanctions, intellectual property, data privacy, cybersecurity, currency controls, network security, employee benefits, environmental regulations, land use rights and other matters. In addition, Chinese trade regulations are in a state of flux, and our operating activities in China may become subject to other forms of taxation, tariffs and duties in China. If any of these events occur, our expansion into the China market could be adversely affected, which could adversely affect our business, financial condition and results of operations.

Our entry into the China JV Investment exposes us to certain risks associated with jointly owned investments.

As part of our entry into the China market, we entered into the China JV Investment with a subsidiary of China Merchants Group, to together build a cruise line servicing the Mandarin-speaking populations in China. We have a 10% interest in CMV, the entity that contracts with passengers and owns and operates the China JV Investment's first ship, the *Zhao Shang Yi Dun*. We have entered into an accommodation purchase agreement with CMV pursuant to which we have the exclusive right to the accommodation and services on board the *Zhao Shang Yi Dun* for sales to Mandarin-speaking populations in China and guests in other Asian countries, including Japan. These types of investments involve risks not otherwise present in operations run solely by us, including: (1) we do not have full decision-making authority over the China JV Investment; (2) where we do not have full decision-making authority, we may experience impasses or disputes with the other owner on certain decisions, which could require us to expend additional resources to resolve such impasses or disputes, including litigation or arbitration; (3) the other investee in the China JV Investment may fail to fund their share of required capital contributions or fail to fulfill their other obligations; (4) the arrangements governing the China JV Investment may contain certain conditions or milestone events that may never be satisfied or achieved; (5) the other investee in the China JV Investment may have business or economic interests that are inconsistent with ours and may take actions contrary to our interests; (6) we may suffer losses as a result of actions taken by the other investee in the China JV Investment; and (7) it may be difficult for us to exit these investments if an impasse arises or if we desire to sell our interest for any reason. In addition, we may, in certain circumstances, be liable for the actions of the China JV Investment or the other investee in the China JV Investment. Any of the foregoing risks could have a material adverse effect on our business, financial condition and results of operations.

Our expansion into the Mississippi River cruise market requires us to comply with various U.S. laws, including the U.S. Passenger Vessel Services Act (the "PVSA"), and we can give no assurance that our potential expansion into this river cruise market will be successful.

In connection with our expansion into the Mississippi River cruise market, we have to comply with various U.S. laws, including the PVSA. The PVSA is similar to Section 27 of the Merchant Marine Act of 1920 (the "Jones Act"), which governs cargo vessels, and restricts domestic marine transportation of passengers in the United States to vessels built and documented in the United States, manned by U.S. citizens and owned by U.S. citizens. There have also been attempts to amend the PVSA and other U.S. regulations, and such attempts are

expected to continue in the future. Significant amendments to the PVSA or other U.S. regulations could impact our expansion into the Mississippi River cruise market. In addition, we can give no assurance that our expansion into the Mississippi River cruise market will continue to comply with these various laws.

We have a time charter with an affiliate of Edison Chouest Offshore (the "Mississippi Ship Owner") to charter a U.S. flagged river cruise ship for operation on the Mississippi River, which we took delivery of in 2022. Although the Mississippi Ship Owner has represented to us that it complies with the U.S. ownership requirements of the PVSA and has obtained from the U.S. Department of Transportation Maritime Administration ("MARAD") written confirmation that our time charter structure meets MARAD's requirements to be classified as a permissible time charter, we cannot ensure that the Mississippi Ship Owner will continue to meet the definition of a U.S. owner or that our time charter structure will continue to comply with the PVSA. Our time charter structure may also be reviewed or challenged from time to time by U.S. regulators or our competitors. For example, on January 1, 2021, Congress adopted Section 3502(b) of the National Defense Authorization Act for Fiscal Year 2021, which requires MARAD to make publicly available a detailed summary of requests for MARAD confirmation that a vessel charter for a passenger vessel qualifies as a time charter encompassed by the general foreign transfer approval pursuant to 46 C.F.R. 221.13(a). These provisions do not amend or change any of the legal requirements relating to the time charter structure approved by MARAD, but do require publication of detailed summaries of any requests that are made (including the request from the Mississippi Ship Owner) and public comments to such requests are permitted by MARAD. In addition, in May 2022, one of our competitors brought an action in the United States Court of Appeals for the Second Circuit against MARAD, challenging MARAD's decision concluding that the arrangement is a permissible time charter. In March 2024, the Second Circuit upheld MARAD's decision.

In addition, if the Mississippi Ship Owner defaults under its ship financing arrangements, its lenders would have the right to foreclose on the ship, which could cause the ship chartered by us for operation on the Mississippi River to no longer be owned by a U.S. owner. If the ship chartered by us for operation on the Mississippi River is no longer owned by a U.S. owner for any reason, including as a result of a foreclosure, we may not be able to operate our Mississippi River itineraries or recover our investment, which could result in a substantial loss of revenue, which, in turn, could adversely affect our business, financial condition and results of operations.

In addition, while there are similarities between our existing river cruise business and the Mississippi River cruise market, this is our first entry into the U.S. river cruise market and we can give no assurance that we will be able to successfully implement our business model and strategy. We may not be able to attract a sufficiently large number of guests for the ships that we plan to time charter in order to recover our investment, which could adversely affect our business, financial condition and results of operations.

Our business is seasonal, and we may not be able to generate revenue that is sufficient to cover our expenses during certain periods of the year.

The demand for our cruises is seasonal, with the greatest demand for cruises generally occurring during the Northern Hemisphere's summer months. This seasonality in demand has resulted in fluctuations in our revenue and results of operations. The seasonality of our results is increased due to most river vessels being taken out of service generally from November to March. Accordingly, seasonality in our operations could adversely affect our ability to generate sufficient revenue to cover the expenses we incur during certain periods of the year.

We have experienced significant growth. If we fail to effectively manage our growth, our business, financial condition and results of operations may suffer.

We have experienced significant growth, which has placed, and will continue to place, significant demands on our management, employees and our operational, financial and technology infrastructure (including internal controls). Our growth strategy has required, and will continue to require, us to commit substantial operational,

financial and technical resources to develop and improve our reporting systems and procedures, information technology systems and networks and other internal controls in the United States, Europe and elsewhere. Continued growth will require us to recruit, train and retain additional highly skilled personnel. If we fail to effectively enhance our internal controls and manage our growth, our business, results of operations and financial condition may suffer.

We may not be fully insured against all risks, and we may not be able to obtain insurance for certain risks at reasonable rates.

We seek to maintain comprehensive insurance coverage at commercially reasonable rates, subject to market availability at any time. The limits of insurance coverage we purchase are based on the availability of the coverage, evaluation of our risk profile and cost of coverage. We do not carry business interruption insurance and accordingly we have no insurance coverage for loss of revenues or earnings from our ships or other operations. Accordingly, we are not protected against all risks and cannot be certain that our coverage will be adequate for liabilities actually incurred, which could result in an unexpected decrease in our revenue and results of operations in the event of an incident.

In addition, we have been and may continue to be subject to calls, or premiums, in amounts based not only on our own claim records, but also the claim records of all other members of the protection and indemnity associations through which we maintain protection and indemnity insurance coverage. Our payment of these calls could result in significant expenses to us, which could reduce our cash flows. If we were to sustain significant losses in the future, our ability to obtain insurance coverage or coverage at commercially reasonable rates could be adversely affected.

Conducting business internationally may result in increased costs and risks.

We operate our business internationally and plan to continue to develop our international presence. Operating internationally exposes us to a number of risks, including hostility from local populations, restrictions and taxes on the withdrawal of foreign investment and earnings, government policies against the cruise business, infringement of third-party intellectual property rights, difficulties in enforcing our intellectual property against infringers, stringent data privacy regulations, costly cybersecurity requirements, investment restrictions or requirements, diminished ability to legally enforce our contractual rights in foreign countries, foreign exchange restrictions and fluctuations in foreign currency exchange rates, difficulty obtaining or renewing foreign permits, approvals or licenses necessary to operate in foreign countries, trade barriers, withholding and other taxes on remittances and other payments by subsidiaries, and changes in, and application of, foreign taxation structures, including value added and excise taxes. If we are unable to address these risks adequately, our business, financial condition and results of operations could be adversely affected.

Risks Related to Our Dependence on Third Parties

If we experience delays in ship construction or ship repairs, maintenance or refurbishments or changes in costs, our business, financial condition and results of operations could be adversely affected.

Our fleet may require repairs, maintenance or refurbishments. We also continue to expand our fleet and are dependent on shipyards to build our new ships. Constructing, refurbishing, maintaining and repairing ships are complex processes that involve numerous risks, such as delays in completion and changes in costs. In addition, if the shipyards or subcontractors who construct, repair, maintain or refurbish our ships experience work stoppages, financial instability, insolvencies or other difficulties that are beyond our control and the control of the shipyards or their subcontractors, the delivery of our ships under construction or the repair, maintenance or refurbishment of our existing ships may be impaired or delayed. Although our contracts for new ships include penalties for delays in delivery by the shipyards, these penalties will not fully cover the losses and negative effects we will suffer from such delays. As a result, any failure to construct, repair, maintain or refurbish our ships on time, or at

all, could require us to cancel planned departures and adversely affect our business, financial condition and results of operations. In addition, the consolidation of control of certain shipyards and increased demand for new ships, could result in less shipyard availability, thus reducing competition and increasing prices. Finally, the lack of qualified shipyard repair facilities could result in the inability to repair and maintain our ships on a timely basis. These potential events and the associated losses, to the extent that they are not adequately covered by contractual remedies or insurance, could adversely affect our business, financial condition and results of operations.

Lack of continuing availability of attractive, convenient and safe port destinations could adversely affect our business, financial condition and results of operations.

We believe that attractive, convenient and safe port destinations, including ports that are not overly congested with tourists, are major reasons why our guests choose our cruise options versus an alternative vacation option. The continuing availability of these types of ports, including the port facilities where our guests embark and disembark, is affected by a number of factors including, but not limited to, existing capacity constraints (particularly during the Caribbean winter months and Mediterranean summer months), security, safety, illness and environmental concerns, adverse weather conditions and other natural disasters, financial limitations on port development, political instability, exclusivity arrangements that ports may have with our competitors, local governmental regulations and fees and local community concerns about both port development and other adverse impacts on their communities from additional tourists. The inability to continue to utilize, maintain, rebuild, if necessary, or increase the number of ports that our ships call on could adversely affect our business, financial condition and results of operations.

We rely on travel agencies to generate a material portion of our sales.

We rely on travel agencies to generate a material portion of our sales. We have preferred relationships with large travel agent consortia and these relationships are important to our business. However, these relationships are at will and no assurances can be made that we will be able to maintain these relationships. The loss of any one of these preferred relationships could disrupt our travel agent distribution system and have an adverse impact on our business. In addition, a significant number of our guests book their cruises through independent travel agents. We believe we offer competitive commissions and other incentives for selling our cruises. However, there can be no guarantee that our competitors will not offer higher commissions and incentives in the future, which could lead independent travel agents to more heavily promote our competitors' products, thereby lowering our revenue potential and profitability, or causing us to increase our commissions and other incentives in the future, in turn increasing our costs and lowering profitability. In addition, a reduction in the number of travel agencies or independent travel agents promoting and booking our cruises could adversely affect our business, financial condition and results of operations.

Reductions in the availability of and increases in the prices for the services and products provided by our vendors could adversely affect our business and revenues. In addition, our vendors may act in ways that could adversely affect our business, financial condition and results of operations.

While we manage most of our operations in house in an effort to provide consistent quality to our guests and to control our costs, we also rely on third-party vendors to provide certain services that are integral to the operation of our business. For example, we rely on third-party vendors to provide nautical services and certain onboard services for our ocean and expedition cruises. We also rely on third-party vendors to own and operate our chartered vessels, including the *Viking Mississippi* and the *Viking Saigon*. If these service providers or any of our other service providers suffer financial hardship or are otherwise unable to continue providing such services, we cannot guarantee that we will be able to replace such service providers in a timely manner, which may cause an interruption in our operations. To the extent that we are able to replace such service providers, we may be forced to pay an increased cost for equivalent services. Both the interruption of operations and the replacement of third-party service providers at an increased cost could adversely affect our financial condition and results of

operations. When we rely on third-party vendors to provide services that are integral to the operation of our business, we are also subject to the risk that certain decisions or actions by third-party vendors could adversely affect our business, financial condition and results of operations. A failure to adequately monitor a third-party vendor's compliance with our service, regulatory and legal requirements could result in significant economic harm to us.

Factors outside of our control, including global inflation, labor shortages, the outbreak and escalation of armed conflict (e.g., the Russia-Ukraine and Israel-Hamas conflicts) and economic and trade sanctions, may also affect the financial viability of other key vendors in our supply chain, including hotel, restaurant and shore excursion suppliers, cause an increase in the cost of the services and products provided by our vendors or create supply chain issues that impact our ability to provide our guests with food, linens or toiletries. Any interruption in the services or goods we purchase from our vendors, or an increase in the cost of the services and products provided by our vendors, may adversely affect demand for our cruises, which could adversely affect our business, financial condition and results of operations.

We rely on scheduled commercial airline services to transport our guests to or from the cities where our cruises embark and disembark.

Our guests depend on scheduled commercial airline services to transport them to or from the cities where our cruises embark and disembark. In addition, some of our cruise destinations, such as Antarctica, are served by only a few airlines, which means that availability can be limited and the lack of competition impedes discounted pricing. Changes or disruptions in airline services as a result of strikes, financial instability or viability, technology infrastructure issues, adverse weather conditions, natural disasters, illness, government travel restrictions or other events or the lack of availability due to schedule changes or other reasons could adversely affect our ability to transport guests to or from our ships and thereby increase our cruise operating expenses or result in loss of revenue, which would, in turn, have an adverse effect on our financial condition and results of operations. In addition, increases in the prices of airfares due to increases in fuel prices, fuel surcharges or a high level of airline bookings may impact our costs and profitability or increase the overall vacation price to our guests and may adversely affect demand for our cruises, which could adversely affect our business, financial condition and results of operations.

Credit card processing terms and requirements, adverse changes in guest payment policies, and consumer protection legislation or regulations could negatively affect our financial condition.

We generate significant cash flows through sales of future cruises, which we use to fund our working capital requirements, and we rely on multiple credit card processors for collection of guests' funds for such future cruise purchases. Credit card processors have financial risk associated with tickets purchased for travel, which can occur several months after the purchase. Such financial institutions may withhold a portion of payments related to receivables to be collected or may require that we maintain a cash or other collateral reserve equal to a portion of the advance bookings that have been processed by that financial institution if we do not maintain certain minimum liquidity levels or if they determine our credit risk has increased. In times of financial instability or distress, such as in 2008 and during the COVID-19 pandemic, our credit card processors have increased the required amount of withholdings or reserves.

Risks Related to Our Intellectual Property and Information Technology

The Viking name and brand are integral to the success of our business.

The Viking name and brand are integral to the success of our business and to the implementation of our strategies for expanding our business. We believe that the brand we have developed has significantly contributed to the success of our business and is critical to maintaining and expanding our guest base. Maintaining and enhancing our brand may require us to make substantial investments in our fleet, new luxury offerings, marketing

and operations, and these investments may not be successful. Additionally, our brand may also be adversely affected if our public image is tarnished by negative publicity, which could adversely affect our business, financial condition and results of operations.

We rely on intellectual property protections that can be challenged and revoked or invalidated by third parties.

We rely on common law rights and registered trademarks to protect our brand in a number of jurisdictions. Such trademark rights are vulnerable to challenge by third parties and we have in the past been, and are currently, involved in trademark oppositions with various third parties. Certain of these matters have resulted in co-existence agreements whereby we have agreed that our trademarks and the trademarks of relevant third parties are able to co-exist on certain terms. We do not believe that the terms of these existing co-existence arrangements materially restrict or will restrict the operation of our business, but future co-existence arrangements could impose such restrictions. We have also not been able to secure trademark registrations for certain of our key brands in certain categories of goods or services in certain jurisdictions where we use those brands due to prior rights and we may be similarly restricted from protecting our brands in the future. To the extent that we operate now or in the future in jurisdictions in which we have not secured registered trademark rights, we operate at the risk of infringing the rights of third parties and of not being able to prevent third parties from using our brands.

We also have registered Community designs (and equivalents in the United Kingdom) covering the European Union and the United Kingdom in respect of aspects of our efficient ship designs and registered copyrights in the United States for certain marketing materials, videos and other publications. Registered intellectual property rights are inherently vulnerable to revocation and invalidity actions and while we have no reason to believe that our current designs would not withstand any such challenges, we cannot guarantee that any such actions will not succeed. In addition, registered Community design rights in the European Union (and equivalents in the United Kingdom) are not substantively assessed at the point of application (unlike other registered intellectual property rights). Instead, they proceed to registration and their validity can then be challenged by third parties. As such, the protection conferred by registered Community design rights (and equivalents in the United Kingdom) is generally considered to be more vulnerable than that of other registered rights.

Trademarks and registered Community design rights are territorial in nature and only provide protection in the territory in which they are registered and, for trademarks, are further limited to the scope of goods and services that the registrations cover. They also will only continue to be valid if we continue to pay the applicable registration maintenance fees and, in some jurisdictions, can demonstrate adequate use. Valid registered trademarks can last indefinitely if renewed as required. Registered Community design rights in the European Union (and equivalents in the United Kingdom) are valid for a maximum of 25 years where they are renewed every five years.

Finally, we own a number of registered domain names that are material to our business. These expire and we rely on our renewing these registrations in a timely manner in order to maintain the right to use the domain names. We may not be able to, or it may not be cost effective to, acquire or maintain all domain names that utilize the name “Viking” or other business brands in all of the countries in which we currently conduct or intend to conduct business. If we lose the ability to use a domain name, a third party could take over the registration, and we may incur significant additional expenses to market our products within that country, including the development of new branding.

Any failure to protect our intellectual property rights could impair our brands, negatively impact our business or both.

Our success and ability to compete depend in part on protecting our brands and other intellectual property, including our ability to register and freely use our trademarks in order to capitalize on name-recognition and

increase awareness of our brands. We rely on a combination of trademark, patent, copyright, trade secrets and other rights, as well as confidentiality procedures and contractual provisions to protect our intellectual property and proprietary technology. The steps we take to protect our intellectual property rights, however, may not be adequate. For example, not all of the trademarks that are used in our business have been registered in all countries in which we do business or may do business in the future, and some of the trademarks may never be registered in all of these countries. We could also lose our current rights to invalidity or revocation actions in the future. Our current applications to register intellectual property are in some cases the subject of oppositions from third parties and we have also in the past, and are currently, involved in communications with intellectual property registries regarding the registrability of certain of our intellectual property in certain jurisdictions.

Rights in trademarks are generally national in character, and are obtained on a country-by-country basis by the first person to obtain protection through use or registration in that country in connection with specified products and services. Some countries' laws do not protect unregistered trademarks at all, or make them more difficult to enforce, and third parties may have filed for trademarks that are the same or similar to our brands in countries where we have not registered our brands as trademarks. Although we have been using these brands for some time, there is a risk that third parties could bring infringement or other actions against us for the use of these brands if they have prior rights in such marks. In jurisdictions where we are unable to secure trademarks to protect our brands, we may be limited in our ability to prevent third parties from using our brands for identical or similar goods and services. Accordingly, we may not be able to adequately protect or freely use our brands everywhere we do business and use of our brands may result in liability for trademark infringement, trademark dilution or unfair competition. In addition, the laws of some foreign countries do not protect intellectual property to the same extent as the laws of the United States, and there is no certainty that all of our trademark, patent or copyright applications will proceed to registration or grant, and existing or future registrations may not provide sufficient protection or competitive advantages for our products and services. In the event that we are not able to obtain grants or registrations in respect of such intellectual property applications, we may not be able to obtain statutory protections available under the relevant intellectual property laws, which could limit our ability to protect our intellectual property and impede our marketing efforts. In addition, we cannot be certain that our products and technology do not and will not infringe the intellectual property rights of others, and third parties may seek to challenge, invalidate or circumvent our trademark, patent, copyright, trade secrets and other rights or applications for any of the foregoing. Furthermore, it is difficult for us to monitor unauthorized uses of our intellectual property, and if we become aware of a third party's unauthorized use or misappropriation of our intellectual property, it may not be practicable, effective or cost-efficient for us to enforce our intellectual property and contractual rights fully. In order to protect or enforce our intellectual property rights, we may be required to spend significant resources. Regardless of the merits of any such claim as a plaintiff or defendant, litigation could be costly, time-consuming, distracting and we may not prevail, which could result in the impairment or loss of intellectual property rights. To the extent claims against us are successful, we may have to pay substantial monetary damages (including treble damages), or discontinue or modify certain products or services that are found to be in violation of another party's rights. We may have to seek a license to continue offering our products or technology, which may not be available on reasonable terms, or at all. Our failure to secure, protect and enforce our intellectual property rights could adversely affect our business. From time to time, we allow our registered trademarks to lapse as we consider them no longer to be of commercial value.

Breaches in data security or other disturbances to our information technology systems and networks and operations could adversely affect our business, financial condition and results of operations.

We rely on software (including third-party software) and other information technology systems and networks to run our business, including, among other things, managing our guest database and our inventory of staterooms held for sale and setting pricing in order to maximize our yields. We also rely on our information technology systems and networks for our onboard and onshore operations, as well as our accounting systems. We own and manage some of these systems but also rely on third parties for a range of systems and related products and services, including but not limited to, cloud computing services. As a result, our ability to operate our business efficiently and effectively depends in part on the reliability of our information technology systems and

networks, as well as third-party technologies, systems and service providers. We face evolving cybersecurity risks that threaten the confidentiality, integrity and availability of these systems and our confidential information, including from diverse threat actors, such as state-sponsored organizations, opportunistic hackers and hacktivists, as well as through diverse attack vectors, such as social engineering/phishing, malware (including ransomware), malfeasance by insiders, human or technological error, and as a result of bugs, misconfigurations or exploited vulnerabilities in software or hardware. There is no certainty of uninterrupted availability of these systems and disruptions for any reason, including as a result of natural disasters or similar events, information systems failures, computer viruses or other cyber-attacks, or other unauthorized access thereto or improper use thereof, could impair our operations and have an adverse impact on our business, financial condition and results of operations.

Due to concerns about data security and integrity, a growing number of legislative and regulatory bodies have adopted breach notification and other requirements in the event that information subject to such laws is accessed by unauthorized persons and additional regulations regarding security of such data are possible. We may need to notify governmental authorities and affected individuals with respect to such incidents. For example, laws in the European Union, the United Kingdom and the United States may require businesses to provide notice to individuals whose personal data has been disclosed as a result of a data security breach. Complying with such numerous and complex regulations in the event of a data security breach would be expensive and difficult, and failure to comply with these regulations could subject us to regulatory scrutiny and additional liability. We may also be contractually required to notify counterparties of a security incident, including a data security breach. Regardless of our contractual protections, any actual or perceived data security breach, or breach of our contractual obligations, could harm our reputation and brand, expose us to potential liability or require us to expend significant resources on data security and in responding to any such actual or perceived breach.

If our security systems were breached, credit card and other sensitive data could also be at risk. For example, we and certain of our third-party service providers collect, process, transmit and store a large volume of personal data, including email addresses and home addresses and financial data such as credit card information. The security of the systems and network where we and our service providers store this data is a critical element of our business, and these systems and our network may be vulnerable to computer viruses, cyber-attacks, hackers and other security issues. As cybersecurity threats rapidly evolve in sophistication and become more prevalent globally, particularly due to the swift growth and increased use of AI systems, the associated risks described above may increase. Given that the techniques used in cyber-attacks change frequently and may be difficult to detect for periods of time, we (and our service providers) may face difficulties in anticipating and implementing adequate preventative measures or mitigating harms after such an attack.

We cannot assure you that the precautions we have taken to avoid an unauthorized incursion of our information systems are either adequate or implemented properly to prevent, immediately detect or promptly address a data breach. Because we rely on third-party suppliers and service providers, such as cloud services that support our internal and customer-facing operations, successful cyberattacks that disrupt or result in unauthorized access to third-party information systems can materially impact our operations and financial results. Any compromise of our information systems resulting in the loss, disclosure, misappropriation of or access to the personal data of our guests, prospective guests or employees could result in governmental investigations, civil liability, regulatory penalties under laws protecting the privacy of personal data, legal claims or proceedings (such as class actions), business interruption, damages to intangible property or loss of consumer confidence, any of which could adversely affect our business, financial condition and results of operations. Additionally, any material failure by us or our service providers to maintain compliance with the Payment Card Industry Data Security Standard and other security requirements or to rectify a data security issue may result in fines and restrictions on our ability to accept credit cards as a form of payment. We cannot guarantee that any costs and liabilities incurred in relation to an attack or incident will be covered by our existing insurance policies or that applicable insurance will be available to us in the future on economically reasonable terms or at all.

We collect, process, store, use and share data, some of which contains personal data, which subjects us to complex and evolving governmental regulation and other legal obligations related to data privacy, data protection and information security, which are subject to change and uncertain interpretation.

We collect, maintain, transmit and store data about our customers, partners, consultants, personnel and other individuals, which includes payment card information and personal data, as well as confidential information. We depend on a number of third-party vendors in relation to the operation of our business, a number of which process data, including personal data, on our behalf. We and our vendors are subject to a variety of local and international data privacy laws, rules, regulations, industry standards and other requirements, including those that apply generally to the handling of personal data, and those that are specific to certain industries, sectors, contexts, or locations. These requirements, and their application, interpretation and amendment are constantly evolving and developing.

For example, in Europe, we are subject to the General Data Protection Regulation (EU) 2016/679 ("EU GDPR") and the United Kingdom data protection regime consisting of the UK General Data Protection Regulation and the United Kingdom's Data Protection Act 2018 (the "UK GDPR" and, together with the EU GDPR, the "GDPR"). The UK data protection regime may diverge from the EU data protection regime over time. The EU GDPR and UK GDPR govern our collection, control, processing, sharing, disclosure and other use of personal data and imposes strict data protection compliance obligations including: providing detailed disclosures about how personal data is collected and processed; demonstrating that an appropriate legal basis is in place or otherwise exists to justify data processing activities; granting rights for data subjects in regard to their personal data; introducing the obligation to notify data protection regulators (and in certain cases, affected individuals) of certain personal data breaches (including those suffered by our service providers); imposing limitations on retention of personal data; maintaining certain required documentation; restrictions on international data transfers (which have heightened in the light of recent case law and regulatory guidance); requirements in relation to contracting; and complying with the principal of accountability and the obligation to demonstrate compliance through policies, procedures, training and audit.

Failure to comply with the GDPR could result in penalties for noncompliance. Fines of up to €20 million or 4% of total annual global turnover (whichever is greater) could be imposed for violation of the EU GDPR and fines of up to £17.5 million or 4% of total annual global turnover (whichever is greater) could be imposed for violation of the UK GDPR. Since we are subject to the supervision of local data protection authorities under both the EU GDPR and UK GDPR, fines could arise independently under each in respect of a single incident. In addition, violations of the GDPR could result in regulatory investigations, reputational damage, orders to cease or change our processing activities, enforcement notices or assessment notices (for compulsory audit). We may also face civil claims, including representative actions and other class action type litigation (where individuals have suffered harm), potentially amounting to significant compensation or damages liabilities as well as associated costs, diversion of internal resources and reputational harm.

The cross-border data transfer landscape globally (including in the European Economic Area, United Kingdom and United States) is continually evolving, and certain jurisdictions have enacted or are considering enacting cross-border data transfer restrictions and laws requiring data localization, which may affect our ability to process or transfer personal data to other countries. The EU GDPR and UK GDPR regulate cross-border transfers of personal data out of the European Economic Area and the United Kingdom. Case law from the Court of Justice of the European Union ("CJEU") states that reliance on the standard contractual clauses (a standard form of contract approved by the European Commission as an adequate personal data transfer mechanism) alone may not necessarily be sufficient in all circumstances and that transfers must be assessed on a case-by-case basis. We currently rely on the EU standard contractual clauses and the UK Addendum to the EU standard contractual clauses as relevant to transfer personal data outside the European Economic Area and the United Kingdom with respect to both intragroup and third-party transfers. We expect the existing legal complexity and uncertainty regarding international personal data transfers to continue. Any failure to comply with these complex regulatory requirements may adversely impact our operations. As the regulatory guidance

and enforcement landscape in relation to data transfers continue to develop, we could suffer additional costs, complaints or regulatory investigations or fines; we may have to stop using certain tools and vendors and make other operational changes; or it could otherwise affect the manner in which we provide our services, any of which could adversely affect our business, operations and financial condition. Inability to import personal data to the United States may significantly and negatively impact our business.

In the United States, the Federal Trade Commission and state regulators enforce a variety of data privacy-related obligations, such as promises made in privacy policies or failures to appropriately protect information about individuals, as unfair or deceptive acts or practices in or affecting commerce in violation of the Federal Trade Commission Act or similar state laws. In addition, certain states have adopted new or modified privacy and security laws and regulations that may apply to our business. For example, in 2018, California enacted the California Consumer Privacy Act, which came into effect in January 2020, and was subsequently amended by the California Privacy Rights Act effective January 1, 2023 (the "CCPA"). The CCPA imposes obligations on certain businesses that process personal information of California residents. Among other things, the CCPA: requires disclosures to such residents about the data collection, use and disclosure practices of covered businesses; provides such individuals expanded rights to access, delete, and correct their personal information, and opt-out of certain sales or transfers of personal information; and provides such individuals with a private right of action and statutory damages for certain data breaches. The enactment of the CCPA has prompted other states to promulgate or review the need for their own comprehensive consumer privacy laws, which similarly give residents rights with respect to their personal data and provide for civil penalties for violations. Additionally, U.S. federal regulators have increasingly sought to protect personal data. For example, in July 2023 the Securities and Exchange Commission adopted rules to enhance and standardize disclosures regarding cybersecurity risk management, strategy, governance and incidents by certain businesses. Separately, we send marketing messages via email and are subject to the federal CAN-SPAM Act, which imposes certain obligations regarding the content of emails and providing opt-outs (with the corresponding requirement to honor such opt-outs promptly). While we strive to ensure that all our marketing communications comply with the requirements set forth in the CAN-SPAM Act, any violations could result in the Federal Trade Commission seeking civil penalties against us. Additionally, we expect that there will continue to be new proposed laws, regulations, and industry standards concerning data privacy, data protection, and information security in the United States and other jurisdictions at all levels of legislature, governance, and applicability. We cannot yet fully determine the impact that these or future laws, rules and regulations may have on our business or operations.

We are also subject to evolving European Union and United Kingdom laws on cookies and electronic-marketing. In the European Union and in the United Kingdom, under national laws derived from the e-Privacy Directive, informed consent is required for the placement of a cookie or similar technologies on a customer's device and for direct electronic marketing. The GDPR also imposes conditions on obtaining valid consent for cookies, such as a prohibition on pre-checked consents and a requirement to ensure separate consents are sought for each type of cookie or similar technology. European court decisions and regulators' guidance have been driving increased attention to cookies and tracking technologies and the online behavioral advertising ecosystem. This could lead to substantial costs, require significant systems changes, limit the effectiveness of our marketing activities, divert the attention of our technology personnel, adversely affect our margins, increase costs and subject us to additional liabilities. In addition, regulation of cookies and similar technologies, and any decline of cookies or similar online tracking technologies as a means to identify and potentially target customers, may lead to broader restrictions and impairments on our marketing and personalization activities and may negatively impact our efforts to understand customers. In light of the complex and evolving nature of European Union, European Union Member State and United Kingdom privacy laws on cookies and tracking technologies, there can be no assurances that we will be successful in our efforts to comply with such laws; violations of such laws could result in regulatory investigations, fines, orders to cease/ change our use of such technologies, as well as civil claims including class actions, and reputational damage.

The adoption of further data privacy and security laws may increase the cost and complexity of implementing any new offerings in other jurisdictions. Any failure, or perceived failure, by us to comply with our

posted privacy policies or data privacy or consumer protection-related laws, regulations, industry self-regulatory principles, industry standards or codes of conduct, regulatory guidance, orders to which we may be subject or other legal or contractual obligations relating to data privacy or consumer protection could adversely affect our reputation, brands and business, and may result in regulatory investigations, administrative fines, claims, proceedings or actions against us by governmental entities, customers, suppliers or others, class actions, or other liabilities or may require us to change our operations or cease using certain data sets. Any such claims, proceedings or actions could hurt our reputation, brands and business, force us to incur significant expenses in defense of such proceedings or actions, distract our management, increase our costs of doing business, result in a loss of customers and third-party partners and result in the imposition of significant damages, liabilities or monetary penalties.

A failure to keep pace with developments in technology could impair our operations or competitive position.

Our business continues to demand the use of sophisticated systems and technology. These systems and technologies must be refined, updated and replaced with more advanced systems on a regular basis in order for us to meet our guests' demands and expectations. In addition, the rise of remote working places additional demands on our systems and technologies. If we are unable to maintain, refine, update or replace our systems and technologies on a timely basis or within reasonable cost parameters, or if we are unable to appropriately and timely train our employees to operate any of these new systems, our business could suffer. We also may not achieve the benefits that we anticipate from any new system or technology, such as fuel abatement technologies, and a failure to do so could result in higher than anticipated costs or could impair our operating results.

Risks Related to Our Indebtedness

We are highly leveraged. We have substantial indebtedness and we may not be able to generate sufficient cash to service all of our indebtedness or to obtain additional financing if necessary.

As of June 30, 2024, we had $5,199.6 million of Total Debt. Our high level of indebtedness will restrict our operations. Among other things, our indebtedness will:

- limit our flexibility in planning for, or reacting to, changes in the markets in which we compete;
- place us at a competitive disadvantage relative to our competitors with less indebtedness;
- render us more vulnerable to general adverse economic, regulatory and industry conditions;
- require us to dedicate a substantial portion of our cash flow to service our debt;
- limit our ability to obtain additional financing for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes;
- expose us to the risk of increased rates as, over the term of our debt, the interest cost on a significant portion of our indebtedness is subject to changes in interest rates; and
- limit our ability to secure adequate bank financing in the future with reasonable terms and conditions.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our future performance and our ability to generate cash from our operations, which is subject to, among other things, the success of our business strategy, customer demand, increased competition, overcapacity, prevailing economic conditions and financial, competitive, legislative, legal, regulatory and other factors, including those other factors discussed in these "Risk Factors," many of which are beyond our control. We cannot assure you that we will be able to generate a level of cash flow from operations sufficient to permit us to pay the principal, premium, if any, and cash interest on our indebtedness or that future borrowings will be available to us in an amount sufficient and on satisfactory terms to enable us to service and repay our indebtedness.

In addition, some of our existing debt agreements include a material adverse change clause, which permits the lenders to subjectively determine when a material adverse change in our business or financial condition

occurs. If these lenders were to determine that there had been a material adverse change in our business or financial condition or our ability to perform our obligations under these debt agreements, it may result in an event of default under these debt agreements. Certain of the agreements governing our indebtedness contain, and future debt agreements are expected to contain, cross-default provisions, meaning that if we are in default under certain of our current or future debt obligations, amounts outstanding under our current or other future debt agreements may also be in default, accelerated and become due and payable. In addition, we have pledged a significant portion of our assets as collateral under our existing debt agreements. Some of our existing debt agreements also include loan-to-value requirements, which may require us to pledge additional collateral or make additional principal payments in the event that our assets become less valuable. If any of the holders of our indebtedness accelerate the repayment of our indebtedness, there can be no assurance that we will have sufficient assets to repay our indebtedness.

We require a significant amount of cash to service our debt and sustain our operations.

Our ability to meet our debt service obligations or refinance our debt depends on our future operating and financial performance and ability to generate cash. This will be affected by our ability to successfully implement our business strategy, as well as general economic, financial, competitive, regulatory and other factors beyond our control. If we cannot generate sufficient cash to meet our debt service obligations or fund our other business needs, we may, among other things, need to refinance all or a portion of our debt, obtain additional financing, delay planned capital expenditures or sell assets. For example, we require significant cash to purchase additional ships. Our debt service obligations also increased as a result of the COVID-19 pandemic, including due to debt raised during the cessation of our operations and payment deferrals under some of our existing financings. We cannot assure you that we will be able to generate sufficient cash through any of the foregoing. If we are not able to refinance any of our debt, obtain additional financing or sell assets on commercially reasonable terms or at all, we may not be able to satisfy our obligations with respect to our debt and sustain our operations.

Despite current indebtedness levels and restrictive covenants, we may incur additional indebtedness. This could further exacerbate the risks associated with our substantial financial leverage.

Despite current indebtedness levels and restrictive covenants, we expect to incur additional indebtedness in connection with the expansion of our fleet and may incur other indebtedness to finance our operations and other capital needs. Although the agreements governing our indebtedness contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of thresholds, qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. Additionally, these restrictions may not prevent us from incurring obligations that are preferential to our ordinary shares, such as preferred shares. If additional debt is incurred, the related risks that we now face as a result of our leverage would intensify.

Our indebtedness, and the agreements governing our indebtedness, may limit our flexibility in operating our business.

The agreements governing our indebtedness contain, and any instruments governing future indebtedness of ours may contain, covenants and event of default clauses, including cross-default provisions, that impose significant operating and financial restrictions on us, including restrictions or prohibitions on our ability to, among other things:

- incur or guarantee additional debt or create certain liens;
- pay dividends or make other restricted payments;
- make certain investments or repurchase or redeem share capital or subordinated debt;
- consummate certain asset sales;
- enter into certain transactions with affiliates;

- enter into arrangements that restrict dividends; and
- consolidate or merge with any person or transfer or sell all or substantially all of our assets.

We cannot assure you that any of these limitations will not hinder our ability to finance operations and capital needs and our ability to pursue business opportunities and activities that may be in our interest. In particular, restrictions on our ability to incur additional debt may limit our ability to grow our fleet if we are unable to incur debt financing for additional ships. In addition, our ability to comply with these covenants and restrictions may be affected by events beyond our control.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

As of June 30, 2024, 8.3% of the principal outstanding on our Total Debt had variable interest rates. Market interest rates have increased over the past several years and may continue to increase as a result of action by the U.S. Federal Reserve and other factors, and as a result, variable-rate debt will create higher debt service requirements, which would adversely affect our cash flow. If interest rates increase, our debt service obligations on this variable rate indebtedness would increase even though the amount borrowed remained the same.

In addition, a portion of our borrowings used London interbank offered rates ("LIBOR") as a benchmark for establishing applicable rates for borrowings in U.S. dollars. On March 5, 2021, the Financial Conduct Authority (the "FCA") announced in a public statement that all LIBOR tenors, including U.S.-dollar LIBOR, and overnight and 12-month US dollar LIBOR settings will cease to be published or will no longer be representative as of June 30, 2023, though the FCA is requiring the publication of the one-month, three-month and six-month U.S.-dollar LIBOR on a non-representative, synthetic basis until September 2024. The Alternative Reference Rate Committee, a committee convened by the Federal Reserve that includes major market participants, identified the Secured Overnight Financing Rate ("SOFR"), a new index calculated by short-term repurchase agreements that is backed by United States Treasury securities, as its preferred alternative rate for LIBOR.

All of our previously U.S.-dollar LIBOR-based loans are now based on SOFR. There can be no assurance that SOFR will perform in the same way as LIBOR would have at any time, including as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, regulatory, judicial or other events.

The impact of volatility and disruptions in the global credit and financial markets may adversely affect our ability to borrow and could increase our counterparty credit risks.

Our ability to purchase additional ships depends on the availability of ship financing on satisfactory terms and there can be no assurance that we will be able to borrow additional money on terms as favorable as our current debt, on commercially acceptable terms, or at all. Ship financing may become unavailable for a number of reasons, including, among others, our inability to meet the conditions of such financing, a disruption of the capital and credit markets or rising interest rates. A failure in our ability to obtain sufficient ship financing on satisfactory terms, or at all, could delay or prevent our ability to order or take delivery of new ships. If the failure to obtain financing resulted in a breakage or cancellation of a binding shipbuilding contract on our part, it could result in, among other things, the forfeiture of any payments we have made and the imposition of contractual liquidated and other damages. In addition, our shipbuilding contracts include a clause that permits the shipyard to terminate the shipbuilding contract if it subjectively determines that the contracting party is unable to pay its debts as they fall due. If the shipyard were to make this determination, the shipyard may decide to cancel the shipbuilding contract, which could delay or disrupt our planned ship deliveries.

Disruptions in the global credit and financial markets could also cause counterparties under our derivatives, contingent obligations, insurance contracts and other third-party contracts to be unable to perform their

obligations or to breach their obligations to us under our contracts with them, which could include failures of financial institutions to fund required borrowings under our loan agreements and to pay us amounts that may become due under derivative contracts and other agreements. In addition, we may be limited in obtaining funds to pay amounts due to counterparties under derivative contracts and to pay amounts that may become due under other agreements. If we were to elect to replace any counterparty for its failure to perform its obligations under such instruments, we would likely incur significant costs to replace the counterparty. Any failure to replace any counterparties under these circumstances may result in additional costs to us or an ineffective instrument.

In addition, if our credit ratings were to be downgraded, or general market conditions were to ascribe higher risk to our rating levels, our industry, or us, our access to capital and the cost of any debt or equity financing could be negatively impacted. There is no guarantee that debt or equity financings will be available in the future to fund our obligations, or that they will be available on terms consistent with our expectations.

Risks Related to Other Legal, Regulatory and Tax Matters

We are subject to complex laws and regulations, including environmental laws and regulations.

We are subject to various international, national, state and local laws, regulations and treaties related to, among other things, environment protection, health and safety of workers and access for disabled persons. Our vessel operations are also subject to the applicable laws and regulations of the flag state and classification society. Compliance with such laws, regulations and treaties entails significant expense and attention from management, which could adversely affect our operations. New legislation, regulations or treaties, or changes thereto, or interpretations or implementations thereof, especially where such regulations conflict with the regulations in effect in other jurisdictions in which we operate, or changes in circumstances could also affect our operations and may subject us to increased compliance costs in the future.

In addition, we are required by various governmental and regulatory agencies to obtain certain permits, licenses and certificates with respect to our operations. If we are unable to obtain or maintain access to any of the required permits, licenses or certificates, we may be subject to various penalties, such as fines or suspension of operations, which could affect our operations and may have a material adverse effect on our business, financial condition and results of operations.

We believe that environmental laws and regulations in particular will continue to be focused on by relevant government authorities in the United States, European countries and the other countries in which we operate or may operate due to an increased focus on greenhouse gas and other emissions from global regulators, consumers and other stakeholders, which may have a material impact on our business. For example, we may be impacted by the EU's Fit for 55 package, which includes updates to the Emissions Trading Systems relating to the need to acquire carbon emission allowances and proposed reforms to the EU's Energy Taxation Directive, which imposes taxes on fuel purchased in the EU. In July 2023, the European Council adopted a new regulatory proposal, the FuelEU Maritime initiative, which sets out a long-term framework to reduce emissions by increasing the use of sustainable alternative fuels and shore power. In addition, the U.S. Environmental Protection Agency and the IMO (a United Nations agency with responsibility for the safety and security of shipping and the prevention of marine pollution by ships) is currently considering various other proposals which aim to reduce emissions within the global shipping industry. For example, the IMO adopted two requirements that went into effect in 2023, the Carbon Intensity Indicator and Energy Efficiency Ship Index, which each regulate carbon emissions for ships. Further, in March 2024, the SEC adopted a new rule that would require companies to make certain climate-related disclosures, including information about climate-related risks, greenhouse gas emissions and certain climate-related financial statement metrics. Regulatory efforts, both internationally and in the United States, including in various states (for example, California's Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act signed into law in October 2023), are evolving, including the international alignment of such efforts, and we cannot determine what final regulations will be enacted or their ultimate impact on our business. Climate change-related regulatory activity and

developments that require us to reduce our emissions, which includes both the EU and IMO proposals discussed above, and may include regulatory efforts in the United States at a federal or state-level in the future, may adversely affect our business and financial results by requiring us to make capital investments in new equipment or technologies, pay for carbon emissions, purchase carbon offset credits, or otherwise incur additional costs or take additional actions related to our emissions. Such activity may also impact us indirectly by increasing our operating costs, including fuel costs. Regulatory developments may also result in the inability to operate vessels that do not meet certain standards, the acceleration of the removal of less fuel-efficient vessels from our fleet and impact the resale value of our vessels in the future. In addition, we have invested in certain technologies to reduce our future environmental impact, including shore power and a partial hybrid propulsion system based on liquid hydrogen and fuel cells for our next generation of ocean ships. There can be no assurance that these technologies will develop as anticipated or that they will allow us to comply with future environmental regulations. If we are unable to use these technologies or these technologies become more expensive than expected, it may increase our operating costs or increase the impact of future environmental regulations on our business.

Growing recognition among consumers globally of the negative effects of climate change and the impact of greenhouse gasses and other emissions may lead to material changes in consumer preferences. For instance, our guests may choose a vacation option that they perceive as operating in a manner that is more sustainable for the climate, seek alternative methods of travel, or reduce the amount and frequency of their travel. In addition, some environmental groups have lobbied for more extensive oversight of cruise ships and have generated negative publicity about the cruise industry and its environmental impact. The U.S. and various state and foreign government and regulatory agencies have enacted or are considering new environmental regulations and policies aimed at reducing the threat of invasive species in ballast water, requiring the use of low-sulfur fuels, increasing fuel efficiency requirements and further restricting emissions, including those of green-house gases, and improving sewage and greywater-handling capabilities. Compliance with such laws and regulations may entail significant expenses for ship modification and changes in operating procedures, which could adversely affect our operations. The governing bodies that promulgate the laws and regulations related to disabled persons may also require changes to existing practices and the introduction of new physical facilities that are sufficient to meet the needs of cruise guests with disabilities. If new proposals are introduced that are applicable to the cruise industry, the adoption of any such new laws, regulations or compliance agreements could require further enhancements to our ships, resulting in increased operating expenses and capital expenditures and we cannot assure you that we will be able to comply or maintain compliance with such laws, regulations or compliance agreements.

We are subject to a number of anti-corruption laws governing our operations.

We are subject to various laws and regulations relating to anti-corruption and anti-bribery, such as the U.S. Foreign Corrupt Practices Act ("FCPA") and the UK Bribery Act 2010, which generally prohibit companies from making improper payments of anything of value (including money, gifts, travel, entertainment, in-kind benefits or charitable contributions) to government officials or private parties for the purpose of obtaining or retaining business or other business advantages. In operating our business (including the China JV Investment), we and our intermediaries encounter government officials and interact with government-owned entities, and operate in parts of the world that have experienced corruption to some degree.

We also are required to comply with the accounting provisions of the FCPA, which require us to maintain reasonably detailed and accurate books, records, and accounts, and to devise and maintain a system of adequate internal controls.

Although we have implemented policies, procedures, and controls designed to promote compliance with the FCPA and other applicable anti-corruption laws by our employees and intermediaries, there are no guarantees that such persons will comply with such controls or applicable anti-corruption laws at all times. Any actual or potential violation of these laws, or allegations or investigations relating to the same, could disrupt or have a material adverse effect on our business, financial condition and reputation.

Various trade, financial and economic sanctions and export control laws and regulations imposed upon the countries in which we operate may adversely affect our activities or dealings in or with such countries, as well as our business, financial condition and results of operations.

Our business activities are subject to requirements and prohibitions under various trade, financial and economic sanctions an export control laws and regulations, including, without limitation, the sanctions programs of the U.S. Department of the Treasury's Office of Foreign Assets Control, the European Union and its member states, and His Majesty's Treasury of the United Kingdom (including the Office of Financial Sanctions Implementation). These programs may prohibit or restrict our ability to, directly or indirectly, conduct activities or dealings in or with certain countries or territories or involving certain persons, or otherwise affect our business. For example, the United States, the European Union, the United Kingdom and a number of other countries have introduced (and continue to enhance) a variety of economic trade, financial and other sanctions and export controls against Russia, including in response to Russia's ongoing invasion of Ukraine. Pursuant to these measures, certain persons, including a number of Russian government officials, business persons, banks and companies, became subject to blocking sanctions or related trade, investment, immigration and financial restrictions or export controls. The basic practical consequences of these measures against Russia are that:

- in the case of blocking sanctions/asset freezes, U.S., EU and UK persons (and persons resident in, or nationals of, other jurisdictions which have implemented similar sanctions) cannot directly or indirectly engage in business with such designated persons (including persons they own or control), deal with their assets or otherwise provide (or make available for their benefit) funds or economic resources (absent an exception under the applicable sanctions regulations, or a license from the relevant sanctions authority);
- designated individuals may also be subject to travel bans, which restrict their ability to travel to certain jurisdictions; and
- in the case of trade, export, investment or other financial restrictions, activities subject to U.S., EU or UK jurisdiction (and other jurisdictions which have implemented similar restrictions) may be prohibited by relevant sanctions regulations or export controls (for example, providing certain goods or services to persons in Russia or for us in Russia). Restrictions under certain sanctions regimes also prohibit investing in Russia and also prohibit a person from dealing with transferable securities or money-market instruments issued by, or entering into loan and credit arrangements with, persons connected with Russia, which may include persons ordinarily resident or located in Russia, and Russian entities which are incorporated or constituted under Russian law, or domiciled in Russia.

While we believe that current U.S., EU and UK sanctions and export controls do not preclude us from conducting our current business, further measures imposed by the United States, the European Union, the United Kingdom and a number of other countries may limit certain of our operations in the future. To the extent applicable to the business, existing, expanded or new sanctions may negatively affect our revenue and profitability, and could impede our ability to effectively manage our legal entities and operations in certain jurisdictions. We have implemented policies and procedures to comply with applicable sanctions laws and regulations. Any actual or potential violation of these laws, or allegations or investigations relating to the same, could disrupt or have a material adverse effect on our business, financial condition and reputation.

Any trade war or other governmental action related to tariffs or international trade agreements or policies (including in response to, or as part of a broader effort in conjunction with, economic sanctions) also has the potential to adversely affect our business. In recent years, the United States has instituted large tariffs on a wide variety of goods, including from China, which led to retaliatory tariffs from leaders of other countries, including China. These policy pronouncements have created significant uncertainty about the future relationship between the United States and China and other exporting countries, including with respect to trade policies, treaties, government regulations and tariffs and has led to concerns regarding the potential for an extended trade war. Tensions over trade and other matters remain high between the U.S. and China, and it is currently unclear what policies the current U.S. administration will pursue. Protectionist developments, or the perception they may occur, may have a material adverse effect on global economic conditions, and may significantly reduce global

trade and, in particular, trade between the United States and other countries, including China. Such a trade war could negatively impact economic or market conditions, key vendors in our supply chain and our business, financial condition and results of operations.

Litigation could distract management, increase our expenses or subject us to material money damages and other remedies.

Our business is subject to various U.S. and international laws and regulations that could lead to enforcement actions, fines, civil or criminal penalties or the assertion of litigation claims and damages. We may be involved from time to time in various legal proceedings that might necessitate changes to our business or operations. Regardless of whether any claims against us have merit, or whether we are ultimately held liable or subject to payment of damages, claims may be expensive to defend and may divert management's time away from our operations. If any legal proceedings were to result in an unfavorable outcome, it could have a material adverse effect on our business, financial condition and results of operations.

Application of existing tax laws, rules and regulations is subject to ambiguities and differing interpretation by taxing authorities.

We are subject to taxes in numerous jurisdictions, including those in which we transact business, own property or reside. In computing our obligations under tax laws, rules and regulations, we are required to take various tax accounting and reporting positions on complex matters that are not entirely free from doubt and for which we have not received rulings from the governing authorities. Although we believe our tax positions are reasonable, we cannot assure you that the applicable taxing authorities will agree with our positions. The final determination of tax audits could be materially different from our historical tax provisions and accruals, in which case we may be subject to additional tax liabilities, possibly including interest and penalties, which may be material and could adversely affect our business, financial condition and results of operations.

Amendments to existing tax laws, rules or regulations or enactment of new unfavorable tax laws, rules or regulations could have an adverse effect on our business and financial performance.

Various tax regimes to which we are currently subject allow us to maintain a relatively low effective tax rate on our worldwide income. If existing laws, rules or regulations were amended or reinterpreted, or if new unfavorable tax laws, rules or regulations were enacted, the results could increase our tax payments or other obligations, prospectively or retrospectively, subject us to interest and penalties, decrease the demand for our cruises if we pass on such costs to our guests, result in increased costs to update or expand our technical or administrative infrastructure or effectively limit the scope of our business activities if we decided not to conduct business in particular jurisdictions. As a result, these changes may adversely affect our business, financial condition and results of operations. Our effective tax rate in the future could also be adversely affected by changes to our operations and ownership, changes in the mix of earnings in countries with differing statutory tax rates, the discontinuation of beneficial tax arrangements in certain jurisdictions or the adoption of a global minimum tax. Moreover, we may become subject to new tax regimes and may be unable to take advantage of favorable tax provisions afforded by current or future laws, rules or regulations.

Additionally, longstanding international tax norms that determine each country's jurisdiction to tax cross-border international trade are evolving as a result of the Base Erosion and Profit Shifting reporting requirements, recommended by the G8, G20 and Organization for Economic Cooperation and Development (the "OECD"), including the imposition of a minimum tax on income earned by international businesses regardless of the jurisdiction of operation. The OECD has reached an agreement to align countries on a minimum corporate tax rate and an expansion of the taxing rights of market countries. As OECD participants or individual countries enact some or all parts of the OECD global minimum tax agreement, these changes could result in tax increases or double taxation that could affect our tax liabilities in the future. The current OECD guidelines exclude international shipping income from the scope of the global minimum tax to the extent certain requirements

relating to strategic or commercial management are satisfied. Some individual countries, including those in which we are subject to taxation, have enacted legislation to implement parts of the OECD global minimum tax agreement. For example, Switzerland has introduced a minimum tax of 15% as of January 1, 2024 on Swiss corporations and permanent establishments for multinational enterprises whose annual revenues exceed 750 million euros, and such minimum tax could impact our Swiss entities. The impact of the OECD global minimum tax agreement on our financial results depends on multiple factors, including the effect of the international shipping exemption and interpretations by various tax authorities of both the OECD global minimum tax agreement and the corporate tax laws applied in other jurisdictions. As these and other tax laws and related regulations change, our financial results could be materially impacted.

In December 2023, Bermuda enacted the Corporate Income Tax Act 2023 (the "CIT Act"), which applies to Bermuda entities that are part of multinational enterprise groups with 750 million euros or more in annual revenues in at least two of the four fiscal years immediately preceding the fiscal year in question. The CIT Act imposes a new corporate income tax for tax years starting on or after January 1, 2025 at a rate of 15%. In general, income arising from international shipping is exempted from the scope of such tax, to the extent certain requirements relating to strategic or commercial management in Bermuda are satisfied. As part of the transition into the CIT Act, Bermuda entities can elect to compute an opening tax loss carryforward from the period January 1, 2020 through December 31, 2024. We expect that the tax imposed under the CIT Act will be applicable to us and that our income arising from international shipping will be exempt from such tax. The imposition of such tax under the CIT Act, for tax years starting on or after January 1, 2025, may have an adverse effect on our financial condition and results of operations. Though we currently expect our income arising from international shipping will be exempt from such tax, we will continue to evaluate the impact of the CIT Act on our operations as further information and guidance becomes available.

Through our international ocean and expedition cruises, we are engaged in a trade or business in the United States and generate a portion of our cruise income from sources within the United States. Under Section 883 of the Code ("Section 883") and the related regulations, a foreign corporation will be exempt from U.S. federal income taxation on its U.S.-source income derived from the international operation of ships ("shipping income") if: (a) it is organized in a qualified foreign country, which is one that grants an "equivalent exemption" from tax to corporations organized in the United States in respect of each category of shipping income for which exemption is being claimed under Section 883; and (b) either: (1) more than 50% of the value of its stock is beneficially owned, directly or indirectly, by qualified shareholders, which includes individuals who are "residents" of a qualified foreign country ("stock ownership test"); (2) one or more classes of its stock representing, in the aggregate, more than 50% of the combined voting power and value of all classes of its stock are "primarily and regularly traded on one or more established securities markets" in a qualified foreign country or in the United States; or (3) it is a controlled foreign corporation for more than half of the taxable year and more than 50% of its stock is owned by qualified U.S. persons for more than half of the taxable year. In addition, U.S. Treasury Regulations require a foreign corporation and certain of its direct and indirect shareholders to satisfy detailed substantiation and reporting requirements. Section 883 does not exempt U.S. source income derived from a U.S. domestic trade or business.

We have assessed that we qualify for the benefits of Section 883 under the stock ownership test. However, qualification for Section 883 depends upon various factors, including a specified percentage of our shares being owned, directly or indirectly, by shareholders who meet certain requirements. Additionally, provisions of the Code, including Section 883, are subject to change at any time, and changes could occur in the future with respect to the identity, residence or holdings of our direct or indirect shareholders, which could impact our ability to qualify for the benefits of Section 883. There are factual circumstances beyond our control, including changes in the direct and indirect owners of our shares, including as a result of this offering, which could cause us or our subsidiaries to lose the benefit of this tax exemption.

Given the unpredictability of these possible changes and their potential interdependency, it is very difficult to assess whether the overall effect of such potential tax changes would be cumulatively positive or negative for our earnings and cash flow, but such changes could adversely affect our financial results.

Economic Substance Legislation enacted in Bermuda may affect our operations.

Pursuant to the Economic Substance Act 2018 (as amended) of Bermuda (the "ES Act") effective as of January 1, 2019, a registered entity other than an entity which is resident for tax purposes in certain jurisdictions outside Bermuda (i.e. not designated by the European Union as a non-cooperative jurisdiction for tax purposes; any such entity, a "non-resident entity") that carries on as a business any one or more of the "relevant activities" referred to in the ES Act must comply with economic substance requirements. The ES Act requires in-scope entities which are engaged in such "relevant activities" to be directed and managed in Bermuda, have an adequate level of qualified employees in Bermuda, incur an adequate level of annual expenditure in Bermuda, maintain physical offices and premises in Bermuda and perform core income-generating activities in Bermuda. The list of "relevant activities" includes carrying on any one or more of: banking, insurance, fund management, financing and leasing, headquarters, shipping (defined to include passenger cruise ships), distribution and service centers, intellectual property and holding entities. We and several of our Bermuda subsidiaries are carrying on relevant activities for the purposes of the ES Act and are required to comply with such economic substance requirements. Our compliance with the ES Act may result in additional costs that could adversely affect our financial condition or results of operations.

Risks Related to this Offering and Ownership of Our Ordinary Shares

Our share price may be volatile, and you could lose all or part of your investment as a result.

The public offering price for the ordinary shares sold in this offering will be determined by negotiation between us and representatives of the underwriters. This price may not reflect the market price of our ordinary shares following this offering and the price of our ordinary shares may decline. In addition, the market price of our ordinary shares could be highly volatile and may fluctuate substantially as a result of many factors, including:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in market valuations of, or earnings and other announcements by, companies serving our markets;
- declines in the market prices of stocks, trading volumes and company valuations generally;
- announcements of new itineraries or services or the introduction of new ships by us or our competitors;
- announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- changes in general economic or market conditions or trends in our industry, our markets or the economy as a whole;
- changes in business, environmental or regulatory conditions;
- future sales of our ordinary shares or other securities;
- investor perceptions or the investment opportunity associated with our ordinary shares relative to other investment alternatives;
- the public's response to press releases or other public announcements by us or third parties, including our filings with the SEC;
- changes in senior management or key personnel;
- announcements relating to litigation;
- the development and sustainability of an active trading market for our shares;
- changes in accounting principles; and
- other events or factors, including those resulting from pandemics (including COVID-19), natural disasters, war, acts of terrorism or responses to these events.

In addition, the stock markets have experienced extreme price and volume fluctuations. Broad market and industry factors may materially harm the market price of our ordinary shares, regardless of our operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted against that company. If we were involved in any similar litigation, we could incur substantial costs and our management's attention and resources could be diverted.

Anti-takeover provisions in our organizational documents could delay or prevent a change of control.

Certain provisions of our bye-laws may have an anti-takeover effect and may delay, defer or prevent a merger, amalgamation, acquisition, tender offer, takeover attempt or other change of control transaction that a shareholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our shareholders. For example, we have a two-class share structure, as a result of which our principal shareholder generally will be able to control the outcome of all matters requiring shareholder approval, including the election of directors and significant corporate transactions, such as a merger, amalgamation or other sale of our company or its assets.

These anti-takeover provisions could make it more difficult for a third party to acquire us, even if the third party's offer may be considered beneficial by many of our shareholders. As a result, our shareholders may be limited in their ability to obtain a premium for their shares. See "Description of Share Capital."

The market price of our ordinary shares could be negatively affected by future sales of our ordinary shares or special shares.

We have 303,832,404 ordinary shares and 127,771,124 special shares issued and outstanding prior to and immediately after this offering. Sales by us or our shareholders of a substantial number of ordinary shares in the public market or in private transactions following this offering, or the perception that these sales might occur, could cause the market price of our ordinary shares to decline or could impair our ability to raise capital through a future sale of, or pay for acquisitions using, our equity securities.

Of our issued and outstanding ordinary shares, the 103,647,916 ordinary shares (or 108,147,916 ordinary shares if the underwriters exercise their option to purchase additional ordinary shares in full) sold in our IPO and this offering are freely tradable without restriction or further registration under the Securities Act, unless owned by our affiliates (as defined under Rule 144 of the Securities Act ("Rule 144")), including our principal shareholder and our directors and executive officers, who may sell only in compliance with the limitations described in "Shares Eligible for Future Sale." The remaining 200,184,488 ordinary shares (or 195,684,488 ordinary shares if the underwriters exercise their option to purchase additional ordinary shares in full) and all of our special shares are "restricted securities" within the meaning of Rule 144 and subject to certain restrictions on resale. Subject to certain contractual restrictions, including the lock-up agreements described below, restricted securities may be sold in the public market only if they are registered under the Securities Act or are sold pursuant to an exemption from registration such as Rule 144 under the Securities Act, as described in "Shares Eligible for Future Sale."

In addition, our principal shareholder and our financial shareholders have certain registration rights under the Investor Rights Agreement. Following the consummation of this offering, the shares covered by the registration rights in the Investor Rights Agreement will represent approximately 73.6% of our issued and outstanding ordinary shares and special shares (or 72.5% if the underwriters exercise their option to purchase additional ordinary shares in full).

In addition, as of June 30, 2024, up to 2,949,830 ordinary shares will be issuable after this offering upon the exercise of outstanding options, up to 8,733,400 ordinary shares will be issuable after this offering upon the exercise of warrants and up to 2,606,266 ordinary shares will be issuable after this offering upon the vesting and settlement of RSUs for which the time vesting condition was not satisfied as of June 30, 2024. As of June 30, 2024, we also had 19,007,878 ordinary shares reserved for future issuance under the 2018 Incentive Plan and 4,680,000 ordinary shares available for issuance under the 2024 ESPP.

In connection with our IPO, all of our directors and executive officers and holders of substantially all of our ordinary shares and our special shares, including the selling shareholders, entered into lock-up agreements with BofA Securities, Inc. and J.P. Morgan Securities LLC as representatives of the underwriters to our IPO. Pursuant to such lock-up agreements, such persons agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary shares or our special shares or securities convertible into or exchangeable or exercisable for our ordinary shares or for our special shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our ordinary shares or of our special shares, whether any of these transactions are to be settled by delivery of our ordinary shares or our special shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition or to enter into any transaction, swap, hedge or other arrangement, for a period of 180 days ending on October 27, 2024 without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC. In connection with this offering, BofA Securities, Inc. and J.P. Morgan Securities LLC have agreed to waive the lock-up restrictions applicable to the ordinary shares offered by the selling shareholders pursuant to this prospectus. The ordinary shares held by the selling shareholders and not sold in this offering will continue to be locked up under the lock-up agreements entered into in connection with the IPO until the expiration of the original 180-day lock-up period ending on October 27, 2024.

Further, all of our directors and executive officers and holders of 5% or more of our shares, including the selling shareholders, have entered into lock-up agreements with the representatives of the underwriters in connection with this offering. Pursuant to such lock-up agreements, such persons have agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary shares or special shares or securities convertible into or exchangeable for ordinary shares or special shares for a period of 90 days after the date of this prospectus without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC. See “Shares Eligible for Future Sale—Lock-Up Agreements” and “Underwriting” for a description of these lock-up agreements.

We have registered the ordinary shares issuable under the 2018 Incentive Plan and the 2024 ESPP on a Form S-8 under the Securities Act. As a result, they can be sold in the public market upon issuance, subject to Rule 144 limitations applicable to affiliates, vesting restrictions and the lock-up restrictions described under “Underwriting.”

We do not expect to pay any dividends in the foreseeable future.

We intend to retain most, if not all, of our available funds and earnings to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Consequently, investors who purchase ordinary shares in this offering may be unable to realize a gain on their investment except by selling such shares after price appreciation, which may never occur.

Our board of directors has significant discretion as to whether to distribute dividends. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, our financial condition and other factors deemed relevant by our board of directors. Because we are a holding company, our ability to pay dividends also depends on our receipt of cash dividends from our operating subsidiaries, which may be restricted in their ability to pay dividends as a result of the laws of their respective jurisdictions of organization, agreements of our subsidiaries or covenants under any existing and future outstanding indebtedness we or our subsidiaries incur. In particular, the ability of our subsidiaries to distribute cash to us to pay dividends is limited by covenants in our debt instruments and may be further restricted by the terms of any future debt or preferred securities.

Our two-class structure has the effect of concentrating voting control with our principal shareholder, which could limit your ability to influence certain key matters affecting our business and affairs.

Our principal shareholder holds 98,302,850 ordinary shares and 127,704,616 special shares, which represent approximately 87% of the voting power of our issued and outstanding share capital. The rights of the holders of our ordinary shares and our special shares are identical, except with respect to voting, conversion and transfer rights. Each ordinary share is entitled to one vote per share, and each special share is entitled to 10 votes per share.

As a result, subject to the terms of the Investor Rights Agreement, our principal shareholder has the ability to elect almost all of the members of our board of directors and thereby control our policies and operations, including, among other things, the appointment of management, future issuances of our ordinary shares or other securities, the payment of dividends, if any, on our ordinary shares, the incurrence or modification of debt by us, amendments to our bye-laws and the entering into extraordinary transactions.

Our principal shareholder may have interests that do not align with the interests of our other shareholders, including with regard to pursuing acquisitions, divestitures and other transactions that, in their judgment, could enhance their equity investment, even though such transactions might involve risks to our other shareholders. Our principal shareholder has effective control over our decisions to enter into such corporate transactions regardless of whether others believe that the transaction is in our best interests. Such control may have the effect of delaying, preventing or deterring a change of control of us, could deprive shareholders of an opportunity to receive a premium for their ordinary shares as part of a sale of us and might ultimately affect the market price of our ordinary shares. The concentration of ownership could deprive you of an opportunity to receive a premium for your ordinary share as part of a sale of us and ultimately might affect the market price of our ordinary shares. See “Description of Share Capital.”

The Investor Rights Agreement grants certain rights to our principal shareholder and our financial shareholders, and these shareholders may have interests that do not align with the interests of our other shareholders.

Under the Investor Rights Agreement, our principal shareholder has the right to designate four nominees to our board of directors and each of our financial shareholders has the right to designate two nominees to our board of directors, subject to the maintenance of specified ownership requirements. Our Audit Committee, our Compensation Committee and our Nominating and Corporate Governance Committee also include one director jointly selected by our financial shareholders, one director selected by our principal shareholder and one independent director selected by our board of directors, subject to the maintenance of specified ownership requirements.

In addition, under the Investor Rights Agreement, the following actions require the prior consent of our principal shareholder and each of our financial shareholders, subject to the maintenance of specified ownership requirements: (1) issuing (a) equity securities that are senior to our ordinary shares or (b) an aggregate amount of equity securities, in any twelve (12) month period, that exceeds 5% of our then issued and outstanding total number of shares, subject to certain exceptions; and (2) making any acquisition or disposition of assets or securities with a value in excess of $1 billion, whether structured as an asset or equity purchase, merger, amalgamation, investment, joint venture, share exchange, reorganization, recapitalization or otherwise. We have also granted our principal shareholder and our financial shareholders registration rights. See “Certain Relationships and Related Party Transactions—Investor Rights Agreement—Rights of Appointment, Consent Rights and Registration Rights.”

Our principal shareholder and our financial shareholders may have interests that do not align with the interests of our other shareholders. As long as our principal shareholder and our financial shareholders continue to maintain the specified ownership requirements set forth in the Investor Rights Agreement, our principal shareholder and our financial shareholders will continue to benefit from the contractual provisions provided in the Investor Rights Agreement and may be able to strongly influence or effectively control certain decisions.

In addition, the Investor Rights Agreement prohibits our financial shareholders from transferring, directly or indirectly, any of their ordinary shares to certain competitors without prior approval of our board of directors, subject to certain exceptions. This transfer restriction may result in our financial shareholders selling their ordinary shares at a lower price than they would otherwise be able to absent any transfer restriction and could delay, defer or prevent a takeover.

Depending on the size of this offering, our financial shareholders may not maintain the requisite ownership thresholds to retain these rights upon consummation of this offering.

There are regulatory limitations on the ownership and transfer of our ordinary shares.

We have been designated by the Bermuda Monetary Authority as a non-resident for Bermuda exchange control purposes. This designation allows us to engage in transactions in currencies other than the Bermuda dollar, and there are no restrictions on our ability to transfer funds (other than funds denominated in Bermuda dollars) in and out of Bermuda or to pay dividends to U.S. residents who are holders of our ordinary shares.

The Bermuda Monetary Authority has given its consent for the issue and free transferability of all of our ordinary shares that are the subject of this offering to and between non-residents of Bermuda for exchange control purposes, provided our ordinary shares remain listed on an appointed stock exchange, which includes the NYSE. Approvals or permissions given by the Bermuda Monetary Authority do not constitute a guarantee by the Bermuda Monetary Authority as to our performance or our creditworthiness. Accordingly, in giving such consent or permissions, the Bermuda Monetary Authority shall not be liable for the financial soundness, performance or default of our business or for the correctness of any opinions or statements expressed in this prospectus. Certain issues and transfers of ordinary shares involving persons deemed resident in Bermuda for exchange control purposes require the specific consent of the Bermuda Monetary Authority.

We are a Bermuda company and it may be difficult for you to enforce judgments against us or our directors and executive officers.

We are a Bermuda exempted company. As a result, the rights of holders of our ordinary shares will be governed by Bermuda law and our memorandum of association and bye-laws. The rights of shareholders under Bermuda law may differ from the rights of shareholders of companies incorporated in other jurisdictions. A number of our directors and some of the named experts referred to in this prospectus are not residents of the United States, and a substantial portion of our assets are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon us or those persons, or to enforce judgments obtained in U.S. courts against us or those persons based on the civil liability provisions of the federal securities laws of the United States or other laws.

We have been advised by our special Bermuda counsel that there is no treaty in force between the United States and Bermuda providing for the reciprocal recognition and enforcement of judgments in civil and commercial matters. As a result, whether a U.S. judgment would be enforceable in Bermuda against us or our directors and officers depends on whether the U.S. court that entered the judgment is recognized by a Bermuda court as having jurisdiction over us or our directors and officers, as determined by reference to Bermuda conflict of law rules. The courts of Bermuda would recognize as a valid judgment, a final and conclusive judgment *in personam* obtained in a U.S. court pursuant to which a sum of money is payable (other than a sum of money payable in respect of multiple damages, taxes or other charges of a like nature or in respect of a fine or other penalty). The courts of Bermuda would give a judgment based on such a U.S. judgment as long as (1) the U.S. court had proper jurisdiction over the parties subject to the judgment; (2) the U.S. court did not contravene the rules of natural justice of Bermuda; (3) the U.S. judgment was not obtained by fraud; (4) the enforcement of the U.S. judgment would not be contrary to the public policy of Bermuda; (5) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of Bermuda; (6) there is due compliance with the correct procedures under the laws of Bermuda; and (7) the U.S. judgment is not inconsistent with any judgment of the courts of Bermuda in respect of the same matter.

In addition, and irrespective of jurisdictional issues, the Bermuda courts will not enforce a U.S. federal securities law that is either penal or contrary to Bermuda public policy. We have been advised that an action brought pursuant to a public or penal law, the purpose of which is the enforcement of a sanction, power or right at the instance of the state in its sovereign capacity, is unlikely to be entertained by a Bermuda court. Certain remedies available under the laws of U.S. jurisdictions, including certain remedies under U.S. federal securities laws, would not be available under Bermuda law or enforceable in a Bermuda court, as they are likely to be contrary to Bermuda public policy. Further, it may not be possible to pursue direct claims in Bermuda against us or our directors and officers for alleged violations of U.S. federal securities laws because these laws are unlikely to have extraterritorial effect and do not have force of law in Bermuda. A Bermuda court may, however, impose civil liability on us or our directors and officers if the facts alleged and proved in the Bermuda proceedings constitute or give rise to a cause of action under the applicable governing law, not being a foreign public, penal or revenue law.

Bermuda law differs from the laws in effect in the United States and may afford less protection to holders of our ordinary shares.

We are incorporated under the laws of Bermuda. As a result, our corporate affairs are primarily governed by our bye-laws, the Companies Act and Bermuda common law. Bermuda laws relating to companies differ in many material respects from laws typically applicable to U.S. corporations and shareholders, including the provisions relating to interested directors, amalgamations, mergers and acquisitions, takeovers, shareholder lawsuits and indemnification of directors. Generally, the duties of directors and officers of a Bermuda company are owed to the company only. Shareholders of Bermuda companies may only take action against directors or officers of the company in limited circumstances. The circumstances in which derivative actions may be available under Bermuda law are substantially more proscribed and less clear than they would be to shareholders of U.S. corporations. Class actions and derivative actions are generally not available to shareholders under Bermuda law. The Bermuda courts, however, would ordinarily be expected to permit a shareholder to commence an action in the name of a company to remedy a wrong to the company where the act complained of is, for example, alleged to be beyond the corporate power of the company or illegal, or would result in the violation of the company's memorandum of association or bye-laws. Consideration would be given by a Bermuda court to acts which are alleged to constitute a fraud against the minority shareholders or, for instance, where an act requires the approval of a greater percentage of the company's shareholders than that which actually approved it.

When the affairs of a company are being conducted in a manner which is oppressive or prejudicial to the interests of some shareholders, one or more shareholders may apply to the Supreme Court of Bermuda, which has wide discretionary powers on identifying such conduct and making orders to address such conduct as it sees fit, including an order regulating the conduct of the company's affairs in the future or ordering the purchase of the shares of any shareholders by other shareholders or by the company. In addition, the rights of holders of our ordinary shares and the fiduciary responsibilities of our directors under Bermuda law are not as widely defined as under statutes or judicial precedent in existence in jurisdictions in the United States, particularly the State of Delaware. As a consequence, holders of our ordinary shares may not have the same protection of their interests as would shareholders of a corporation incorporated in a jurisdiction within the United States.

Our bye-laws restrict shareholders from bringing legal action against our officers and directors and contain exclusive forum provisions.

Subject to Section 14 of the Securities Act and Section 29(a) of the Exchange Act, which render void any purported waiver of the provisions of the Securities Act and the Exchange Act, respectively, our bye-laws contain a broad waiver by our shareholders of any claim or right of action, both individually and on our behalf, against any of our officers or directors. The waiver applies to any action taken by an officer or director, or the failure of an officer or director to take any action, in the performance of his or her duties, except with respect to any matter involving any fraud or dishonesty on the part of the officer or director. This waiver limits the right of shareholders to assert claims against our officers and directors, provided that pursuant to Section 98 of the

Companies Act such waiver would not be effective to the extent the act or failure to act involves fraud or dishonesty. This waiver would not be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act, the waiver of which would be prohibited by Section 14 of the Securities Act and Section 29(a) of the Exchange Act, respectively; and we do not intend this waiver be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act.

Our bye-laws expressly state that unless we consent in writing, the courts of Bermuda will be the sole and exclusive forum for (a) any action brought by or on behalf of us in relation to matters governed by the Companies Act or our bye-laws, (b) any action asserting a claim of breach of any duty owed by any of our directors or officers to us or any of our shareholders and (c) any action asserting a claim against us or any director or officer arising under the laws of Bermuda or our bye-laws.

In addition, our bye-laws expressly state that unless we consent in writing, the sole and exclusive forum for any action asserting claims under the Securities Act or the Exchange Act, to the extent permitted by applicable law, will be the United States federal district courts.

The choice of forum provisions may limit a shareholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our current or former directors, officers or other employees or shareholders, which may discourage such lawsuits against us and our current or former directors, officers and other employees or shareholders. Alternatively, if a court were to find the choice of forum provisions contained in our bye-laws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, financial condition and results of operations.

We are a foreign private issuer and, as a result, we are not subject to U.S. proxy rules and are subject to Exchange Act reporting obligations that, to some extent, are more lenient and less frequent than those of a U.S. domestic public company.

We report under the Exchange Act as a non-U.S. company with foreign private issuer status. Because we qualify as a foreign private issuer under the Exchange Act, we are exempt from certain provisions of the Exchange Act that are applicable to U.S. domestic public companies, including (1) the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act, (2) the sections of the Exchange Act requiring insiders to file public reports of their share ownership and trading activities and liability for insiders who profit from trades made in a short period of time and (3) the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q containing unaudited financial and other specified information, although we intend to continue to furnish quarterly information on Form 6-K. In addition, foreign private issuers are not required to file their annual report on Form 20-F until 120 days after the end of each fiscal year, while U.S. domestic issuers that are accelerated filers are required to file their annual report on Form 10-K within 75 days after the end of each fiscal year and U.S. domestic issuers that are large accelerated filers are required to file their annual report on Form 10-K within 60 days after the end of each fiscal year. Foreign private issuers are also exempt from Regulation FD, which is intended to prevent issuers from making selective disclosures of material information. As a result of all of the above, you may not have the same protections afforded to shareholders of a company that is not a foreign private issuer.

As a foreign private issuer, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the NYSE corporate governance listing standards. These practices may afford less protection to shareholders than they would enjoy if we complied fully with corporate governance listing standards.

As a foreign private issuer listed on the NYSE, we are subject to corporate governance listing standards. However, rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in Bermuda, which is our home country, may differ significantly

from corporate governance listing standards. Therefore, our shareholders may be afforded less protection than they otherwise would have under corporate governance listing standards applicable to U.S. domestic issuers.

We may lose our foreign private issuer status in the future, which could result in significant additional costs and expenses.

While we currently qualify as a foreign private issuer, the determination of foreign private issuer status is made annually on the last business day of an issuer's most recently completed second fiscal quarter. As of June 30, 2024, we continued to qualify as a foreign private issuer. In the future, we would lose our foreign private issuer status if we fail to meet the requirements necessary to maintain our foreign private issuer status as of the relevant determination date. For example, if more than 50% of the voting power of our issued and outstanding share capital is held by U.S. residents and more than 50% of the members of our management or members of our board of directors are residents or citizens of the United States, we could lose our foreign private issuer status.

The regulatory and compliance costs to us under U.S. securities laws as a U.S. domestic issuer may be significantly more than the costs we incur as a foreign private issuer. If we are not a foreign private issuer, we will be required to file periodic reports and registration statements on U.S. domestic issuer forms with the SEC, which are more detailed and extensive in certain respects than the forms available to a foreign private issuer. We would be required to modify certain of our policies to comply with corporate governance practices associated with U.S. domestic issuers. We also may lose our ability to rely upon exemptions from certain corporate governance requirements on U.S. stock exchanges that are available to foreign private issuers, such as exemptions from procedural requirements related to the solicitation of proxies. In addition, we would be required to change our basis of accounting from IFRS as issued by the IASB to GAAP, which may be difficult and costly for us to comply with.

We are a "controlled company" under the NYSE rules, and we are able to rely on exemptions from certain corporate governance requirements that provide protection to shareholders of companies that are not controlled companies.

Our principal shareholder controls a majority of the voting power of our ordinary shares. As a result, we are a "controlled company" within the meaning of the corporate governance standards of the NYSE. Under these rules, a company of which more than 50% of the voting power is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of the board of directors consist of "independent directors" as defined under the rules of the NYSE;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- the requirement for an annual performance evaluation of the nominating and corporate governance and compensation committees.

We intend to utilize certain of these exemptions. As such, you will not have the same protections afforded to shareholders of companies that are subject to all of the NYSE rules.

As a newly public company, we will continue to incur increased costs that we did not incur as a private company, and our management will continue to devote substantial time to new compliance matters and corporate governance practices.

As a newly public company, we will continue to incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002, as amended (the "Sarbanes-Oxley Act"), the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), the listing requirements of the NYSE and other applicable securities rules and regulations impose various requirements on public companies, including establishment and maintenance of effective disclosure and financial controls and corporate governance practices. Our management and other personnel will need to continue to devote a substantial amount of time to these compliance initiatives. Moreover, these rules and regulations will continue to increase our legal and financial compliance costs and will make some activities more time-consuming and costlier.

Key members of our management team have limited experience managing a public company.

Many members of our management team have limited experience managing a publicly traded company, interacting with public company investors and complying with the increasingly complex laws pertaining to public companies. Considering our recent IPO, our management team may not successfully or efficiently manage our transition to being a public company subject to significant regulatory oversight and reporting obligations under the federal securities laws and the continuous scrutiny of securities analysts and investors. These obligations and constituents will continue to require significant attention from our senior management and could divert their attention away from the day-to-day management of our business, which could adversely affect our business, financial condition and results of operations.

Our dual class share structure with different voting rights may adversely affect the value and liquidity of our ordinary shares.

We cannot predict whether our dual class share structure with different voting rights will result in a lower or more volatile market price of our ordinary shares, in adverse publicity, or other adverse consequences. Certain index providers have announced restrictions on including companies with multiple class share structures in certain of their indices. Because of our dual class structure, we will likely be excluded from these indices and other stock indices that take similar actions. Given the sustained flow of investment funds into passive strategies that seek to track certain indices, exclusion from certain stock indices would likely preclude investment by many of these funds and could make our ordinary shares less attractive to investors. In addition, several shareholder advisory firms have announced their opposition to the use of multiple class structure and our dual class structure may cause shareholder advisory firms to publish negative commentary about our corporate governance, in which case the market price and liquidity of our ordinary shares could be adversely affected.

We have identified material weaknesses in our internal control over financial reporting. If our remediation of the material weaknesses is not effective, or if we identify additional material weaknesses in the future or otherwise fail to maintain effective internal control over financial reporting when we are subject to compliance with the Sarbanes-Oxley Act, our ability to produce accurate and timely consolidated financial statements could be impaired, investor confidence could be harmed and the value of our ordinary shares could be affected.

In connection with previously issued financial statements, we identified material weaknesses in our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected and corrected on a timely basis. The material weaknesses identified related to: (1) our information system controls around user access, segregation of conflicting duties and change management were not designed or operating effectively; and (2) our controls

around the financial statement close process and processes for accounting for non-routine transactions were not designed or operating effectively, including as a result of an inappropriate segregation of conflicting duties, insufficient review of journal entries and account reconciliations and insufficient evidence of performance of controls and review of non-routine transactions. These material weaknesses could result in a material misstatement of our annual or interim financial statements that would not be prevented or detected and corrected on a timely basis.

We have been making progress on a remediation plan that we believe addresses the underlying causes of the identified material weaknesses. Considerable efforts have been undertaken to design and implement appropriate processes and controls over our information systems to strengthen internal controls over user access, changes to systems and enhance segregation of duties. Additionally, we have undertaken efforts to (1) hire additional accounting and financial personnel with financial accounting, tax and reporting expertise, (2) increase training and education in accounting and reporting requirements, and (3) design and implement processes, tools and internal controls over the financial statement close process, strengthen internal controls for accounting for non-routine transactions, address segregation of duties conflicts, enhance the review of journal entries and account reconciliations, and improve evidence collection and maintenance of performance of controls.

Management has not yet been required to report on the effectiveness of our internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act. Though management has made significant incremental improvements to address the identified material weaknesses, until management has fully implemented the design of controls in accordance with the remediation plan, the applicable controls operate for a sufficient period of time and management concludes through performing a full assessment, including testing, that the controls are operating effectively, the material weaknesses cannot be considered fully remediated.

We will be required to evaluate and determine the effectiveness of our internal control over financial reporting and provide a management report as to internal control over financial reporting in our annual report on Form 20-F for the year ended December 31, 2025. If we fail to remediate the material weaknesses identified, identify additional material weaknesses in the future or are otherwise unable to implement and maintain effective internal control over financial reporting when we are subject to compliance with the Sarbanes-Oxley Act, we may be unable to timely and accurately report our financial results or comply with applicable regulations. Failure to maintain effective internal control over financial reporting also could potentially subject us to sanctions or investigations by the SEC or other regulatory authorities. We cannot assure you that our existing material weaknesses will be remediated, or that additional material weaknesses will not exist or otherwise be discovered, which could harm investor confidence in us and affect the value of our ordinary shares.

If securities or industry analysts do not publish research or reports or publish unfavorable research about our business, the price and trading volume of our ordinary shares could decline.

The trading market for our ordinary shares depends in part on the research and reports that securities or industry analysts publish about us, our business or our industry. We do not have control over these analysts. If few securities analysts commence coverage of us, or if industry analysts cease coverage of us, the trading price for our shares could be negatively affected. If securities or industry analysts do not publish research or reports about our business, downgrade our ordinary shares or publish negative reports about our business, the price of our ordinary shares could decline. If one or more of these analysts cease coverage of us or fail to publish reports on us regularly, demand for our ordinary shares could decrease, which could cause the price or trading volume of our ordinary shares to decline.

New risks can emerge from time to time, and it is not possible for us to predict all such risks, nor can we assess the impact of all such risks on our business or the extent to which any risks, or combination of risks and other factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not rely on forward-looking statements as a prediction of actual results.

Accordingly, you should read this prospectus completely and with the understanding that our actual future results may be materially different from what we expect. USE OF PROCEEDS

We will not receive any proceeds from the sale of ordinary shares by the selling shareholders in this offering.

DIVIDEND POLICY

We currently intend to retain any future earnings for use in the operation of our business and do not intend to declare or pay any cash dividends in the foreseeable future. Any further determination to pay dividends on our share capital will be at the discretion of our board of directors, subject to applicable laws, and will depend on our financial condition, results of operations, capital requirements, general business conditions and other factors that our board of directors considers relevant.

Under Bermuda law, a company may not declare or pay a dividend if there are reasonable grounds to believe that: (1) the company is, or would after the payment be, unable to pay its liabilities as they become due or (2) the realizable value of its assets would thereby be less than its liabilities. Any dividends we declare will be distributed such that a holder of one ordinary share will receive the same amount of dividends that are received by a holder of one special share. We will not declare any dividend with respect to our ordinary shares without declaring a dividend on our special shares, and vice versa.

Because we are a holding company, our ability to pay dividends also depends on our receipt of cash dividends from our operating subsidiaries, which may be restricted in their ability to pay dividends as a result of the laws of their respective jurisdictions of organization, agreements of our subsidiaries or covenants under any existing and future outstanding indebtedness we or our subsidiaries incur. In particular, the ability of our subsidiaries to distribute cash to us to pay dividends is limited by covenants in our debt instruments and may be further restricted by the terms of any future debt or preferred securities.

For the year ended December 31, 2021, we paid $128.8 million in dividends, of which $77.6 million related to dividends to the holders of our Series C Preference Shares and $51.2 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

For the year ended December 31, 2022, we paid $131.5 million in dividends, of which $85.0 million related to dividends to the holders of our Series C Preference Shares and $46.5 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

For the year ended December 31, 2023, we paid $134.3 million in dividends, of which $85.0 million related to dividends to the holders of our Series C Preference Shares and $49.3 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

For the six months ended June 30, 2024, we paid $46.8 million in dividends, of which $28.6 million related to dividends to the holders of our Series C Preference Shares and $18.2 million related to dividends to the holders of our ordinary shares, special shares and preference shares. All dividends for the six months ended June 30, 2024 were declared and paid prior to our IPO.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion contains management's discussion and analysis of our financial condition and results of operations and should be read together with "Prospectus Summary—Summary Consolidated Financial and Other Data" and our unaudited and audited consolidated financial statements and related notes thereto included elsewhere in this prospectus. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion are forward-looking statements. These forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described in "Risk Factors" and "Special Note Regarding Forward-Looking Statements." Our actual results may differ materially from those contained in or implied by any forward-looking statements.

Overview

Viking was founded in 1997 with four river vessels and a simple vision that travel could be more destination-focused and culturally immersive. Today, we have grown into one of the world's leading travel companies, with a fleet of 93 small, state-of-the-art ships, which we view as floating hotels. From our iconic journeys on the world's great rivers, including our new Mississippi River itineraries, to our ocean voyages around the globe and our extraordinary expeditions to the ends of the earth, we offer meaningful travel experiences on all seven continents in all three categories of the cruise industry—river, ocean and expedition cruising.

We launched Viking River in 1997. Seeing unaddressed demand for a destination-focused product in the ocean cruise market, we launched Viking Ocean in 2015, which has since become our fastest growing segment. Looking beyond our primary source markets, we launched China Outbound for the Mandarin-speaking market in 2016. In 2022, our 25th year in business, we further expanded our platform with Viking Expedition and Viking Mississippi. Each new product creates additional travel opportunities for past guests and broadens our platform to attract new guests.

Key Factors Affecting Our Results of Operations

Key factors that have influenced our results of operations in the past and may also influence results in the future include:

Significant Early Bookings—We have historically been able to attain high levels of early bookings. Due to these bookings, we have insight into levels of guest demand, and can strategically allocate the ships in our fleet to optimize our revenue and Net Yield. For example, we may distribute a greater number of our nearly identical Longships to regions with higher demand, or manage our capacity by consolidating passengers and taking one or more of our ships out of service to reduce our operating costs. Additionally, the insights into guest demand inform our decisions for future ship commitments and allow us to coordinate our planned capacity growth with expected future demand. As cruise-related revenue is recognized over the duration of the cruise, our results of operations are affected by strategies we employed during prior periods. For instance, to obtain early bookings, a significant portion of the selling and administration expenses that we incur in a period supports revenues for future periods, including marketing and employee costs that support the growth of our fleet. We expect that our ability to attain high levels of early bookings for future seasons will impact our results for future periods.

Size of Our Fleet and Occupancy—Our operating results are highly correlated with the number of ships that we operate during a given period and our Occupancy. If we take delivery of additional ships, our potential Capacity PCDs would increase, which may increase our revenue. In contrast, if we decide to take one or more of our ships out of service, our Capacity PCDs would decrease, which we expect will lower our revenue. As of June 30, 2024, our fleet consisted of 81 river vessels, including the *Viking Mississippi*, nine ocean ships and two expedition ships.

We strategically manage our fleet by adjusting the number of ships deployed to a particular region, or in total, to improve Occupancy and efficiently manage operating costs. Our early bookings enable us to best position our fleet of nearly identical ships to meet guest demand.

Seasonality—Our results are seasonal because while our ocean, expedition and Mississippi products operate year-round, the primary cruising season for our river product is from April to October, although some of our river cruises run longer seasons. Additionally, our highest Occupancy occurs during the Northern Hemisphere's summer months. We recognize cruise-related revenue over the duration of the cruise and expense our marketing and employee costs when the related costs are incurred. As a result, the majority of our revenue and profits have historically been earned in the second and third quarters of each year, while the first and fourth quarters of each year have been closer to break even or a loss, as our selling and administration expenses are consistent throughout the year. Though the growth of our fleet of year-round products will continue to reduce the seasonality in future periods, we expect the seasonality trend of our revenue and profits to continue.

Operating costs and expenses—Our operating costs and expenses are dependent on both macroeconomic factors and our strategic decisions. Inflation may increase our operating costs and expenses in future periods, including costs of labor, fuel and airfare. Inflation generally does not impact our ship commitments that are already under contract as a fixed price has already been agreed upon. Additionally, as a result of our early bookings, we may not be able to pass on increases in operating costs and expenses, including cost increases from our suppliers and changes in governmental fees and taxes, to our guests with existing bookings, though we are able to adjust pricing for future bookings. However, as a significant portion of our marketing expenses are discretionary, we are able to strategically deploy our resources based on current market conditions, our early bookings and other factors.

Financial Presentation

Description of Certain Line Items

Revenue

Our revenue consists of:

- Cruise and land, which includes revenue, net of discounts, earned primarily from cruises, air, land excursions, cancellation revenue and travel protection, net; and
- Onboard and other, which primarily consists of revenue related to optional shore excursions, onboard bar revenue, shop revenue and other products offered during a cruise, and services revenue.

Expenses

Our operating costs and expenses consist of:

- Commissions and transportation costs, which consists of commission payments made to third parties for selling our product and the cost of air and other transportation;
- Direct costs of cruise, land and onboard, which primarily includes cost of land excursions, included shore excursions, optional shore excursions, credit card fees, transfer costs and onboard purchases;
- Vessel operating, which primarily consists of costs to operate the vessels such as staff costs, fuel, food and hotel consumables, port charges, insurance, repair and maintenance, value added taxes, and charter costs for non-lease components; and
- Selling and administration, which primarily consists of costs associated with marketing costs, employee costs, office expenses, professional services and other administration costs.

Selected Operational and Financial Metrics, including Non-IFRS Financial Measures

We use certain non-IFRS financial measures, such as Adjusted Gross Margin, Net Yield, Adjusted EBITDA, Adjusted EPS and vessel operating expenses excluding fuel to analyze our performance. We utilize Adjusted Gross Margin and Net Yield to manage our business because these measures reflect revenue earned net of certain direct variable costs. We also present certain non-IFRS financial measures because we believe that they are widely used by certain investors, securities analysts and other interested parties as supplemental measures of performance and liquidity. Our non-IFRS financial measures have limitations as analytical tools, may not be comparable to other similarly titled measures of other companies and should not be considered in isolation or as a substitute for analysis of our operating results as reported under IFRS.

Adjusted EBITDA represents EBITDA (consolidated net income (loss) adjusted for interest income, interest expense, income tax benefit (expense) and depreciation, amortization and impairment) as further adjusted for non-cash Private Placement derivatives gains and losses, loss on Private Placement refinancing, currency gains or losses, stock-based compensation expense and other financial income (loss) (which includes forward gains and losses, gain or loss on disposition of assets, certain non-cash fair value adjustments, restructuring charges and non-recurring items). Adjusted EBITDA is a non-IFRS financial measure and does not comply with IFRS because it is adjusted to exclude certain cash and non-cash expenses. We present Adjusted EBITDA as a performance measure because we believe it facilitates a comparison of our consolidated operating performance on a consistent basis from period-to-period and provides for a more complete understanding of factors and trends affecting our business than measures under IFRS can provide alone. Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. You should exercise caution in comparing our Adjusted EBITDA to Adjusted EBITDA of other companies.

Adjusted Earnings per Share or *Adjusted EPS* represents Adjusted Net Income attributable to Viking Holdings Ltd divided by Adjusted Weighted Average Shares Outstanding. We present Adjusted EPS because we believe it provides additional information to us and our investors about the earnings performance of our primary operating business. We have presented Adjusted EPS for periods beginning in 2024 due to the changes in our capital structure as a result of the IPO.

Adjusted Net Income attributable to Viking Holdings Ltd represents net income (loss) attributable to Viking Holdings Ltd excluding certain items that we believe are not part of our primary operating business and are not an indication of our future earnings performance. We believe that interest expense and Private Placement derivatives gain (loss) related to our Series C Preference Shares, warrants gain (loss), debt extinguishment and modification costs, gain (loss) on embedded derivatives associated with debt and financial liabilities, impairment charges and reversals and certain other gains and losses are not a part of our primary operating business and are not an indication of our future earnings performance.

Adjusted Weighted Average Shares Outstanding represents the diluted weighted average ordinary shares and special shares outstanding, adjusted for outstanding warrants and the impact of RSUs and stock options under the treasury stock method to the extent not included in diluted weighted average ordinary shares outstanding, as further adjusted in 2024 to reflect the conversion of the Series C Preference Shares and preference shares as if it had occurred at the beginning of the year.

Capacity Passenger Cruise Days or Capacity PCDs with respect to any given period is a measurement of capacity that represents, for each ship operating during the relevant period, the number of berths multiplied by the number of Ship Operating Days, determined on an aggregated basis for all ships in operation during the relevant period.

Adjusted Gross Margin is gross margin adjusted for vessel operating and ship depreciation and impairment. Gross margin is calculated pursuant to IFRS as total revenue less total cruise operating expenses and ship depreciation and impairment. Adjusted Gross Margin has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS.

Net Yield is Adjusted Gross Margin divided by Passenger Cruise Days. Due to early bookings by our passengers, our Net Yield for a given reporting period is affected by strategies we employed or events that occurred prior to the sailing year.

Occupancy is the ratio, expressed as a percentage, of Passenger Cruise Days to Capacity Passenger Cruise Days with respect to any given period. Contrary to many of our competitors, we do not allow more than two passengers to occupy a two-berth stateroom. Additionally, we have guests who choose to travel alone and are willing to pay higher prices for single occupancy in a two-berth stateroom. As a result, our Occupancy cannot exceed 100% and may be less than 100%, even if all our staterooms are booked.

Passenger Cruise Days or PCDs is the number of passengers carried for each cruise, with respect to any given period and for each ship operating during the relevant period, multiplied by the number of Ship Operating Days.

Ship Operating Days is the number of days within any given period that a ship and vessel is in service and carrying cruise passengers, determined on an aggregated basis for all ships and vessels in operation during the relevant period.

Vessel operating expenses excluding fuel is vessel operating expenses less fuel expense. Management believes this is a relevant measure for evaluating our ability to control costs. Vessel operating expenses excluding fuel has limitations as an analytical tool because it excludes an expense necessary for conducting our operations, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS.

Results of Operations

Operating results for the years ended December 31, 2021, 2022 and 2023 and for the six months ended June 30, 2023 and 2024 are shown in the following table. Our historical results are not necessarily indicative of our future results. Additionally, our historical results for the years ended December 31, 2021 and 2022 reflect the impact of COVID-19 on our business. Due to the worldwide spread of COVID-19, government-imposed travel restrictions and limited access to certain ports, we suspended our worldwide cruise operations beginning March 12, 2020 and we began our phased relaunch in May 2021.

(1) Adjusted EBITDA is a non-IFRS financial measure. We present Adjusted EBITDA as a performance measure because we believe it facilitates a comparison of our consolidated operating performance on a consistent basis from period-to-period and provides for a more complete understanding of factors and trends affecting our business than measures under IFRS can provide alone. Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS. (b) Warrants loss (gain) represents the non-cash loss (gain) on the remeasurement of the warrant liability and is included in other financial loss (income) on the unaudited interim condensed consolidated statements of operations. Warrants loss (gain) was previously included in the Adjusted EBITDA table in other financial (income) loss. Presentation for the years ended December 31, 2019, 2020, 2021, 2022 and 2023 has been updated to conform to the presentation for the six months ended June 30, 2023 and 2024 to reflect warrants loss (gain) as a separate line item.

Six Months Ended June 30, 2024 Compared to Six Months Ended June 30, 2023

Revenues

Consolidated

Total revenue for the six months ended June 30, 2024 increased by $221.6 million, or 10.6%, to $2,305.4 million from $2,083.8 million for the same period in 2023.

Cruise and land increased by $206.2 million, or 10.6%, to $2,145.8 million for the six months ended June 30, 2024, from $1,939.6 million for the same period in 2023. Onboard and other increased by $15.4 million, or 10.7%, to $159.6 million for the six months ended June 30, 2024, from $144.2 million for the same period in 2023. These increases were primarily due to an increase in PCDs, mainly due to the operation of additional ships delivered, including the *Viking Saturn* and *Viking Aton*, which were delivered in April 2023 and August 2023, respectively, and higher revenue per PCD. Additionally, we had an earlier season start in 2024 for certain river vessels in Europe beginning in January.

Viking River Segment

Total revenue for our Viking River segment for the six months ended June 30, 2024 increased by $93.9 million, or 9.7%, to $1,057.2 million from $963.3 million for the same period in 2023. The increase was primarily due to higher revenue per PCD and an earlier season start in 2024 for certain river vessels in Europe beginning in January.

Viking Ocean Segment

Total revenue for our Viking Ocean segment for the six months ended June 30, 2024 increased by $93.4 million, or 10.1%, to $1,020.9 million from $927.5 million for the same period in 2023. The increase was primarily due to an increase in PCDs, mainly due to additional ship operating days for the *Viking Saturn*, which was delivered in April 2023.

Operating Costs and Expenses

Commissions and transportation costs increased by $16.4 million, or 3.5%, to $483.5 million for the six months ended June 30, 2024, from $467.1 million for the same period in 2023. The increase was primarily

due to an increase in PCDs, mainly due to the operation of additional ships delivered, including the *Viking Saturn* and *Viking Aton*, which were delivered in April 2023 and August 2023, respectively, and higher revenue. Additionally, we had an earlier season start in 2024 for certain river vessels in Europe beginning in January.

Direct costs of cruise, land and onboard increased by $35.3 million, or 13.9%, to $289.0 million for the six months ended June 30, 2024, from $253.7 million for the same period in 2023. The increase was primarily due to an increase in PCDs as well as an increase in our ancillary services. The increase in PCDs was mainly due to the operation of additional ships delivered, including the *Viking Saturn* and *Viking Aton*, which were delivered in April 2023 and August 2023, respectively. Additionally, we had an earlier season start in 2024 for certain river vessels in Europe beginning in January.

Vessel operating increased by $22.0 million, or 3.7%, to $610.1 million for the six months ended June 30, 2024, from $588.1 million for the same period in 2023. The increase was primarily due to an increase in operations, mainly due to the operation of additional ships delivered, including the *Viking Saturn* and *Viking Aton*, which were delivered in April 2023 and August 2023, respectively. Additionally, we had an earlier season start in 2024 for certain river vessels in Europe beginning in January.

Selling and administration increased by $39.1 million, or 9.7%, to $440.4 million for the six months ended June 30, 2024, from $401.3 million for the same period in 2023. The increase was due to an increase in employee costs and a net increase in selling costs, office and other expenses and professional fees, primarily due to an increase in capacity PCDs for 2024 and future seasons.

Depreciation, amortization and impairment increased by $0.1 million, or 0.1%, to $126.1 million for the six months ended June 30, 2024, from $126.0 million for the same period in 2023.

The drivers of changes in operating costs and expenses for our Viking River and Viking Ocean segments are the same as those described for our consolidated results.

As a result of the foregoing, operating income was $356.4 million for the six months ended June 30, 2024, compared to $247.6 million for the same period in 2023.

Non-operating Income (Expense)

Net interest expense decreased by $93.2 million to $184.9 million for the six months ended June 30, 2024, from $278.1 million for the same period in 2023. The decrease was primarily due to non-recurring charges of $48.0 million for the loss on early extinguishment of the 2025 Secured Notes in 2023, a $47.3 million related decrease in interest expense as a result of the extinguished 2025 Secured Notes, a $14.4 million increase in interest income and a $5.0 million net decrease in interest expense related to paydowns of loans and financial liabilities and other interest expense. These decreases were partially offset by a $33.0 million increase in interest expense related to the 2031 VCL Notes and a $3.8 million increase in interest expense related to the debt drawdown upon the delivery of the *Viking Saturn* in 2023.

Additionally, for the six months ended June 30, 2024 and 2023, the Company recognized a total of $32.0 million and $47.3 million, respectively, in interest expense related to the Series C Preference Shares. Immediately prior to the consummation of the IPO, the Series C Preference Shares automatically converted to ordinary shares and upon conversion to ordinary shares, the Private Placement liability was no longer outstanding.

Currency gain (loss) increased by $25.2 million to a gain of $10.2 million for the six months ended June 30, 2024, from a loss of $15.0 million for the same period in 2023. The gain was primarily due to unrealized gains for the €316.6 million *Viking Neptune* and €316.6 million *Viking Saturn* loans, which are both payable in euros and adjusted for currency translation, partially offset by realized currency losses due to payments for operating costs and vendor payments incurred in non-U.S. dollar denominations.

Private Placement derivative (loss) gain decreased by $430.5 million to a loss of $364.2 million for the six months ended June 30, 2024, from a gain of $66.3 million for the same period in 2023. The $364.2 million loss on remeasurement of the Private Placement derivative was primarily due to an increase in the fair value of the Series C Private Placement derivative as a result of the increase in the ordinary share price. Immediately prior to the consummation of the IPO, the Series C Preference Shares automatically converted to ordinary shares and upon conversion to ordinary shares, the Private Placement derivative was no longer outstanding.

Other financial loss increased by $106.2 million to $146.5 million for the six months ended June 30, 2024, from $40.3 million for the same period in 2023. The increase was primarily due to a $146.7 million loss on the remeasurement of the warrant liability in 2024 compared to a $1.8 million gain for the same period in 2023, partially offset by a decrease related to a $40.6 million in loss on the remeasurement of the 2025 Secured Notes embedded derivative in 2023, which was derecognized in the second quarter of 2023.

Income tax expense increased by $4.3 million to $9.1 million for the six months ended June 30, 2024, from $4.8 million for the same period in 2023.

Net Loss

Net loss increased by $313.8 million to $338.1 million for the six months ended June 30, 2024, from $24.3 million for the same period in 2023. The increase was primarily due to a $364.2 million loss on remeasurement of the Private Placement derivative in 2024 compared to a $66.3 million gain for the same period in 2023, and a $106.2 million increase in other financial loss primarily due to the remeasurement of the warrant liability. These increases were partially offset by a $108.8 million increase in operating income and a $93.2 million decrease in net interest expense due to the various factors described above.

This increase was due to an increase in the size of our fleet and higher Occupancy in 2023 compared to 2022. During the year ended December 31, 2023, we operated ships and vessels delivered in 2022 for the entire 2023 season. Selling and administration increased by $106.2 million, or 15.6%, to $789.0 million for the year ended December 31, 2023, from $682.8 million in 2022. The increase was due to a $64.9 million net increase in selling costs, office and other expenses and professional fees and a $41.3 million increase in employee costs, primarily due to an increase in capacity PCDs for 2023 and future seasons.

Depreciation, amortization and impairment decreased by $25.2 million, or 9.1%, to $251.3 million for the year ended December 31, 2023, from $276.5 million in 2022. The decrease was primarily due to $41.9 million in impairments for river vessels in 2022 related to Russia and Ukraine river vessels, the *Viking Prestige* and the *Viking Legend*, and a $2.0 million net decrease in depreciation and amortization related to intangible assets, other fixed assets and right-of-use ("ROU") lease assets. These decreases were partially offset by an $18.7 million increase in depreciation primarily due to new vessels and ships delivered in 2023 and 2022, net of a decrease in depreciation related to older vessels and ships.

The drivers of changes in operating costs and expenses for our Viking River and Viking Ocean segments are the same as those described for our consolidated results.

As a result of the foregoing, operating income was $818.4 million for the year ended December 31, 2023, compared to $64.3 million in 2022.

Non-operating Income (Expense)

Net interest expense increased by $48.3 million to $490.9 million for the year ended December 31, 2023, from $442.6 million in 2022. The increase was primarily due to non-recurring charges of $48.0 million for the loss on early extinguishment of VCL's 13.000% Senior Secured Notes due 2025 (the "2025 Secured Notes"), a $33.6 million increase in interest expense primarily related to VCL's 9.125% Senior Notes due 2031 (the "2031 VCL Notes") issued in 2023, a $25.3 million increase in interest expense related to loans and financial liabilities drawn in connection with ships delivered in 2022 and 2023, a $10.7 million increase in interest expense related to lease liabilities and a net $9.3 million increase in interest expense primarily related to increases in variable interest rates for vessel and ship financing and other interest expense. These increases were partially offset by a $44.6 million decrease in interest expense related to the extinguishment of the 2025 Secured Notes in 2023 and a $34.0 million increase in interest income.

For the years ended December 31, 2022 and 2023, interest expense included $94.2 million and $94.8 million, respectively, related to our Series C Preference Shares. All outstanding Series C Preference Shares automatically converted into ordinary shares immediately prior to the consummation of our IPO.

Currency loss decreased by $14.2 million to $20.8 million for the year ended December 31, 2023, from $35.0 million in 2022. The loss was primarily due to unrealized losses for the €316.6 million *Viking Neptune* and €316.6 million *Viking Saturn* loans, which are both payable in euros and adjusted for currency translation, and net unrealized currency losses from bank accounts held in foreign currencies and cost accruals, denominated in euros.

Private Placement derivatives (loss) gain decreased by $2,815.6 million to a loss of $2,007.1 million for the year ended December 31, 2023, from a gain of $808.5 million in 2022. The $2,007.1 million loss on remeasurement of the Private Placement derivative was primarily due to an increase in the fair value of the Series C Private Placement derivative. The increase in the fair value of the Series C Private Placement derivative was due to an increase in the fair value of equity, which was primarily as a result of changes to forecasted future cash flows and decreases in the discount rate and market interest rates, offset by changes in the forward EUR/USD curve. Our Series C Preference Shares automatically converted to ordinary shares immediately prior to the consummation of our IPO, and upon conversion to ordinary shares, the Private Placement derivative was no longer outstanding.

Other financial income (loss) decreased by $163.7 million to a loss of $151.5 million for the year ended December 31, 2023, from income of $12.2 million in 2022. The decrease was primarily due to an increase in the fair value of the warrant liability in 2023 compared to a decrease in 2022. For the years ended December 31, 2022 and 2023, we recognized a gain of $40.6 million and a loss of $107.7 million, respectively, on remeasurement of the warrant liability. The remaining decrease was due to a loss of $40.6 million on remeasurement of the 2025 Secured Notes embedded derivative, which included a $7.3 million loss on remeasurement of the 2025 Secured Notes embedded derivative and a $33.3 million loss to derecognize the 2025 Secured Notes embedded derivative, compared to a $27.0 million loss on remeasurement of the 2025 Secured Notes embedded derivative in 2022.

Income tax expense decreased by $2.3 million to $6.6 million for the year ended December 31, 2023, from $8.9 million in 2022. The decrease between periods relates to foreign local taxes as well as temporary differences between book and tax and changes in deferred tax assets and liabilities.

Net Income (Loss)

Net income (loss) decreased by $2,257.1 million to a net loss of $1,858.6 million for the year ended December 31, 2023, from net income of $398.5 million in 2022. The decrease was primarily due to a $2,007.1 million loss on remeasurement of the Private Placement derivative in 2023 compared to an $808.5 million gain on remeasurement of the Private Placement derivative in 2022, partially offset by a $754.1 million increase in operating income due to the various factors described above.

Year Ended December 31, 2022 Compared to Year Ended December 31, 2021

Revenues

Consolidated

Cruise and land increased by $2,412.9 million to $2,955.9 million for the year ended December 31, 2022, from $543.0 million in 2021. The increase was due to the operation of substantially all of our fleet and higher

Occupancy in 2022 compared to 2021. Due to the COVID-19 pandemic, we operated about half of our river fleet and our full fleet of six ocean ships at the peak of operations in 2021. In addition, during 2022, two new ocean ships, two river vessels, two expedition ships and the *Viking Mississippi* began operations.

Onboard and other increased by $138.0 million to $220.1 million for the year ended December 31, 2022, from $82.1 million in 2021. The increase was due to the operation of substantially all of our fleet and higher Occupancy in 2022 compared to 2021. In addition, during 2022, two new ocean ships, two river vessels, two expedition ships and the *Viking Mississippi* began operations. In 2021, as part of our relaunch of operations, we operated a smaller fleet at lower Occupancy. The increase was partially offset by a decrease in revenue related to services provided to CMV, the entity of the China JV Investment that we do not consolidate.

Viking River Segment

Total revenue for our Viking River segment for the year ended December 31, 2022 increased by $1,457.3 million to $1,796.5 million from $339.2 million in 2021. The increase was due to the operation of substantially all of our river fleet and higher Occupancy in 2022 compared to 2021. Due to the COVID-19 pandemic, we operated about half of our river fleet at the peak of operations in 2021. In addition, during 2022, two new river vessels began operations.

Viking Ocean Segment

Total revenue for our Viking Ocean segment for the year ended December 31, 2022 increased by $938.8 million to $1,189.3 million from $250.5 million in 2021. The increase was due to the operation of our entire ocean fleet of eight ships, which included two new ocean ships delivered in 2022, and higher Occupancy in 2022 compared to 2021. In 2021, as part of our relaunch of operations, we operated a fleet of six ocean ships at lower Occupancy.

Operating Cost and Expenses

Consolidated

Commissions and transportation costs increased by $612.6 million to $769.6 million for the year ended December 31, 2022, from $157.0 million in 2021. The increase was due to the operation of substantially all of our fleet and higher Occupancy in 2022 compared to 2021. In addition, during 2022, two new ocean ships, two river vessels, two expedition ships and the *Viking Mississippi* began operations. In 2021, as part of our relaunch of operations, we operated a smaller fleet at lower Occupancy.

Direct costs of cruise, land and onboard increased by $311.8 million to $408.7 million for the year ended December 31, 2022, from $96.9 million in 2021. In 2022, we cancelled all sailings on our river vessels in Russia and Ukraine as a result of the Russia-Ukraine conflict and recognized a $28.6 million impairment due to these cancellations and the uncertainty of future operations in these regions. We also recognized $13.3 million in impairment for two other river vessels, the *Viking Prestige* and the *Viking Legend*. Additionally, $18.2 million of the increase in depreciation was due to vessel and ship deliveries in 2022 and 2021, net of a decrease in depreciation related to older vessels and ships. Net interest expense increased by $60.0 million to $442.6 million for the year ended December 31, 2022, from $382.6 million in 2021. The increase was primarily due to a $25.7 million increase in interest expense related to loans and financial liabilities drawn in connection with ships delivered in 2021 and 2022. Additionally, there was a $13.3 million increase in interest expense, primarily related to increases in interest related to lease liabilities and increases in variable interest rates for vessel financing, and a $11.3 million increase in interest expense related to the additional principal amount of $150.0 million in VCL's 7.000% Senior Unsecured Notes due 2029 (the "2029 Unsecured Notes") issued in October 2021.

Additionally, there was a $24.7 million net increase in interest expense related to Private Placement liabilities due to a $14.7 million gain in 2021 as a result of the change in expectations in 2021 of whether dividends would be paid in cash or in-kind. Our Series C Preference Shares automatically converted into ordinary shares immediately prior to the consummation of our IPO.

These increases were partially offset by a $12.1 million increase in interest income and a $2.9 million decrease in interest expense related to the financial liability to the *Viking Sun*, which was sold in the second quarter of 2021.

Currency gain (loss) decreased by $40.4 million to a loss of $35.0 million for the year ended December 31, 2022, from a gain of $5.4 million in 2021. The loss was primarily due to unrealized losses from the €316.6 million loan related to the delivery of the *Viking Neptune*, which is payable in EUR and adjusted for currency translation and bank accounts held in foreign currencies, cost accruals, denominated in euros, partially offset by realized currency gains due to payments for operating costs and vendor payments incurred in non-U.S. dollar denominations.

Private Placement derivatives (loss) gain increased by $1,504.6 million to a gain of $808.5 million for the year ended December 31, 2022, from a loss of $696.1 million in 2021. The $808.5 million gain on remeasurement of the Private Placement derivative was primarily due to a decrease in the fair value of the

Series C Private Placement derivative. The decrease in the fair value of the Series C Private Placement derivative was due to a decrease in the fair value of equity, which was primarily as a result of changes to forecasted future cash flows and increases in the discount rate due to increases in market interest rates, offset by changes in the forward EUR/USD curve reflecting forecasted strengthening of the U.S. dollar. Our Series C Preference Shares automatically converted to ordinary shares immediately prior the consummation of our IPO, and upon conversion to ordinary shares, the Private Placement derivative was no longer outstanding.

Loss on Private Placement refinancing was a non-recurring loss of $367.2 million during the year ended December 31, 2021 related to: (1) the difference between (a) the fair value of the Series C Private Placement liability and Series C Private Placement derivative at closing and (b) the aggregate carrying values of Series A and Series B Private Placement liabilities and derivatives, and cash received, and (2) direct transaction costs.

Other financial income increased by $3.8 million to $12.2 million for the year ended December 31, 2022, from $8.4 million in 2021. The increase was primarily due to a decrease in the fair value of the warrant liability in 2022 compared to an increase in 2021 partially offset by a decrease in the fair value of certain redemption features of the 2025 Secured Notes in 2022, compared to an increase in 2021.

Income tax expense increased by $3.9 million to $8.9 million for the year ended December 31, 2022, from $5.0 million in 2021. The increase between periods relates to foreign local taxes as well as temporary differences between book and tax and changes in deferred tax assets and liabilities.

Net (Loss) Income

Net loss decreased by $2,510.7 million to net income of $398.5 million for the year ended December 31, 2022, from a net loss of $2,112.2 million in 2021. The decrease was primarily due to an $808.5 million gain on remeasurement of the Private Placement derivatives in 2022 compared to $696.1 million in losses on remeasurement of the Private Placement derivatives in 2021 and the loss on Private Placement refinancing of $367.2 million in 2021, and a $739.4 million decrease in operating loss due to the various factors described above.

Unaudited Quarterly Results of Operations

The following tables set forth unaudited quarterly condensed consolidated statements of operations and statistical and operating data for each of the quarters in the year ended December 31, 2023 and for the first two quarters of the year ended December 31, 2024. The information for each of these quarters has been prepared on the same basis as the audited annual consolidated financial statements included elsewhere in this prospectus and, in the opinion of management, includes all adjustments, which consist only of normal recurring adjustments, necessary for the fair presentation of the results of operations for these periods. This data should be read in conjunction with our consolidated financial statements, unaudited interim condensed consolidated financial

statements, related notes and other financial information included elsewhere in this prospectus. These quarterly results are not necessarily indicative of our operating results for any future period.

We present Adjusted EPS because we believe it provides additional information to us and our investors about the earnings performance of our primary operating business. Adjusted EPS has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS

The following tables show the calculation of Adjusted EPS for the three months ended June 30, 2024. (1) Adjusted Gross Margin is a non-IFRS financial measure. Management believes this is a relevant measure of our performance because it reflects revenue earned net of certain direct variable costs. Adjusted Gross Margin has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results as reported under IFRS.

The following table reconciles gross margin, the most directly comparable IFRS measure, to Adjusted Gross Margin for each of the three months ended March 31, June 30, September 30, December 31, 2023, March 31, 2024 and June 30, 2024, on a consolidated basis:

Liquidity and Capital Resources

Liquidity Management

Our liquidity requirements arise primarily from the need to fund working capital and capital expenditures for the expansion, refurbishment and maintenance of our fleet and to repay debt. Historically, we have obtained financing of up to 80% of our newbuild contract prices and issued debt and equity to finance our cash needs and the growth of our business. Additionally, we collect significant deposits from bookings, which are recorded as deferred revenue and are recognized as revenue generally pro rata over the cruise period. In June 2024, VCL entered into a credit agreement for a five-year revolving credit facility in an aggregate principal amount of $375.0 million, the proceeds of which will be used by us to finance ongoing working capital requirements and for other general corporate purposes.

As of June 30, 2024, we had $1,842.1 million in cash and cash equivalents and a working capital deficit of $2,580.2 million. The working capital deficit included $3,823.4 million of deferred revenue. We believe existing cash and cash equivalents and cash flows from operations and financing activities will continue to be sufficient to fund our operating activities and cash commitments for at least the next 12 months. Our liquidity requirements depend on a number of factors, many of which are beyond our control, as further described in the “Risk Factors” section of this prospectus.

On May 3, 2024, we closed our IPO and issued 11,000,000 ordinary shares, at a public offering price of $24.00 per share. We received net proceeds of $243.9 million after deducting underwriting discounts and commissions of $13.2 million and other offering expenses of $6.9 million. In connection with the settlement of RSUs that vested upon our IPO, we withheld 5,171,224 ordinary shares and used $136.4 million of the net proceeds from our IPO to satisfy tax withholding and remittance obligations.

Our liquidity requirements also include operating expenses, which have been impacted by elevated levels of inflation. We closely monitor costs and are cost conscious in managing our operations. We may work with multiple suppliers or source items from different markets to take advantage of cost competition. We may also look for opportunities to thoughtfully substitute lower cost alternatives, without compromising the quality of the guest experience. Where we anticipate elevated costs may be more sustained, we may enter into contracts with suppliers to lock in rates, such as for our river fuel. We are also strategic in the duration of our contracts to provide flexibility to take advantage of cost declines when they occur.

We collect a significant amount of deposits for cruise bookings from our customers well in advance of their cruise dates. Credit card and electronic transfer transactions that process in less than 21 days are classified as cash and cash equivalents. Other credit card receivables and deposits are included in accounts and other receivables and prepaid expenses and other current assets. We rely on multiple credit card processors for collection of customer funds for future cruises. Credit card processors can limit the funds they remit to us if they determine that they need to increase their reserve requirements on credit card processing activities, which could reduce our cash and cash equivalents and negatively impact our liquidity position.

If we cancel sailings, guests generally have the option to receive either a refund in cash for 100% of monies paid to us or a Premium Cruise Voucher with a face value of up to 125% of monies paid. Premium Cruise Vouchers can generally be applied to a new booking for up to two years from the voucher issuance date (or longer, if the expiration date is extended) and any unused Premium Cruise Vouchers are refundable for the original amount paid upon expiration. In addition, in the event of travel uncertainty, we may temporarily update our cancellation policies to give our guests the option to receive a Risk Free Voucher, instead of incurring cancellation penalties. For example, in response to the COVID-19 pandemic, we temporarily updated our cancellation policies for bookings made through June 30, 2022 to give our guests the option to cancel cruises closer to the date of departure and receive Risk Free Vouchers instead of incurring cancellation penalties.

Upon issuance, Premium Cruise Vouchers and Risk Free Vouchers are included in deferred revenue for amounts equal to money paid. We recognize revenue over the cruise period to which Premium Cruise Vouchers or Risk Free Vouchers are applied, with a corresponding decrease to deferred revenue. Expired Premium Cruise Vouchers will be refunded to guests in cash, with a corresponding decrease in deferred revenue. We recognize cruise revenue for Risk Free Vouchers that we estimate will expire unused over the redemption period for these vouchers.

Net Cash Flow from Operating Activities

Net cash flow from operating activities increased by $69.4 million to $882.8 million for the six months ended June 30, 2024, compared to $813.4 million for the same period in 2023. The increase was primarily due to a $108.8 million increase in operating income. Other changes primarily relate to timing differences in cash receipts and payments for various operating assets and liabilities.

Net cash flow from operating activities increased by $998.6 million to $1,371.3 million for the year ended December 31, 2023, compared to $372.7 million in 2022. The increase in cash flow from operating activities was primarily due to a $754.1 million increase in operating income. Additionally, cash inflows from deferred revenue increased by $335.2 million. Other changes primarily relate to timing differences in cash receipts and payments relating to various operating assets and liabilities.

Net cash flow from operating activities decreased by $328.8 million to $372.7 million for the year ended December 31, 2022, compared to $701.5 million in 2021. The decrease in cash flow from operating activities was primarily due to a $1,625.0 million decrease in cash inflows from deferred revenue primarily due to the operation of substantially all of our fleet in 2022, compared to cash collections from customers during our temporary suspension of operations and phased relaunch of operations in 2021. This decrease was partially offset by a $639.6 million increase in net (loss) income, net of non-cash activity related to the remeasurement of the fair value of the Series C Private Placement derivative and the loss on the Private Placement refinancing in 2021. Other changes primarily relate to timing differences in cash receipts and payments relating to various operating assets and liabilities.

Net Cash Flow used in Investing Activities

Net cash flow used in investing activities decreased by $283.7 million to $220.8 million for the six months ended June 30, 2024, compared to $504.5 million for the same period in 2023. The decrease was primarily due to a $267.3 million decrease in capital expenditures and a $16.8 million increase in interest received.

Net cash flow used in investing activities decreased by $207.3 million to $634.2 million for the year ended December 31, 2023, compared to $841.5 million in 2022. The decrease was primarily due to a $281.0 million decrease in capital expenditures and a $31.5 million increase in interest received, partially offset by a non-recurring cash inflow for $100.0 million related to the settlement of a short-term investment in 2022.

Net cash flow used in investing activities increased by $166.0 million to $841.5 million for the year ended December 31, 2022, compared to $675.5 million in 2021. Net cash flow used in investing activities for the year ended December 31, 2021 included $400.0 million in proceeds from the sale of the *Viking Sun*. Additionally, there was a $200.0 million decrease related to the settlement of a $100.0 million short-term investment in 2022 which was purchased in 2021, and an $18.0 million decrease due to capital contributions made in 2021 related to our investment in CMV.

Net Cash Flow from (used in) Financing Activities

Net cash flow used in financing activities increased by $231.0 million to $331.1 million for the six months ended June 30, 2024, compared to $100.0 million for the same period in 2023. The increase was primarily due to $1,022.5 million in lower proceeds from borrowings related to the issuance of the 2031 VCL Notes and the debt drawdown upon the delivery of the Viking Saturn in 2023, $124.1 million in taxes paid related to net share settlement of equity awards in connection with the IPO and $74.0 million in higher loan repayments. These increases were partially offset by a $721.6 million trustee deposit made in June 2023 in connection with the early redemption of the 2025 Secured Notes, $243.9 million in net proceeds from the IPO and $19.3 million in lower interest paid.

Net cash flow used in financing activities increased by $398.8 million to $479.7 million for the year ended December 31, 2023, compared to $80.9 million in 2022. The increase was primarily due to $736.1 million in higher loan repayments primarily as a result of the early extinguishment of the 2025 Secured Notes, $32.9 million in penalties paid primarily related to the early extinguishment of the 2025 Secured Notes and $11.8 million in higher payments for lease liabilities. These increases were partially offset by an increase in proceeds from borrowings, net of transactions costs, of $391.0 million, related to the issuance of the 2031 VCL Notes, and the debt drawdown upon the delivery of the *Viking Saturn* in 2023, compared to the debt drawdown upon the delivery of the *Viking Mars* and the *Viking Neptune* in 2022.

Net cash flow from (used in) financing activities decreased by $1,044.3 million to an outflow of $80.9 million for the year ended December 31, 2022, compared to an inflow of $963.4 million in 2021. The decrease was primarily due to $699.0 million related to the issuance of our Series C Preference Shares in 2021 and a decrease in proceeds from borrowings, net of transaction costs, of $635.8 million, related to the debt drawdown upon the delivery of the *Viking Mars* and the *Viking Neptune* in 2022, compared to the issuance of the 2029 Secured Notes, the 2029 Unsecured Notes and debt drawdowns upon the delivery of the *Viking Octantis* and two river vessels in 2021, and an increase of $59.4 million in interest paid. These decreases were partially offset by a $200.0 million paid for the repurchase of shares from Viking Capital in 2021 and $160.8 million in lower loan repayments due to the conclusion of the deferred tranche activities.

Debt Obligations and Material Capital Commitments

The table below summarizes our significant short-term and long-term liquidity and capital resource needs, including principal and interest payments for debt and financial liabilities, shipbuilding obligations and vessel and ship charter obligations, based on contractual undiscounted cash flows as of June 30, 2024, assuming a euro to U.S. dollar exchange rate of 1.10:

(in thousands)	Total	Remainder of 2024	2025-2026	2027-2028	2029 - forward
Debt obligations	$ 5,199,563	$ 101,043	$ 641,821	$ 1,835,695	$ 2,621,004
Interest to be paid	1,583,624	155,954	571,885	463,058	392,727
Shipbuilding obligations	2,858,394	512,888	1,492,456	853,050	—
Vessel charter obligations	237,363	28,548	77,619	71,707	59,489
Total	$ 9,878,944	$ 798,433	$ 2,783,781	$ 3,223,510	$ 3,073,220

The table above reflects obligations related to outstanding loan and contracted ship commitments. Debt obligations are presented gross of loan costs of $116.9 million. Our debt obligations mature at various dates through 2035 and bear interest at fixed and variable rates. Future interest on variable rate debt as of June 30, 2024 is calculated based upon interest rates ranging from 6.94% to 8.61%. Shipbuilding obligations include purchase commitments for our newbuilds currently under contract as of June 30, 2024. As we make payments towards our newbuilds, our shipbuilding obligations are reduced. The table above only reflects ship commitments for shipyard newbuilding agreements or amendments that are effective as of June 30, 2024. Vessel and ship charter obligations represent remaining amounts contractually committed for leased vessels and ships, excluding renewal options not yet exercised. Vessel and ship charter obligations include payments for both asset and service components of the charters. Fees for the service components of the *Viking Mississippi* charter are subject to change based on actual operating expenses.

The table above reflects our shipbuilding obligations before the impact of financing. For our newbuilding activity, we typically finance 80% of the contract amount and fund 20% of the contract amount with cash on hand. The financed portion is typically paid to the shipyard on the ship delivery date, while the 20% that we remit directly to the shipyard is paid at various dates leading up to the ship delivery date based on the shipbuilding contract. We use a variety of instruments to finance our ships, including bank facilities, charter finance agreements or notes, but in each instance the financed portion is secured by the underlying ships. As our fleet grows, we often incur indebtedness for new ships prior to recognizing revenue on the new ships. See Note 14 in the audited consolidated financial statements and Note 10 in our unaudited interim condensed consolidated financial statements included elsewhere in this prospectus for further information about our debt obligations.

We have financial maintenance covenants on certain of our river vessel financings that require Viking River Cruises Ltd (“VRC”), as guarantor, and Viking River Cruises AG (“VRC AG”), as borrower, to maintain at all times following the first drawdown, an aggregate amount of consolidated free liquidity, which includes cash and

cash equivalents, marketable securities and receivables from credit card processors, equal to or greater than $75.0 million. As of June 30, 2024, VRC and VRC AG were in compliance with these financial maintenance covenants. Additionally, we are required to maintain $6.5 million in a financial liability deposit at all times throughout the charter period as part of the Viking Orion charter agreement.

Newbuilding Program

Newbuilds increase our potential number of berths and Capacity PCDs. Each Longship has 190 berths and certain of our river vessels are Longship-like, but are designed to be able to navigate smaller rivers and have fewer berths. Longships for China Outbound have 182 berths. Each ocean ship currently in operation has 930 berths and each additional ocean ship will have 998 berths. Each expedition ship has 378 berths. The *Viking Mississippi* has 386 berths.

We generally have a variety of alternatives to finance our newbuilds. When we acquire options for newbuilds, we have no contractual or financial obligation to the shipyard until a contract for a newbuild is signed with financing conditions fulfilled or waived.

River Newbuilds and Charters

In August 2024, we took delivery of the *Viking Hathor*. We are in the process of building five river vessels that will operate in Egypt, the *Viking Amun*, the *Viking Sobek*, the *Viking Thoth* and two additional vessels, and have entered into raw materials agreements for these vessels. We expect these vessels to be delivered between 2024 and 2026.

In 2023, we entered into shipbuilding contracts for the river vessels outlined below, assuming a euro to U.S. dollar exchange rate of 1.10. In 2024, we amended these contracts, which reduced the purchase price of each vessel by €1.5 million ($1.7 million, assuming a euro to U.S. dollar exchange rate of 1.10), changed the timing and amount of our installment payments to the shipyard and accelerated the delivery dates for certain vessels.

In January 2024, we entered into a shipbuilding contract for a Longship-Douro vessel modified for the Douro River for delivery in 2025 for $24.8 million, assuming a euro to U.S. dollar exchange rate of 1.10.

We have obtained financing for all ships, other than the Longship-Douro vessel, as described below.

River Vessels	Number of Vessels	Aggregate Price (in thousands)	Delivery Date
Longships	4	$ 162,800	2025
Longships-Seine	2	77,606	2025
Longship-Douro	1	24,750	2025
Longships	4	162,800	2026
Total	11	$ 427,956	

In August 2023, we entered into two loan agreements for €167.5 million each to finance the eight Longships and two Longships-Seine river vessels scheduled for delivery in 2025 and 2026. Euler Hermes Aktiengesellschaft (“Hermes”), which manages the official export credit guarantee scheme on behalf and for the account of the German Federal Government, has provided guarantees equal to 95% of the loan amounts. The loans are denominated in U.S. dollars and the applicable exchange rate will be based on the prevailing exchange rate two business days prior to the date of drawdown. These loans have a term of 102 months from the date of drawdown and we may select fixed or variable rate financing prior to each drawdown. VRC and VCL issued corporate guarantees for these loans.

We have also secured the following options for additional river vessels:

River Vessels – Options	Number of Vessels	Delivery Date	Option Exercise Date
Longships	4	2027	October 30, 2024
Longships	4	2028	October 30, 2025

In 2023, we entered into a charter agreement for the *Viking Tonle*, an 80-berth river vessel traveling through Vietnam and Cambodia for the 2025 through 2033 sailing seasons. We have an option to extend the charter for two additional seasons.

Ocean Newbuilds

A summary of the ocean newbuilding program is outlined below, assuming a euro to U.S. dollar exchange rate of 1.10. Each new ocean ship will have 998 berths.

In January 2024, we amended certain shipbuilding contracts to accelerate the delivery dates for Ship XIV, Ship XV and Ship XVI. Ship XIV, Ship XV and Ship XVI are now scheduled to be delivered in the years 2026, 2027 and 2028, respectively. We have obtained financing for all ships, as described below.

Ocean Ships	Price (in thousands)	Delivery Date
Viking Vela	$ 446,050	2024
Viking Vesta	446,050	2025
Ship XIII	501,523	2026
Ship XIV	501,523	2026
Ship XV	517,000	2027
Ship XVI	517,000	2028
Total	$ 2,929,146	

In 2021 and 2022, we entered into loan agreements to finance the *Viking Vela*, the *Viking Vesta*, Ship XIII, Ship XIV, Ship XV and Ship XVI. The loan agreements are for up to 80% of each newbuild's contract price, including certain change orders and 100% of the Export Credit Agency premium, and will be available for drawdown in U.S. dollars. SACE SpA, which manages the official export credit guarantee scheme on behalf and for account of the Italian Government, provided the lenders with an insurance policy covering 100% of the principal and interest of the facility amount. The interest rates for the loans are fixed. The loans are due in 12 years through 24 consecutive, semiannual, equal installments, the first of which is due six months after the drawdown at delivery. VCL and Viking Ocean Cruises II Ltd have jointly and severally guaranteed these loans.

We entered into shipbuilding contracts for the ships outlined below, assuming a euro to U.S. dollar exchange rate of 1.10. These shipbuilding contracts will not become effective until certain financing conditions are met. If the financing conditions have not been met by October 31, 2024, these contracts can be terminated by us or the shipyard.

Ocean Ships	Price (in thousands)	Delivery Date
Ship XVII	$ 567,600	2028
Ship XVIII	567,600	2029
Total	$ 1,135,200	

In 2023, we secured the following options for additional ocean ships:

Ocean Ships – Options	Delivery Date	Option Exercise Date
Ship XIX	2030	May 30, 2025
Ship XX	2030	May 30, 2025

In February 2024, we entered into an accommodation purchase agreement for all cabins on select sailings on the *Zhao Shang Yi Dun*, which is owned and operated by CMV, traveling in China for 72 days in the third and fourth quarters of 2024. We have options to extend the agreement for additional select sailings through 2027.

Undrawn Borrowing Facilities

We have obtained SACE Financing for the *Viking Vela*, the *Viking Vesta*, Ship XIII, Ship XIV, Ship XV and Ship XVI. We have also entered into two loan agreements for €167.5 million each to finance the eight Longships and two Longships-Seine scheduled for delivery in 2025 and 2026. VRC and VCL issued corporate guarantees for the two €167.5 million loans. These loan agreements will be drawn down on the delivery of each ship or vessel.

Revolving Credit Facility

In June 2024, VCL entered into a credit agreement for a five-year revolving credit facility in an aggregate principal amount of $375.0 million (the "Revolving Credit Facility"). Loans under the Revolving Credit Facility will be based on either SOFR or a base rate, with such rate ranging from SOFR plus a margin of 1.50% to 2.50% for SOFR loans and from a base rate plus a margin of 0.50% to 1.50% for base rate loans. VCL will also pay a commitment fee between 0.30% to 0.35%, payable quarterly, on the average daily unused amount of the Revolving Credit Facility. Proceeds from the Revolving Credit Facility will be used to make revolving loans to VRC AG, an indirect wholly-owned subsidiary of VCL, pursuant to an intercompany revolving loan agreement, the proceeds of which will be used by VRC AG to finance ongoing working capital requirements and for other general corporate purposes. The obligations of VCL under the Revolving Credit Facility are guaranteed by certain of VCL's direct and indirect wholly-owned subsidiaries and are secured by VCL's rights under the intercompany loan agreement with VRC AG, which is secured by the following river vessels: *Viking Odin*, *Viking Idun, Viking Freya, Viking Njord, Viking Eistla, Viking Bestla, Viking Embla, Viking Aegir, Viking Skadi, Viking Bragi, Viking Tor, Viking Var, Viking Forseti, Viking Rinda, Viking Jarl, Viking Atla, Viking Gullveig, Viking Ingvi* and *Viking Alsvin*. As of June 30, 2024, we had no amounts drawn on the Revolving Credit Facility.

The Revolving Credit Facility contains affirmative and negative covenants that are customary for a senior secured credit agreement. The negative covenants include, among other things, limitations on asset sales, mergers and consolidations, indebtedness, liens, dividends, investments and transactions with affiliates. The Revolving Credit Facility also contains financial covenants that require VCL to maintain a leverage ratio and interest coverage ratio as per the levels specified in the credit agreement if the aggregate amount of outstanding loans under the Revolving Credit Facility exceeds a certain threshold.

Qualitative and Quantitative Disclosures about Market Risk

Risk Management Overview

We are exposed to market risks attributable to changes in foreign currency exchange rates, fuel prices, credit risk, taxes and interest rates. In order to reduce and manage these risks, we periodically review and assess our primary financial market risks. Once risks are identified, action is taken to mitigate specific risks.

Foreign Currency Risk

The U.S. dollar is our reporting currency as well as the currency in which most of our revenue is generated. A portion of our revenue is also generated in the British pound, Canadian dollar, Australian dollar and Chinese

yuan. For the year ended December 31, 2023, 12.0% of our total revenue was generated in currencies other than the U.S. dollar. Our foreign currency exposure primarily relates to certain direct costs of cruise, land and onboard, operating expenses and administrative expenses, which are denominated in currencies other than the U.S. dollar. For the year ended December 31, 2023, 31.1% of total commissions and transportation costs, direct costs of cruise, land and onboard, vessel operating and selling and administration expenses were incurred in currencies other than the U.S. dollar. For these expenses, we estimated that a 10% increase or decrease in the value of the U.S. dollar against the euro, with all other variables held constant, would have resulted in a $80.3 million effect on our loss before income taxes for the year ended December 31, 2023, not taking into consideration any hedging activities.

Additionally, certain of our loans are denominated in currencies other than the U.S. dollar, primarily the loans for the *Viking Neptune* and the *Viking Saturn*, which are denominated in euros. Based on our outstanding *Viking Neptune* and *Viking Saturn* loan balances as of December 31, 2023, a 10% increase or decrease in the value of the U.S. dollar against the euro, with all other variables held constant, would have resulted in a $65.5 million, decrease or increase on the balance of the bank loans.

We manage our exposure to currency fluctuations through our normal operating and financing activities, including netting certain exposures to take advantage of any natural offsets, such as having some of our operating and financing obligations in U.S. dollars. From time to time, we enter into forward foreign currency contracts to hedge our euro spending for direct costs of cruise, land and onboard and vessel operating expenses. In 2022, we entered into forward foreign currency contracts to purchase €235.0 million at an average euro to U.S. dollar rate of 1.05. The forward foreign currency contracts matured at various dates in 2023 and were designated as cash flow hedges for our highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2023. In 2023, we entered into €470.0 million in forward foreign currency contracts at an average euro to U.S. dollar rate of 1.09. In 2024, we entered into €470.0 million in forward foreign currency contracts at an average euro to U.S. dollar rate of 1.10. The forward foreign currency contracts mature at various dates in 2024 and in 2025 and were designated as cash flow hedges for our highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2024 and in 2025. There can be no assurance that currency agreements will fully mitigate our risk of loss due to adverse foreign exchange rate movements.

Fuel Price Risk

From time to time, we may use financial instruments to mitigate our exposure to the risk of increases in fuel prices. We may also enter into fuel swap contracts that limit our exposure to fuel price risk related to our ocean ship fuel consumption.

In order to mitigate risks related to fuel prices, we also enter into fixed price fuel contracts for the majority of our expected river fuel consumption in respect of our European itineraries prior to each season. Fuel costs are expensed as incurred at the fixed price, and the fixed price contract is not marked to market. We may incur fees for unused fuel amounts in the period of contract, which may be for non-usage or to roll over unused amounts into the following year.

In January and April 2024, we entered into contracts for a portion of our river fuel usage in Europe for the 2024 season. The contract prices are fixed for 40,000 cubic meters and depend on the place of delivery, ranging from $74.80 to $91.50 per 100 liters, excluding taxes. In July 2024, we entered into a contract for a portion of our river fuel usage in Europe for the 2025 season. The contract prices are fixed for 15,000 cubic meters and depend on the place of delivery ranging from $69.70 to $83.60 per 100 liters, excluding taxes.

Credit Risk

We trade only with third parties that we believe are creditworthy. Receivable balances are monitored on an ongoing basis with the result that our exposure to bad debts is not significant. Our largest receivables are from

highly reputable credit card processors. As we constantly monitor these receivables, the risk of non-collection is unlikely.

Taxes

We operate in a variety of countries, which may subject us to tax or provide for exemptions from tax. Our tax is calculated at current rates on their respective taxable income. Where appropriate, deferred income taxes are determined using the liability method whereby the future expected consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements are recognized as deferred tax assets and liabilities. In addition to or in place of income taxes, virtually all countries where our ships call impose taxes or fees based on the number of days sailed within the country or other applicable measures. These indirect taxes or fees are included in vessel operating expenses in our consolidated statements of operations. When we are a pass-through conduit for collecting and remitting taxes to relevant government authorities, such as sales tax, the effect of such taxes is included in total revenue.

Interest Rate Risk

Our risk management objective for interest rate risk is to minimize the exposure to variability of cash flows arising from changes in interest rates. Certain of our financings have variable interest rates, which subject us to interest rate risk. As of June 30, 2024, 8.3% of the principal outstanding on our Total Debt had variable interest rates.

Certain of our variable interest rate borrowings used LIBOR. After June 30, 2023, LIBOR was no longer published. The Alternative Reference Rate Committee, a committee convened by the Federal Reserve, identified the SOFR, a new index calculated by short-term repurchase agreements that is backed by United States Treasury securities, as its preferred alternative rate for LIBOR.

In June 2023, we amended our outstanding loan agreements related to the Hermes Financing. Beginning with the first interest rate adjustment for each variable rate loan subsequent to June 30, 2023, the variable rate will be based on Term SOFR plus the Credit Adjustment Spread ("CAS") and a margin. Term SOFR is administered by CME Group Benchmark Administration Limited. The relevant Credit Adjustment Spread was published by the International Swaps and Derivatives Association on March 5, 2021. The margin is determined by the lender, consistent with periods where LIBOR was published. Additionally, our outstanding *Viking Octantis* variable rate charter agreement adopted the use of Term SOFR plus the CAS and a margin, beginning September 2023. The transition had no impact on our risk management strategy.

Critical Accounting Policies

Our management's discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which we have prepared in accordance with IFRS as issued by the IASB. The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported revenues and expenses during the reporting periods. Actual results may differ from these estimates under different assumptions or conditions.

While our significant accounting policies are more fully described in the notes to our consolidated financial statements appearing elsewhere in this prospectus, we believe that the accounting policies discussed below are critical to our financial results and to the understanding of our past and future performance, as these policies relate to the more significant areas involving management's estimates and assumptions. We consider an accounting estimate to be critical if: (1) it requires us to make assumptions because information was not available at the time or it included matters that were highly uncertain at the time we were making our estimate and (2) changes in the estimate could have a material impact on our financial condition or results of operations.

Private Placement Derivatives

As of December 31, 2022 and 2023, the Private Placement liability and the Private Placement derivative related to our Series C Preference Shares. In all periods presented, our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares were accounted for as financial liabilities as certain conversion features were not within our control and could have been cash settled. The equity conversion features were bifurcated from the liabilities as derivatives and were carried at fair value, with changes in value recognized in Private Placement derivatives gain (loss) in the consolidated statements of operations. Our Series C Preference Shares automatically converted into ordinary shares immediately prior to the consummation of our IPO. In connection with this conversion, the Private Placement derivative and Private Placement liability were derecognized with an offsetting amount recognized in equity.

The valuation of the Private Placement derivatives was based on a lattice model methodology, which took into consideration enterprise value based on a discounted cash flow model, fair value of debt holdings and various market factors. The valuation was subject to uncertainty because it was measured based on significant unobservable inputs. The value was sensitive to changes in the volatility and the price of our ordinary shares, which was based on the discounted cash flow model. As of December 31, 2022 and 2023, the Private Placement derivative was $633.7 million and $2,640.8 million, respectively. The Private Placement derivative was designated as a Level 3 fair value instrument as the fair value was measured based on significant unobservable inputs, including, but not limited to, ordinary share price, which was based on the discounted cash flow model, and ordinary share volatility. If factors changed and different assumptions had been used, Private Placement derivatives (loss) gain could have been materially different.

The sensitivity of the fair value of the Private Placement derivative to changes in ordinary share price and ordinary share volatility are outlined below:

Significant unobservable inputs	Fair value as of December 31, 2022 (in thousands)	Fair value as of December 31, 2023
Fair Value	$ 633,670	$ 2,640,759
Sensitivity Analysis		
Ordinary share price		
+ 5%	$ 694,936	$ 2,842,062
- 5%	$ 561,823	$ 2,439,916
Ordinary share volatility		
+ 5%	$ 666,245	$ 2,643,261
- 5%	$ 600,847	$ 2,639,454

Fleet Accounting—Useful Lives, Depreciation and Residual Value

Our fleet includes vessels and ships, our most significant assets, which we record at cost less accumulated depreciation and impairment. To compute depreciation expense for our vessels or ships, we estimate the useful lives of the major components of the vessels or ships as well as their residual values. Estimates for useful lives and residual values differ between our ocean and expedition ships, which are exposed primarily to salt water and generally operate year-round, and our river vessels, which are exposed primarily to fresh water and generally operate for approximately eight to nine months per year. Depreciation expense for our vessels and ships is computed net of the residual value on a straight-line basis.

We estimate the useful lives of our vessel or ship components based on our estimated period of economic benefit, the seasonal usage of river vessels, the comparable market for ocean and expedition ships, historical experience with river vessels, differences in salt water and freshwater deterioration rates and brokers' assessments of the useful lives, when available. Given the large and complex nature of our ships, our relatively young fleet and limited market information for river vessels, our accounting estimates related to vessels and ships

require considerable judgment and are inherently uncertain. If factors or circumstances cause us to revise our estimates of vessel or ship service lives or projected residual values, depreciation expense could be materially lower or higher. The estimated useful lives of our vessel and ship components generally are as follows:

River vessels	
Hull and superstructure	40 - 50 years
Machinery	40 - 50 years
Hotel and restaurant	10 years
Navigation equipment	5 years
Ocean and expedition ships	
Hull, deck and machinery	32 years
Interior	24 years

We estimate the residual value of our vessels and ships based on our long-term estimates of their resale value at the end of their useful life to us but before the end of their physical and economic lives to others, the comparable market for ocean and expedition ships, the historical resale value of our river vessels and the higher resale value potential of vessels exposed primarily to fresh water. We estimate the residual value of our vessels or ships at approximately 15% to 20% of the original vessel or ship cost.

We believe we have made reasonable estimates for vessel and ship accounting purposes. However, should certain factors or circumstances cause us to revise our estimates of vessel or ship useful lives or projected residual values, depreciation expense could be materially lower or higher. If circumstances cause us to change our assumptions in determining whether vessel or ship improvements should be capitalized, the amounts we expense each year as repairs and maintenance costs could increase, partially offset by a decrease in depreciation expense. If we had reduced our estimated vessel and ship component useful lives by one year, depreciation expense for the year ended December 31, 2023 would have increased by approximately $16.9 million. If our vessels and ships were estimated to have no residual value, depreciation expense for the year ended December 31, 2023 would have increased by approximately $28.6 million.

Impairment of Vessels and Ships, Including ROU Vessel and Ship Assets

We review our property, plant and equipment, including ROU assets, principally vessels and ships, for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. We evaluate asset impairment at the lowest level for which there are largely independent cash inflows. Impairment exists when the carrying value of an asset exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. Impairment loss is recognized in depreciation, amortization and impairment in the consolidated statements of operations.

For our vessels and ships, the lowest level for which there are largely independent cash inflows is generally the individual vessel or ship. We consider that the following factors may be indicators of potential impairment: the decision to lay up a vessel or ship, which is to take a vessel or ship out of service, for more than one season; the carrying value of a vessel or ship exceeds the broker estimate of the value of the vessel or ship; significant physical damage to a vessel or ship; significant, adverse changes in the yields or booking curves associated with the vessel or ship; and other general economic factors. The fair value less costs of disposal for vessels and ships may be based on broker estimates. Value in use for vessels or ships is calculated using a discounted cash flow model. The future cash flows are derived from past actual performance and management’s assessment of future performance for the vessel’s or ship’s remaining useful life under multiple scenarios reflecting variability in possible results. The value in use is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash flows. We perform this impairment assessment when there are circumstances that indicate that the carrying value of any of our vessels or ships may not be recoverable. However, our conclusions may change if factors or circumstances cause us to revise our assumptions in future periods.

During the year ended December 31, 2021, we determined certain indicators of potential impairment had occurred as a result of the impact of COVID-19 on our operations. We performed impairment analyses throughout 2021. For all vessels and ships, the calculated value in use exceeded the carrying value by greater than 20% as of December 31, 2021. For the year ended December 31, 2021, we did not recognize any impairment.

We have five river vessels in Russia and one river vessel in Ukraine, which are not Longships and were built prior to 1991. As a result of the Russia-Ukraine conflict, we cancelled all sailings on these vessels in 2022. These cancellations were an indicator of potential impairment for the Russia and Ukraine vessels during the first quarter of 2022. As of March 31, 2022, we estimated the recoverable amount for the vessels in Russia and Ukraine to be zero, based on the uncertainty of if we will resume operations in Ukraine and when we will resume operations in Russia, uncertainty of the future demand for cruises in these regions (including consideration that the historical operating results for these vessels were lower than the other river vessels) and that these are the oldest vessels in our fleet. Additionally, as of March 31, 2022, the estimated fair value less costs of disposal if we sold these vessels was zero. Accordingly, we recognized a $28.6 million impairment in the first quarter of 2022 to decrease the carrying value of these vessels to their estimated values in use of zero. The impairment is included in depreciation, amortization and impairment in the consolidated statement of operations for the year ended December 31, 2022.

In the second quarter of 2022, we entered into a charter agreement for the *Viking Legend* river vessel, which included a sale of the vessel at the end of the lease. Based on the terms of the charter agreement, we determined that the carrying value of the *Viking Legend* exceeded its fair value less costs of disposal. Due to the similarities between the *Viking Legend* and the *Viking Prestige*, including that neither vessel is a Longship and we had a similar strategy for the vessels, we also determined the carrying value of the *Viking Prestige* exceeded its recoverable amount. Accordingly, we recognized a $13.3 million impairment in the second quarter of 2022, which is included in depreciation, amortization and impairment in the consolidated statement of operations for the year ended December 31, 2022.

We did not identify any impairment indicators related to vessels and ships as of June 30, 2024 or December 31, 2023. For the six months ended June 30, 2024 and the year ended December 31, 2023, we did not recognize any impairment loss related to vessels and ships.

INDUSTRY

Global Luxury Leisure Travel Market

We believe strong trends in the global luxury leisure travel market will be constructive to our long-term success. The global luxury leisure travel market is characterized by high-end experiences, premium accommodations and curated custom experiential itineraries with a focus on comfort. According to Technavio, the global luxury leisure travel market is expected to grow from $1.4 trillion in 2023 to $1.9 trillion in 2028, representing a CAGR of 7.3%. This growth is fueled by an expectation that consumers will continue to prioritize discretionary spending on experiences versus material items.

Supportive Demographic Trends

The global luxury leisure travel market attracts an older, wealthier and more resilient demographic. As a result, projected growth in the 55 years and older population is expected to drive growth in the global luxury leisure travel market. This core demographic is expected to see several favorable trends which are expected to continue to bolster growth:

- Fastest Growing: According to the Congressional Budget Office, the U.S. population aged 55 years and older is expected to grow from 98 million people in 2020 to 110 million people in 2030, representing a CAGR of 1.2% in comparison to a CAGR of 0.5% for the U.S. population aged 54 and younger, making it the fastest growing segment of the population.
- Largest Spending Power: The U.S. population aged 55 years and older comprises 30% of the population, has the largest spending power of any demographic based on annual expenditures and holds over 70% of U.S. wealth as measured by the U.S. Federal Reserve.
- Growing Wealth: The net worth for Americans aged 55 years and older has increased from $78.7 trillion in 2019 to $111 trillion in 2024, representing a CAGR of 8.4% according to the U.S. Federal Reserve.
- Resilient: Over the past 30 years, Americans aged 55 years and older have been the most resilient demographic, as the only age group to increase their share of total American household wealth from 1989 to 2023. In the first quarter of 2024, the percentage of total American household wealth held by Americans aged 55 years and older increased to 73% from 56% in 1989, according to the U.S. Federal Reserve. During the last three recessions (excluding the COVID-19 pandemic), personal expenditures of the Americans aged 55 years and old generally outperformed other age groups according to the Bureau of Labor Statistics.
- Spending on Experiences: The growing U.S. population aged 55 years and older continues to prioritize spending on experiences versus material items according to AARP Research.
- Time for Leisure: According to a Pew Research Center survey, approximately 50% of U.S. adults aged 55 years and older are now retired, which gives them more time to travel.

Cruise Industry

Within the global luxury leisure travel market, the cruising and yachting industry is one of the fastest growing segments. According to Technavio, the overall cruising and yachting industry is forecasted to grow at a CAGR of 8.1% from 2023 to 2028, with its market share of the global luxury leisure travel market rising from 14.7% to 15.3% over the same period.

The cruise industry is typically defined according to three major categories: contemporary, premium and luxury. According to Cruise Industry News, the contemporary category features large ships with lower price points, the premium category features large ships with a higher price point and the luxury category features smaller ships with one of the highest price points across the industry. The luxury ocean cruise market offers

smaller vessels and more space per passenger and tends to attract higher net worth guests. It commands some of the highest ticket prices in the industry and offers a five- to six-star product aboard that is generally all-inclusive. According to Cruise Industry News, the luxury ocean cruise market is projected to carry over one million guests in 2023 and is forecasted to grow to 1.6 million guests annually by 2030, representing an increase of approximately 55%.

Viking is the only pure-play luxury public cruise line. In contrast, the large public cruise lines have multiple brands that serve all three categories of the cruise market, with luxury representing only a small percentage of their overall capacity. Our total revenue per passenger was $7,251 for the year ended December 31, 2023. Viking defines the luxury category of the river cruise and ocean cruise markets. We believe these are the most attractive segments of the cruise industry and the global luxury leisure travel market given their growth potential.

The 55 years and older demographic is underserved.

The large public cruise lines cater to a variety of age groups and demographics, including adventure-seeking cruisers, young couples, singles, honeymooners and families with kids. No large public cruise line is specifically targeted at the 55 years and older demographic. In contrast, we are intently focused on our core demographic of curious, affluent travelers aged 55 years and older, which we believe is an attractive segment that continues to be significantly underserved.

Global cruise demand expected to outpace capacity growth.

According to CLIA, from 2023 to 2027, global cruise passenger volume is projected to grow at a CAGR of 5.8%, from 31.7 million in 2023 to 39.7 million by 2027. Over the same period, ocean cruise capacity is expected to grow at a CAGR of 3%, according to CLIA.

According to the 2024 Cruise Industry News Orderbook Data (published August 2024), approximately 15% of total new berths coming online globally by 2029 are attributable to ships in the luxury ocean market and our contracted capacity represents approximately 37% of this new comparable supply, positioning us favorably to take advantage of increased demand for cruising within our target market. The favorable growth of demand relative to supply is expected to sustain long-term demand and create an opportunity for pricing growth. We also believe the cruise industry has significant opportunity to grow and capture a greater share of the overall leisure travel market.

High barriers to entry.

The cruise industry is characterized by high barriers to entry, including the existence of several established and recognizable brands, high capital investment requirements, the long lead time necessary to construct new ships and limited newbuild shipyard capacity. According to Cruise Industry News, the cost of ocean ships under construction with capacity of 450 or more berths and expected delivery in 2025 ranges from approximately $350 million to $1.8 billion (or approximately $200,000 to $875,000 per berth). The construction timeline from placing an order with a shipbuilder until the initial revenue generating voyage for an ocean cruise ship is a multi-year process, which can take anywhere from three to six years pending shipyard availability. In addition, the shipbuilding industry is experiencing tightened capacity as the ship sizes increases and the industry consolidates, with most of the new capacity added in the last 20 years having been built by one of three major European shipbuilders.

BUSINESS

Viking was founded in 1997 with four river vessels and a simple vision that travel could be more destination-focused and culturally immersive.

Today, we have grown into one of the world's leading travel companies, with a fleet of 93 small, state-of-the-art ships, which we view as floating hotels. From our iconic journeys on the world's great rivers, including our new Mississippi River itineraries, to our ocean voyages around the globe and our extraordinary expeditions to the ends of the earth, we offer meaningful travel experiences on all seven continents in all three categories of the cruise industry—river, ocean and expedition cruising.

Note: The average age is as of June 30, 2024.

With more than 450 awards to our name, we are a leader in the industry and were rated #1 for Rivers, #1 for Oceans (for ships sized 500 to 2,500 berths) and #1 for Expeditions by *Condé Nast Traveler* in the 2023 Readers' Choice Awards. This is the first time a travel company has been voted #1 in all three categories simultaneously.

We have generated rapid growth driven by strong demand for our products and a highly differentiated guest experience, resulting in industry-leading capacity growth and the proven ability to expand our travel platform with new destinations and experiences. From 2015 to 2023, our total number of guests, total revenue, net income and Adjusted EBITDA grew at CAGRs of 10.1%, 14.4%, NM and 16.3%, respectively. We have grown faster

than the overall cruise industry since 2015 to become the market leader in river cruising and luxury ocean cruising, demonstrating our ability to succeed in each new category we have entered. For the 2024 season, our North American outbound river market share is 52% and our luxury ocean market share is 24%. For the 2023 season, our Mississippi river market share was 20% and our Antarctic expedition market share was 12%. We also continue to grow. For our core products, operating capacity is 5% higher for the 2024 season in comparison to the 2023 season and 12% higher for the 2025 season in comparison to the 2024 season.

For the year ended December 31, 2023, nearly 650,000 guests traveled with us, and we generated total revenue of $4,710.5 million, a net loss of $1,858.6 million and Adjusted EBITDA of $1,090.3 million. For the six months ended June 30, 2024, over 290,000 guests traveled with us, and we generated total revenue of $2,305.4 million, a net loss of $338.1 million and Adjusted EBITDA of $488.1 million. See "Prospectus Summary—Summary Consolidated Financial and Other Data" for additional information about Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to net income (loss). We have also generated industry-leading ROIC of 27.5% for the year ended December 31, 2023, up from 26.1% for the year ended December 31, 2019. As of June 30, 2024, we had $1.8 billion of cash and cash equivalents and $5.2 billion of Total Debt. Our payback period for a Longship is on average approximately four to five years based on contributions to operations by a Longship. Our payback period for an ocean ship is on average about five to six years based on contributions to operations by an ocean ship.

We believe we are well-positioned for future growth. To address the strong demand from our guests, we have ordered 17 new river vessels for delivery through 2026 and eight new ocean ships for delivery through 2029 (two of which are still subject to certain financing conditions).

The Viking Difference

1. ***One Brand***: Among our guests and across the industry, the Viking brand is synonymous with excellence. Our guests can experience all three categories of the cruise industry—ocean, river and expedition cruising—under our single brand. Rather than creating a conglomerate of different brands, all of our products are a consistent extension of the Viking brand. As a result, our marketing spend and strong brand loyalty drive growth

for all of our products. We also leverage our strong brand loyalty for future product launches, with over 60% of bookings for each of the inaugural seasons for Viking Ocean, Viking Expedition and Viking Mississippi made by past guests. Our guests know they can expect a consistent, excellent experience on each voyage they take with us, which has allowed us to expand our travel platform successfully with new destinations and experiences. Our repeat guest percentage has steadily increased over time from 27% for the 2015 season to 53% for the 2024 season to date.

2. ***Identical Small Ships***: Our fleet includes 58 identical Longships accommodating 190 passengers, nine identical ocean ships accommodating 930 passengers and two identical expedition ships accommodating 378 passengers**.** Within each product, our ships are indistinguishable to our guests. This simplifies the sales and marketing process as potential guests shop by itinerary versus by specific ship or age of ship, and it allows older ships to achieve similar yields, even when introducing new ships. Identical ships also create operational flexibility, as well as efficiencies around shipbuilding, maintenance and crew, which improves our margins. Our small ships can dock in ports where larger ships cannot, providing our guests more time ashore for cultural discovery and exploration and offering our guests experiences they cannot have with other cruise lines.

3. ***Clearly Defined, Destination-Focused Experience***: We are the only cruise line offering experiences on all seven continents with itineraries across five oceans, 21 rivers and five lakes, and a focus primarily on destinations in Europe and the Mediterranean, rather than the Caribbean. We deliver a highly differentiated experience for our guests by prioritizing exploration of the destination versus onboard consumption and traditional entertainment. The Viking experience is well-defined and all-inclusive, with a shore excursion included in every port. We are also known for the things that we do not do. For example, no children under 18, no casinos and no hidden ancillary costs, such as charges for alternative restaurants, wi-fi or beer and wine at lunch and dinner. Because of these strategic choices, our guests instantly recognize the Viking way of travel.

4. ***Clear Customer Focus***: We are intently focused on the travel needs of our core demographic of curious, affluent, English-speaking travelers aged 55 years and older, which is an attractive segment of the travel market. We believe we know our core demographic better than anyone else in the industry and we have tailored our products to specifically address the travel needs of the Thinking Person. We attract individuals seeking travel experiences that offer cultural insight and personal enrichment.

5. ***Strong Direct Marketing***: Since 1997, we have invested $3.0 billion in all aspects of marketing, most of which is direct marketing spend. This investment has helped build and solidify the value of our brand with our target market. Our marketing database includes more than 56 million North American households, including 1.5 million households that have traveled with us before. We generate our own demand through our direct marketing, which allows us to obtain industry-leading early booking rates. Our marketing also drives direct

bookings. For the year ended December 31, 2023 and for the 2024 season to date, more than 50% of our guests booked directly with us.

6. ***Only Pure-Play Luxury Public Cruise Line***: Viking is the only pure-play luxury public cruise line. In contrast, the large public cruise lines have multiple brands that serve all three categories of the cruise market, with luxury representing only a small percentage of their overall capacity. Our total revenue per passenger was $7,902 for the six months ended June 30, 2024. Viking defines the luxury category of the river cruise and ocean cruise markets. We believe these are the most attractive segments of the cruise industry and the global luxury leisure travel market given their growth potential.

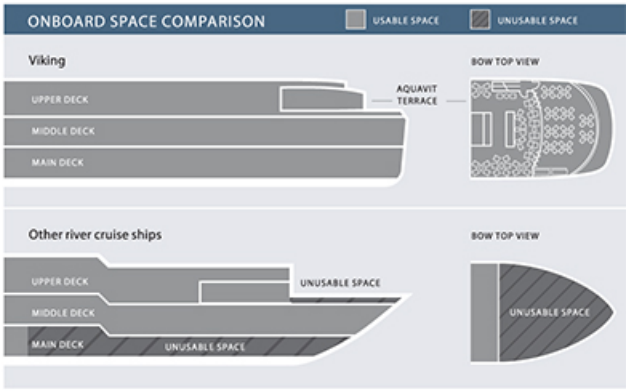
Multiple Products, One Viking

Since launching Viking River with four vessels in 1997, we have grown our business and expanded our platform through new products to become one of the most recognized luxury travel brands in the world. Seeing unaddressed demand for a destination-focused product in the ocean cruise market, we launched Viking Ocean in 2015, which has since become our fastest growing segment. Looking beyond our primary source markets, we launched China Outbound for the Mandarin-speaking market in 2016. In 2022, our 25th year in business, we further expanded our platform with Viking Expedition and Viking Mississippi. Each new product creates additional travel opportunities for past guests and broadens our platform to attract new guests.

As we have expanded our products, we have done so intentionally, with each new ship and itinerary becoming a consistent extension of the Viking experience. Every ship in our fleet is designed specifically for the destination and waterway where it sails, yet all ships share features that make them instantly recognizable as a Viking ship: elegant, understated Scandinavian design; spacious, light-filled public spaces; comfortable, highly functional staterooms; attention to detail; thoughtful service from the crew; and a single language spoken onboard.

Each itinerary includes a shore excursion in every port and an onboard and onshore enrichment program that provides deep immersion in the destination through performances of music and art, cooking demonstrations, informative port talks and carefully selected guest lecturers. We offer informative talks to introduce the destinations to our guests before they arrive, and we bring experts on board to present lectures and workshops that provide educational background and context. We also help our guests prepare and anticipate their journey through recommended reading lists, informative videos, suggestions for films to watch and other content. Our guests know that a Viking product will offer more than just a trip—it will offer a doorway to cultural insight and personal enrichment.

Viking River



We have been at the forefront of growth and innovation in the river cruise industry, driving it to be one of the fastest growing segments of the cruise market. Viking River also attracts the greatest share of our new-to-brand passengers among our core products, with 60% of our North American river guests being new-to-brand for the 2024 season to date. For the 2024 season, our North American outbound river market share is 52%, more than three times that of our nearest competitor. In the second quarter of 2024, we had 92% total brand awareness in the United States for river cruises, higher than any of our competitors in the North American outbound river market. We expect to sustain our market leading position in the river cruising market well into the future.

For the 2024 season, we are offering nearly 30 itineraries across European, Egyptian and Southeast Asian rivers, touching over 150 cities and ranging from eight days to 23 days. Our river vessels dock in the hearts of cities and towns near historical and cultural attractions, providing our guests more time ashore to enjoy the local culture. We control or have access to some of the most coveted docking locations for our vessels, including premier docking locations in Paris, France 800 meters from the Eiffel Tower, and in Luxor, Egypt at the Karnak Temple.

River vessels must navigate under bridges and through locks, which creates unique design challenges. In 2012, we introduced our Longships, a radically new vessel for the European river cruising market with three full decks, patented asymmetric corridors and a square bow, providing more usable space for our guests within the standard footprint. Our Longships offer an unparalleled choice of all-outside staterooms and al fresco dining. Our Longships can comfortably accommodate 190 guests, approximately 20% more than typical European river vessels which can accommodate up to 164 guests, improving the profitability of our vessels. Our guest to crew ratio is also generally more advantageous than our competitors, which improves the profitability of our vessels. Outside Europe, our river vessels are the most modern on the Nile and Mekong rivers and generate strong yields, while accommodating fewer than 100 guests.

Viking Ocean

Based on our understanding of our core demographic, we identified a significant opportunity to reinvent ocean cruising with a smaller-format, destination-focused, luxury product that leveraged our experience from Viking River. Prior to our entry, the ocean cruise market was primarily composed of offerings that attempted to appeal to all demographics, with a focus on entertainment delivered on the ship as opposed to at the destination. Luxury cruise offerings also existed at significantly higher price points, but without a focus on the destination and cultural enrichment.

Viking Ocean successfully launched in 2015 with only one ship, and has since grown to a fleet of nine ships. Today, we are the world's largest luxury ocean line based on our luxury ocean market share, which was 24% for the 2024 season. In the second quarter of 2024, we had 79% total brand awareness in the United States for ocean cruises, higher than any of our competitors in the luxury ocean market. In addition to attracting guests from our competitors, we also believe we are growing the ocean cruise market, as over 20% of our 2023 new-to-brand passengers had never previously taken an ocean cruise, based on onboard surveys completed by over 70% of our guests traveling on Viking River and Viking Ocean. This trend continues for the 2024 season to date. Given our initial success and effective market penetration, we believe that Viking Ocean has significant future growth potential, which we will begin to achieve with eight new ocean ships for delivery through 2029 (two of which are still subject to certain financing conditions).

For the 2024 season, our guests can choose from over 80 itineraries across all five oceans, with a focus on destinations in Northern Europe and the Mediterranean, which differentiates us from large cruise lines that primarily focus on the Caribbean. Our small ships have capacity of fewer than 1,000 passengers and can dock in ports where larger ships cannot. Our lower guest counts also create a more intimate and comfortable experience in the cities we visit. From central berths in cities like Bergen, Norway, London, England and Monte Carlo, Monaco, enriching cultural discovery starts just a short walk away from the ship and our guests are able to spend on average more than 10 hours in port per day.

We have one of the youngest fleets in the cruise industry and our state-of-the-art, efficient design results in no wasted space onboard or extra weight onboard while also maximizing the comfort of our guests. Each of our ocean ships has a gross register tonnage of 47,800 and is carefully designed to minimize extra weight and optimize fuel consumption. Our ocean ships are built at the right size and scale for wherever they are in the world, with a focus on optimal guest comfort and operational efficiency. Without diminishing our high level of service, the layout of our ocean ships allows us to operate with fewer crew. By designing our ocean ships with a focus on our core demographic and their interests, we utilize the space typically needed for casinos and children's entertainment to accommodate staterooms with all private verandas and a broader range of onboard amenities to improve the onboard experience, including an array of fine dining restaurants, a Nordic-inspired spa, a panoramic Explorer's Lounge and a thoughtfully curated library.

Viking Expedition

We created Viking Expedition to usher in a new era of exploration for our guests. We leveraged our experience in destination-focused travel and innovative ship design to reimagine the expedition voyage, delivering a unique product that offers our core demographic the opportunity to visit some of the most remote regions of the world such as Antarctica, as well as destinations closer to home for our large North American customer base, including the Great Lakes and Canada. We believe Viking Expedition provides the highest quality of scientific exploration available in the market with the same level of comfort our guests have come to expect from us. We offer daily briefings, world-class lectures, fieldwork and onboard laboratories, which are supported by exclusive partnerships with prestigious scientific institutions, such as Cambridge University, and more than 30 experts who accompany each journey.

With capacity for 378 guests per ship, our two expedition ships are optimally designed for exploration from a size and weight perspective—small and slender enough to navigate remote areas and pass through canals, but large enough to provide speed, superior handling and stability in rougher waters. Several design features

maximize guest comfort, including a unique combination of state-of-the-art fin stabilizers to allow the ships to glide over the waves for the calmest possible journey. Per the International Association of Classification Societies standards, our expedition ships are Polar Class 6 and each ship has a gross register tonnage of 30,150. Our expedition ships feature plentiful public areas for learning and enrichment, along with the Hangar, an industry-first in-ship marina, a full-size Science Lab facility and the Aula, an auditorium for daily lectures, films and presentations, which can be converted to offer a panoramic view with floor to ceiling windows. Each expedition ship also includes an offshore exploration fleet, special operations boats and submarines that allow our guests to get as close as possible to remote locations. All staterooms on our expedition ships feature floor to ceiling windows for greater enjoyment of the surroundings.

Viking Mississippi

Designed to truly modernize and transform exploration of the Mississippi River, Viking Mississippi offers an exciting and educational journey, which enables our guests to absorb American history and culture from a unique perspective. The Mississippi River is one of the most historic and storied waterways on the continent and this product provides another opportunity to share the Viking experience with our guests, including North American guests that may be hesitant or unable to take long-haul flights.

The new and innovative *Viking Mississippi* was inspired by our award-winning river and ocean ships and features clean Scandinavian design, which is familiar to our guests, but reimagined for Mississippi River voyages. The *Viking Mississippi* includes capacity for 386 guests and features some of the largest staterooms across the cruise industry, where each guest has a sweeping view of the river and landscape beyond. We believe this experience is unlike anything currently offered in the market.

Viking China

In 2016, we brought our brand of curiosity-driven travel to the Chinese source market by launching China Outbound, a river cruise experience in Europe with 100% Mandarin-speaking crew, and food, entertainment and excursions completely dedicated to Chinese guests. China Outbound provides a culturally immersive experience with all the high-quality services and amenities needed to travel in comfort, which differentiates it from other Chinese outbound products. In 2019, we had five Longships dedicated to China Outbound and 20,000 guests traveled with us, almost exclusively from mainland China. For China Outbound, we operated two Longships in 2023 and are operating four Longships in 2024. We received strong guest ratings for China Outbound for the 2023 season, with ratings comparable to those for our core products.

In 2020, we announced the China JV Investment, a joint venture with a subsidiary of China Merchants Group, to offer a premium coastal cruise experience in China on board the *Zhao Shang Yi Dun* (formerly the *Viking Sun*). The *Zhao Shang Yi Dun* received strong ratings for the 2023 season. The China JV Investment further increases our brand recognition among Chinese guests. We have entered into an accommodation purchase agreement with CMV pursuant to which we have the exclusive right to the accommodation and services on board the *Zhao Shang Yi Dun* for sales to Mandarin-speaking populations in China and guests in other Asian countries, including Japan.

Viking Strengths

We have several strengths that have propelled our success and distinguished us from other travel businesses.

High quality products drive strong guest satisfaction and brand loyalty.

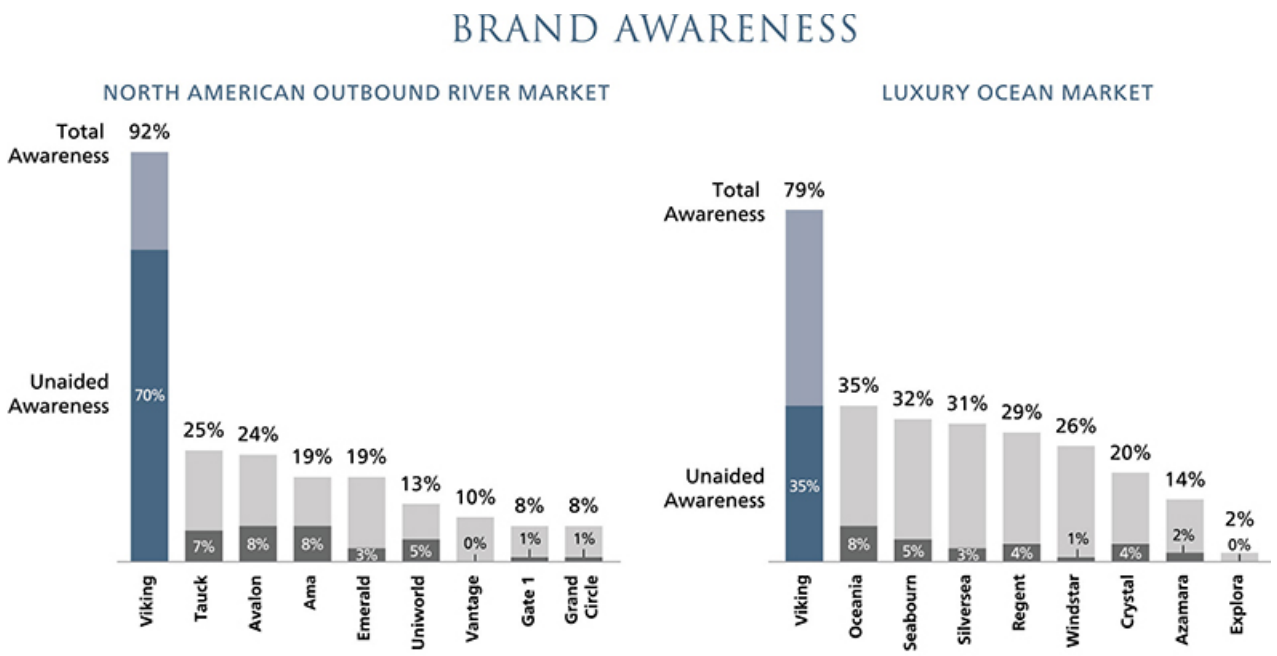
We have a proven track record of delivering high quality travel experiences that resonate with our guests, driving strong guest satisfaction and brand loyalty. As a result, our guests are often our greatest promoters. For the 2024 season, as of June 30, 2024, our Net Promoter Scores were 72 for Viking River, 68 for Viking Ocean and 74 for Viking Expedition. Based on our 2024 season survey, as of June 30, 2024, on a scale of 0 to 10, 79.0% and 76.6% of our Viking River and Viking Ocean guests, respectively, answered “9” or “10” on likelihood of recommending Viking to a friend. All our products are also highly rated by our guests. For the 2024 season, as of June 30, 2024, the average guest quality rating of our products was 3.8 on a 4.0 scale, based on onboard surveys completed by over 65% of our guests.

Our strong guest satisfaction and brand loyalty drive repeat bookings with Viking. For the 2024 season to date, our repeat guest percentage is 53% and more than 50% of our guests booked directly with us. Our new product launches have also experienced overwhelming support from our past guests, with over 60% of bookings for each of the inaugural seasons for Viking Ocean, Viking Expedition and Viking Mississippi made by past guests. We have also seen comparable booking trends by past guests for the launch of new river itineraries in Egypt and Vietnam. Our guests trust us to create best-in-class travel experiences, whether it be a new itinerary for a product they already love or a completely new product experience, and we leverage our strong bookings for future seasons and our robust customer insights practice to help identify and deliver on the needs of our core demographic. Expanding our travel platform enables us to capture a greater portion of our core demographic’s travel spend, while reinforcing brand loyalty, building customer lifetime value and increasing our repeat guest percentage, all of which generate shareholder value.

Single Viking brand drives awareness.

For the past 27 years, we have built a single Viking brand that is highly recognized in our target markets and around the world. Today, we are the leading brand in the North American outbound river market and the luxury ocean market. In the second quarter of 2024, we had 92% and 79% total brand awareness for river cruises and ocean cruises, respectively, among our target demographic in the United States. Our total brand awareness for

ocean cruises is comparable to the large public cruise lines. Our total brand awareness for river cruises far exceeds the total brand awareness of our nearest competitor in the North American outbound river market and the Mississippi river market.



Source: Based on surveys of approximately 1,000 Americans aged 55 years and older who have cruised or traveled internationally within the past five years or have plans to do so in the next three years and expressed a willingness to cruise, which were collected for us by a third-party during the second quarter of 2024.

With a single Viking brand, our strong brand awareness drives growth for our entire travel platform as all of our products are a consistent extension of the Viking experience. We are also able to streamline our marketing, with word-of-mouth marketing and traditional marketing spend driving brand awareness and growth for all of our products.

Clear customer focus on an attractive demographic.

We are intently focused on our core demographic of curious, affluent travelers aged 55 years and older, which we believe is an attractive segment that has been and continues to be underserved by the travel market.

The U.S. population aged 55 years and older comprises 30% of the total population, has the largest spending power of any demographic based on annual expenditures and holds over 70% of U.S. wealth as measured by the U.S. Federal Reserve. The U.S. population aged 55 years and older is also the fastest growing segment of the population, with expected growth from 98 million people in 2020 to 110 million people in 2030, according to the Congressional Budget Office. Our target demographic has greater financial stability, which can make them more resilient to economic conditions and more willing to invest in high-quality travel experiences, including luxury accommodations, unique excursions and cultural activities. Our target demographic often appreciates comfort, convenience and experiential travel that provides a balance between adventure and luxury. Many of our guests are also retired or approaching retirement, which means they often have flexible schedules that allow them to book earlier and plan for extended travel.

After 27 years, we believe we know our core demographic better than anyone else in the industry and have tailored our products to specifically address their unmet needs in the broader travel market. Leveraging our robust customer insights practice and two decades of experience, we know what our guests expect in their travels—a calm onboard atmosphere, with a destination-focused experience offering cultural or scientific

enrichment. Our guests spend their time enjoying the peaceful ambiance of resident musicians, participating in enriching educational opportunities, such as onboard lectures from local historians, or debriefing their exciting day with fellow guests over a delicious meal from the ship's regional specialties menu. At Viking, we think of every detail, so our guests can focus on exploring and learning about their destinations.

Data-driven marketing platform drives demand.

Since 1997, we have invested $3.0 billion across all aspects of marketing. We have been a national corporate sponsor of PBS's Masterpiece Theatre since 2011 when Downton Abbey was on the air, establishing Viking as a household name, and we continue to run television advertisements on other national programming targeting our core demographic, including during NBC's coverage of the Paris Games. We have forged partnerships with prestigious cultural institutions, such as the Los Angeles Philharmonic, the British Museum and the Metropolitan Opera. We also created Viking.tv, one of the travel industry's most extensive libraries of online content. This award-winning free enrichment channel was initially conceived to maintain daily contact with our guests during the COVID-19 pandemic, and continues to stream daily, with over 1,000 unique episodes since first airing. Additionally, we host hundreds of journalists and influencers on board our ships each year, generating robust earned media coverage and social media content. These efforts create a clear path for positive affiliation with the Viking brand—helping move guests from awareness into consideration.

Built over the last 27 years, our marketing database includes more than 56 million North American households, including 1.5 million households that have traveled with us before. While we have always relied on traditional marketing strategies, including direct mail, TV, print and trade marketing, our marketing approach today is omnichannel, with robust digital capabilities and data-driven decision-making. For example, our marketing is underpinned by digital industry tools that provide programmatic execution, machine learning capabilities, look-alike prospecting, online to offline conversions and call tracking, emerging AI supported functionality and data-driven marketing attribution. The households in our database are modeled and scored for their propensity to book. These scores, combined with our attribution systems and a robust consumer insights practice, direct how we tailor our marketing in order to meet consumers where they are, with the right message at the right time. We also continue to shift our marketing spend towards digital channels.

Once guests travel with us, our marketing positioning is reinforced by a shared experience among individuals seeking travel experiences for the Thinking Person. Our guests connect with each other over mutual interests in history, art, culture and travel, and as a result, countless new friendships are forged on board our ships each year. Approximately 18% of our Viking Ocean and Viking Expedition guests booked their next Viking voyage while on board in 2023—with many planning future trips together with fellow travelers. And, just like the fervent communities formed around beloved books and films, guests self-described as "hooked on Viking" have launched their own fan groups—several of which have amassed more than 40,000 members—on social media platforms where we are able to target them with digital marketing for their next Viking voyage.

Our multiple distribution channels optimize yields and improve margins.

We provide our guests with a variety of ways to seamlessly book their voyages, so that they can transact with us however they are most comfortable. Guests have the option to book with a third-party travel agent or directly with Viking. By offering multiple channels to serve our guests, we reduce friction in the booking process, which optimizes yields. Guests can book directly with Viking through multiple outlets, including our website, via online chat with an agent, over the phone, or on board our ships that have a dedicated travel consultant. For the year ended December 31, 2023 and the 2024 season to date, more than 50% of our guests booked directly with us.

We also partner with travel agencies to generate a significant portion of our sales. We have preferred relationships with large travel agent consortia and we are committed to maintaining and strengthening our relationships with our travel agent partners. With a marketing database that includes more than 56 million North

American households, we also believe our marketing spend benefits all distribution channels and drives earlier bookings, including during times of softening demand in the broader travel market.

Early bookings create strong revenue visibility and facilitate long-term planning.

For the 2024 season, we began selling select itineraries more than two years prior to the start of the season. On average for the 2023 season, our guests booked 11 months in advance and paid seven months prior to departure. By generating early demand through our direct marketing, we believe we attain bookings earlier than the large public cruise lines. Additionally, we collect payment earlier than the large public cruise lines, which we believe reduces cancellations. This creates future revenue visibility, which enables us to better manage our capacity and pricing. This visibility also gives us the ability to plan for future ship commitments years in advance.

We have a proven track record of selling Capacity PCDs well in advance of sailing. For our core products, operating capacity is 5% higher for the 2024 season in comparison to the 2023 season and 12% higher for the 2025 season in comparison to the 2024 season. As of August 11, 2024, for our core products, and for the 2024 and 2025 seasons, we had sold 95% and 55%, respectively, of our Capacity PCDs and had $4,642 million and $3,442 million, respectively, of Advance Bookings. Advance Bookings were 14% and 20% higher in comparison to the 2023 and 2024 seasons, respectively, at the same point in time. Advance Bookings per PCD for the 2024 season was $731, 8% higher than the 2023 season at the same point in time, and Advance Bookings per PCD for the 2025 season was $833, 10% higher than the 2024 season at the same point in time.

Young fleet with innovative design drives efficiency and profitability.

At Viking, we build innovative ships that are the right size for the experience. From the outset, we creatively balance competing preferences for smaller ships and spacious, uncrowded shared areas through greater efficiencies in space utilization and operations. No space is wasted onboard, and the overall ship design thoughtfully optimizes efficiency and profitability. For example, for Viking Ocean, the layout of our ships allows us to operate with fewer crew while still delivering an exemplary level of service. And for Viking River, the unique design of our Longships allows us to comfortably accommodate approximately 20% more guests than typical European river vessels, improving the profitability of our vessels.

As part of our approach to fleet design, our Viking Ocean, Viking Expedition and the majority of our Viking River fleet are identical at the product level, which provides us with many benefits. This simplifies the sales and marketing process as potential guests shop by itinerary versus by specific ship or age of ship and allows older ships to achieve similar yields, even when introducing new ships. From an operational perspective, fleet commonality creates efficiencies around maintenance, as spare parts can be purchased in bulk in advance for unforeseen or planned maintenance, and crew, as crew can be moved around the fleet with minimal additional training. Lastly, our identical fleet gives us operational flexibility to interchange guests between ships in the event of unexpected disruptions, such as when we positioned identical Longships on adjacent sides of low water areas to avoid any cancellations during record low water levels in Europe in 2022. In 2022, 14% of our Rhine River sailings involved ship swaps and these sailings received high guest quality ratings that were comparable to our guest quality ratings for non-impacted Rhine River sailings.

We also have one of the youngest fleets in the industry. As of June 30, 2024, the average age for our fleet available for operations, which excludes six Russia and Ukraine river vessels, was 7.0 years, which is younger than the average age for the large public cruise lines. We believe customers are willing to pay a premium to sail on newer ships, which results in higher yields. A young fleet also has more efficient operations, including from technological advances that result in lower fuel consumption, resulting in stronger margins. A young fleet also requires lower maintenance capital expenditures, which allows us to direct most of our capital expenditures to fleet expansion and the launch of new product offerings, which ultimately means that more of our capital is invested in initiatives designed to grow our revenue and cash flows as opposed to maintaining revenue and cash flows at current levels.

Fuel-efficient fleet designed to meet future environmental regulations.

From the outset, we have designed all of our ships thoughtfully to reduce their fuel consumption, carbon footprint and overall environmental impact. Our Longships are one of the first cruise vessels to be voluntarily certified with the Green Award and are also certified with the European ISO 14001 Environmental Management practices. Our ocean ships, with their sleek hull design and closed-loop scrubbers that allow us to use more cost-efficient fuel, exceed the current requirements of the IMO EEDI) by approximately 25%, and will exceed the 2025 EEDI requirements by almost 20%. Our expedition ships set a new standard for responsible travel by exceeding the current requirements of the EEDI by nearly 38%. Due to the design choices across our fleet, our fuel costs represented only 5.7% of our Adjusted Gross Margin for the year ended December 31, 2023, favorably positioning us if fuel prices increase or regulations require the use of more expensive fuel types. With only minor modifications, the engines of our Longships, ocean ships, and expedition ships can also operate on HVO renewable diesel, which could reduce greenhouse gases by up to 90% over the fuel's life cycle compared to diesel.

Looking forward, we are working to make our next generation of ocean ships even more environmentally friendly. We have made the principled decision not to invest in LNG, which is composed almost exclusively of methane, a greenhouse gas with a global warming potential more than 80 times (over a 20-year period) or 28 times (over a 100-year period) that of carbon dioxide. Instead, we are working on a project for a partial hybrid propulsion system based on liquid hydrogen and fuel cells, which could allow us to operate at zero-emission in the Norwegian Fjords and other sensitive environments.

Seasoned, proven management team committed to long-term shareholder value.

We are a founder-led and inspired organization with an enduring commitment to creating shareholder value over the long-term. In addition to Torstein Hagen, our Chairman and Chief Executive Officer, we benefit from the industry expertise and tenure of our proven management team of Leah Talactac, our Chief Financial Officer, Linh Banh, our Executive Vice President, Finance, Jeff Dash, our Executive Vice President, Head of Business Development, Karine Hagen, our Executive Vice President, Product, Anton Hofmann, our Executive Vice President, Group Operations, Milton Hugh, our Executive Vice President, Sales and Richard Marnell, our Executive Vice President, Marketing, who have all worked together for over 15 years.

Excluding our Chairman and Chief Executive Officer, our management team has an average tenure of 21 years at Viking and 25 years in the travel industry. The same management team revolutionized the river cruising industry with the design and launch of the Longships in 2012, and introduced Viking Ocean in 2015, which marked the industry's first entirely new ocean cruise line in nearly a decade. This team identified a market need for a smaller ship, destination-focused ocean product, which continues to be a key driver in our growth. More recently, this team launched Viking Expedition and Viking Mississippi in 2022, meeting guest demands. Along with launching new products, this team has also been successful in broadening our presence in existing source markets and garnering leading market share and entering new source markets, such as China. From 2020 to June 30, 2024, this team also added 18 new ships to our fleet, including 11 river vessels, four ocean ships, two expedition ships and the *Viking Mississippi*. This team has driven our growth over the past two decades, with our annual guests growing from 80,000 in 2007 to nearly 650,000 in 2023, an increase of over 700%. This team also has a proven record of capitalizing on opportunities as they arise. For example, given our long-term outlook, we have a record of ordering newbuilds, including our initial ocean ships, during off cycles when other cruise operators focused on conserving capital. Currently, we have ordered 25 additional newbuilds through 2029 to capture future demand (two of which are still subject to certain financing conditions).

Our management team has capitalized on opportunities during times of adversity, weathered several economic cycles together and ultimately built Viking to be the company it is today—a household brand name with industry-leading quality ratings, numerous awards and a sizeable market share in the fast-growing luxury cruise market.

Dedicated crew delivers exemplary level of service.

Our crew, with over 9,500 crewmembers from over 90 different countries at the peak of the 2023 season, are dedicated to making our guests' journeys as memorable as possible. Our crew is essential to our success. Our crew's friendliness, attentiveness and attention to detail have garnered us more consumer and industry awards than any other travel company on rivers or oceans. Most importantly, our crew is a significant reason that we receive high satisfaction ratings from our guests.

As part of the Viking family, we care deeply about our crew, and we provide the training, skills and resources needed for them to excel. Our proprietary training program, Viking College, helps our crew learn and grow. We also place great value on promotion from within, rewarding hard work, enthusiasm, initiative and a sense of responsibility and ownership. We aspire to be the employer of choice among cruise lines and our crew retention rate of about 80% as of December 31, 2023 is a source of great pride. Retaining our crew season after season lowers our recruiting and training costs. It also supports our growth—we are able to distribute our tenured crew across our new ships to streamline the hiring and training of new crew. A mix of new and tenured crew on each ship ensures a consistent high quality of service and a familiar onboard experience for our guests as we grow our business.

Viking Strategies for Growth

We believe our journey as one of the most recognized luxury travel brands in the world is just beginning. We believe we are well-positioned to drive future growth and profitability with the following strategies, each of which represents a continuation of the proven strategies we have been executing over the past 27 years.

Expand our fleet to address unmet demand from our core demographic.

We believe the travel market for curious, affluent travelers aged 55 years and older continues to be significantly underserved. There is also a general gap between demand and supply in cruising, which we have an opportunity to address.

To capitalize on this growing and unmet demand, we plan to continue expanding our fleet, with the most contracted future ship deliveries in the industry. According to the 2024 Cruise Industry News Orderbook Data (published August 2024), approximately 15% of total new berths coming online globally by 2029 are attributable to ships in the luxury ocean market and our contracted capacity represents approximately 37% of this new comparable supply, positioning us favorably to take advantage of increased demand for cruising within our target market. For Viking River, we have ordered 17 new vessels for delivery by 2026, including 11 river vessels for the European rivers, five river vessels that will operate in Egypt and a chartered river vessel that will travel through Vietnam and Cambodia, and we expect to sustain our market leading position in the river cruising market well into the future. We also have options for eight additional river newbuilds, with four for delivery in 2027 and four for delivery in 2028. For Viking Ocean, we believe there is significant future growth potential, which we will begin to achieve with eight new ocean ships on order for delivery through 2029. We also have options for two additional ocean newbuilds for delivery in 2030. Based on our committed orderbook, we expect a 47.0% increase in total berths for our fleet available for operations, which excludes six Russia and Ukraine river vessels, from 2023 to 2029. Our orderbook, the largest in the cruise industry, is driven by a disciplined strategy that relies heavily on robust consumer insights and market demand assessment, combined with financing and yield considerations.

Note: Orderbook does not include the *Viking Hathor*, which was delivered in August 2024 for operation in Egypt.

As we add new capacity, we conduct extensive research to identify new itineraries that will fill gaps in the travel market for our core demographic. For example, we recently added new itineraries in China and Japan for our core demographic on the *Zhao Shang Yi Dun*, which we are marketing as the *Viking Yi Dun* for our core demographic. Based on prior experience, we expect new itineraries to inspire past guests to travel again and attract new guests to the Viking brand, which we believe will result in a higher repeat guest percentage and enhanced customer lifetime value at marginal marketing expense.

In addition to growing our fleet and adding new itineraries, we also plan to continue optimizing our inventory of add-on products, such as pre-and post-trip cruise extensions, which unlock additional revenue growth opportunities without significant capital expenditures. Our pre-and post-trip cruise extensions, such as a three-night tour of the historic town of Oxford and Highclere Castle or the real "Downton Abbey," further enrich the destination-focused experience of our itineraries and provide another opportunity for us to connect our guests with the cultures and destinations on our itineraries. In 2023, 37% of our guests purchased a pre-or post-trip cruise extension to take advantage of these opportunities. Pre-or post-trip cruise extensions are currently offered at an average of over $900 per extension and are typically two or three days. In 2023, our guests spent on average $45 per PCD on pre- and post-trip cruise extensions.

Increase guests from outside of North America.

While North America is the largest source market for the cruise industry, generally about 50% of all cruisers globally are from markets outside of North America, according to CLIA. In contrast, for the year ended December 31, 2023, 90.5% of our guests came from North America, with the remainder primarily coming from the United Kingdom, Australia and New Zealand. We believe there is significant unmet demand for our core products in the United Kingdom, Australia and New Zealand. We also believe there is an opportunity to source guests for our core products from other markets, such as India, Singapore and the Nordic countries. In order to provide a seamless experience for our guests, all of our onboard and onshore programming is offered in a singular language. For our core products, all programming is in English and for our China Outbound product, all programming is in Mandarin.

Continue to expand Viking China and launch products for new source markets.

The Chinese market is a large source for leisure travel. According to the World Bank and CLIA, there were 154.6 million international departures from China in 2019 and 1.9 million passengers from China traveled on a cruise line in 2019, which made it one of the largest and fastest growing outbound travel markets in the world. While the Chinese outbound market has been slower to rebound from the COVID-19 pandemic, we believe Chinese tourists maintain a strong desire to travel internationally. According to Oxford Economics, China is expected to regain its pre-pandemic share of global outbound visits, which was 7.1% in 2019, by 2026.

In 2016, we brought our brand of curiosity-driven travel to the Chinese source market by launching China Outbound, a river cruise experience in Europe with 100% Mandarin-speaking crew, and food, entertainment and excursions completely dedicated to Chinese guests. As a result, we believe we are uniquely positioned to capitalize on the Chinese market, which represents a continued opportunity for growth. Mandarin-speaking travelers in China, as well as other Asian-source markets, have been historically underserved by the cruise industry and we have identified a sizeable addressable market. We believe we are the only cruise line with a product dedicated to Mandarin-speaking guests in Europe and the launch of China Outbound in 2016 was just the beginning. By leveraging our brand awareness in China and our extensive research into the travel preferences of affluent Mandarin-speaking guests, we plan to continue to develop China Outbound, with the possibility of growing the fleet or expanding to include other offerings, such as ocean cruising. For coastal cruising in China, the China JV Investment's *Zhao Shang Yi Dun* has a competitive advantage in the upper premium cruise line space as it is the only modern cruise ship currently in this market. We have entered into an accommodation purchase agreement with CMV pursuant to which we have the exclusive right to the accommodation and services on board the *Zhao Shang Yi Dun* for sales to Mandarin-speaking populations in China and guests in other Asian countries, including Japan.

There are also opportunities to bring our brand of curiosity-driven travel to other source markets. Similar to China Outbound, new source markets provide an exciting opportunity to tailor our existing products exclusively to these source markets, while leveraging our experience building our core products with a singular language and potentially using a portion of our existing fleet.

Strategically expand our product portfolio.

We believe we can harness our global travel expertise, experienced operational team and deep understanding of our core demographic to further expand our platform. Based on our robust customer insights practice and third-party research, we believe there is considerable demand for other Viking products from our past guests, as well as from our broader core demographic. In particular, we believe there is significant future opportunity to expand beyond floating hotels to create dedicated land-based products given the strong demand for our pre-and post-trip extensions. As our guests generally enjoy multiple forms of travel and take multiple trips per year, land-based product offerings would meet an additional portion of the travel needs of our core demographic. This would enable us to capture a greater share of our guests' travel spend and extend our customer lifetime value and connection to the Viking brand.

Financial Performance

Our financial performance reflects the growing demand for our products, our strong capacity growth and the benefits of our loyal customer base. Our loyal guests book their journeys well in advance, and as a result, we have industry-leading early booking rates, which give us a competitive advantage in allocating capacity, optimizing pricing, managing yield and planning for future ship commitments years in advance. As a result, we are able to generate high margins and leading ROIC among the large public cruise lines. For the year ended December 31, 2023, our ROIC was 27.5%. We have also historically generated substantial net cash flow from operating activities and Adjusted FCF that we have reinvested in our business to support growth. For the year ended December 31, 2023, we generated $1.4 billion in net cash flow from operating activities and $1.0 billion of Adjusted FCF, which translates to an Adjusted FCF Conversion of 92.3%. See "Prospectus Summary—Summary Consolidated Financial and Other Data" for additional information about ROIC and Adjusted FCF, including a

calculation of ROIC and a reconciliation of net cash flow from operating activities to Adjusted FCF. Our strong balance sheet provides flexibility to finance future growth at attractive terms. As of June 30, 2024, we had $1.8 billion of cash and cash equivalents and $5.2 billion of Total Debt.

Like all other companies in the travel industry, our operations were impacted by the COVID-19 pandemic. In March 2020, we were the first cruise line to halt operations. From that point on, we spent significant resources implementing new health and safety protocols, including adding onboard testing laboratories on our ocean and expedition ships. These investments allowed us to restart operations in May 2021, with more than half of our river fleet and all six of our ocean ships operating at the peak of the 2021 season.

By 2022, more of our guests were traveling again. In 2022, 469,935 guests traveled with us, with an Occupancy of 78.4%, and in 2023, 649,669 guests traveled with us (38.2% more than 2022 and 26.7% more than 2019), with an Occupancy of 93.7%. We believe our nimble operations, our experienced, cohesive management team and our consistent execution distinguishes us from other travel businesses and accelerated our recovery, both on a total revenue and an Adjusted EBITDA basis, in comparison to the large public cruise lines.

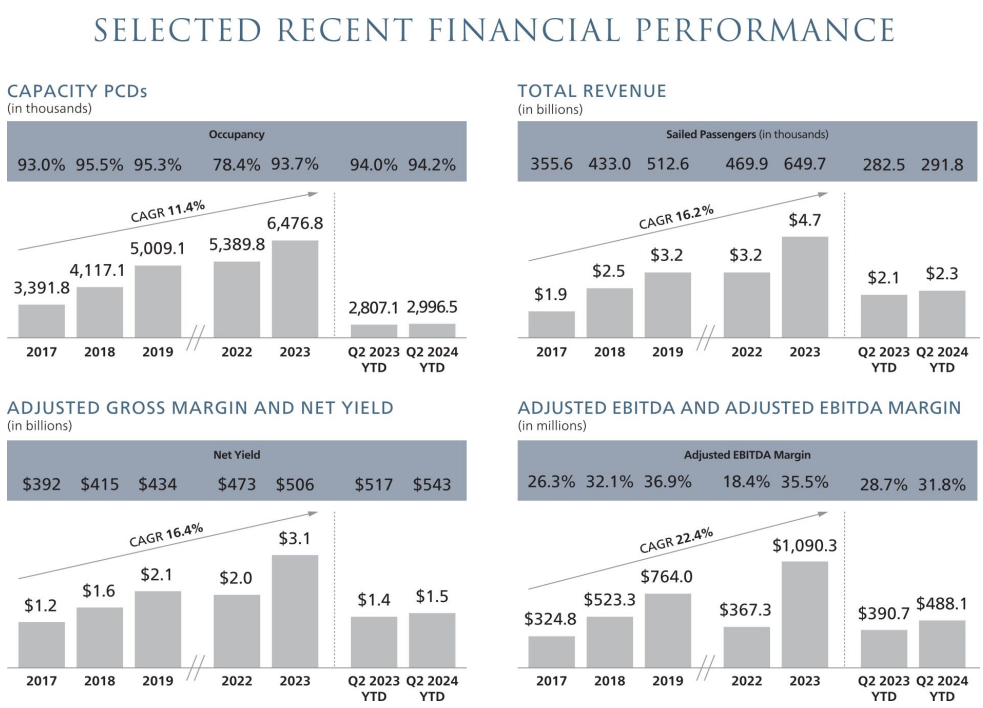
This strategy resulted in the following results from 2017 to 2023:

- Total revenue increased from $1.9 billion for the year ended December 31, 2017 to $4.7 billion for the year ended December 31, 2023.
- Gross margin increased from $0.6 billion in 2017 to $1.6 billion in 2023.
- Adjusted Gross Margin increased from $1.2 billion for the year ended December 31, 2017 to $3.1 billion for the year ended December 31, 2023.
- Net loss increased from $55.1 million for the year ended December 31, 2017 to $1,858.6 million for the year ended December 31, 2023. Net loss includes losses, net, of $20.7 million and $2,101.9 million for 2017 and 2023, respectively, due to the impact of the Private Placement derivatives gain (loss) and interest expense related to our Series A Preference Shares, Series B Preference Shares and Series C Preference Shares, as applicable. Our Series A Preferences Shares, Series B Preference Shares and Series C Preference Shares are no longer outstanding.
- Adjusted EBITDA and Adjusted EBITDA Margin increased from $324.8 million and 26.3%, respectively, for the year ended December 31, 2017 to $1,090.3 million and 35.5%, respectively, for the year ended December 31, 2023.

This strategy has also generated strong results in the most recent six months ended June 30, 2024, where we have observed:

- Total revenue increased from $2.1 billion for the six months ended June 30, 2023 to $2.3 billion for the six months ended June 30, 2024.
- Gross margin increased from $0.7 billion for the six months ended June 30, 2023 to $0.8 billion for the six months ended June 30, 2024.
- Adjusted Gross Margin increased from $1.4 billion for the six months ended June 30, 2023 to $1.5 billion for the six months ended June 30, 2024.
- Net loss increased from $24.3 million for the six months ended June 30, 2023 to $338.1 million for the six months ended June 30, 2024. Net loss included gains, net, of $18.9 million and losses of $396.2 million for the six months ended June 30, 2023 and 2024, respectively, due to the impact of the Private Placement derivative gain (loss) and interest expense related to our Series C Preference Shares, as applicable. Our Series C Preference Shares are no longer outstanding.
- Adjusted EBITDA and Adjusted EBITDA Margin increased from $390.7 million and 28.7%, respectively, for the six months ended June 30, 2023 to $488.1 million and 31.8%, respectively, for the six months ended June 30, 2024.

See “Prospectus Summary—Summary Consolidated Financial and Other Data” for additional information about Adjusted Gross Margin and Adjusted EBITDA, including a reconciliation of Adjusted Gross Margin to gross margin and a reconciliation of Adjusted EBITDA to net income (loss).



Operations

Our Fleet

As of June 30, 2024, we had a fleet of 92 ships, including: (1) 81 river vessels, including 58 Longships, 10 smaller classes based on the Longship design, 11 other river vessels, one river vessel charter and the *Viking Mississippi;* (2) nine ocean ships; and (3) two expedition ships.

Each of our Longships, each of our ocean ships and each of our expedition ships are nearly identical to each other. This consistency in design provides many advantages, including:

- efficiency at the shipyards which allows for predictability of delivery dates and ship costs, while minimizing change orders and errors;
- greater flexibility to interchange crew members among ships or combine ship itineraries in order to improve Occupancy;
- operational flexibility to interchange guests between ships in the event of unexpected disruptions, such as when we position identical Longships on adjacent sides of low water areas;
- efficiencies around crew training and parts and maintenance;
- brand consistency and familiarity for both guests and on board and office (call center) employees; and
- more focused marketing efforts with a consistent deck plan.

As of June 30, 2024, our fleet was comprised of the following ships:

Environmental and Social Responsibility

We are conscious of our responsibility with respect to the environmental and social impact of our operations.

Environmental Considerations for Our Fleet

We believe we have one of the most environmentally friendly fleets in the cruise industry. From the outset, all our vessels are thoughtfully designed to reduce their fuel consumption, carbon footprint and overall environmental impact.

Viking River—Our Longships are one of the first cruise ships to be voluntarily certified with the Green Award, which gives us preferential docking in Amsterdam, one of our central ports, and are also certified with the European ISO 14001 Environmental Management practices. Our Longships are among the first river vessels powered by energy-efficient hybrid diesel/electric engines, in which a series of electric motors drive the ship propellers, while diesel engines act as a generator. Our Longships are equipped for shore power, which reduces pollution by avoiding burning diesel in port, and we are investing in shore power facilities along the rivers included in our itineraries. In addition, our latest Longships are equipped with battery packs. Our Longships also have onboard solar panels and organic herb gardens. Combined, all of these features reduce our carbon emissions.

Viking Ocean—Our ocean ships exceed the current requirements of the IMO EEDI by approximately 25%, and will exceed the 2025 EEDI requirements by almost 20%. Our ocean ships have energy-efficient hulls, a bulbous bow and ducktails, as well as innovative propellers and rudder arrangements, to reduce resistance in the water, which contribute to fuel efficiencies. Our ocean ships are also fitted with the latest cleaning technologies to reduce emissions, including closed-loop scrubbers, which allow pollutants removed from our exhaust to be stored onboard and disposed of at suitable reception facilities onshore. In comparison, open-loop scrubbers dispose of pollutants directly into the water. Most of our ocean ships are also equipped for shore power to further reduce pollution by avoiding burning fuel when docked at port, and we are in the process of equipping our entire ocean fleet with shore power in the next few years as shore power becomes more readily available around the world. Looking forward, we are working to make our next generation of ocean ships even more environmentally friendly. We have made the principled decision not to invest in LNG, which is composed almost exclusively of methane, a greenhouse gas with a global warming potential more than 80 times (over a 20-year period) or 28 times (over a 100-year period) that of carbon dioxide. Instead, we are working on a project for a partial hybrid propulsion system based on liquid hydrogen and fuel cells, which could allow us to operate at zero-emission in the Norwegian Fjords and other sensitive environments.

Viking Expedition—Our expedition ships set a new standard for responsible travel by exceeding the current requirements of the EEDI by nearly 38%. With straight, integrated bows and long, slender hulls, our expedition ships efficiently sail, reducing fuel consumption. Our expedition ships also feature an onboard dynamic positioning system that allows it to hover over the seabed without anchoring, minimizing disruption to the environment, and SILENT-E notation to minimize noise pollution. Our expedition ships also feature other energy-efficient design elements, including intelligent HVAC systems, heat recovery systems and LED lighting.

Viking Mississippi—The *Viking Mississippi* is equipped with a variety of measures to maximize energy efficiency and minimize emissions. The *Viking Mississippi* includes a hybrid diesel-electric system of eight load-sharing generators, electric-driven hydraulic units and pump jet thrusters and advanced exhaust scrubbing systems to significantly reduce sound and emissions. The *Viking Mississippi* also includes an advanced sewage treatment system allowing the ship to be near zero discharge.

Scientific Research Partnerships

In connection with launching Viking Expedition, we partnered with several world-leading academic institutions to support scientific research around marine biology, ornithology, glaciology, oceanography and

atmospheric sciences. We also formed a scientific advisory committee to help us take advantage of the access provided by our expedition ships to further scientific research and develop a better understanding of the world. With our scientific research partners, we hope to give environmental scientists a platform by which to conduct environmental research in remote locations. For example, in January 2024, we were able to take scientists to Astrolabe Island, located in the Bransfield Strait, where they were able to observe and count the chinstrap penguin colonies present for the first time since 1987, contributing essential monitoring data of Antarctic wildlife.

Examples of our scientific partnerships include University of Cambridge's Scott Polar Research Institute, the Oceanites, National Oceanic and Atmospheric Administration (NOAA), Great Lakes Environmental Research Laboratory and Akvaplan-Niva.

Cultural Partnerships and Community Investment

Our cultural partnerships drive social impact by creating new opportunities to experience art, history and culture in local communities. Examples of our cultural partnerships include the Los Angeles Philharmonic, the British Museum and the Metropolitan Opera.

We also make investments in the communities that we visit. We make capital investments in the development of ports and docking places. For example, we have committed to invest in the project to reconstruct the pier in Duluth, Minnesota. We have also started making significant investments in establishing shore power on rivers, both at our own docking places, as well as at public ports and other partner ports. We have also supported communities in need by donating to those impacted by natural disasters. For example, we made contributions for disaster relief efforts after the 2019 tropical storm in Mozambique and the 2023 tornadoes in the Mississippi delta.

In addition to our investments in the communities that we visit, our guests also make meaningful contributions. Our guests are affluent and thoughtful, and they invest in the communities that we visit by buying goods from local artisans, learning about local culture and ultimately becoming great ambassadors for the places we visit – encouraging future tourism spend. Our guests may also donate to cultural partners or charitable organizations that we visit on our itineraries. For example, in Cambodia, our guests can visit an organization that develops and manages projects directed towards empowering people in under privileged Cambodian communities and creating the conditions necessary for sustainable development through education.

Investments in Our Workforce

We believe the best results come from investing in our employees. We are proud to offer comprehensive benefits packages for our employees, which vary by location and are designed to meet or exceed local requirements and be competitive in the marketplace.

We have a history of strong employee retention rates, which we attribute to our culture that allows our team members to thrive and achieve their career goals. We have also built employee loyalty by prioritizing the well-being of our employees during times of uncertainty, which we believe has resulted in high retention rates. For example, during our temporary suspension of operations as a result of the COVID-19 pandemic, we believe we did more for our crew than most, if not all, other cruise lines.

We operate globally, with team members representing more than 90 countries. In addition, more than 50% of our U.S. employees and more than 25% of our worldwide employees are female, which includes three female executive team members. We leverage the talents of all team members and are committed to equal employment opportunity. Our internal policies prohibit all forms of unlawful discrimination or harassment against applicants or employees.

We are also committed to adopting a strong compliance program to uphold high standards in managing risks and opportunities around ethical business conduct. Our code of business conduct and ethics addresses, among other things, the handling of conflicts of interest, compliance issues and other corporate policies such as equal opportunity and non-discrimination standards.

Operation and Management of Our Fleet and Related Activities

Our in-house operations are divided between our Nautical, Hotel Services and Land Operations Departments. Our Nautical Department is primarily responsible for navigation and docking between destinations and maintenance of equipment on a majority of our river vessels. Nautical and technical services for certain of our chartered ships, our owned river vessels in Portugal, our ocean ships and our expedition ships are provided by third-party operators with many years of experience in providing such services to the cruising industry. Our Nautical Department also oversees the management and maintenance of docks and land bridges controlled by Viking. For our river vessels, we perform general maintenance on our fleet over the winter, which generally does not involve dry-docking the vessels and substantial maintenance is generally not required because our vessels do not sail in salt water. For our ocean and expedition ships, we perform regular and periodic maintenance of our fleet, with a regularly scheduled dry-docking approximately every five years. Nautical services on the *Viking Mississippi* are provided by an affiliate of the Mississippi Ship Owner in accordance with the time charter agreement.

Our Hotel Services Department is primarily responsible for onboard hospitality services, including food and beverage services, housekeeping and onboard enrichment, such as guest lectures, roundtable discussions and destination-focused musical performances. We have earned the highest Cruise Critic score ratings across the industry for a variety of critical categories related to onboard hospitality services, including dining, cabins and service for Viking River and Viking Ocean.

Our Land Operations Department is primarily responsible for arranging shore excursions and pre-and post-trip cruise extensions, including selecting and contracting with hotels, local guides, transportation companies and venues and transfers between our ships and hotels and airports. By providing many of these operations and services in-house, we are able to enhance our inclusive experience, enabling our guests to enjoy their trip without having to worry about a multitude of additional charges. For Viking Expedition, our Land Operations Department is also responsible for the staff of onboard naturalists and other scientific experts, including an expedition leader, photographer, field research scientists, general naturalists, mountain guides, kayak guides, submarine pilots and other specialists and support staff.

We believe our extensive in-house operations will be a critical advantage if we decide to expand our product offerings in the future. Our experience arranging shore excursions and pre- and post- trip cruise extensions will be particularly beneficial for any future dedicated land-based product.

Our Guest Experience and Itineraries

We place significant emphasis on providing varied, culturally enriching experiences for our guests on each of our itineraries. With more itineraries in more destinations worldwide, we offer insights and opportunities that set us apart from other travel companies. While our included and optional shore excursions cover cultural and historic highlights, we also go beyond, sharing with our guests The Viking Way®, with our Local Life, Working World and Privileged Access® experiences. Privileged Access® excursions provide behind-the-scenes access to places otherwise difficult to visit, including world-class museums, private art collections and cultural landmarks around the world. Local Life excursions go deep into a locale's culture and lifestyle to offer our guests the ability to experience daily life as a local, such as by exploring Saigon's vibrant streets by pedal cab. Working World excursions provide our guests with a glimpse into the world at work allowing them to tap into local passions, such as by touring the vineyards and wine cellars of Italy or the spice farms of Goa, India. We focus on offering our guests a broad variety of opportunities to explore each destination, which we believe differentiates us from our competitors in the cruise industry. For Viking Expedition, our shore excursions offer immersive activities,

such as participating in monitoring the migratory patterns of birds and wildlife, collecting samples with the scientists or learning from a professional photographer how best to capture views of scenic landscapes.

In addition to the shore excursions related to the destination itself, we provide a variety of onboard programs to support and enrich the port experience. Our Old World Highlights and Culture Curriculum programs include cooking classes with a focus on local specialties, musical and dance performances, multimedia talks on regional art and architecture and food and wine tastings. For example, we have an exclusive relationship with Oslo's Munch Museum, which allows Viking to host one of the largest collections of Edvard Munch's work digitally onboard our ocean ships. We also have resident historians and guest lecturers who deliver historical and cultural education specific to the destination. Additionally, we offer destination-inspired performances onboard, such as the Italian opera or Portuguese fado. For Viking Expedition, we have additional onboard amenities designed to complement our immersive shore excursions and allow our guests to immerse in the region. For example, we have an on-board laboratory in a glass-enclosed mezzanine floor above the hangar that allows guests to engage with scientists conducting primary research.

We are currently offering itineraries cumulatively spanning over 85 countries across all seven continents, all five oceans and 21 rivers.

Marketing and Sales

Our marketing goals are to enhance brand awareness, consideration, purchase and retention through reinforcing our brand and product promise. Given that our target market is sizable, and in order to acquire and retain guests at the lowest acquisition costs, our marketing strategy leverages addressable media to target the most qualified guests. We apply traditional consumer insights and database modeling principles to all our media channels, which include direct mail, television, digital advertising, television, print, radio, e-mail and our website.

We have developed a sophisticated, direct marketing system and invested $3.0 billion in marketing since our founding to educate consumers on the Viking brand and to actively generate demand, rather than passively wait for potential guests to book travel. The foundation of our addressable media strategy is to develop a strong understanding of our past guests and a profile of future guests. Our consumer insights group analyzes the travel habits, preferences and booking considerations of our past guests by segment to optimize product development and marketing processes. Our database modeling team adds additional insights by segmenting and ranking the propensity to travel with Viking. Through this investment, we have assembled and continue to grow a database includes more than 56 million North American households, including 1.5 million households that have traveled with us before. This core understanding of our database allows us to adjust and optimize our marketing strategies as our supply and market demand fluctuates, as well serve as the foundation for our addressable media strategy.

Our marketing also drives direct bookings. For the year ended December 31, 2023 and for the 2024 season to date, more than 50% of our guests booked directly with us. Guests can book directly with us through multiple outlets, including our website, via online chat with an agent, over the phone, or on board our ships that have a

dedicated travel consultant. Our call centers have over 1,000 agents spread across the United States, the United Kingdom, Australia, South Africa, and the Philippines—and together they provide excellent and efficient service for our guests. In 2023 and for the first six months of 2024, we realized an approximately 70% conversion rate across new inbound sales calls received. In 2023 and for the first six months of 2024, we also answered over 90% of all calls within 10 seconds.

We use our media channels collectively to engage with our customers throughout their journey. For example, after a guest books their trip, we use direct mail and e-mail to notify the guest about customizing their experience (including choosing included excursions and booking alternative restaurants) and booking new paid add-ons (including shore excursions that allow guests to further delve into their passions, whether it be food and wine, wellness, history or a day in the life of a local). While the Viking experience is all-inclusive, we also give our guests the opportunity to enhance their journey with additional add-on experiences. For the year ended December 31, 2023, onboard and other revenue per PCD was $54. During each cruise, we promote brand engagement with our guest generated content campaign #MyVikingStory, through which potential guests can see real pictures of our guests as they travel and discover the world. After returning home, we welcome our guests back with e-mails and personalized direct mail. After the cruise is complete, we also examine guest feedback and preferences, including areas of interest, to engage guests with tailored and relevant communications. For example, a guest booking food and wine excursions will receive regular recipes from around the world to inspire their next trip or a copy of our digital cookbook, The Kitchen Table. We also provide content that engages our target guest online with our digital news update, Viking Weekly and Viking.TV, which contains content of interest to our guests: new destinations, cultures, food and wine, and high-profile guest interviews, as well as local activities in various cities around the world.

We understand our guests consume a variety of media channels. In addition to traditional media, we leverage our Viking assets, particularly our extensive enrichment-focused video library through content marketing, as well as partner with brands relevant to our target guests, such as the Los Angeles Philharmonic in the United States, Classic FM in the United Kingdom and the Munch Museum in Norway. These efforts support Viking's brand position and help to keep Viking top of mind when our guests are ready to rebook.

Distribution

Travel agencies generate a substantial amount of bookings for our cruises, and we are committed to maintaining and strengthening this distribution channel. We have preferred relationships with large travel agent consortia, and we employ sales managers in key markets to maximize awareness of our products within the travel agent community. We have created a portal on our website that is dedicated to providing support for the local travel agency community and which offers travel agents access to our sales and marketing tools and resources. In addition, guests can book directly with Viking. Sales are managed through our reservation call centers in the United States, United Kingdom and Australia. We do not sell any of our products through wholesalers.

Competition

We operate in the global leisure travel market, of which cruising represents only one of many alternatives. We therefore compete not only with other cruise lines, but also with other vacation operators that provide other travel and leisure options, including hotels, resorts and package holidays and tours. Our principal competitors within the river cruise industry include such companies as AMA Waterways, Inc., Avalon Waterways, Emerald Cruises, Tauck, and Uniworld River Cruises, Inc. Our principal competitors within the ocean cruise industry include premium and luxury ocean cruise operators such as Azamara Cruises, Celebrity Cruises, Crystal Cruises, Explora Journeys, Four Seasons Yachts, Holland America Line, Oceania Cruises, Princess Cruises, Regent Seven Seas Cruises, Seabourn Cruise Line and Silversea Cruise Holding Ltd. Our Viking Expedition product faces competition from companies such as Hurtigruten Expeditions, Lindblad Expeditions, Pearl Seas Cruises, Ponant, Quark Expeditions and Silversea Cruise Holding Ltd. The Viking Mississippi product competes with American Cruise Lines and American Queen Steamboat Company.

Suppliers

Our largest capital expenditures are for ship construction and acquisition. We currently have six ocean ships under construction by shipyards. We also have entered into shipbuilding contracts for an additional two ocean ships, which are subject to certain financing conditions. Additionally, we have entered into contracts with shipyards for 16 river vessels, which we will own, of which 11 will operate on European rivers and five will operate in Egypt. We also rely on third-party vendors to own and operate our chartered vessels, including the *Viking Mississippi*, the *Viking Saigon* and the additional chartered vessel ordered for delivery in 2025.

Our largest operating expenditures are for air travel, fuel, food and beverage, travel agent services and advertising and marketing. Most of the supplies that we require are available from numerous sources at competitive prices. In addition, because of the large quantities that we purchase, we can obtain favorable prices for many of our supplies. Our purchases are denominated primarily in U.S. dollars. Payment terms granted by the suppliers are generally customary terms for the cruise industry.

See "Risk Factors—Risks Related to Our Dependence on Third Parties—Reductions in the availability of and increases in the prices for the services and products provided by our vendors could adversely affect our business and revenues. In addition, our vendors may act in ways that could adversely affect our business, financial condition and results of operations." for additional information about the potential impact of supply shortages and cost increases on our business.

Employees

As of December 31, 2023, we had approximately 9,500 employees. Of these, approximately 7,500 were employed on our ships, mainly as nautical staff and approximately 2,000 were land based, principally located in the United States and Switzerland. At the peak of the 2023 season, we had approximately 11,500 employees with approximately 9,500 people employed on our ships. We also rely on approximately 1,400 outsourced employees, which includes onboard employees of third-party vendors that provide nautical services.

None of our U.S. employees are subject to collective bargaining agreements or are represented by a union. In certain of the European countries in which we operate, we are required to establish work councils in compliance with local law requirements. We have entered into a collective bargaining agreement with the Norwegian Seafarers' Union and the Associated Marine Officers' and Seamen's Union of the Philippines to set out the terms and conditions of certain employees on our ships, except for those ships registered in the Ordinary Norwegian Registry. We believe that our relationship with our employees and unions is generally good.

See "Risk Factors—Risks Related to Our Business, Our Operations and Our Industry—Increased labor costs or our inability to recruit or retain employees may adversely affect our business, financial condition and results of operations." for additional information about the potential impact of labor shortages and labor cost increases on our business.

Properties

Other than our ships, we do not own any material physical property.

As of December 31, 2023, we controlled 67 premier docking locations for our river vessels along the rivers of Europe and Egypt and had priority access to 30 docking locations in Hungary.

Intellectual Property

Our intellectual property is valuable and important to our business. To establish and protect our proprietary rights, including our proprietary technology, software, know-how and brand, we rely upon a combination of designs, copyrights, domain names, registered trademarks and rights in marks and confidential information and trade secrets. Our material intellectual property consists principally of our proprietary database of past and

prospective customers in the United States and the intellectual property rights in the brands we use in our business, which we seek to protect and defend throughout the world through registered trademarks. Our most important brands are "VIKING®", "VIKING CRUISES®", "VIKING RIVER CRUISES®", "VIKING OCEAN CRUISES®", "VIKING EXPEDITIONS", "LONGSHIPS®", the Viking ship design logo, and the slogans "THE VIKING WAY®", "EXPLORING THE WORLD IN COMFORT®" and "THE WORLD'S LEADING RIVER CRUISE LINE…BY FAR®". We have registered or applied to register the VIKING, VIKING CRUISES or VIKING RIVER CRUISES names, or formatives including those names, as trademarks in 47 jurisdictions, primarily in the countries where we currently operate; however, there are certain jurisdictions in which we use these brands where we have been unable to secure registrations to date for these brands in certain categories of goods or services due to prior rights and the same may be true for future brands. We also have European Union and United Kingdom registered design rights in the asymmetrical corridors of our Longship-branded vessels, which enable us to add full size verandas without reducing the size of the staterooms. Finally, we own registered copyrights for certain of our marketing materials, videos and other publications, a number of registered domain names and top-level domains (the highest level of a domain name), including www.viking.com, www.vikingcruises.com, www.vikingrivercruises.com and www.vikingoceancruises.com, .viking, .cruise and viking.tv. The information contained on or accessible through our corporate website or any other website or social media platform that we may maintain is not part of this prospectus or the registration statement of which this prospectus is a part and is solely included for informational purposes.

Regulation

River Cruise Business

Our river vessels are regulated by various international, national and local laws, regulations and treaties in force in the jurisdictions in which they operate. The vessels we operate under the Viking River Cruise brand are registered in Egypt, Portugal, Russia, Switzerland, Ukraine and Vietnam. Each vessel is subject to regulations issued by its country of registry, including regulations governing the safety of the vessel and its passengers. Each country of registry conducts periodic inspections to verify compliance with these regulations. Our vessels are also subject to inspections pursuant to the laws and regulations of various countries our vessels visit.

Ocean and Expedition Cruise Business

In the ocean and expedition cruise business, we are subject to regulation by various international, national and local laws, regulations and treaties in force in the jurisdictions in which our ocean and expedition ships will operate. Each ocean and expedition cruise ship is subject to regulations issued by its respective country of registry (currently the Norwegian Maritime Authority), including regulations governing the safety of the ship and its passengers and crew, environmental protections and labor, as well as subject to inspections to confirm compliance with the foregoing by applicable authorities. In addition, our ocean and expedition cruise ships are subject to various international regulations, including the International Safety Management (ISM) Code, International Convention for Safety of Life at Sea, the International Convention on Standards of Training, Certification and Watchkeeping (STCW) for Seafarers, the International Convention on Civil Liability for Bunker Oil Pollution Damage 2001, the Athens Convention relating to the Carriage of Passengers and their Luggage by Sea 2002, the Nairobi Convention on the Removal of Wrecks 2007, the International Convention for the Prevention of Pollution from Ships ("MARPOL"), the Maritime Labour Convention of 2006 and other applicable conventions.

As we operate our ocean ships in Europe, we are subject to various laws and regulations instituted by the European Union, including regulations to implement or enhance environmental standards established by MARPOL.

In addition, as we market and sell cruises that embark guests at U.S. ports, the U.S. Federal Maritime Commission ("FMC") requires evidence of financial responsibility in the form of a Performance Certificate for those offering transportation on guest ships operating out of U.S. ports to indemnify guests in the event

of non-performance of the transportation. The coverage amount is based on the level of unearned guest revenue and is currently capped at $32 million effective June 8, 2022. Accordingly, we are required to maintain insurance, an escrow account or a third-party performance of transportation and other obligations to guests. In addition, we are required to obtain from the FMC a Casualty Certificate evidencing financial responsibility established by insurance, surety bond, self-insurance, guaranty or escrow account based on the number of guest accommodations in order to cover liability incurred for death or injury to guests or other persons on voyages on board our ships.

Our ocean and expedition operations follow the relevant regulations of any authority where we are operating, including the U.S. Centers for Disease Control and Prevention for operations in U.S. waters.

Mississippi Cruise Business

On January 13, 2020, our subsidiary, Viking USA LLC (the "U.S. Charterer") entered into a time charter with the Mississippi Ship Owner to charter the *Viking Mississippi* for operation on the Mississippi River. A time charter is a lease of a ship for a specified period of time under which the owner manages the ship and the charterer selects the ports of call and itinerary of the ship. The *Viking Mississippi* was delivered and deployed on the Mississippi River in September 2022. The time charter for the *Viking Mississippi* is for an initial term of eight years with renewal terms at the option of the U.S. Charterer. Pursuant to the terms of the charter, the Mississippi Ship Owner provides the technical and navigational crew and management. The U.S. Charterer provides hotel and catering crew, management and marketing services as well as sells and books all passenger accommodations. VCL has provided a guarantee of the U.S. Charterer's obligations under the time charter.

The *Viking Mississippi* and any future ships operating in U.S. coastwise markets must comply with the applicable provisions of the PVSA, which is similar to the Jones Act governing cargo vessels and restricts domestic marine transportation of passengers in the United States to vessels built and documented in the United States, manned by U.S. citizens and owned and operated by U.S. citizens. The Mississippi Ship Owner has represented to us that it complies with the U.S. ownership requirements of the PVSA and has obtained written confirmation from MARAD that our time charter structure meets MARAD's requirements to be classified as a permissible time charter.

In addition, our expansion into the Mississippi River market is subject to the FMC Performance Certificate requirement described above.

Environmental Regulations

We are subject to various international laws and regulations relating to environmental protection. Environmental and other regulators may consider more stringent regulations in the future, which may affect our operations and increase our compliance costs. We believe that the impact of cruise vessels on the global environment will continue to be an area of focus by the relevant authorities throughout the world and, accordingly, this will likely subject us to increasing compliance costs in the future.

Travel Provider

We are registered as a seller of travel under the California Business and Professions Code, and we participate in the California Travel Consumer Restitution Fund, which provides refunds to guests who are unable to collect from their respective seller of travel, by making annual assessments into the fund. We also participate in the United States Tour Operators Association ("USTOA") One Million Travelers Assistance Program, which requires us to post $1 million of security in the form of a bond or letter of credit and exempts us from seller of travel trust account requirements under the California Business and Professions Code. We are also a member of the Association of British Travel Agents in the United Kingdom as well as a member of the International Air Transport Association in Australia. We believe that we are in material compliance with all the regulations applicable to our ships and that we have all licenses necessary to conduct our business.

Legal Proceedings

We are routinely involved in various legal matters arising from the normal course of business. While the outcome of legal proceedings cannot be predicted with certainty, we believe that these proceedings (net of insurance recoveries), when resolved, will not have a material adverse effect on our business, financial condition and results of operations.

Board Composition

Our board of directors may establish the authorized number of directors from time to time by resolution. Our board of directors currently consists of eight members. Pursuant to the Investor Rights Agreement, any increase or decrease in the number of directors requires the consent of our principal shareholder and each of our financial shareholders, subject to the maintenance of specified ownership requirements.

Our board of directors has determined that Mr. Fear, Mr. Hackwell, Ms. Mayor, Mr. Myrholt, Mr. Naccarato and Mr. Weingart qualify as independent directors in accordance with the rules of the NYSE. Under the rules of the NYSE, the definition of independence includes a series of objective tests, such as that the director is not, and has not been for at least three years, one of our employees and that neither the director nor any of his or her family members has engaged in various types of business dealings with us. Our board of directors has determined that each of Mr. Fear, Mr. Hackwell, Ms. Mayor, Mr. Myrholt, Mr. Naccarato and Mr. Weingart are independent under the NYSE objective tests.

In addition, under the rules of the NYSE, our board of directors was required to make a subjective determination as to whether each director has a material relationship with us, either directly or as a partner, shareholder or officer of an organization that has a relationship with us. Our board of directors conducted the materiality analysis and considered relationships between each director and us, our principal shareholder and our financial shareholders, as applicable, as well as all other relevant facts and circumstances. Our board of directors reviewed and discussed information provided by the directors and us with regard to each director's relationships with us, our principal shareholder, our financial shareholders and our management, including any directorships held in companies affiliated with us. In the opinion of our board of directors, none of Mr. Fear, Mr. Hackwell, Ms. Mayor, Mr. Myrholt, Mr. Naccarato or Mr. Weingart have a material relationship with us and no relationships exist that would interfere with the exercise of their independent judgment in carrying out the responsibilities of a director.

For members of our Audit Committee, our board of directors also considered Rule 10A-3 of the Exchange Act and its adopting release in making independence determinations.

Pursuant to the Investor Rights Agreement, our principal shareholder has the right to designate four nominees to our board of directors and each of our financial shareholders has the right to designate two nominees to our board of directors, subject to the maintenance of specified ownership requirements. Mr. Hagen, Mr. Fear, Mr. Garman and Mr. Myrholt were appointed by our principal shareholder. Mr. Hackwell and Mr. Weingart were appointed by TPG. Ms. Mayor and Mr. Naccarato were appointed by CPP Investments. Pursuant to the Investor Rights Agreement, our principal shareholder has the right to appoint the chairperson of our board of directors, subject to the maintenance of specified ownership requirements. Pursuant to our bye-laws, in the event of an equality of votes on any resolution at a meeting of our board of directors, the chairperson has a second or casting vote in order to achieve a majority of the votes.

Foreign Private Issuer and Controlled Company Exemption

In general, under the NYSE corporate governance standards, foreign private issuers, as defined under the Exchange Act, are permitted to follow home country corporate governance practices instead of the corporate governance practices of the NYSE. Accordingly, we intend to follow certain corporate governance practices of our home country, Bermuda, in lieu of certain of the corporate governance requirements of the NYSE.

In the event we no longer qualify as a foreign private issuer, we intend to rely on the controlled company exemption under the NYSE corporate governance rules. A "controlled company" under the NYSE corporate governance rules is a company of which more than 50% of the voting power is held by an individual, group or another company. Our principal shareholder will control a majority of the combined voting power of our issued and outstanding share capital upon consummation of this offering.

The foreign private issuer exemption and the controlled company exemption do not modify the independence requirements for the audit committee under the Sarbanes-Oxley Act and the NYSE rules, which require that our Audit Committee be composed of at least three directors, all of whom are independent. Under the NYSE rules, however, we are permitted to phase in our independent audit committee by having one independent member at the time of listing our ordinary shares on the NYSE, a majority of independent members within 90 days of listing and a fully independent committee within one year of listing. In addition, under the NYSE rules, a controlled company may elect not to comply with certain corporate governance requirements, including the requirements that within one year of the completion of this offering we have a board that is composed of a majority of independent directors and a compensation committee and a nominating and corporate governance committee that are composed entirely of independent directors. We intend to continue to utilize certain of these exemptions.

If at any time we cease to be a "controlled company" or a "foreign private issuer" under the rules of the NYSE and the Exchange Act, as applicable, our board of directors will take all action necessary to comply with the NYSE corporate governance rules within the time periods provided therein.

Due to our status as a foreign private issuer and a controlled company and our intent to follow certain home country corporate governance practices, our shareholders do not have the same protections afforded to shareholders of companies that are subject to all the NYSE corporate governance standards. See "Description of Share Capital."

Board Committees

Our board of directors has three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. Each committee is governed by a charter that is available on our website. The members of our Audit Committee are Mr. Weingart (Chairperson), Mr. Fear and Mr. Naccarato. Our board of directors has determined that each member of our Audit Committee qualifies as an independent director under the corporate governance standards of the NYSE and the independence requirements of Rule 10A-3 of the Exchange Act. Each member of our Audit Committee also meets the financial literacy requirements of the NYSE. In addition, our board of directors has determined that each of Mr. Weingart, Mr. Fear and Mr. Naccarato qualifies as an "audit committee financial expert" as such term is defined in Item 407(d)(5) of Regulation S-K.

The purpose of our Audit Committee is to assist our board of directors in overseeing and monitoring (1) the quality and integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm's qualifications and independence, (4) the performance of our internal audit function and (5) the performance of our independent registered public accounting firm.

Compensation Committee

The members of our Compensation Committee are Mr. Garman (Chairperson), Mr. Hackwell and Ms. Mayor.

The purpose of our Compensation Committee is to assist our board of directors in discharging its responsibilities relating to (1) setting our compensation program and compensation of our executive officers and directors and (2) monitoring our incentive and stock-based compensation plans.

Nominating and Corporate Governance Committee

The members of our Nominating and Corporate Governance Committee are Mr. Hagen (Chairperson), Mr. Hackwell and Mr. Myrholt.

The purpose of our Nominating and Corporate Governance Committee is to assist our board of directors in discharging its responsibilities relating to (1) identifying individuals qualified to become members of our board of directors, (2) succession planning for our Chief Executive Officer and other executive officers and (3) setting our corporate governance principles.

Board Interlocks and Insider Participation

None of our executive officers currently serves, or has served during the last completed fiscal year, on the board of directors of any other entity that has one or more executive officers serving as a member of our board of directors.

Code of Business Conduct and Ethics

We have adopted a code of business conduct and ethics that applies to all of our employees, officers and directors, including our chief executive and executive financial officers. Our code of business conduct and ethics addresses, among other things, the handling of conflicts of interest, compliance issues and other corporate policies such as equal opportunity and non-discrimination standards. The code of business conduct and ethics will be available on our website. Any substantive amendment to, or waiver of, a provision of the code of business conduct and ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions will be disclosed on our website. The information contained in, or that can be accessed through, our website is not incorporated by reference in, and is not part of, this prospectus.

Directors and Executive Management Compensation

The total amount of compensation paid and benefits in kind provided to our directors and executive officers for services in all capacities to the company and its subsidiaries for the year ended December 31, 2023 was $27.8 million.

Under Bermuda law, we are not required to disclose compensation paid to our directors or executive officers on an individual basis and we have not otherwise publicly disclosed this information elsewhere.

The compensation for each of our executive officers is comprised of the following elements: base salary, bonus, perquisites and benefits under employee benefit plans. We have not set aside or accrued any amount to provide pension, retirement or other similar benefits to our directors and executive officers.

No portion of the compensation paid to our directors and executive officers for the year ended December 31, 2023 was in the form of options. For a description of the arrangements involving the grant of options and other securities to service providers of the company and its subsidiaries, see "— Equity Incentive Plans."

Profit-Sharing Policy

We have established an unwritten discretionary profit-sharing policy for our executive officers. The policy and its rules were initially developed by the board of directors of Viking River Cruises Ltd at a meeting held on November 22, 2009, and then approved by the board of directors of Viking River Cruises Ltd on January 21, 2010. The policy has been maintained by us over time. Payments have been made under the policy to our executive officers for each year since the policy was adopted, including the year ended December 31, 2023. The

policy does not apply to our non-employee directors. The final amount of the profit-sharing payment to an individual is generally based on the consolidated results of our subsidiary, VCL, which results may be forecasted through year-end when full-year results are not available at the time the bonuses are paid. Under the terms of the policy, each of our executive officers who is a beneficiary of the policy is generally assigned a target bonus as a percentage of their annual salary when the consolidated results of VCL exceeds a minimum threshold. In the event that the consolidated results exceed the minimum threshold, each individual's amount is generally determined by multiplying the base amount by an index applicable to all participants. Discretionary adjustments or modifications to the general terms of our profit-sharing policy may be made based on individual performance or as otherwise determined from time to time by our board of directors based on factors impacting our results. Bonuses are generally payable to executives who have not tendered their resignation as of the bonus payment date.

Equity Incentive Plans

Viking Holdings Ltd Second Amended and Restated 2018 Equity Incentive Plan

Overview. In connection with our IPO, our board of directors adopted, and our shareholders approved, the second amendment and restatement of the Viking Holdings Ltd 2018 Incentive Plan for the purpose of granting awards as a public company following our IPO (the "2018 Incentive Plan"), which became effective on the effective date of our registration statement related to our IPO.

The 2018 Incentive Plan enables us to grant awards of incentive options, non-statutory options, restricted shares, RSUs and other share-based awards to our employees, directors and other service providers, as well as the employees, directors and service providers of our affiliates, with respect to our ordinary shares. The awards are granted by our board of directors from time to time, in its sole discretion, and are evidenced by written award agreements. As of June 30, 2024, there were options outstanding with respect to 2,949,830 ordinary shares (with a weighted average exercise price of $15.57) and RSUs outstanding with respect to 2,606,266 ordinary shares. No other types of awards were outstanding under the 2018 Incentive Plan.

Share reserve. We have reserved 54,600,000 ordinary shares for issuance under the 2018 Incentive Plan, of which approximately 19,007,878 ordinary shares remain available for future issuance, plus any ordinary shares underlying outstanding share awards previously granted under the 2018 Incentive Plan that expire or are repurchased, forfeited, cancelled or withheld. The number of shares reserved for issuance under the 2018 Incentive Plan will be subject to an annual increase on the first day of each calendar year beginning in 2025 and ending in 2034, equal to the lesser of (1) 1.0% of the total number of ordinary shares and special shares outstanding on December 31 of the preceding calendar year and (2) such smaller number of ordinary shares as determined by our board of directors at any time prior to the first day of a given calendar year.

Options. Option awards may be granted as incentive options or non-statutory options. The plan administrator determines the exercise price per share with respect to each option, which shall in no event be less than 100% of the fair market value of the underlying share on the date the option is granted (or 110% in the case of incentive options granted to individuals then owning more than 10% of the total combined voting power of all classes of our shares), except with respect to certain substitute options granted in connection with a corporate transaction. In certain circumstances, such as a share split, share dividend, recapitalization, merger or any other change in the corporate structure affecting the outstanding shares, the exercise price of outstanding options will be appropriately adjusted.

Options may be exercised at such times as determined by the plan administrator. If a participant's service relationship with us ends for any reason, any options that have not vested as of the date the participant terminates service with us are forfeited. The term of each option award may not exceed 10 years after the date of grant (or five years in the case of incentive options granted to individuals then owning more than 10% of the total combined voting power of all classes of our shares).

Restricted Shares. Restricted shares may be awarded from time to time in consideration for services or may be offered by the plan administrator for purchase. The plan administrator determines the terms and conditions of restricted shares, including the applicable restriction period and forfeiture terms. If a participant's service relationship with us ends for any reason, we may receive any or all of the restricted shares held by the participant that have not vested as of the date the participant terminates service with us through a forfeiture condition or a repurchase right in accordance with the applicable award agreement.

Restricted Share Units. RSUs may be awarded from time to time on such terms and conditions as the plan administrator determines, including the applicable vesting period and settlement terms. RSUs may be settled in ordinary shares, cash or a combination of cash and ordinary shares as deemed appropriate by the plan administrator. Additionally, dividend equivalents may be credited in respect of the ordinary shares covered by RSUs at the discretion of the plan administrator. If a participant's service relationship with us ends for any reason, any RSUs held by the participant that have not vested as of the date the participant terminates service are forfeited in accordance with the applicable award agreement, except as otherwise determined by the plan administrator.

Other Share-Based Awards. Other share-based awards may be awarded by the plan administrator and denominated in cash, shares or other securities in such amounts, and on such terms and conditions, as determined by the plan administrator.

Vesting Schedules. The vesting schedules for awards are set forth in the applicable award agreements, as determined by the plan administrator, and provide that the ordinary shares subject to RSU awards vest after all vesting conditions are satisfied. Outstanding RSUs granted prior to our IPO under the 2018 Incentive Plan include a time vesting condition that will be satisfied on the second or fourth anniversary of the vesting commencement date set forth in the applicable award agreement, subject to the participant's continuous service through such date.

Administration. The 2018 Incentive Plan is administered by our Compensation Committee.

Certain Transactions. In the event of any change to our outstanding shares, such as share splits, share dividends, bonus share issues, reverse share split, recapitalization, merger, consolidation, or a combination or exchange of shares or other change in our corporate structure affecting the outstanding shares, the plan administrator shall make appropriate adjustments in order to prevent the dilution or enlargement of benefits under the 2018 Incentive Plan, any such adjustments determined by the plan administrator shall be final, binding and conclusive. In the event of a change in control of our company, all outstanding unvested awards will become vested and exercisable, unless the awards will be assumed or substituted for by the successor corporation or otherwise continued in effect or replaced pursuant to the terms of the change in control transaction. The plan administrator, in its sole discretion, will determine the treatment of outstanding awards in connection with change in control transaction.

Transfer Restrictions. Awards may not be transferred in any manner by a participant other than in the event of such participant's death, unless otherwise determined by the plan administrator.

Recoupment. Awards will be subject to the provisions of any applicable clawback policy implemented by our company and to the extent set forth in such clawback policy.

Amendment and Termination. The 2018 Incentive Plan will terminate 10 years after its adoption in connection with the IPO, unless earlier terminated by our board of directors. Our board of directors may amend or terminate the 2018 Incentive Plan at any time; provided, however, that such amendment or termination does not adversely affect outstanding awards, unless the participants consent or such amendment or termination is required by applicable law.

Viking Holdings Ltd 2024 Employee Share Purchase Plan

Overview. In connection with our IPO, our board of directors adopted, and our shareholders approved, the 2024 ESPP. The purpose of the 2024 ESPP is to secure the services of new employees, to retain the services of existing employees and to provide incentives for such individuals to exert maximum efforts toward our success. The 2024 ESPP became effective on the effective date of our registration statement related to our IPO. We have not authorized any offerings under the 2024 ESPP as of the date of this prospectus.

Share Reserve. We have reserved 4,680,000 ordinary shares for issuance pursuant to a series of purchase rights under the 2024 ESPP. In addition, the number of shares reserved for issuance under the 2024 ESPP will be subject to an annual increase on the first day of each calendar year beginning in 2025 and ending in 2034, equal to the lesser of (1) 1.0% of the total number of ordinary shares and special shares outstanding on December 31 of the preceding calendar year; (2) 4,680,000 ordinary shares; and (3) such smaller number of ordinary shares as determined by our board of directors at any time prior to the first day of a given calendar year.

Qualified and Non-Qualified Offerings Permitted. The 2024 ESPP includes two components: a "423 Component" and a "Non 423 Component." The 423 Component is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"). The provisions of the 423 Component will be construed in a manner that is consistent with the requirements of Section 423 of the Code to allow eligible U.S. employees to purchase our ordinary shares in a manner that may qualify for favorable tax treatment under Section 423 of the Code. In addition, the 2024 ESPP authorizes grants of purchase rights under the Non-423 Component that do not meet the requirements of Section 423 of the Code in order to allow deviations necessary to permit participation by eligible service providers who are foreign nationals or employees who are employed outside of the United States while complying with applicable foreign laws. Except as otherwise provided in the 2024 ESPP or determined by the plan administrator, the Non-423 Component will be operated and administered in the same manner as the 423 Component.

Offerings. The 2024 ESPP will be implemented by offerings of rights to all eligible employees and eligible service providers from time to time. Offerings may be comprised of one or more purchase periods. The maximum length for an offering under the 2024 ESPP is 27 months. The provisions of separate offerings need not be identical. When a participant elects to join an offering, he or she is granted a purchase right to acquire ordinary shares on each purchase date within the offering, each corresponding to the end of a purchase period within such offering. On each purchase date, all payroll deductions collected from the participant during such purchase period are automatically applied to the purchase of shares, subject to certain limitations.

Participation. On each offering date, each eligible employee or eligible service provider, pursuant to an offering made under the 2024 ESPP, will be granted a purchase right to purchase up to that number of ordinary shares purchasable either with a percentage or with a maximum dollar amount, as designated by the plan administrator; provided however, that in the case of eligible employees, such percentage or maximum dollar amount will in either case not exceed 15% of such employee's earnings during the period that begins on the offering date (or such later date as the plan administrator determines for a particular offering) and ends on the date stated in the offering, which date will be no later than the end of the offering, unless otherwise provided for in an offering. In the event that a participant is no longer an eligible employee or eligible service provider, any purchase rights granted to such participant pursuant to any offering under the 2024 ESPP will terminate immediately and we will distribute all of his or her accumulated but unused payroll contributions as soon as practicable.

Purchase Price. The purchase price of ordinary shares acquired pursuant to purchase rights will be not less than the lesser of (1) 85% of the fair market value of the shares on the offering date; or (2) 85% of the fair market value of the shares on the applicable purchase date (i.e., the last day of the applicable purchase period).

Payment of Purchase Price; Payroll Deductions. The purchase price of the shares is accumulated by payroll deductions over the offering. To the extent permitted in the offering document, a participant may increase, reduce

or terminate his or her payroll deductions. All payroll deductions made on behalf of a participant are credited to his or her account under the 2024 ESPP and deposited with our general funds. To the extent permitted in the offering document, a participant may make additional payments into such account. If required under applicable laws or regulations or if specifically provided in the offering, in addition to or instead of making contributions by payroll deductions, a participant may make contributions through a payment by cash, check, or wire transfer prior to a purchase date, in a manner we direct.

Purchase of Shares. The plan administrator will establish one or more purchase dates during an offering on which purchase rights granted for that offering will be exercised and shares will be purchased in accordance with such offering. In connection with each offering, the plan administrator may specify a maximum number of shares of that may be purchased by any participant or all participants. If the aggregate purchase of shares issuable on exercise of purchase rights granted under the offering would exceed any such maximum aggregate number, then, in the absence of any plan administrator action otherwise, a pro rata (based on each participant's accumulated contributions) allocation of the shares available will be made in as uniformly and equitably as possible.

Administration. The 2024 ESPP is administered by our board of directors or a committee thereof if, and to the extent that, our board of directors has delegated such authority to a committee. Our board of directors intends to delegate its authority to administer the 2024 ESPP to our Compensation Committee.

Certain Transactions. In the event of a change in control of our company, any then-outstanding purchase rights may be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company). If the surviving or acquiring entity (or its parent company) elects not to assume, continue or substitute for the outstanding purchase rights, then the participants' accumulated payroll contributions will be used to purchase ordinary shares prior to the change in control (with such purchase date to be determined by the plan administrator) under such purchase rights, and the purchase rights will terminate immediately after such purchase. The plan administrator will notify each participant in writing, prior to the new purchase date that the purchase date for the participant's purchase rights has been changed to the new purchase date and that such purchase rights will be automatically exercised on the new purchase date, unless prior to such date the participant has withdrawn from the offering.

No Transfers of Purchase Rights. Purchase rights will be exercisable only by a participant during such participant's lifetime. Purchase rights are not transferable by a participant, except by will, by the laws of descent and distribution, or, if approved by us, by a beneficiary designation.

Amendment, Suspension and Termination. The plan administrator may amend, suspend or terminate the 2024 ESPP at any time; provided, however, that such amendment, suspension or termination does not materially impair any outstanding purchase rights without the participants' consent, or unless such treatment is required by applicable law or to effect the desired tax, listing or regulatory treatment.

Clawback

We have adopted a clawback policy that is compliant with the NYSE Listing Rules, as required by the Dodd-Frank Act. All incentive-based compensation, including payments under our profit-sharing policy, paid to our executive officers may be subject to reduction, cancelation or recoupment under our written clawback policy and any future clawback policy that we may adopt and any applicable law related to clawback, cancellation, recoupment, recission, payback reduction or other similar actions.

PRINCIPAL AND SELLING SHAREHOLDERS

The following table sets forth information with respect to the beneficial ownership of our ordinary shares and our special shares as of June 30, 2024 by:

- each person or group of affiliated persons known by us to own beneficially 5% or more of our issued outstanding ordinary shares or our issued and outstanding special shares;
- each of our directors and executive officers individually;
- all of our executive officers and directors as a group; and
- the selling shareholders.

The beneficial ownership of our ordinary shares and our special shares is determined in accordance with the rules of the SEC and generally includes any shares over which a person exercises sole or shared voting or investment power, or the right to receive the economic benefit of ownership. Under such rules, beneficial ownership includes any shares over which a person has sole or shared voting power or investment power, or the right to receive economic benefit of ownership, as well as any shares subject to options, warrants or other rights that are currently exercisable or exercisable within 60 days of June 30, 2024. For purposes of the table below, we deem shares subject to options, RSUs, warrants or other rights that are currently exercisable or exercisable within 60 days of June 30, 2024 to be outstanding and to be beneficially owned by the person holding the options, RSUs or warrants for the purposes of computing the ownership and percentage ownership of that person but we do not treat them as outstanding for the purpose of computing the percentage ownership of any other person. Except where otherwise indicated, we believe, based on information furnished to us by such owners, that the beneficial owners of the shares listed below have sole investment and voting power with respect to such shares.

The percentage of shares beneficially owned is computed on the basis of 303,832,404 ordinary shares and 127,771,124 special shares outstanding as of June 30, 2024. The number and percentage of shares beneficially owned after this offering assumes no exercise of the underwriters' option to purchase up to 4,500,000 additional ordinary shares from the selling shareholders.

As of June 30, 2024, we had six holders of record of our ordinary shares in the United States, holding in the aggregate 140,438,348, or 46.2%, of our outstanding ordinary shares. However, our U.S. holders of record include CEDE & CO., a nominee of The Depository Trust Company, which held 76,796,217 of our ordinary shares as of June 30, 2024. Accordingly, we believe that the shares held by CEDE & CO. include ordinary shares beneficially owned by U.S. holders and non-U.S. holders. There are no U.S. holders of record of our special shares.

Unless otherwise noted below, the address of each shareholder, director and executive officer is c/o Viking Holdings Ltd, 94 Pitts Bay Road, Pembroke, Bermuda HM 08.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

The following is a description of related-party transactions we have entered into since January 1, 2021 with any of the members of the board of directors, executive officers or holders of more than 5% of any class of our voting securities at the time of such transaction.

Management Services Agreement

We provide certain finance, accounting and management services to our principal shareholder and its affiliates. In exchange for these services, we charge our principal shareholder for the portion of our salary expense attributable to providing these services. From time to time, we also incur expenses on behalf of our principal shareholder and its affiliates for which we are reimbursed. As of June 30, 2024 and December 31, 2023 and 2022, current receivables due from our principal shareholder and its affiliates were $1.3 million, $0.7 million and $1.6 million, respectively, related to management services fees and expense reimbursements.

Series C Preference Shares

On February 8, 2021, we issued 184,267,200 Series C Preference Shares to our financial shareholders with an equal number of shares issued to each financial shareholder. Our Series C Preference Shares were issued for cash consideration of $700.0 million and in exchange for our repurchase and cancellation of all outstanding Series A Preference Shares and Series B Preference Shares. This transaction resulted in $500.0 million of net proceeds to us, after using $200.0 million of the proceeds to repurchase shares from our principal shareholder.

For the year ended December 31, 2021, we paid $128.8 million in dividends, of which $77.6 million related to dividends to the holders of our Series C Preference Shares and $51.2 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

For the year ended December 31, 2022, we paid $131.5 million in dividends, of which $85.0 million related to dividends to the holders of our Series C Preference Shares and $46.5 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

For the year ended December 31, 2023, we paid $134.3 million in dividends, of which $85.0 million related to dividends to the holders of our Series C Preference Shares and $49.3 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

On April 9, 2024, we paid $46.8 million in dividends, of which $28.6 million related to dividends to the holders of our Series C Preference Shares and $18.2 million related to dividends to the holders of our ordinary shares, special shares and preference shares.

Warrants to our Principal Shareholder

On February 8, 2021, in connection with the issuance of Series C Preference Shares to our financial shareholders, we issued two warrants to our principal shareholder to purchase up to an aggregate of 8,733,400 ordinary shares at an exercise purchase price of $0.01 per ordinary share. The number of warrants that vest is based on either the proceeds to our financial shareholders or the trading price of our ordinary shares starting 180 days after our IPO. The number of warrants that vest depends on the value per ordinary share, with 0% vesting at $15.38 or lower price per ordinary share and 100% vesting at $23.08 or higher price per ordinary share, and linear vesting between $15.38 and $23.08 per ordinary share. The vesting period for each warrant expires upon the later of February 8, 2026, or the sale, distribution or other transfer of 100% of the respective financial shareholder’s shares held in us.

Investor Rights Agreement—Rights of Appointment, Consent Rights, Registration Rights and Restrictions on Transfers

We have entered into an investor rights agreement with our principal shareholder and our financial shareholders (the "Investor Rights Agreement") pursuant to which our principal shareholder has the right to designate four nominees to our board of directors and each of our financial shareholders has the right to designate two nominees to our board of directors, subject to the maintenance of specified ownership requirements. Other than the Investor Rights Agreement, we are not a party to, and are not aware of, any voting agreements currently in effect among our shareholders.

Under the Investor Rights Agreement, the following actions require the prior consent of our principal shareholder and each of our financial shareholders, subject to the maintenance of specified ownership requirements: (1) issuing (a) equity securities that are senior to our ordinary shares or (b) an aggregate amount of equity securities, in any twelve (12) month period, that exceeds 5% of our then issued and outstanding total number of shares, subject to certain exceptions; and (2) making any acquisition or disposition of assets or securities with a value in excess of $1 billion, whether structured as an asset or equity purchase, merger, amalgamation, investment, joint venture, share exchange, reorganization, recapitalization or otherwise.

We have also granted our principal shareholder and our financial shareholders registration rights as described below. The Investor Rights Agreement provides that we will pay certain expenses relating to such registrations and indemnify our principal shareholder and our financial shareholders against certain liabilities that may arise under the Securities Act.

Subject to certain exceptions, the Investor Rights Agreement prohibits our financial shareholders from transferring, directly or indirectly, any ordinary shares to certain competitors without prior approval of our board of directors. In addition, under the Investor Rights Agreement, our financial shareholders are required to notify us following any transfer of their ordinary shares.

The Investor Right Agreement will terminate when (a) in the case of each financial shareholder, such financial shareholder no longer owns any of the ordinary shares issued upon the Series C Preference Shares Conversion and (b) in the case of our principal shareholder, when our principal shareholder ceases to own any ordinary shares.

Depending on the size of this offering, our financial shareholders may not maintain the requisite ownership thresholds to retain their rights under the Investor Rights Agreement upon consummation of this offering.

Shelf Registration Demand Rights

Pursuant to the Investor Rights Agreement, holders of our registrable securities may request that we file a registration statement covering a number of registerable securities that would result in gross proceeds that would, based on an anticipated aggregate offering price, after payment of the underwriting discount and commissions, exceed, in the event of a block trade, $50 million, or in the event of a public offering other than a block trade, $75 million. We will not be required to effect more than three registrations on Form F-1 or Form S-1 within a 365-day period. We have the right to defer such registration under certain circumstances.

Piggyback Registration Rights

In the event that we propose to register any of our securities under the Securities Act, either for our own account or for the account of other security holders, in connection with such offering, certain holders of our registrable securities will be entitled to certain piggyback registration rights allowing the holder to include its registrable securities in such registration, subject to certain marketing and other limitations. As a result, whenever we propose to file a registration statement under the Securities Act, the holders of these shares are entitled to notice of the registration and have the right, subject to certain limitations, to include their shares in the registration.

Agreements with Directors and Officers

Employment Agreements. We have entered into written employment agreements with certain of our executive officers. Certain of these agreements provide for notice periods of varying duration for termination of the agreement by us or by the relevant executive officer, during which time the executive officer may continue to receive salary and benefits. Certain of these agreements also contain customary provisions regarding non-competition, non-solicitation and confidentiality of information. However, the enforceability of the non-competition provisions may be subject to limitations under applicable law.

Awards. We have granted options and RSUs to certain employees and members of our board of directors. We describe our equity incentive plans under "Management—Equity Incentive Plans." Since January 1, 2021, we have not granted any options to our directors, officers, employees, consultants or other service providers. No options have been exercised since January 1, 2021.

Exculpation, Indemnification and Insurance. Our bye-laws permit us to exculpate, indemnify and insure our directors and officers to the fullest extent permitted by the Companies Act. We have entered into agreements with certain directors and officers, exculpating them from a breach of their duty of care to us to the fullest extent permitted by law and undertaking to indemnify them to the fullest extent permitted by law, subject to certain exceptions, including with respect to liabilities resulting from this offering to the extent that these liabilities are not covered by insurance.

Related Party Transaction Policy

Our board of directors has adopted a written related party transaction policy to set forth the policies and procedures for the review and approval or ratification of related person transactions. This policy covers any transaction, arrangement or relationship in which we are a participant, the amount involved exceeds $120,000 and one of our executive officers, directors, or beneficial owners of more than 5% of our ordinary shares (or their immediate family members), each of whom we refer to as a "related person," has a direct or indirect material interest.

DESCRIPTION OF SHARE CAPITAL

The following is a description of the material terms of our bye-laws and our memorandum of association. The following description may not contain all of the information that is important to you and we therefore refer you to our memorandum of association and our bye-laws, which are filed with the SEC as exhibits to the registration statement of which this prospectus is a part.

General

We are a Bermuda exempted company with limited liability. Our affairs are governed by our memorandum of association, our bye-laws and Bermuda law. The objects of our business are unrestricted, and the company has the capacity of a natural person.

Shares

General

As of June 30, 2024, our authorized share capital consists of 1,329,120,000 ordinary shares, par value $0.01 per share, and 156,000,000 special shares, par value $0.01 per share. As June 30, 2024, we had 309,003,628 ordinary shares issued, 303,832,404 ordinary shares outstanding, and 127,771,124 special shares issued and outstanding. Holders of our ordinary shares and special shares have identical rights other than with respect to voting, conversion and transfer rights. Holders of our ordinary shares and special shares have no preemptive, subscription, redemption or sinking fund rights.

All issued and outstanding shares are validly issued, fully paid and non-assessable. A register of holders of our ordinary shares and our special shares are maintained by Conyers Corporate Services (Bermuda) Limited in Bermuda, and a branch register is maintained in the United States by Equiniti Trust Company, LLC, who serves as branch registrar and transfer agent.

Our board of directors may issue any of our authorized but unissued shares without further shareholder action, unless shareholder action is required by our bye-laws, Bermuda law or the NYSE rules. There are no limitations on the right of non-Bermudians or non-residents of Bermuda to hold or vote our shares. Only our ordinary shares are listed for trading on the NYSE.

Voting Rights

Each ordinary share is entitled to one vote, and each special share is entitled to 10 votes, on all matters upon which the shares are entitled to vote. The holders of our ordinary shares and special shares will generally vote together as a single class on all matters submitted to a vote of our shareholders (including the election of directors) unless otherwise required by Bermuda law or our bye-laws.

Conversion

Each special share will be convertible into one ordinary share at any time at the option of the holder. In addition, each special share will convert automatically into one ordinary share upon any transfer, whether or not for value, except for transfers to permitted transferees as described in our bye-laws, including transfers to family members, certain trusts for estate planning purposes and entities under common control with such transferee.

All of the issued and outstanding special shares will convert automatically into ordinary shares upon the first date on which the aggregate number of issued and outstanding special shares ceases to represent at least 10% of the aggregate number of then issued and outstanding ordinary shares and special shares. Once converted into ordinary shares, special shares will be cancelled and will not be reissued.

Transfer of Shares

Our shares may be freely transferred under our bye-laws, unless the transfer is restricted or prohibited by another instrument or applicable law.

Each special share will convert automatically into one ordinary share upon sale or transfer (other than transfers to certain permitted transferees).

Dividends

The holders of our ordinary shares and our special shares will be entitled to such dividends as may be declared by our board of directors, subject to the Companies Act and our bye-laws. Dividends and other distributions on issued and outstanding shares may be paid out of our funds lawfully available for such purpose, subject to any preferential dividend rights of any outstanding preference shares. Any dividends we declare will be distributed such that a holder of one ordinary share will receive the same amount of dividends that are received by a holder of one special share. We will not declare any dividend with respect to our ordinary shares without declaring a dividend on our special shares, and vice versa.

Under Bermuda law, we may not declare or pay any dividends if there are reasonable grounds for believing that (1) we are, or after the payment of such dividends would be, unable to pay our liabilities as they become due or (2) the realizable value of our assets would thereby be less than our liabilities. There are no restrictions on our ability to transfer funds (other than funds denominated in Bermuda dollars) in and out of Bermuda or to pay dividends to U.S. residents who are holders of our ordinary shares and special shares.

Liquidation

In the event of our liquidation, dissolution or winding up, the holders of our ordinary shares and special shares are entitled to share equally and ratably in our assets, if any, remaining after the payment of all of our debts and liabilities, subject to any preferential dividend rights of any outstanding preference shares.

Variation of Rights

As a matter of Bermuda law, the holders of one class of shares may not vary the voting rights of such class of shares relative to another class of shares, without the approval of the holders of each other class of our shares then in issue. As such, if at any time we have more than one class of shares, the rights attaching to any class, unless otherwise provided for by the terms of issue of the relevant class, may whether or not we are being wound-up, be varied with (1) the consent in writing of the holders of three-fourths of the issued shares of that class or (2) with the sanction of a resolution passed by a majority of the votes cast at a separate general meeting of the holders of the shares of the class at which meeting the necessary quorum of at least two persons holding or representing by proxy at least one-third of the total voting rights of all issued and outstanding shares of that class is present. The rights conferred upon the holders of the shares of any class issued with preferred or other rights may not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* therewith.

Election and Removal of Directors

Our bye-laws provide that our board of directors will consist of eight directors and thereafter not more than the number of directors fixed by our board of directors from time to time. Our board of directors currently consists of eight directors. Pursuant to the Investor Rights Agreement, any increase or decrease in the number of directors requires the consent of our principal shareholder and each of our financial shareholders, subject to the maintenance of specified ownership requirements.

Except in the case of a casual vacancy, directors are elected or appointed to our board of directors at our annual general meeting or at any special general meeting called for that purpose. At any general meeting, the shareholders may authorize our board of directors to fill any casual vacancy left unfilled at a general meeting. Pursuant to the Investor Rights Agreement, our principal shareholder has the right to appoint four of our directors and each of our financial shareholders has the right to appoint two of our directors, subject to the maintenance of specified ownership requirements. Mr. Hagen, Mr. Fear, Mr. Garman and Mr. Myrholt were appointed by our principal shareholder. Mr. Hackwell and Mr. Weingart were appointed by TPG. Ms. Mayor and Mr. Naccarato were appointed by CPP Investments. Our principal shareholder has the right to appoint the Chairman of our board of directors, subject to the maintenance of specified ownership requirements.

Our bye-laws provide that the shareholders entitled to vote for the election of directors may, at any special general meeting convened and held in accordance with our bye-laws, remove a director provided that the notice of any such meeting convened for the purpose of removing a director must contain a statement of the intention so to do and be served on such director not less than 14 days before the meeting and at such meeting the director is entitled to be heard on the motion for such director's removal.

Proceedings of Board of Directors

Our bye-laws provide that our business is to be managed and conducted by our board of directors. The quorum necessary for the transaction of business at a meeting of our board of directors is one half of the total number of directors. Our board of directors may meet for the transaction of business, adjourn and otherwise regulate its meetings as it sees fit. A resolution put to the vote at a meeting of our board of directors will be carried by the affirmative votes of a majority of the votes cast. In the event of an equality of votes for any resolution or matter put to a vote at a meeting of our board of directors, the chairperson will have a second or casting vote. Bermuda law permits individual and corporate directors and there is no requirement in our bye-laws or Bermuda law that directors hold any of our shares.

Our bye-laws provide that the remuneration of our directors is determined by our board of directors, and there is no requirement that a specified number or percentage of "independent" directors must approve any such determination. Our directors may also be paid all travel, hotel and other expenses properly incurred by them in connection with our business or their duties as directors.

Provided a director discloses a direct or indirect interest in any contract or arrangement with us as required by Bermuda law, such director is entitled to vote in respect of any such contract or arrangement in which he or she is interested and be counted in the quorum of the relevant meeting.

Indemnity of Directors and Officers

Our bye-laws provide that our directors, alternate directors, resident representative, chairperson, chief executive officer, secretary and other officers, and the liquidator or trustees (if any) acting in relation to any of our affairs, and their heirs, executors and administrators, will be indemnified and secured harmless out of our assets from and against any and all judgments, fines, penalties, excise taxes, amounts paid in settlement, and all direct and indirect costs and expenses (including, without limitation, attorneys' fees and disbursements, experts' fees, court costs, retainers, appeal bond premiums, arbitration costs, arbitrators' fees, transcript fees and duplicating, printing and binding costs, as well as telecommunications, postage and courier charges) ("losses") actually and reasonably incurred by or on behalf of such indemnified party in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, to which such indemnified party is or is threatened to be made a party, arising out of, relating to, or resulting from the fact that the indemnified party is or was our director, officer, employee, agent or fiduciary, or is or was a director, officer, employee, agent or fiduciary serving at our request as a director, officer, employee, manager, member, partner, tax matters partner or partnership representative, trustee, agent or fiduciary, or similar capacity, of any of our subsidiaries or another corporation, limited liability company, partnership, joint venture, employee benefit plan, trust or other entity or enterprise, or by reason of any act or omission by the indemnified party in any such

capacity; provided that this indemnity will not extend to any indemnified party for any losses to the extent such losses (a) arise directly out of the fraud or dishonesty of such indemnified party or (b) are incurred in connection with any action, suit or proceeding initiated by such indemnified party, except to the extent that the indemnified party's initiation of such action, suit or proceeding has been authorized by our board of directors or is brought to enforce such indemnified party's rights to indemnification or advancement of expenses hereunder.

Subject to Section 14 of the Securities Act and Section 29(a) of the Exchange Act, which render void any purported waiver of the provisions of the Securities Act and the Exchange Act, respectively, our bye-laws provide that our shareholders waive all claims or rights of action that they might have, individually or in our right, against any of our directors or officers for any act or failure to act in the performance of such director's or officer's duties, except in respect of any fraud or dishonesty. Such waiver would not be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act, the waiver of which would be prohibited by Section 14 of the Securities Act and Section 29(a) of the Exchange Act, respectively; and we do not intend this waiver be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act.

Section 98A of the Companies Act permits us to purchase and maintain insurance for the benefit of any officer or director in respect of any loss or liability attaching to him in respect of any negligence, default, breach of duty or breach of trust, whether or not we may otherwise indemnify such officer or director. We have purchased and maintain a directors' and officers' liability policy for such purpose.

Exclusive Forum

Our bye-laws expressly state that unless we consent in writing, the courts of Bermuda will be the sole and exclusive forum for (a) any action brought by or on behalf of us in relation to matters governed by the Companies Act or our bye-laws, (b) any action asserting a claim of breach of any duty owed by any of our directors or officers to us or any of our shareholders and (c) any action asserting a claim against us or any director or officer arising under the laws of Bermuda or our bye-laws. In addition, our bye-laws expressly state that unless we consent in writing, the sole and exclusive forum for any action asserting claims under the Securities Act or the Exchange Act, to the extent permitted by applicable law, shall be the United States federal district courts.

Meetings of Shareholders

Under Bermuda law, a company is required to convene an annual general meeting each calendar year. However, the shareholders may by resolution waive this requirement, either for a specific year or period of time, or indefinitely. When the requirement has been so waived, any shareholder may, on notice to the company, terminate the waiver, in which case an annual general meeting must be called.

Bermuda law provides that a special general meeting of shareholders may be called by the board of directors of a company and must be called upon the request of shareholders holding not less than 10% of the paid-up capital of the company carrying the right to vote at general meetings. Bermuda law also requires that shareholders be given at least five business days' advance notice of a general meeting, but the accidental omission to give notice to any person does not invalidate the proceedings at a meeting.

Under our bye-laws, at least ten days' notice of an annual general meeting or a special general meeting must be given to each shareholder entitled to attend and vote at such meeting. This notice requirement is subject to the ability to hold such meetings on shorter notice if such notice is agreed: (1) in the case of an annual general meeting by all of the shareholders entitled to attend and vote at such meeting; or (2) in the case of a special general meeting by a majority in number of the shareholders entitled to attend and vote at the meeting holding not less than 95% in par value of the shares entitled to vote at such meeting.

At any general meeting, the quorum required for the transaction of business is two or more shareholders present in person or by proxy who hold or represent between them a majority of the total voting rights of all issued and outstanding shares.

To be passed at a general meeting, a resolution requires the affirmative vote of at least a majority of the votes cast at such meeting, except that a resolution to approve an amalgamation or merger which the Companies Act requires to be approved by the shareholders requires the affirmative vote of not less than 75% of the votes entitled to be cast at the relevant general meeting and the quorum necessary for such meeting is two persons at least holding or representing by proxy more than one-third of our issued shares.

Subject to the Companies Act, at any general meeting a resolution put to the vote of the meeting will be voted upon in such manner as the chairperson of the meeting decides. The chairperson of the meeting will direct the manner in which the shareholders participating in such meeting may cast their votes. A poll may be demanded by (1) the chairperson of the meeting; (2) at least three shareholders present or voting by proxy; or (3) one or more shareholders present in person or by proxy hold or represent not less than one-tenth of the total voting rights of all issued and outstanding shares or not less than one-tenth of the aggregate sum paid up on all issued and outstanding special and ordinary shares and any other shares having the right to attend and vote.

Certain Provisions of Bermuda Law

We have been designated by the Bermuda Monetary Authority as a non-resident for Bermuda exchange control purposes. This designation allows us to engage in transactions in currencies other than the Bermuda dollar, and there are no restrictions on our ability to transfer funds (other than funds denominated in Bermuda dollars) in and out of Bermuda or to pay dividends to United States residents who are holders of our ordinary or special shares.

Consent under the Exchange Control Act 1972 (and its related regulations) has been received from the Bermuda Monetary Authority for the issue and transfer of our ordinary shares to and between non-residents of Bermuda for exchange control purposes provided our ordinary shares remain listed on an appointed stock exchange, which includes the NYSE. Approvals or permissions given by the Bermuda Monetary Authority do not constitute a guarantee by the Bermuda Monetary Authority as to our performance or our creditworthiness. Accordingly, in giving such consent or permissions, the Bermuda Monetary Authority will not be liable for the financial soundness, performance or default of our business or for the correctness of any opinions or statements expressed in this prospectus. Certain issues and transfers of our ordinary or special shares involving persons deemed resident in Bermuda for exchange control purposes require the specific consent of the Bermuda Monetary Authority.

Comparison of Bermuda Corporate Law and Delaware Corporate Law

You should be aware that the Companies Act, which applies to us, differs in certain material respects from the General Corporation Law of the State of Delaware ("DGCL") which is applicable to Delaware corporations. In order to highlight these differences, set forth below is a summary of certain significant provisions of the Companies Act (including modifications adopted pursuant to our bye-laws) and Bermuda common law applicable to us that differ in certain material respects from provisions of the DGCL and Delaware common law applicable to Delaware corporations. Because the following statements are summaries, they do not address all aspects of Bermuda law that may be relevant to us and you or all aspects of Delaware law that may differ from Bermuda law.

Duties of Directors

Our bye-laws provide that our business is to be managed and conducted by our board of directors. Under Bermuda common law, members of the board of directors of a Bermuda company owe a fiduciary duty to the company to act in good faith in their dealings with or on behalf of the company and exercise their powers and fulfill the duties of their office honestly. This duty includes the following essential elements:

- a duty to act in good faith in the best interests of the company;
- a duty not to make a personal profit from opportunities that arise from the office of director;
- a duty to avoid conflicts of interest; and
- a duty to exercise powers for the purpose for which such powers were intended.

In addition to the duties above, the Companies Act imposes a duty on directors and officers of a Bermuda company to act honestly and in good faith with a view to the best interests of the company, and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In addition, the Companies Act imposes various duties on directors and officers of a company with respect to certain matters of management and administration of the company. Directors and officers generally owe fiduciary duties to the company and not to the company's individual shareholders. Accordingly, our shareholders may not have a direct cause of action against our directors, except in respect of any fraud or dishonesty of such director.

Under Delaware law, the business and affairs of a corporation are managed by or under the direction of its board of directors. In carrying out their managerial role, directors are charged with the fiduciary duties of care and loyalty to the corporation and its stockholders. The duty of care requires that directors act in an informed and deliberative manner and inform themselves, prior to making a business decision, of all material information reasonably available to them. The duty of care also requires that directors exercise a duty of oversight, which requires directors to attempt in good faith to assure that the corporation implements adequate reporting and information systems and controls. The duty of loyalty requires that directors act in good faith and in the best interests of the corporation and its stockholders, without self-interest and without being influenced by any conflicting interests.

Delaware law provides that, in most instances, a party challenging the propriety of a decision of a board of directors bears the burden of rebutting the presumption, afforded to directors by the "business judgment rule," that, in making a business decision, directors acted on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation and its stockholders. Unless the presumption is rebutted, a board of directors' decision will be upheld unless the directors were grossly negligent in connection with reaching such decision or if the matter approved by the board of directors constitute a waste of corporate assets. If the presumption is not rebutted, the business judgment rule attaches in most instances to protect the directors and their decisions, and their business judgments will not be second guessed. Where, however, the presumption is rebutted, the directors bear the burden of demonstrating the entire fairness of the relevant transaction. Notwithstanding the foregoing, Delaware courts subject directors' conduct to enhanced scrutiny in certain situations, including in connection with self-interested or related party transactions, when the board of directors takes certain defensive actions and in connection with a sale of control of the corporation.

Interested Directors

Bermuda law and our bye-laws provide that if a director has a direct or indirect interest in a material contract or proposed material contract with us or any of our subsidiaries or has a material interest in any person that is a party to such a contract, the director must disclose the nature of that interest at the first opportunity either at a meeting of directors or in writing to the directors. Our bye-laws provide that, after a director has made such a declaration of interest, he is allowed to be counted for purposes of determining whether a quorum is present and to vote on a transaction in which he has an interest, unless disqualified from doing so by the chairperson of the relevant board of directors meeting.

Under Delaware law, a transaction in which a director has a direct or indirect financial or other interest is not void or voidable if (1) the material facts as to such interested director's relationship or interest in such transaction are disclosed or are known to the board of directors (or the board committee acting upon such transaction) and the board of directors (or such committee) in good faith authorizes the transaction by the affirmative vote of a majority of disinterested directors serving on the board of directors (or such board committee, if applicable), (2) such material facts are disclosed or are known to the stockholders entitled to vote on such transaction and the transaction is specifically approved in good faith by vote of the stockholders or (3) the transaction is fair as to the corporation as of the time it is authorized, approved or ratified by the board of directors, a board committee or stockholders, as applicable.

Voting Rights and Quorum Requirements

Under Bermuda law, the voting rights of our shareholders are regulated by our bye-laws and, in certain circumstances, the Companies Act. Under our bye-laws, two or more shareholders present in person or by proxy who hold or represent between them a majority of the total voting rights of all issued and outstanding shares is a quorum for the transaction of business. To be passed at a general meeting, a resolution requires the affirmative vote of at least a majority of the votes cast at such meeting, except that a resolution to approve an amalgamation or merger which the Companies Act requires to be approved by the shareholders requires the affirmative vote of not less than 75% of the votes entitled to be cast at the relevant general meeting and the quorum necessary for such meeting is two persons at least holding or representing by proxy more than one-third of our issued shares.

Any individual who is our shareholder and who is present at a meeting and entitled to vote at such meeting may vote in person, as may any corporate shareholder that is represented by a duly authorized representative at a meeting of shareholders. Our bye-laws also permit attendance at general meetings by proxy, provided the instrument appointing the proxy is in the form specified in the bye-laws or such other form as our board of directors may determine. Under our bye-laws, each holder of ordinary shares is entitled to one vote per ordinary share held and each holder of special shares is entitled to 10 votes per special share held.

Under the DGCL, unless otherwise provided in a corporation's certificate of incorporation, each stockholder is entitled to one vote for each share of stock held by the stockholder. The DGCL provides that, unless otherwise provided in a corporation's certificate of incorporation or bylaws, a majority of the shares entitled to vote, present in person or represented by proxy, constitutes a quorum at a meeting of stockholders (but in no event may the certificate of incorporate provide for a quorum of less than one-third of the shares entitled to vote at such meeting). In matters other than the election of directors, subject to certain exceptions (including mergers and amendments to the certificate of incorporation), the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote at a stockholders' meeting at which a quorum is present is required for stockholder approval of any action, unless a higher percentage is required by the corporation's certificate of incorporation. Stockholders may also approve any matter that may be taken by them at an annual or special meeting by written consent in lieu of a meeting, unless the certificate of incorporation denies stockholders the right to act by consent. Approval of any matter by consent of stockholders requires delivery of written or electronic consents executed by holders of shares of outstanding stock having not less than the minimum votes as would be required to approve such matter at a meeting at which all shares are present and voted. In addition, the affirmative vote of a plurality of shares entitled to vote at a meeting in which quorum is present is required for the election of directors, and the affirmative vote of a majority of all outstanding shares entitled to vote is required to approve certain matters (such as mergers and amendments to the certificate of incorporation).

Dividend Rights

Under Bermuda law, a company may not declare or pay dividends if there are reasonable grounds for believing that: (1) the company is, or after the payment of such dividends would be, unable to pay its liabilities as they become due, or (2) the realizable value of its assets would thereby be less than its liabilities. Under our bye-laws, each ordinary share and special share is entitled to dividends if, as and when dividends are declared by our board of directors, subject to any preferred dividend rights of any preference shares. See "—Shares—Dividends" above.

Under the DGCL, subject to any restrictions contained in the corporation's certificate of incorporation, a corporation may pay dividends out of surplus or, if there is no surplus, out of net profits for the fiscal year in which the dividend is declared or for the preceding fiscal year. The DGCL also provides that dividends may not be paid out of net profits if, after the payment of such dividend, the total capital of the corporation is less than the aggregate capital represented by the outstanding shares of all classes of stock having a preference upon the distribution of assets.

Shareholder Approval of Amalgamations and Mergers

The amalgamation or merger of a Bermuda company with another company or corporation requires the amalgamation or merger agreement to be approved by the company's board of directors and by its shareholders. Our bye-laws provide that any amalgamation or merger which the Companies Act requires to be approved by the shareholders must be approved by the affirmative vote of not less than 75% of the votes entitled to be cast at the relevant general meeting and the quorum necessary for such meeting is two persons at least holding or representing by proxy more than one-third of our issued shares.

Under Bermuda law, in the event of an amalgamation or merger of a Bermuda company with another company or corporation, a shareholder of the Bermuda company who did not vote in favor of the amalgamation or merger and is not satisfied that fair value has been offered for such shareholder's shares may, within one month of notice of the shareholders meeting, apply to the Supreme Court of Bermuda to appraise the fair value of those shares.

Under the DGCL, with certain exceptions, a merger, consolidation or sale of all or substantially all the assets of a corporation must be approved by the board of directors and a majority of the issued and outstanding shares entitled to vote thereon. Under the DGCL, a dissenting stockholder of a corporation may, under certain circumstances and subject to certain conditions, be entitled to appraisal rights in connection with a merger or certain other extraordinary transactions, pursuant to which such stockholder will have the right to receive an amount in cash equal to the fair value of the shares held by such stockholder (as determined by a court) in lieu of the consideration such stockholder would otherwise receive in the merger or other transaction.

Compulsory Acquisition of Shares Held by Minority Holders

An acquiring party is generally able to acquire compulsorily the shares of minority holders of a Bermuda company in the following ways:

- By a procedure under the Companies Act known as a "scheme of arrangement." A scheme of arrangement could be effected by obtaining the agreement of the company and of holders of shares, representing in the aggregate a majority in number and at least 75% of the shareholders present and voting at a court ordered meeting held to consider the scheme of arrangement. The scheme of arrangement must then be sanctioned by the Bermuda Supreme Court. If a scheme of arrangement receives all necessary agreements and sanctions, upon the filing of the court order with the Registrar of Companies in Bermuda, all holders of shares could be compelled to sell their shares under the terms of the scheme of arrangement.
- If the acquiring party is a company it may compulsorily acquire all the shares of the target company, by acquiring pursuant to a tender offer 90% of the shares or of a class of shares not already owned by, or by a nominee for, the acquiring party (the offeror), or any of its subsidiaries. If an offeror has, within four months after the making of an offer for all the shares or class of shares not owned by, or by a nominee for, the offeror, or any of its subsidiaries, obtained the approval of the holders of 90% or more of all the shares to which the offer relates, the offeror may, at any time within two months beginning with the date on which the approval was obtained, require by notice any nontendering shareholder to transfer its shares on the same terms as the original offer. In those circumstances, nontendering shareholders will be compelled to sell their shares unless the Supreme Court of Bermuda (on application made within a one-month period from the date of the offeror's notice of its intention to acquire such shares) orders otherwise.

- Where the acquiring party or parties hold not less than 95% of the shares or of a class of shares of the company, such holder(s) may, pursuant to a notice given to the remaining shareholders or class of shareholders, acquire the shares of such remaining shareholders or class of shareholders. When this notice is given, the acquiring party is entitled and bound to acquire the shares of the remaining shareholders on the terms set out in the notice, unless a remaining shareholder, within one month of receiving such notice, applies to the Supreme Court of Bermuda for an appraisal of the value of their shares. This provision only applies where the acquiring party offers the same terms to all holders of shares whose shares are being acquired.

The DGCL provides that a parent corporation, by resolution of its board of directors and without any stockholder vote, may merge with or into any subsidiary if the parent corporation owns at least 90% of the outstanding shares of each class of the subsidiary's capital stock. In connection with such a merger, dissenting stockholders of the subsidiary are entitled to appraisal rights under certain circumstances and subject to certain conditions.

Shareholders' Suits

Class actions and derivative actions are generally not available to shareholders under Bermuda law. The Bermuda courts would, however, permit a shareholder to commence an action in the name of a company to remedy a wrong to the company where the act complained of is alleged to be beyond the corporate power of the company or illegal, or would result in the violation of the company's memorandum of association or bye-laws. Furthermore, consideration would be given by a Bermuda court to acts that are alleged to constitute a fraud against the minority shareholders or, for instance, where an act requires the approval of a greater percentage of the company's shareholders than that which actually approved it.

When the affairs of a company are being conducted in a manner that is oppressive or prejudicial to the interests of some part of the shareholders, one or more shareholders may apply to the Supreme Court of Bermuda, which may make such order as it sees fit, including an order regulating the conduct of the company's affairs in the future or ordering the purchase of the shares of any shareholders by other shareholders or by the company.

Subject to Section 14 of the Securities Act and Section 29(a) of the Exchange Act, which render void any purported waiver of the provisions of the Securities Act and the Exchange Act, respectively, our bye-laws contain a provision by virtue of which our shareholders waive any claim or right of action that they have, both individually and on our behalf, against any director or officer in relation to any action or failure to take action by such director or officer, provided that pursuant to Section 98 of the Companies Act such waiver would not be effective to the extent the act or failure to act involves fraud or dishonesty. This waiver would not be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act, the waiver of which would be prohibited by Section 14 of the Securities Act and Section 29(a) of the Exchange Act, respectively; and we do not intend this waiver be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act.

Our bye-laws expressly state that unless we consent in writing, the courts of Bermuda will be the sole and exclusive forum for (a) any action brought by or on behalf of us in relation to matters governed by the Companies Act or our bye-laws, (b) any action asserting a claim of breach of any duty owed by any of our directors or officers to us or any of our shareholders and (c) any action asserting a claim against us or any director or officer arising under the laws of Bermuda or our bye-laws. In addition, our bye-laws expressly state that unless we consent in writing, the sole and exclusive forum for any action asserting claims under the Securities Act or the Exchange Act, to the extent permitted by applicable law, shall be the United States federal district courts.

In contrast, class actions and derivative actions generally are available to stockholders under Delaware law for, among other things, breach of fiduciary duty. In the event directors are found to have breached such duties, however, they are generally entitled to protection under the exculpation clauses or indemnification provisions described below.

Exculpation and Indemnification of Directors and Officers

Section 98 of the Companies Act provides generally that a Bermuda company may indemnify its directors, officers and auditors against any liability which by virtue of any rule of law would otherwise be imposed on them in respect of any negligence, default, breach of duty or breach of trust, except in cases where such liability arises from fraud or dishonesty of which such director, officer or auditor may be guilty in relation to the company or any of its subsidiaries.

Section 98 of the Companies Act further provides that a Bermuda company may indemnify its directors, officers and auditors against any liability incurred by them in defending any proceedings, whether civil or criminal, in which judgment is awarded in their favor or in which they are acquitted or granted relief by the Supreme Court of Bermuda pursuant to section 281 of the Companies Act, and may advance moneys to its directors, officers or auditors for the costs, charges and expenses incurred by the director, officer or auditor in defending any civil or criminal proceedings against them, on the condition that the director, officer or auditor repays the advance if any allegation of fraud or dishonesty is proved against them.

Subject to Section 14 of the Securities Act and Section 29(a) of the Exchange Act, which render void any purported waiver of the provisions of the Securities Act and the Exchange Act, respectively, our bye-laws provide that our shareholders waive all claims or rights of action that they might have, individually or in right of the company, against any of our directors or officers for any act or failure to act in the performance of such director's or officer's duties, except in respect of any fraud or dishonesty of such director or officer. Section 98A of the Companies Act permits us to purchase and maintain insurance for the benefit of any officer or director in respect of any loss or liability attaching to him in respect of any negligence, default, breach of duty or breach of trust, whether or not we may otherwise indemnify such officer or director provided that pursuant to Section 98 of the Companies Act such waiver would not be effective to the extent the act or failure to act involves fraud or dishonesty. We have purchased and maintain a directors' and officers' liability policy for such purpose. Such waiver would not be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act, the waiver of which would be prohibited by Section 14 of the Securities Act and Section 29(a) of the Exchange Act, respectively; and we do not intend this waiver be effective as a waiver of the right to sue for violations of the Securities Act or the Exchange Act.

Under the DGCL, a corporation may include in its certificate of incorporation a provision that eliminates or limits the liability of directors and certain senior officers to the corporation and its stockholders for monetary damages for certain breaches of fiduciary duty. Such liability, however, cannot be eliminated or limited for: (1) breaches of the duty of loyalty; (2) acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law; (3) solely with respect to directors, payment of unlawful dividends or expenditure of funds for unlawful stock purchases or redemptions; (4) solely with respect to senior officers, actions brought by or in the name of the corporation; or (5) transactions from which such person derived an improper personal benefit.

Under the DGCL, a corporation may indemnify directors and officers of the corporation against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with any civil, criminal, administrative or investigative action, suit or proceeding by reason of such position, or from serving at the request of the corporation as a director, officer or other position with another entity, if (1) such director or officer acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and (2) with respect to any criminal action or proceeding, such director or officer had no reasonable cause to believe his or her conduct was unlawful, except that, in any action

brought by or in the right of the corporation, such indemnification may be made only for expenses (but not for judgments or amounts paid in settlement) and may not be made at all (even for expenses) if the officer, director or other person is adjudged liable to the corporation (unless otherwise determined by the court). In addition, under Delaware law, to the extent that a director or officer of a corporation has been successful on the merits or otherwise in defense of any proceeding referred to above, he or she must be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by that party.

Access to Books and Records

Under Bermuda law, members of the general public have a right to inspect the public documents of a company available at the office of the Registrar of Companies in Bermuda. These documents include the company's memorandum of association, including its objects and powers, and certain alterations to the memorandum of association. The shareholders have the additional right to inspect the bye-laws of the company, minutes of general meetings and the company's audited financial statements, which must be presented to the annual general meeting. The register of members of a company is also open to inspection by shareholders and by members of the general public without charge. The register of members is required to be open for inspection for not less than two hours in any business day (subject to the ability of a company to close the register of shareholders for not more than thirty days in a year). A company is required to maintain its share register in Bermuda but may, subject to the provisions of the Companies Act, establish a branch register outside of Bermuda. A company is required to keep at its registered office a register of directors and officers that is open for inspection for not less than two hours in any business day by members of the public without charge. A company is also required to file with the Registrar of Companies in Bermuda a list of its directors to be maintained on a register, which register will be available for public inspection subject to such conditions as the Registrar of Companies of Bermuda may impose and on payment of such fee as may be prescribed. Bermuda law does not, however, provide a general right for shareholders to inspect or obtain copies of any other corporate records.

The DGCL permits any stockholder (including beneficial holders of shares), upon written demand, to inspect and obtain copies of a corporation's stockholder list and its other books and records for any proper purpose reasonably related to such person's interest as a stockholder.

Shareholders' Meetings; Business to be Conducted

Under Bermuda law, shareholders may, at their own expense (unless the company otherwise resolves), require the company to: (1) give notice to all shareholders entitled to receive notice of the annual general meeting of any resolution that the shareholders may properly move at the next annual general meeting; or (2) circulate to all shareholders entitled to receive notice of any general meeting a statement (of not more than one thousand words) in respect of any matter referred to in the proposed resolution or any business to be conducted at such general meeting. The number of shareholders necessary for such a requisition is either: (1) any number of shareholders representing not less than 5% of the total voting rights of all shareholders entitled to vote at the meeting to which the requisition relates; or (2) not less than 100 shareholders.

Under our bye-laws, a special general meeting may be called by our chairperson or by any two directors or any director and the secretary or the board of directors. Bermuda law also provides that a special general meeting must be called upon the request of shareholders holding not less than 10% of the paid-up capital of the company carrying the right to vote at general meetings.

The DGCL provides that an annual meeting of stockholders must be held for the election of directors and any other proper business may be transacted at the annual meeting. Shareholders may submit proposals for business to be conducted at the annual meeting, subject to compliance with any advance notice provisions included in the corporation's bylaws. A special meeting of stockholders may be called by the board of directors or any other person authorized to call a special meeting pursuant to a provision in the certificate of incorporation or bylaws. Unless so authorized to call a special meeting pursuant to a provision in the certificate of incorporation or bylaws, stockholders do not have the power to call special meetings.

Amendment of Memorandum of Association and Bye-laws

Under our bye-laws, no alteration or amendment to our memorandum of association may be made until approved by a resolution of our board of directors and by a resolution of our shareholders. Under Bermuda law and our bye-laws, no bye-law can be rescinded, altered or amended, and no new bye-law can be made, unless it has been approved by a resolution of our board of directors and by a resolution of our shareholders. Subject to certain exceptions, approval by our shareholders of an amendment of our memorandum of association or our bye-laws requires the affirmative vote of not less than 75% of the votes entitled to be cast at the relevant general meeting and the quorum necessary for such meeting is two persons at least holding or representing by proxy more than one-third of our issued shares.

Under Bermuda law, the holders of an aggregate of not less than 20% in par value of a company's issued share capital or any class thereof have the right to apply to the Supreme Court of Bermuda for an annulment of any amendment of the memorandum of association adopted by shareholders at any general meeting, other than an amendment that alters or reduces a company's share capital as provided in the Companies Act. Where such an application is made, the amendment becomes effective only to the extent that it is confirmed by the Bermuda court. An application for an annulment of an amendment of the memorandum of association must be made within 21 days after the date on which the resolution altering the company's memorandum of association is passed and may be made on behalf of persons entitled to make the application by one or more of their number as such holders may appoint in writing for such purpose. No application may be made by the shareholders voting in favor of the amendment.

Under the DGCL, amendments to a corporation's certificate of incorporation (which is comparable to the memorandum of association of a Bermuda company) must be adopted by a resolution of the board of directors setting forth the amendment, declaring its advisability and, subject to limited exceptions for amendments not requiring stockholder approval, and the board of directors then must call a special meeting of the stockholders entitled to vote on such amendment or direct that the proposed amendment be considered at the next annual meeting of stockholders, unless the stockholders adopt such amendment by written consent (unless the certificate of incorporation denies stockholders the power to act by consent). The DGCL generally requires that, unless a higher percentage is provided for in the certificate of incorporation, a majority of the outstanding shares of stock entitled to vote on such amendment, voting together as a single class, is required to approve most amendments to the certificate of incorporation. A lower voting standard applies to certain amendments to a corporation's certificate of incorporation (i.e., an amendment to effect certain reverse stock splits of a class of stock, and amendments to increase or decrease the number of authorized shares of a class of stock). In such circumstances, approval of the amendment requires that the number of votes cast in favor of such amendment exceed the number of votes cast against it, unless otherwise expressly required by the certificate of incorporation.

In addition, unless otherwise provided in the original certificate of incorporation (or an amendment thereto approved by holders of the applicable class of stock or before any shares of such class were issued), a separate class vote of holders of outstanding shares of any class of stock (or any series of a class of stock) also is required (in addition to the vote described above), whether or not such holders are entitled to vote thereon by the certificate of incorporation, if (1) with respect to a separate class vote, the proposed amendment would increase or the number of authorized shares or par value of such class of stock, or (2) with respect to a separate class vote (or series vote) alter the powers, preferences or special rights of such class of stock (or such series of a class of stock) so as to adversely affect them, that was authorized by the affirmative vote of the holders of a majority of such class or classes of stock.

Stockholders have the power to amend, adopt or repeal bylaws of a corporation under the DGCL, if approved by holders of a majority of shares entitled to vote thereon, present in person and voting at a meeting of stockholders at which a quorum is present, unless the certificate of incorporation requires a higher percentage. Stockholders may also act by written consent to amend, adopt or repeal bylaws, unless the certificate of incorporation denies stockholders the power to act by consent. In addition, the directors of a corporation have the power to adopt, amend and repeal the corporation's bylaws, but only if such right is expressly provided in the certificate of incorporation.

Transfer Agent and Registrar

The transfer agent and registrar for our ordinary shares is Equiniti Trust Company, LLC. Its address is 48 Wall Street, 23rd Floor, New York, NY 10005, and its telephone number is (718) 921-8183.

Listing

Our ordinary shares are listed on the NYSE under the symbol "VIK."

SHARES ELIGIBLE FOR FUTURE SALE

Sales of our ordinary shares or other equity securities in the public market after this offering, or sales of our special shares in private transactions, or the perception that these sales could occur, could cause the market price of our ordinary shares to decline significantly.

We have 303,832,404 ordinary shares and 127,771,124 special shares issued and outstanding prior to and immediately after this offering. Of our issued and outstanding ordinary shares, the 103,647,916 ordinary shares (or 108,147,916 ordinary shares if the underwriters exercise their option to purchase additional ordinary shares in full) sold in our IPO and this offering are freely tradable without restriction or further registration under the Securities Act, unless owned by our affiliates (as defined under Rule 144), including our principal shareholder and our directors and executive officers, who may sell only in compliance with the limitations described below. The remaining 200,184,488 ordinary shares (or 195,684,488 ordinary shares if the underwriters exercise their option to purchase additional ordinary shares in full) and all of our special shares are "restricted securities" within the meaning of Rule 144 and subject to certain restrictions on resale. Subject to certain contractual restrictions, including the lock-up agreements described below, restricted securities may be sold in the public market only if they are registered under the Securities Act or are sold pursuant to an exemption from registration such as Rule 144 and Rule 701.

In addition, as of June 30, 2024, up to 2,949,830 ordinary shares will be issuable after this offering upon the exercise of outstanding options, up to 8,733,400 ordinary shares will be issuable after this offering upon the exercise of warrants and up to 2,606,266 ordinary shares will be issuable after this offering upon the vesting and settlement of RSUs for which the time vesting condition was not satisfied as of June 30, 2024. As of June 30, 2024, we also had 19,007,878 ordinary shares reserved for future issuance under the 2018 Incentive Plan and 4,680,000 ordinary shares reserved for issuance under the 2024 ESPP. Sales of these shares in the public market after the restrictions under the lock-up agreements lapse, or the perception that those sales may occur, could cause the prevailing market price of our ordinary shares to decrease or to be lower than it might be in the absence of those sales or perceptions.

Lock-Up Agreements

In connection with our IPO, all of our directors and executive officers and holders of substantially all of our ordinary shares and our special shares, including the selling shareholders, entered into lock-up agreements with BofA Securities, Inc. and J.P. Morgan Securities LLC as representatives of the underwriters to our IPO. Pursuant to such lock-up agreements, such persons agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary shares or our special shares or securities convertible into or exchangeable or exercisable for our ordinary shares or for our special shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our ordinary shares or of our special shares, whether any of these transactions are to be settled by delivery of our ordinary shares or our special shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition or to enter into any transaction, swap, hedge or other arrangement, for a period of 180 days ending on October 27, 2024 without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC. In connection with this offering, BofA Securities, Inc. and J.P. Morgan Securities LLC have agreed to waive the lock-up restrictions applicable to the ordinary shares offered by the selling shareholders pursuant to this prospectus. The ordinary shares held by the selling shareholders and not sold in this offering will continue to be locked up under the lock-up agreements entered into in connection with the IPO until the expiration of the original 180-day lock-up period ending on October 27, 2024.

Further, all of our directors and executive officers and holders of 5% or more of our shares, including the selling shareholders, have entered into new lock-up agreements with the representatives of the underwriters in connection with this offering. Pursuant to such lock-up agreements, such persons have agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary

shares or our special shares or securities convertible into or exchangeable or exercisable for our ordinary shares or for our special shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our ordinary shares or of our special shares, whether any of these transactions are to be settled by delivery of our ordinary shares or our special shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition or to enter into any transaction, swap, hedge or other arrangement, for a period of 90 days after the date of this prospectus without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC.

Rule 144

In general, under Rule 144 under the Securities Act, a person (or persons whose shares are aggregated) who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has beneficially owned restricted securities within the meaning of Rule 144 for at least six months (including any period of consecutive ownership of preceding non-affiliated holders) would be entitled to sell those shares, subject only to the availability of current public information about us. A non-affiliated person who has beneficially owned restricted securities within the meaning of Rule 144 for at least one year would be entitled to sell those shares without regard to the provisions of Rule 144.

A person (or persons whose shares are aggregated) who is deemed to be an affiliate of ours and who has beneficially owned restricted securities within the meaning of Rule 144 for at least six months would be entitled to sell within any three-month period a number of shares that does not exceed the greater of one percent of our ordinary shares then outstanding or the average weekly trading volume of our ordinary shares on the NYSE during the four calendar weeks preceding such sale. Such sales are also subject to certain manner of sale provisions, notice requirements and the availability of current public information about us.

Rule 701

Persons other than our affiliates who purchased equity shares under a written compensatory plan or contract may be entitled to sell such shares, subject to the terms of any lock-up agreement, in reliance on Rule 701. Rule 701 permits affiliates to sell their Rule 701 shares under Rule 144 without complying with the holding period requirements of Rule 144. Rule 701 further provides that non-affiliates may sell these shares in reliance on Rule 144 subject only to its manner-of-sale requirements.

Registration Rights

Following the consummation of this offering, the shares covered by the registration rights in the Investor Rights Agreement would represent approximately 73.6% of our issued and outstanding ordinary shares and special shares (or 72.5% if the underwriters exercise their option to purchase additional ordinary shares in full). These shares also may be sold under Rule 144, depending on their holding period and subject to Rule 144 limitations applicable to affiliates and the lock-up restrictions described above and under “Underwriting.” For additional information, see “Certain Relationships and Related Party Transactions—Investor Rights Agreement.”

Registration of Ordinary Shares under our 2018 Incentive Plan and the 2024 ESPP

We have registered the ordinary shares issuable under the 2018 Incentive Plan and the 2024 ESPP on a Form S-8 under the Securities Act. As a result, they can be sold in the public market upon issuance, subject to Rule 144 limitations applicable to affiliates, vesting restrictions and the lock-up restrictions described under “Underwriting.”

TAX CONSIDERATIONS

The following description is not intended to constitute a complete analysis of all tax consequences relating to the acquisition, ownership and disposition of our ordinary shares. You should consult your own tax advisor concerning the tax consequences in your particular situation, as well as any tax consequences that may arise under the laws of any state, local, foreign or other taxing jurisdiction.

Bermuda Tax Considerations

The following is a general summary of Bermudian tax considerations relating to the ownership and disposal of ordinary shares.

We are incorporated under the laws of Bermuda. At the present time, there is no Bermuda income or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by us or by our shareholders in respect of our shares. However, Bermuda enacted the CIT Act on December 27, 2023. Entities subject to tax under the CIT Act are the Bermuda constituent entities of multi-national groups. A multi-national group is defined under the CIT Act as a group with entities in more than one jurisdiction with consolidated revenues of at least 750 million euros in any two of the four previous fiscal years. If the Bermuda constituent entities of a multinational group are subject to tax under the CIT Act, such tax is charged at a rate of 15% of net taxable income of such constituent entities as determined in accordance with and subject to the adjustments set out in the CIT Act (including in respect of foreign tax credits applicable to the Bermuda constituent entities). In general, income arising from international shipping is exempted from the scope of such tax to the extent certain requirements relating to strategic or commercial management in Bermuda are satisfied. No tax is chargeable under the CIT Act until tax years starting on or after January 1, 2025.

U.S. Federal Income Tax Considerations

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the ownership and disposition of our ordinary shares by a U.S. holder (as defined below) that acquires our ordinary shares in this offering and holds our ordinary shares as "capital assets" (generally, property held for investment) under the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This discussion is based upon existing U.S. federal tax law, which is subject to differing interpretations or change, possibly with retroactive effect. No ruling has been sought from the Internal Revenue Service (the "IRS") with respect to any U.S. federal income tax considerations described below, and there can be no assurance that the IRS or a court will not take a contrary position. This discussion does not address all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances, including investors subject to special tax rules (for example, banks and other financial institutions, insurance companies, pension plans, cooperatives, broker-dealers, expatriates, traders in securities that have elected the mark-to-market method of accounting for their securities, certain former U.S. citizens or long-term residents, regulated investment companies, real estate investment trusts and tax-exempt organizations (including private foundations)), investors who are not U.S. holders, investors who own (directly, indirectly or constructively) 10% or more of our voting or non-voting shares, investors that will hold their ordinary shares as part of a straddle, hedge, conversion, constructive sale or other integrated transaction for U.S. federal income tax purposes, investors who are subject to special tax accounting rules, persons who acquire their ordinary shares pursuant to any employee share option or otherwise as compensation, or investors that have a functional currency other than the U.S. dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this discussion does not discuss any non-U.S. tax, minimum tax, state or local tax, or non-income tax (such as the U.S. federal gift or estate tax) considerations, or the Medicare tax on net investment income. Each U.S. holder is urged to consult its tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax considerations of an investment in our ordinary shares.

General

For purposes of this discussion, a "U.S. holder" is a beneficial owner of our ordinary shares that is, for U.S. federal income tax purposes, (1) an individual who is a citizen or resident of the United States, (2) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created in, or organized under the laws of, the United States or any state thereof or the District of Columbia, (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source or (4) a trust (A) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (B) that has otherwise elected to be treated as a U.S. person under the Code and the applicable U.S. Treasury regulations thereunder.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes is a beneficial owner of our ordinary shares, the tax treatment of the partnership and a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding our ordinary shares and partners in such partnerships are urged to consult their tax advisors as to the particular U.S. federal income tax considerations of an investment in our ordinary shares.

Passive Foreign Investment Company Considerations

A non-U.S. corporation, such as our company, will be a "passive foreign investment company," or "PFIC," for U.S. federal income tax purposes, if, in any particular taxable year, either (1) 75% or more of its gross income for such year consists of certain types of "passive" income or (2) 50% or more of the value of its assets (generally determined on the basis of a quarterly average) during such year is attributable to assets that produce or are held for the production of passive income. Based upon our current and expected income and assets and projections as to the market price of our ordinary shares immediately following this offering, we do not presently expect to be a PFIC for the current taxable year or the foreseeable future. However, while we do not expect to be or become a PFIC in the current or future taxable years, no assurance can be given in this regard because the determination as to whether we are a PFIC for any taxable year is a facts-intensive determination that depends, in part, upon the composition and classification of our income and assets, which cannot be made until after the end of a taxable year.

If we are a PFIC for any year during which a U.S. holder holds our ordinary shares, certain adverse tax consequences could apply to such U.S. holder. Certain elections may be available (including a mark-to-market election) to U.S. holders that may mitigate some of those adverse consequences. You should consult your tax advisors regarding the U.S. federal income tax consequences of owning and disposing our ordinary shares if we are or become a PFIC.

The discussion below under "Dividends" and "Sale or Other Disposition of Ordinary Shares" is written on the basis that we will not be or become a PFIC for U.S. federal income tax purposes.

Dividends

Any cash distributions paid on our ordinary shares out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, will generally be includible in the gross income of a U.S. holder as dividend income on the day actually or constructively received by the U.S. holder. Because we do not intend to determine our earnings and profits on the basis of U.S. federal income tax principles, we will generally report the full amount of any distribution paid as a dividend for U.S. federal income tax purposes. Dividends received on the ordinary shares will not be eligible for the dividends received deduction generally allowed to corporations.

Individuals and certain other non-corporate U.S. holders will generally be subject to tax at the lower capital gain tax rate applicable to "qualified dividend income," provided that certain conditions are satisfied, including that (1) we are a qualified foreign corporation, which will be the case if our ordinary shares are readily tradable

on an established securities market in the United States, (2) we are neither a PFIC nor treated as such with respect to a U.S. holder (as discussed above) for the taxable year in which the dividend was paid and the preceding taxable year and (3) certain holding period requirements are met. We are listing the ordinary shares on the NYSE and believe that the ordinary shares will be readily tradable on an established securities market in the United States and that we will be a qualified foreign corporation with respect to dividends paid on the ordinary shares. There can be no assurance that our ordinary shares will be considered or will continue to be considered readily tradable on an established securities market. Each non-corporate U.S. holder is advised to consult its tax advisors regarding the availability of the reduced tax rate applicable to qualified dividend income for any dividends we pay with respect to our ordinary shares.

Sale or Other Disposition of Ordinary Shares

A U.S. holder will generally recognize capital gain or loss upon the sale or other disposition of ordinary shares in an amount equal to the difference between the amount realized upon the disposition and the U.S. holder's adjusted tax basis in such ordinary shares. Any capital gain or loss will be long-term if the ordinary shares have been held for more than one year and generally will be U.S. source gain or loss for U.S. foreign tax credit purposes. Long-term capital gains of individuals and certain other non-corporate U.S. holders are generally eligible for a reduced rate of taxation. The deductibility of a capital loss may be subject to limitations.

UNDERWRITING

Under the terms and subject to the conditions in an underwriting agreement, dated the date of this prospectus, the underwriters named below, for whom BofA Securities, Inc. and J.P. Morgan Securities LLC are acting as representatives, have severally agreed to purchase, and the selling shareholders have agreed to sell to them, severally, the number of ordinary shares indicated below:

Name	Number of Ordinary Shares
BofA Securities, Inc.	
J.P. Morgan Securities LLC	
UBS Securities LLC	
Wells Fargo Securities, LLC	
Total	30,000,000

The underwriters and the representatives are collectively referred to as the "underwriters" and the "representatives," respectively. The underwriters are offering the ordinary shares subject to their acceptance of the shares from the selling shareholders and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the ordinary shares offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the ordinary shares offered by this prospectus if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters' option to purchase additional shares described below.

The underwriters initially propose to offer part of the ordinary shares directly to the public at the offering price listed on the cover page of this prospectus and part to certain dealers at a price that represents a concession not in excess of $ per share under the public offering price. After the initial offering of the ordinary shares, the offering price and other selling terms may from time to time be varied by the representatives.

The selling shareholders have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to 4,500,000 additional ordinary shares at the public offering price listed on the cover page of this prospectus, less underwriting discounts and commissions. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional ordinary shares as the number listed next to the underwriter's name in the preceding table bears to the total number of ordinary shares listed next to the names of all underwriters in the preceding table.

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to the selling shareholders. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to an additional 4,500,000 ordinary shares from the selling shareholders.

		Total	
	Per Share	No Exercise	Full Exercise
Public offering price	$	$	$
Underwriting discounts and commissions to be paid by the selling shareholders	$	$	$
Proceeds, before expenses, to the selling shareholders	$	$	$

The estimated offering expenses payable by us in connection with this offering, exclusive of the underwriting discounts and commissions, are approximately $ million. We have agreed to reimburse the underwriters for certain of their expenses incurred in connection with this offering up to $35,000.

The underwriters have informed us that they do not intend sales to discretionary accounts to exceed 5% of the total number of ordinary shares offered by them.

Our ordinary shares are listed on the NYSE under the trading symbol "VIK."

In connection with this offering, all of our directors and executive officers and holders of 5% or more of our shares, including the selling shareholders, have entered into lock-up agreements with the representatives of the underwriters. Pursuant to such lock-up agreements, such persons have agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary shares or our special shares or securities convertible into or exchangeable or exercisable for our ordinary shares or for our special shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our ordinary shares or of our special shares, whether any of these transactions are to be settled by delivery of our ordinary shares or our special shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition or to enter into any transaction, swap, hedge or other arrangement, for a period of 90 days after the date of this prospectus without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC.

In connection with our IPO, all of our directors and executive officers and holders of substantially all of our ordinary shares and our special shares, including the selling shareholders, entered into lock-up agreements with BofA Securities, Inc. and J.P. Morgan Securities LLC as representatives of the underwriters to our IPO. Pursuant to such lock-up agreements, such persons agreed, subject to certain exceptions, not to sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any of our ordinary shares or our special shares or securities convertible into or exchangeable or exercisable for our ordinary shares or for our special shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our ordinary shares or of our special shares, whether any of these transactions are to be settled by delivery of our ordinary shares or our special shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition or to enter into any transaction, swap, hedge or other arrangement, for a period of 180 days ending on October 27, 2024 without, in each case, the prior written consent of BofA Securities, Inc. and J.P. Morgan Securities LLC.

In connection with this offering, BofA Securities, Inc. and J.P. Morgan Securities LLC have agreed to waive the lock-up restrictions applicable to the ordinary shares offered by the selling shareholders pursuant to this prospectus. The ordinary shares held by the selling shareholders and not sold in this offering will continue to be locked up under the lock-up agreements entered into in connection with the IPO until the expiration of the original 180-day lock-up period ending on October 27, 2024.

In order to facilitate the offering of the ordinary shares, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the ordinary shares. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option. The underwriters can close out a covered short sale by exercising the option or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option. The underwriters may also sell shares in excess of the option, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ordinary shares in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, ordinary shares in the open market to stabilize the price of the ordinary shares. These activities may raise or maintain the market price of the ordinary shares above independent market levels or prevent or retard a decline in the market price of the ordinary shares. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We, the selling shareholders and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of ordinary shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make internet distributions on the same basis as other allocations.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments. In addition, in connection with our secured revolving credit facility, affiliates of certain of the underwriters are expected to act as arrangers and bookrunners.

European Economic Area

In relation to each Member State of the European Economic Area (each, a "Relevant State"), no ordinary shares have been offered or will be offered pursuant to this offering to the public in that Relevant State prior to the publication of a prospectus in relation to the ordinary shares which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, all in accordance with the Prospectus Regulation, except that offers of ordinary shares may be made to the public in that Relevant State at any time under the following exemptions under the Prospectus Regulation:

(a) to any legal entity which is a qualified investor as defined under Article 2 of the Prospectus Regulation;

(b) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the Prospectus Regulation), subject to obtaining the prior consent of the representatives for any such offer; or

(c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation;

provided that no such offer of ordinary shares shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus

Regulation and each person who initially acquires any ordinary shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed to and with each of the underwriters and us that it is a "qualified investor" within the meaning of Article 2(e) of the Prospectus Regulation. In the case of any ordinary shares being offered to a financial intermediary as that term is used in the Prospectus Regulation, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the ordinary shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any ordinary shares to the public other than their offer or resale in a Relevant State to qualified investors as so defined or in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale.

For the purposes of this provision, the expression an "offer to the public" in relation to the ordinary shares in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any ordinary shares to be offered so as to enable an investor to decide to purchase or subscribe for any ordinary shares, and the expression "Prospectus Regulation" means Regulation (EU) 2017/1129, as amended.

Hong Kong

The ordinary shares have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance. No advertisement, invitation or document relating to the ordinary shares has been or may be issued or has been or may be in the possession of any person for the purposes of issue, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to ordinary shares which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the Securities and Futures Ordinance and any rules made under that Ordinance.

Japan

No registration pursuant to Article 4, paragraph 1 of the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) (the "FIEL") has been made or will be made with respect to the solicitation of the application for the acquisition of the ordinary shares.

Accordingly, the ordinary shares have not been, directly or indirectly, offered or sold and will not be, directly or indirectly, offered or sold in Japan or to, or for the account or benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan) or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the account or benefit of, any resident of Japan except pursuant to an exemption from the registration requirements, and otherwise in compliance with, the FIEL and the other applicable laws and regulations of Japan.

For Qualified Institutional Investors ("QIIs")

Please note that the solicitation for newly issued or secondary securities (each as described in Paragraph 2, Article 4 of the FIEL) in relation to the ordinary shares constitutes either a "QII only private placement" or a "QII only secondary distribution" (each as described in Paragraph 1, Article 23-13 of the FIEL). Disclosure regarding any such solicitation, as is otherwise prescribed in Paragraph 1, Article 4 of the FIEL, has not been made in relation to the ordinary shares. The ordinary shares may only be transferred to QIIs.

For Non-QII Investors

Please note that the solicitation for newly issued or secondary securities (each as described in Paragraph 2, Article 4 of the FIEL) in relation to the ordinary shares constitutes either a "small number private placement" or a "small number private secondary distribution" (each as is described in Paragraph 4, Article 23-13 of the FIEL). Disclosure regarding any such solicitation, as is otherwise prescribed in Paragraph 1, Article 4 of the FIEL, has not been made in relation to the ordinary shares. The ordinary shares may only be transferred *en bloc* without subdivision to a single investor.

Furthermore, the purchaser of the ordinary shares will comply with all applicable regulatory requirements (including, but not limited to, requirements under the FETL) in connection with the purchase of the ordinary shares. By the purchase of the ordinary shares, the relevant holder thereof will be deemed to represent and warrant that if it is in Korea or is a resident of Korea, it purchased the ordinary shares pursuant to the applicable laws and regulations of Korea.

We are a Bermuda exempted company. As a result, the rights of holders of our ordinary shares will be governed by Bermuda law and our memorandum of association and bye-laws. The rights of shareholders under Bermuda law may differ from the rights of shareholders of companies incorporated in other jurisdictions. Some of our directors and certain of the named experts referred to in this prospectus are not residents of the United States, and a substantial portion of our assets are located outside the United States. As a result, it may be difficult for investors to effect service of process on those persons in the United States or to enforce in the United States judgments obtained in U.S. courts against us or those persons based on the civil liability provisions of the U.S. securities laws.

INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

Viking Holdings Ltd

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Viking Holdings Ltd

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial position of Viking Holdings Ltd (the "Company") as of December 31, 2023 and 2022, the related consolidated statements of operations, other comprehensive income (loss), change in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes and financial statement Schedule I (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Description of the Matter	**Private placement derivative – fair value measurement** As of December 31, 2023, the fair value of the Company's private placement derivative was a liability of $2,640.8 million. As described in Note 2.2, Note 20, and Note 26 to the consolidated financial statements, the Company has issued preference shares which are accounted for as financial liabilities as certain conversion features are

not within the Company's control and can be cash settled. The equity conversion features have been bifurcated as a derivative and are carried at fair value. The valuation of the private placement derivative is based on a lattice valuation model methodology, which takes into consideration enterprise value based on a discounted cash flow model, fair value of debt holdings and market factors.

Auditing the fair value measurement of the private placement derivative was complex due to the judgment applied by management in selecting appropriate valuation methods and certain significant assumptions required to estimate the fair value of the private placement derivative, including but not limited to occupancy rates from existing and expected vessel and ship deliveries, terminal growth rates, and discount rates used in the discounted cash flow model, as well as ordinary share volatility.

How We Addressed the Matter in Our Audit

We obtained an understanding of the valuation methods and significant assumptions used by management to estimate the fair value of the private placement derivative.

Our audit procedures included, among others, testing management's significant assumptions used in the discounted cash flow model. To evaluate the reasonableness of occupancy rates from existing and expected vessel and ship deliveries we performed look-back analyses of prior period significant assumptions to actuals and assessed whether the occupancy rates were reasonable relative to the current and past performance of the Company. We have considered external market and industry data that could be contrary to the cash flow assumptions used by management, and further assessed whether the significant assumptions were consistent with evidence obtained in other areas of the audit.

We involved our valuation specialists to assist in our evaluation of the methodology used by the Company and to test the appropriateness of terminal growth rates, discount rates and ordinary share volatility by comparing these inputs to observable industry and market data. We developed an estimate of the fair value of the private placement derivative and compared our estimate to management's estimate.

We also assessed the adequacy of the related disclosures in the consolidated financial statements.

/s/ Ernst & Young AS

We have served as the Company's auditor since 2010.

VIKING HOLDINGS LTD
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2023

1. CORPORATE INFORMATION

Viking Holdings Ltd ("VHL" or the "Company") is a Bermuda company, incorporated on July 21, 2010, whose registered address is Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. The Company is registered in Bermuda as an exempted company and, pursuant to Section 14(3) of the Companies Act 1981, has perpetual succession. The Company's majority shareholder is Viking Capital Limited ("VCAP"), which is registered in the Cayman Islands as an exempted company.

The principal business activity of the Company and its subsidiaries (the "Group") is to engage in passenger shipping and other forms of passenger transport and as a tour entrepreneur for passengers and related activities in tourism.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

Basis of preparation

The consolidated financial statements of the Group (the "consolidated financial statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The consolidated financial statements have been prepared on a historical cost basis, except for forward foreign currency contracts, financial assets and liabilities at fair value through profit or loss, the warrant liability and the Private Placement derivatives, which are carried at fair value and are re-measured through the consolidated statements of operations and the consolidated statements of other comprehensive income (loss).

The preparation of the consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Group's accounting policies. See Note 2.2 for further discussion.

Except as otherwise noted, all amounts in the consolidated financial statements are presented in United States ("U.S.") Dollars ("USD" or "$") and all values are rounded to the nearest thousand ($000). The consolidated statements of cash flows are prepared using the indirect method. The consolidated financial statements are based on the assumption of going concern.

On April 11, 2024, a 26-for-1 share split of the Company's authorized and issued Ordinary Shares, Special Shares, Preference Shares, Non-Voting Ordinary Shares and Series C Preference Shares was effected by way of an increase in capital and bonus issue of 25 shares on each one outstanding share (the "26-for-1 share split"). Contractual agreements which settle in shares, including warrants and share-based payment arrangements, include anti-dilution provisions which provide for the automatic adjustment in the event of share splits. The Company has given retrospective effect to the 26-for-1 share split on all share and per-share amounts, including for such contractual arrangements that settle in shares, for all periods presented, including in Notes 19, 21 and 22.

The consolidated financial statements were approved by the Company's Board of Directors on March 8, 2024, except for the 26-for-1 share split described above, as to which the date is April 22, 2024.

Basis of consolidation

The consolidated financial statements comprise the financial statements of VHL and its subsidiaries as of December 31. The financial statements of the subsidiaries are prepared for the same reporting periods as VHL, using consistent accounting policies.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until such control ceases. All intra-group balances, transactions and gains and losses resulting from intra-group transactions are eliminated on consolidation. A list of the Company's subsidiaries is set out in Note 3.

Non-controlling interests represent the portion of profit or loss and net assets attributable to owners outside the Group related to subsidiaries the Group controls but does not 100% own.

2.1 Changes in accounting policies and disclosures

New and amended standards and interpretations

The Group intends to adopt relevant new and amended accounting standards and interpretations when they become effective. Other than as described below, new or amended standards and interpretations adopted since January 1, 2023 had no or an immaterial impact on the consolidated financial statements. The Group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

The Group has adopted *International Tax Reform – Pillar Two Model Rules – Amendments to IAS 12*, which was released in May 2023. The amendments provide a temporary mandatory exception from deferred tax accounting for the top-up tax, which was effective immediately, and require new disclosures about the Pillar Two, exposure beginning as of December 31, 2023. The mandatory exception applies retrospectively. However, because the Group had not previously recognized any related deferred taxes, the retrospective application has no impact on the Group's consolidated financial statements. The Group adopted the updated disclosure requirements as of December 31, 2023. See Note 13.

The Group has adopted the amendment to IAS 1, which was released in February 2021. The amendment provides guidance and examples to help entities apply materiality judgments to accounting policy disclosures. The amendment aims to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their significant accounting policies with a requirement to disclose their material accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendment has had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's consolidated financial statements.

2.2 Critical accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The key sources of estimation of uncertainty at the statement of financial position date, which have a significant risk for causing material adjustments to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Private Placement derivatives

In 2016 and 2017, the Company issued Series A Preference Shares (the "Series A Private Placement") and Series B Preference Shares (the "Series B Private Placement"), respectively. In February 2021, the Company issued Series C Preference Shares ("the Series C Private Placement"). As of December 31, 2022 and 2023, the Private Placement liability and the Private Placement derivative related entirely to the Series C Preference Shares. In all periods presented, the Series A Preference Shares, Series B Preference Shares and Series C Preference Shares are accounted for as financial liabilities as certain conversion features are not within the

Company's control and can be cash settled. The equity conversion features have been bifurcated from the liabilities as derivatives and are carried at fair value, with changes in value recognized in Private Placement derivatives (loss) gain in the consolidated statements of operations. The valuation of the Private Placement derivatives is based on a lattice model methodology, which takes into consideration enterprise value based on a discounted cash flow model, fair value of debt holdings and various market factors. The valuation is subject to uncertainty because it is measured based on significant unobservable inputs. The value is sensitive to changes in the price of the Company's ordinary shares, which is based on the discounted cash flow model, and volatility. See Note 20.

Fleet accounting—useful lives, depreciation and residual value

The Group's fleet includes vessels and ships, the Group's most significant assets, which the Group records at cost, less accumulated depreciation and impairment. To compute depreciation expense for its vessels or ships, the Group estimates the useful lives of the major components of the vessels or ships as well as their residual values. Estimates for useful lives and residual values differ between the Group's ocean and expedition ships, which are exposed primarily to salt water and generally operate year-round, and the Group's river vessels, which are exposed primarily to fresh water and generally operate for approximately eight to nine months per year. Depreciation expense for the Group's vessels and ships is computed net of the residual value on a straight-line basis.

The Group estimates the useful lives of its vessel or ship components based on its estimated period of economic benefit, the seasonal usage of river vessels, the comparable market for ocean and expedition ships, historical experience with river vessels, differences in salt water and fresh water deterioration rates and brokers' assessments of the useful lives, when available. Given the large and complex nature of its ships, its relatively young fleet and limited market information for river vessels, the Group's accounting estimates related to vessels and ships require considerable judgment and are inherently uncertain. If factors or circumstances cause the Group to revise its estimates of vessel or ship service lives or projected residual values, depreciation expense could be materially lower or higher. The estimated useful lives of the Group's vessel and ship components generally are as follows:

River vessels	
Hull and superstructure	40 - 50 years
Machinery	40 - 50 years
Hotel and restaurant	10 years
Navigation equipment	5 years
Ocean and expedition ships	
Hull, deck and machinery	32 years
Interior	24 years

The Group estimates the residual value of its vessels and ships based on long-term estimates of their resale value at the end of their useful life to the Group but before the end of their physical and economic lives to others, the comparable market for ocean and expedition ships, the historical resale value of the Group's river vessels and the higher resale value potential of vessels exposed primarily to fresh water. The Group estimates the residual value of its vessels or ships at approximately 15% to 20% of the original vessel or ship cost.

Impairment of vessels and ships, including right-of-use ("ROU") vessel and ship assets

The Group reviews its property, plant and equipment, including ROU assets, principally vessels and ships, for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The Group evaluates asset impairment at the lowest level for which there are largely independent
cash inflows. Impairment exists when the carrying value of an asset exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. Impairment loss is recognized in depreciation, amortization and impairment in the consolidated statements of operations.

For the Group's vessels and ships, the lowest level for which there are largely independent cash inflows is generally the individual vessel or ship. The Group considers that the following factors may be indicators of potential impairment: the decision to lay up a vessel or ship, which is to take a vessel or ship out of service, for more than one season; the carrying value of a vessel or ship exceeds the broker estimate of the value of the vessel or ship; significant physical damage to a vessel or ship; significant, adverse changes in the yields or booking curves associated with the vessel or ship and other general economic factors. The fair value less costs of disposal for vessels and ships may be based on broker estimates. Value in use for vessels or ships is calculated using a discounted cash flow model. The future cash flows are derived from past actual performance and management's assessment of future performance for the vessel's or ship's remaining useful life under multiple scenarios reflecting variability in possible results. The value in use is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash flows. The Group performs this impairment assessment when there are circumstances that indicate that the carrying value of any of the Group's vessels or ships may not be recoverable. However, the Group's conclusions may change if factors or circumstances cause the Group to revise its assumptions in future periods.

2.3 Summary of material accounting policies

Foreign currency translation and transactions

The functional currency of each entity in the Group is principally determined based on the primary currency of the entity's revenues. The Group also considers each entity's transactions with other subsidiaries of the Group. The items included in the separate financial statements of each entity are measured using that functional currency. Transactions in non-functional currencies are recorded as follows:

- All transactions are initially recorded at the rate of exchange at the date of the transaction.
- Monetary assets and liabilities denominated in non-functional currencies are converted to functional currency using the rate of exchange at the statement of financial position date.
- Non-monetary assets are converted to functional currency at the rate of exchange in effect at the time that the asset was acquired.
- Gains or losses on the conversion of monetary assets and liabilities are reflected in currency gain (loss) in the consolidated statements of operations.

Upon consolidation, the statements of financial position and statements of operations of all companies with a functional currency other than the USD are translated from their functional currencies to the USD, the Group's presentation currency, as follows:

- All assets and liabilities are translated at the rate of exchange at the statement of financial position date.
- All items of income and expense are translated at the average rate of exchange in the month the transaction occurred.
- Any resulting currency gains or losses are recognized as exchange differences on translation of foreign operations in the consolidated statements of other comprehensive income (loss) and as other components of equity on the consolidated statements of financial position.

Cash and cash equivalents

Cash and cash equivalents on the consolidated statements of financial position comprise cash at banks and in hand with an original maturity of three months or less. All credit card and electronic transfer transactions that process in less than 21 days are classified as cash and cash equivalents. Cash deposits that have restrictions governing their use which prevent the Group from accessing the funds are classified as restricted cash and are included in other current assets or other non-current assets, based on the remaining length of the restriction.

Financial assets measured at amortized cost

Financial assets are measured at amortized cost if the financial asset is held within a business model whose objective is to collect contractual cash flows and if the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets measured at amortized cost are subsequently measured at amortized cost using the effective interest method.

Accounts and other receivables

Accounts and other receivables are stated at their nominal value less provisions for bad debts. Management reviews all outstanding receivables amounts at each financial position date to determine expected credit losses.

Inventories

Inventories are recorded at the lower of historic cost, as defined by the first in, first out method and net realizable values. The components of the Group's inventory include catering supplies, food and beverage, fuel and technical supplies.

Property, plant and equipment

Vessels, Ships and Equipment

Critical accounting judgments, estimates and assumptions related to vessels, ships and equipment are discussed in Note 2.2.

The historical cost of vessels, ships and equipment are comprised of their purchase price, including import duties and non-refundable purchase taxes, interest and other costs incurred during the construction period and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Payments made on newbuilding and refurbishment contracts for vessels or ships are included in fixed assets as vessels or ships under construction. The payments are reclassified to vessels, ships and equipment and depreciated when placed in service.

Vessel and ship equipment is capitalized and depreciated on a straight-line basis over the asset's life. Renovations and improvements that add value to vessels or ships are capitalized and depreciated on a straight-line basis over the shorter of the useful life of the improvements or the vessels' or ships' remaining estimated useful lives. Repair and maintenance costs are expensed when incurred.

Hotel onboard equipment (primarily furniture, food service items and linens) for the vessels or ships is depreciated and replacement costs of such equipment are expensed as incurred. Hotel onboard equipment is depreciated on a straight-line basis over the asset's life.

Dry-dock costs are incurred when a vessel or ship is taken out of service and relate to activities which are necessary to maintain the vessel's or ship's class certification. Capitalized dry-dock costs are depreciated on a straight-line basis over the period until the next dry-dock, which is generally five years.

The assets' residual values, useful lives and methods of depreciation are reviewed and adjusted, if appropriate.

Other Property, Plant and Equipment

Other property, plant and equipment is stated at historical cost, net of accumulated depreciation and any accumulated impairment losses. The assets are depreciated on a straight-line basis over their estimated useful lives. Estimated useful lives of property, plant and equipment are summarized below:

Furniture	5 years
Office equipment	3 years
Leasehold improvements	Shorter of lease term or related asset life

Costs related to other transportation equipment are allocated to components based on manufacturer guidance. These components are depreciated on a straight-line basis over 10 or 20 years, based on type of component. Useful lives are determined by taking into account the intended use of the components.

Intangible assets, including goodwill

Intangible assets acquired in a business combination are recognized at fair value at the date of acquisition. Intangible assets acquired separate from a business combination are initially recognized at cost. Following initial recognition, intangible assets are carried at initial value less any accumulated amortization and accumulated impairment losses.

The Group's intangible assets primarily include capitalized software development costs and vessel design costs. The useful lives of intangible assets are assessed to be either finite or indefinite. As of December 31, 2022 and 2023, the Group had no intangible assets with indefinite useful lives, other than goodwill.

Intangible assets with finite lives are amortized on a straight-line basis over their estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method for an intangible asset with a finite useful life is reviewed at least annually. Estimated useful lives of intangible assets with finite lives are summarized below:

Software	3 to 5 years
Intangible vessel design costs	20 years

Leases

ROU Assets

The Group recognizes ROU assets at the commencement date of the leases, which is the date the asset is available for use. ROU assets are measured at cost, net of accumulated depreciation and any impairment losses and adjusted for any remeasurement of lease liabilities. The cost of ROU assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The ROU asset is depreciated on a straight-line basis over the shorter of its estimated useful life or the lease term. For leases in which the Group obtains ownership of the lease asset at the end of the lease term, the recognized ROU asset is reclassified to property, plant and equipment upon transfer of ownership.

Lease Liabilities

At the commencement date of the leases, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments), and variable lease payments that depend only on an index or a rate, less any lease incentives. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period incurred. For all leases, except for vessel and ship charters, the Group utilizes the practical expedient to combine lease and non-lease components by asset class. For vessel and ship charters, lease components include payments related to the use of the vessel or ship asset and non-lease components include payments for services, such as operating the vessel or ship, which are included in vessel operating in the consolidated statements of operations. The Group allocates the contractual payments to the lease and non-lease component based on the relative stand-alone prices.

In calculating the present value of lease payments, the Group uses an incremental borrowing rate for each lease at the lease commencement date, if the interest rate implicit in the lease is not readily determinable. The incremental borrowing rates are calculated based on the Group's leases and existing debt instruments adjusted for

credit risk, term and currency. After the commencement date, lease liabilities increase based on the accretion of interest using the effective interest method and decrease for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The Group has the option to lease the assets for additional periods beyond the original term for most of its leases. The term for calculating the lease liabilities is the non-cancelable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group applies judgment in evaluating whether it is reasonably certain to exercise the option to renew or not terminate the lease by considering all relevant factors including importance of the leased asset to operations and cost considerations. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

The Group utilizes the recognition exemptions for short-term leases and low-value asset leases. The expense for short-term leases and low-value asset leases are recognized as vessel operating or selling and administration in the consolidated statements of operations.

Impairment of non-financial assets, including intangible assets

Critical accounting judgments, estimates and assumptions related to vessels, ships and equipment are discussed in Note 2.2.

The Group assesses at each reporting date whether there is an indication that any of its assets, including property, plant and equipment and intangible assets, and ROU assets, may be impaired. If an indication of potential impairment exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. The recoverable amount for each individual asset is the greater of an asset's fair market value less cost to sell and its value in use. The fair value less cost to sell is the estimated amount obtainable from the sale of an asset in an arm's length transaction less disposal costs, while value in use is the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. The Group's future cash flows may be impacted by climate related risks, including environmental changes or more stringent environmental regulations. Such changes may impact accounting estimates in future periods, which incorporate forecasted financial performance.

Recoverable amounts are estimated for individual assets or, if this is not possible, for the cash-generating unit to which the asset belongs. Where the carrying value of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or have decreased. If such indication exists, the Group makes an estimate of the recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. The increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

Investments in associated companies

The Group's investments in associated companies are accounted for using the equity method because the Group has significant influence over the associated companies. The carrying amount of the investments are adjusted to recognize changes in the Group's share of the associated companies' net income (loss) less any dividends. The Group's share of the associated companies' net income (loss) is included in other financial income (loss) in the

consolidated statements of operations. When the Group contributes or sells an asset to an associated company, the elimination of unrealized gains or losses is recognized as a decrease or an increase in the carrying amount of the investment. Additionally, if the Group's share of losses of an associated company equals or exceeds the carrying amount of its investment in the associated company, the Group no longer recognizes its share of further income (losses) until its share of the income equals the share of losses not recognized.

Derivative financial instruments that are not hedging instruments

Derivative financial instruments that are not classified as hedging instruments and any embedded derivatives are categorized as financial assets or financial liabilities at fair value through profit or loss. These instruments are measured at fair value with changes in fair value recognized in other financial income (loss) in the consolidated statements of operations.

Derivative financial instruments designated as hedging instruments

From time to time, the Group may use derivative financial instruments, such as forward foreign currency contracts, to hedge its foreign currency risk. At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which it will apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements, including the sources of hedge ineffectiveness.

These derivative financial instruments to which hedge accounting applies are initially recognized at fair value. In the consolidated statement of financial position, hedging instruments are included in prepaid expenses and other current assets or other non-current assets when the fair value is positive and in accrued expenses and other current liabilities or other non-current liabilities when the fair value is negative. The effective portion of the unrealized gain or loss on the hedging instrument is recognized in the consolidated statements of other comprehensive income (loss) as net change in cash flow hedges, while any ineffective portion is recognized immediately in the consolidated statements of operations in other financial income(loss). The amounts accumulated in other comprehensive income (loss) are reclassified to the consolidated statements of operations in the same period during which the hedged cash flows affect the results of operations. When the Group discontinues hedge accounting for all or a portion of its contracts because the hedged item is no longer expected to occur, the Group reclassifies amounts previously included in the cash flow hedge included in shareholders' equity into the consolidated statements of operations in other financial income (loss).

Warrant liability

The warrants are accounted for as a financial liability because the terms require the Company to potentially issue a variable number of Ordinary Shares in the future. The initial fair value of the warrants was recognized as a reduction to retained earnings because the warrants represent a distribution of Company value to a shareholder, with a corresponding liability included in other non-current liabilities in the consolidated statements of financial position. The warrant liability is carried at fair value with changes in value recognized through other financial income (loss) in the consolidated statements of operations.

Interest bearing loans and financial liabilities

The Group has several types of interest bearing loans and financial liabilities, including bank loans and financial liabilities, secured notes and unsecured notes, and the Private Placement liabilities, which may be referred to as loans, financial liabilities, and debt. Interest bearing loans and financial liabilities are initially recognized based on the consideration received less directly attributable transaction costs and, if applicable, any embedded derivatives.

After initial recognition, interest bearing loans and financial liabilities are subsequently measured at amortized cost using the effective interest rate method.

Directly attributable transaction costs ("debt transaction costs") incurred in association with obtaining debt facilities are shown as a reduction of short-term and long-term debt and are amortized over the debt term using the effective interest rate method.

The Group derecognizes a financial liability when it is extinguished, which is when the contract is discharged, cancelled, or expires.

Benefit plans

The Group has two defined benefit pension plans for all employees in Switzerland, which are governed by the Swiss Federal Law on Occupational Retirement, Survivors' and Disability Pension Plans ("BVG") and are administered by two collective pension funds. The Group's defined benefit pension plans are contribution-based and provide participants with a minimum guaranteed benefit, which qualifies these plans as defined benefit plans under IAS 19 *Employee Benefits*.

The foundations of the collective pension funds are responsible for the governance of the plans, where the Group pays contributions for its employees. These contributions are invested as part of the group assets by each foundation and will be used to cover the benefits of each individual plan participant. In certain situations, additional payments or increased periodic contributions by the employer may become due based on the pension plans' funded status as measured under the BVG, but the Group would not be liable for the obligations of other entities invested in the respective plans.

Actuarial computations of the pension expense and related defined benefit obligations are performed using the projected unit credit method. The determination of the defined benefit obligation and pension expense requires applying assumptions for discount rate, projected retirement age, disability, mortality and expected future compensation. The plan assets are recorded at fair value. The coverage ratio approach is used to determine the Group's share of the total assets in the collective pension foundations. Future payments under the plan may differ from those estimated.

The current service cost under the plan and related administrative expenses are recognized in the consolidated statements of operations as part of selling and administration expenses. Actuarial gains and losses and the return on plan assets are recognized in the consolidated statements of other comprehensive income (loss) as remeasurement gains (losses) on defined benefit plans.

The Group maintains defined contribution benefit plans for its employees in the U.S. and United Kingdom. Contributions to the defined contribution plans are expensed as incurred.

Contingent liabilities

A contingent liability is a possible obligation as a result of a past event that is dependent on the occurrence of a future event. An existing obligation, in which it is not likely that the entity will have to dispose of economic benefits or where the obligation cannot be measured with sufficient reliability, is also considered as a contingent liability. Contingent liabilities are not recognized in the consolidated financial statements but, if material, are disclosed in the accompanying notes.

Revenue recognition

Revenue is measured based on the consideration specified in the Group's contracts with customers and revenue is recognized as the performance obligations are satisfied.

Nature of Goods and Services

Cruise and land revenue includes revenue earned primarily from cruises and any other supporting activities, including air, land excursions and customer cancellation revenues. The Group's performance obligations under these contracts are to provide a cruise vacation and other supporting activities in exchange for the invoiced ticket price. The Group engages third parties to fulfill obligations to customers for air, land and shore excursions but retains the ultimate risks of fulfillment and generally has discretion to select the acceptable carrier and absorbs the risk of cost fluctuations. The Group satisfies the performance obligations and recognizes revenue pro rata over the cruise period, except for land excursions which are recognized when the services are provided, which are either on the first or last day of the cruise and cancellation revenues, which are recognized upon cancellation.

Onboard and other revenue includes revenue earned primarily from optional shore excursions and bar revenue. The Group receives payment before or concurrently with the transfer of these goods and services to passengers during the cruise and recognizes revenue at the time of transfer. Services revenues related to China Merchants Viking Cruises Limited ("CMV"), a related party, are recognized over time as the services are performed and are included in onboard and other revenue. When the Group is a pass-through conduit for collecting and remitting taxes to relevant government authorities, such as sales tax, the effect of such taxes is included, net, in the related revenue.

Travel Protection

Also included in cruise and land revenue are revenues related to the Group's travel protection services. The travel protection services generally include: (1) a refund policy, whereby passengers will receive all or a portion of their deposit value back in cash; (2) a refund policy, whereby passengers will receive all or a portion of their deposit value back in the form of a travel voucher; and (3) a policy that covers events that occur during the trip ("trip events"), such as medical expenses, emergency evacuation and baggage services. A third party insurance company underwrites all coverage for trip events and for the majority of the refund policies.

Where a third party insurance company provides the travel protection service, the Group recognizes revenue, net of the cost of such coverage, at the time the travel protection service is sold to the customer.

Where the Group provides the travel protection service, the Group recognizes revenue as part of the cruise performance obligation pro rata over the cruise period or upon cancellation. Additionally, for passenger cancellations covered by the travel protection services provided by the Group, the Group recognizes a liability for travel protection cancellation reserve for estimated cash and voucher refunds not yet paid or issued.

Payment Terms and Deferred Revenue

Payment terms and cancellation policies vary by country of purchase. A deposit for a future cruise is required at or soon after the time of booking to secure space on the vessel or ship. The Group collects a majority of its deposits for bookings up to and in some cases more than, a year in advance of the departure date with the remaining balances due prior to sailing. Deposits include the total amounts paid by customers prior to sailing, for which the Group is obligated to perform services. These deposits represent contract liabilities, which are recorded as deferred revenue and are recognized as revenue generally pro rata over the cruise period. Deferred revenue is a current liability as it relates to the Group's normal operating cycle.

Premium Cruise Vouchers and Risk Free Vouchers

Since 2020, when the Group has cancelled sailings, guests have generally had the option to receive either (1) a refund in cash for 100% of monies paid to the Group or (2) a cruise voucher with a face value of up to 125% of monies paid ("Premium Cruise Voucher"). Premium Cruise Vouchers can generally be applied to a new booking for up to two years from the issuance date (or longer, if the expiration date is extended) and any unused Premium

Cruise Vouchers are refunded for the original amount paid upon expiration. In addition, in the event of travel uncertainty, the Group may temporarily update its cancellation policies to give guests the option to cancel certain cruises closer to the date of departure and receive future cruise vouchers ("Risk Free Vouchers"), instead of incurring cancellation penalties. In response to the COVID-19 pandemic, the Group temporarily updated its cancellation policies for bookings made through June 30, 2022. Risk Free Vouchers can generally be applied to a new booking for two years from the issuance date and are not refundable for cash.

Upon issuance, the Premium Cruise Vouchers and Risk Free Vouchers are included in deferred revenue for amounts equal to the monies paid. For customers who sail on a future cruise using a Premium Cruise Voucher or a Risk Free Voucher, the Group reduces the deferred revenue liability and recognizes revenue pro rata over the cruise period to which the voucher is applied. Revenue recognized is equal to the original monies collected. Expired Premium Cruise Vouchers are refunded to customers in cash, with a corresponding decrease in deferred revenue when refunded. Beginning with the return to operations in 2021, the Group recognizes cruise revenue for Risk Free Vouchers that it estimates will expire unused over the redemption period for these vouchers.

Commissions and Transportation Costs and Direct Costs of Cruise, Land and Onboard

Expenses from the Group's cruise operations are recognized at the time the Group provides the services.

Share capital and reserves

Share Premium

Share premium includes the amounts paid in excess of par upon the issuance of shares and exercises of stock options, net of the impact of share repurchases and retirements.

Treasury Shares

Shares of the Company that are reacquired and not cancelled are treasury shares and recognized at cost and deducted from equity. No gain or loss is recognized in the consolidated statement of operations for the purchase, sale, issuance or cancellation of the Company's shares. Any difference between the carrying amount and the consideration, if reissued, is recognized in the share premium.

Other Paid-In Equity, including Share Based Payment Transactions

The Group recognizes stock based compensation expense for stock based awards granted to employees, including stock options and restricted stock units ("RSUs"), based on the grant date fair value of the awards. The grant date fair value of stock options is estimated using the Black-Scholes option pricing model. The grant date fair value of RSUs is estimated based on the fair value of the Company's Non-Voting Ordinary Shares. Stock based compensation is recognized in other paid-in equity, with a corresponding cost in the consolidated statements of operations over the period the employee provides service to the Group.

Stock options vest based on the satisfaction of a service condition, which is generally two to four years. Stock options generally expire eight years after grant date.

RSUs have two vesting types. Liquidity-only RSUs vest based on the consummation of an Initial Public Offering or Change in Control by the Group ("liquidity condition"). Double Trigger RSUs vest based on both a liquidity condition and a service condition of two to four years. Both types of RSUs generally expire seven years after grant date if vesting requirements are not met. As the time period to satisfy the liquidity condition is longer than the service period required for all RSUs, the liquidity condition is considered a non-vesting condition under IFRS 2, *Share-based payment*. Once the employee has satisfied the service period, if any, the RSU remains outstanding even if the employee subsequently terminates employment with the Group. For certain RSUs, the vesting of the award accelerates upon the satisfaction of the liquidity condition if the employee remains employed by the Group. The Group considers the likelihood of a non-vesting condition not occurring in the grant date fair value of the RSUs.

The Group recognizes stock based compensation expense over the service period and based on the Group's best estimate of the number of equity awards for which the service period will ultimately be fulfilled. No expense is recognized for awards granted to employees who do not ultimately fulfill the requisite service requirement.

A deferred tax asset is recognized for the estimated future tax deduction related to stock based awards, with a corresponding amount recognized in deferred tax expense, up to the cumulative stock based compensation expense. Any estimated tax deduction in excess of the cumulative stock based compensation expense is recognized in other paid-in equity. When the stock based awards are exercised or settled, the tax deduction occurs and the deferred tax asset is realized. Amounts included in other paid-in equity relate to both the historical tax deductions and the estimated future tax deductions.

When the terms of stock based awards are modified, the cumulative minimum expense recognized is the expense as if the terms had not been modified, if the original service is satisfied. Additional stock based compensation expense is recognized for any modification that increases the total fair value of the stock based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Retained Losses

Retained losses include accumulated earnings (losses), distributions to shareholders and repurchases and retirement of shares.

All other reserves are as stated in the consolidated statements of changes in shareholders' equity.

Selling and administration costs

Selling and administration costs include marketing costs, employee costs, office expenses, professional services and other administrative costs. Marketing costs include media advertising, brochure production, direct mail costs, promotional expenses, search engine marketing and other costs that support the ongoing development of the Group's brand and customer database. Marketing costs are expensed as incurred. For the years ended December 31, 2021, 2022 and 2023, marketing costs were $204.7 million, $312.4 million and $353.6 million, respectively. Employee costs include salaries, stock based compensation, wages, bonus, payroll taxes and other social costs, employee benefit costs, recruiting costs and travel expenses related to land based employees. Office expenses include facility costs, utility costs, office supplies and telecommunication costs. Professional service fees include costs for accounting services, legal services and information technology consulting services. Other administrative costs include corporate insurance, postage and other taxes. Employee costs, office expenses, professional service fees and other administrative expenses are expensed as incurred. Total employee costs, office expenses, professional service fees and other administrative expenses for the years ended December 31, 2021, 2022 and 2023 were $254.4 million, $370.4 million and $435.4 million, respectively. For the years ended December 31, 2021, 2022 and 2023, the Group received $3.1 million, $1.2 million and nil, respectively, in government subsidies generally related to furloughing staff in certain locations. These subsidies constitute government grants related to income and have been presented as a reduction of the employee costs within selling and administration in the consolidated statements of operations.

Income tax

The Group's companies are subject to taxation in the countries in which they operate and tax is calculated at current rates on their respective taxable income. Where appropriate, deferred income taxes are determined using the deferred tax liability method whereby the future expected impacts of temporary differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements are recognized as deferred tax assets and liabilities. Management evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax is recognized for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax liabilities are recognized for all taxable temporary differences that will result in taxable amounts in future years. Deferred tax liabilities are not recognized for:

- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and
- Temporary differences related to investments in subsidiaries and associated companies, to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognized when it is probable that sufficient taxable profit will be available against which the deferred tax assets can be utilized. At each reporting date, the Group reassesses unrecognized deferred tax assets and the carrying amount of deferred tax assets. The Group recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered within the timeframe or carryback provisions of the applicable statutes. Conversely, the Group reviews deferred tax assets at each reporting date and reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the utilization of part or all of the deferred tax.

Deferred tax assets and liabilities are measured at the enacted tax rates that apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside of the consolidated statements of operations are recognized in correlation to the underlying transaction either in the consolidated statements other comprehensive income (loss) or in the consolidated statements of changes in shareholders' equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Group recognizes income tax provisions for uncertain tax positions, based solely on their technical merits, when they are not more likely than not to be sustained upon examination by the relevant tax authority. The tax benefit to be recognized is measured as the largest amount of benefit that is more likely than not of being realized upon ultimate resolution. All interest expense related to income tax liabilities is included in income tax expense.

4. REVENUE FROM CONTRACTS WITH CUSTOMERS

Disaggregation of revenue

The table below disaggregates total revenue by reportable segment (see Note 23) for the years ended December 31, 2021, 2022 and 2023:

	Year Ended December 31,		
	2021	2022	2023
(in USD and thousands)			
River	$ 339,208	$ 1,796,498	$ 2,341,274
Ocean	250,451	1,189,298	1,945,200
Other	35,442	190,183	424,019
Total revenue	$ 625,101	$ 3,175,979	$ 4,710,493

Total revenue for the year ended December 31, 2022 increased by $2,550.9 million to $3,176.0 million from $625.1 million in 2021. The increase was due to the operation of substantially all of the Group's fleet and higher occupancy in 2022 compared to 2021. Due to the COVID-19 pandemic, the Group operated about half of its river fleet and its full fleet of six ocean ships at the peak of operations in 2021. In addition, during 2022, two

additional ocean ships, two additional river vessels, two additional expedition ships and the Viking Mississippi began operations.

Total revenue for the year ended December 31, 2023 increased by $1,534.5 million to $4,710.5 million from $3,176.0 million in 2022. The increase was due to an increase in the size of the Group's fleet and higher occupancy in 2023 compared to 2022. During the year ended December 31, 2023, the Group operated ships and vessels delivered in 2022 for the entire 2023 season. The Group also operated additional ships delivered in 2023, including the Viking Saturn and Viking Aton.

Regional economic trends affect the Group's revenue and cash flows. The table below disaggregates percentage of passengers by source market, which is the passenger's home country or region, for the years ended December 31, 2021, 2022 and 2023:

	Year Ended December 31,		
	2021	2022	2023
North America	93.2%	92.7%	90.5%
United Kingdom	6.8%	5.4%	4.3%
Other	0.0%	1.9%	5.2%
	100.0%	100.0%	100.0%

The disaggregation by source market is similar across all reportable segments.

The Group's vessels and ships primarily operate in Europe.

Deferred revenue (contract liability)

Activity in the Group's deferred revenue for the years ended December 31, 2022 and 2023 is as follows:

(in USD and thousands)

The Group recognized revenue of $3,155.9 million and $4,685.2 million from contract liabilities during the years ended December 31, 2022 and 2023, respectively, which primarily related to the Group's deferred revenue at the beginning of each year and the cash received in each year. Of the $3,486.6 million in deferred revenue as of December 31, 2023, $162.8 million related to Risk Free Vouchers and $24.2 million related to Premium Cruise Vouchers. Based on booking information as of December 31, 2023, of the $3,486.6 million deferred revenue balance, 94% related to sail dates within the next 12 months.

Assets recognized from the costs to obtain a contract with a customer

Prepaid commissions and prepaid credit card fees are incremental costs of obtaining contracts with customers that the Group recognizes as assets, which are included within prepaid expenses and other current assets and other non-current assets on the consolidated statements of financial position.

Prepaid commissions was $45.5 million as of December 31, 2023, of which $39.8 million was included in prepaid expenses and other current assets and $5.7 million was included in other non-current assets on the consolidated statements of financial position. Prepaid commissions increased from $31.8 million as of December 31, 2022, to $45.5 million as of December 31, 2023, due to an increase in commission payments due to higher bookings. The majority of the Group's prepaid commissions as of December 31, 2022 were expensed and reported within commissions and transportation costs and selling and administration in the consolidated statement of operations for the year ended December 31, 2023. See Note 8.

Prepaid credit card fees increased from $29.3 million as of December 31, 2022, to $32.5 million as of December 31, 2023, primarily due to an increase in cash collected from passengers. The majority of the Group's prepaid credit card fees as of December 31, 2022 were expensed and reported within direct costs of cruise, land and onboard in the consolidated statement of operations for the year ended December 31, 2023. See Note 8.

In addition, as a result of changes in the terms of certain credit card processor agreements, some priority claim amounts which were included in accounts and other receivables as of December 31, 2022 are restricted cash included in prepaid expenses and other current assets on the consolidated statements of financial position as of December 31, 2023. Restricted cash relates to deposits required by certain credit card processors. As a result of the changes in the terms of certain credit card processor agreements, the Group earns interest on these deposits. See Note 6.

The Group determined that certain redemption features of the 2025 Secured Notes, as defined in Note 14, included an embedded derivative (the "2025 Secured Notes embedded derivative"). The 2025 Secured Notes embedded derivative was bifurcated from the 2025 Secured Notes and carried at fair value. Changes in fair value were included in other financial income (loss) in the consolidated statements of operations. In 2023, the Group derecognized the 2025 Secured Notes embedded derivative because the Group exercised the redemption feature of the 2025 Secured Notes and fully extinguished the 2025 Secured Notes. See Notes 14 and 26.

For the years ended December 31, 2021 and 2022, the Group recognized a gain of $59.9 million and a loss of $27.0 million, respectively, on remeasurement of the 2025 Secured Notes embedded derivative. During the year ended December 31, 2023, the Group reclassified $27.4 million from river vessels under construction to river vessels and equipment, in conjunction with the delivery of the Viking Aton.

Ocean and expedition ships

In 2015, the Group took delivery of its first ocean ship and as of December 31, 2023, the Group had a fleet of nine ocean ships, including the Viking Saturn, which was delivered in 2023.

In 2021, the Group took delivery of its first expedition ship, which is designed for sailings in the polar regions and the Great Lakes of North America. As of December 31, 2023, the Group had a fleet of two expedition ships.

During the year ended December 31, 2022, additions to ocean and expedition ships and equipment included $0.2 million in improvements for ships.

During the year ended December 31, 2023, additions to ocean and expedition ships and equipment included $20.3 million primarily related to improvements for ships made during dry-dock. During the year ended December 31, 2023, the Group also had $12.2 million, net, in disposals related to ocean and expedition ships and equipment, primarily due to ocean dry-dock activities.

During the year ended December 31, 2022, the Group capitalized $882.5 million in ocean and expedition ships under construction primarily related to shipyard progress payments, primarily consisting of $299.4 million for the

Viking Mars, $232.4 million for the Viking Polaris, $288.2 million for the Viking Neptune, $19.2 million for the Viking Saturn, $21.4 million for the Viking Vela and $21.8 million for the Viking Vesta. The Group reclassified $401.1 million from ocean and expedition ships under construction to ocean and expedition ships and equipment, in conjunction with the delivery of the Viking Saturn.

Impairment

During the year ended December 31, 2021, the Group determined certain indicators of potential impairment had occurred as a result of the impact of COVID-19 on the Group's operations. The Group performed impairment analyses throughout 2021. For all vessels and ships, the calculated value in use exceeded the carrying value by greater than 20% as of December 31, 2021. For the year ended December 31, 2021, the Group did not recognize any impairment.

The Group has five river vessels in Russia and one river vessel in Ukraine, which are not Longships and were built prior to 1991. As a result of the Russia-Ukraine conflict, in the first quarter of 2022, the Group cancelled all sailings on these vessels. These cancellations were an indicator of potential impairment for these vessels. Accordingly, the Group recognized a $28.6 million impairment to decrease the carrying value of these river vessels to their estimated values in use of zero. The impairment is included in depreciation, amortization and impairment in the consolidated statement of operations for the year ended December 31, 2022.

Additionally, in 2022, the Group entered into a charter agreement for the Viking Legend river vessel, which included a sale of the vessel at the end of the lease. Based on the terms of the charter agreement, the Group determined that the carrying value of the Viking Legend exceeded its fair value less costs of disposal. Due to the similarities between the Viking Legend and Viking Prestige, including that neither vessel is a Longship and the Group has a similar strategy for the vessels, the Group also determined the carrying value of the Viking Prestige exceeded its recoverable amount. Accordingly, the Group recognized a $13.3 million impairment, which is included in depreciation, amortization and impairment in the consolidated statements of operations for the year ended December 31, 2022. Other than as described above, the Group did not identify any impairment indicators as of December 31, 2022.

The Group did not identify any impairment indicators related to property, plant and equipment and intangible assets as of December 31, 2023.

The Group's conclusions regarding the valuation of its property, plant and equipment and intangible assets (including goodwill) may change in future periods if factors or circumstances cause the Group to revise its assumptions in future periods, including related to inflation and rising interest rates. The Group's future cash flows may be impacted by climate related risks, including environmental changes or more stringent environmental regulations. Such changes may impact accounting estimates in future periods, which incorporate forecasted financial performance. See Note 2.

As of December 31, 2022 and 2023, the Group had $13.4 million and $21.4 million, respectively, in unused tax losses for which no deferred tax assets were recognized in the consolidated statements of financial position, for all jurisdictions other than Bermuda. Of the $21.4 million unused tax losses as of December 31, 2023, $3.6 million will begin to expire in 2030 and $17.8 million do not expire. As of December 31, 2022 and 2023, the Group had $25.6 million and $20.4 million, respectively, in deductible temporary differences for which no deferred tax asset was recognized in the consolidated statements of financial position.

In December 2023, Bermuda enacted the Corporate Income Tax Act 2023 (the "CIT Act"), which applies to Bermuda entities that are part of multinational enterprise groups with annual revenues of €750 million or more, effective beginning on January 1, 2025. The CIT Act imposes a new corporate income tax rate of 15%. As part of the transition into the CIT Act, companies can elect to calculate an opening tax loss carryforward based on cumulative losses for 2020 to 2024, which can be used to offset taxable income beginning in 2025. Additionally, income arising from international shipping is exempted from the scope of the CIT Act to the extent certain requirements relating to strategic or commercial management in Bermuda are satisfied. The Group expects that the tax imposed under the CIT Act will be applicable to the Group and that its income arising from international shipping will be exempt from such tax in Bermuda. As of December 31, 2023, the Group had $149.4 million in cumulative unused tax losses for 2020 to 2023 in Bermuda related to non-exempt income for which no deferred tax assets were recognized in the consolidated statements of financial position. Tax losses in Bermuda do not expire.

The Group generates a portion of its cruise income from its international ocean and expedition cruises from sources within the U.S. Under Section 883 ("Section 883") of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), certain foreign corporations are exempt from U.S. federal income or branch profits tax on U.S. source income derived from or incidental to the international operation of vessels or ships. Section 883 does not exempt U.S. source income derived from a U.S. domestic trade or business. The Group has assessed that it qualifies for the benefits of Section 883. However, qualification for Section 883 depends upon various factors, including a specified percentage of the Group's shares being owned, directly or indirectly, by shareholders who meet certain requirements, and can be challenged or could change in the future. Provisions of the Code, including Section 883, are subject to change at any time, and changes could occur in the future with respect to the identity, residence or holdings of the Group's direct or indirect shareholders, which could impact the Group's ability to qualify for the benefits of Section 883.

In December 2021, the Organization for Economic Cooperation and Development ("OECD") issued model rules for the implementation of a 15% global minimum tax ("Pillar Two"). The Group is within the scope of the OECD Pillar Two model rules, however each country must enact local tax legislation to adopt the model rules. The current OECD guidelines exclude international shipping income from the scope of the global minimum tax to the extent certain requirements relating to strategic or commercial management are satisfied. Though the majority of the Group's income is derived from international shipping, the Group continues to analyze the impact of the Pillar Two rules, which are inherently complex, not yet finalized in all jurisdictions and require multiple tax authorities to align on rules and interpretations. The primary factors that may change the Group's final assessment of Pillar Two are the effect of the international shipping exemption, application of the CIT Act, and interpretations by various tax authorities of Pillar Two and corporate tax laws applied in other jurisdictions.

The Group regularly assesses its income tax provisions for uncertain tax positions, based solely on their technical merits, when it is not more likely than not to be sustained upon examination by the relevant tax authority. Based on all known facts and circumstances and current tax law, the total amount of the Group's uncertain income tax position liabilities and related accrued interest are not significant to the Group's financial position.

London Interbank Offered Rates Transition

Certain of the Group's variable interest rate borrowings used USD London Interbank Offered Rates ("LIBOR") through June 30, 2023. After June 30, 2023, LIBOR was no longer published.

The Alternative Reference Rate Committee, a committee convened by the Federal Reserve, identified the Secured Overnight Financing Rate ("SOFR"), a new index calculated by short-term repurchase agreements that is backed by United States Treasury securities, as its preferred alternative rate for LIBOR. As discussed below, the terms of the Group's borrowings which had previously used LIBOR were amended to adopt the use of SOFR. These borrowings began using Term SOFR at the first interest rate adjustment date subsequent to June 30, 2023.

In connection with the transition from LIBOR to Term SOFR, the Group applied the practical expedient permitted by IFRS 9 Financial Instruments ("IFRS 9"), as issued by the IASB in 2020 and effective January 1, 2021. Term SOFR is expected to be largely equivalent on an economic basis to LIBOR, which allows for use of the practical expedient under IFRS 9. The practical expedient enables a company to account for a change in the contractual cash flows that are required by the reform by updating the effective interest rate to reflect the change in the benchmark rate, rather than treating the change as a termination of old debt replaced with new debt. The transition did not result in a significant change to the Group's financial statements, its interest rate risk management strategy or its interest rate risk.

River vessel financing

Hermes Financing

Euler Hermes Aktiengesellschaft ("Hermes") manages the official export credit guarantee scheme on behalf and for the account of the German Federal Government. Subsidiaries of the Group have loan agreements for which Hermes has provided guarantees equal to 95% of the loan amounts (the "Hermes Financing"). The Hermes Financing includes the €236.1 million loan, the €288.9 million loan, the €225.8 million loan, the €153.2 million loan and the €53.6 million loan. All loans that are part of the Hermes Financing are denominated in euros ("EUR" or "€") at drawdown dates and are converted to USD based on the prevailing exchange rates on the dates of drawdown and have a term of eight and a half years from the drawdown dates with semi-annual payments. The Group selected fixed or variable rate financing for each of the drawdowns. Viking River Cruises Ltd ("VRC"), a subsidiary of the Group, has also issued a corporate guarantee for the obligations related to these loans. The Hermes Financing contains customary insurance and loan to value requirements and negative covenants subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness, dividends and other distributions.

In 2020 and 2021, the Group amended the Hermes Financing to defer principal payments due from April 2020 to March 2022 (the "deferral period"). Under the amended terms of the agreements, at each date within the deferral period that a principal payment was due, the Group made the principal payments with drawdowns of new tranches on the existing loans ("deferred tranches"). The deferred tranches have variable interest rates and are to be repaid semi-annually over a three to five year term beginning after the end of the deferral period, or can be repaid earlier. In connection with the amendments to these loan agreements, VCL became an additional guarantor of the loans while the deferred tranches are outstanding.

The Hermes Financing also has financial maintenance covenants that require VRC, as guarantor, and Viking River Cruises AG ("VRC AG"), as borrower, to maintain at all times following the first drawdown, an aggregate amount of consolidated free liquidity equal to or greater than $75.0 million. As defined by the loan, consolidated free liquidity includes cash and cash equivalents, marketable securities and receivables from credit card processors. As of December 31, 2023, VRC and VRC AG were in compliance with these financial maintenance covenants.

In 2023, the Group amended its outstanding loan agreements related to the Hermes Financing. Beginning with the first interest rate adjustment for each variable rate loan subsequent to June 30, 2023, the variable rate is based on Term SOFR plus the Credit Adjustment Spread ("CAS") and a margin. Term SOFR is administered by CME Group Benchmark Administration Limited. The relevant CAS was published by the International Swaps and Derivatives Association on March 5, 2021. The margin is determined by the lender, consistent with periods where LIBOR was published.

€54.2 Million Loan

In January 2013, the Group entered into a loan agreement for €54.2 million to finance the Viking Baldur and Viking Magni and to refinance the Viking Legend. The €54.2 million loan was converted to USD based on the prevailing exchange rates two days prior to the dates of drawdown and has a term of 10 years from drawdown dates with monthly payments and a balloon payment due upon maturity of the loan. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the €54.2 million loan for principal payments due from April 2020 through March 2022 and extended the maturity date of the loan by a total of 25 months.

In November 2023, in connection with the planned sale of the Viking Legend at the end of its charter, the Group repaid $8.1 million of the €54.2 million loan, which reduced the portion of the loan associated with the Viking Legend to zero. See Note 28 for events taking place subsequent to December 31, 2023.

€20.3 Million Loan

In April 2014, the Group entered into a loan agreement for €20.3 million to finance the Viking Kvasir. The €20.3 million loan was converted to USD based on the prevailing exchange rates two days prior to the date of drawdown, and has a term of 10 years from the drawdown date with monthly payments and a balloon payment due upon maturity of the loan. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the €20.3 million loan for principal payments due from April 2020 through March 2022 and extended the maturity date of the loan by a total of two years.

$53.5 Million Loan

In March 2015, the Group entered into a loan agreement for $53.5 million to finance the Viking Astrild and the Viking Beyla and to refinance the Viking Idi. The $53.5 million loan has a term of 10 years from drawdown dates with quarterly installments and a balloon payment due upon maturity of the loan. The loan has fixed rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

$40.0 Million Loan

In December 2017, the Group entered into a loan agreement for $40.0 million to refinance three vessels operating in Portugal, the Viking Hemming, Viking Osfrid and Viking Torgil. The $40.0 million loan has a term of eight years from drawdown date with quarterly payments. The loan has fixed rate financing. The loan also includes customary insurance requirements. VCL issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group amended the $40.0 million loan to defer principal payments due from June 2020 through March 2022 and extended the maturity date of the loan by a total of two years.

$102.0 Million Loan

In December 2017, the Group entered into a loan agreement for $102.0 million to finance the Viking Vali, Viking Tir, Viking Sigyn and Viking Ullur. The $102.0 million loan has a term of eight and half years from drawdown date with monthly payments. The loan has fixed rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020, the Group amended the $102.0 million loan to defer principal payments due from June 2020 through May 2021. The amendment also increased the interest rate by 0.25% for June 2020 through December 2022, which increased the fixed interest rates to a range of 5.47% to 5.51%. In 2021, the Group amended the $102.0 million loan to defer principal payments due from June 2021 through May 2022. As a result of the deferrals in 2020 and 2021, the maturity date of the loan was extended by a total of one year and the remaining monthly principal payment amounts increased.

$15.1 Million Loan

In April 2019, the Group entered into a loan agreement for $15.1 million to refinance the Viking Helgrim. The $15.1 million loan has a term of 10 years from the drawdown date with monthly payments. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the $15.1 million loan for principal payments due from May 2020 through March 2022, which increased all remaining monthly principal payment amounts. These deferrals did not extend the maturity date of the loan.

Other loans

€6.2 Million Loan

In July 2020, the Group entered into a loan agreement for €6.2 million and drew down the full amount, of which 90% is guaranteed by the French government. The loan has a fixed interest rate and is denominated in EUR. In March 2021, the Group selected a five year repayment term, with quarterly payments from the selection date.

20.0 Million CHF Loan

In the third quarter of 2020, the Group obtained a credit facility for 20.0 million Swiss Francs (“CHF”), of which 85% is guaranteed by the Swiss government, due December 2024, denominated in CHF with semi-annual payments beginning in 2021. In 2021, the Group amended the credit facility, which extended the due date to 2027 and reduced the amount of each semi-annual payment beginning in the first quarter of 2022. Effective April 1, 2023, the interest rate for the credit facility increased by 1.5%. The credit facility contains customary requirements including, without limitation, covenants restricting indebtedness.

Ocean and Expedition Ship Financing

Charter Financing

The Group previously entered into charter agreements to finance the Viking Orion, Viking Jupiter, Viking Octantis and Viking Mars. The charter agreements are accounted for as financial liabilities. The charter rates for the Viking Orion, Viking Jupiter and Viking Mars are designated as fixed rate charters. The charter rate for the Viking Octantis is designated as a variable rate charter, which was previously based on LIBOR. Beginning in the third quarter of 2023, the variable rate charter for the Viking Octantis charter is based on SOFR plus the CAS and a margin. The charter periods are 144 months beginning from the delivery date of each ship and include a purchase obligation at the end of the charter term, with an option to purchase the ship beginning on the third

anniversary of the charter commencement date. VCL issued a corporate guarantee for these arrangements. The Group took delivery of the Viking Orion in June 2018, Viking Jupiter in February 2019, Viking Octantis in December 2021 and Viking Mars in May 2022.

SACE Financing

SACE SpA ("SACE"), which manages the official export credit guarantee scheme on behalf and for account of the Italian Government, provides an insurance policy to the lenders covering 100% of the principal and interest of a facility amount. Eight subsidiaries of the Group each have a loan agreement for which SACE has provided an insurance policy to the lenders covering 100% of the principal and interest of the facility amount (the "SACE Financing"). Each loan will be drawn down upon delivery of the related ocean ship. As of December 31, 2023, the outstanding SACE Financing includes the €316.6 million Neptune loan and the €316.6 million Saturn loan. All loans that are part of the SACE Financing are for up to 80% of the newbuild's contract price, including certain change orders, plus 100% of the Export Credit Agency premium (the "Facility"). The interest rate for each of these loans is fixed and the loans have a term of 12 years from the drawdown date with semi-annual payments, the first of which is due six months after the drawdown at delivery. VCL and Viking Ocean Cruises II Ltd ("VOC II"), a subsidiary of the Group, have jointly and severally guaranteed each of these loans. For the €316.6 million Neptune and the €316.6 million Saturn loans, the Group exercised the euro option. Unless the euro option is exercised for the Viking Vela and Viking Vesta, these SACE supported loans are denominated in USD and the total amount of the loans is determined based on the Facility converted to USD within 12 business days prior to the intended dates of drawdown. For Ship XIII, Ship XIV, Ship XV and Ship XVI, SACE Financing will be available for drawdown in USD.

The Group took delivery of the Viking Neptune in November 2022.

Upon delivery of the Viking Saturn in April 2023, the Group drew down €316.6 million ($349.1 million) from the related SACE supported loan. In addition, the Group capitalized loan costs of $41.3 million, which are presented as a reduction of the loan amount.

As the principal amount of both the €316.6 million Neptune and the €316.6 million Saturn loans are outstanding in euros, the loan balances at each period end are translated to USD. For the year ended December 31, 2022, the translation resulted in a currency loss of $20.0 million and an increase to the loan balance of $20.0 million for the €316.6 million Neptune loan. For the year ended December 31, 2023, the translation resulted in a net currency loss of $9.7 million and a net increase to the loan balances of $9.7 million for the €316.6 million Neptune and the €316.6 million Saturn loans. The changes on the conversion of these loans were included in currency gain (loss) in the consolidated statements of operations for the years ended December 31, 2022 and 2023.

Ocean cruise financial liability deposit

The Viking Orion charter agreement requires the Group to maintain a minimum of $6.5 million in a financial liability deposit throughout the charter period, which is included in cash and cash equivalents on the consolidated statements of financial position.

Undrawn borrowing facilities

As of December 31, 2023, the Group had SACE Financing to finance the Viking Vela, Viking Vesta, Ship XIII, Ship XIV, Ship XV and Ship XVI. The Group has also entered into two loan agreements for €167.5 million each to finance eight Longships and two Longships–Seine scheduled for delivery in 2025 and 2026. These loan agreements will be drawn down on the delivery of each ship or vessel. See Note 24.

See Note 28 for events taking place subsequent to December 31, 2023.

The 2028 Secured Notes are guaranteed on a senior unsecured basis by VCL and on a senior secured basis by Viking Ocean Cruises Ship I Ltd, Viking Ocean Cruises Ship II Ltd and Viking Sea Ltd. The 2028 Secured Notes are secured on a first priority basis by mortgages granted by Viking Ocean Cruises Ship I Ltd, Viking Ocean Cruises Ship II Ltd and Viking Sea Ltd over the Viking Star, Viking Sky and Viking Sea, respectively, and certain of their other ship related assets.

$675.0 Million 2025 Secured Notes

In May 2020, VCL issued $675.0 million in principal amount of its 13.000% Senior Secured Notes due 2025 (the "2025 Secured Notes") with semi-annual interest payments. The Group used the net proceeds from the 2025 Secured Notes to fund an intercompany loan to VRC AG, which used $74.2 million of the proceeds thereof to repay outstanding debt, accrued interest and fees on certain outstanding loans for river vessels, as outlined in the table above, and the remainder for general corporate purposes. The 2025 Secured Notes were secured on a first priority basis by certain intellectual property and the intercompany loan made by VCL to VRC AG, which was secured by certain river vessels as noted in the table above and certain of VRC AG's other assets related to these river vessels. The 2025 Secured Notes were guaranteed by VCL's subsidiaries that guarantee the 2025 VCL Notes and the 2027 VCL Notes, as defined below.

In July 2023, the Group used the proceeds from the issuance of the 2031 VCL Notes, as defined below, and cash on hand, to fund the redemption of all outstanding 2025 Secured Notes, thereby fully extinguishing the 2025 Secured Notes. For the year ended December 31, 2023, in connection with the redemption, the Group recognized non-recurring charges in interest expense of $48.0 million, comprised of $32.9 million for the redemption

premium and $15.1 million of unamortized loan fees. For the year ended December 31, 2023, the Group also had a loss of $33.3 million to derecognize the 2025 Secured Notes embedded derivative, which is included in other financial income (loss) in the consolidated statement of operations. See Note 8.

$350.0 Million 2029 Secured Notes

In February 2021, Viking Ocean Cruises Ship VII Ltd ("Ship VII"), a wholly owned subsidiary, issued $350.0 million in principal amount of its 5.625% Senior Secured Notes due 2029 (the "2029 Secured Notes" and, collectively with the 2028 Secured Notes and the 2025 Secured Notes, the "Secured Notes") with semi-annual interest payments. The net proceeds from the 2029 Secured Notes were used to pay the remaining contract price for the Viking Venus. The 2029 Secured Notes are secured on a first priority basis by a mortgage granted by Ship VII over the Viking Venus and certain of its other ship related assets. The 2029 Secured Notes are guaranteed on a senior unsecured basis by VCL.

The indentures governing the Secured Notes contain customary negative covenants applicable to VCL and its restricted subsidiaries, subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness and dividends and other distributions. In addition, the indentures governing the Secured Notes contain a cross-default provision whereby the failure by VCL or any of its restricted subsidiaries to make principal payments under other borrowing arrangements or the occurrence of certain events affecting those other borrowing arrangements could trigger an obligation to repay the Secured Notes. Pursuant to the indentures governing the Secured Notes, the issuers or the guarantors also entered into security documents containing customary insurance requirements.

The Secured Notes do not contain any financial maintenance covenants.

$825.0 Million 2027 VCL Notes

In September 2017, VCL issued $550.0 million in principal of the 5.875% Senior Notes due 2027 (the "2027 VCL Notes") with semi-annual interest payments. In February 2018, VCL issued $275.0 million in principal amount of additional 2027 VCL Notes. The 2027 VCL Notes are guaranteed by the same subsidiaries that guarantee the 2025 VCL Notes.

$500.0 Million 2029 VCL Notes

In 2021, VCL issued $500.0 million in principal amount of its 7.000% Senior Notes due 2029 (the "2029 VCL Notes") with semi-annual interest payments. The 2029 VCL Notes are guaranteed by VCL's subsidiaries that guarantee the 2025 VCL Notes and the 2027 VCL Notes, except for Viking Catering AG.

$720.0 Million 2031 VCL Notes

In June 2023, VCL issued $720.0 million in principal amount of its 9.125% Senior Notes due 2031 (the "2031 VCL Notes" and, together with the 2025 VCL Notes, the 2027 VCL Notes and the 2029 VCL Notes, the "Unsecured Notes") with semi-annual interest payments. As described above, the net proceeds from the 2031 VCL Notes, together with cash on hand, were used to fund the redemption of the 2025 Secured Notes, including all premiums, accrued and unpaid interest and costs and expenses related to the redemption, and the satisfaction and discharge of the indenture governing the 2025 Secured Notes and related fees and expenses. The 2031 VCL Notes are guaranteed by VCL's subsidiaries that guarantee the 2025 VCL Notes and the 2027 VCL Notes, except for Viking Catering AG and Passenger Fleet LLC.

The Group capitalized debt transaction costs related to the 2031 VCL Notes totaling $10.0 million, which are presented as a reduction to the loan amount.

The indentures governing the Unsecured Notes contain customary negative covenants applicable to VCL and its restricted subsidiaries, subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness and dividends and other distributions. In addition, the indentures governing the Unsecured Notes contain a cross-default provision whereby the failure by VCL or any of its restricted subsidiaries to make principal payments under other borrowing arrangements or the occurrence of certain events affecting those other borrowing arrangements could trigger an obligation to repay the Unsecured Notes.

The Unsecured Notes do not contain any financial maintenance covenants.

The indentures governing the Secured Notes and Unsecured Notes include covenants that generally restrict the amount of funds that can be transferred from VCL and its restricted subsidiaries to the Company to a basket, which is calculated based on a cumulative earnings metric. As of December 31, 2022 and 2023, essentially all of the net assets of the subsidiaries of the Company, but excluding the Company itself, were restricted.

15. OTHER NON-CURRENT LIABILITIES

A summary of the Group's other non-current liabilities as of December 31, 2022 and 2023 is outlined below:

The warrant liability relates to the fair value of warrants for Ordinary Shares issued to VCAP. See Note 19. The fair value of the warrant liability increased from December 31, 2022 to December 31, 2023 as a result of an increase in the Ordinary Share price of the Company. For the years ended December 31, 2022 and 2023, the Company recognized a gain of $40.6 million and a loss of $107.7 million, respectively, on remeasurement of the warrant liability.

Travel protection payable relates to the non-current portion of amounts payable to the insurance company that underwrites certain parts of the Group's travel protection.

16. BENEFIT PLANS

Defined benefit plans

The Group's obligations under the collective pension funds in Switzerland include obligations for current and future payments for both its employees in Switzerland and their dependents in the event of old age, disability or death. The retirement age under the plans is 64 years for women and 65 years for men, and beneficiaries of the plans can choose between annuity payments or a lump sum payment.

The outflow of funds due to pension payments and other obligations can be reliably estimated. Contributions to the pension funds are equally made by the participants and the employer on a regular basis based on age as specified under the BVG. Individual retirement savings accounts are maintained for each beneficiary, to which contributions of the employer and employees and accrued interest are credited. All pension assets are held by the collective pension funds and the Group does not have involvement in how the Group's assets are invested or allocated within the collective funds. The Group does not make use of any assets held by the pension plans.

The pension plan assets are managed by the collective pension funds based on the investment strategy approved by the governing bodies of the respective funds, subject to legal requirements under the BVG. The following breakdown of the pension plan assets by those plan assets that have a quoted market price in an active market and those that do not, was computed by taking the weighted average of the respective pension fund's breakdown of total plan assets and the fair value of the Group's plan assets in each plan compared to its total plan assets:

	Year Ended December 31, 2021			Year Ended December 31, 2022			Year Ended December 31, 2023		
	Quoted	Not Quoted	Total	Quoted	Not Quoted	Total	Quoted	Not Quoted	Total

Total	80%	20%	100%	78%	22%	100%	79%	21%	100%

The Group applies the latest available data for demographic assumptions in Switzerland (BVG2020) for calculating defined benefit obligations. The primary actuarial assumptions for the weighted average rates for the years ended December 31, 2021, 2022 and 2023 is outlined below:

	Year Ended December 31,		
The weighted average rates	2021	2022	2023
Discount rate	0.33%	2.25%	1.50%
Salary increase rate	1.00%	1.00%	1.00%

The calculation of the defined benefit obligations is most sensitive to changes in the discount rate. As of December 31, 2023, a 0.5% decrease in the discount rate will increase the defined benefit obligations by 4.6%, while a 0.5% increase in the discount rate will decrease the defined benefit obligations by 3.9%. The sensitivity analysis is based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analysis may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

As of December 31, 2023, the Group expects to contribute $3.6 million during 2024 for the defined benefit plans. The average duration of the defined benefit obligations as of December 31, 2023 ranges from 8.2 years to 9.2 years.

Defined contribution plans

The Group sponsors a 401(k) plan for employees in the United States. According to the plan, employees may designate a portion of their pre-tax earnings for contribution to the plan. The Group matched the first $4,000 contributed by an employee, dollar for dollar, for the years ended December 31, 2021 and 2022, and matched employee contributions dollar for dollar, up to 4% of total compensation, for the year ended December 31, 2023. For the years ended December 31, 2021, 2022 and 2023, the Group recognized $1.2 million, $1.6 million and $3.3 million, respectively, in selling and administration in the consolidated statements of operations, related to the employee contribution match. The Group also offers a group stakeholder pension plan for its employees in the United Kingdom in which the Group contributes 5% of gross annual salary for all employees to the plan.

These subsidies constitute government grants related to income and have been presented as a reduction of the employee costs within vessel operating in the consolidated statements of operations.

18. INTEREST EXPENSE

For the year ended December 31, 2021, modification gains on loans and financial liabilities, net primarily related to changes in the Group's expectations of whether the Series C Preferential Dividends would be paid in cash or through the Series C PIK, as defined in Note 19. Additionally, for the year ended December 31, 2023, loss on early extinguishment of debt primarily related to non-recurring charges for the loss on early extinguishment of the 2025 Secured Notes. See Note 14.

19. SHARE CAPITAL

In 2016 and 2017, the Company issued Series A Preference Shares and Series B Preference Shares, respectively. In February 2021, the Company issued Series C Preference Shares to TPG VII Valhalla Holdings, L.P. ("TPG") and CPP Investment Board PMI-3 Inc. ("CPP Investments") ("the Series C Financing"), the existing holders of the Series A Preference Shares and Series B Preference Shares or their affiliates. In connection with closing the Series C Financing, the Company adopted the Third Amended and Restated Bye-Laws (the "Bye-Laws"), which set forth the rights and preferences of the Series C Preference Shares and the Company's other classes of stock following the Series C Financing. The key terms of the Series C Financing and the Bye-Laws are provided below.

Share and per share amounts for all share classes have been revised to give effect to the 26-for-1 share split for all periods presented, including the number of Ordinary Shares issuable upon the exercise of warrants. See Note 2.

Series C Financing

At closing, the Company issued a total of 184,267,200 Series C Preference Shares, with an equal number of shares issued to each of TPG and CPP Investments. Of the total Series C Preference Shares issued, 91,000,000 Series C Preference Shares were issued for cash consideration of $7.69 per share, for total proceeds to the Company of $700.0 million. The remaining 93,267,200 Series C Preference Shares were issued in exchange for the Company's repurchase for cancellation of all outstanding Series A Preference Shares and Series B Preference Shares ("Equity Subscribed Shares"). The number of Equity Subscribed Shares was calculated as of the closing date, as follows: (i) the aggregate liquidation preference plus accrued and unpaid dividends, for all Series A Preference Shares and Series B Preference Shares, divided by (ii) $7.69. The aggregate Series C Liquidation Preference at closing was $1,417.4 million.

At closing, the Company also issued two warrants for 8,733,400 Ordinary Shares to VCAP, with each warrant being for 4,366,700 Ordinary Shares and tied to either TPG's or CPP Investments' equity in the Company. The

vesting period of the warrants commenced on the date of issuance and ends at the later of five years or upon the sale of all of TPG's or CPP Investments' equity in the Company. The number of warrants that vest is based on either the proceeds to TPG or CPP Investments upon a sale of their equity in the Company or the trading price of the Company's equity following an initial public offering. The number of warrants that vest depends on the value per Ordinary Share, with 0% vesting at $15.38 or lower price per Ordinary Share and 100% vesting at $23.08 or higher price per Ordinary Share, and linear vesting between $15.38 and $23.08 per Ordinary Share. The warrants have an exercise price of $0.01.

Under the terms of the Series C Financing, the Company agreed to repurchase for cancellation an aggregate of 26,000,000 Ordinary Shares and Non-Voting Ordinary Shares from VCAP for $7.69 per share for an aggregate amount of $200.0 million. Of the total 26,000,000 shares repurchased, 7,517,692 were Non-Voting Ordinary Shares and 18,482,308 were Ordinary Shares.

Upon closing of the Series C Private Placement, the Company received cash proceeds and the Series A and Series B Private Placement liabilities and derivatives were extinguished (the "Private Placement refinancing"). Accordingly, the Company derecognized the carrying values of the Series A and Series B Private Placement liabilities and derivatives. Also upon closing, the Series C Private Placement liability and Series C Private Placement derivative were recognized at their fair values of $1,389.1 million and $755.3 million, respectively. The Company recognized a $367.2 million loss on Private Placement refinancing, which included: (1) the difference between (a) the fair value of the Series C Private Placement liability and Series C Private Placement derivative at closing and (b) the aggregate carrying values of Series A and Series B Private Placement liabilities and derivatives, and cash received, and (2) direct transaction costs.

The difference between the fair value of the Series C Private Placement liability at closing and the Series C Liquidation Preference was $28.3 million, which is a financial liability discount presented as a reduction to the financial liability amount on the consolidated statement of financial position.

Share capital

As of December 31, 2022 and 2023, the authorized, issued and outstanding share capital was as follows:

	As of December 31, 2022				As of December 31, 2023

In 2021, the Company retired all 15,403,700 Non-Voting Ordinary Shares held as treasury shares. In connection with the retirement of treasury shares, the Company reduced share capital and share premium by an aggregate of $19.0 million and increased retained losses by $132.2 million. As of December 31, 2022 and 2023, the treasury shares balance was zero.

As of December 31, 2022 and 2023, the total issued shares excluding the Series C Preference Shares was 225,255,888, at $0.01 par value per share, for a total of $2.3 million. As described above, the Series C Preference Shares are accounted for as financial liabilities and as a result, their par value is not included in share capital as of December 31, 2022 and 2023.

Rights and preferences of share capital under the Bye-Laws

Dividends

In preference to the holders of the Ordinary Shares, Non-Voting Ordinary Shares, Special Shares and Preference Shares (the "Junior Shares"), the Series C Preference Shares are entitled to receive dividends at a rate per annum of (i) 6.00% of the liquidation preference of the Series C Preference Shares ("Series C Liquidation Preference") if paid in cash or (ii) 8.00% of the Series C Liquidation Preference if paid by accretion to the Series C Liquidation Preference ("Series C PIK") ("Series C Preferential Dividend"). The Series C Preferential Dividend compounds and is payable semi-annually in June and December of each year (each a "Series C Dividend Payment Date"). Because the Series C Shares are accounted for as financial liabilities, the Series C Preferential Dividend is recognized as interest expense in the consolidated statements of operations. See additional discussion below under the caption Dividend Activity for activity related to the Series C Preferential Dividend.

As long as the Series C Preference Shares remain outstanding, dividends cannot be declared or paid on the Junior Shares without the approval of the holders of at least a majority of the outstanding Series C Preference Shares unless (1) such dividends are paid on a Series C Dividend Payment Date, (2) the Series C Preferential Dividend has been paid in full, either by cash or through the Series C PIK and (3) such dividends in the aggregate do not exceed the then applicable dividend cap. The dividend cap was $27.8 million for the June 2021 dividend date, $22.2 million for the December 2021 dividend date, and increases by 3% for each dividend date thereafter. Dividends paid to the Junior Shares with dividend rights will be paid through issuance of additional shares ("PIK") unless the Series C Preferential Dividend is paid in cash. Dividends paid by PIK are paid in the same class of shares to which the PIK relates and are issued based on a price of $7.69 per share. Ordinary Shares and Special Shares are entitled to dividends proportionately according to the number of shares held. Preference Shares are entitled to a cumulative dividend per year equal to the greater of (1) $0.01 per Preference Share or (2) the dividends paid per year on each Ordinary Share.

Non-Voting Ordinary Shares are not entitled to dividends.

Voting

Series C Preference Shares are entitled to the number of votes equal to the number of Ordinary Shares into which the Series C Preference Shares can convert.

Preference Shares generally do not have voting rights, but are entitled to one vote per share if at any point the dividends to which Preferences Shares are entitled have not been paid in full for two consecutive years. Once the dividends have been paid in full, the Preference Shares cease to have voting rights.

Ordinary Shares are entitled to one vote per share. Special Shares are entitled to 10 votes per share. Non-Voting Ordinary Shares have no voting rights.

Conversion

Each Series C Preference Share is convertible, at the holder's option, to Ordinary Shares equal to (i) the sum of (A) the Series C Liquidation Preference plus (B) the accrued but unpaid Series C Preferential Dividends, divided by (ii) the then-effective Series C Conversion Price (the "Series C Conversion Rate"). As of the issuance date of the Series C Preference Shares, December 31, 2022 and 2023, the Series C Conversion Price was $7.69 and the Series C Conversion Rate was 1.00. The Series C Conversion Price is subject to anti-dilution adjustments upon certain events such as stock splits or share combinations. If a holder of Series C Preference Shares elects to convert their Series C Preference Shares to Ordinary Shares, such holder must convert all Series C Preference Shares.

Each Series C Preference Share will automatically convert into Ordinary Shares at the Series C Conversion Rate upon a Conversion Event. The Bye-Laws define a Conversion Event as either of the following: (1) the

consummation of an initial public offering in which the Company sells a number of Ordinary Shares to the public that represents at least 15% of the equity value of the Company, with an initial public offering price per Ordinary Share at least equal to $11.54 per Share (as adjusted for any recapitalization, split, combination or similar), and the Ordinary Shares are listed on a globally recognized securities exchange, or (2) by the written consent of holders of at least 75% of the outstanding Series C Preference Shares.

Each Preference Share and Non-Voting Ordinary Share automatically converts into an Ordinary Share immediately prior to the listing of the Ordinary Shares on a stock exchange, or upon the transfer or disposal of 51% or more of the Ordinary Shares or 51% or more of the value of the Company's assets to an entity that is not an affiliate of the Company.

Redemption

At any time after the five year anniversary of the closing of the Series C Financing, any holder of Series C Preference Shares has the right to redeem all or a portion of their outstanding Series C Preference Shares for a cash price equal to the greater of (i) the Series C Liquidation Preference plus any accrued but unpaid Series C Preferential Dividends or (ii) the current market price (as determined in accordance with the Bye-Laws) of the Ordinary Shares issuable upon conversion of such Series C Preference Shares.

Liquidation

A liquidation event ("Liquidation Event") is: (1) the sale, liquidation, dissolution or winding up of the Company or any of its material subsidiaries; (2) any merger, amalgamation, consolidation, reconstruction, business combination or similar transaction involving the Company or any of its material subsidiaries; or (3) the sale of all or substantially all of the assets of the Company or any of its material subsidiaries, unless the shareholders immediately prior to such transaction continue to own at least 50% of the surviving or acquiring entity immediately following the completion of such transaction.

Upon the occurrence of a Liquidation Event, the assets of the Company and its subsidiaries available for distribution shall first be applied to paying all accrued and unpaid Series C Preferential Dividends. If the remaining balance of assets available for distribution is less than the aggregate Series C Liquidation Preferences, then such remaining balance of assets will be distributed pro rata to the holders of the Series C Preference Shares. If the remaining balance of assets available for distribution exceeds the aggregate Series C Liquidation Preferences, then such remaining balance of assets will be distributed to the holders of the Series C Preference Shares and Junior Shares pro rata according to the numbers of such shares held (on an as converted basis). The holders of Series C Preference Shares will receive the aggregate Series C Liquidation Preferences prior to any distribution to any other class of stock.

Dividend Activity

Dividends declared and paid

Under the Company's bye laws in effect prior to the Series C Financing, the holders of Series A and Series B Preference Shares were entitled to receive dividends at a rate per annum of 6.00% of the liquidation preference of the Series A and Series B Preference Shares outstanding, paid semi-annually in cash or by accretion to the Series A and Series B liquidation preference (the "Series A and B Preferential Dividends").

In the second quarter of 2021, the Company's Board of Directors and shareholders agreed to defer payment of the Series C Preferential Dividend as of June 30, 2021 ("June 2021 Series C Dividend") and the dividends to Junior Shares as of June 30, 2021 ("June 2021 Junior Dividend"). The Company agreed to pay the June 2021 Series C Dividend and the June 2021 Junior Dividend by December 31, 2021, plus accrued interest at a rate of 10% per annum.

For the year ended December 31, 2021, the Company recognized $82.1 million in interest expense related to the Series C Preferential Dividend and the Series A and B Preferential Dividends. Of the $82.1 million, $4.5 million related to the Series A and B Preferential Dividends from January 1, 2021 to February 8, 2021 and $77.6 million related to the Series C Preferential Dividend from February 8, 2021 to December 31, 2021, including interest for the deferred dividend. The Series A and B Preferential Dividends represented the accrued and unpaid dividends related to the Series A and B Shares as of the Series C Financing closing; as described above, the accrued and unpaid dividends were added to the aggregate liquidation preference used to determine the number of Equity Subscribed Shares issued in connection with the Series C Financing.

For the year ended December 31, 2021, the Company declared and paid cash dividends, including the effect of accrued interest as described above, of $77.6 million to the holders of the Series C Preference Shares and $51.2 million to the holders of Ordinary Shares, Special Shares, and Preference Shares.

For each of the years ended December 31, 2022 and 2023, the Company recognized $85.0 million in interest expense related to the Series C Preferential Dividend, which was also declared and paid in full. For the years ended December 31, 2022 and 2023, the Company declared and paid $85.0 million related to the Series C Preferential Dividend. For the years ended December 2022 and 2023, the Company paid $46.5 million and $49.3 million, respectively, in dividends related to Ordinary Shares, Special Shares, and Preference Shares. For the year ended December 31, 2023, the Group also declared and paid $0.3 million in dividends to non-controlling interests.

Unpaid Preferential Dividends which had not been declared were $0.9 million as of both December 31, 2022 and 2023.

For the years ended December 31, 2021, 2022 and 2023, dividends declared and paid per share were as follows:

21. STOCK BASED COMPENSATION

The Group maintains the Viking Holdings Ltd 2018 Equity Incentive Plan (the "Equity Plan"). Grants from the Equity Plan entitle the recipient to stock based awards whose underlying shares are Non-Voting Ordinary Shares of the Company. Share and per share amounts for all outstanding stock options and RSUs have been revised to give effect to the 26-for-1 share split for all periods presented. See Note 2.

Under the Equity Plan, the Plan Administrator, which is the Board of Directors or a committee established by the Board of Directors, has the authority to determine the terms and conditions applicable to each stock based award, such as timing of grants, recipients, size of grants, vesting conditions, vesting schedule and strike price for stock options. Vested stock options can be exercised upon approval of the Company's Plan Administrator, termination of service or death. Under the Equity Plan, option holders can pay the strike price for options through cash or check, or through cashless exercise, upon approval of the Company's Plan Administrator.

As of December 31, 2023, the Company was authorized to issue up to 46,800,000 Non-Voting Ordinary Shares for stock based awards from the Equity Plan and a prior equity plan combined. As of December 31, 2023, stock based awards for 6,024,564 Non-Voting Ordinary shares remained available for future grant.

The Plan Administrator can suspend or terminate the Equity Plan at any time. Suspension or termination of the Equity Plan does not impair rights and obligations under any stock award granted while the Equity Plan was in effect except with the written consent of the affected participant. Certain stock based awards have vesting provisions in the event of a change in control or only vest if both a change in control occurs and the employee continues to provide service.

The fair value of the Company's Non-Voting Ordinary Shares is used in calculating the grant date fair value of stock based awards. As there is no public market for the Company's Non-Voting Ordinary Shares, the Company's Board of Directors determined the Non-Voting Ordinary Share fair value by considering several objective and subjective factors, including the price paid by investors for the Company's preferred stock or other transactions involving the Company's stock, the Company's actual and forecasted operating and financial performance, market conditions and performance of comparable publicly traded companies, developments and milestones within the Group and the rights and preferences of various classes of stock.

For the years ended December 31, 2021, 2022 and 2023, the Group recognized stock based compensation expense of $23.9 million, $25.3 million, and $17.9 million, respectively. For the year ended December 31, 2021, stock based compensation expense included $21.8 million related to RSUs and $2.1 million related to stock options. For the years ended December 31, 2022 and 2023, all stock based compensation expense related to RSUs. Other paid-in equity also includes certain tax effects related to the stock based awards.

Restricted Stock Units

For the years ended December 31, 2021, 2022 and 2023, RSU activity was as follows:

	Number of RSUs	Weighted Average Grant-date Fair Value	Weighted Average Remaining Contractual Term (in years)
Outstanding at January 1, 2021	15,403,258	$ 6.37	6.9
Granted during the year	886,730	10.34	
Forfeited during the year	(16,510)	6.37	
Outstanding at December 31, 2021	16,273,478	$ 6.59	6.0
Granted during the year	1,625,338	8.31

Forfeited during the year	(64,714)	8.72	
Outstanding at December 31, 2023	18,870,930	$ 7.18	4.3

As of December 31, 2023, 10,011,664 of the RSUs outstanding are subject only to the liquidity condition for vesting, as any applicable service conditions have been met. An additional 6,240,000 of the RSUs have accelerated vesting upon the satisfaction of the liquidity condition, if the grant recipients remain employed by the Group.

Stock options

The Black-Scholes model requires various assumptions, including the fair value of the Company's Non-Voting Ordinary Shares, expected volatility, expected life, and expected dividend yield. All stock options have exercise prices determined by the Company's Board of Directors and are not less than the fair value of the underlying Non-Voting Ordinary Shares on the date of grant.

For the years ended December 31, 2021, 2022 and 2023, stock option activity was as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)
Outstanding at January 1, 2021	3,008,824	$ 15.64	6.2
Forfeited during the year	(12,636)	19.13	
Outstanding at December 31, 2021	2,996,188	$ 15.63	5.2
Forfeited during the year	(10,478)	19.13

Vested at December 31, 2023[2]	2,949,830	$ 15.57	

(1) Stock options outstanding include a range of exercise prices from $12.50 to $19.13.
(2) Vested stock options are exercisable upon the approval of the Plan Administrator.

22. NET (LOSS) INCOME PER SHARE

Under both the Bye Laws adopted at the closing of the Series C Financing and the previous bye laws, the rights, including dividend rights, of the Ordinary Shares and Special Shares are substantially identical, other than voting rights.

Basic net (loss) income per share ("Basic EPS") is computed by dividing net (loss) income attributable to Ordinary Shares and Special Shares by the weighted-average number of Ordinary Shares and Special Shares outstanding during each period. Net (loss) income attributable to Ordinary Shares and Special Shares is determined in accordance with their rights to income and losses. See Note 19. Share and per share amounts have been revised to give effect to the 26-for-1 share split for all periods presented. See Note 2.

To compute diluted net (loss) income per share ("Diluted EPS"), the Group adjusts the numerator and the denominator of Basic EPS. The Group adjusts net (loss) income attributable to Ordinary Shares and Special Shares for the changes in net (loss) income that would result from the conversion of dilutive potential ordinary shares to Ordinary Shares, including changes in how the net (loss) income would be allocated to Ordinary Shares and Special Shares if dilutive potential ordinary shares converted to Ordinary Shares. The Group adjusts the weighted-average number of Ordinary Shares and Special Shares outstanding during each period by the weighted average number of Ordinary Shares that would be issued upon the conversion of dilutive potential ordinary shares to Ordinary Shares.

Potential ordinary shares include Preference Shares, Series A Preference Shares and Series B Preference Shares prior to their extinguishment, and Series C Preference Shares and the warrants beginning from their date of issuance.

Stock based awards issued from the Equity Plan are not potential ordinary shares because the underlying shares of the stock based awards are Non-Voting Ordinary Shares. While Non-Voting Ordinary Shares are considered a class of ordinary shares, because Non-Voting Ordinary Shares are not entitled to dividends and do not share in the net loss of the Group, they are allocated no earnings or losses when calculating Basic EPS and Diluted EPS. As a result, Basic EPS and Diluted EPS for Non-Voting Ordinary Shares are zero in all periods.

The computation of Basic EPS and Diluted EPS is as follows:

(in USD and thousands, except per share data)	Year Ended December 31,		
Basic EPS	**2021**	**2022**	**2023**

For the years ended December 31, 2021, 2022 and 2023, weighted average number of potential ordinary shares that were not included in the Diluted EPS calculations because they would be anti-dilutive were as follows:

	Year Ended December 31,		
(in thousands)	**2021**	**2022**	**2023**
Series A Preference Shares	5,956	—	—
Series B Preference Shares	1,693	—	—
Series C Preference Shares	165,083	—	184,267

The potential ordinary shares related to the conversion of Preference Shares are issuable upon specified contingent events; as the specified contingent events have not occurred, these contingently issuable shares are not included in the calculation of Diluted EPS for the years ended December 31, 2021, 2022 and 2023. The warrants vest and become exercisable into ordinary shares upon contingent events; as the specified contingent events have not occurred, these contingently issuable shares are not included in the calculation of Diluted EPS for the years ended December 31, 2021, 2022 and 2023.

23. SEGMENTS

Operating segments are defined as components of an entity for which separate financial information is available and is evaluated regularly by the chief operating decision maker ("CODM") in deciding how to allocate resources and in assessing performance. The Group's CODM, the Chairman and Chief Executive Officer, evaluates the Group's results in a number of ways, but the primary basis for allocating resources and assessing performance is based on product.

The Group defines its products based on the type of cruise offering and language of the cruise service. The River segment provides river cruises outside the United States to English-speaking passengers. The Ocean segment provides ocean cruises to English-speaking passengers. Other includes operating segments that are not individually reportable, consisting of expedition cruises for English-speaking passengers ("Expedition"), Mississippi River cruises for English-speaking passengers, Viking China, which includes cruises for Mandarin-speaking passengers provided by the Group and the results of the China JV Investment (see Note 27), and also includes corporate activities. The Group typically designates the language of the cruise service by vessel for each cruise season, such that in any individual season, each vessel provides service in either English or Mandarin for the entire season. See Note 4 for disaggregation of percentage of passengers by source market.

The Group's reportable segments are River and Ocean. The change in the Group's reportable segments for the year ended December 31, 2023, compared to December 31, 2022, is the result of increases in occupancy and capacity in River and Ocean, leading to an increased concentration of revenue and operating income for these segments. Accordingly, segment information for the years ended December 31, 2021 and 2022 has been updated to conform to the current year's presentation.

Operating (loss) income is the primary profitability metric the CODM uses to assess performance and allocate resources. Expenses attributable to multiple segments are allocated based on measures that are determined to relate most closely to the expenses, which are generally relative revenues, relative passengers booked, or relative passengers sailed, for a particular period.

The Group does not track all of its assets and liabilities by segment. The Group's most significant assets are its vessels and ships, which are assigned to a segment. The Group's vessels and ships are owned by entities domiciled in Bermuda, Switzerland, Portugal, Russia, Egypt and Ukraine and are registered in Norway, Switzerland, Portugal, Russia, Egypt and Ukraine. The Group's vessels and ships primarily operate in Europe. Chartered vessels, which are not owned by the Group, operate in the United States, Vietnam and Cambodia. Due to the nature of the Group's operations, the vessels and ships do not operate in a fixed location, and the majority operate across country borders, including in international waters.

Longship river vessels can be utilized in either River and Viking China, and may change between these products in different years. Ocean and expedition ships and ocean and expedition ships under construction include ships for both Ocean and Expedition. See Note 9. River vessel charters are recognized as ROU assets. See Note 10.

The Group typically finances its vessels and ships with loans or financial liabilities that are secured by the related vessels and ships. See Note 14.

24. COMMITMENTS AND CONTINGENCIES

Viking newbuilding program

River Newbuilds and Charters

The Group is in the process of building six river vessels that will operate in Egypt, the Viking Hathor, Viking Sobek and four additional vessels, and has entered into raw materials agreements for these vessels. The Group expects these vessels to be delivered between 2024 and 2026.

In 2023, the Group entered into shipbuilding contracts for river vessels outlined below, assuming a euro to USD exchange rate of 1.10. The Group has obtained financing for all of these vessels, as described below.

River Vessels	Number of Vessels	Aggregate Price (in USD and thousands)	Delivery Date
Longships	4	$ 169,400	2025
Longship-Seine	1	40,453	2025
Longships	4	169,400	2026
Longship-Seine	1	40,453	2026
Total	10	$ 419,706	

In August 2023, the Group entered into two loan agreements for €167.5 million each to finance the eight Longships and two Longships–Seine scheduled for delivery in 2025 and 2026. Hermes has provided guarantees equal to 95% of the loan amounts. The loans are denominated in USD and the applicable exchange rate will be based on the prevailing exchange rate two business days prior to the date of drawdown. These loans have a term of 102 months from the date of drawdown and the Group may select fixed or variable rate financing prior to each drawdown. VRC and VCL issued corporate guarantees for these loans.

See Note 28 for events taking place subsequent to December 31, 2023.

In 2023, the Group entered into a charter agreement for an 80-berth river vessel, traveling through Vietnam and Cambodia for the 2025 through 2033 sailing seasons. The Group has an option to extend the charter for two additional seasons. See Note 10.

Ocean Newbuilds

A summary of the ocean newbuilding program is outlined below, assuming a euro to USD exchange rate of 1.10. Each new ocean ship will have 998 berths. The Group has obtained financing for all ships, as described below.

Ocean Ships	Price (in USD and thousands)	Delivery Date
Viking Vela	$ 446,050	2024
Viking Vesta	446,050	2025
Ship XIII	501,523	2026
Ship XIV	501,523	2027
Ship XV	517,000	2028
Ship XVI	517,000	2028
Total	$2,929,146	

In 2021 and 2022, the Group entered into loan agreements to finance the Viking Vela, Viking Vesta, Ship XIII, Ship XIV, Ship XV and Ship XVI. These loans are SACE Financing and are for up to 80% of each newbuild's contract price, including certain change orders, and 100% of the Export Credit Agency premium, and will be available for drawdown in euros or USD for the Viking Vela and Viking Vesta and in USD for Ship XIII, Ship XIV, Ship XV and Ship XVI. The interest rates for the loans are fixed. VCL and VOC II have jointly and severally guaranteed these loans.

In 2023, the Group secured the following options for additional ocean ships:

Ocean Ships—Options	Delivery Date	Option Exercise Date
Ship XVII	2029	May 30, 2024
Ship XVIII	2029	May 30, 2024
Ship XIX	2030	May 30, 2025
Ship XX	2030	May 30, 2025

See Note 28 for events taking place subsequent to December 31, 2023.

Fuel commitments

The Group entered into contracts for a portion of its river fuel usage in Europe for the 2023 and 2024 seasons. As of December 31, 2023, the remaining portions of the contracts for the 2024 season were 1,600 cubic meters. The contract prices are fixed for specified volumes and periods and depend on the place of delivery ranging from $77.80 to $91.70 per 100 liters excluding taxes. The Group may incur fees for unused fuel amounts in the period of the contract, which may be for non-usage or to roll over unused amounts into the following year.

See Note 28 for events taking place subsequent to December 31, 2023.

Contingencies

In the normal course of the Group's business, various claims and lawsuits have been filed or are pending against the Group. Most of these claims and lawsuits are covered by insurance and, accordingly, the maximum amount of the Group's liability is typically limited to its insurance deductible. In addition, new legislation, regulations or treaties, or claims related to interpretations or implementations thereof, could affect the Group's business.

The Group has evaluated its overall exposure with respect to all of its threatened and pending claims and lawsuits and, to the extent required, the Group has accrued amounts for all estimable probable losses associated with its deemed exposure that are not covered by insurance. The Group intends to vigorously defend its legal position on all claims and lawsuits and, to the extent necessary, seek recovery.

Legal provisions

In 2019, one of the Group's river vessels, the Viking Sigyn, was involved in a collision with a Hungarian tourist ship on the Danube River in Budapest, Hungary. As a result of this collision, there were fatalities on the Hungarian tourist ship. The Group maintains protection and indemnity coverage and hull and machinery insurance with respect to the ship. As of December 31, 2023, the Group determined it was probable it would incur amounts for claims related to this incident. Though the ultimate timing, scope and outcome of legal claims are inherently uncertain, the Group recorded an accrual of $15.8 million as of December 31, 2023, compared to $12.9 million as of December 31, 2022, included in accrued expenses and other current liabilities on the consolidated statement of financial position as of December 31, 2023, for estimated claims related to this incident. The Group recorded a corresponding receivable of $15.8 million, included in accounts and other receivables on the consolidated statements of financial position as of December 31, 2023, because the amounts are virtually certain of recovery from the Group's insurance policies.

25. HEDGING INSTRUMENTS

The Group is exposed to foreign currency fluctuations, primarily related to changes in USD/EUR exchange rates, related to its operations.

In July 2022, the Group entered into forward foreign currency contracts to purchase €235.0 million at an average euro to USD exchange rate of 1.05. The forward foreign currency contracts matured at various dates in 2023 and were designated as cash flow hedges for the Group's highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2023.

In September 2023, the Group entered into an additional €470.0 million in forward foreign currency contracts at an average euro to USD exchange rate of 1.09. The forward foreign currency contracts mature at various dates in 2024 and were designated as cash flow hedges for the Group's highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2024.

An economic relationship exists between the hedged items and the hedging instruments as the terms of the forward foreign currency contracts match the terms of the expected highly probable forecast transactions.

As of December 31, 2022 and 2023, the Group held the following forward foreign currency contracts:

	Maturity		
	Less than 12 months	Greater than 12 months	Total
(in EUR and thousands)			
Forward foreign currency contracts			
As of December 31, 2022			
Notional amount	€235,000	€ —	€235,000
Weighted average forward price (EUR/USD)	1.05	—	1.05
As of December 31, 2023			
Notional amount	€470,000	€ —	€470,000
Weighted average forward price (EUR/USD)	1.09	—	1.09

The impact of the hedging instruments on the consolidated statements of financial position as of December 31, 2022 and 2023 were as follows**:**

	Notional amount	Carrying amount	Financial statement line item	Changes in fair value (gain/(loss)) used for calculating hedge ineffectiveness
(in USD and thousands except notional amount in EUR and thousands)				
Forward foreign currency contracts				
As of December 31, 2022	€235,000	$ 7,589	Prepaid expenses and other current assets	$ 7,589
As of December 31, 2023	€470,000	$ 9,315	Prepaid expenses and other current assets	$ 10,668

For the years ended December 31, 2022 and 2023, the effect of the cash flow hedges in the consolidated statements of operations and the consolidated statements of other comprehensive income (loss) was as follows:

(in USD and thousands)	Amount of total hedging gain/(loss) recognized in the consolidated statement of other comprehensive income (loss)	Amount of gain/ (loss) reclassified from the consolidated statement of other comprehensive income (loss) to the consolidated statement of operations	Consolidated statement of operations line item
Highly probable forecasted expenditures			
For the year ended December 31, 2022	$ 7,589	—	—
For the year ended December 31, 2023	$ 10,668	$ 8,942	$3,693 Direct costs of cruise, land and onboard $5,249 Vessel operating

No hedge ineffectiveness was recognized in the consolidated statements of operations for the years ended December 31, 2022 and 2023.

Set out below is a reconciliation of the cash flow hedge component of equity for the years ended December 31, 2022 and 2023:

(in USD and thousands)	Cash flow hedge 2022	Cash flow hedge 2023
As of January 1	$ —	$ 7,589
Effective portion of changes in fair value arising from:		
Forward foreign currency contracts—forecasted expenditures	7,589	10,668
Amount reclassified to the consolidated statement of operations		
Maturity of effective hedges	—	(8,942)
As of December 31	$7,589	$ 9,315

The same reconciliation items presented above for components of equity apply to the components of other comprehensive income (loss) for the years ended December 31, 2022 and 2023.

26. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Risk management overview

The Group is exposed to a number of different financial market risks arising from its normal business activities. Financial market risk is primarily the possibility that fluctuations in currency exchange rates, interest rates and fuel prices will affect the value of the Group's assets, liabilities or future cash flow.

Foreign Currency Risk

The Group is exposed to foreign currency fluctuations, primarily related to changes in USD/EUR exchange rates, related to its ongoing business operations. In 2022 and 2023, the Group entered into forward foreign currency contracts that mature at various dates in 2023 and 2024, respectively, to reduce its exposure to USD/EUR exchange rate fluctuations by hedging certain euro-denominated expenditures for direct costs of cruise, land and onboard and vessel operating. See Note 25. Based on the Group's outstanding forward foreign currency contracts as of December 31, 2022 and 2023, a 10% increase or decrease in the value of the USD against the euro, with all

other variables held constant, would result in a $25.1 million and $51.9 million, respectively, increase or decrease in net change in cash flow hedges in the consolidated statement of other comprehensive income (loss).

As of December 31, 2022 and 2023, the majority of the Group's cash and cash equivalents were held in USD denominated accounts.

As discussed in Note 14, certain of the Group's loans are denominated in currencies other than the USD, primarily the loans associated with financing the Viking Neptune and Viking Saturn are denominated in euros. Based on the Group's outstanding Viking Neptune loan balance as of December 31, 2022 and Viking Neptune and Viking Saturn loan balances as of December 31, 2023, a 10% increase or decrease in the value of the USD against the euro, with all other variables held constant, would result in a $33.9 million and $65.5 million, respectively, decrease or increase on the balance of the bank loans.

Interest Rate Risk

The Group's risk management objective for interest rate risk is to reduce the exposure to variability of cash flows arising from changes in interest rates. Interest rates on the Group's lease contracts are fixed and thus are not sensitive to fluctuation in market interest rates. As discussed in Note 14, the Group has both fixed rate and variable rate loans and financial liabilities. The fixed rate loans and the fixed rate financial liabilities are not sensitive to interest rate fluctuations. Certain of the Group's variable interest rate borrowings used LIBOR through June 30, 2023. For the river vessel loans, beginning with the first interest rate adjustment for each variable rate loan subsequent to June 30, 2023, the interest rate is based on Term SOFR plus the CAS and a margin. Additionally, the outstanding Viking Octantis variable rate charter agreement adopted the use of Term SOFR plus the CAS and a margin, beginning September 2023. The transition had no impact on the Group's risk management strategy. See Note 14.

The following table shows the annual effects of changes to the interest rate (+/- 1%) for the balances of the Group's loans outstanding and financial liabilities with variable rates as of December 31, 2022 and 2023. An increase or decrease in the interest rates would result in a decrease or increase, respectively, on the Group's (loss) income before income taxes as follows:

	Increase/decrease in interest rate	Effect on income (loss) before income taxes (USD '000)
2022	+/- 1%	-/+ 7,260
2023	+/- 1%	-/+ 5,763

If interest rates changed by greater than +/- 1%, the effect on the Group's income (loss) before income taxes would be proportionate for each 1% change to amounts shown in table above.

Fuel Price Risk

From time to time, the Group may use financial instruments to mitigate its exposure to the risk of increases in fuel prices. These contracts were not designated as hedges for accounting purposes. As of December 31, 2022 and 2023, the Group did not have any financial instruments related to fuel purchases. In order to mitigate risks related to river fuel prices, the Group may also enter into fixed price fuel contracts for its expected river fuel consumption related to its European sailings. This limits the uncertainty related to fuel prices on the Group's results. As these contracts are fixed contracts for the Group's own use, the contracts are not derivative instruments.

See Note 28 for events taking place subsequent to December 31, 2023.

Credit Risk

The Group only trades with third parties that it believes are creditworthy. Receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. The Group's largest receivables are from highly reputable credit card processors. As the Group constantly monitors these receivables, the risk of non-collection is unlikely. Other non-current assets are comprised primarily of cash deposited with reputable financial institutions as security for letters of credit and certificates of deposits.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets as disclosed under "*Fair Value of Financial Assets and Liabilities*".

In connection with the Group's prepayments for vessel and shipbuilding and refurbishment projects and prepayments to certain suppliers, the Group has a concentration of prepayments to these vendors. Total prepayments as of December 31, 2022 and 2023 were $230.1 million and $410.0 million, respectively.

Liquidity Risk

The Group manages its risk to a shortage of funds by monitoring the projected cash flows from operations. Risk management includes maintaining sufficient cash balances. The Group generates cash flow through advance bookings and the Group relies on multiple credit card processors for collection of the customer funds for such future cruises. Changes in booking and collections patterns or additional reserve requirements in the Group's credit card processing terms could have a material adverse impact on the Group's liquidity position. Due to the dynamic and seasonal nature of the underlying business, the Group maintains sufficient cash for its daily operations via short-term cash deposits at banks.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted cash flows (in USD and thousands):

Capital Management

The Group's objective when managing capital (cash and cash equivalents, equity, bank loans and financial liabilities, Unsecured Notes and Secured Notes) is to balance the cash flow needs of the Group, while ensuring that appropriate capital is deployed in order to support the Group's product offerings. Consistent with industry practice, the Group utilizes cash collected from advance bookings to fund operations. The Group may utilize bank loans, financial liabilities and leases to finance its current fleet and future newbuilding programs. Additionally, the Group manages its capital structure and makes adjustments to it in light of changes in economic conditions.

As described in Note 14, the Group's borrowings contain customary insurance requirements and negative covenants subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness and dividends and other distributions. Also described in Note 14, the Hermes Financing also has financial maintenance covenants for VRC and VRC AG. As of December 31, 2023, VRC and VRC AG were in compliance with these financial maintenance covenants.

Fair Value Hierarchy

The following hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available:

Level 1—Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement dates.

Level 2—Significant other observable inputs that are used by market participants in pricing the asset or liability based on market data obtained from independent sources.

Level 3—Significant unobservable inputs the Group believes market participants would use in pricing the asset or liability based on the best information available.

For assets and liabilities that are recognized in the consolidated financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Group had no transfers between levels in the hierarchy during the years ended December 31, 2022 and 2023.

As of December 31, 2022 and 2023, designation within the fair value hierarchy for the Group's financial assets and liabilities is outlined below:

Financial assets and liabilities measured at amortized cost

The fair value of the Group's fixed interest bank loans and financial liabilities were calculated based on estimated rates for the same or similar instruments with similar terms and remaining maturities. The Unsecured Notes and the Secured Notes use pricing from secondary markets for the Group's issued notes that are observable for the notes throughout the duration of the term. The Group designated these financial liabilities as Level 2 fair value instruments as valuation techniques contain observable inputs used by market participants.

The Group designated the Private Placement liability as a Level 3 fair value instrument as the valuation technique used is a discounted cash flow approach based on expected principal and dividend payments associated with the Private Placement liability, the assumptions around which are significant unobservable inputs. The value is sensitive to changes in expected future cash flows and the discount rates.

Financial assets and liabilities measured at fair value

Forward foreign currency contracts are designated as Level 2 fair value instruments as the fair values are measured based on inputs that are readily available in public markets or can be derived from information in publicly quoted markets. The valuation is determined using present value calculations that incorporate inputs such as foreign exchange spot and forward rates and yield curves of the respective currencies.

The valuation of the Private Placement derivative is based on lattice model methodology, which takes into consideration enterprise value based on a discounted cash flow model, fair value of debt holdings and various market factors. The value is sensitive to changes in the discounted cash flow model, including changes in expected future cash flows, the USD/EUR forward curve and the discount rates; changes in the discounted cash flow model result in changes in the ordinary share price. The Private Placement derivative is designated as Level 3 fair value instrument as the fair value is measured based on significant unobservable inputs, including but not limited to, ordinary share price, which is based on the discounted cash flow model, and ordinary share volatility.

The valuation of the warrant liability is based on a lattice model methodology, which takes into consideration ordinary share price and estimated volatility. The warrant liability is a Level 3 fair value instrument as the fair values are measured based on significant unobservable inputs, including but not limited to, ordinary share price, which is based on the discounted cash flow model, and ordinary share volatility.

The 2025 Secured Notes embedded derivative, which was derecognized in 2023, was designated as a Level 3 fair value instrument as the fair value is measured based on a Black-Derman-Toy binomial lattice model, which determines the future evolution of the interest rates relevant to the embedded derivative. The fair value was sensitive to market interest rates, the credit spread, interest rate volatility and time to redemption date.

The sensitivity of the fair value to the Level 3 significant unobservable inputs related to the warrant liability are outlined below:

Significant unobservable inputs	Fair value as of December 31, 2022 (in thousands)	Fair value as of December 31, 2023 (in thousands)

Transactions with China JV Investment

In 2020, the Group entered into an agreement with a subsidiary of China Merchants Group (“CMG”) to together build a cruise line targeting the Chinese-speaking populations in China (“China JV Investment”). The China JV Investment is comprised of two primary entities, CMV and Shenzhen China Merchants Viking Cruises Tourism Limited (“SCM”). In 2021, the Group and the subsidiary of CMG made the initial capital contributions to these entities.

The Group has a 10% interest in CMV, the entity that contracts with passengers, owns and operates the ships and performs related activities. The Group’s interest in CMV is accounted for as an associate using the equity method of accounting because the Group has significant influence through its representation on the board of directors. For the years ended December 31, 2021, 2022 and 2023, the Group contributed capital of $18.0 million, nil and $7.0 million, respectively, to CMV. At the time of the capital contribution in 2023, the carrying amount of the Group’s investment in CMV was zero and the Group’s portion of CMV’s losses that had not yet been recognized were in excess of $7.0 million. Accordingly, the $7.0 million capital contribution was recognized as a loss and included in other financial income (loss) in the consolidated statements of operations for the year ended December 31, 2023.

For the years ended December 31, 2021, 2022 and 2023, the Group recognized total losses of $7.7 million, $2.4 million and $7.3 million, respectively, for the Group’s share of CMV’s net loss, which is included in other financial income (loss) in the consolidated statements of operations.

The carrying amount of the Group’s investment in CMV, which is included in investments in associated companies on the consolidated statements of financial position, was zero as of December 31, 2022 and 2023.

In 2021, the Group sold the Viking Sun ocean ship for $400.0 million to CMV, and recognized a gain on sale for the difference between the sale price and net book value, reduced by 10%, which represents the Group’s ownership interest in CMV. CMV financed the purchase of the Viking Sun and pursuant to the terms of the

Group's investment in CMV, VCL guaranteed 10% of CMV's obligations under the financing, up to a maximum of $45.0 million.

The Group provides services to CMV related to the Group's cruise industry expertise. For the years ended December 31, 2021, 2022 and 2023, the Group recognized services revenue of $33.5 million, $13.0 million and $23.5 million, respectively, which is included in onboard and other in the consolidated statements of operations. As of December 31, 2022 and 2023, $8.9 million and $11.6 million, respectively, of the current receivables due from related parties related to CMV.

The Group has a 50% interest in SCM, the entity that provides services for business planning, management consulting, sales, product development, and hotel operations to CMV. The Group controls SCM through its rights to nominate key board and management positions, who have the power to direct the activities that most directly impact SCM's returns, and the services provided by SCM, which primarily relate to the Group's cruise industry expertise. Accordingly, the Group consolidates the results of SCM into the Group's consolidated financial statements.

VIKING HOLDINGS LTD
(PARENT COMPANY ONLY)
NOTES TO THE CONDENSED FINANCIAL STATEMENTS
DECEMBER 31, 2023

1. BACKGROUND AND BASIS OF PREPARATION

These condensed parent company-only financial statements have been prepared in accordance with Rule 12-04 of Regulation S-X, as the restricted net assets of Viking Holdings Ltd ("VHL" or the "Company") and its subsidiaries (the "Group") exceed 25% of the consolidated net assets of Viking Holdings Ltd and its subsidiaries. This information should be read in conjunction with the Group's consolidated financial statements included elsewhere in this prospectus.

VHL's investment in subsidiaries is stated at historical cost, including contributed capital, less any write-down for impairment. Based on the carrying value of the Company's subsidiaries, no impairment charges were recorded for any periods presented.

Except for its accounting for investments in subsidiaries as described above, the accounting policies for the Company are the same as those described in Note 2 of the Notes to the Consolidated Financial Statements included elsewhere in this prospectus.

2. COMMITMENTS, CONTINGENCIES, AND LONG-TERM OBLIGATIONS

For a discussion of the Company's commitments, contingencies, and long-term obligations under its Private Placement liability and derivative and other non-current liabilities, see Notes 15, 20, 24 and 26 of the Group's consolidated financial statements.

3. TRANSACTIONS WITH RELATED PARTIES AND SUBSIDIARIES

VHL entered into loan agreement to borrow up to $25.0 million from one of its subsidiaries and in turn, VHL entered into loan agreement to lend up to $25.0 million to one of its subsidiaries. Each of the loans are interest bearing at 5% and mature in 2025. As of both December 31, 2022 and 2023, $14.2 million of each $25.0 million had been drawn. As VHL is the ultimate parent of both subsidiaries, these loans and related interest are eliminated in the consolidated financial statements.

For the years ended December 31, 2021, 2022 and 2023, management service revenue from subsidiaries was $8.8 million, $10.6 million and $8.6 million, respectively, which is eliminated in the consolidated financial statements.

Receivables from subsidiaries and payables to subsidiaries are eliminated in the consolidated financial statements.

The Company is registered in Bermuda as an exempted company and, pursuant to Section 14(3) of the Companies Act 1981, has perpetual succession. The Company's majority shareholder is Viking Capital Limited ("VCAP"), which is registered in the Cayman Islands as an exempted company.

The principal business activity of the Company and its subsidiaries (the "Group") is to engage in passenger shipping and other forms of passenger transport and as a tour entrepreneur for passengers and related activities in tourism.

The interim condensed consolidated financial statements of the Group ("interim financial statements") for the three and six months ended June 30, 2024 were authorized for issuance by the Company's Board of Directors on August 22, 2024.

Initial Public Offering

On May 3, 2024, the Company closed its initial public offering (the "IPO") of its ordinary shares. The Company issued 11,000,000 ordinary shares, at a public offering price of $24.00 per share. The Company received net proceeds of $243.9 million after deducting underwriting discounts and commissions of $13.2 million and other offering expenses of $6.9 million. In addition, certain existing shareholders sold ordinary shares in the IPO.

Immediately prior to the consummation of the IPO, all outstanding preference shares and Series C Preference Shares converted to ordinary shares on a one-for-one basis (the "Conversion Event"). Additionally, all outstanding options for non-voting ordinary shares and all outstanding restricted share units ("RSUs") for non-voting ordinary shares converted to options for ordinary shares and RSUs for ordinary shares, respectively, on a one-for-one basis. All authorized Series C Preference Shares, preference shares and non-voting ordinary shares were also redesignated into authorized ordinary shares. Additionally, in connection with the IPO, the Company adopted updated bye-laws ("Post IPO Bye Laws"). Following the IPO and in accordance with the Post IPO Bye Laws, the Company has two classes of authorized share capital: ordinary shares and special shares. Each ordinary share is entitled to one vote per share, and each special share is entitled to 10 votes per share.

All RSUs granted by the Company are subject to a liquidity vesting condition and some RSUs are also subject to a service condition. Upon the consummation of the IPO, the liquidity condition was satisfied, resulting in the vesting of 16,251,664 outstanding RSUs. In connection with the settlement of the RSUs that vested upon IPO, the Company withheld 5,171,224 ordinary shares and used $136.4 million of the net proceeds from the IPO to satisfy tax withholding and remittance obligations. As a result, the Company issued 11,080,440 ordinary shares in connection with the net settlement of RSUs that vested upon IPO. See Note 14.

Following the IPO, the Company has 431,603,528 total ordinary shares and special shares outstanding, comprised of 303,832,404 ordinary shares and 127,771,124 special shares. See Note 12.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

Basis of preparation

The interim financial statements for the three and six months ended June 30, 2024 have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). The interim financial statements are prepared based on the same accounting policies used in the Group's annual consolidated financial statements as of and for the year ended December 31, 2023 (the "annual consolidated financial statements").

The interim financial statements are unaudited and do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's audited consolidated financial statements and notes included in its final prospectus, dated April 30, 2024, filed with the SEC pursuant to Rule 424(b) under the Securities Act of 1933, as amended, on May 2, 2024 (the "Prospectus") in connection with the Company's IPO.

The interim financial statements have been prepared on a historical cost basis, except for forward foreign currency contracts, financial assets and liabilities at fair value through profit or loss, the warrant liability and the Private Placement derivative, which are carried at fair value and are re-measured through the interim condensed consolidated statements of operations and the interim condensed consolidated statements of other comprehensive income (loss).

Except as otherwise noted, all amounts in the interim financial statements are presented in United States ("U.S.") Dollars ("USD" or "$") and all values are rounded to the nearest thousand ($000). The interim condensed consolidated statements of cash flows are prepared using the indirect method. The interim financial statements are based on the assumption of going concern.

On April 11, 2024, a 26-for-1 share split of the Company's authorized and issued ordinary shares, special shares, preference shares, non-voting ordinary shares and Series C Preference Shares was effected by way of an increase in capital and bonus issue of 25 shares on each one outstanding share (the "26-for-1 share split"). Contractual agreements which settle in shares, including warrants and share-based payment arrangements, include anti-dilution provisions which provide for the automatic adjustment in the event of share splits. The Company has given retrospective effect to the 26-for-1 share split on all share and per-share amounts, including for such contractual arrangements that settle in shares, for all periods presented, including in Notes 12, 14 and 15.

New and amended standards and interpretations

The Group intends to adopt relevant new and amended accounting standards and interpretations when they become effective. The Group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

In 2024, the Company adopted amendments to IAS 1, *Presentation of Financial Statements* ("IAS 1"), related to the classification of liabilities as current or non-current. The IAS 1 amendments clarified that settlement of a liability includes settlement with the Company's own equity instruments. As the warrants (see Note 9) settle in the Company's own equity instruments, the amendments impacted the classification of the warrants.

In April 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements* ("IFRS 18") which replaces IAS 1. IFRS 18 requires an entity to classify all income and expenses within its statement of operations into one of five categories: operating, investing, financing, income taxes and discontinued operations. The first three categories are new. These categories are complemented by the requirement to present subtotals and totals for "operating profit or loss," "profit or loss before financing and income taxes" and "profit or loss." IFRS 18 and the amendments to other standards are effective for reporting periods beginning on or after January 1, 2027, but earlier application is permitted. The Group is currently evaluating the impact of this amendment.

Other than as described above, there are no standards, interpretations, or amendments issued but not yet effective, that are expected to have a material impact on the Group's interim financial statements.

3. SEASONALITY OF OPERATIONS

The Group's results are seasonal because while the ocean, expedition and Mississippi products operate year-round, the primary cruising season for the river product is from April to October, although some of the river cruises run longer seasons. Additionally, the Group's highest occupancy occurs during the Northern Hemisphere's summer months. The Group recognizes cruise-related revenue over the duration of the cruise and expenses its marketing and employee costs when the related costs are incurred. As a result, the majority of the Group's revenue and profits have historically been earned in the second and third quarters of each year, while the first and fourth quarters of each year have been closer to break even or a loss, as the Group's selling and administration expenses are consistent throughout the year. Though the growth of the Group's fleet of year-round products will continue to reduce the seasonality in future periods, the Group expects the seasonality trend of its revenue and profits to continue.

4. REVENUE FROM CONTRACTS WITH CUSTOMERS

Disaggregation of revenue

The table below disaggregates total revenue by reportable segment (see Note 16) for the three and six months ended June 30, 2024 and 2023:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
(in USD and thousands)				
River	$ 891,747	$ 832,989	$ 1,057,178	$ 963,275
Ocean	573,225	529,917	1,020,905	927,549
Other	122,289	91,865	227,333	192,941
Total revenue	$ 1,587,261	$ 1,454,771	$ 2,305,416	$ 2,083,765

Total revenue for the three months ended June 30, 2024 increased by $132.5 million to $1,587.3 million from $1,454.8 million for the same period in 2023. Total revenue for the six months ended June 30, 2024 increased by $221.6 million to $2,305.4 million from $2,083.8 million for the same period in 2023. These increases were primarily due to higher revenue per passenger cruise day and an increase in passenger cruise days, mainly due to the operation of additional ships delivered, including the Viking Saturn and Viking Aton, which were delivered in April 2023 and August 2023, respectively. Additionally, for the six months ended June 30, 2024, the Group had an earlier season start for certain river vessels in Europe beginning in January.

Regional economic trends affect the Group's revenue and cash flows. The table below disaggregates percentage of passengers by source market, which is the passenger's home country or region, for the three and six months ended June 30, 2024 and 2023:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023

Other	1.6%	0.3%	1.1%	0.2%
	100.0%	100.0%	100.0%	100.0%

The disaggregation by source market is similar across all reportable segments.

The Group's vessels and ships primarily operate in Europe.

River vessels and equipment and river vessels under construction include amounts attributable to the Group's river fleet, including vessels improvements and equipment for the Viking Mississippi. In 2012, the Group launched the Longship ("Longship") series of vessels. As of June 30, 2024, the Group's river fleet consisted of 81 river vessels, of which 58 are Longships, 10 are small classes based on the Longship design, 11 are other river vessels and two are river vessel charters, including the Viking Mississippi.

During the six months ended June 30, 2024, additions to river vessels and equipment included $24.2 million in improvements to river vessels.

During the six months ended June 30, 2024, there were $112.5 million in additions to river vessels under construction, of which $75.9 million related to progress payments for eight Longships, two Longships-Seine and one Longship-Douro under construction scheduled for delivery in 2025 and 2026 and $36.6 million related to Egypt river vessels under construction scheduled for delivery between 2024 and 2026.

The Group did not identify any impairment indicators related to property, plant and equipment and intangible assets as of June 30, 2024 and December 31, 2023. The Group's conclusions regarding the valuation of its property, plant and equipment and intangible assets may change in future periods if factors or circumstances cause the Group to revise its assumptions in future periods, including related to inflation and rising interest rates. The Group's future cash flows may be impacted by climate related risks, including environmental changes or more stringent environmental regulations. Such changes may impact accounting estimates in future periods, which incorporate forecasted financial performance.

9. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

In February 2021, the Company issued two warrants for 8,733,400 ordinary shares to VCAP, with each warrant being for 4,366,700 ordinary shares. The vesting period of the warrants commenced on the date of issuance and ends on the later of five years from the date of issuance or upon the sale of all of TPG's or CPP Investments' equity in the Company. Each warrant is tied to either TPG VII Valhalla Holdings, L.P. ("TPG") and CPP Investment Board PMI-3 Inc. ("CPP Investments") equity in the Company and the number of warrants that vest is based on either the proceeds to TPG or CPP Investments upon a sale of their equity in the Company or the trading price of the Company's ordinary shares starting 180 days after the IPO. The number of warrants that vest depends on the proceeds or trading price, as applicable, per ordinary share, with 0% vesting at $15.38 or lower price per ordinary share and 100% vesting at $23.08 or higher price per ordinary share, and linear vesting between $15.38 and $23.08 per ordinary share. The warrants have an exercise price of $0.01.

The warrants are accounted for as a financial liability because the terms require the Company to potentially issue a variable number of ordinary shares in the future. The warrant liability is carried at fair value with changes in value recognized through the interim condensed consolidated statements of operations. The fair value of the warrant liability increased from December 31, 2023 to June 30, 2024 as a result of the increase in the Company's ordinary share price. For the three months ended June 30, 2024 and 2023, the Company recognized losses of $123.0 million and $2.3 million, respectively, on the remeasurement of the warrant liability. For the six months ended June 30, 2024 and 2023, the Company recognized a loss of $146.7 million and a gain of $1.8 million, respectively, on the remeasurement of the warrant liability. The warrant liability is included in other non-current liabilities on the interim condensed consolidated statement of financial position as of December 31, 2023. See Note 11.

The changes in accrued expenses and other current liabilities are based on the timing of accruals for goods and services and payments.

River vessel financing

Hermes Financing

Euler Hermes Aktiengesellschaft (“Hermes”) manages the official export credit guarantee scheme on behalf and for the account of the German Federal Government. Subsidiaries of the Group have loan agreements with lender groups for which Hermes has provided guarantees equal to 95% of the loan amounts (the “Hermes Financing”). The Hermes Financing includes the €236.1 million loan, the €288.9 million loan, the €225.8 million loan, the €153.2 million loan and the €53.6 million loan. All loans that are part of the Hermes Financing are denominated in euros (“EUR” or “€”) at drawdown dates and are converted to USD based on the prevailing exchange rates two days before drawdown and have a term of eight and a half years from the drawdown dates with semi-annual payments. The Group selected fixed or variable rate financing for each of the drawdowns. Viking River Cruises Ltd (“VRC”), a subsidiary of the Group, has also issued a corporate guarantee for the obligations related to these loans. The variable rate is based on Term Secured Overnight Financing Rate (“SOFR”) plus the Credit Adjustment Spread (“CAS”) and a margin. The Hermes Financing contains customary insurance and loan to value requirements and negative covenants subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness, dividends and other distributions.

In 2020 and 2021, the Group amended the Hermes Financing to defer principal payments due from April 2020 to March 2022 (the “deferral period”). Under the amended terms of the agreements, at each date within the deferral period that a principal payment was due, the Group made the principal payments with drawdowns of new tranches on the existing loans (“deferred tranches”). The deferred tranches had variable interest rates and were to be repaid semi-annually over a three to five year term beginning after the end of the deferral period, or could be repaid earlier. In connection with the amendments to these loan agreements, Viking Cruises Ltd (“VCL”), a wholly owned subsidiary of the Company, became an additional guarantor of the loans while the deferred tranches were outstanding. In June 2024, the Group made prepayments totaling $73.1 million on the remaining balance of all deferred tranches outstanding under the Hermes Financing, thereby fully extinguishing the deferred tranches and terminating the VCL guarantees of these amounts. For the three and six months ended June 30, 2024, the Group recognized non-recurring charges in interest expense of $1.2 million related to the write off of unamortized loan fees for the deferred tranches.

The Hermes Financing also has financial maintenance covenants that require VRC, as guarantor, and Viking River Cruises AG ("VRC AG"), as borrower, to maintain at all times following the first drawdown, an aggregate amount of consolidated free liquidity, which includes cash and cash equivalents, marketable securities and receivables from credit card processors, equal to or greater than $75.0 million. As of June 30, 2024, VRC and VRC AG were in compliance with these financial maintenance covenants.

€54.2 Million Loan

In January 2013, the Group entered into a loan agreement for €54.2 million to finance the Viking Baldur and Viking Magni and to refinance the Viking Legend (all amounts related to the Viking Legend have since been repaid). The €54.2 million loan was converted to USD based on the prevailing exchange rates two days prior to the dates of drawdown and has a term of 10 years from drawdown dates with monthly payments and a balloon payment due upon maturity of the loan. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the €54.2 million loan for principal payments due from April 2020 through March 2022 and extended the maturity date of the loan by a total of 25 months.

€20.3 Million Loan

In April 2014, the Group entered into a loan agreement for €20.3 million to finance the Viking Kvasir. The €20.3 million loan was converted to USD based on the prevailing exchange rates two days prior to the date of drawdown, and has a term of 10 years from the drawdown date with monthly payments and a balloon payment due upon maturity of the loan. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the €20.3 million loan for principal payments due from April 2020 through March 2022 and extended the maturity date of the loan by a total of two years.

$53.5 Million Loan

In March 2015, the Group entered into a loan agreement for $53.5 million to finance the Viking Astrild and the Viking Beyla and to refinance the Viking Idi. The $53.5 million loan has a term of 10 years from drawdown dates with quarterly installments and a balloon payment due upon maturity of the loan. The loan has fixed rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

$40.0 Million Loan

In December 2017, the Group entered into a loan agreement for $40.0 million to refinance three vessels operating in Portugal, the Viking Hemming, Viking Osfrid and Viking Torgil. The $40.0 million loan has a term of eight years from drawdown date with quarterly payments. The loan has fixed rate financing. The loan also includes customary insurance requirements. VCL issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group amended the $40.0 million loan to defer principal payments due from June 2020 through March 2022 and extended the maturity date of the loan by a total of two years.

$102.0 Million Loan

In December 2017, the Group entered into a loan agreement for $102.0 million to finance the Viking Vali, Viking Tir, Viking Sigyn and Viking Ullur. The $102.0 million loan has a term of eight and half years from drawdown date with monthly payments. The loan has fixed rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group amended the $102.0 million loan to defer principal payments due from June 2020 through May 2022. As a result of the deferrals in 2020 and 2021, the maturity date of the loan was extended by a total of one year and the remaining monthly principal payment amounts increased.

$15.1 Million Loan

In April 2019, the Group entered into a loan agreement for $15.1 million to refinance the Viking Helgrim. The $15.1 million loan has a term of 10 years from the drawdown date with monthly payments. The loan has variable rate financing. The loan also includes customary insurance requirements. VRC issued a corporate guarantee for this arrangement.

In 2020 and 2021, the Group deferred principal payments for the $15.1 million loan for principal payments due from May 2020 through March 2022, which increased all remaining monthly principal payment amounts. These deferrals did not extend the maturity date of the loan.

Other loans

€6.2 Million Loan

In July 2020, the Group entered into a loan agreement for €6.2 million and drew down the full amount, of which 90% is guaranteed by the French government. The loan has a fixed interest rate and is denominated in euros. In March 2021, the Group selected a five year repayment term, with quarterly payments from the selection date.

20.0 Million CHF Loan

In the third quarter of 2020, the Group obtained a credit facility for 20.0 million Swiss Francs ("CHF"), of which 85% is guaranteed by the Swiss government, due December 2024, denominated in CHF with semi-annual payments beginning in 2021. In 2021, the Group amended the credit facility, which extended the due date to 2027 and reduced the amount of each semi-annual payment beginning in the first quarter of 2022. The credit facility contains customary requirements including, without limitation, covenants restricting indebtedness.

Ocean and Expedition Ship Financing

Charter Financing

The Group previously entered into charter agreements to finance the Viking Orion, Viking Jupiter, Viking Octantis and Viking Mars. The charter agreements are accounted for as financial liabilities. The charter rates for the Viking Orion, Viking Jupiter and Viking Mars are designated as fixed rate charters. The charter rate for the Viking Octantis is designated as a variable rate charter, which is based on SOFR plus the CAS and a margin. The charter periods are 144 months beginning from the delivery date of each ship and include a purchase obligation at the end of the charter term, with an option to purchase the ship beginning on the third anniversary of the charter commencement date. VCL issued a corporate guarantee for these arrangements. The Group took delivery of the Viking Orion in June 2018, Viking Jupiter in February 2019, Viking Octantis in December 2021 and Viking Mars in May 2022.

SACE Financing

SACE SpA ("SACE"), which manages the official export credit guarantee scheme on behalf and for account of the Italian Government, provides an insurance policy to the lenders covering 100% of the principal and interest of a facility amount. Eight subsidiaries of the Group each have a loan agreement for which SACE has provided an insurance policy to the lenders covering 100% of the principal and interest of the facility amount (the "SACE Financing"). Each loan will be drawn down upon delivery of the related ocean ship. All loans that are part of the SACE Financing are for up to 80% of the newbuild's contract price, including certain change orders, plus 100%

of the Export Credit Agency premium (the "Facility"). The interest rate for each of these loans is fixed and the loans have a term of 12 years from the drawdown date with semi-annual payments, the first of which is due six months after the drawdown at delivery. VCL and Viking Ocean Cruises II Ltd ("VOC II"), a subsidiary of the Group, have jointly and severally guaranteed each of these loans. As of June 30, 2024, the outstanding SACE Financing includes the €316.6 million Neptune loan and the €316.6 million Saturn loan. For the Viking Vela, Viking Vesta, Ship XIII, Ship XIV, Ship XV and Ship XVI, the SACE Financing will be available for drawdown in USD.

The Group took delivery of the Viking Neptune and Viking Saturn in November 2022 and April 2023, respectively.

As the principal amounts of both the €316.6 million Neptune and the €316.6 million Saturn loans are outstanding in euros, the loan balances at each period end are translated to USD with changes recognized through currency gain (loss) in the interim condensed consolidated statements of operations. For the three months ended June 30, 2024 and 2023, the translation resulted in a net currency gain of $4.6 million and $4.1 million, respectively, and a net decrease to the loan balances of $4.6 million and $4.1 million, respectively. For the six months ended June 30, 2024 and 2023, the translation resulted in a currency gain of $19.0 million and a net currency loss of $1.3 million, respectively, resulting in a decrease to the loan balances of $19.0 million and a net increase to the loan balances of $1.3 million, respectively.

Ocean cruise financial liability deposit

The Viking Orion charter agreement requires the Group to maintain a minimum of $6.5 million in a financial liability deposit throughout the charter period, which is included in cash and cash equivalents on the interim condensed consolidated statements of financial position.

Undrawn borrowing facilities

As of June 30, 2024, the Group had the SACE Financing for the Viking Vela, Viking Vesta, Ship XIII, Ship XIV, Ship XV and Ship XVI. The Group has also entered into two loan agreements for €167.5 million each to finance the eight Longships and two Longships-Seine scheduled for delivery in 2025 and 2026. VRC and VCL issued corporate guarantees for the two €167.5 million loans. These loan agreements will be drawn down on the delivery of each ship or vessel. See Note 17.

"2028 Secured Notes") with semi-annual interest payments. The 2028 Secured Notes are guaranteed on a senior unsecured basis by VCL and on a senior secured basis by Viking Ocean Cruises Ship I Ltd, Viking Ocean Cruises Ship II Ltd and Viking Sea Ltd. $350.0 Million 2029 Secured Notes

In February 2021, Viking Ocean Cruises Ship VII Ltd ("Ship VII"), a wholly owned subsidiary, issued $350.0 million in principal amount of its 5.625% Senior Secured Notes due 2029 (the "2029 Secured Notes" and collectively with the 2028 Secured Notes, the "Secured Notes") with semi-annual interest payments. The net proceeds from the 2029 Secured Notes were used to pay the remaining contract price for the Viking Venus. The 2029 Secured Notes are secured on a first priority basis by a mortgage granted by Ship VII over the Viking Venus and certain of its other ship related assets. The 2029 Secured Notes are guaranteed on a senior unsecured basis by VCL.

The indentures governing the Secured Notes contain customary negative covenants applicable to VCL and its restricted subsidiaries, subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness and dividends and other distributions. In addition, the indentures governing the Secured Notes contain a cross-default provision whereby the failure by VCL or any of its restricted subsidiaries to make principal payments under other borrowing arrangements or the occurrence of certain events affecting those other borrowing arrangements could trigger an obligation to repay the Secured Notes. Pursuant to the indentures governing the Secured Notes, the issuers or the guarantors also entered into security documents containing customary insurance requirements.

The Secured Notes do not contain any financial maintenance covenants.

In May 2015, VCL issued $250.0 million in principal of the 6.250% Senior Notes due 2025 (the "2025 VCL Notes") with semi-annual interest payments. Certain of the Group's subsidiaries jointly and severally guarantee the 2025 VCL Notes on a senior basis.

$825.0 Million 2027 VCL Notes

In September 2017, VCL issued $550.0 million in principal of the 5.875% Senior Notes due 2027 (the "2027 VCL Notes") with semi-annual interest payments. $500.0 Million 2029 VCL Notes

In 2021, VCL issued $500.0 million in principal amount of its 7.000% Senior Notes due 2029 (the "2029 VCL Notes") with semi-annual interest payments. The 2029 VCL Notes are guaranteed by the same subsidiaries that guarantee the 2025 VCL Notes and the 2027 VCL Notes, except for Viking Catering AG.

$720.0 Million 2031 VCL Notes

In June 2023, VCL issued $720.0 million in principal amount of its 9.125% Senior Notes due 2031 (the "2031 VCL Notes" and, together with the 2025 VCL Notes, the 2027 VCL Notes and the 2029 VCL Notes, the "Unsecured Notes") with semi-annual interest payments. The 2031 VCL Notes are guaranteed by the same subsidiaries that guarantee the 2025 VCL Notes and the 2027 VCL Notes, except for Viking Catering AG and Passenger Fleet LLC.

The indentures governing the Unsecured Notes contain customary negative covenants applicable to VCL and its restricted subsidiaries, subject to a number of important exceptions and qualifications, including, without limitation, covenants restricting indebtedness, liens, investments, mergers, affiliate transactions, asset sales, prepayment of indebtedness and dividends and other distributions. In addition, the indentures governing the Unsecured Notes contain a cross-default provision whereby the failure by VCL or any of its restricted subsidiaries to make principal payments under other borrowing arrangements or the occurrence of certain events affecting those other borrowing arrangements could trigger an obligation to repay the Unsecured Notes.

The Unsecured Notes do not contain any financial maintenance covenants.

The indentures governing the Secured Notes and Unsecured Notes include covenants that generally restrict the amount of funds that can be transferred from VCL and its restricted subsidiaries to the Company to a basket, which is calculated based on a cumulative earnings metric. As of June 30, 2024 and December 31, 2023, essentially all of the net assets of the subsidiaries of the Company, but excluding the Company itself, were restricted.

Revolving Credit Facility

In June 2024, VCL entered into a credit agreement for a five-year revolving credit facility in an aggregate principal amount of $375.0 million (the "Revolving Credit Facility"). Loans under the Revolving Credit Facility will be based on either SOFR or a base rate, with such rate ranging from SOFR plus a margin of 1.50% to 2.50% for SOFR loans and from a base rate plus a margin of 0.50% to 1.50% for base rate loans. VCL will also pay a commitment fee between 0.30% to 0.35%, payable quarterly, on the average daily unused amount of the Revolving Credit Facility. Proceeds from the Revolving Credit Facility will be used to make revolving loans to VRC AG, an indirect wholly-owned subsidiary of VCL, pursuant to an intercompany revolving loan agreement, the proceeds of which will be used by VRC AG to finance ongoing working capital requirements and for other general corporate purposes. The obligations of VCL under the Revolving Credit Facility are guaranteed by certain of VCL's direct and indirect wholly-owned subsidiaries and are secured by VCL's rights under the intercompany loan agreement with VRC AG, which is secured by the following river vessels: Viking Odin, Viking Idun, Viking Freya, Viking Njord, Viking Eistla, Viking Bestla, Viking Embla, Viking Aegir, Viking Skadi, Viking Bragi, Viking Tor, Viking Var, Viking Forseti, Viking Rinda, Viking Jarl, Viking Atla, Viking Gullveig, Viking Ingvi and Viking Alsvin. The Group capitalized debt transaction costs related to the Revolving Credit Facility totaling $4.7 million, which is included in prepaid expenses and other current assets and other non-current assets on the interim condensed consolidated statement of financial position as of June 30, 2024. As of June 30, 2024, the Group had no amounts drawn on the Revolving Credit Facility.

The Revolving Credit Facility contains affirmative and negative covenants that are customary for a senior secured credit agreement. The negative covenants include, among other things, limitations on asset sales, mergers and consolidations, indebtedness, liens, dividends, investments and transactions with affiliates. The Revolving Credit Facility also contains financial covenants that require VCL to maintain a leverage ratio and interest coverage ratio as per the levels specified in the credit agreement if the aggregate amount of outstanding loans under the Revolving Credit Facility exceeds a certain threshold.

11. OTHER NON-CURRENT LIABILITIES

A summary of the Group's other non-current liabilities as of June 30, 2024 and December 31, 2023 is outlined below:

	June 30, 2024	December 31, 2023
(in USD and thousands)		
Travel protection payable	$ 29,670	$ 31,701
Warrant liability	—	134,270
Other	6,783	5,310

As of June 30, 2024, the warrant liability was included in accrued expenses and other current liabilities on the interim condensed consolidated statement of financial position. See Note 9.

12. SHARE CAPITAL

The rights and preferences of each class of share capital prior to the IPO are described in the Group's annual consolidated financial statements as of and for the year ended December 31, 2023. Share and per share amounts for all share classes have been revised to give effect to the 26-for-1 share split for all periods presented, including the number of ordinary shares issuable upon the exercise of warrants. See Note 2.

As described in Note 1, in connection with the IPO, all outstanding preference shares and Series C Preference Shares converted into ordinary shares on a one-for-one basis. All authorized Series C Preference Shares, preference shares and non-voting ordinary shares were also redesignated into authorized ordinary shares. Under the Post IPO Bye Laws, the Company has two classes of authorized share capital: ordinary shares and special shares.

As of June 30, 2024 and December 31, 2023, the authorized, issued and outstanding share capital was as follows:

	As of June 30, 2024			As of December 31, 2023

Series C Preference Shares	—	—	—	185,120,000	184,267,200	184,267,200	$ 7.69

Dividend Activity

Prior to the IPO, in preference to the holders of the ordinary shares, non-voting ordinary shares, special shares and preference shares, the Series C Preference Shares were entitled to receive dividends on a periodic basis ("Series C Preferential Dividend").

For the three months ended June 30, 2024 and 2023, the Company recognized $7.3 million and $21.3 million, respectively, in interest expense related to the Series C Preferential Dividend. For the six months ended June 30, 2024 and 2023, the Company recognized $28.6 million and $42.5 million, respectively, in interest expense related to the Series C Preferential Dividend.

For the three and six months ended June 30, 2024 and 2023, the Company declared and paid $28.6 million and $42.5 million, respectively, related to the Series C Preferential Dividend. For the three and six months ended June 30, 2024 and 2023, the Company declared and paid $7.2 million and $10.2 million, respectively, in dividends related to ordinary shares. For the three and six months ended June 30, 2024 and 2023, the Company declared and paid $11.0 million and $14.1 million, respectively, in dividends related to special shares and preference shares. All dividends for the three and six months ended June 30, 2024 were declared and paid prior to the IPO. For the three months ended June 30, 2024 and 2023, the Group declared and paid nil and $0.3 million, respectively, in dividends to non-controlling interests. For the six months ended June 30, 2024 and 2023, the Group also declared and paid $0.7 million and $0.3 million, respectively, in dividends to non-controlling interests.

13. PRIVATE PLACEMENT LIABILITY AND PRIVATE PLACEMENT DERIVATIVE

In February 2021, the Company issued Series C Preference Shares to TPG and CPP Investments ("Series C Private Placement"). The Series C Private Placement was accounted for as a financial liability as certain conversion features under the Company's bye laws in effect prior to the IPO were not within the control of the Company and could have been cash settled. The equity conversion features were bifurcated from the liability as an embedded derivative (the "Private Placement derivative"), which was carried at fair value, with changes in value recognized through Private Placement derivative (loss) gain in the interim condensed consolidated statements of operations. As of December 31, 2023, the Group's Private Placement liability was $1,394.6 million and the fair value of the Private Placement derivative was $2,640.8 million.

As described in Note 1, in connection with the IPO in May 2024, all outstanding Series C Preference Shares converted to ordinary shares on a one-for-one basis. The fair value of the Private Placement derivative as of the Conversion Event was $3,005.0 million, which was based on the IPO price of $24.00 per ordinary share, less the liquidation preference of the Series C Preference Shares prior to their conversion. The fair value of the Private Placement derivative increased from December 31, 2023 to the Conversion Event due to an increase in the ordinary share price. As of the Conversion Event, the Group's Private Placement liability was $1,398.0 million. The Private Placement liability and the Private Placement derivative were derecognized as of the Conversion Event, which resulted in a $1.8 million increase in share capital and a $4,401.1 million increase in share premium.

For the three and six months ended June 30, 2024, the Company recognized Private Placement derivative losses of $57.6 million and $364.2 million, respectively, related to the remeasurement of the Private Placement derivative prior to the conversion of the Series C Preference Shares to ordinary shares. For the three and six months ended June 30, 2023, the Company recognized Private Placement derivative gains of $27.1 million and $66.3 million, respectively, related to the remeasurement of the Private Placement derivative.

14. STOCK BASED COMPENSATION

Prior to the IPO, the Group maintained the Viking Holdings Ltd 2018 Equity Incentive Plan (the "Pre-IPO Equity Plan"). Grants from the Pre-IPO Equity Plan entitled the recipient to stock based awards whose underlying shares were non-voting ordinary shares of the Company. As described in Note 1, in connection with the IPO, all outstanding options for non-voting ordinary shares and all outstanding RSUs for non-voting ordinary shares converted to options for ordinary shares and RSUs for ordinary shares, respectively, on a one-for-one basis.

Additionally, share and per share amounts for all outstanding stock options and RSUs have been revised to give effect to the 26-for-1 share split for all periods presented. See Note 2.

In connection with the IPO, the Company adopted the Viking Holdings Ltd Second Amended and Restated 2018 Equity Incentive Plan (the "Post-IPO 2018 Plan"). The Post-IPO 2018 Plan replaces the Pre-IPO Equity Plan. The Company has reserved 54,600,000 ordinary shares for issuance under the Post-IPO 2018 Plan, of which

19,007,878 remain available for future issuance, plus any ordinary shares underlying outstanding share awards previously granted under the Pre-IPO 2018 Plan that expire or are repurchased, forfeited, cancelled or withheld. The number of shares reserved for issuance under the Post-IPO 2018 Plan will be subject to an annual increase on the first day of each calendar year beginning in 2025 and ending in 2034, equal to the lesser of (1) 1.0% of the total number of ordinary shares and special shares outstanding on December 31 of the preceding calendar year and (2) such smaller number of ordinary shares as determined by the Company's board of directors at any time prior to the first day of a given calendar year.

For the three months ended June 30, 2024 and 2023, the Group recognized stock based compensation expense of $3.5 million and $5.5 million, respectively, all of which relates to RSUs. For the six months ended June 30, 2024 and 2023, the Group recognized stock based compensation expense of $7.1 million and $12.3 million, respectively, all of which relates to RSUs. Other paid-in equity also includes certain income tax effects related to the stock based awards.

The terms of the Group's stock based awards are described in the Group's annual consolidated financial statements as of and for the year ended December 31, 2023.

Restricted Share Units

For the six months ended June 30, 2024, RSU activity was as follows:

	Number of RSUs	Weighted Average Grant-date Fair Value	Weighted Average Remaining Contractual Term (in years)
Outstanding at January 1, 2024	18,870,930	$ 7.18	4.3
Forfeited during the year	(13,000)	11.35	
Released during the year	(16,251,664)	6.59	
Outstanding at June 30, 2024	2,606,266	$ 10.88	5.8

All RSUs granted by the Company prior to the IPO were subject to a liquidity vesting condition and some RSUs were also subject to a service condition. Upon the consummation of the IPO, the liquidity condition was satisfied, resulting in the vesting of 16,251,664 outstanding RSUs. Stock based compensation expense for the RSUs vesting at IPO was fully recognized in previous years. The Company withheld 5,171,224 of the 16,251,664 ordinary shares issued for RSU that vested upon the consummation of the IPO to satisfy the tax withholding requirements (the "RSU Net Settlement"). Based on the IPO price of $24.00 per ordinary share, the RSU Net Settlement resulted in a $124.1 million increase in treasury shares.

Stock options

For the six months ended June 30, 2024, stock option activity was as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)
Outstanding at January 1, 2024	2,949,830	$ 15.57	3.2
Outstanding at June 30, 2024	2,949,830	$ 15.57[1]	2.7

(1) Stock options outstanding include a range of exercise prices from $12.50 to $19.13.

Employee Share Purchase Plan

In connection with the IPO, the Company adopted the Viking Holdings Ltd 2024 Employee Share Purchase Plan (the "2024 ESPP"). The Company has reserved 4,680,000 ordinary shares for issuance pursuant to a series of purchase rights under the 2024 ESPP. In addition, the number of shares reserved for issuance under the 2024 ESPP will be subject to an annual increase on the first day of each calendar year beginning in 2025 and ending in 2034, equal to the lesser of (1) 1.0% of the total number of ordinary shares and special shares outstanding on December 31 of the preceding calendar year; (2) 4,680,000 ordinary shares; and (3) such smaller number of ordinary shares as determined by the Company's board of directors at any time prior to the first day of a given calendar year.

15. NET INCOME (LOSS) PER SHARE

The rights, including dividend rights, of the ordinary shares and special shares are substantially identical, other than voting rights.

Basic net income (loss) per share ("Basic EPS") is computed by dividing net income (loss) attributable to ordinary shares and special shares by the weighted-average number of ordinary shares and special shares outstanding during each period. Net income (loss) attributable to ordinary shares and special shares is determined in accordance with their rights to income and losses in accordance with the bye laws in effect for the relevant period. In connection with the IPO, the Company adopted the Post IPO Bye Laws; for the bye laws in effect prior to the IPO, please refer to the Group's annual consolidated financial statements as of and for the year ended December 31, 2023. Share and per share amounts have been revised to give effect to the 26-for-1 share split for all periods presented. See Note 2.

To compute diluted net income (loss) per share ("Diluted EPS"), the Group adjusts the numerator and the denominator of Basic EPS. The Group adjusts net income (loss) attributable to ordinary shares and special shares for the changes in net income (loss) that would result from the conversion of dilutive potential ordinary shares to ordinary shares, including changes in how the net income (loss) would be allocated to ordinary shares and special shares if dilutive potential ordinary shares converted to ordinary shares. The Group adjusts the weighted-average number of ordinary shares and special shares outstanding during each period by the weighted average number of ordinary shares that would be issued upon the conversion of dilutive potential ordinary shares to ordinary shares.

For the three and six months ended June 30, 2024, potential ordinary shares included preference shares prior to the Conversion Event, Series C Preference Shares prior to the Conversion Event, stock based awards beginning from the Conversion Event and the warrants. For the three and six months ended June 30, 2023, potential ordinary shares include preference shares, Series C Preference Shares and the warrants.

Prior to the IPO, stock based awards were not potential ordinary shares because the underlying shares of the stock based awards were non-voting ordinary shares. While non-voting ordinary shares were considered a class of ordinary shares, because non-voting ordinary shares were not entitled to dividends, they are allocated no earnings or losses when calculating Basic EPS and Diluted EPS. As a result, Basic EPS and Diluted EPS for non-voting ordinary shares are zero in all periods. In connection with the consummation of the IPO, the Company's share capital no longer includes non-voting ordinary shares.

The computation of Basic EPS and Diluted EPS is as follows:

For the three and six months ended June 30, 2024 and 2023, the weighted average number of potential ordinary shares that were not included in the Diluted EPS calculations because they would be anti-dilutive were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,

The potential ordinary shares related to the conversion of preference shares are issuable upon specified contingent events. As the specified contingent events had not occurred as of June 30, 2023, these contingently issuable shares were not included in the calculation of Diluted EPS for the three and six months ended June 30, 2023. As described in Note 1, in connection with the IPO, all outstanding preference shares converted to ordinary shares on a one-for-one basis.

The warrants vest and become exercisable into ordinary shares upon contingent events. Based on the assessment of the specified contingent events as of June 30, 2023, these contingently issuable shares were not included in the calculation of Diluted EPS for the three and six months ended June 30, 2023. See Note 9.

16. SEGMENTS

Operating segments are defined as components of an entity for which separate financial information is available and is evaluated regularly by the chief operating decision maker ("CODM") in deciding how to allocate resources and in assessing performance. The Group's CODM, who is the Chairman of the Board of Directors and Chief Executive Officer, evaluates the Group's results in a number of ways, but the primary basis for allocating resources and assessing performance is based on product.

The Group's reportable segments are River and Ocean. The Group defines its products based on the type of cruise offering and language of the cruise service. The River segment provides river cruises outside the United States to English-speaking passengers. The Ocean segment provides ocean cruises to English-speaking passengers. Other includes operating segments that are not individually reportable, consisting of expedition cruises for English-speaking passengers ("Expedition"), Mississippi River cruises for English-speaking passengers, Viking China, which includes cruises for Mandarin-speaking passengers provided by the Group and the results of the China JV Investment (see Note 20), and also includes corporate activities. The Group typically designates the language of the cruise service by vessel for each cruise season, such that in any individual season, the vessel provides service in a single language for the entire season. In cases where a vessel changes its language service during the season, each individual sailing is designated for a specific language, such that any single cruise is provided in a single language. See Note 4 for disaggregation of percentage of passengers by source market.

Operating income is the primary profitability metric the CODM uses to assess performance and allocate resources. Expenses attributable to multiple segments are allocated based on measures that are determined to relate most closely to the expenses, which are generally relative revenues, relative passengers booked, or relative passengers sailed for a particular period.

Longship river vessels can be utilized in either River and Viking China, and may change between these products in different years. Ocean and expedition ships and ocean and expedition ships under construction include ships for both Ocean and Expedition. See Note 8. River vessel charters are recognized as right-of-use assets.

The Group typically finances its vessels and ships with loans or financial liabilities that are secured by the related vessels and ships. See Note 10.

Set forth below are results for the Group's segments for the six months ended June 30, 2024 and 2023:

17. COMMITMENTS AND CONTINGENCIES

Viking newbuilding program

River Newbuilds

The Group is in the process of building six river vessels that will operate in Egypt, the Viking Amun, Viking Hathor, Viking Sobek, Viking Thoth and two additional vessels, and has entered into raw materials agreements for these vessels. The Group expects these vessels to be delivered between 2024 and 2026.

See Note 21 for events taking place subsequent to June 30, 2024.

In 2023, the Group entered into shipbuilding contracts for the river vessels outlined below, assuming a euro to USD exchange rate of 1.10. In 2024, the Group amended these contracts, which reduced the purchase price of each vessel by €1.5 million ($1.7 million, assuming a euro to USD exchange rate of 1.10), changed the timing and amount of the installment payments to the shipyard and accelerated the delivery dates for certain vessels.

In January 2024, the Group entered into a shipbuilding contract for a Longship-Douro vessel modified for the Douro River for delivery in 2025 for $24.8 million, assuming a euro to USD exchange rate of 1.10. The Group has obtained financing for all ships, other than the Longship-Douro vessel, as described below.

River Vessels	Number of Vessels	Aggregate Price (in USD and thousands)	Delivery Date
Longships	4	$ 162,800	2025
Longships-Seine	2	77,606	2025
Longship-Douro	1	24,750	2025
Longships	4	162,800	2026
Total	11	$ 427,956	

In August 2023, the Group entered into two loan agreements for €167.5 million each to finance the eight Longships and two Longships-Seine river vessels scheduled for delivery in 2025 and 2026. Hermes has provided guarantees equal to 95% of the loan amounts. The loans are denominated in USD and the applicable exchange rate will be based on the prevailing exchange rate two business days prior to the date of drawdown. These loans have a term of 102 months from the date of drawdown and the Group may select fixed or variable rate financing prior to each drawdown. VRC and VCL issued corporate guarantees for these loans.

The Group has also secured the following options for additional river vessels:

River Vessels—Options	Number of Vessels	Delivery Date	Option Exercise Date
Longships	4	2027	October 30, 2024
Longships	4	2028	October 30, 2025

Ocean Newbuilds

A summary of the ocean newbuilding program is outlined below, assuming a euro to USD exchange rate of 1.10. Each new ocean ship will have 998 berths.

In January 2024, the Group amended certain shipbuilding contracts to accelerate the delivery dates for Ship XIV, Ship XV and Ship XVI. Ship XIV, Ship XV and Ship XVI are now scheduled to be delivered in the years 2026, 2027 and 2028, respectively. The Group has obtained financing for all ships, as described below.

Ocean Ships	Price (in USD and thousands)	Delivery Date
Viking Vela	$ 446,050	2024
Viking Vesta	446,050	2025
Ship XIII	501,523	2026
Ship XIV	501,523	2026
Ship XV	517,000	2027
Ship XVI	517,000	2028
Total	$2,929,146	

In 2021 and 2022, the Group entered into loan agreements to finance the Viking Vela, Viking Vesta, Ship XIII, Ship XIV, Ship XV and Ship XVI. These loans are SACE Financing and are for up to 80% of each newbuild's contract price, including certain change orders, and 100% of the Export Credit Agency premium, and will be available for drawdown in USD. The interest rates for the loans are fixed. VCL and VOC II have jointly and severally guaranteed these loans.

As of June 30, 2024, the Group has entered into shipbuilding contracts for the ships outlined below, assuming a euro to USD exchange rate of 1.10. These shipbuilding contracts will not become effective until certain financing conditions are met. If the financing conditions have not been met by October 31, 2024, these contracts can be terminated by the Group or the shipyard.

Ocean Ships	Price (in USD and thousands)	Delivery Date
Ship XVII	$ 567,600	2028
Ship XVIII	567,600	2029
Total	$1,135,200	

In 2023, the Group secured the following options for additional ocean ships:

Ocean Ships—Options	Delivery Date	Option Exercise Date
Ship XIX	2030	May 30, 2025
Ship XX	2030	May 30, 2025

Leases

The table below summarizes the timing of future cash payments of the Group's lease liabilities based on contractual undiscounted cash flows as of June 30, 2024:

	June 30, 2024
(in USD and thousands)	
3 months or less	$ 9,022
4 to 12 months	33,294
1 to 5 years	156,740
Over 5 years	233,456
Total	$ 432,512

The ship and vessel charters also include future cash payments for non-lease components, which are not included in the table above. Payments for non-lease components include expenses for services, such as management fees and vessel operating expenses, of which certain costs are subject to change based on actual operating expenses.

The table above excludes amounts for executed lease agreements not yet commenced as of June 30, 2024 for underlying assets of which the Group has not yet obtained the right to control the use.

In 2023, the Group entered into a charter agreement for the Viking Tonle, an 80-berth river vessel traveling through Vietnam and Cambodia for the 2025 through 2033 sailing seasons. The Group has an option to extend the charter for two additional seasons. The total amount of contractual payments for the initial term of nine seasons is $24.9 million, which includes payments for both lease and non-lease components.

In the first quarter of 2024, the Group entered into an accommodation purchase agreement for all cabins on select sailings on the Zhao Shang Yi Dun, which is owned and operated by China Merchants Viking Cruises Limited ("CMV"), a related party, traveling in China for 72 days in the third and fourth quarters of 2024. The Group has options to extend the agreement for additional select sailings through 2027. The total amount of contractual payments for the initial term is $12.1 million, which includes payments for both lease and non-lease components.

Fuel commitments

The Group entered into contracts for a portion of its river fuel usage in Europe for the 2024 season. As of June 30, 2024, the remaining portion of the contracts for the 2024 season was 34,000 cubic meters. The contract

prices are fixed for specified volumes and periods and depend on the place of delivery ranging from $68.80 to $91.50 per 100 liters excluding taxes. The Group may incur fees for unused fuel amounts in the period of the contracts, which may be for non-usage or to roll over unused amounts into the following year. Subsequent to June 30, 2024, the Group entered into a contract for a portion of its river fuel usage in Europe for the 2025 season. The contract prices are fixed for 15,000 cubic meters and depend on the place of delivery ranging from $69.70 to $83.60 per 100 liters, excluding taxes. See Note 21 for events taking place subsequent to June 30, 2024.

Contingencies

In the normal course of the Group's business, various claims and lawsuits have been filed or are pending against the Group. Most of these claims and lawsuits are covered by insurance and, accordingly, the maximum amount of the Group's liability is typically limited to its insurance deductible. In addition, new legislation, regulations or treaties, or claims related to interpretations or implementations thereof, could affect the Group's business.

The Group has evaluated its overall exposure with respect to all of its threatened and pending claims and lawsuits and, to the extent required, the Group has accrued amounts for all estimable probable losses associated with its deemed exposure that are not covered by insurance. The Group intends to vigorously defend its legal position on all claims and lawsuits and, to the extent necessary, seek recovery.

Legal provisions

In 2019, one of the Group's river vessels, the Viking Sigyn, was involved in a collision with a Hungarian tourist ship on the Danube River in Budapest, Hungary. As a result of this collision, there were fatalities on the Hungarian tourist ship. The Group maintains protection and indemnity coverage and hull and machinery insurance with respect to the ship. As of June 30, 2024, the Group determined it was probable it would incur amounts for claims related to this incident. Though the ultimate timing, scope and outcome of legal claims are inherently uncertain, the Group recorded an accrual of $15.6 million as of June 30, 2024, compared to $15.8 million as of December 31, 2023, included in accrued expenses and other current liabilities on the interim condensed consolidated statement of financial position as of June 30, 2024, for estimated claims related to this incident. The Group recorded a corresponding receivable of $15.6 million, included in accounts and other receivables on the interim condensed consolidated statement of financial position as of June 30, 2024, because the amounts are virtually certain of recovery from the Group's insurance policies.

18. HEDGING INSTRUMENTS

The Group is exposed to foreign currency fluctuations, primarily related to changes in USD/EUR exchange rates, related to its operations.

In 2022, the Group entered into forward foreign currency contracts to purchase €235.0 million at an average euro to USD exchange rate of 1.05. The forward foreign currency contracts matured at various dates in 2023 and were designated as cash flow hedges for the Group's highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2023.

In September 2023, the Group entered into forward foreign currency contracts to purchase €470.0 million at an average euro to USD exchange rate of 1.09. The forward foreign currency contracts mature at various dates in 2024 and were designated as cash flow hedges for the Group's highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2024.

In April 2024 and June 2024, the Group entered into forward foreign currency contracts to purchase €470.0 million at an average euro to USD foreign exchange rate of 1.10. The forward foreign currency contracts mature at various dates in 2025 and were designated as cash flow hedges for the Group's highly probable forecasted expenditures denominated in euros for direct costs of cruise, land and onboard and vessel operating expenses in 2025.

An economic relationship exists between the hedged items and the hedging instruments as the terms of the forward foreign currency contracts match the terms of the expected highly probable forecast transactions.

As of June 30, 2024 and December 31, 2023, the Group held the following forward foreign currency contracts:

	Maturity		
(in EUR and thousands)	Less than 12 months	Greater than 12 months	Total
Forward foreign currency contracts			
As of June 30, 2024			
Notional amount	€ 479,575	€ 268,925	€748,500

Notional amount	€ 470,000	€ —	€470,000
Weighted average forward price (EUR/USD)	1.09	—	1.09

The impact of the hedging instruments on the interim condensed consolidated statements of financial position as of June 30, 2024 and December 31, 2023 was as follows:

(in USD and thousands except notional amount in EUR and thousands)	Notional amount	Carrying amount	Financial statement line item	Changes in fair value (gain/(loss)) used for calculating hedge ineffectiveness
Forward foreign currency contracts				
As of June 30, 2024	€748,500	$(8,149)	Accrued expenses and other current liabilities	$ (21,290)
		$(1,553)	Other non-current liabilities	
As of December 31, 2023	€470,000	$ 9,315	Prepaid expenses and other current assets	$ 10,668

For the three and six months ended June 30, 2024 and 2023, the effect of the cash flow hedges in the interim condensed consolidated statements of operations and the interim condensed consolidated statements of other comprehensive income (loss) was as follows:

(in USD and thousands)	Amount of total hedging gain/(loss) recognized in the interim condensed consolidated statement of other comprehensive income (loss)	Amount of gain/(loss) reclassified from the interim condensed consolidated statement of other comprehensive income (loss) to the interim condensed consolidated statement of operations	Interim condensed consolidated statement of operations line item
Highly probable forecasted expenditures			
Three months ended June 30, 2024	$ (8,248)	$ (2,498)	$(1,035) Direct costs of cruise, land and onboard $(1,463) Vessel operating
Three months ended June 30, 2023	$ 426	$ 4,345	$1,778 Direct costs of cruise, land and onboard $2,567 Vessel operating
Six months ended June 30, 2024	$ (21,290)	$ (2,273)	$(1,023) Direct costs of cruise, land and onboard $(1,250) Vessel operating
Six months ended June 30, 2023	$ 2,356	$ 4,574	$1,824 Direct costs of cruise, land and onboard $2,750 Vessel operating

No hedge ineffectiveness was recognized in the interim condensed consolidated statements of operations for the three and six months ended June 30, 2024 and 2023.

Set out below is a reconciliation of the cash flow hedge component of equity for the six months ended June 30, 2024 and 2023:

(in USD and thousands)	Cash flow hedge	
	2024	2023
As of January 1	$ 9,315	$ 7,589
Effective portion of changes in fair value arising from:

The same reconciliation items presented above for components of equity apply to the components of other comprehensive income (loss) for the six months ended June 30, 2024 and 2023.

Fair Value of Financial Assets and Liabilities

The carrying amounts of the Group's financial assets and liabilities all approximate the fair values of those assets and liabilities as of June 30, 2024 and December 31, 2023, except for fixed interest bank loans and financial liabilities, secured and unsecured notes, and the Private Placement liability, as outlined below:

Fair Value Hierarchy

The following hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available:

Level 1 – Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement dates.

Level 2 – Significant other observable inputs that are used by market participants in pricing the asset or liability based on market data obtained from independent sources.

Level 3 – Significant unobservable inputs the Group believes market participants would use in pricing the asset or liability based on the best information available.

For assets and liabilities that are recognized in the interim financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing

categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Group had no transfers between levels in the hierarchy during the three and six months ended June 30, 2024 and 2023.

As of June 30, 2024 and December 31, 2023, designation within the fair value hierarchy for the Group's financial assets and liabilities is outlined below:

Financial assets and liabilities measured at amortized cost

The fair value of the Group's fixed interest bank loans and financial liabilities were calculated based on estimated rates for the same or similar instruments with similar terms and remaining maturities. The Unsecured Notes and the Secured Notes use pricing from secondary markets for the Group's issued notes that are observable for the notes throughout the duration of the term. The Group designated these financial liabilities as Level 2 fair value instruments as valuation techniques contain observable inputs used by market participants.

The Group designated the Private Placement liability as a Level 3 fair value instrument as the valuation technique used was a discounted cash flow approach based on expected principal and dividend payments associated with the Private Placement liability, the assumptions around which were significant unobservable inputs. The value was sensitive to changes in expected future cash flows and the discount rates. As described in Note 1, the Private Placement liability was derecognized in connection with the conversion of the Series C Preference Shares to ordinary shares immediately prior to the consummation of the IPO.

Financial assets and liabilities measured at fair value

Forward foreign currency contracts are designated as Level 2 fair value instruments as the fair values are measured based on inputs that are readily available in public markets or can be derived from information in publicly quoted markets. The valuation is determined using present value calculations that incorporate inputs such as foreign exchange spot and forward rates and yield curves of the respective currencies.

As of December 31, 2023, the valuation of the Private Placement derivative was based on lattice model methodology, which took into consideration enterprise value based on a discounted cash flow model, fair value of debt holdings and various market factors. The value was sensitive to changes in the discounted cash flow model, including changes in expected future cash flows, the USD/EUR forward curve and the discount rates; changes in the discounted cash flow model result in changes in the ordinary share price. The Private Placement derivative was designated as Level 3 fair value instrument as the fair value was measured based on significant unobservable inputs, including but not limited to, ordinary share price, which was based on the discounted cash flow model, and ordinary share volatility. As described in Notes 1 and 13, the Private Placement derivative was derecognized in connection with the conversion of the Series C Preference Shares to ordinary shares immediately prior to the consummation of the IPO. See Note 13.

As of June 30, 2024, the valuation of the warrant liability is based on a Monte Carlo simulation, which takes into consideration the ordinary share price, ordinary share volatility, estimated term and includes adjustments using unobservable inputs or methods. The warrant liability as of June 30, 2024 is a Level 3 fair value instrument as the fair values are measured based on adjustments made to observable inputs using significant unobservable inputs or methods, including but not limited to, methods used to determine the volatility. The valuation methodology changed as of June 30, 2024 because subsequent to the IPO, the ordinary share price as of the end of each period is equal to the closing price of the Company's ordinary shares.

As of December 31, 2023, the valuation of the warrant liability was based on a lattice model methodology, which took into consideration ordinary share price, which was based on the discounted cash flow model, and estimated volatility. The warrant liability as of December 31, 2023 was a Level 3 fair value instrument as the fair value was measured based on significant unobservable inputs, including but not limited to, ordinary share price, which was based on the discounted cash flow model.

20. TRANSACTIONS WITH RELATED PARTIES

Transactions with Related Parties

As of June 30, 2024 and December 31, 2023, current receivables due from related parties were $6.3 million and $12.3 million, respectively.

As of June 30, 2024 and December 31, 2023, $1.3 million and $0.7 million, respectively, of the current receivables due from related parties were due to the Group from VCAP and its affiliates for (1) a management fee for certain administrative services provided by the Group, and (2) reimbursement of expenses paid by the Group on behalf of VCAP and its affiliates. The management fees between the Group and VCAP did not have a material impact on the results of operations for the three and six months ended June 30, 2024 and 2023. See Note 13 for additional discussion on transactions with VCAP, CPP Investments and TPG.

Transactions with the China JV Investment

In 2020, the Group entered into an agreement with a subsidiary of China Merchants Group to together build a cruise line targeting the Chinese-speaking populations in China (the "China JV Investment"). The China JV Investment is comprised of two primary entities, CMV and Shenzhen China Merchants Viking Cruises Tourism Limited ("SCM").

For the six months ended June 30, 2024 and 2023, the Group contributed capital of $4.0 million and $5.0 million, respectively, to CMV. At the time of the capital contributions, the carrying amount of the Group's investment in CMV was zero and the Group had not previously recognized its entire portion of CMV's losses. Accordingly, $4.0 million and $5.0 million were recognized as losses and included in other financial loss in the interim condensed consolidated statements of operations for the six months ended June 30, 2024 and 2023, respectively. The carrying amount of the Group's investment in CMV, which is included in investments in associated companies on the interim condensed consolidated statements of financial position, was zero as of both June 30, 2024 and December 31, 2023.

The Group previously sold an ocean ship, Zhao Shang Yi Dun (formerly the Viking Sun), to CMV. CMV financed the purchase and pursuant to the terms of the Group's investment in CMV, VCL guaranteed 10% of CMV's obligations under the financing, up to a maximum of $45.0 million.

For the three months ended June 30, 2024 and 2023, the Group recognized services revenue of $4.0 million and $5.5 million, respectively, which is included in onboard and other in the interim condensed consolidated statements of operations. For the six months ended June 30, 2024 and 2023, the Group recognized services revenue of $8.0 million and $10.5 million, respectively, which is included in onboard and other in the interim condensed consolidated statements of operations. As of June 30, 2024 and December 31, 2023, $5.0 million and $11.6 million, respectively, of the current receivables due from related parties related to CMV.

21. SUBSEQUENT EVENTS

Subsequent to June 30, 2024, the Group had the following significant events:

- In July 2024, the Group entered into a contract for a portion of its river fuel usage in Europe for the 2025 season. The contract prices are fixed for 15,000 cubic meters and depend on the place of delivery ranging from $69.70 to $83.60 per 100 liters, excluding taxes.
- In August 2024, the Group took delivery of the Viking Hathor.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 6. Indemnification of Directors, Officers and Employees.

Section 98 of the Companies Act 1981 of Bermuda (the "Companies Act") provides generally that a Bermuda company may indemnify its directors, officers and auditors against any liability which by virtue of any rule of law would otherwise be imposed on them in respect of any negligence, default, breach of duty or breach of trust, except in cases where such liability arises from fraud or dishonesty of which such director, officer or auditor may be guilty in relation to the company or any subsidiary thereof.

Section 98 of the Companies Act further provides that a Bermuda company may indemnify its directors, officers and auditors against any liability incurred by them in defending any proceedings, whether civil or criminal, in which judgment is awarded in their favor or in which they are acquitted or granted relief by the Supreme Court of Bermuda pursuant to section 281 of the Companies Act, and may advance moneys to its directors, officers or auditors for the costs, charges and expenses incurred by the director, officer or auditor in defending any civil or criminal proceedings against them, on the condition that the director, officer or auditor repays the advance if any allegation of fraud or dishonesty is proved against them.

Our bye-laws provide that our directors, alternate directors, resident representative, chairperson, chief executive officer, secretary and other officers, and the liquidator or trustees (if any) acting in relation to any of our affairs, and their heirs, executors and administrators, will be indemnified and secured harmless out of our assets from and against any and all judgments, fines, penalties, excise taxes, amounts paid in settlement, and all direct and indirect costs and expenses (including, without limitation, attorneys' fees and disbursements, experts' fees, court costs, retainers, appeal bond premiums, arbitration costs, arbitrators' fees, transcript fees and duplicating, printing and binding costs, as well as telecommunications, postage and courier charges) ("losses") actually and reasonably incurred by or on behalf of such indemnified party in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, to which such indemnified party is or is threatened to be made a party, arising out of, relating to, or resulting from the fact that the indemnified party is or was our director, officer, employee, agent or fiduciary, or is or was a director, officer, employee, agent or fiduciary serving at our request as a director, officer, employee, manager, member, partner, tax matters partner or partnership representative, trustee, agent or fiduciary, or similar capacity, of any of our subsidiaries or another corporation, limited liability company, partnership, joint venture, employee benefit plan, trust or other entity or enterprise, or by reason of any act or omission by the indemnified party in any such capacity; provided that this indemnity will not extend to any indemnified party for any losses to the extent such losses (a) arise directly out of the fraud or dishonesty of such indemnified party or (b) are incurred in connection with any action, suit or proceeding initiated by such indemnified party, except to the extent that the indemnified party's initiation of such action, suit or proceeding has been authorized by our board of directors or is brought to enforce such indemnified party's rights to indemnification or advancement of expenses hereunder.

Subject to Section 14 of the Securities Act of 1933 (the "Securities Act") and Section 29(a) of the Securities Exchange Act of 1934, which renders void any waiver of the provisions of the Securities Act, our bye-laws provide that our shareholders waive all claims or rights of action that they might have, individually or in our right, against any of our directors or officers for any act or failure to act in the performance of such director's or officer's duties, except in respect of any fraud or dishonesty of such director or officer. Section 98A of the Companies Act permits us to purchase and maintain insurance for the benefit of any officer or director in respect of any loss or liability attaching to him in respect of any negligence, default, breach of duty or breach of trust, whether or not we may otherwise indemnify such officer or director.

We maintain standard policies of insurance under which coverage is provided to (1) our directors and officers against loss arising from claims made by reason of breach of duty or other wrongful act and (2) us with

respect to payments which may be made by us to such officers and directors pursuant to the above indemnification provision or otherwise as a matter of law. We have also entered into separate indemnification agreements with each of our directors and officers, which are in addition to the indemnification obligations under our bye-laws. The Underwriting Agreement entered into in connection with this offering will also provide for indemnification of us and our officers and directors.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission (the "SEC") such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Immediately prior to the consummation of our IPO, the Series C Preference Shares automatically converted to ordinary shares on a one-for-one basis.

The offers, sales and issuances of the securities described in paragraph (1) were deemed to be exempt from registration under Rule 701 promulgated under the Securities Act as transactions under compensatory benefit plans and contracts relating to compensation, or under Section 4(a)(2) of the Securities Act as a transaction by an issuer not involving a public offering. The recipients of such securities were our directors, officers, employees, consultants or other service providers and received the securities under the Pre-IPO 2018 Plan. Appropriate legends were affixed to the securities issued in these transactions.

The offers, sales and issuances of the securities described in paragraphs (2) and (3) were deemed to be exempt under Section 4(a)(2) of the Securities Act as a transaction by an issuer not involving a public offering. The recipients of securities in each of these transactions acquired the securities for investment only and not with a view to or for sale in connection with any distribution thereof and appropriate legends were affixed to the securities issued in these transactions. Each of the recipients of securities in these transactions was an accredited investor within the meaning of Rule 501 of Regulation D under the Securities Act.

Item 8. Exhibits and Financial Statement Schedules.

(a) Exhibits

The exhibits of the registration statement are listed in the Exhibit Index to this registration statement and are incorporated herein by reference.

(b) Financial Statement Schedules

Item 9. Undertakings.

The undersigned hereby undertakes:

(a) The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

(b) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(c) The undersigned registrant hereby undertakes that:

(i) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(ii) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The Underwritten Shares and the Option Shares are herein referred to as the "Shares." The ordinary shares of the Company to be outstanding after giving effect to the sale of the Shares are referred to herein as the "Ordinary Shares."

The Company and the Selling Shareholders hereby confirm their agreement with the several Underwriters concerning the purchase and sale of the Shares, as follows:

1. Registration Statement. The Company has prepared and filed with the Securities and Exchange Commission (the "Commission") under the Securities Act of 1933, as amended, and the rules and regulations of the Commission thereunder (collectively, the "Securities Act"), a registration statement (File No. 333-[•]), including a prospectus, relating to the Shares. Such registration statement, as amended at the time it became effective, including the information, if any, deemed pursuant to Rule 430A, 430B or 430C under the Securities Act to be part of the registration statement at the time of its effectiveness ("Rule 430 Information"), is referred to herein as the "Registration Statement"; and as used herein, the term "Preliminary Prospectus"

If the Company has filed an abbreviated registration statement pursuant to Rule 462(b) under the Securities Act (the "Rule 462 Registration Statement"), then any reference herein to the term "Registration Statement" shall be deemed to include such Rule 462 Registration Statement. Capitalized terms used but not defined herein shall have the meanings given to such terms in the Registration Statement and the Prospectus.

At or prior to the Applicable Time (as hereinafter defined), the Company had prepared the following information (collectively with the pricing information set forth on Annex A, the "Pricing Disclosure Package"): a Preliminary Prospectus dated [•], 2024 and each "free-writing prospectus" (as defined pursuant to Rule 405 under the Securities Act) listed on Annex A hereto.

"Applicable Time" means [•] P.M., New York City time, on [•], 2024.

2. Purchase of the Shares. (a) Each of the Selling Shareholders agrees, severally and not jointly, to sell the Underwritten Shares to the several Underwriters as provided in this underwriting agreement (this "Agreement"), and each Underwriter, on the basis of the representations, warranties and agreements set forth herein and subject to the conditions set forth herein, agrees, severally and not jointly, to purchase at a price per share of $[•] (the "Purchase Price") from each of the Selling Shareholders the number of Underwritten Shares (to be adjusted by you so as to eliminate fractional shares) determined by multiplying the aggregate number of Underwritten Shares to be sold by each of the Selling Shareholders as set forth opposite their respective names in Schedule 2 hereto by a fraction, the numerator of which is the aggregate number of Underwritten Shares to be purchased by such Underwriter as set forth opposite the name of such Underwriter in Schedule 1 hereto and the denominator of which is the aggregate number of Underwritten Shares to be purchased by all the Underwriters from all of the Selling Shareholders hereunder.

In addition, each of the Selling Shareholders agrees, severally and not jointly, as and to the extent indicated in Schedule 2 hereto, to sell, the Option Shares to the several Underwriters as provided in this Agreement, and the Underwriters, on the basis of the representations, warranties and agreements set forth herein and subject to the conditions set forth herein, shall have the option to purchase, severally and not jointly, from each Selling Shareholder the Option Shares at the Purchase Price less an amount per share equal to any dividends or distributions declared by the Company and payable on the Underwritten Shares but not payable on the Option Shares. If any Option Shares are to be purchased, the number of Option Shares to be purchased by each Underwriter shall be the number of Option Shares which bears the same ratio to the aggregate number of Option Shares being purchased as the number of Underwritten Shares set forth opposite the name of such Underwriter in Schedule 1 hereto (or such number increased as set forth in Section 12 hereof) bears to the aggregate number of Underwritten Shares being purchased from the Selling Shareholders by the several Underwriters, subject, however, to such adjustments to eliminate any fractional Shares as the Representatives in their sole discretion shall make. Any such election to purchase Option Shares shall be made in proportion to the maximum number of Option Shares to be sold by each Selling Shareholder as set forth in Schedule 2 hereto.

The Underwriters may exercise the option to purchase Option Shares at any time in whole, or from time to time in part, on or before the thirtieth day following the date of the Prospectus, by written notice from the Representatives to the Company and the Selling Shareholders. Such notice shall set forth the aggregate number of Option Shares as to which the option is being exercised and the date and time when the Option Shares are to be delivered and paid for, which may be the same date and time as the Closing Date (as hereinafter defined) but shall not be earlier than the Closing Date nor later than the tenth full business day (as hereinafter defined) after the date of such notice (unless such time and date are postponed in accordance with the provisions of Section 12 hereof). Any such notice shall be given at least two business days prior to the date and time of delivery specified therein.

(b) The Company and the Selling Shareholders understand that the Underwriters intend to make a public offering of the Shares, and initially to offer the Shares on the terms set forth in the Pricing Disclosure Package. The Company and the Selling Shareholders acknowledge and agree that the Underwriters may offer and sell Shares to or through any affiliate of an Underwriter.

(c) Payment for the Shares shall be made by wire transfer in immediately available funds to the accounts specified by the Selling Shareholders, to the Representatives in the case of the Underwritten Shares, in New York City at 10:00 A.M. New York City time on [•], 2024, or at such other time or place on the same or such other date, not later than the fifth business day thereafter, as the Representatives, the Company and the Selling Shareholders may agree upon in writing or, in the case of the Option Shares, on the date and at the time and place specified by the Representatives in the written notice of the Underwriters' election to purchase such Option Shares. The time and date of such payment for the Underwritten Shares is referred to herein as the "Closing Date," and the time and date for such payment for the Option Shares, if other than the Closing Date, is herein referred to as the "Additional Closing Date."

Payment for the Shares to be purchased on the Closing Date or the Additional Closing Date, as the case may be, shall be made against delivery to the Representatives for the respective accounts of the several Underwriters of the Shares to be purchased on such date or the Additional Closing Date, as the case may be, with any transfer taxes payable in connection with the sale of such Shares duly paid by the Selling Shareholders. Delivery of the Shares shall be made through the facilities of The Depository Trust Company ("DTC") unless the Representatives shall otherwise instruct. The certificates for the Shares, if any, will be made available for inspection and packaging by the Representatives at the office of DTC or its designated custodian not later than 1:00 P.M., New York City time, on the business day prior to the Closing Date or the Additional Closing Date, as the case may be.

(d) Each of the Company and each Selling Shareholder, severally and not jointly, acknowledges and agrees that the Representatives and the other Underwriters are acting solely in the capacity of an arm's length contractual counterparty to the Company and the Selling Shareholders with respect to the offering of Shares contemplated hereby (including in connection with determining the terms of the offering) and not as a financial advisor or a fiduciary to, or an agent of, the Company, the Selling Shareholders or any other person. Additionally, neither the Representatives nor any other Underwriter is advising the Company, the Selling Shareholders or any other person as to any legal, tax, investment, accounting or regulatory matters in any jurisdiction. The Company and the Selling Shareholders shall consult with their own advisors concerning such matters and each shall be responsible for making its own independent investigation and appraisal of the transactions contemplated hereby, and neither the Representatives nor any other Underwriter shall have any responsibility or liability to the Company or the Selling Shareholders with respect thereto. Any review by the Representatives and the other Underwriters of the Company, the transactions contemplated hereby or other matters relating to such transactions will be performed solely for the benefit of the Representatives and the other Underwriters and shall not be on behalf of the Company or the Selling Shareholders. Moreover, each Selling Shareholder acknowledges and agrees, severally and not jointly, that, although the Representatives may be required or choose to provide certain Selling Shareholders with certain Regulation Best Interest and Form CRS disclosures in connection with the offering, the Representatives and the other Underwriters are not making a recommendation to any Selling Shareholder to participate in the offering, enter into a "lock-up" agreement, or sell any Shares at the price determined in the offering, and nothing set forth in such disclosures is intended to suggest that the Representatives or any Underwriter is making such a recommendation.

(b) *No Stabilization*. Such Selling Shareholder will not take, directly or indirectly, any action designed to or that could reasonably be expected to cause or result in any stabilization or manipulation of the price of the Ordinary Shares.

(c) *Tax Form*. It will deliver to the Representatives prior to or at the Closing Date a properly completed and executed United States Internal Revenue Service Form W-9 or an applicable United States Internal Revenue Service Form W-8 (or other applicable form or statement specified by the Treasury Department regulations in lieu thereof), in each case, establishing a complete exemption from U.S. backup withholding tax, in order to facilitate the Underwriters' documentation of their compliance with the reporting and withholding provisions of the Tax Equity and Fiscal Responsibility Act of 1982 with respect to the transactions herein contemplated.

7. Certain Agreements of the Underwriters. Each Underwriter hereby severally represents and agrees that:

(a) It has not and will not use, authorize use of, refer to or participate in the planning for use of, any "free writing prospectus," as defined in Rule 405 under the Securities Act (which term includes use of any written information furnished to the Commission by the Company and not incorporated by reference into the Registration Statement and any press release issued by the Company) other than (i) a free writing prospectus that contains no "issuer information" (as defined in Rule 433(h)(2) under the Securities Act) that was not included (including through incorporation by reference) in the Preliminary Prospectus or a previously filed Issuer Free Writing Prospectus, (ii) any Issuer Free Writing Prospectus listed on Annex A or prepared pursuant to Section 3(c) or Section 4(f) above (including any electronic road show), or (iii) any free writing prospectus prepared by such underwriter and approved by the Company in advance in writing (each such free writing prospectus referred to in clauses (i) or (iii), an "Underwriter Free Writing Prospectus").

(d) *No Material Adverse Change*. No event or condition of a type described in Section 3(g) hereof shall have occurred or shall exist, which event or condition is not described in the Pricing Disclosure Package (excluding any amendment or supplement thereto) and the Prospectus (excluding any amendment or supplement thereto) and the effect of which in the judgment of the Representatives makes it impracticable or inadvisable to proceed with the offering, sale or delivery of the Shares on the Closing Date or the Additional Closing Date, as the case may be, on the terms and in the manner contemplated by this Agreement, the Pricing Disclosure Package and the Prospectus.

(e) *Officer's Certificate*. (g) *Opinion and 10b-5 Statement of Counsel for the Company*. Milbank LLP, counsel for the Company, shall have furnished to the Representatives, at the request of the Company, their written opinion and 10b-5 statement, dated the Closing Date or the Additional Closing Date, as the case may be, and addressed to the Underwriters, in form and substance reasonably satisfactory to the Representatives.

(h) *Opinion of Bermuda Counsel for the Company*. Conyers Dill & Pearman Limited, Bermuda counsel for the Company, shall have furnished to the Representatives, at the request of the Company, their written opinion, dated the Closing Date or the Additional Closing Date, as the case may be, and addressed to the Underwriters, in form and substance reasonably satisfactory to the Representatives.

(k) *No Legal Impediment to Sale*. No action shall have been taken and no statute, rule, regulation or order shall have been enacted, adopted or issued by any federal, state or foreign governmental or regulatory authority that would, as of the Closing Date or the Additional Closing Date, as the case may be, prevent the sale of the Shares by the Selling Shareholders; and no injunction or order of any federal, state or foreign court shall have been issued that would, as of the Closing Date or the Additional Closing Date, as the case may be, prevent the sale of the Shares by the Selling Shareholders.

(l) *Good Standing*. The Representatives shall have received on and as of the Closing Date or the Additional Closing Date, as the case may be, satisfactory evidence of the good standing of the Company and its material subsidiaries listed on Schedule 3 hereto in their respective jurisdictions of organization and their good standing in such other jurisdictions as the Representatives may reasonably request, in each case in writing or any standard form of telecommunication from the appropriate governmental authorities of such jurisdictions.

9. Indemnification and Contribution.

(a) *Indemnification of the Underwriters by the Company*. The Company agrees to indemnify and hold harmless each Underwriter, its affiliates, directors and officers and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, from and against any and all losses, claims, damages and liabilities (including, without limitation, reasonable and documented legal fees and other reasonable and documented expenses incurred in connection with any suit, action or proceeding or any claim asserted, as such fees and expenses are incurred), joint or several, that arise out of, or are based upon, (i) any untrue statement or alleged untrue statement of a material fact contained in the Registration Statement or caused by any omission or alleged omission to state therein a material fact required to be stated therein or necessary in order to make the statements therein, not misleading, or (ii) any untrue statement or alleged untrue statement of a material fact

contained in the Prospectus (or any amendment or supplement thereto), any Preliminary Prospectus, any Issuer Free Writing Prospectus, any "issuer information" filed or required to be filed pursuant to Rule 433(d) under the Securities Act, any Written Testing-the-Waters Communication, any road show as defined in Rule 433(h) under the Securities Act (a "road show") or any Pricing Disclosure Package, or caused by any omission or alleged omission to state therein a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading, in each case except insofar as such losses, claims, damages or liabilities arise out of, or are based upon, any untrue statement or omission or alleged untrue statement or omission made in reliance upon and in conformity with any information relating to any Underwriter furnished to the Company in writing by such Underwriter through the Representatives expressly for use therein, it being understood and agreed that the only such information furnished by any Underwriter consists of the information described as such in paragraph (c) below.

(b) *Indemnification of the Underwriters by the Selling Shareholders*. Each of the Selling Shareholders severally and not jointly in proportion to the number of Shares to be sold by such Selling Shareholder hereunder agrees to indemnify and hold harmless each Underwriter, its affiliates, directors and officers and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act to the same extent as the indemnity set forth in paragraph (a) above, but only with respect to any losses, claims, damages or liabilities that arise out of, or are based upon, any untrue statement or omission or alleged untrue statement or omission made in reliance upon and in conformity with such Selling Shareholder's Selling Shareholder Information. The liability of each Selling Shareholder under the indemnity agreement contained in this paragraph shall not exceed an amount equal to the aggregate net proceeds (after underwriting discounts and commissions but before deducting expenses) received by such Selling Shareholder for the Shares sold by such Selling Shareholder under this Agreement (with respect to each Selling Shareholder, the "Selling Shareholder Proceeds").

(c) *Indemnification of the Company and the Selling Shareholders*. Each Underwriter agrees, severally and not jointly, to indemnify and hold harmless the Company, its directors, its officers who signed the Registration Statement and each person, if any, who controls the Company within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act and each of the Selling Shareholders to the same extent as the indemnity set forth in paragraph (a) above, but only with respect to any losses, claims, damages or liabilities that arise out of, or are based upon, any untrue statement or omission or alleged untrue statement or omission made in reliance upon and in conformity with any information relating to such Underwriter furnished to the Company in writing by such Underwriter through the Representatives expressly for use in the Registration Statement, the Prospectus (or any amendment or supplement thereto), any Preliminary Prospectus, any Issuer Free Writing Prospectus, any Written Testing-the-Waters Communication, any road show or any Pricing Disclosure Package, it being understood and agreed upon that the only such information furnished by any Underwriter consists of the following information in the Prospectus furnished on behalf of each Underwriter: the concession and reallowance figures appearing in the third paragraph under the caption "Underwriting," and the information contained in the first, second, fourth, fifth, sixth, seventh, ninth and eleventh sentences of the tenth paragraph under the caption "Underwriting."

(d) *Notice and Procedures*. If any suit, action, proceeding (including any governmental or regulatory investigation), claim or demand shall be brought or asserted against any person in respect of which indemnification may be sought pursuant to the preceding paragraphs of this Section 9, such person (the "Indemnified Person") shall promptly notify the person against whom such indemnification may be sought (the "Indemnifying Person") in writing; provided that the failure to notify the Indemnifying Person shall not relieve it from any liability that it may have under the preceding paragraphs of this Section 9 except to the extent that it has been materially prejudiced (through the forfeiture of substantive rights or defenses) by such failure; and provided, further, that the failure to notify the Indemnifying Person shall not relieve it from any liability that it may have to an Indemnified Person otherwise than under the preceding paragraphs of this Section 9. If any such proceeding shall be brought or asserted against an Indemnified Person and it shall have notified the Indemnifying Person thereof, the Indemnifying Person shall retain counsel reasonably satisfactory to the Indemnified Person (who shall not, without the consent of the Indemnified Person, be counsel to the Indemnifying Person) to represent the Indemnified Person and any others entitled to indemnification pursuant to this Section that the Indemnifying Person may designate in such proceeding and shall pay the reasonable and documented fees and expenses in such proceeding and shall pay the reasonable and documented fees and expenses of such counsel related to such proceeding, as incurred. In any such proceeding, any Indemnified Person shall have the right to retain its own counsel, but the fees and expenses of such counsel shall be at the expense of such Indemnified Person unless (i) the Indemnifying Person and the Indemnified Person shall have mutually agreed to the contrary; (ii) the Indemnifying Person has failed within a reasonable time to retain counsel reasonably satisfactory to the Indemnified Person; (iii) the Indemnified Person shall have reasonably concluded that there may be legal defenses available to it that are different from or in addition to those available to the Indemnifying Person; or (iv) the named parties in any such proceeding (including any impleaded parties) include both the Indemnifying Person and the Indemnified Person and representation of both parties by the same counsel would be inappropriate due to actual or potential differing interests between them. It is understood and agreed that the Indemnifying Person shall not, in connection with any proceeding or related proceeding in the same jurisdiction, be liable for the fees and expenses of more than one separate firm (in addition to any local counsel) for all Indemnified Persons, and that all such fees and expenses shall be paid or reimbursed as they are incurred. Any such separate firm for any Underwriter, its affiliates, directors and officers and any control persons of such Underwriter shall be designated in writing by J.P. Morgan Securities LLC and any such separate firm for the Company, its directors, its officers who signed the Registration Statement and any control persons of the Company shall be designated in writing by the Company and any such separate firm for the Selling Shareholders shall be designated in writing by any one of them. The Indemnifying Person shall not be liable for any settlement of any proceeding effected without its written consent, but if settled with such consent, the Indemnifying Person agrees to indemnify each Indemnified Person from and against any loss or liability by reason of such settlement. Notwithstanding the foregoing sentence, if at any time an Indemnified Person shall have requested that an Indemnifying Person reimburse the Indemnified Person for fees and expenses of counsel as contemplated by this paragraph, the Indemnifying Person shall be liable for any

settlement of any proceeding effected without its written consent if (i) such settlement is entered into more than 30 days after receipt by the Indemnifying Person of such request and (ii) the Indemnifying Person shall not have reimbursed the Indemnified Person in accordance with such request prior to the date of such settlement. No Indemnifying Person shall, without the written consent of the Indemnified Person, effect any settlement of any pending or threatened proceeding in respect of which any Indemnified Person is or could have been a party and indemnification could have been sought hereunder by such Indemnified Person, unless such settlement (x) includes an unconditional release of such Indemnified Person, in form and substance reasonably satisfactory to such Indemnified Person, from all liability on claims that are the subject matter of such proceeding and (y) does not include any statement as to or any admission of fault, culpability or a failure to act by or on behalf of any Indemnified Person.

(e) *Contribution*. If the indemnification provided for in paragraphs (a), (b) or (c) above is unavailable to an Indemnified Person or insufficient in respect of any losses, claims, damages or liabilities referred to therein, then each Indemnifying Person under such paragraph, in lieu of indemnifying such Indemnified Person thereunder, shall contribute to the amount paid or payable by such Indemnified Person as a result of such losses, claims, damages or liabilities (i) in such proportion as is appropriate to reflect the relative benefits received by the Company and such Selling Shareholder, as applicable, on the one hand, and the Underwriters on the other, from the offering of the Shares or (ii) if the allocation provided by clause (i) is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (i) but also the relative fault of the Company such Selling Shareholder, as applicable, on the one hand, and the Underwriters on the other, in connection with the statements or omissions that resulted in such losses, claims, damages or liabilities, as well as any other relevant equitable considerations. The relative benefits received by the Company and such Selling Shareholder, as applicable, on the one hand, and the Underwriters on the other, shall be deemed to be in the same respective proportions as the net proceeds (before deducting expenses) received by the Company and such Selling Shareholder, as applicable, from the sale of the Shares and the total underwriting discounts and commissions received by the Underwriters in connection therewith, in each case as set forth in the table on the cover of the Prospectus, bear to the aggregate offering price of the Shares. The relative fault of the Company and such Selling Shareholder, as applicable, on the one hand, and the Underwriters on the other, shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company and such Selling Shareholder, as applicable, or by the Underwriters and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. Notwithstanding the foregoing provisions, the liability of each Selling Shareholder under the contribution agreement contained in this Section 9(e) and the indemnity agreement contained in Section 9(b) shall not exceed in the aggregate an amount equal to the Selling Shareholder Proceeds of such Selling Shareholder.

(f) *Limitation on Liability*. The Company, the Selling Shareholders and the Underwriters agree that it would not be just and equitable if contribution pursuant to paragraph (e) above were determined by pro rata allocation (even if the Selling Shareholders or the Underwriters were treated as one entity for such purpose) or by any other method of allocation that does not take account of the equitable considerations referred to in paragraph (e)

above. The amount paid or payable by an Indemnified Person as a result of the losses, claims, damages and liabilities referred to in paragraph (e) above shall be deemed to include, subject to the limitations set forth above, any legal or other expenses reasonably incurred by such Indemnified Person in connection with investigating or defending any such action or claim. Notwithstanding the provisions of paragraphs (e) and (f), in no event shall an Underwriter be required to contribute any amount in excess of the amount by which the total underwriting discounts and commissions received by such Underwriter with respect to the offering of the Shares exceeds the amount of any damages that such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Underwriters' obligations to contribute pursuant to paragraphs (e) and (f) are several in proportion to their respective purchase obligations hereunder and not joint.

(g) *Non-Exclusive Remedies*. The remedies provided for in this Section 9 are not exclusive and shall not limit any rights or remedies which may otherwise be available to any Indemnified Person at law or in equity.

10. Effectiveness of Agreement. This Agreement shall become effective as of the date first written above.

11. Termination. This Agreement may be terminated in the absolute discretion of the Representatives, by notice to the Company and the Selling Shareholders, if after the execution and delivery of this Agreement and on or prior to the Closing Date or, in the case of the Option Shares, prior to the Additional Closing Date (i) trading generally shall have been suspended or materially limited on or by any of the New York Stock Exchange or The Nasdaq Stock Market; (ii) trading of any securities issued or guaranteed by the Company shall have been suspended on any exchange or in any over-the-counter market; (iii) a general moratorium on commercial banking activities shall have been declared by federal or New York State authorities; or (iv) there shall have occurred any outbreak or escalation of hostilities or any change in financial markets or any calamity or crisis, either within or outside the United States, that, in the judgment of the Representatives, is material and adverse and makes it impracticable or inadvisable to proceed with the offering, sale or delivery of the Shares on the Closing Date or the Additional Closing Date, as the case may be, on the terms and in the manner contemplated by this Agreement, the Pricing Disclosure Package and the Prospectus.

12. Defaulting Underwriter.

(a) If, on the Closing Date or the Additional Closing Date, as the case may be, any Underwriter defaults on its obligation to purchase the Shares that it has agreed to purchase hereunder on such date, the non-defaulting Underwriters may in their discretion arrange for the purchase of such Shares by other persons satisfactory to the Company and the Selling Shareholders on the terms contained in this Agreement. If, within 36 hours after any such default by any Underwriter, the non-defaulting Underwriters do not arrange for the purchase of such Shares, then the Company and the Selling Shareholders shall be entitled to a further period

of 36 hours within which to procure other persons satisfactory to the non-defaulting Underwriters to purchase such Shares on such terms. If other persons become obligated or agree to purchase the Shares of a defaulting Underwriter, either the non-defaulting Underwriters or the Company and the Selling Shareholders may postpone the Closing Date or the Additional Closing Date, as the case may be, for up to five full business days in order to effect any changes that in the opinion of counsel for the Company, counsel for the Selling Shareholders or counsel for the Underwriters may be necessary in the Registration Statement and the Prospectus or in any other document or arrangement, and the Company agrees to promptly prepare any amendment or supplement to the Registration Statement and the Prospectus that effects any such changes. As used in this Agreement, the term "Underwriter" includes, for all purposes of this Agreement unless the context otherwise requires, any person not listed in Schedule 1 hereto that, pursuant to this Section 12, purchases Shares that a defaulting Underwriter agreed but failed to purchase.

(b) If, after giving effect to any arrangements for the purchase of the Shares of a defaulting Underwriter or Underwriters by the non-defaulting Underwriters, the Company and the Selling Shareholders as provided in paragraph (a) above, the aggregate number of Shares that remain unpurchased on the Closing Date or the Additional Closing Date, as the case may be, does not exceed one-eleventh of the aggregate number of Shares to be purchased on such date, then the Company and the Selling Shareholders shall have the right to require each non-defaulting Underwriter to purchase the number of Shares that such Underwriter agreed to purchase hereunder on such date plus such Underwriter's pro rata share (based on the number of Shares that such Underwriter agreed to purchase on such date) of the Shares of such defaulting Underwriter or Underwriters for which such arrangements have not been made.

(c) If, after giving effect to any arrangements for the purchase of the Shares of a defaulting Underwriter or Underwriters by the non-defaulting Underwriters, the Company and the Selling Shareholders as provided in paragraph (a) above, the aggregate number of Shares that remain unpurchased on the Closing Date or the Additional Closing Date, as the case may be, exceeds one-eleventh of the aggregate amount of Shares to be purchased on such date, or if the Company and the Selling Shareholders shall not exercise the right described in paragraph (b) above, then this Agreement or, with respect to any Additional Closing Date, the obligation of the Underwriters to purchase Shares on the Additional Closing Date, as the case may be, shall terminate without liability on the part of the non-defaulting Underwriters. Any termination of this Agreement pursuant to this Section 12 shall be without liability on the part of the Company, except that the Company and the Selling Shareholders will continue to be liable for the payment of expenses as set forth in Section 13 hereof and except that the provisions of Section 9 hereof shall not terminate and shall remain in effect.

(d) Nothing contained herein shall relieve a defaulting Underwriter of any liability it may have to the Company, the Selling Shareholders or any non-defaulting Underwriter for damages caused by its default.

13. Payment of Expenses.

(a) Whether or not the transactions contemplated by this Agreement are consummated or this Agreement is terminated, the Company will pay or cause to be paid all costs and expenses incident to the performance of its obligations hereunder, including without limitation, (i) the costs incident to the authorization, sale, preparation and delivery of the Shares and any taxes payable in that connection; (ii) the costs incident to the preparation, printing and filing under the Securities Act of the Registration Statement, the Preliminary Prospectus, any Issuer Free Writing Prospectus, any Pricing Disclosure Package and the Prospectus (including all exhibits, amendments and supplements thereto) and the distribution thereof; (iii) the fees and expenses of the Company's counsel and independent accountants; (iv) the fees and expenses incurred in connection with the registration or qualification and determination of eligibility for investment of the Shares under the laws of such jurisdictions as the Representatives may designate and the preparation, printing and distribution of a Blue Sky Memorandum (including the related reasonable fees and expenses of counsel for the Underwriters not to exceed $5,000); (v) the cost of preparing share certificates; (vi) the costs and charges of any transfer agent and any registrar; (vii) all expenses and application fees incurred in connection with any filing with, and clearance of the offering by, FINRA, not to exceed $30,000; (viii) all expenses incurred by the Company in connection with any "road show" presentation to potential investors; and (ix) all expenses related to the listing of the Shares on the Exchange. The provisions of this Section shall not supersede or otherwise affect any agreement that the Company and the Selling Shareholders may otherwise have for the allocation of such expenses among themselves.

(b) If (i) this Agreement is terminated pursuant to Section 11, (ii) the Selling Shareholders for any reason fail to tender the Shares for delivery to the Underwriters (other than as a result of a termination pursuant to Section 12 hereof, or the default by one or more of the Underwriters in its or their respective obligations hereunder, in which case only such defaulting Underwriters shall not be entitled to reimbursement) or (iii) the Underwriters decline to purchase the Shares for any reason permitted under this Agreement (other than the default by one or more of the Underwriters in its or their respective obligations hereunder, in which case only such defaulting Underwriters shall not be entitled to reimbursement), the Company agrees to reimburse the Underwriters for all reasonable out-of-pocket costs and expenses (including the reasonable fees and expenses of their counsel) reasonably incurred by the Underwriters in connection with this Agreement and the offering contemplated hereby.

14. Persons Entitled to Benefit of Agreement. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and the officers and directors and any controlling persons referred to herein and the affiliates of each Underwriter referred to in Section 9 hereof. Nothing in this Agreement is intended or shall be construed to give any other person any legal or equitable right, remedy or claim under or in respect of this Agreement or any provision contained herein. No purchaser of Shares from any Underwriter shall be deemed to be a successor merely by reason of such purchase.

15. Survival. The respective indemnities, rights of contribution, representations, warranties and agreements of the Company, the Selling Shareholders and the Underwriters contained in this Agreement or made by or on behalf of the Company, the Selling Shareholders or the Underwriters pursuant to this Agreement or any certificate delivered pursuant hereto shall survive the delivery of and payment for the Shares and shall remain in full force and effect, regardless of any termination of this Agreement or any investigation made by or on behalf of the Company, the Selling Shareholders or the Underwriters or the directors, officers, controlling persons or affiliates referred to in Section 9 hereof.

16. Certain Defined Terms. For purposes of this Agreement, (a) except where otherwise expressly provided, the term "affiliate" has the meaning set forth in Rule 405 under the Securities Act; (b) the term "business day" means any day other than a day on which banks are permitted or required to be closed in New York City; and (c) the term "subsidiary" has the meaning set forth in Rule 405 under the Securities Act.

17. Compliance with USA PATRIOT Act. In accordance with the requirements of the USA PATRIOT Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)), the Underwriters are required to obtain, verify and record information that identifies their respective clients, including the Company and the Selling Shareholders, which information may include the name and address of their respective clients, as well as other information that will allow the Underwriters to properly identify their respective clients.

18. Miscellaneous.

(c) *Submission to Jurisdiction*. Each of the Company and the Selling Shareholders hereby submit to the exclusive jurisdiction of the U.S. federal and New York state courts in the Borough of Manhattan in The City of New York in any suit or proceeding arising out of or relating to this Agreement or the transactions contemplated hereby. Each of the Company and the Selling Shareholders waive any objection which it may now or hereafter have to the laying of venue of any such suit or proceeding in such courts. Each of the Company and the Selling Shareholders agree that final judgment in any such suit, action or proceeding brought in such court shall be conclusive and binding upon the Company and each Selling Shareholder, as applicable, and may be enforced in any court to the jurisdiction of which Company and each Selling Shareholder, as applicable, is subject by a suit upon such judgment.

(d) *Judgment Currency*. The Company and each Selling Shareholder agree to indemnify each Underwriter, its directors, officers, affiliates and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, against any loss incurred by such Underwriter as a result of any judgment or order being given or made for any amount due hereunder and such judgment or order being expressed and paid in a currency (the "judgment currency") other than U.S. dollars and as a result of any variation as between (i) the rate of exchange at which the U.S. dollar amount is converted into the judgment currency for the purpose of such judgment or order, and (ii) the rate of exchange at which such indemnified person is able to purchase U.S. dollars with the amount of the judgment currency actually received by the indemnified person. The foregoing indemnity shall constitute a separate and independent obligation of the Company and each Selling Shareholder and shall continue in full force and effect notwithstanding any such judgment or order as aforesaid. The term "rate of exchange" shall include any premiums and costs of exchange payable in connection with the purchase of, or conversion into, the relevant currency.

(e) *Waiver of Immunity*. To the extent that the Company or any Selling Shareholder has or hereafter may acquire any immunity (sovereign or otherwise) from jurisdiction of any court of (i) Bermuda or any political subdivision thereof, (ii) the United States or the State of New York, or (iii) any jurisdiction in which it owns or leases property or assets or from any legal process (whether through service of notice, attachment prior to judgment, attachment in aid of execution, execution, set-off or otherwise) with respect to themselves or their respective property and assets or this Agreement, the Company and each Selling Shareholder hereby irrevocably waive such immunity in respect of its obligations under this Agreement to the fullest extent permitted by applicable law.

(f) *Waiver of Jury Trial*. Each of the parties hereto hereby waives any right to trial by jury in any suit or proceeding arising out of or relating to this Agreement.

(g) *Recognition of the U.S.* Special Resolution Regimes.

(i) In the event that any Underwriter that is a Covered Entity (as hereinafter defined) becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer from such Underwriter of this Agreement, and any interest and obligation in or under this Agreement, will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if this Agreement, and any such interest and obligation, were governed by the laws of the United States or a state of the United States.

(ii) In the event that any Underwriter that is a Covered Entity or a BHC Act Affiliate of such Underwriter becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under this Agreement that may be exercised against such Underwriter are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if this Agreement were governed by the laws of the United States or a state of the United States.

Capitalized terms used herein and not otherwise defined shall have the meanings set forth in the Underwriting Agreement.

In consideration of the Underwriters' agreement to purchase and make the Public Offering, and for other good and valuable consideration receipt of which is hereby acknowledged, the undersigned hereby agrees that, without the prior written consent of the Representatives, the undersigned will not, and will not cause any of its controlled affiliates to, during the period beginning on the date of this letter agreement (this "Letter Agreement") and ending at the close of business 90 days after the date of the final prospectus relating to the Public Offering (the "Prospectus") (such period, the "Restricted Period"), (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any Ordinary Shares or any securities convertible into or exercisable or exchangeable for Ordinary Shares (including without limitation, Ordinary Shares or such other securities which may be deemed to be beneficially owned by the undersigned in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") and securities which may be issued upon exercise of a share option or warrant) (collectively, the "Lock-Up

Securities"), (2) enter into any hedging, swap or other agreement or transaction that transfers, in whole or in part, any of the economic consequences of ownership of the Lock-Up Securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of Lock-Up Securities, in cash or otherwise, (3) make any demand for, or exercise any right with respect to, the registration of any Lock-Up Securities provided that, to the extent the undersigned has demand and/or piggyback registration rights, the foregoing shall not prohibit the undersigned from notifying the Company privately that it is or will be exercising its demand and/or piggyback registration rights following the expiration of the Restricted Period and undertaking any preparations related thereto; provided, further, that undersigned shall not, without the prior written consent of the Representatives, file or confidentially submit, or cause to be filed or confidentially submitted, during the Restricted Period, a registration statement under the Securities Act of 1933, as amended (the "Securities Act"), in connection with such preparations, or (4) publicly disclose the intention to do any of the foregoing. The undersigned acknowledges and agrees that the foregoing precludes the undersigned from engaging in any hedging or other transactions or arrangements (including, without limitation, any short sale or the purchase or sale of, or entry into, any put or call option, or combination thereof, forward, swap or any other derivative transaction or instrument, however described or defined) designed or intended, or which could reasonably be expected to lead to or result in, a sale or disposition or transfer (whether by the undersigned or any other person) of any economic consequences of ownership, in whole or in part, directly or indirectly, of any Lock-Up Securities, whether any such transaction or arrangement (or instrument provided for thereunder) would be settled by delivery of Lock-Up Securities, in cash or otherwise. The undersigned represents and warrants that the undersigned is not, and has not caused or directed any of its affiliates to be or become, currently a party to any agreement or arrangement that provides for, is designed to or which reasonably could be expected to lead to or result in any transfer during the Restricted Period.

Notwithstanding the foregoing, the undersigned may:

(l) transfer, distribute, cause the disposition of or surrender (as the case may be) the undersigned's Lock-Up Securities:

(ii) by will, testamentary document or intestacy,

(iii) to any immediate family member, or to any trust for the direct or indirect benefit of the undersigned or the immediate family of the undersigned, or if the undersigned is a trust, to a trustor or beneficiary of the trust or to the estate of a beneficiary of such trust (for purposes of this Letter Agreement, "immediate family" shall mean any relationship by blood, current or former marriage, domestic partnership or adoption, not more remote than first cousin), or from such trust to the undersigned,

(iv) to a corporation, partnership, limited liability company or other entity of which the undersigned and the immediate family of the undersigned are the legal and beneficial owner of all of the outstanding equity securities or similar interests,

(v) to a nominee or custodian of a person or entity to whom a disposition or transfer would be permissible under clauses (i) through (iv) above,

(vi) if the undersigned is a corporation, partnership, limited liability company, trust or other business entity, (A) to another corporation, partnership, limited liability company, trust or other business entity that is an affiliate (as defined in Rule 405 promulgated under the Securities Act) of the undersigned, or to any investment fund or other entity controlling, controlled by, managing or managed by or under common control with the undersigned or affiliates of the undersigned (including, for the avoidance of doubt, where the undersigned is a partnership, to its general partner or a successor partnership or fund, or any other funds managed by such partnership), or (B) as part of a distribution to members, limited partners, beneficiaries or shareholders of the undersigned,

(vii) by operation of law, such as pursuant to a qualified domestic order, divorce settlement, divorce decree or separation agreement or other court or regulatory agency order,

(viii) to the Company from an employee or service provider of the Company upon death, disability or termination of employment, in each case, of such employee or service provider,

(ix) as part of a sale of the undersigned's Lock-Up Securities acquired in open market transactions or in the Public Offering, in each case, on or after the closing date for the Public Offering,

(x) in connection with the vesting, settlement, or exercise of restricted stock units, options, warrants or other rights to purchase Ordinary Shares (including, in each case, by way of "net" or "cashless" exercise), including for the payment of exercise price and tax withholdings or remittance payments due as a result of the vesting, settlement, or exercise of such restricted stock units, options, warrants or other rights, provided that any such Ordinary Shares received upon such exercise, vesting or settlement shall be subject to the terms of this Letter Agreement, and provided further that any such restricted stock units, options, warrants or rights are held by the undersigned pursuant to an agreement or equity awards granted under a share incentive plan or other equity award plan, each such agreement or plan which is described in the Registration Statement on Form F-1 to be filed with the SEC (the "Registration Statement"), the Pricing Disclosure Package (as defined in the Underwriting Agreement) and the Prospectus,

(xi) to the Company in connection with (A) the repurchase of Ordinary Shares issued pursuant to equity awards granted under a share incentive plan or other equity award plan, limited only to a plan that is described in the Registration Statement, in the Pricing Disclosure Package and in the Prospectus or (B) a right of first refusal that the Company has with respect to transfers of such shares or securities,

(xii) pursuant to a bona fide third-party tender offer, merger, consolidation or other similar transaction that is approved by the Board of Directors of the Company and made to all holders of the Company's share capital involving a Change of Control (as defined below) of the Company (for purposes hereof, "Change of Control" shall mean the transfer (whether by tender offer, merger, consolidation or other similar transaction), in one transaction or a series of related transactions, to a person or group of affiliated persons, of shares of capital stock if, after such transfer, such person or group of affiliated persons would hold at least a majority of the outstanding voting securities of the Company (or the surviving entity)); provided that in the event that such tender offer, merger, consolidation or other similar transaction is not completed, the undersigned's Lock-Up Securities shall remain subject to the provisions of this Letter Agreement, or

(xiii) pursuant to a trading plan that satisfies all of the requirements of Rule 10b5-1(c)(1)(i)(B) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (any such plan, a "10b5-1 Plan") that is existing as of the date hereof;

provided that (A) in the case of any transfer or distribution pursuant to clause (a)(i), (ii), (iii), (iv), (v), (vi) and (vii), such transfer shall not involve a disposition for value and each donee, devisee, transferee or distributee shall execute and deliver to the Representatives a lock-up letter in the form of this Letter Agreement; (B) in the case of any transfer or distribution pursuant to clause (a)(i), (ii), (iii), (iv), (v), (vi) and (ix), no filing by any party (including, without limitation, any donor, donee, devisee, transferor, transferee, distributer or distributee) under the Exchange Act, or other public announcement shall be required or shall be made voluntarily during the Restricted Period in connection with such transfer or distribution (other than a filing on a Form 5 made after the expiration of the Restricted Period referred to above) and (C) in the case of any transfer or distribution pursuant to clause (a)(vii), (viii), (x) and (xiii) it shall be a condition to such transfer that no public filing, report or announcement shall be voluntarily made and if any such filing, report or announcement shall be legally required during the Restricted Period, such filing, report or announcement shall clearly indicate in the footnotes thereto the circumstances of such transfer, provided further that the restrictions in this subitem (C) shall not be applicable to filings of Forms 144 pursuant to Rule 144 under the Securities Act;

(m) exercise outstanding options, settle restricted share units or other equity awards or exercise warrants pursuant to plans or other equity compensation arrangements described in the Registration Statement, the Pricing Disclosure Package and the Prospectus; provided that any Lock-Up Securities received upon such exercise, vesting or settlement shall be subject to the terms of this Letter Agreement;

(n) convert outstanding preferred shares, warrants to acquire preferred shares or convertible securities into Ordinary Shares or warrants to acquire Ordinary Shares; provided that any such Ordinary Shares or warrants received upon such conversion shall be subject to the terms of this Letter Agreement;

(o) establish new 10b5-1 Plans; provided that (1) such plans do not provide for the transfer of Lock-Up Securities during the Restricted Period and (2) no filing by any party under the Exchange Act or other public announcement shall be required or made voluntarily in connection with such trading plan (other than any required SEC disclosure of the entrance into any trading plan, provided that such disclosure includes a statement to the effect that no transfers may be made pursuant to such trading plan during the Restricted Period); and

(p) sell the Ordinary Shares to be sold by the undersigned pursuant to the terms of the Underwriting Agreement.

In furtherance of the foregoing, the Company, and any duly appointed transfer agent for the registration or transfer of the securities described herein, are hereby authorized to decline to make any transfer of securities if such transfer would constitute a violation or breach of this Letter Agreement.

The undersigned hereby represents and warrants that the undersigned has full power and authority to enter into this Letter Agreement. All authority herein conferred or agreed to be conferred and any obligations of the undersigned shall be binding upon the successors, assigns, heirs or personal representatives of the undersigned.

[If, prior to the expiration of the Restricted Period, the Representatives consent to release or waive any prohibition set forth in this Letter Agreement on the transfer of shares of Lock-Up Securities held by any directors, officers, shareholders of 5% or more of the Ordinary Shares (a "Triggering Release" and the holder that is the subject of such Trigger Release, the "Triggering Release Party"), then a number of the undersigned's Ordinary Shares subject to this Letter Agreement shall also be released from the restrictions hereunder on a pro rata basis, such number of securities being the total number of securities held by the undersigned on the date of the Triggering Release with respect to the Company that are subject to this Letter Agreement multiplied by a fraction, the numerator of which shall be the number of Ordinary Shares released pursuant to the Triggering Release and the denominator of which shall be the total number of Ordinary Shares held by the Triggering Release Party on such date. Notwithstanding the foregoing, the provisions of this paragraph will not apply (i) if the release or waiver is effected solely to permit a transfer not involving a disposition for value and the transferee agrees in writing to be bound by the same terms described in this Letter Agreement to the extent and for the duration that such terms remain in effect at the time of transfer, (ii) in the case of any secondary underwritten public offering of Ordinary Shares, (iii) if the release or waiver is granted to any individual party by the Representatives in an amount, individually or in the aggregate, less than or equal to 1% of the Company's total outstanding Ordinary Shares (calculated as of the closing date of the Public Offering, but after giving effect to the extent of the exercise of the Underwriters' overallotment option in the Public Offering) or (iv) if the release or waiver is granted due to circumstances of an emergency or hardship as determined by the Representatives in their sole judgment. The undersigned further acknowledges that the Representatives are under no obligation to inquire into whether, or to ensure that, the Company notifies the undersigned of the consent by the Representatives of any such release or waiver, which is a matter between the undersigned and the Company.][1]

[1] To be included in lock-up agreements with the selling shareholders.

The undersigned acknowledges and agrees that the Underwriters have not provided any recommendation or investment advice nor have the Underwriters solicited any action from the undersigned with respect to the Public Offering of the Ordinary Shares, and the undersigned has consulted their own legal, accounting, financial, regulatory and tax advisors to the extent deemed appropriate. The undersigned further acknowledges and agrees that, although the Representative may be required or choose to provide certain Regulation Best Interest and Form CRS disclosures to you in connection with the Public Offering, the Representative and the other Underwriters are not making a recommendation to you to participate in the Public Offering, enter into this Letter Agreement, or sell any Ordinary Shares at the price determined in the Public Offering, and nothing set forth in such disclosures is intended to suggest that the Representative or any Underwriter is making such a recommendation.

This Letter Agreement shall automatically terminate and the undersigned shall be automatically released from all obligations hereunder upon the earlier of (i) September 30, 2024, in the event that the Underwriting Agreement has not been executed by such date (provided, however, that the Company may, by written notice to the undersigned prior to such date, extend such date by a period of up to an additional 90 days), (ii) the date on which for any reason the Underwriting Agreement (other than the provisions thereof which survive termination) shall terminate or be terminated prior to payment for and delivery of the Ordinary Shares to be sold thereunder, (iii) the date on which either the Company, on the one hand, or the Representatives, on the other hand, notifies the other in writing that it does not intend to proceed with the Public Offering, and (iv) the date on which the Registration Statement filed with the SEC in connection with the Public Offering is withdrawn. The undersigned understands that the Underwriters are entering into the Underwriting Agreement and proceeding with the Public Offering in reliance upon this Letter Agreement.

This Letter Agreement may be delivered via facsimile, electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, e.g., www.docusign.com or www.echosign.com) or other transmission method and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

5. CALLS ON SHARES

5.1. The Board may make such calls as it thinks fit upon the Members in respect of any moneys (whether in respect of nominal value or premium) unpaid on the shares allotted to or held by such Members (and not made payable at fixed times by the terms and conditions of issue) and, if a call is not paid on or before the day appointed for payment thereof, the Member may at the discretion of the Board be liable to pay the Company interest on the amount of such call at such rate as the Board may determine, from the date when such call was payable up to the actual date of payment. The Board may differentiate between the holders as to the amount of calls to be paid and the times of payment of such calls.

5.2. The joint holders of a share shall be jointly and severally liable to pay all calls and any interest, costs and expenses in respect thereof.

5.3. The Company may accept from any Member the whole or a part of the amount remaining unpaid on any shares held by such Member, although no part of that amount has been called up or become payable.

6. SHARE CERTIFICATES

6.1. Subject to the provisions of this Bye-law 6 and save in respect of those shares that the Board has determined to be uncertificated shares, every Member shall be entitled to request a certificate under the common seal of the Company (or a facsimile thereof) or bearing the signature (or a facsimile thereof) of a Director or the Secretary or a person expressly authorised to sign specifying the number and the class and, if applicable, series of shares held by such Member and whether the same are fully paid up and, if not, specifying the amount paid on such shares. 6.2. The Company shall be under no obligation to complete and deliver a share certificate unless specifically called upon to do so by the person to whom the shares have been allotted.

6.3. If any share certificate shall be proved to the satisfaction of the Board to have been worn out, lost, mislaid, or destroyed the Board may cause a new certificate to be issued and request an indemnity for the lost certificate if it sees fit.

6.4. Notwithstanding any provisions of these Bye-laws:

(a) the Board shall, subject always to the Act and any other applicable laws and regulations and the facilities and requirements of any relevant system concerned, have power to implement any arrangements it may, in its absolute discretion, think fit in relation to the evidencing of title to and transfer of uncertificated shares and to the extent such arrangements are so implemented, no provision of these Bye-laws shall apply or have effect to the extent that it is in any respect inconsistent with the holding or transfer of shares in uncertificated form; and

(b) unless otherwise determined by the Board and as permitted by the Act and any other applicable laws and regulations, no person shall be entitled to receive a certificate in respect of any share for so long as the title to that share is evidenced otherwise than by a certificate and for so long as transfers of that share may be made otherwise than by a written instrument.

6.5. The Board shall, subject always to the Act, any other applicable laws and regulations and the requirements of any relevant system and these Bye-laws, have the power to implement or approve any arrangements it may, in its absolute discretion, think fit in relation to the evidencing of title to and transfer of interest in shares of the Company in the form of depositary interests or similar interests, instruments or securities, and to the extent such arrangements are so implemented, no provision of these Bye-laws shall apply or have effect to the extent that it is in any respect inconsistent with the holding or transfer thereof of the shares represented thereby. The Board may from time to time take such actions and do such things as it may, in its absolute discretion, think fit in relation to the operation of any such arrangements, including without limitation, implementing voting procedures in respect thereof.

7. FRACTIONAL SHARES

The Company may issue its shares in fractional denominations and deal with such fractions to the same extent as its whole shares and shares in fractional denominations shall have in proportion to the respective fractions represented thereby all of the rights of whole shares including (but without limiting the generality of the foregoing) the right to vote, to receive dividends and distributions and to participate in a winding-up.

REGISTRATION OF SHARES

8. REGISTER OF MEMBERS

8.1. The Board shall cause to be kept in one or more books (including an electronic record) a Register of Members and shall enter therein the particulars required by the Act. Subject to the provisions of the Act, the Company may keep one or more overseas or branch registers in any place, and the Board may make, amend and revoke any such regulations as it may think fit regarding the keeping of such registers. The Board may authorise any share on the Register of Members to be included in a branch register or any share registered on a branch register to be registered on another branch register, provided that at all times the Register of Members is maintained in accordance with the Act.

8.2. The Register of Members shall be open to inspection without charge at the registered office of the Company on every business day, subject to such reasonable restrictions as the Board may impose, so that not less than two hours in each business day be allowed for inspection. The Register of Members may, after notice has been given in accordance with the Act, be closed for any time or times not exceeding in the whole thirty days in each year.

9. REGISTERED HOLDER ABSOLUTE OWNER

The Company shall be entitled to treat the registered holder of any share as the absolute owner thereof and accordingly shall not be bound to recognise any equitable claim or other claim to, or interest in, such share on the part of any other person.

10. TRANSFER OF REGISTERED SHARES

10.1. A Member may Transfer all or a portion of its shares to any person, subject to compliance with the Act and these Bye-laws. For any Member that is a trust, a change in the trustee of such Member shall not constitute a Transfer.

10.2. An instrument of transfer shall be in writing in such form as the Board may accept. Shares may be transferred without a written instrument if transferred in accordance with Section 48 of the Act or, if not inconsistent with the Act, pursuant to Bye-law 10.9.

10.3. Such instrument of transfer shall be signed by (or in the case of a party that is a corporation, on behalf of) the transferor and transferee; provided that, in the case of a fully paid share, the Board may accept the instrument signed by or on behalf of the transferor alone. The transferor shall be deemed to remain the holder of such share until the same has been registered as having been transferred to the transferee in the Register of Members.

10.4. The Board may refuse to recognise any instrument of transfer unless it is accompanied by the certificate in respect of the shares to which it relates and by such other evidence as the Board may reasonably require showing the right of the transferor to make the transfer.

10.5. The joint holders of any share may transfer such share to one or more of such joint holders, and the surviving holder or holders of any share previously held by them jointly with a deceased Member may transfer any such share to the executors or administrators of such deceased Member.

10.6. The Board may in its absolute discretion and without assigning any reason therefor refuse to register the transfer of a share which is not fully paid up. The Board shall refuse to register a transfer unless all applicable consents, authorisations and permissions of any governmental body or agency in Bermuda have been obtained. The Board shall have the authority to request from any Member, and such Member shall provide, such information as the Board may reasonably request for the purpose of determining whether the transfer of any share requires such consent, authorisation, or permission and whether the same has been obtained.

10.7. If the Board refuses to register a transfer of any share the Secretary shall, within three months after the date on which the transfer was lodged with the Company, send to the transferor and transferee notice of the refusal.

10.8. Notwithstanding the foregoing, shares may be transferred without a written instrument if transferred by an appointed agent or otherwise in accordance with the Act.

10.9. Notwithstanding anything to the contrary in Bye-laws 10.2 to 10.8, shares that are listed or admitted to trading on an appointed stock exchange (and shares of a different class that will, upon transfer, be shares of the same class as shares listed on the appointed stock exchange) may be transferred in accordance with the rules and regulations of such exchange.

11. TRANSMISSION OF REGISTERED SHARES

11.1. In the case of the death of a Member, the survivor or survivors where the deceased Member was a joint holder, and the legal personal representatives of the deceased Member where the deceased Member was a sole holder, shall be the only persons recognised by the Company as having any right or title to the deceased Member's interest in the shares. Nothing herein contained shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by such deceased Member with other persons. Subject to the Act, for the purpose of this Bye-law, legal personal representative means the executor or administrator of a deceased Member or such other person as the Board may, in its absolute discretion, decide as being properly authorised to deal with the shares of a deceased Member.

11.2. Any person becoming entitled to a share in consequence of the death or bankruptcy of any Member may be registered as a Member upon such evidence as the Board may deem sufficient or may elect to nominate some person to be registered as a transferee of such share, and in such case the person becoming entitled shall execute in favour of such nominee an instrument of transfer in writing in such form as the Board may accept.

11.3. On the presentation of the foregoing materials to the Board, accompanied by such evidence as the Board may require to prove the title of the transferor, the transferee shall be registered as a Member.

11.4. Where two or more persons are registered as joint holders of a share or shares, then in the event of the death of any joint holder or holders the remaining joint holder or holders shall be absolutely entitled to such share or shares and the Company shall recognise no claim in respect of the estate of any joint holder except in the case of the last survivor of such joint holders.

ALTERATION OF SHARE CAPITAL

12. POWER TO ALTER CAPITAL

12.1. The Company may, if authorised by resolution of the Members, increase, divide, consolidate, subdivide, change the currency denomination of, diminish or otherwise alter or reduce its share capital in any manner permitted by the Act.

12.2. Where, on any alteration or reduction of share capital, fractions of shares or some other difficulty would arise, the Board may deal with or resolve the same in such manner as it thinks fit.

13. VARIATION OF RIGHTS ATTACHING TO SHARES

If, at any time, the share capital is divided into different classes or series of shares, the rights attached to any class or series with issued and outstanding shares (unless otherwise provided by the terms of issue of the shares of that class or series) may, whether or not the Company is being wound-up, be varied with the consent in writing of the holders of three-fourths (75%) of the issued and outstanding shares of that class or series or with the sanction of a resolution passed by a majority of the votes cast at a separate general meeting of the holders of the shares of such class or series, at which meeting the necessary quorum shall be at least two (2) persons at least holding or representing by proxy at least one-third (33.3%) of the issued and outstanding shares of such class or series. The rights conferred upon the holders of the shares of any class or series shall not, unless otherwise expressly provided by the terms of issue of the shares of that class or series, be deemed to be varied by (i) an alteration of the share capital of the Company in accordance with Bye-law 13; (ii) the creation or issue of further shares ranking *pari passu* with, or subsequent to, that share or class of shares; and (iii) the purchase or redemption by the Company of any of its own shares.

DIVIDENDS AND CAPITALISATION

14. DIVIDENDS

14.1. The Board may, subject to these Bye-laws and in accordance with the Act, declare a dividend to be paid to the Members, in proportion to the number of shares held by them, and such dividend may be paid in cash or wholly or partly in specie, in which case the Board may fix the value for distribution in specie of any assets. No unpaid dividend shall bear interest as against the Company.

14.2. The Board may fix any date as the record date for determining the holders of record of any class or series of shares entitled to receive any dividend declared by the Board.

14.3. The Company may pay dividends to holders of any class or series of shares in proportion to the amount paid up on each share where a larger amount is paid up on some shares than on others.

14.4. The Board may declare and make such other distributions (in cash or in specie) to the Members as may be lawfully made out of the assets of the Company. No unpaid distribution shall bear interest as against the Company.

15. POWER TO SET ASIDE PROFITS

The Board may, before declaring a dividend, set aside out of the surplus or profits of the Company, such amount as it thinks proper as a reserve to be used to meet contingencies or for equalising dividends or for any other purpose.

16. METHOD OF PAYMENT

16.1. Any dividend, interest, or other moneys payable in cash in respect of the shares may be paid to the record holder of such shares by such means as the Board may determine, which may include cheque or bank draft sent through the post directed to the Member at such Member's address in the Register of Members, or to such person and to such address as the Member may direct in writing, or by wire or other electronic transfer to such account as the Member may direct in writing.

16.2. In the case of joint holders of shares, any dividend, interest or other moneys payable in cash in respect of shares may be paid by cheque or bank draft sent through the post directed to the address of the holder first named in the Register of Members, or to such person and to such address as the joint holders may direct in writing, or by transfer to such account as the joint holders may direct in writing. If two or more persons are registered as joint holders of any shares any one can give an effectual receipt for any dividend paid in respect of such shares.

16.3. The Board may deduct from the dividends or distributions payable to any Member all moneys due from such Member to the Company on account of calls or otherwise.

16.4. Any dividend or other moneys payable in respect of a share which has remained unclaimed for six (6) years from the date when it became due for payment shall, if the Board so resolves, be forfeited and cease to remain owing by the Company. The payment of any unclaimed dividend or other moneys payable in respect of a share may (but need not) be paid by the Company into an account separate from the Company's own account. Such payment shall not constitute the Company a trustee in respect thereof.

16.5. The Company shall be entitled to cease sending dividend cheques and drafts by post or otherwise to a Member if those instruments have been returned undelivered to, or left uncashed by, that Member on at least two consecutive occasions or, following one such occasion, reasonable enquiries have failed to establish the Member's new address. The entitlement conferred on the Company by this Bye-law in respect of any Member shall cease if the Member claims a dividend or cashes a dividend cheque or draft.

17. CAPITALISATION

17.1. The Board may capitalise any amount for the time being standing to the credit of any of the Company's share premium or other reserve accounts or to the credit of the profit and loss account or otherwise available for distribution by applying such amount in paying up unissued shares to be allotted as fully paid bonus shares *pro rata* (except in connection with the conversion of shares of one class to shares of another class) to the Members.

17.2. The Board may capitalise any amount for the time being standing to the credit of a reserve account or amounts otherwise available for dividend or distribution by applying such amounts in paying up in full, partly or nil paid shares of those Members who would have been entitled to such amounts if they were distributed by way of dividend or distribution.

Subject to any applicable rules of the stock exchange on which the Company's shares are listed at the time of giving notice of any general meeting, a general meeting shall, notwithstanding that it is called on shorter notice than that specified in these Bye-laws, be deemed to have been properly called if it is so agreed by (i) all the Members entitled to attend and vote thereat in the case of an annual general meeting; and (ii) a majority in number of the Members having the right to attend and vote at the meeting, and, in the case of a special general meeting, being a majority together holding not less than 95% in nominal value of the shares giving a right to attend and vote thereat.

21.5. The accidental omission to give notice of a general meeting to, or the non-receipt of a notice of a general meeting by, any person entitled to receive notice shall not invalidate the proceedings at that meeting.

22. GIVING NOTICE AND ACCESS

22.1. Subject to the rules of the stock exchange on which the Company's shares are listed, any notice may be given by the Company to a Member:

(a) by delivering it to such Member in person, in which case the notice shall be deemed to have been served upon such delivery; or

22.4. Where a Member indicates his or her consent (in a form and manner satisfactory to the Board), to receive information or documents by accessing them on a website rather than by other means, or receipt in this manner is otherwise permitted by the Act, the Board may deliver such information or documents by notifying the Member of their availability and including therein the address of the website, the place on the website where the information or document may be found, and instructions as to how the information or document may be accessed on the website.

23. POSTPONEMENT OR CANCELLATION OF GENERAL MEETING

The Secretary may, and on the instruction of the chief executive officer, chairperson or president of the Company or the Board, the Secretary shall, postpone or cancel any general meeting called in accordance with these Bye-laws (other than a meeting requisitioned under these Bye-laws) provided that notice of postponement or cancellation is given to the Members before the time for such meeting. Fresh notice of the date, time and place for a postponed meeting shall be given to each Member in accordance with these Bye-laws.

24. ELECTRONIC PARTICIPATION AND SECURITY IN MEETINGS

24.2. The Board may, and at any general meeting, the chairperson of such meeting may, make any arrangement and impose any requirement or restriction it or he considers appropriate to ensure the security of a general meeting including, without limitation, requirements for evidence of identity to be produced by those attending the meeting, the searching of their personal property and the restriction of items that may be taken into the meeting place. The Board and, at any general meeting, the chairperson of such meeting are entitled to refuse entry to a person who refuses to comply with any such arrangements, requirements or restrictions.

25.1. At any general meeting two or more persons present throughout the meeting and representing in person or by proxy a majority of the total voting rights of all issued and outstanding shares in the Company shall form a quorum for the transaction of business.

25.2. If within half an hour from the time appointed for the meeting a quorum is not present, then, in the case of a meeting convened on a requisition, the meeting shall be deemed cancelled and, in any other case, the meeting shall stand adjourned to the same day one week later, at the same time and place or to such other day, time or place as the Secretary may determine. Unless the meeting is adjourned to a specific date, time and place announced at the meeting being adjourned, fresh notice of the resumption of the meeting shall be given to each Member entitled to attend and vote thereat in accordance with these Bye-laws.

27.3. At any general meeting a resolution put to the vote of the meeting shall, in the first instance, be voted upon by a show of hands of Members holding shares entitled to vote thereon and, subject to any rights or restrictions for the time being lawfully attached to any class of shares and subject to these Bye-laws, every Member holding shares entitled to vote thereon present in person and every person holding a valid proxy at such meeting for shares entitled to vote thereon shall cast such number of votes as their shares entitle them to vote by raising his or her hand.

27.4. In the event that a Member participates in a general meeting by telephone, electronic or other communication facilities or means, the chairperson of the meeting shall direct the manner in which such Member may cast his or her vote on a show of hands.

27.5. At any general meeting if an amendment is proposed to any resolution under consideration and the chairperson of the meeting rules on whether or not the proposed amendment is out of order, the proceedings on the substantive resolution shall not be invalidated by any error in such ruling.

27.6. At any general meeting a declaration by the chairperson of the meeting that a question proposed for consideration has, on a show of hands, been carried, or carried unanimously, or by a particular majority, or lost, and an entry to that effect in a book containing the minutes of the proceedings of the Company shall, subject to these Bye-laws, be conclusive evidence of that fact.

2.1. Demand Registration.

(a) Subject to the terms and conditions of this Section 2.1, at any time after the date that is one hundred eighty (180) days following the completion of the IPO, if the Company receives a written request from any Holder that the Company file a Registration Statement covering a number of Registrable Securities that would result in gross proceeds that would, based on an anticipated aggregate offering price, net of any underwriting discounts and selling commissions exceeding, in the event of a "block trade," $50,000,000, or in the event of a public offering other than a "block trade," $75,000,000, then the Company shall, in each case, within five (5) business days of the receipt of such request, give written notice of such request to all Holders and use reasonable best efforts to file, as soon as practicable but in any event within ninety (90) days (or, in the case of a Shelf Registration, thirty (30) days or such shorter period as is reasonably required to effect an underwritten offering, including a "block trade") of the receipt of such request, a Registration Statement covering the registration under the Securities Act of all Registrable Securities that the Holders request to be registered. Any Registration Statement filed by the Company pursuant to this Section 2.1(a) shall be a "shelf" registration statement that permits sales on a continuous or delayed basis pursuant to Rule 415 under the Securities Act on Form S-3 or Form F-3 (a "Shelf Registration") if the Company is then eligible to effect a Shelf Registration. If permitted under the Securities Act, such Shelf Registration will be one that is automatically effective upon filing.

(b) Within ten (10) days (or such shorter period as is reasonably required to effect an underwritten offering, including a "block trade") after the date the Company receives a request pursuant to Section 2.1(a), the Company shall give notice thereof to all Holders other than the Initiating Holders, and the Company shall include in such registration all Registrable Securities requested to be included in such registration by any such other Holders, as specified by notice given by each such Holder to the Company within ten (10) days (or such shorter period as is reasonably required to effect an underwritten offering, including a "block trade") of the date the Company's notice is given, and in each case, subject to the limitations of Sections 2.1(c). If the Initiating Holders intend to distribute the Registrable Securities covered by their request by means of an underwritten offering, they shall so advise the Company as a part of their request made pursuant to this Section 2.1, and the Company shall include such information in the written notice referred to in the first sentence of this Section 2.1(b). In such event, the right of any Holder to include its Registrable Securities in such registration shall be conditioned upon such Holder's participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwritten offering (unless otherwise agreed by the Initiating Holders) to the extent provided herein. The Company and all Holders proposing to distribute their Registrable Securities through such underwritten offering shall enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such underwriting by the Holders of a majority of the Registrable Securities held by all Initiating Holders (which underwriter or underwriters shall be reasonably acceptable to the Company).

(c) Notwithstanding any other provision of this Section 2.1, if the lead managing underwriter advises the Company that marketing factors require a limitation of the number of securities to be offered in the applicable underwritten offering (including Registrable Securities), then the Company shall so advise all Holders of Registrable Securities that would otherwise be offered in such underwritten offering, and the number of Registrable Securities that may be included in such underwritten offering shall be allocated to the Holders of such Registrable Securities on a *pro rata* basis based on the number of Registrable Securities held by all such Holders (including the Initiating Holders).

(d) Notwithstanding any other provision of this Section 2.1, the Company shall not be required to effect a registration pursuant to this Section 2.1:

(i) if the Company has effected a registration pursuant to this Section 2.1 within the preceding ninety (90) days;

(ii) if the Company has effected three (3) registrations pursuant to this Section 2.1 within the preceding three hundred sixty-five (365) days; provided that no registration initiated by Viking Capital shall count towards the three (3) registrations permitted pursuant to this Section 2.1; or

(iii) during the period starting with the date that is fifteen (15) days prior to the Company's good faith estimate of the date of filing of, and ending on the date ninety (90) days following the effective date of, a Registration Statement; provided that the Company uses reasonable best efforts to cause such Registration Statement to become effective.

(e) Notwithstanding the other provisions of Section 2, if the Company shall furnish to the Holders otherwise participating in any registration written notice stating that, in the good faith determination of the Board after consultation with outside counsel, that (i) the filing, initial effectiveness or continued use of a Registration Statement would be Seriously Detrimental to the Company and its shareholders and it is therefore essential to delay the filing or initial effectiveness of, or suspend the use of, such Registration Statement or (ii) the filing or initial effectiveness of a Registration Statement, or the continued use of any Registration Statement, at any time would require the inclusion in such Registration Statement of financial statements that are unavailable to the Company for reasons beyond the Company's control, the Company shall, upon promptly delivering such notice to the Holders otherwise participating in such registration, have the right to delay the filing or initial effectiveness of, or suspend the use of, such Registration Statement. In no event shall the Company be permitted to (A) delay the filing or initial effectiveness of, or suspend the use of, a Registration Statement pursuant to this Section 2.1(e) for a period in excess of ninety (90) days, or (B) exercise its rights under this Section 2.1(e) more than once in any twelve (12) month period. In the event the Company exercises its rights under this Section 2.1(e), each Holder shall not effect any sale of Registrable Securities and shall halt any use, publication, dissemination or distribution of any prospectus or Registration Statement covering the Registrable Securities. Upon receipt of such notice, each Holder shall (except as required by applicable law) keep the fact of any such notice, and any information relating to such notice, strictly confidential. If so directed by the Company, each Holder will deliver to the Company (at the reasonable expense of the Company) all copies then in such Holder's possession of the prospectus covering the Registrable Securities at the time of receipt of such notice. The Holders may recommence effecting sales of the Registrable Securities pursuant to the applicable Registration Statement following further notice to such effect from the Company, which notice shall be given by the Company to the Holders in the manner described above promptly (and no later than forty-eight (48) hours) following the conclusion of the event giving rise to delay or suspension and its effect.

(f) Holders may elect to withdraw from any offering pursuant to this Section 2.1 by giving written notice to the Company and any underwriter or underwriters of their request to withdraw prior to the effectiveness of the Registration Statement filed pursuant to this Section 2.1. Subject to compliance with the other provisions of this Agreement, the Company (whether on its own determination or as the result of a withdrawal by the Initiating Holders) may withdraw a Registration Statement filed pursuant to this Section 2.1 at any time prior to the effectiveness of the Registration Statement.

2.2. Piggyback Registrations.

(a) If, at any time after the Effective Date, the Company proposes to file a Registration Statement, the Company shall (i) promptly give each Holder written notice of such registration (but in no event less than fifteen (15) business days prior to the anticipated filing date), which notice shall describe the amount and type of securities to be included in such offering, the intended method of distribution, and the name of the proposed underwriter or underwriters, if any, of the offering, (ii) offer to the Holders in such notice the opportunity to register the sale of such number of Registrable Securities as such holders may request in writing within ten (10) business days following receipt of such notice and (iii) subject to the terms and conditions of this Section 2.2, include within such Registration Statement all of the Registrable Securities that each Holder has requested to be registered. If a Holder determines not to include all of its Registrable Securities in any Registration Statement filed by the Company pursuant to this Section 2.2, such Holder shall continue to have the right to include any Registrable Securities in any subsequent Registration Statement as may be filed by the Company, all upon the terms and conditions herein.

(b) If the Registration Statement for which the Company gives notice under this Section 2.2 is for an underwritten offering, the right of any such Holder to include Registrable Securities in a registration pursuant to this Section 2.2 shall be conditioned upon such Holder's participation in such underwritten offering and the inclusion of such Holder's Registrable Securities in such underwritten offering to the extent provided herein. All Holders proposing to distribute their Registrable Securities through such underwritten offering shall enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such underwriting by the Company (which underwriter or underwriters shall be reasonably acceptable to the Holders). Notwithstanding any other provision of this Agreement, if the underwriter determines in good faith that marketing factors require a limitation of the number of securities to be offered in such underwritten offering, the number of securities that may be included in the underwritten offering shall be allocated, (i) first, to the Company, and (ii) second, to the Holders on a *pro rata* basis based on the total number of Registrable Securities held by the Holders.

(c) Any Holder may elect to withdraw its request for inclusion of Registrable Securities in any registration pursuant to this Section 2.2 by giving written notice to the Company of such request to withdraw prior to the effectiveness of the Registration Statement. The Company may withdraw (or postpone the filing of) a Registration Statement at any time prior to the effectiveness of the Registration Statement.

2.3. Expenses of Registration.

(a) Except as specifically provided herein, all Registration Expenses incurred in connection with any registration pursuant to Section 2.1 or Section 2.2 shall be borne by the Company, including all Registration Expenses incurred in connection with the Company withdrawing or postponing the filing of a Registration Statement. The Company shall not, however, be required to pay for expenses of any registration proceeding begun pursuant to Section 2.1, the request of which has been subsequently withdrawn by the Initiating Holders, unless (i) the withdrawal is based upon material adverse information concerning the Company of which the Initiating Holders were not aware at the time of such request or (ii) the Holders of a majority of Registrable Securities agree to deem such registration to have been effected as of the date of such withdrawal for purposes of determining whether the Company shall be obligated pursuant to Section 2.1(d)(i) to undertake any subsequent registration within ninety (90) days thereafter, in which event such right shall be forfeited by all Holders. If the Holders are required to pay the Registration Expenses, such expenses shall be borne by the holders of securities (including Registrable Securities) requesting such registration in proportion to the number of securities for which registration was requested. If the Company is required to pay the Registration Expenses of a withdrawn offering pursuant to clause (i) above, then such registration shall not be deemed to have been effected for purposes of determining whether the Company shall be obligated pursuant to Section 2.1(d)(i) to undertake any subsequent registration within ninety (90) days thereafter.

(b) All Selling Expenses incurred in connection with any registration hereunder shall be borne by the holders of the securities so registered *pro rata* on the basis of the number of shares so registered, provided that disbursements of counsel for a holder of securities incurred in connection with any registration hereunder that are not reimbursed as Registration Expenses shall be borne by such holder.

2.4. Obligations of the Company. Whenever required to effect the registration of any Registrable Securities, the Company shall:

(a) Prepare and file with the SEC a Registration Statement with respect to such Registrable Securities, use reasonable best efforts to cause such Registration Statement to become effective and, upon the request of the holders of a majority of the Registrable Securities registered thereunder, use reasonable best efforts to keep such Registration Statement effective for a period of up to one hundred twenty (120) days or, if shorter, until the distribution contemplated in the Registration Statement has been completed; provided, however, that such period shall be extended by the number of days during the period (i) the Company suspends the use of such a Registration Statement pursuant to Section 2.1(e), (ii) the Company is required to prepare a prospectus supplement or amendment pursuant to Section 2.4(f) and (iii) in the case of any Shelf Registration, as is necessary to keep the Registration Statement effective until all such Registrable Securities are sold; provided that Rule 415, or any successor rule under the Securities Act, permits an offering on a continuous or delayed basis, and provided further that applicable rules under the Securities Act governing the obligation to file a post-effective amendment permit, in lieu of filing a post-effective amendment which (A) includes any prospectus required by Section 10(a)(3) of the Securities Act or (B) reflects facts or events representing a material or fundamental change in the information set forth in the Registration Statement, the incorporation by reference of information required to be included in (A) and (B) above to be contained in periodic reports filed pursuant to Section 13 or 15(d) of the Exchange Act in the Registration Statement. If immediately prior to the third (3rd) anniversary of the initial effective date of any Shelf Registration Statement filed pursuant to Section 2.1(a), any of the Registrable Securities under such Shelf Registration Statement remain unsold, the Company will, prior to such third (3rd) anniversary, file a new Shelf Registration Statement relating to such unsold Registrable Securities and will use reasonable best efforts to cause such Registration Statement to be declared effective as promptly as practicable and in any event within sixty (60) days (or ten (10) days if the Registration Statement is automatically effective) after such third anniversary, and will take all other action necessary or appropriate to permit the public offering and sale of the remaining Registrable Securities to continue as contemplated in the expired Shelf Registration Statement;

(b) Prepare and file with the SEC such amendments, supplements and free writing prospectuses to such Registration Statement and the prospectus used in connection with such Registration Statement as may be necessary to comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such Registration Statement, including, without limitation, the filing of a prospectus supplement pursuant to Rule 424(b)(7) under the Securities Act with respect to an effective Shelf Registration Statement;

(c) Furnish to the holders of Registrable Securities covered by such Registration Statement such numbers of copies of a prospectus, including a preliminary prospectus and any "issuer free writing prospectus" (as defined in Rule 433 under the Securities Act), in conformity with the requirements of the Securities Act, and such other documents as the holders of a majority of the Registrable Securities registered thereunder may reasonably request in order to facilitate the disposition of Registrable Securities owned by them;

(d) Use reasonable best efforts to register and qualify the securities covered by such Registration Statement under such other securities or blue sky laws of such jurisdictions as shall be reasonably requested by the holders of a majority of the Registrable Securities registered thereunder; provided that in no event shall the Company be required to (A) qualify to do business as a foreign corporation in any jurisdiction where it would not, but for the requirements of this subparagraph (d), be required to be so qualified, (B) execute or file any general consent to service of process under the laws of any jurisdiction, (C) take any action that would subject it to service of process in suits other than those arising out of the offer and sale of the securities covered by a Registration Statement, or (D) subject itself to taxation in any jurisdiction where it would not otherwise be obligated to do so, but for this subparagraph (d);

(e) In the event of any underwritten public offering, (i) obtain for delivery to the Company and the underwriter or underwriters a comfort letter from the Company's independent certified public accountants or independent auditors (and, if necessary, any other independent certified public accountants or independent auditors of any subsidiary of the Company or any business acquired by the Company for which financial statements and financial data are, or are required to be, included in the Registration Statement) in customary form and covering such matters of the type customarily covered by comfort letters as the underwriter or underwriters reasonably request, dated the date of execution of the underwriting agreement and brought down to the closing under the underwriting agreement, (ii) cause the senior executive officers of the Company to participate in the customary "road show" presentations that may be reasonably requested by the underwriter or underwriters in any such offering and otherwise to facilitate, cooperate with, and participate in each proposed offering contemplated herein and customary selling efforts related thereto and (iii) enter into and perform its other obligations under an underwriting agreement, in usual and customary form, with the underwriter or underwriters of such offering and, taking into account the advice of the underwriters, consummate the initial public offering as soon as practicable following effectiveness of the Registration Statement;

(f) Notify each holder of Registrable Securities covered by such Registration Statement at any time when a prospectus relating thereto is required to be delivered under the Securities Act of the happening of any event as a result of which the prospectus included in such Registration Statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the

statements therein not misleading in the light of the circumstances then existing, and, at the request of any such holder, promptly prepare and furnish to such holder a reasonable number of copies of a supplement or amendment of such prospectus as may be necessary so that, as thereafter delivered to the purchasers of such securities, such prospectus shall not include an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances under which they were made;

(g) Use reasonable best efforts to cause all such Registrable Securities registered hereunder to be listed on a globally recognized securities exchange or on the securities exchange on which the Registrable Securities are then listed;

(h) Provide a transfer agent and registrar for all Registrable Securities registered pursuant hereto and a CUSIP number for all such Registrable Securities, in each case not later than the effective date of such registration; and

(i) Use reasonable best efforts to execute and deliver all instruments and documents and take such other actions and obtain such certificates and opinions as a Holder of the Registrable Securities being sold reasonably requests in order to effect an underwritten public offering of such Registrable Securities and in such connection, (i) make such representations and warranties to the underwriters with respect to the business of the Company and its Subsidiaries, and the Registration Statement and documents, if any, incorporated by reference therein, in each case, in form, substance and scope as are customarily made by issuers to underwriters in underwritten offerings, and, if true, confirm the same if and when requested, and (ii) use reasonable best efforts to furnish to the underwriters of such Registrable Securities opinions and negative assurance letters of counsel to the Company and updates thereof (which counsel and opinions (in form, scope and substance) will be reasonably satisfactory to the managing underwriters), covering the matters customarily covered in opinions requested in underwritten offerings and such other matters as may be reasonably requested by any such underwriters.

2.5. Delay of Registration; Furnishing Information.

(a) No Holder shall have any right to obtain or seek an injunction restraining or otherwise delaying any such registration as the result of any controversy that might arise with respect to the interpretation or implementation of this Section 2.

(b) It shall be a condition precedent to the obligations of the Company to take any action pursuant to Section 2.1 or Section 2.2 that the selling Holders shall furnish to the Company such information regarding themselves, the Registrable Securities held by them and the intended method of disposition of such securities as shall be reasonably required to effect the registration of their Registrable Securities.

(c) The Company shall have no obligation with respect to any registration requested pursuant to Section 2.1 if, due to the operation of Section 2.1(c), the anticipated aggregate offering price of the Registrable Securities to be included in the registration does not equal or exceed the anticipated aggregate offering price required to originally trigger the Company's obligation to initiate such registration as specified in Section 2.1.

2.6. Indemnification. In the event any Registrable Securities are included in a Registration Statement under Section 2.1 or Section 2.2:

(a) To the extent permitted by law, the Company will indemnify and hold harmless each Holder, the partners, officers and directors of each Holder, each person, if any, who controls such Holder within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act against any losses, claims, damages, or liabilities (joint or several) to which they may become subject under the Securities Act or the Exchange Act or other federal or state securities law or any rule or regulation promulgated under the Securities Act, insofar as such losses, claims, damages, or liabilities (or actions in respect thereof) arise out of or are based upon a Violation (as defined below) by the Company; and the Company will pay to each such Holder, partner, officer, director, or controlling person any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability, or action; provided, however, that the indemnity agreement contained in this Section 2.6(a) shall not apply to amounts paid in settlement of any such loss, claim, damage, liability, or action if such settlement is effected without the consent of the Company, nor shall the Company be liable in any such case for any such loss, claim, damage, liability, or action to the extent that it arises out of or is based upon a Violation which occurs in reliance upon and in conformity with written information furnished expressly for use in connection with such registration by, and relating to, any such Holder, partner, officer, director, or controlling person of such Holder.

(b) For purposes of this Section 2.6, a "Violation" shall mean any of the following statements, omissions or violations: (i) any untrue statement or alleged untrue statement of a material fact contained in such Registration Statement, including any preliminary prospectus or final prospectus

contained therein or any amendments or supplements thereto, or any "issuer free writing prospectus" as such term is defined under Rule 433 under the Securities Act or any other document incident to such Registration prepared by or on behalf of the Company or used by the Company; (ii) the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading; or (iii) any violation or alleged violation by the Company of the Securities Act, the Exchange Act or other federal or state securities laws or any rule or regulation promulgated under the Securities Act, the Exchange Act or any state securities law in connection with such Registration.

(c) To the extent permitted by law, each selling Holder, severally and not jointly, will indemnify and hold harmless the Company, each of its directors, each of its officers who has signed the Registration Statement, each person, if any, who controls the Company within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, against any losses, claims, damages, or liabilities (joint or several) to which any of the foregoing persons may become subject, under the Securities Act, the Exchange Act or other federal or state securities law or any rule or regulation promulgated under the Securities Act or the Exchange Act insofar as such losses, claims, damages, or liabilities (or actions in respect thereto) arise out of or are based upon any Violation made by such Holder, in each case to the extent (and only to the extent) that such Violation occurs in reliance upon and in conformity with written information furnished by such Holder, relating to such Holder, expressly for use in connection with such Registration; and each such Holder will pay any legal or other expenses reasonably incurred by any person intended to be indemnified pursuant to this Section 2.6(c), in connection with investigating or defending any such loss, claim, damage, liability, or action; provided, however, that the indemnity agreement contained in this Section 2.6(c) shall not apply to amounts paid in settlement of any such loss, claim, damage, liability or action if such settlement is effected without the consent of the applicable Holders and in no event shall any indemnity under this Section 2.6(c) exceed the gross proceeds (net of any underwriting discounts and commissions but before deducting other expenses payable by such Holder) from the offering received by such Holder.

(d) Promptly after receipt by an indemnified party under this Section 2.6 of notice of the commencement of any action (including any governmental action), such indemnified party will, if a claim in respect thereof is to be made against any indemnifying party under this Section 2.6, deliver to the indemnifying party a written notice of the commencement thereof and the indemnifying party shall have the right to participate in and, to the extent the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume the defense thereof with counsel

mutually satisfactory to the parties; provided, however, that an indemnified party (together with all other indemnified parties which may be represented without conflict by one counsel) shall have the right to retain one separate counsel, with the reasonable fees and expenses to be paid by the indemnifying party, if representation of such indemnified party by the counsel retained by the indemnifying party would be inappropriate due to actual or potential differing interests between such indemnified party and any other party represented by such counsel in such proceeding. The failure to deliver written notice to the indemnifying party within a reasonable time of the commencement of any such action, if prejudicial to its ability to defend such action, shall relieve such indemnifying party of any liability to the indemnified party under this Section 2.6, but the omission to so deliver written notice to the indemnifying party will not relieve it of any liability that it may have to any indemnified party otherwise than under this Section 2.6.

(e) If the indemnification provided for in this Section 2.6 is held by a court of competent jurisdiction to be unavailable to an indemnified party with respect to any loss, liability, claim, damage, or expense referred to therein, then the indemnifying party, in lieu of indemnifying such indemnified party hereunder, shall, to the extent permitted by applicable law, contribute to the amount paid or payable by such indemnified party as a result of such loss, liability, claim, damage, or expense in such proportion as is appropriate to reflect the relative fault of the indemnifying party on the one hand and of the indemnified party on the other in connection with the Violation or Violations that resulted in such loss, liability, claim, damage, or expense as well as any other relevant equitable considerations. The relative fault of the indemnifying party and of the indemnified party shall be determined by reference to, among other things, whether the Violation relates to information supplied by the indemnifying party or by the indemnified party and the parties' relative intent, knowledge, access to information, and opportunity to correct or prevent such Violation; provided that in no event shall any contribution by a Holder hereunder (together with any liability pursuant to Section 2.6(c)) exceed the net proceeds from the offering received by such Holder. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

(f) Notwithstanding the foregoing, to the extent that the provisions on indemnification and contribution contained in an underwriting agreement entered into in connection with the underwritten public offering are in conflict with the foregoing provisions, the provisions in the underwriting agreement shall control.

(g) The obligations of the Company and the Holders under this Section 2.6 shall survive the completion of any offering of Registrable Securities in a Registration Statement under this Section 2, and otherwise. No indemnifying party, in the defense of any such claim or litigation, shall, except with the consent of each indemnified party, consent to entry of any judgment or enter into any settlement which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect of such claim or litigation.

2.7. **Rule 144**. With a view to making available to the Holders the benefits of certain rules and regulations of the SEC which may permit the sale of the Registrable Securities to the public without registration, the Company agrees to use its reasonable best efforts to, at all times after the Company (i) registers a class of securities under Section 12 of the Exchange Act, or (ii) shall commence to file reports under Section 13 or 15(d) of the Exchange Act:

(a) Make and keep public information available, as those terms are understood and defined under Rule 144 or any similar or analogous rule promulgated under the Securities Act;

(b) File with the SEC, in a timely manner, all reports and other documents required of the Company under the Exchange Act; and

(c) So long as a Holder owns any Registrable Securities, furnish to such Holder forthwith upon request: (i) a written statement by the Company as to its compliance with the reporting requirements under Rule 144 and the Exchange Act (at any time after it has become subject to such reporting requirements); (ii) a copy of the most recent annual or quarterly report of the Company; and (iii) such other reports and documents as a Holder may reasonably request in availing itself of any rule or regulation of the SEC allowing it to sell any such securities without registration.

2.8. **Assignment of Registration Rights**. Any Holder may assign any or all of its rights to cause the Company to register Registrable Securities pursuant to this Section 2 to any transferee or assignee of such Registrable Securities, which transfer or assignment was not in violation of the Bye-Laws or this Agreement. In the event that any of the Holders transfers or assigns all or any of the rights of the Holders to cause the Company to register Registrable Securities, or to participate in a registration pursuant to this Section 2, such transferee or assignee shall execute and deliver to the Company a joinder agreement to this Agreement in customary form to cause such transferee to be bound by the terms of this Agreement.

2.9. **"Market Stand-Off" Agreement**. In connection with an underwritten offering pursuant to this Agreement, each Holder of Registrable Securities hereby agrees to enter into and deliver at the time requested by the lead managing underwriter or underwriters, a lock-up agreement on customary terms as agreed with the lead managing underwriter or underwriters, pursuant to which such Holder shall agree,

during the period of duration specified (not to extend beyond ninety (90) days following the effective date of the applicable Registration Statement or the date of the applicable prospectus, as applicable) by the Company and the lead managing underwriter or underwriters, not to, directly or indirectly, sell, offer to sell, contract to sell (including, without limitation, any short sale), grant any option to purchase or otherwise transfer or dispose of any securities of the Company held by it at any time during such period except securities included in such offering; provided, however, that all executive officers and directors of the Company enter into similar agreements; provided, further, however, that no Holder shall be subject to a restricted period longer than that applicable to the Company's executive officers, directors and significant securityholders. In furtherance of and without limiting the foregoing, each Holder agrees and acknowledges that the Company and the Company's transfer agent or registrar may impose stop-transfer instructions with respect to the Registrable Securities of such Holder (and the shares or securities of every other person subject to the foregoing restriction) until the end of such period.

2.10. **Termination of Registration Rights**. The right of any Holder to request registration or inclusion of Registrable Securities in any registration pursuant to Section 2.1 or Section 2.3 shall terminate at such time as such Holder no longer holds any Registrable Securities. Upon such termination, such shares shall cease to be Registrable Securities hereunder for all purposes.

2.11. **Non-U.S. Listing**. Notwithstanding anything to the contrary contained herein, any and all references in this Agreement to the Commission or the SEC, registration of securities, effectiveness of a Registration Statement, a Registration Statement, a Commission form, the Exchange Act, the Securities Act or independent public accountants, shall be construed to include, *mutatis mutandis,* as applicable, any applicable Non-U.S. Regulatory Agency or applicable Non-U.S. Securities Laws, as the context may require. Notwithstanding anything in this Agreement to the contrary, if the Company has completed an initial public offering of Ordinary Shares in one or more countries or otherwise become a reporting issuer in one or more other countries, a registration, listing or secondary offering pursuant to this Section 2 may only be made in such countries in which the Company has completed an initial public offering of Ordinary Shares, or otherwise become a reporting issuer.

2.12. **Limitations on Subsequent Registration Rights**. From and after the date of this Agreement, the Company shall not, without the prior written consent of the Holders of a majority of the Registrable Securities, enter into any agreement with any holder or prospective holder of any Equity Securities of the Company (other than Viking Capital) that would allow such holder or prospective holder (a) to include any of such Equity Securities in any Registration filed pursuant to Sections 2.1 or 2.2, unless under the terms of such agreement, such holder or prospective holder may include such Equity Securities in any such registration only to the extent that the inclusion of such Equity Securities will not reduce the amount of the Registrable Securities of the Holders that are included or (b) to demand registration of their Equity Securities; provided that the Company shall not enter into any agreement with Viking Capital that would grant Viking Capital any rights that are senior to those granted to the other Holders under this Agreement.

SECTION 3. GOVERNANCE.

3.1. Board and Board Representatives.

(a) The Board shall consist of eight (8) directors, which shall include, subject to Section 3.1(c), four (4) Board Representatives nominated by Viking Capital and, subject to Section 3.1(b), two (2) Board Representatives nominated by each Investor. The number of directors on the Board may be increased or decreased only with the written consent of, for as long as Viking Capital owns at least twenty percent (20%) of the Viking Capital Pre-IPO Ownership, Viking Capital and, for as long as an Investor owns at least twenty percent (20%) of such Investor's Investor Pre-IPO Ownership, of such Investor.

(b) For as long as an Investor owns at least fifty percent (50%) of such Investor's Investor Pre-IPO Ownership, each such Investor shall have the right to nominate two (2) Board Representatives. For as long as an Investor owns less than fifty percent (50%) of such Investor's Investor Pre-IPO Ownership, but at least twenty percent (20%) of such Investor's Investor Pre-IPO Ownership, each such Investor shall have the right to nominate one (1) Board Representative. The Company shall take all action necessary to cause such Investor's Board Representatives to be elected or appointed, subject to satisfaction of all legal requirements regarding service as a director of the Company, to the Board, including nominating such Board Representatives to be elected as a director, recommending such Board Representatives' election and soliciting proxies or consents in favor thereof. If any Investor no longer owns at least fifty percent (50%) of such Investor's Investor Pre-IPO Ownership, such Investor, at the written request of the Board, shall use reasonable best efforts to cause one of its Board Representatives to resign from the Board at the end of such Board Representative's term unless earlier resignation is requested by the Board. If any Investor no longer owns at least twenty percent (20%) of such Investor's Investor Pre-IPO Ownership, such Investor, at the written request of the Board, shall use reasonable best efforts to cause its remaining Board Representative to resign from the Board at the end of such Board Representative's term unless earlier resignation is requested by the Board. If any Investor no longer owns at least twenty percent (20%) of such Investor's Investor Pre-IPO Ownership, such Investor shall have no further rights under this Section 3.1. For purposes of this Section 3.1, "Board Representative" means (i) with respect to PMI-3, Pat Naccarato and Kathy Mayor or such replacements as PMI-3 may designate in accordance with this Section 3.1 and (ii) with

respect to TPG, Paul Hackwell and Jack Weingart or such replacements as TPG may designate in accordance with this Section 3.1. Subject to Section 3.1(a) and this Section 3.1(b), upon the death, resignation, retirement, disqualification or removal from office of an Investor's Board Representative, such Investor has the right to designate the replacement for such Board Representative, which replacement shall satisfy all legal requirements regarding service as a director of the Company. No party hereto will vote in favor of the removal of a Board Representative unless the Investor that previously nominated such person to the Board votes in favor of such removal.

(c) For as long as Viking Capital owns at least fifty percent (50%) of the Viking Capital Pre-IPO Ownership, Viking Capital shall have the right to nominate four (4) Board Representatives. For as long as Viking Capital owns less than fifty percent (50%) of the Viking Capital Pre-IPO Ownership, but at least twenty percent (20%) of the Viking Capital Pre-IPO Ownership, Viking Capital shall have the right to nominate two (2) Board Representatives. The Company shall take all action necessary to cause Viking Capital's Board Representatives to be elected or appointed, subject to satisfaction of all legal requirements regarding service as a director of the Company, to the Board, including nominating such Board Representatives to be elected as a director, recommending such Board Representatives' election and soliciting proxies or consents in favor thereof. If Viking Capital no longer owns at least fifty percent (50%) of the Viking Capital Pre-IPO Ownership, Viking Capital, at the written request of the Board, shall use reasonable best efforts to cause two (2) of its Board Representatives to resign from the Board at the end of such Board Representative's term unless earlier resignation is requested by the Board. If Viking Capital no longer owns at least twenty percent (20%) of the Viking Capital Pre-IPO Ownership, Viking Capital, at the written request of the Board, shall use reasonable best efforts to cause its remaining two (2) Board Representatives to resign from the Board at the end of such Board Representative's term unless earlier resignation is requested by the Board. If Viking Capital no longer owns at least twenty percent (20%) of the Viking Capital Pre-IPO Ownership, Viking Capital shall have no further rights under this Section 3.1. For purposes of this Section 3.1, "Board Representative" means, with respect to Viking Capital, Torstein Hagen, Richard Fear, Tore Myrholt and Morten Garman or such replacements as Viking Capital may designate in accordance with this Section 3.1. Subject to Section 3.1(a) and this Section 3.1(c), upon the death, resignation, retirement, disqualification or removal from office of a Viking Capital Board Representative, Viking Capital has the right to designate the replacement for such Board Representative, which replacement shall satisfy all legal requirements regarding service as a director of the Company. No party hereto will vote in favor of the removal of a Viking Capital Board Representative unless Viking Capital votes in favor of such removal.

(d) Notwithstanding Bye-Law 38.4, each Alternate Director appointed by a Board Representative as an alternative for himself shall be entitled to receive Notice (as defined in the Bye-Laws) of all meetings of the Board and shall be entitled to attend any such meeting, irrespective of whether the Board Representative has received Notice of and/or is in attendance at any such meeting; provided that such Alternate Director appointed by a Board Representative shall not be counted in determining whether or not a quorum is present or entitled to vote at any such meeting unless the Board Representative is not personally present at such meeting and able to perform his functions as a director of the Company.

(e) Each Board Representative shall be offered the same compensation and same indemnification in connection with his or her role as a director as the other members of the Board, and each Board Representative shall be entitled to reimbursement for documented, reasonable out-of-pocket expenses incurred in attending meetings of the Board or any committee thereof, to the same extent as the other members of the Board. Each Board Representative shall be provided with copies of all notices, minutes, consents and other materials that are provided to all other members of the Board concurrently as such materials are provided to the other members.

3.2. **Committees**. In the event that the Board establishes any committee of the Board (subject to applicable legal requirements), the Company shall take all action necessary to cause (a) for so long as the Investors, collectively, own at least twenty percent (20%) of the Investors' Investor Pre-IPO Ownership, one (1) Board Representative jointly selected by the Investors to be appointed to such committee, (b) for so long as Viking Capital owns at least twenty percent (20%) of the Viking Capital Pre-IPO Ownership, one (1) Board Representative selected by Viking Capital to be appointed to such committee and (c) one (1) independent director selected by the Board to be appointed to such committee. Each such Board Representative will serve at the pleasure of the Investors or Viking Capital, as applicable, until his or her earlier resignation or removal.

3.3. **Cooperation**. The Company agrees to include in the slate of nominees recommended by the Board the persons nominated by each Investor and Viking Capital pursuant to this Section 3 and to use its reasonable best efforts to cause the election of each such nominee to the Board, including nominating, recommending election and electing such individuals as directors as provided herein. Each of the Investors, the Company and Viking Capital agrees to take such action, or refrain from taking such action, as is necessary to effect the provisions of this Section 3 and to ensure that the Bye-Laws do not, from time to time or at any time, conflict with the provisions of this Section 3, including causing any director nominated hereby to take or refrain from taking action for the foregoing purpose. Each Investor and Viking Capital hereby agrees to take all actions necessary to call, or cause the Company or its officers or directors to call, a special or annual meeting of the shareholders of the Company in accordance with the Bye-Laws and to vote all Shares owned or held of record by such party at

any such regular or special meeting in favor of, or take all actions by written consent in lieu of any such meeting necessary to cause, the election as directors of the Board of those individuals so designated in accordance with, and otherwise to effect the intent of this Section 3. In furtherance of and without limitation of the foregoing, each Investor and Viking Capital hereby agrees not to vote their respective Shares, or take action by written resolutions in lieu of a meeting of shareholders, in a manner that directly or indirectly adversely affects the rights of the Investors or Viking Capital, as applicable, set forth in the Bye-Laws or this Agreement.

3.4. **Approval Rights**. The Company shall not, and shall not permit any of its Subsidiaries to, take any of the following actions without first obtaining the approval of (a) for as long as Viking Capital holds at least one-third of the Viking Capital Pre-IPO Ownership, the consent of Viking Capital, and (b) for as long as an Investor owns at least one-third of such Investor's Investor Pre-IPO Ownership, the consent of such Investor:

(a) Issue (i) Equity Securities that are senior to the Ordinary Shares or (ii) an aggregate amount of Equity Securities, in any twelve (12) month period, that exceeds five percent (5%) of the Company's then issued and outstanding total number of Shares; provided that no approval shall be required for issuances of (A) Equity Securities pursuant to the Warrants or (B) Equity Securities to employees, officers, consultants, advisors or service providers of the Company or any of its Subsidiaries pursuant to an equity incentive plan, compensatory, bonus, benefit or similar plan that has been approved by the Board or an authorized committee thereof; or

(b) Make any acquisition or disposition of assets or securities with a value in excess of $1,000,000,000, whether structured as an asset or equity purchase, merger, amalgamation, investment, joint venture, share exchange, reorganization, recapitalization or otherwise.

SECTION 4. TRANSFERS.

4.1. **Restriction on Transfers**. Notwithstanding anything to the contrary in the Bye-Laws, other than a transfer in connection with a public offering or other transfer through a bank or broker in which the ultimate transferee is not known by the Investor to be a Competitor, no Investor shall voluntarily or involuntarily transfer, sell, gift, charge, pledge, assign or otherwise dispose of any Shares, directly or indirectly, to a Competitor (unless with the prior approval of the Board) and any purported transfer, sale, gift, charge, pledge, assignment or other disposition of Shares to a Competitor in violation of this Section 4.1 shall be deemed null and void *ab initio* and to the extent made known to the Company shall not be registered in the Register of Members of the Company.

4.2. **Transfers by Investors**. For so long as either Warrant remains outstanding, in the event of any Transfer (including to a Permitted Transferee as defined in the Bye-Laws) of Equity Securities by an Investor or one of its Affiliates (or a Transfer of 100% of the equity securities of an Investor by its Affiliates as of the Effective Date to a bona fide third party that is not an Affiliate of such Investor or an investment fund under common management with such Investor or its Affiliates (and excluding any internal Transfers as between an Investor and its Affiliates or investment funds under common management, in whatever form)), the applicable Investor or such Affiliate shall promptly, and in any event no later than ten (10) business days following such Transfer, deliver written notice of such Transfer to the Company and to Viking Capital, which notice shall indicate the transferor, the transferee, the number and class or type of Equity Securities subject to the Transfer and the consideration received therefor.

SECTION 5. TERMINATION

5.1. Termination by Consent. This Agreement may be terminated at any time by the unanimous written consent of the Holders.

5.2. Termination of a Party. A Holder shall cease to be a party hereto and this Agreement shall terminate with respect to such party, without any further action of the parties hereto, when (a) in the case of an Investor, such Investor no longer owns any of the Ordinary Shares issued upon conversion of its Series C Preference Shares and (b) in the case of Viking Capital, when Viking Capital shall cease to own any Ordinary Shares; provided, however, in the case of both clause (a) and (b), that no such termination shall relieve a Holder of any obligation or liability for damages resulting from such Holder's breach of this Agreement prior to such Holder's disposition of its Shares; provided, further, that Section 2.6, this Section 5.2 and Section 6 (other than Section 6.1) shall not terminate with respect to a party notwithstanding the party's disposition of its Shares.

5.3. Effect of Termination. In the event of the termination of this Agreement as provided in Section 5.1, this Agreement shall become void and have no further effect without any liability on the part of any party; provided, however, that no such termination shall relieve any party of any obligation or liability for damages resulting from such party's breach of this Agreement prior to its termination; provided, further, that Section 2.6, this Section 5.3 and Section 6 (other than Section 6.1) shall survive any termination of this Agreement.

SECTION 6. MISCELLANEOUS.

6.1. **Tax Considerations**. The Company shall not take any action which would cause the Company or any successor thereto to be treated as a partnership for U.S. federal income tax purposes without the prior consent of each Investor.

6.2. **Governing Law**. This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York, regardless of any laws that might otherwise govern under applicable principles of conflicts of laws thereof.

6.3. **Waiver of Jury Trial**. THE PARTIES HERETO IRREVOCABLY WAIVE ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY. EACH OF THE PARTIES HERETO CERTIFIES AND ACKNOWLEDGES THAT (I) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER, (II) EACH SUCH PARTY UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (III) EACH SUCH PARTY MAKES THIS WAIVER VOLUNTARILY, AND (IV) EACH SUCH PARTY HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

6.4. **Successors and Assigns**. Except as otherwise expressly provided herein, the provisions hereof shall inure to the benefit of, and be binding upon, the parties hereto and their respective successors, assigns, heirs, executors, and administrators and shall inure to the benefit of and be enforceable by each person who shall be a holder of Registrable Securities from time to time; provided, however, that prior to the receipt by the Company of adequate written notice of the transfer of any Registrable Securities specifying the full name and address of the transferee, the Company may deem and treat the person listed as the holder of such securities in its records as the absolute owner and holder of such securities for all purposes.

6.5. **Entire Agreement**. This Agreement and the Exhibits hereto and the other documents delivered pursuant hereto and thereto constitute the full and entire understanding and agreement between the parties with regard to the subjects hereof and no party shall be liable or bound to any other in any manner by any oral or written representations, warranties, covenants and agreements except as specifically set forth herein and therein. Each party expressly represents and warrants that it is not relying on any oral or written representations, warranties, covenants or agreements outside of this Agreement, the Bye-Laws and the Warrants.

6.6. **Conflict with Bye-Laws**. In the event of a conflict between the terms of this Agreement and the Bye-Laws, this Agreement shall prevail as between the Holders, and the Holders hereby agree to promptly take all action within their respective power to amend the Bye-Laws to the extent necessary to make the same consistent with the terms of this Agreement.

6.7. **Severability.** In the event one or more of the provisions of this Agreement should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provisions of this Agreement, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

6.9. **Further Assurances**. Each of the Holders and the Company agrees to execute, acknowledge, deliver, file and record such further certificates, amendments, instruments and documents, and to do and cause to be done all such other acts and things, as may be required by law or as may be reasonably necessary or advisable (and are within its reasonable control) to carry out the intent and purpose of this Agreement.

6.10. **Amendment and Waiver**.

(a) Except as otherwise expressly provided, this Agreement may be amended or modified, and the obligations of the Company and the rights of the parties to this Agreement may be waived, only upon the written consent of the Company and the other parties hereto.

(b) For the purposes of determining the number of Holders or Investors entitled to vote or exercise any rights hereunder, the Company shall be entitled to rely solely on the list of record holders of its securities as maintained by or on behalf of the Company.

6.11. **Interpretation**. When a reference is made in this Agreement to Sections, paragraphs, clauses or Schedules, such reference shall be to a Section, paragraph, clause or Schedule to this Agreement unless otherwise indicated. The words “include,” “includes,” and “including” when used herein shall be deemed in each case to be followed by the words “without limitation.” The headings contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement. This Agreement has been negotiated by the respective parties hereto and their attorneys and the language hereof will not be construed for or against any party to this Agreement. The words “hereof,” “herein,” “herewith,” “hereby” and “hereunder” and words of similar import shall, unless otherwise stated, be construed to refer to this Agreement as a whole and not to any particular provision of this Agreement. Any references to “$” means U.S. dollars.

6.12. **Delays or Omissions**. It is agreed that no delay or omission to exercise any right, power, or remedy accruing to any party, upon any breach, default or noncompliance by another party under this Agreement shall impair any such right, power, or remedy, nor shall it be construed to be a waiver of any such breach, default or noncompliance, or any acquiescence therein, or of any similar breach, default or noncompliance thereafter occurring. It is further agreed that any waiver, permit, consent, or approval of any kind or character on any party's part of any breach, default or noncompliance under the Agreement or any waiver on such party's part of any provisions or conditions of this Agreement must be in writing and shall be effective only to the extent specifically set forth in such writing. All remedies, either under this Agreement, by law, or otherwise afforded to any party, shall be cumulative and not alternative.

6.13. **Notices**. All notices required or permitted hereunder shall be in writing and shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by confirmed electronic mail if sent during normal business hours of the recipient; if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next day delivery, with written verification of receipt. All communications shall be sent to the party to be notified at the address as set forth on the signature pages hereof or Exhibit A hereto or at such other address or electronic mail address as such party may designate by ten (10) days advance written notice to the other parties hereto.

6.14. **Titles and Subtitles**. The titles of the sections and subsections of this Agreement are for convenience of reference only and are not to be considered in construing this Agreement.

6.15. **Counterparts**. This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

6.16. **Aggregation of Registrable Securities**. All Registrable Securities issued or issuable to entities or persons that are Affiliates of each other shall be aggregated together for the purpose of determining the availability of any rights under this Agreement.

6.17. **Pronouns**. All pronouns contained herein, and any variations thereof, shall be deemed to refer to the masculine, feminine or neutral, singular or plural, as the identity of the parties hereto may require.

6.18. **Several Liability of Investors**. Notwithstanding anything to the contrary contained in this Agreement, each representation, warranty, covenant and agreement of the Investors hereunder and in the Bye-Laws is made on a several, and not joint and several, basis. No Investor shall be liable for any other Investor's breach of this Agreement or the Bye-Laws.

6.19. **Specific Performance**. The parties agree that immediate and irreparable damage would occur for which monetary damages, even if available, would not be an adequate remedy if any of the provisions of this Agreement are not performed in accordance with their specific terms or are otherwise breached. Accordingly, the parties hereto agree that, if for any reason any party hereto shall have failed to perform their respective obligations under this Agreement or otherwise breached this Agreement, then any other party may be entitled to specific performance and the issuance of immediate injunctive and other equitable relief to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof and thereof, without the necessity of proving the inadequacy of money damages as a remedy. The parties further agree to waive any requirement for the posting of any bond in connection with the obtaining of any such injunctive or other equitable relief, this being in addition to and not in limitation of any other remedy to which they are entitled at law or in equity.

6.20. **No Recourse**. This Agreement may only be enforced against the named parties hereto. All claims or causes of action that may be based upon, arise out of or relate to this Agreement, or the negotiation, execution or performance of this Agreement may be made only against the entities that are expressly identified as parties hereto or that are subject to the terms hereof, and no past, present or future director, officer, employee, incorporator, member, manager, partner, stockholder, Affiliate, agent, attorney or representative of either of the Investors or any other party hereto (including any person negotiating or executing this Agreement on behalf of a party hereto) shall have any liability or obligation with respect to this Agreement or with respect to any claim or cause of action, whether in tort, contract or otherwise, that may arise out of or relate to this Agreement, or the negotiation, execution or performance of this Agreement and the transactions contemplated hereby.

6.21. **Relationship of Parties**. Nothing herein contained shall constitute the parties hereto members of any partnership, joint venture, association, syndicate, or other entity, or be deemed to confer on any of them any express, implied, or apparent authority to incur any obligation or liability on behalf of another party.

6.22. **Construction**. This Agreement has been negotiated by the parties and their respective counsel in good faith and will be fairly interpreted in accordance with its terms and without any strict construction in favor of or against any party.

6.23. **Effective Date**. Prior to the Effective Date, the Existing Agreement remains in full force and effect.

[SIGNATURE PAGES IMMEDIATELY FOLLOW]

Dear Sir/Madam

Re: Viking Holdings Ltd (the "Company")

We have acted as special Bermuda legal counsel to the Company in connection with a registration statement on Form F-1 filed with the U.S. Securities and Exchange Commission (the "**Commission**") on 9 September 2024 (the "**Registration Statement**", which term does not include any other document or agreement whether or not specifically referred to therein or attached as an exhibit or schedule thereto) relating to the registration, offer and sale under the U.S. Securities Act of 1933, as amended, (the "**Securities Act**") of an aggregate of 30,000,000 ordinary shares, par value US$0.01 each which are being offered by certain selling shareholders of the Company (the "**Selling Shareholders**") together with an additional 4,500,000 ordinary shares, par value US$0.01 each which may be sold pursuant to the exercise of an option granted to the underwriters by the Selling Shareholders (collectively, the "**Ordinary Shares**"), pursuant to the prospectus dated 9 September 2024 (the "**Prospectus**", which term does not include any other document or agreement whether or not specifically referred to therein or attached as an exhibit or schedule thereto) included in the Registration Statement.

1. DOCUMENTS REVIEWED

For the purposes of giving this opinion, we have examined electronic copies of the Registration Statement and the Prospectus. We have also reviewed:

1.1. copies of the memorandum of association and the bye-laws of the Company, each certified by the Secretary of the Company on 6 September 2024;

1.2. copies of written resolutions of the Company's directors dated 30 August 2024 (the "**Resolutions**") certified by the Secretary of the Company on 6 September 2024;

1.3. a copy of the branch register of the Company dated 6 September 2024, prepared by Equiniti Trust Company, LLC, the branch registrar of the Company (the "**Branch Register**"); and

1.4. such other documents and made such enquiries as to questions of law as we have deemed necessary in order to render the opinion set forth below.

2. ASSUMPTIONS

We have assumed:

2.1. the genuineness and authenticity of all signatures and the conformity to the originals of all copies (whether or not certified) examined by us and the authenticity and completeness of the originals from which such copies were taken;

2.2. that where a document has been examined by us in draft form, it will be or has been executed and/or filed in the form of that draft, and where a number of drafts of a document have been examined by us all changes thereto have been marked or otherwise drawn to our attention;

2.3. the accuracy and completeness of all factual representations made in the Registration Statement, the Prospectus and any other documents reviewed by us;

2.4. that the Resolutions were passed at one or more duly convened, constituted and quorate meetings, or by unanimous written resolutions, remain in full force and effect and have not been rescinded or amended;

2.5. that there is no provision of the law of any jurisdiction, other than Bermuda, which would have any implication in relation to the opinions expressed herein;

3. QUALIFICATIONS

3.1. We have made no investigation of and express no opinion in relation to the laws of any jurisdiction other than Bermuda.

3.2. This opinion is to be governed by and construed in accordance with the laws of Bermuda and is limited to and is given on the basis of the current law and practice in Bermuda.

3.3. This opinion is issued solely for the purposes of the filing of the Registration Statement and the offering of the Ordinary Shares and is not to be relied upon in respect of any other matter.

4. OPINION

On the basis of and subject to the foregoing, we are of the opinion that:

4.1. The Company is duly incorporated and existing under the laws of Bermuda in good standing (meaning solely that it has not failed to make any filing with any Bermuda governmental authority under the Companies Act 1981, or to pay any Bermuda government fee or tax, which would make it liable to be struck off the Register of Companies and thereby cease to exist under the laws of Bermuda).

4.2. Based solely upon a review of the Branch Register, the Ordinary Shares are validly issued, fully paid and non-assessable.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the references to our firm under the caption "Legal Matters" in the Prospectus forming a part of the Registration Statement. In giving this consent, we do not hereby admit that we are experts within the meaning of Section 11 of the Securities Act or that we are within the category of persons whose consent is required under Section 7 of the Securities Act or the Rules and Regulations of the Commission promulgated thereunder.

Yours faithfully,

/s/ Conyers Dill & Pearman Limited

Exhibit 10.1

VIKING HOLDINGS LTD
SECOND AMENDED AND RESTATED 2018 EQUITY INCENTIVE PLAN

ARTICLE 1
PURPOSE OF THE PLAN

This Plan is intended to promote the interests of the Company, by providing eligible persons employed by or serving the Company or any Parent or any Subsidiary with the opportunity to acquire a proprietary interest, or otherwise increase their proprietary interest, in the Company as an incentive for them to continue in such employ or service.

Capitalized terms herein shall have the meanings assigned to such terms in Article 12 and elsewhere herein.

ARTICLE 2
ADMINISTRATION OF THE PLAN

2.1 Plan Administrator. This Plan shall be administered by the Board unless and until the Board delegates administration of the Plan to the Committee. If a Committee is established, members of the Committee shall serve for such period of time as the Board may determine and shall be subject to removal by the Board at any time. The Board may also at any time terminate the functions of the Committee and reassume all powers and authority previously delegated to the Committee. The majority of the members of the Committee shall constitute a quorum. The acts of a majority of the members present at any meeting at which a quorum is present or acts approved by a majority of the Committee shall be deemed acts of the Committee. To the extent required to comply with the provisions of Rule 16b-3 under the Exchange Act (if the Board is not acting as the Plan Administrator under the Plan), it is intended that each member of the Committee shall, at the time such Committee member takes any action with respect to an Award under the Plan, be a non-employee director (within the meaning of Rule 16b-3 under the Exchange Act); provided, that any failure by a Committee member to qualify as such non-employee director shall not invalidate any Award granted by the Committee that is otherwise validly granted under the Plan.

2.2 Powers of Plan Administrator. The Plan Administrator shall have full power, authority and discretion (subject to the provisions of the Plan) to establish, amend and rescind such rules and procedures as it may deem appropriate for proper administration of the Plan, including rules and procedures relating to sub-plans established for the purpose of satisfying applicable foreign laws or for qualifying for favorable tax treatment under applicable foreign laws, and to make such determinations under, and issue such interpretations of, resolve ambiguities in, and supply omissions for, the Plan and any outstanding Award as it may deem necessary or advisable, and make any other determination and take any other action that the Plan Administrator deems necessary or desirable for the administration of the Plan. All determinations, interpretations and other decisions of the Plan Administrator on all matters relating to the Plan or any Award shall be final, conclusive and binding on all persons, including, without limitation, any Participant or other party who has an interest in the Plan or any Award.

The Plan Administrator may employ attorneys, consultants, accountants, appraisers, brokers, or other persons. The Plan Administrator, the Company and its Parent and Subsidiaries, and the officers and directors of the Company and its Parent and Subsidiaries shall be entitled to rely upon the advice, opinions, or valuations of any such persons.

Subject to the provisions of the Plan and Applicable Law, the Plan Administrator shall have full authority to determine the terms and conditions applicable to Awards including, without limitation: which eligible persons are to receive such Awards (but in no event shall an Option be granted to an individual if the underlying shares would not be considered "service recipient stock" with respect to such individual under Code Section 409A), the time or times when those grants are to be made, the number of Shares to be covered by each such grant, the vesting schedule (if any) applicable to the Award and, in the case of a grant of Options, the status of the Option as either an Incentive Option or a Non-Statutory Option, the time or times when the Option is to become exercisable and the maximum term for which the Option is to remain outstanding. Each Award shall be evidenced by appropriate documentation. The Plan Administrator, in its sole discretion, may include in any Award any provisions necessary for such Award to comply with or be exempt from Code Section 409A and avoid adverse tax consequences to the Participant under Code Section 409A. The Plan Administrator may impose restrictions on any Award with respect to non-competition, confidentiality and other restrictive covenants as it deems necessary or desirable in its sole discretion.

The Plan Administrator may in its sole discretion delegate to the Chief Executive Officer and to such other senior officers of the Company any of the administrative duties and authority of the Plan Administrator under the Plan, other than the authority to make grants under the Plan to themselves or to any person who may become subject to Section 16 of the Exchange Act, to the extent applicable, subject to such conditions and limitations as the Plan Administrator shall prescribe, and except for the matters covered by Section 11.4.

2.3 Plan Expenses. All expenses and liabilities incurred by the Plan Administrator in connection with the administration of the Plan shall be borne by the Company.

2.4 Limit on Administrator Liability. No member of the Plan Administrator (each such member, an "Indemnifiable Person") shall be personally liable for any action taken or omitted to be taken, determination or interpretation made in good faith with respect to the Plan or the Awards. To the extent allowable pursuant to Applicable Law, each such member shall be indemnified and held harmless by the Company against and from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by such member in connection with or resulting from any action, suit or proceeding to which such member may be a party or in which such member may be involved by reason of any action taken or omitted to be taken, determination or interpretation made in good faith with respect to the Plan or the Awards and against and from any and all amounts paid by such member in settlement thereof, or paid by such member in satisfaction of any judgment in any such action, suit or proceeding against such member; provided, that such member gives the Company an opportunity, at its own expense, to handle and defend the same before such member undertakes to handle and defend on his or her own behalf. The foregoing right of indemnification shall not be exclusive of or otherwise supersede any other rights of indemnification to which such member may be entitled under the organizational documents of the Company, as a matter of law, under an individual indemnification agreement or contract or otherwise, or any other power that the Company may have to indemnify such member or hold such member harmless.

ARTICLE 3
ELIGIBILITY

3.1 Eligibility. The persons eligible to participate in the Plan and receive grants are as follows (each, an "Eligible Person"):

(a) Employees,

(b) members of the Board and the members of the board of directors of any Subsidiary, and

(c) independent contractors who provide services to the Company (or any Parent or Subsidiary).

ARTICLE 4
SHARES SUBJECT TO THE PLAN

4.1 Available Shares. The shares issuable under the Plan shall be shares of authorized but unissued or reacquired Shares. Subject to Sections 4.2 and 4.4, the maximum aggregate number of Shares that may be issued and outstanding or subject to Awards granted under the Plan shall not exceed 54,600,000 Shares. The maximum aggregate number of Shares that may be issued pursuant to the exercise of Incentive Options is 54,600,000 Shares.

4.2 Evergreen Shares. In addition, the number of Shares available for issuance under the Plan will automatically increase on the first day of each calendar year, for a period of ten years from the date the Plan is approved by the shareholders of the Company, commencing on January 1, 2025, and ending on (and including) January 1, 2034, in an amount equal to 1.0% of the total number of the Company's ordinary shares and special shares outstanding on December 31 of the preceding year. Notwithstanding the foregoing, the Board may act prior to the first day of a given calendar year to provide that there will be no increase in the number of Shares available for issuance under the Plan for such calendar year or that the increase in the number of Shares available for issuance under the Plan for such year will be a lesser number of Shares than would otherwise occur pursuant to the preceding sentence.

4.3 Share Recycling. Shares subject to outstanding Awards shall be available for subsequent issuance under the Plan to the extent (a) the Award expires or terminates for any reason prior to exercise in full or (b) the Award is cancelled. Shares used to pay the exercise price of an Option or to satisfy the tax withholding obligations related to an Award pursuant to a net exercise or net settlement arrangement will become available for future grant or issuance under the Plan.

4.4 Adjustments Upon Changes in Capitalization, Merger, Amalgamation or Certain Other Transactions. In the event of any change to the Shares by reason of any share split, share dividend, bonus share issue, reverse share split, recapitalization, reclassification or other distribution of Shares without the receipt of consideration by the Company, merger, amalgamation, consolidation, combination of shares, exchange of shares or other change in the corporate structure of the Company affecting the outstanding Shares occurs, the Plan Administrator shall make appropriate adjustments in order to prevent the dilution or enlargement of benefits under the Plan,

as determined in the sole discretion of the Plan Administrator and without the Participant's consent, with respect to (a) the maximum number or class of such securities issuable under the Plan and (b) the number or class of securities under each outstanding Award and the exercise price per share in effect under each outstanding Option; provided, that, for the avoidance of doubt, in the case of the occurrence of any of the foregoing events that is an "equity restructuring" (within the meaning of the Financial Accounting Standards Board Accounting Standard Codification (ASC) Section 718, Compensation – Stock Compensation (FASB ASC 718) or International Financial Reporting Standards 2, Share-based Payments (IFRS 2), as applicable), the Plan Administrator shall make an equitable adjustment to outstanding Awards to reflect such event. The adjustments determined by the Plan Administrator under this Section 4.4 shall be final, binding and conclusive. Except as expressly provided herein, no issuance by the Company of shares of any class, or securities convertible into shares of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of Shares subject to an Award.

4.5 Effect of Awards. The grant of Awards or the issuance of Shares pursuant to Awards granted under the Plan shall in no way affect the right of the Company to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, amalgamate consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

ARTICLE 5
OPTION GRANT PROGRAM

5.1 Grant of Options. Subject to the terms and conditions of the Plan, the Plan Administrator, from time to time, may grant Options to eligible Participants in such amounts and on such terms and conditions as the Plan Administrator, in its sole discretion, shall determine.

5.2 Exercise Price.

(a) The Plan Administrator shall determine the exercise price per Share of the Option, which shall in no event be less than 100% of the Fair Market Value per Share on the date the Option is granted. Notwithstanding the foregoing, Options may be granted with an exercise price per Share of less than 100% of the Fair Market Value per Share on the date the Option is granted pursuant to a transaction described in, and in a manner consistent with, Code Section 424(a).

(b) Payment of the exercise price for the Shares with respect to which the Option is exercised shall become immediately due upon such exercise of the Option and shall, subject to the provisions of this Section 5.2 and the Award Agreement, be payable (x) in cash or by check made payable to the Company, (y) with the consent of the Plan Administrator or to the extent set forth in the Award Agreement, through a "net exercise method" whereby the Company withholds Shares otherwise issuable upon the exercise of the Option valued at the Fair Market Value of such Option Shares on the date of exercise, or (z) in any other form that is approved by the Plan Administrator and consistent with Applicable Law, which may include, without limitation, in the form of a promissory note pursuant to Section 11.1; provided, that if the Shares are registered under Section 12 of the Exchange Act at the time the Option is exercised, then, subject to the Award Agreement, the exercise price and any applicable withholding taxes may additionally be paid as follows:

(i) with the consent of the Plan Administrator, in Shares that have been held by the Optionee for the requisite period, if any, as may be determined by the Plan Administrator to avoid a charge to the Company's earnings for financial reporting purposes and having a Fair Market Value per Share as of the date on which the Option is exercised equal to the aggregate exercise price per Share for the Shares acquired upon exercise and the amount of any related tax withholding obligations, not to exceed the amount determined by using the applicable maximum required statutory tax withholding rates in the applicable jurisdiction, by reason of such exercise, or

(ii) if permitted by Applicable Law, through a special sale and remittance procedure pursuant to which the Optionee shall concurrently provide irrevocable instructions (A) to a Company-designated brokerage firm to effect the immediate sale of the Shares acquired upon exercise and remit to the Company, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate exercise price payable for such Shares and the amount of any related tax withholding obligations, not to exceed the amount determined by using the applicable maximum required statutory tax withholding rates in the applicable jurisdiction, by reason of such exercise and (B) to the Company to provide notification evidencing a book-entry notation with respect to such Shares acquired (or, if applicable, deliver the certificates for such Shares) to such brokerage firm in order to complete the sale.

5.3 Term of Option. No Option shall have a term in excess of ten years measured from the Option grant date.

5.4 Exercise of Options.

(a) Each Option shall vest and become exercisable, in such manner and at such time or times, during such period and for such number of Shares, as determined by the Plan Administrator and shall expire after such period, not to exceed ten years measured from the Option grant date, as may be determined by the Plan Administrator.

(b) Notwithstanding anything herein to the contrary, the Plan Administrator may, in its sole discretion, determine to provide that if on the last day of the term of an Option, the Fair Market Value of one Share exceeds the applicable exercise price per Share, then, to the extent that the Option has not theretofore been exercised, expired or otherwise terminated, the Option shall automatically be deemed exercised by the Participant on such day with payment made by withholding Shares otherwise issuable in connection with the exercise of the Option. In such event, the Company shall deliver to the Participant the number of Shares for which the Option was deemed exercised, less the number of Shares required to be withheld for the payment of the total exercise price and required withholding taxes, not to exceed the amount determined by using the applicable maximum required statutory tax withholding rates in the applicable jurisdiction, provided, that any fractional Share shall be settled in cash.

5.5 Effect of Termination of Service.

(a) Except as otherwise set forth in the Award Agreement, the following provisions shall govern the exercise of any Options granted to the Optionee that remain outstanding at the time of the Optionee's Separation from Service:

(i) Should the Optionee incur a Separation from Service for any reason other than due to death, Disability or Misconduct, then each Option shall be exercisable for the number of Shares subject to the Option that were Vested Shares at the time of Optionee's Separation from Service and shall remain exercisable until the close of business on the earlier of (A) the later of (1) the period of time specified in the Award Agreement or (2) the three month anniversary of the date of the Optionee's Separation from Service or (B) the expiration date of the Option as set forth in the Award Agreement.

(ii) Should the Optionee incur a Separation from Service by reason of death or Disability, then each Option shall be exercisable for the number of Shares subject to the Option that were Vested Shares at the time of Optionee's Separation from Service and shall remain exercisable until the close of business on the earlier of (A) the later of (1) the period of time specified in the Award Agreement or (2) the twelve month anniversary of the date of Optionee's Separation from Service or (B) the expiration date of the Option as set forth in the Award Agreement.

(iii) Should the Optionee incur a Separation from Service by reason of Misconduct or should the Optionee otherwise engage in Misconduct while in Service, then each outstanding Option granted to the Optionee shall be forfeited and immediately terminate as of the date of such Separation from Service or the date on which on such Misconduct first occurs, as applicable, with respect to all Vested Shares and Unvested Shares.

(iv) Subject to Section 5.5(b), no additional vesting will occur after the date of the Optionee's Separation from Service, and the Option shall be forfeited and immediately terminate with respect to any then-Unvested Shares. Upon the expiration of any post-service exercise period, or upon the expiration date of the Option set forth in the Award Agreement (subject to Section 5.5(b)), if earlier, the Option shall be forfeited and terminate with respect to any then-Vested Shares.

(b) Notwithstanding the possibility of any adverse tax and accounting consequences to doing so, the Plan Administrator shall have the discretion, exercisable either at the time an Option is granted or at any time while the Option remains outstanding, to:

(i) extend the period of time for which the Option is to remain exercisable following the Optionee's Separation from Service for such period of time as the Plan Administrator shall deem appropriate, but in no event beyond the expiration date of the Option, or

(ii) permit the Option to be exercised, during the applicable post-Service exercise period, not only with respect to the number of Vested Shares for which such Option is exercisable at the time of the Optionee's Separation from Service, but also with respect to one or more additional installments in which the Optionee would have vested under the Option had the Optionee otherwise continued in Service.

5.6 Shareholder Rights. No Optionee shall have any shareholder rights with respect to the Shares subject to the Option until the Optionee shall have exercised the Option, paid in full the exercise price, become the recordholder of the purchased Shares and, if applicable, satisfied any other conditions imposed by the Plan Administrator pursuant to Section 5.8.

5.7 Vesting Schedule. The Plan Administrator may impose a vesting schedule upon any Option, including the Shares subject to that Option, which vesting schedule shall be set forth in the applicable Award Agreement.

5.8 Additional Requirements. As a condition to receiving Shares acquired upon exercising an Option, the Optionee shall be required to make such representations, enter into such agreements or deliver to the Company such other documents as the Plan Administrator may deem reasonably necessary or desirable regardless of whether such representation, agreement or document delivery is required to ensure compliance with the terms of this Plan or with Applicable Law. Notwithstanding any provision in the Plan or any Award Agreement to the contrary, in no event shall a Participant be permitted to exercise an Option in a manner that the Plan Administrator determines would violate the Sarbanes-Oxley Act of 2002, as may be amended from time to time, or any other Applicable Law.

ARTICLE 6
INCENTIVE OPTIONS

The terms specified in this Article shall be applicable solely to Incentive Options. Except as modified by the provisions of this Article, all of the provisions of the Plan shall be applicable to Options that are intended to be Incentive Options. An Option shall be presumed to be a Non-Statutory Option unless expressly designated otherwise.

6.1 Eligibility for Incentive Options. Incentive Options may only be granted to Employees, and no Incentive Option shall be granted to any Eligible Person who is ineligible to receive an Incentive Option under Code Section 422.

6.2 Dollar Limitation. The aggregate U.S. Dollar value of the Fair Market Value of the Shares (determined as of the respective date or dates of grant) with respect to which one or more Incentive Options granted to any Employee under the Plan (or any other option plan of the Company or any Parent or Subsidiary) become for the first time exercisable by the Optionee during any one calendar year shall not exceed One Hundred Thousand U.S. Dollars (U.S.$100,000). To the extent that any Option exceeds this limit, it shall constitute a Non-Statutory Option.

6.3 Term of Incentive Option Granted to a 10% Shareholder. If any Employee to whom an Incentive Option is granted is, at the time of grant, a 10% Shareholder, then the term of the Incentive Option shall not exceed five years measured from the date the Option is granted.

6.4 Exercise Price of Incentive Option Granted to a 10% Shareholder. If an Incentive Option is granted to a 10% Shareholder, the exercise price per share shall not be less than 110% of the U.S. Dollar value of the Fair Market Value per Share on the date the Incentive Option is granted.

6.5 Non-Qualification of Incentive Option. If and to the extent any Option (or portion thereof) granted under the Plan intended to qualify as an Incentive Option does not qualify as an Incentive Option, such Option (or portion thereof) shall be regarded as a Non-Statutory Option granted under the Plan.

ARTICLE 7
RESTRICTED SHARES, RESTRICTED SHARE UNITS AND OTHER SHARE-BASED AWARDS

7.1 Restricted Shares.

(a) Grant of Restricted Shares. Subject to the terms and conditions of the Plan, the Plan Administrator, from time to time, may grant Restricted Shares to eligible Participants in such amounts and on such terms and conditions as the Plan Administrator, in its sole discretion, shall determine. Each Award of Restricted Shares shall be evidenced by an Award Agreement that shall specify the number of shares of Restricted Shares granted, the applicable restriction period, and such other terms and conditions as the Plan Administrator, in its sole discretion, shall determine. Unless the Plan Administrator determines otherwise, Restricted Shares shall be held by the Company as escrow agent until the restrictions on such Restricted Shares have lapsed.

(b) Issuance and Restrictions. Restricted Shares shall be subject to such restrictions on transferability and other restrictions as the Plan Administrator may impose (including, without limitation, limitations on the right to vote Restricted Shares); provided, that a Participant shall not have the right to receive dividends on Restricted Shares unless otherwise provided by the Plan Administrator in an Award Agreement (and any such dividends payable on Restricted Shares shall be held by the Company and delivered (without interest) to the Participant within 15 days following the date on which the restrictions on such Restricted Share lapse (and the right to any such accumulated dividends shall be forfeited upon the forfeiture of the Restricted Shares to which such dividends relate)). These restrictions may lapse separately or in combination at such times, pursuant to such circumstances, in such installments, or otherwise, as the Plan Administrator determines at the time of the grant of the Restricted Shares or thereafter.

(c) Forfeiture/Repurchase. Except as otherwise determined by the Plan Administrator at the time of the grant of the Restricted Shares or thereafter, upon a Participant's Separation from Service during the applicable restriction period, shares of Restricted Shares that are at that time subject to restrictions shall be forfeited or repurchased in accordance with the applicable Award Agreement.

(d) Share Certificates and Book Entry. Upon the grant of Restricted Shares, the Plan Administrator shall cause a share certificate registered in the name of the Participant to be issued or shall cause Share(s) to be registered in the name of the Participant and held in book-entry form subject to the Company's directions and, if the Plan Administrator determines that the Restricted Shares shall be held by the Company or in escrow rather than issued to the Participant pending the release of the applicable restrictions, the Plan Administrator may require the

Participant to additionally execute and deliver to the Company (i) an escrow agreement satisfactory to the Plan Administrator, if applicable; and (ii) the appropriate share power (endorsed in blank) with respect to the Restricted Shares covered by such agreement. Subject to the restrictions set forth in this Section and the applicable Award Agreement, a Participant generally shall have the rights and privileges of a shareholder as to shares of Restricted Shares, including, without limitation, the right to vote such Restricted Shares subject to any restrictions deemed appropriate by the Board; provided, that a Participant shall not have the right to receive dividends on Restricted Shares unless otherwise provided by the Plan Administrator in an Award Agreement.

(e) Removal of Restrictions. Upon the expiration of the restriction period with respect to any shares of Restricted Shares, the restrictions set forth in the applicable Award Agreement shall be of no further force or effect with respect to such shares, except as set forth in the applicable Award Agreement, and the Shares shall be freely transferable by the Participant, subject to applicable legal restrictions. If an escrow arrangement is used, upon such expiration, the Company shall issue to the Participant or the Participant's beneficiary, without charge, the share certificate (or, if applicable, a notice evidencing a book-entry notation) evidencing the shares of Restricted Shares which have not then been forfeited and with respect to which the restriction period has expired. The Plan Administrator, in its discretion, may establish procedures regarding the release of Shares from escrow and the removal of legends, as necessary or appropriate for administrative purposes.

(f) Legends on Restricted Share. Each certificate, if any, or book entry representing Restricted Shares granted pursuant to the Plan, if any, shall bear a legend or book entry notation substantially in the form of the following, in addition to any other information the Company deems appropriate, until the lapse of all restrictions with respect to such Shares:

> TRANSFER OF THIS CERTIFICATE AND THE SHARES REPRESENTED HEREBY IS RESTRICTED PURSUANT TO THE TERMS OF THE VIKING HOLDINGS LTD SECOND AMENDED AND RESTATED 2018 EQUITY INCENTIVE PLAN AND A RESTRICTED SHARE AWARD AGREEMENT, BETWEEN VIKING HOLDINGS LTD AND PARTICIPANT. A COPY OF SUCH PLAN AND AWARD AGREEMENT IS ON FILE AT THE PRINCIPAL EXECUTIVE OFFICES OF VIKING HOLDINGS LTD.

7.2 Restricted Share Unit Awards.

(a) Grant of Restricted Share Units. Subject to the terms and conditions of the Plan, the Plan Administrator, from time to time, may grant Restricted Share Units to eligible Participants in such amounts and on such terms and conditions as the Plan Administrator, in its sole discretion, shall determine. Each Award of Restricted Share Units shall be evidenced by an Award Agreement that shall specify the number of Restricted Share Units granted, the applicable period of vesting, settlement or other restrictions, and such other terms and conditions as the Plan Administrator, in its sole discretion, shall determine. A Participant shall have no rights and privileges as a shareholder as to Restricted Share Units.

(b) Settlement of Restricted Share Units. Unless otherwise provided by the Plan Administrator in an Award Agreement or otherwise, upon the expiration of the restriction period with respect to any outstanding Restricted Share Units, the Company shall issue to the Participant or the Participant's beneficiary, without charge, one (1) Share (or other securities or other property, as applicable) for each such outstanding Restricted Share Unit; provided, that the Plan Administrator may, in its sole discretion, elect to pay cash or part cash and part Shares in lieu of issuing only Shares in respect of such Restricted Share Units. If a cash payment is made in lieu of issuing Shares in respect of such Restricted Share Units, the amount of such payment shall be equal to the Fair Market Value per Share as of the date on which the restriction period lapsed with respect to such Restricted Share Units. To the extent provided in an Award Agreement, the holder of outstanding Restricted Share Units shall be entitled to be credited with dividend equivalent payments (upon the payment by the Company of dividends on Shares) either in cash or, in the sole discretion of the Plan Administrator, in Shares having a Fair Market Value equal to the amount of such dividends (and interest may, in the sole discretion of the Plan Administrator, be credited on the amount of cash dividend equivalents at a rate and subject to such terms as determined by the Plan Administrator), which accumulated dividend equivalents shall be payable at the same time as the underlying Restricted Share Units are settled following the date on which the period of restriction lapses with respect to such Restricted Share Units, and, if such Restricted Share Units are forfeited, the Participant shall have no right to such dividend equivalent payments.

(c) Forfeiture. Except as otherwise determined by the Plan Administrator at the time of the grant of the Restricted Share Units or thereafter, upon a Participant's Separation from Service during the applicable restriction period, Restricted Share Units that are at that time unvested shall be forfeited in accordance with the applicable Award Agreement.

(d) Withholding. The Plan Administrator may, in its sole discretion, satisfy the tax withholding obligations related to the settlement of Restricted Share Units by (i) withholding from the Participant's wages or other compensation payable to the Participant by the Company (or any Parent or Subsidiary), (ii) withholding from proceeds of the sale of Shares acquired pursuant to the Restricted Share Units either through a voluntary sale or through a mandatory sale arranged by the Company and the Participant (as set forth in the applicable Award Agreement or otherwise), (iii) withholding Shares that would otherwise be issued upon settlement of the Restricted Share Units or (iv) such other method as determined by the Company.

7.3 Other Share-Based Awards. The Plan Administrator may from time to time grant Other Share-Based Awards to eligible Participants in such amounts, on such terms and conditions, and for such consideration, including no consideration or such minimum consideration as may be required by Applicable Law, as it shall determine. Other share-based awards may be denominated in cash, in Shares or other securities, in share-equivalent units, in share appreciation units, in securities or debentures convertible into Shares, or in any combination of the foregoing and may be paid in Shares or other securities, in cash, or in a combination of Shares or other securities and cash, all as determined in the sole discretion of the Plan Administrator.

ARTICLE 8
LIMITED TRANSFERABILITY OF AWARDS

Unless otherwise determined by the Plan Administrator, Awards shall not be sold, pledged, assigned, hypothecated or otherwise transferred in any manner, other than by will or by the laws of inheritance following the Participant's death. Awards shall be exercisable only by the Participant during the Participant's lifetime, the person to whom the Participant's rights shall pass by will or by the laws of inheritance following the Participant's death or any person to whom the Award is permissibly transferred pursuant to this Article 8. Notwithstanding the foregoing, the Plan Administrator may, in its sole discretion and on a case-by-case basis, permit an Award to be assignable in whole or in part during the Participant's lifetime to one or more members of the Participant's "family" (as defined in Rule 701 promulgated by the U.S. Securities and Exchange Commission) or to a trust established exclusively for the benefit of one or more such family members. The terms applicable to the assigned portion shall be the same as those in effect for the Award immediately prior to such assignment and shall be set forth in such documents issued to the assignee as the Plan Administrator may deem appropriate.

Notwithstanding the foregoing, the Participant may also designate one or more persons as the beneficiary or beneficiaries of the Participant's outstanding Awards under the Plan, and those Awards, to the extent vested, shall, in accordance with such designation, automatically be transferred to such beneficiary or beneficiaries upon the Participant's death while holding those Awards. Such beneficiary or beneficiaries shall take the transferred Awards subject to all the terms and conditions of the applicable agreement evidencing each such transferred Award, including (without limitation) the limited time period during which the Award may be exercised following the Participant's death.

ARTICLE 9
CHANGE IN CONTROL

9.1 Solely to the extent set forth in an Award Agreement or as determined by the Plan Administrator, in its sole discretion, in the event of a Change in Control, immediately prior to the effective date of such Change in Control, all Unvested Shares subject to each then-outstanding Award shall automatically become Vested Shares, and each then outstanding Option shall become immediately exercisable for all of the Shares subject thereto; provided, that the Unvested Shares subject to any such Award shall not so vest and such Option shall not become exercisable on such an accelerated basis if and to the extent that: (i) the Award will be assumed or substituted for by the successor company (or parent thereof) or otherwise continued in effect pursuant to the terms of the Change in Control transaction or (ii) subject to Section 11.13, the Award will be replaced with a cash incentive program of the successor company which preserves the Fair Market Value on those Unvested Shares of such Award at the time of the Change in Control or, in the case of an Option, the spread existing on those Unvested Shares of such Option at the time of the Change in Control (the excess of the Fair Market Value of those Unvested Shares over the applicable exercise price of such Option) and provides for subsequent payout of that Fair Market Value or, in the case of an Option, spread no later than the time Participant would otherwise vest in the Shares subject to the Award. The Plan Administrator, in its sole discretion, shall determine the treatment of outstanding Awards in connection with any transaction or transactions resulting in a Change in

Control, which treatment may include, but is not limited to, taking action so that each outstanding Award is (1) assumed or substituted for by the successor company (or parent thereof) or otherwise continued in full force and effect pursuant to the terms of the Change in Control transaction or (2) cancelled and replaced with an immediate cash payment or a cash incentive program of the Company or any successor company that preserves the Fair Market Value on those Unvested Shares of such Award at the time of the Change in Control or, in the case of an Option, the spread existing on those Unvested Shares of such Option at the time of the Change in Control (the excess of the Fair Market Value of those Unvested Shares over the applicable exercise price of such Option) and provides for subsequent payout of that Fair Market Value or, in the case of an Option, spread no later than the time Participant would otherwise vest in the Shares subject to the Award.

9.2 Upon the consummation of the Change in Control, all then-outstanding Awards shall terminate, except to the extent such Awards are assumed or substituted for by the successor company (or parent thereof) or otherwise continued in effect pursuant to the terms of the Change in Control transaction. Without limiting the foregoing, the Plan Administrator shall have complete discretion to provide, on such terms and conditions as it sees fit and without any Participant's consent, for a cash payment to be made to any Participant on account of any Award so terminated in an amount equal to the Fair Market Value of the Shares subject to such Award or, in the case of an Option, the excess, if any, of the Fair Market Value of the Shares subject to such Option on the date of such termination as determined by the Plan Administrator in its sole discretion over the aggregate exercise price of such Option (it being understood that, in such event, any Option having an exercise price per Share equal to, or in excess of, the Fair Market Value of a Share subject thereto may be cancelled and terminated without any payment or consideration therefor).

9.3 Each Award that is assumed or substituted or otherwise continued in effect as a result of a Change in Control shall be appropriately adjusted with respect to (a) the number and class of securities subject to such Award, (b) the exercise price per share under any Option, provided, that the aggregate exercise price payable for such securities shall remain the same, and (c) the number and class of securities available for issuance under the Plan following the consummation of such Change in Control, as applicable, as the Plan Administrator shall determine in its sole discretion. Without limiting the foregoing, to the extent the shareholders of the Company receive cash consideration for their Shares upon the Change in Control, the successor company (or parent thereof) may, in connection with the assumption of the outstanding Awards under this Plan, substitute one or more shares of its own common stock with a fair market value equivalent to the per Share cash consideration paid to the shareholders of the Company in respect of their Shares in such Change in Control.

9.4 The Plan Administrator shall have the discretion, exercisable either at the time an Award is granted or at any time while an Award remains outstanding, to accelerate the vesting or exercisability of such Award so that some or all of the Shares subject to such Award shall automatically become Vested Shares and immediately exercisable upon the occurrence of a Change in Control or upon the Participant's Involuntary Termination within a designated period following a Change in Control.

9.5 The portion of any Incentive Option with respect to which vesting is accelerated in connection with a Change in Control shall remain exercisable as an Incentive Option only to the extent the applicable U.S. $100,000 limitation set forth in Section 6.2 is not exceeded. To the extent such dollar limitation is exceeded, such portion of the Option shall be exercisable as a Non-Statutory Option under the federal tax laws.

ARTICLE 10
CANCELLATION AND REGRANT OF AWARDS

The Plan Administrator shall have the authority to effect, at any time and from time to time, with the consent of the affected Participants, the cancellation of any or all outstanding Awards under the Plan and to grant in substitution therefor new Awards covering the same or different number of Shares. Notwithstanding the preceding sentence, in connection with a Change in Control, the Plan Administrator shall have the discretion and authority to effect, without the consent of the affected Participants, the cancellation of any or all outstanding Awards under the Plan and the grant of new Awards in substitution therefor covering the same or different number of Shares pursuant to Article 9.

ARTICLE 11
MISCELLANEOUS

11.1 Financing. Subject to Applicable Law, the Plan Administrator may, in its sole discretion, permit any Participant to pay the exercise price for the Shares with respect to which an Option is exercised by delivering a full recourse, interest bearing promissory note secured by the purchased Shares, provided, that such promissory note does not result in a deferral of compensation subject to Code Section 409A. The Plan Administrator, after considering the potential tax and accounting consequences, shall set the remaining terms of the promissory note, subject to Applicable Law. In no event may the maximum credit available to the Participant exceed the sum of (a) the aggregate exercise price of the Option for the purchased shares thereunder *plus* (b) any applicable income and employment tax liability incurred by the Participant in connection with the Shares acquired upon exercise of the Option.

11.2 Share Escrow / Legends. Unless otherwise determined by the Plan Administrator in its sole discretion, Shares acquired upon the exercise, vesting or settlement of Awards shall be held in book-entry form, rather than delivered to the Participant. Shares may, in the Plan Administrator's discretion, be held in escrow by the Company until the Shares are no longer subject to the Company's repurchase right or right of first refusal or may be issued directly to the Participant with restrictive legends on the certificates evidencing the Company's rights.

11.3 Effective Date and Term of Plan.

(a) The Plan is effective as of the Effective Date, but no Award granted under the Plan may be exercised, and no Shares shall be issued under the Plan, until the Company's shareholders approve the Plan in the manner and to the degree required under Applicable Law. If such shareholder approval is not obtained within twelve months after the date of the Board's adoption of the Plan, then all Awards previously granted under the Plan shall terminate, and no further Awards shall be granted and no Shares shall be issued under the Plan. Subject to such limitation, the Plan Administrator may grant Awards and issue Shares under the Plan at any time after the Effective Date and before the date fixed herein for termination of the Plan.

(b) The Plan shall terminate upon the earlier of (1) the expiration of the ten year period measured from the Effective Date or (2) the date of termination by the Board. All Awards outstanding at the time of the termination of the Plan shall continue in effect in accordance with the provisions of the documents evidencing those Awards.

11.4 Amendment or Termination of the Plan.

(a) The Board shall have complete and exclusive power and authority to amend or terminate the Plan or any Awards granted thereunder in any or all respects at any time; provided, that, unless such amendment or termination is required by Applicable Law, no amendment or termination shall adversely affect the rights and obligations with respect to an outstanding Award unless the Participant consents to such amendment or termination. In addition, certain amendments, including amendments that increase the share reserve or change the class of individuals eligible to receive grants pursuant to the Plan, may require shareholder approval pursuant to Applicable Law (including any rules or requirements of the applicable securities exchange or inter-dealer quotation system on which the Shares may be listed or quoted).

(b) Although there may be adverse accounting consequences to doing so, Awards may be granted which are in each instance in excess of the number of Shares then available for issuance under the Plan, provided, that any excess shares actually issued under the Plan shall be held in escrow until there is obtained shareholder approval of an amendment sufficiently increasing the number of Shares available for issuance under the Plan. If such shareholder approval is not obtained within twelve months after the date the first such excess grants are made, then (1) any unexercised Awards granted on the basis of such excess shares shall terminate and (2) the Company shall promptly refund to the Participants the exercise price or purchase price paid for any excess shares issued under the Plan and held in escrow, together with interest (at the applicable Short Term Federal Rate) for the period the shares were held in escrow, and such shares shall thereupon be automatically cancelled.

11.5 Use of Proceeds. Any cash proceeds received by the Company from the sale of Shares under the Plan shall be used for any corporate purpose.

11.6 Withholding. The Company's obligation to deliver shares of Shares upon the exercise, vesting or settlement of any Awards granted under the Plan shall be subject to the satisfaction of all applicable income and employment tax withholding requirements. In addition to any other withholding rights available to the Company, the Company may, if necessary or desirable, withhold from any amounts due and payable by the Company to any Participant (or secure payment from such Participant in lieu of withholding) the amount of any withholding or other tax due from the Company with respect to any exercise, vesting or settlement of any Award or other issuance of Shares under this Plan to such Participant, and the Company may defer such exercise or issuance unless indemnified to its satisfaction against the payment of any such amount. With the approval of the Plan Administrator, a Participant may satisfy the foregoing requirement in whole or in part through the withholding of Shares otherwise issuable upon the exercise, vesting or settlement of the Award having a value not exceeding the amount determined by using the applicable maximum required statutory tax withholding rates in the applicable jurisdiction and valued at the Fair Market Value of such Shares subject to the Award on the date of withholding, with any fractional share amounts settled in cash, subject to compliance with any Applicable Law. The Company shall not be responsible for payment by any Participant of the proper amount of taxes.

11.7 Regulatory Approvals; Conditions Upon Issuance of Shares. The implementation of the Plan, the granting of any Awards under the Plan and the issuance of any Shares upon the exercise, vesting or settlement of any Award shall be subject to the Company's procurement of all approvals and permits required by regulatory authorities having jurisdiction over the Plan, including the Awards granted thereunder and the Shares issuable thereunder. Notwithstanding anything in the Plan or in any Award Agreement to the contrary, the Company shall not be obligated, and shall have no liability for failure, to issue or deliver any Shares under the Plan unless such issuance or delivery would comply with Applicable Law, with such compliance determined by the Company in consultation with its legal counsel. The exercise or settlement of any Award granted hereunder shall only be effective at such time as counsel to the Company shall have determined that the issuance and delivery of Shares pursuant to such exercise or settlement is in compliance with Applicable Law.

11.8 No Employment or Service Rights. Nothing in the Plan shall confer upon a Participant any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Company (or any Subsidiary employing or retaining such Participant) or of the Participant, which rights are hereby expressly reserved by each, to terminate such Participant's Service at any time for any reason, with or without cause, unless otherwise provided in a separate agreement between the Company (or any Subsidiary employing or retaining such Participant) and the Participant, subject to Applicable Law.

11.9 Severability. If any provision of the Plan (or any portion thereof, including the Award Agreements) is held to be invalid, illegal or unenforceable by any court or arbitrator of competent jurisdiction, then solely as to such jurisdiction and subject to this Section, that provision shall be limited ("blue-penciled") to the minimum extent necessary so that the Plan shall otherwise remain enforceable in full force and effect in such jurisdiction and without affecting in any way the enforceability of the Plan in other jurisdictions. To the extent such provision cannot be so modified, the offending provision shall, solely as to such jurisdiction, be deemed severable from the remainder of the Plan, and the remaining provisions contained in the Plan shall be construed to preserve to the maximum permissible extent the intent and purposes of the Plan in such jurisdiction and without affecting in any way the enforceability of the Plan in other jurisdictions.

11.10 No Rights as a Shareholder. Except as otherwise specifically provided in the Plan or any Award Agreement, no Participant shall be entitled to the privileges of ownership in respect of Shares which are subject to Awards granted hereunder until such Shares have been issued or delivered to such Participant.

11.11 Obligations Binding on Successors. The obligations of the Company under the Plan shall be binding upon any successor company or organization resulting from the merger, amalgamation, consolidation or other reorganization of the Company, or upon any successor company or organization succeeding to substantially all of the assets and business of the Company.

11.12 Governing Law; Interpretation of Plan and Awards.

(a) The Plan and all determinations made and actions taken pursuant hereto shall be governed by and construed in accordance with the laws of Delaware, without regard to its principles of conflicts of laws.

(b) The headings preceding the text of the sections hereof are inserted solely for convenience of reference, and shall not constitute a part of the Plan, nor shall they affect its meaning, construction or effect.

(c) The terms of the Plan and any Award shall inure to the benefit of and be binding upon the parties hereto and their respective permitted heirs, beneficiaries, successors and assigns.

(d) All questions arising under the Plan or under any Award shall be decided by the Plan Administrator in its total and absolute discretion. In the event a Participant believes that a decision by the Plan Administrator with respect to such person was arbitrary or capricious, the Participant may request arbitration with respect to such decision. The review by the arbitrator shall be limited to determining whether the Plan Administrator's decision was arbitrary or capricious. This arbitration shall be the sole and exclusive review permitted of the Plan Administrator's decision, and the Participant shall as a condition to the receipt of an Award be deemed to explicitly waive any right to judicial review.

11.13 Section 409A.

(a) Notwithstanding any provision of the Plan to the contrary, it is intended that the provisions of the Plan comply with Section 409A of the Code, and all provisions of the Plan shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes or penalties under Section 409A of the Code. Each Participant is solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on or in respect of such Participant in connection with the Plan (including any taxes and penalties under Section 409A of the Code), and neither the Company nor any of its Subsidiaries shall have any obligation to indemnify or otherwise hold such Participant (or any beneficiary) harmless from any or all of such taxes or penalties. With respect to any Award that is considered "deferred compensation" subject to Section 409A of the Code, references in the Plan to "termination of employment" (and substantially similar phrases) shall mean "separation from service" within the meaning of Section 409A of the Code. For purposes of Section 409A of the Code, each of the payments that may be made in respect of any Award granted under the Plan is designated as separate payments.

(b) Notwithstanding anything in the Plan to the contrary, if a Participant is a "specified employee" within the meaning of Section 409A(a)(2)(B)(i) of the Code, no payments in respect of any Awards that are "deferred compensation" subject to Section 409A of the Code and which would otherwise be payable upon the Participant's "separation from service" (as defined in Section 409A of the Code) shall be made to such Participant prior to the date that is six (6) months after the date of such Participant's "separation from service" or, if earlier, the date of the Participant's death. Following any applicable six (6) month delay, all such delayed payments will be paid in a single lump sum on the earliest date permitted under Section 409A of the Code that is also a business day.

(c) Unless otherwise provided by the Plan Administrator in an Award Agreement or otherwise, in the event that the timing of payments in respect of any Award (that would otherwise be considered "deferred compensation" subject to Section 409A of the Code) would be accelerated upon the occurrence of (A) a Change in Control, no such acceleration shall be permitted unless the event giving rise to the Change in Control satisfies the definition of a change in the ownership or effective control of a company, or a change in the ownership of a substantial portion of the assets of a company pursuant to Section 409A of the Code; or (B) a Disability, no such acceleration shall be permitted unless the Disability also satisfies the definition of "Disability" pursuant to Section 409A of the Code.

11.14 Recoupment. Notwithstanding anything in the Plan or in any Award Agreement to the contrary, the Company shall be entitled to the extent permitted or required by Applicable Law, Company policy or the requirements of a stock exchange on which the Shares are listed for trading, in each case, as in effect from time to time, to recoup compensation of whatever kind paid by the Company at any time to a Participant under the Plan. No such recoupment of compensation will be an event giving rise to a right to resign for "good reason" or "involuntary termination" (or similar term) under any agreement between any Participant and the Company (or any Parent or Subsidiary).

11.15 Changes in Status and Leaves of Absence. The Plan Administrator shall have the discretion to determine (whether by establishing a policy applicable to the treatment of any or all Awards in such circumstances, or by making an individualized determination) at any time whether and to what extent any tolling, reduction, vesting-extension, forfeiture or other treatment should be applied to an Award in connection with a Participant's leave of absence or a change in a Participant's regular level of time commitment to the Company (e.g., in connection with a change from full-time to part-time status); provided, however, that the Plan Administrator shall not have any such discretion (whether pursuant to a policy or specific determination) to the extent that the grant of such discretion would cause any tax to become due under Section 409A of the Code; and provided, further, that in the absence of a determination to the contrary by the Plan Administrator, vesting shall continue during any paid leave and shall be tolled during any unpaid leave (in all cases, unless otherwise required by Applicable Law). In the event of any such tolling, forfeiture, reduction or extension, the Participant shall have no right to the portion of the Award so tolled, forfeited, reduced or extended (except for the right that remains, if any, after the application of such action).

11.16 Corporate Action Constituting Grant of Awards. Corporate action constituting a grant by the Company of an Award to any Participant shall be deemed completed as of the date of such corporate action, unless otherwise determined by the Plan Administrator, regardless of when the instrument, certificate or letter evidencing the Award is communicated to, or actually received or accepted by, the Participant. In the event that the corporate records (e.g., Board consents, resolutions or minutes) documenting the corporate action constituting the grant contain terms (e.g., exercise price, vesting schedule or number of Shares) that are inconsistent with those in the Award Agreement or related grant documents as a result of a clerical error in the preparation of the Award Agreement or related grant documentation, the corporate records will control, and the Participant will have no legally binding right to the incorrect term in the Award Agreement or related grant documentation.

11.17 Time of Granting Awards. The date of grant of an Award shall, for all purposes, be the date on which the Plan Administrator makes the determination granting such Award, or such other date as is determined by the Plan Administrator, provided, that in the case of any Incentive Option, the grant date shall be the later of the date on which the Plan Administrator makes the determination granting such Incentive Option or the date of commencement of the Participant's employment relationship with the Company (or any Parent or Subsidiary).

11.18 Failure to Comply. In addition to the remedies of the Company elsewhere provided for herein, failure by a Participant to comply with any of the terms and conditions of the Plan or any Award Agreement, unless such failure is remedied by such Participant within ten days after having been notified of such failure by the Plan Administrator, shall be grounds for the cancellation and forfeiture of such Award, in whole or in part, as the Plan Administrator, in its sole discretion, may determine.

11.19 Notice. Any written notice to the Company required by any provisions of the Plan shall be addressed to the Chief Financial Officer of the Company and shall be effective when received.

11.20 Limitation on Liability. The Company and any Affiliate which is in existence or hereafter comes into existence shall not be liable to a Participant, an Employee or any other persons as to:

(a) The Non-Issuance of Shares. The non-issuance or sale of Shares (including under Section 11.7 above) as to which the Company has been unable to obtain from any regulatory body having jurisdiction the authority deemed by the Company's counsel to be necessary to the lawful issuance and sale of any shares hereunder.

(b) Tax Consequences. Any tax consequence realized by any Participant, Employee or other person due to the receipt, vesting, exercise or settlement of any Award granted hereunder or due to the transfer of any Shares issued hereunder. The Participant is responsible for, and by accepting an Award under the Plan agrees to bear, all taxes of any nature that are legally imposed upon the Participant in connection with an Award, and the Company does not assume, and will not be liable to any party for, any cost or liability arising in connection with such tax liability legally imposed on the Participant.

(c) Forfeiture. The requirement that a Participant forfeit an Award, or the benefits received or to be received under an Award, pursuant to any Applicable Law.

Exhibit 10.2

VIKING HOLDINGS LTD
2024 EMPLOYEE SHARE PURCHASE PLAN

ARTICLE 1
PURPOSE OF THE PLAN

1. General; Purpose.

(a) Purpose. The Plan provides a means by which Eligible Employees or Eligible Service Providers of either the Company or a Designated Company may be given an opportunity to purchase Shares. The Plan permits the Company to grant a series of Purchase Rights to Eligible Employees or Eligible Service Providers. The Company, by means of the Plan, seeks to retain and assist its Related Corporations or Affiliates in retaining the services of such Eligible Employees and Eligible Service Providers, to secure and retain the services of new Eligible Employees and Eligible Service Providers and to provide incentives for such persons to exert maximum efforts for the success of the Company and its Related Corporations and Affiliates.

(b) Qualified and Non-Qualified Offerings Permitted. The Plan includes two components: a 423 Component and a Non-423 Component. The Company intends (but makes no undertaking or representation to maintain) the 423 Component to qualify as a Section 423 ESPP. The provisions of the 423 Component, accordingly, will be construed in a manner that is consistent with the requirements of Section 423 of the Code, including without limitation, to extend and limit Plan participation in a uniform and non-discriminating basis. In addition, this Plan authorizes grants of Purchase Rights under the Non-423 Component that do not meet the requirements of a Section 423 ESPP. Except as otherwise provided in the Plan or determined by the Plan Administrator, the Non-423 Component will operate and be administered in the same manner as the 423 Component. In addition, the Company may make separate Offerings which vary in terms (provided that such terms are not inconsistent with the provisions of the Plan, and with respect to the 423 Component, the requirements of a Section 423 ESPP), and the Company will designate which Designated Company is participating in each separate Offering and if any Eligible Service Providers will be eligible to participate in a separate Offering. Eligible Employees will be able to participate in the 423 Component or Non-423 Component of the Plan. Eligible Service Providers will only be able to participate in the Non-423 Component of the Plan.

ARTICLE 2
ADMINISTRATION OF THE PLAN

2. Administration.

(a) The Board will administer the Plan unless and until the Board delegates administration of the Plan to a Committee or Committees, as provided in Section 2(c).

(b) The Plan Administrator will have the power, subject to, and within the limitations of, the express provisions of the Plan:

(i) To determine how and when Purchase Rights will be granted and the provisions of each Offering (which need not be identical).

(ii) To designate from time to time which Related Corporations will be eligible to participate in the Plan as Designated 423 Corporations or as Designated Non-423 Corporations, which Affiliates will be eligible to participate in the Plan as Designated Non-423 Corporations, and which Designated Companies will participate in each separate Offering (to the extent that the Company makes separate Offerings).

(iii) To designate from time to time which persons will be eligible to participate in the Non-423 Component of the Plan as Eligible Service Providers and which Eligible Service Providers will participate in each separate Offering (to the extent that the Company makes separate Offerings).

(iv) To construe and interpret the Plan and Purchase Rights, and to establish, amend and revoke rules and regulations for its administration. The Plan Administrator, in the exercise of this power, may correct any defect, omission or inconsistency in the Plan, in a manner and to the extent it deems necessary or expedient to make the Plan fully effective.

(v) To settle all controversies regarding the Plan and Purchase Rights granted under the Plan.

(vi) To suspend or terminate the Plan at any time as provided in Section 12.

(vii) To amend the Plan at any time as provided in Section 12.

(viii) Generally, to exercise such powers and to perform such acts as it deems necessary or expedient to promote the best interests of the Company, its Related Corporations, and Affiliates and to carry out the intent that the 423 Component be treated as a Section 423 ESPP.

(ix) To adopt such rules, procedures and sub-plans relating to the operation and administration of the Plan as are necessary or appropriate under Applicable Laws to permit or facilitate participation in the Plan by Employees or Eligible Service Providers who are foreign nationals or employed or providing services or located or otherwise subject to the laws of a jurisdiction outside the United States. Without limiting the generality of, but consistent with, the foregoing, the Plan Administrator specifically is authorized to adopt rules, procedures, and sub-plans, which, for purposes of the Non-423 Component, may be beyond the scope of Section 423 of the Code, regarding, without limitation, eligibility to participate in the Plan, handling and making of Contributions, establishment of bank or trust accounts to hold Contributions, payment of interest, conversion of local currency, obligations to pay payroll tax, determination of beneficiary designation requirements, withholding procedures and handling of share issuances, any of which may vary according to Applicable Laws.

(c) The Board may delegate some or all of the administration of the Plan to a Committee or Committees. If administration is delegated to a Committee, the Committee will have, in connection with the administration of the Plan, the powers theretofore possessed by the Board that have been delegated to the Committee, including the power to delegate to a subcommittee any of the administrative powers the Committee is authorized to exercise (and references in this Plan to the Plan Administrator will thereafter be to the subcommittee), subject,

however, to such resolutions, not inconsistent with the provisions of the Plan and Applicable Laws, as may be adopted from time to time by the Committee. The Board may retain the authority to concurrently administer the Plan with the Committee and may, at any time, revest in the Board some or all of the powers previously delegated. Whether or not the Board has delegated administration of the Plan to a Committee, the Board will have the final power to determine all questions of policy and expediency that may arise in the administration of the Plan.

(d) All determinations, interpretations and constructions made by the Plan Administrator in good faith will not be subject to review by any person and will be final, binding and conclusive on all persons.

ARTICLE 3
SHARES SUBJECT TO THE PLAN

3. Shares Subject to the Plan.

(a) Number of Shares Available. Subject to Section 3(b) relating to evergreen shares and Section 11(a) relating to Capitalization Adjustments, the maximum aggregate number of Shares that will be made available for sale under the Plan will not exceed 4,680,000 Shares.

(b) Evergreen Shares. In addition, the number of Shares available for sale under the Plan will automatically increase on the first day of each calendar year, for a period of ten years from the date the Plan is approved by the shareholders of the Company, commencing on January 1, 2025, and ending on (and including) January 1, 2034, in an amount equal to the lesser of (i) 1.0% of the total number of the Company's ordinary shares and special shares outstanding on December 31 of the preceding year; (ii) 4,680,000 Shares; or (iii) such lesser number of Shares as determined by the Board at any time prior to the first day of a given calendar year.

(c) Share Recycling. If any Purchase Right granted under the Plan terminates without having been exercised in full, the Shares not purchased under such Purchase Right will again become available for issuance under the Plan.

(d) Source of Shares. The Shares purchasable under the Plan will be authorized but unissued or reacquired Shares, including Shares repurchased by the Company on the open market.

ARTICLE 4
OFFERINGS

4. Grant of Purchase Rights; Offering.

(a) Offerings. The Plan Administrator may from time to time grant or provide for the grant of Purchase Rights to Eligible Employees or Eligible Service Providers under an Offering (consisting of one or more Purchase Periods) on an Offering Date or Offering Dates selected by the Plan Administrator. Each Offering will be in such form and will contain such terms and conditions as the Plan Administrator will deem appropriate, and, with respect to the 423 Component, will comply with the requirement of Section 423(b)(5) of the Code that all Employees granted Purchase Rights will have the same rights and privileges. The terms and

conditions of an Offering will be incorporated by reference into the Plan and treated as part of the Plan. The provisions of separate Offerings need not be identical, but each Offering will include (through incorporation of the provisions of this Plan by reference in the Offering Document or otherwise) the period during which the Offering will be effective, which period will not exceed 27 months beginning with the Offering Date, and the substance of the provisions contained in Sections 5 through 8, inclusive.

(b) More than One Purchase Right. If a Participant has more than one Purchase Right outstanding under the Plan, unless he or she otherwise indicates in forms delivered to the Company: (i) each form will apply to all of his or her Purchase Rights under the Plan, and (ii) a Purchase Right with a lower exercise price (or an earlier-granted Purchase Right, if different Purchase Rights have identical exercise prices) will be exercised to the fullest possible extent before a Purchase Right with a higher exercise price (or a later-granted Purchase Right if different Purchase Rights have identical exercise prices) will be exercised.

(c) Restart Provision Permitted. The Plan Administrator will have the discretion to structure an Offering so that if the Fair Market Value of a Share on the first Trading Day of a new Purchase Period within that Offering is less than or equal to the Fair Market Value of a Share on the Offering Date for that Offering, then (i) that Offering will terminate immediately as of that first Trading Day, and (ii) the Participants in such terminated Offering will be automatically enrolled in a new Offering beginning on the first Trading Day of such new Offering Period and Purchase Period.

ARTICLE 5
ELIGIBILITY

5. Eligibility.

(a) General. Purchase Rights may be granted only to Employees of the Company or, as the Plan Administrator may designate in accordance with Section 2(b), to Employees of a Related Corporation or, solely with respect to the Non-423 Component, Employees of an Affiliate or Eligible Service Providers.

(b) Grant of Purchase Rights. The Plan Administrator may provide that Employees will not be eligible to be granted Purchase Rights under the Plan if, on the Offering Date, the Employee (i) has not completed at least two (2) years of service since the Employee's last hire date (or such lesser period of time as may be determined by the Plan Administrator in its discretion), (ii) customarily works not more than twenty (20) hours per week (or such lesser period of time as may be determined by the Plan Administrator in its discretion), (iii) customarily works not more than five (5) months per calendar year (or such lesser period of time as may be determined by the Plan Administrator in its discretion), (iv) is a highly compensated employee within the meaning of Section 423(b)(4)(D) of the Code, or (v) has not satisfied such other criteria as the Plan Administrator may determine consistent with Section 423 of the Code.

(c) 5% Shareholders. With respect to the 423 Component, no Employee will be eligible for the grant of any Purchase Rights if, immediately after any such Purchase Rights are granted, such Employee owns shares possessing five (5) percent or more of the total combined voting power or value of all classes of shares of the Company or of any Related Corporation. For purposes of this Section 5(c), the rules of Section 424(d) of the Code will apply in determining the share ownership of any Employee, and shares which such Employee may purchase under all outstanding Purchase Rights and options will be treated as shares owned by such Employee.

(d) $25,000 Limit. With respect to the 423 Component, as specified by Section 423(b)(8) of the Code, an Eligible Employee may be granted Purchase Rights only if such Purchase Rights, together with any other rights granted under all Section 423 ESPPs of the Company and any Related Corporations, do not permit such Eligible Employee's rights to purchase shares of the Company or any Related Corporation to accrue at a rate which, when aggregated, exceeds U.S. $25,000 of Fair Market Value of such shares (determined at the time such rights are granted, and which, with respect to the Plan, will be determined as of their respective Offering Dates) for each calendar year in which such rights are outstanding at any time.

(e) Service Requirement. An Eligible Service Provider will not be eligible to be granted Purchase Rights unless the Eligible Service Provider is providing bona fide services to the Company or a Designated Company on the applicable Offering Date.

(f) Non-423 Component Offerings. Notwithstanding anything set forth herein except for Section 5(e) above, the Plan Administrator may establish additional eligibility requirements, or fewer eligibility requirements, for Employees or Eligible Service Providers with respect to Offerings made under the Non-423 Component even if such requirements are not consistent with Section 423 of the Code.

ARTICLE 6
PURCHASES

6. Purchase Rights; Purchase Price.

(a) Grant and Maximum Contribution Rate. On each Offering Date, each Eligible Employee or Eligible Service Provider, pursuant to an Offering made under the Plan, will be granted a Purchase Right to purchase up to that number of Shares (rounded down to the nearest whole share) purchasable either with a percentage or with a maximum dollar amount, as designated by the Plan Administrator; provided however, that in the case of Eligible Employees, such percentage or maximum dollar amount will in either case not exceed 15% of such Employee's earnings (as defined by the Plan Administrator in each Offering) during the period that begins on the Offering Date (or such later date as the Plan Administrator determines for a particular Offering) and ends on the date stated in the Offering, which date will be no later than the end of the Offering, unless otherwise provided for in an Offering.

(b) Purchase Dates. The Plan Administrator will establish one or more Purchase Dates during an Offering on which Purchase Rights granted for that Offering will be exercised and Shares will be purchased in accordance with such Offering.

(c) Other Purchase Limitations. In connection with each Offering made under the Plan, the Plan Administrator may specify (i) a maximum number of Shares that may be purchased by any Participant on any Purchase Date during such Offering, (ii) a maximum aggregate number of Shares that may be purchased by all Participants pursuant to such Offering,

and (iii) a maximum aggregate number of Shares that may be purchased by all Participants on any Purchase Date under the Offering. If the aggregate purchase of Shares issuable on exercise of Purchase Rights granted under the Offering would exceed any such maximum aggregate number, then, in the absence of any Board action otherwise, a pro rata (based on each Participant's accumulated Contributions) allocation of the Shares (rounded down to the nearest whole share) available will be made in as nearly a uniform manner as will be practicable and equitable.

(d) Purchase Price. The purchase price of Shares acquired pursuant to Purchase Rights will be not less than the lesser of:

(i) an amount equal to 85% of the Fair Market Value of the Shares on the Offering Date; or

(ii) an amount equal to 85% of the Fair Market Value of the Shares on the applicable Purchase Date.

ARTICLE 7
PARTICIPATION

7. Participation; Withdrawal; Termination.

(a) Enrollment. An Eligible Employee may elect to authorize payroll deductions as the means of making Contributions by completing and delivering to the Company, within the time specified by the Company, an enrollment form provided by the Company or any third party designated by the Company (each, a "Company Designee"). The enrollment form will specify the amount of Contributions not to exceed the maximum amount specified by the Plan Administrator. Each Participant's Contributions will be credited to a bookkeeping account for such Participant under the Plan and will be deposited with the general funds of the Company except where Applicable Laws require that Contributions be deposited with a Company Designee or otherwise be segregated.

(b) Contributions. If permitted in the Offering, a Participant may begin Contributions with the first payroll or payment date occurring on or after the Offering Date (or, in the case of a payroll date or payment date that occurs after the end of the prior Offering but before the Offering Date of the next new Offering, Contributions from such payroll or payment will be included in the new Offering) or on such other date as set forth in the Offering. If permitted in the Offering, a Participant may thereafter reduce (including to zero) or increase his or her Contributions. If required under Applicable Laws or if specifically provided in the Offering, in addition to or instead of making Contributions by payroll deductions, a Participant may make Contributions through a payment by cash, check, or wire transfer prior to a Purchase Date, in a manner directed by the Company or a Company Designee.

(c) Withdrawals. During an Offering, a Participant may cease making Contributions and withdraw from the Offering by delivering to the Company or a Company Designee a withdrawal form provided by the Company. The Company may impose a deadline before a Purchase Date for withdrawing. On such withdrawal, such Participant's Purchase Right in that Offering will immediately terminate and the Company will distribute as soon as practicable to such Participant all of his or her accumulated but unused Contributions without interest and

such Participant's Purchase Right in that Offering will then terminate. A Participant's withdrawal from that Offering will have no effect on his or her eligibility to participate in any other Offerings under the Plan, but such Participant will be required to deliver a new enrollment form to participate in subsequent Offerings.

(d) Termination of Eligibility. Purchase Rights granted pursuant to any Offering under the Plan will terminate immediately if the Participant either (i) is no longer an Eligible Employee or Eligible Service Provider for any reason or for no reason, or (ii) is otherwise no longer eligible to participate. The Company shall have the exclusive discretion to determine when Participant is no longer actively providing services and the date of the termination of employment or service for purposes of the Plan. As soon as practicable, the Company will distribute to such individual all of his or her accumulated but unused Contributions without interest.

(e) Leave of Absence. For purposes of this Section 7, an Employee will not be deemed to have terminated employment or failed to remain in the continuous employ of the Company or of a Designated Company in the case of sick leave, military leave, or any other leave of absence approved by the Company; provided that such leave is for a period of not more than three (3) months or reemployment upon the expiration of such leave is guaranteed by contract or statute. The Company will have sole discretion to determine whether a Participant has terminated employment and the effective date on which the Participant terminated employment, regardless of any notice period or garden leave required under local law.

(f) Employment Transfers. Unless otherwise determined by the Plan Administrator, a Participant whose employment transfers or whose employment terminates with an immediate rehire (with no break in service) by or between the Company and a Designated Company or between Designated Companies will not be treated as having terminated employment for purposes of participating in the Plan or an Offering; however, if a Participant transfers from an Offering under the 423 Component to an Offering under the Non-423 Component, the exercise of the Participant's Purchase Right will be qualified under the 423 Component only to the extent such exercise complies with Section 423 of the Code. If a Participant transfers from an Offering under the Non-423 Component to an Offering under the 423 Component, the exercise of the Purchase Right will remain non-qualified under the Non-423 Component. In the event that a Participant's Purchase Right is terminated under the Plan, the Company will distribute as soon as practicable to such individual all of his or her accumulated but unused Contributions.

(g) No Transfers of Purchase Rights. During a Participant's lifetime, Purchase Rights will be exercisable only by such Participant. Purchase Rights are not transferable by a Participant, except by will, by the laws of descent and distribution, or, if permitted by the Company, by a beneficiary designation as described in Section 10.

(h) No Interest. Unless otherwise specified in the Offering or required by Applicable Laws, the Company will have no obligation to pay interest on Contributions.

ARTICLE 8
EXERCISE OF PURCHASE RIGHTS

8. Exercise of Purchase Rights.

(a) On each Purchase Date, each Participant's accumulated Contributions will be applied to the purchase of Shares (rounded down to the nearest whole share), up to the maximum number of Shares permitted by the Plan and the applicable Offering, at the purchase price specified in the Offering. No fractional shares will be issued unless specifically provided for in the Offering.

(b) Unless otherwise provided in the Offering, if any amount of accumulated Contributions remains in a Participant's account after the purchase of Shares on the final Purchase Date in an Offering, then such remaining amount will not roll over to the next Offering and will instead be distributed in full to such Participant after the final Purchase Date of such Offering without interest (unless otherwise required by Applicable Laws).

(c) No Purchase Rights may be exercised to any extent unless the issuance of Shares on such exercise under the Plan is covered by an effective registration statement pursuant to the Securities Act and the Plan is in material compliance with all Applicable Laws. If on a Purchase Date the issuance of Shares is not so registered or the Plan is not in such compliance, no Purchase Rights will be exercised on such Purchase Date, and the Purchase Date will be delayed until the issuance of Shares may be effected pursuant to such an effective registration statement and the Plan is in material compliance, except that the Purchase Date will in no event be more than three (3) months from the original Purchase Date. If, on the Purchase Date, as delayed to the maximum extent permissible, the issuance of Shares is not registered or the Plan is not in material compliance with all Applicable Laws, as determined by the Company in its sole discretion, no Purchase Rights will be exercised and all accumulated but unused Contributions will be distributed as soon as practicable to the Participants without interest.

ARTICLE 9
COVENANTS OF THE COMPANY

9. Covenants of the Company. The Company will seek to obtain from each U.S. federal or state, foreign or other regulatory commission or agency having jurisdiction over the Plan such authority as may be required to grant Purchase Rights and issue and sell Shares thereunder unless the Company determines, in its sole discretion, that doing so would cause the Company to incur costs that are unreasonable. If, after commercially reasonable efforts, the Company is unable to obtain the authority that counsel for the Company deems necessary for the grant of Purchase Rights or the lawful issuance and sale of Shares under the Plan, and at a commercially reasonable cost, the Company will be relieved from any liability for failure to grant Purchase Rights or to issue and sell Shares on exercise of such Purchase Rights.

ARTICLE 10
DESIGNATION OF BENEFICIARY

10. Designation of Beneficiary.

(a) The Company may, but is not obligated to, permit a Participant to submit a form designating a beneficiary who will receive any Shares or Contributions from the Participant's account under the Plan if the Participant dies before such shares or Contributions are delivered to the Participant. The Company may, but is not obligated to, permit the Participant to change such designation of beneficiary. Any such designation or change must be on a form approved by the Company or as approved by the Company for use by a Company Designee.

(b) If a Participant dies, in the absence of a valid beneficiary designation, the Company will deliver any Shares and Contributions to the executor or administrator of the estate of the Participant. If no executor or administrator has been appointed (to the knowledge of the Company), the Company, in its sole discretion, may deliver such Shares and Contributions, without interest, to the Participant's spouse, dependents or relatives, or if no spouse, dependent or relative is known to the Company, then to such other person as the Company may designate.

ARTICLE 11
ADJUSTMENTS

11. Capitalization Adjustments; Dissolution or Liquidation; Change in Control.

(a) Capitalization Adjustment. In the event of a Capitalization Adjustment, the Plan Administrator will appropriately and proportionately adjust: (i) the class(es) and maximum number of securities subject to the Plan pursuant to Section 3, (ii) the class(es) and number of securities subject to, and the purchase price applicable to outstanding Offerings and Purchase Rights, and (iii) the class(es) and number of securities that are the subject of the purchase limits under each ongoing Offering. The Plan Administrator will make these adjustments, and its determination will be final, binding, and conclusive.

(b) Dissolution or Liquidation. In the event of a dissolution or liquidation of the Company, the Plan Administrator will shorten any Offering then in progress by setting a New Purchase Date prior to the consummation of such proposed dissolution or liquidation. The Plan Administrator will notify each Participant in writing, prior to the New Purchase Date that the Purchase Date for the Participant's Purchase Rights has been changed to the New Purchase Date and that such Purchase Rights will be automatically exercised on the New Purchase Date, unless prior to such date the Participant has withdrawn from the Offering as provided in Section 7.

(c) Change in Control. In the event of a Change in Control, then: (i) any surviving corporation or acquiring corporation (or the surviving or acquiring corporation's parent company) may assume or continue outstanding Purchase Rights or may substitute similar rights (including a right to acquire the same consideration paid to the shareholders in the Change in Control) for outstanding Purchase Rights, or (ii) if any surviving or acquiring corporation (or its parent company) does not assume or continue such Purchase Rights or does not substitute similar rights for such Purchase Rights, then the Participants' accumulated Contributions will be used to purchase Shares (rounded down to the nearest whole share) prior to the Change in Control under the outstanding Purchase Rights (with such actual date to be determined by the Plan Administrator in its sole discretion), and the Purchase Rights will terminate immediately after such purchase. The Plan Administrator will notify each Participant in writing, prior to the New Purchase Date that the Purchase Date for the Participant's Purchase Rights has been changed to the New Purchase Date and that such Purchase Rights will be automatically exercised on the New Purchase Date, unless prior to such date the Participant has withdrawn from the Offering as provided in Section 7.

(d) Spin-Off. In the event of a spin-off or similar transaction involving the Company, the Plan Administrator may take actions deemed necessary or appropriate in connection with an ongoing Offering and subject to compliance with Applicable Laws (including the assumption of Purchase Rights under an ongoing Offering by the spun-off company, or shortening an Offering and scheduling a new Purchase Date prior to the closing of such transaction). In the absence of any such action by the Plan Administrator, a Participant in an ongoing Offering whose employer ceases to qualify as a Related Corporation as of the closing of a spin-off or similar transaction will be treated in the same manner as if the Participant had terminated employment (as provided in Section 7(d)).

ARTICLE 12
AMENDMENT, TERMINATION OR SUSPENSION OF THE PLAN

12. Amendment, Termination or Suspension of the Plan.

(a) Plan Amendment. The Plan Administrator may amend the Plan at any time in any respect the Plan Administrator deems necessary or advisable. However, except as provided in Section 11(a) relating to Capitalization Adjustments, shareholder approval will be required for any amendment of the Plan for which shareholder approval is required by Applicable Laws, including any amendment that either (i) increases the number of Shares available for issuance under the Plan, (ii) expands the class of individuals eligible to become Participants and receive Purchase Rights, (iii) materially increases the benefits accruing to Participants under the Plan or reduces the price at which Shares may be purchased under the Plan, (iv) extends the term of the Plan, or (v) expands the types of awards available for issuance under the Plan, but in each of (i) through (v) above only to the extent shareholder approval is required by Applicable Laws.

(b) Suspension or Termination. The Plan Administrator may suspend or terminate the Plan at any time. No Purchase Rights may be granted under the Plan while the Plan is suspended or after it is terminated.

(c) No Impairment of Rights. Any benefits, privileges, entitlements, and obligations under any outstanding Purchase Rights granted before an amendment, suspension, or termination of the Plan will not be materially impaired by any such amendment, suspension, or termination except (i) with the consent of the person to whom such Purchase Rights were granted, (ii) as necessary to comply with any laws, listing requirements, or governmental regulations (including, without limitation, the provisions of Section 423 of the Code and the regulations and other interpretive guidance issued thereunder relating to Section 423 ESPPs) including without limitation any such regulations or other guidance that may be issued or amended after the date the Plan is adopted by the Board, or (iii) as necessary to obtain or maintain any special tax, listing, or regulatory treatment. For the avoidance of doubt, the Plan Administrator may amend outstanding Purchase Rights without a Participant's consent if such amendment is necessary to ensure that the Purchase Right or the 423 Component complies with the requirements of Section 423 of the Code.

(d) Corrections and Administrative Procedures. Notwithstanding anything in the Plan or any Offering Document to the contrary, the Plan Administrator will be entitled to: (i) establish the exchange ratio applicable to amounts withheld in a currency other than U.S. dollars; (ii) permit Contributions in excess of the amount designated by a Participant in order to adjust for

mistakes in the Company's processing of properly completed Contribution elections; (iii) establish reasonable waiting and adjustment periods or accounting and crediting procedures to ensure that amounts applied toward the purchase of Shares for each Participant properly correspond with amounts withheld from the Participant's Contributions; (iv) amend any outstanding Purchase Rights or clarify any ambiguities regarding the terms of any Offering to enable the Purchase Rights to qualify under or comply with Section 423 of the Code with respect to the 423 Component; and (v) establish other limitations or procedures as the Plan Administrator determines in its sole discretion advisable that are consistent with the Plan. The actions of the Plan Administrator pursuant to this paragraph will not be considered to alter or impair any Purchase Rights granted under an Offering as they are part of the initial terms of each Offering and the Purchase Rights granted under each Offering.

ARTICLE 13
TAX MATTERS

13. Tax Matters.

(a) Section 409A of the Code. Purchase Rights granted under the 423 Component are intended to be exempt from the application of Section 409A of the Code under U.S. Treasury Regulation Section 1.409A-1(b)(5)(ii). Purchase Rights granted under the Non-423 Component to U.S. taxpayers are intended to be exempt from the application of Section 409A of the Code under the short-term deferral exception and any ambiguities will be construed and interpreted in accordance with such intent. Subject to Section 13(b) below, Purchase Rights granted to U.S. taxpayers under the Non-423 Component will be subject to such terms and conditions that will permit such Purchase Rights to satisfy the requirements of the short-term deferral exception available under Section 409A of the Code, including the requirement that the shares subject to a Purchase Right be delivered within the short-term deferral period. Subject to Section 13(b) below, in the case of a Participant who would otherwise be subject to Section 409A of the Code, to the extent the Plan Administrator determines that a Purchase Right or the exercise, payment, settlement, or deferral thereof is subject to Section 409A of the Code, the Purchase Right will be granted, exercised, paid, settled, or deferred in a manner that will comply with Section 409A of the Code, including U.S. Department of Treasury regulations and other interpretive guidance issued thereunder, including, without limitation, any such regulations or other guidance that may be issued after the adoption of the Plan. Notwithstanding the foregoing, the Company will have no liability to a Participant or any other party if the Purchase Right that is intended to be exempt from or compliant with Section 409A of the Code is not so exempt or compliant or for any action taken by the Plan Administrator with respect thereto.

(b) No Guarantee of Tax Treatment. Although the Company may endeavor to (i) qualify a Purchase Right for special tax treatment under the laws of the United States or jurisdictions outside of the United States, or (ii) avoid adverse tax treatment (e.g., under Section 409A of the Code), the Company makes no representation to that effect and expressly disavows any covenant to maintain special or to avoid unfavorable tax treatment, notwithstanding anything to the contrary in this Plan, including Section 13(a) above. The Company will be unconstrained in its corporate activities without regard to the potential negative tax impact on Participants under the Plan.

(c) Tax Withholding. The Participant will make adequate provision to satisfy the Tax-Related Items withholding obligations, if any, of the Company or the applicable Designated Company which arise with respect to Participant's participation in the Plan or upon the disposition of the Shares. The Company or the Designated Company may, but will not be obligated to, withhold from the Participant's compensation or any other payments due the Participant the amount necessary to meet such withholding obligations, withholding a sufficient whole number of Shares issued following exercise having an aggregate value sufficient to pay the Tax-Related Items or withhold from the proceeds of the sale of Shares, either through a voluntary sale or a mandatory sale arranged by the Company or any other method of withholding that the Company or the Designated Company deems appropriate. The Company shall also have the authority and right to initiate, or permit a Participant to initiate, a broker-assisted sell-to-cover transaction whereby shares are sold by such broker and the proceeds of such sale are remitted to the Company or a Designated Company to satisfy tax withholding obligations. The Company or the Designated Company will have the right to take such other action as may be necessary in the opinion of the Company or a Designated Company to satisfy withholding or reporting obligations for such Tax-Related Items, and to report any information required by tax authorities in relation to an Offering. The Company shall not be required to issue any Shares under the Plan until such obligations are satisfied.

ARTICLE 14
EFFECTIVE DATE

14. Effective Date of the Plan. The Plan will become effective on the Effective Date. No Purchase Rights will be exercised unless and until the Plan has been approved by the shareholders of the Company, which approval must be within 12 months before or after the date the Plan is adopted by the Board (or, if required under Section 12(a) above, amended by the Plan Administrator). The Plan will continue in effect until terminated under Section 12(b).

ARTICLE 15
MISCELLANEOUS

15. Miscellaneous Provisions.

(a) Proceeds from the sale of Shares pursuant to Purchase Rights will constitute general funds of the Company.

(b) A Participant will not be deemed to be the holder of, or to have any of the rights of a holder with respect to, Shares subject to Purchase Rights unless and until the Participant's Shares acquired on exercise of Purchase Rights are recorded in the books of the Company (or its transfer agent).

(c) The Plan and Offering do not constitute an employment or service contract. Nothing in the Plan or in the Offering will in any way alter the at-will nature of a Participant's employment, if applicable, or be deemed to create in any way whatsoever any obligation on the part of any Participant to continue his or her employment or service relationship with the Company, a Related Corporation, or an Affiliate, or on the part of the Company, a Related Corporation, or an Affiliate to continue the employment or service of a Participant.

(d) The Plan and all determinations made and actions taken pursuant hereto shall be governed by and construed in accordance with the laws of Delaware, without regard to its principles of conflicts of laws..

(e) In the event a Participant believes that a decision by the Plan Administrator with respect to such person was arbitrary or capricious, the Participant may request arbitration with respect to such decision. The review by the arbitrator shall be limited to determining whether the Plan Administrator's decision was arbitrary or capricious. This arbitration shall be the sole and exclusive review permitted of the Plan Administrator's decision, and the Participant shall as a condition to participating in the Plan be deemed to explicitly waive any right to judicial review.

(f) If any particular provision of the Plan is found to be invalid or otherwise unenforceable, such provision will not affect the other provisions of the Plan, but the Plan will be construed in all respects as if such invalid provision were omitted.

(g) If any provision of the Plan does not comply with Applicable Laws, such provision will be construed in such a manner as to comply with Applicable Laws.

The Notes may have notations, legends or endorsements required by law, stock exchange rule or usage. Each Note will be dated the date of its authentication. The Notes shall be in denominations of $2,000 and integral multiples of $1,000 in excess thereof. If Definitive Notes are issued, they will be issued only in denominations of $2,000 principal amount and integral multiples of $1,000 in excess thereof, upon receipt by the Registrar of instructions relating thereto and any certificates and other documentation required by this Article 2.

The terms and provisions contained in the Notes will constitute, and are hereby expressly made, a part of this Indenture and the Company, the Guarantors and the Trustee, by their execution and delivery of this Indenture, expressly agree to such terms and provisions and to be bound thereby. However, to the extent any provision of any Note conflicts with the express provisions of this Indenture, the provisions of this Indenture shall govern and be controlling.

(b) Global Notes. Notes issued in global form will be substantially in the form of Exhibit A1 or A2 hereto (including the Global Note Legend thereon and the "Schedule of Exchanges of Interests in the Global Note" attached hereto). Notes issued in definitive form will be substantially in the form of Exhibit A1 hereto (but without the Global Note Legend thereon and without the "Schedule of Exchanges of Interests in the Global Note" attached thereto). Each Global Note will represent such of the outstanding Notes as will be specified therein and each shall provide that it represents the aggregate principal amount of outstanding Notes from time to time endorsed thereon and that the aggregate principal amount of outstanding Notes represented thereby may from time to time be reduced or increased, as appropriate, to reflect exchanges and redemptions. Any endorsement of a Global Note to reflect the amount of any increase or decrease in the aggregate principal amount of outstanding Notes represented thereby will be made by the Trustee or the Custodian, at the direction of the Trustee, in accordance with instructions given by the Holder thereof as required by Section 2.06 hereof.

The aggregate principal amount of the Regulation S Temporary Global Note and the Regulation S Permanent Global Note may from time to time be increased or decreased by adjustments made on the records of the Trustee and the Depositary or its nominee, as the case may be, in connection with transfers of interests therein as hereinafter provided.

Section 2.08 *Outstanding Notes.*

The Notes outstanding at any time are all the Notes authenticated by the Trustee except for those canceled by it, those delivered to it for cancellation, those reductions in the interest in a Global Note effected by the Trustee in accordance with the provisions hereof, and those described in this Section 2.08 as not outstanding. Except as set forth in Section 2.09 hereof, a Note does not cease to be outstanding because the Company or an Affiliate of the Company holds the Note; however, Notes held by the Company or a Subsidiary of the Company shall not be deemed to be outstanding for purposes of Section 3.07(a) hereof.

If a Note is replaced pursuant to Section 2.07 hereof, it ceases to be outstanding unless the Trustee receives proof satisfactory to it that the replaced Note is held by a protected purchaser.

If the principal amount of any Note is considered paid under Section 4.01 hereof, it ceases to be outstanding and interest on it ceases to accrue.

If the Paying Agent (other than the Company, a Subsidiary or an Affiliate of any thereof) holds, on a redemption date or maturity date, money sufficient to pay Notes payable on that date, then on and after that date such Notes will be deemed to be no longer outstanding and will cease to accrue interest.

Section 2.09 *Treasury Notes.*

In determining whether the Holders of the required principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Company or any Guarantor, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with the Company or any Guarantor will be disregarded and deemed not to be outstanding, except that for the purposes of determining whether the Trustee will be protected in relying on any such direction, waiver or consent, only Notes that a Responsible Officer of the Trustee actually knows are so owned will be so disregarded.

Section 2.10 *Temporary Notes.*

Until certificates representing Notes are ready for delivery, the Company may prepare and the Trustee, upon receipt of an Authentication Order, will authenticate temporary Notes. Temporary Notes will be substantially in the form of certificated Notes but may have variations that the Company considers appropriate for temporary Notes and as may be reasonably acceptable to the Trustee. Without unreasonable delay, the Company will prepare and the Trustee will authenticate definitive Notes in exchange for temporary Notes.

Holders of temporary Notes will be entitled to all of the benefits of this Indenture.

Section 2.11 *Cancellation.*

The Company at any time may deliver Notes to the Trustee for cancellation. The Registrar and Paying Agent will forward to the Trustee any Notes surrendered to them for registration of transfer, exchange or payment. The Trustee and no one else will cancel all Notes surrendered for registration of transfer, exchange, payment, replacement or cancellation and will dispose of all canceled Notes in accordance with the Trustee's then customary procedures (subject to the record retention requirements of the U.S. Exchange Act). Certification of the disposal of all canceled Notes will be delivered to the Company. The Company may not issue new Notes to replace Notes that it has paid or that have been delivered to the Trustee for cancellation, except as otherwise provided herein.

Section 2.12 *Defaulted Interest.*

If the Company defaults in a payment of interest on the Notes, it will pay the defaulted interest in any lawful manner plus, to the extent lawful, interest payable on the defaulted interest, to the Persons who are Holders on a subsequent special record date, in each case at the rate provided in the Notes and in Section 4.01 hereof. The Company will notify the Trustee in writing of the amount of defaulted interest proposed to be paid on each Note and the date of the proposed payment. The Company will fix or cause to be fixed each such special record date and payment date; *provided* that no such special record date may be less than 10 days prior to the related payment date for such defaulted interest. At least 15 days before the special record date, the Company (or, upon the written request of the Company, the Trustee in the name and at the expense of the Company) will mail or cause to be mailed to Holders a notice that states the special record date, the related payment date and the amount of such interest to be paid.

ARTICLE 3.
REDEMPTION AND PREPAYMENT

Section 3.01 *Notices to Trustee.*

If the Company elects to redeem Notes pursuant to the optional redemption provisions of Section 3.07 hereof, it must furnish to the Trustee, at least 30 days but not more than 60 days before a redemption date, an Officer's Certificate setting forth:

(1) the clause of this Indenture pursuant to which the redemption shall occur;

(2) the redemption date;

(3) the principal amount of Notes to be redeemed; and

(4) the redemption price.

Section 3.02 *Selection of Notes to Be Redeemed or Purchased.*

If less than all of the Notes are to be redeemed or purchased in an offer to purchase at any time, the Trustee will select Notes for redemption or purchase on a *pro rata* basis, by lot or by such other method as the Trustee deems fair and appropriate, unless otherwise required by law or applicable stock exchange or Depositary requirements. In the case of Global Notes issued pursuant to Article 2 hereof, the Depositary shall select Notes based on its Applicable Procedures. The Trustee shall not be liable for selections made by it in accordance with this paragraph or for the selections made by it in accordance with this paragraph or for selections made by the Depositary.

In the event of partial redemption or purchase by lot, the particular Notes to be redeemed or purchased will be selected, unless otherwise provided herein, not less than 30 nor more than 60 days prior to the redemption or purchase date by the Trustee from the outstanding Notes not previously called for redemption or purchase.

The Trustee will promptly notify the Company in writing of the Notes selected for redemption or purchase and, in the case of any Note selected for partial redemption or purchase, the principal amount thereof to be redeemed or purchased. Notes and portions of Notes selected will be in amounts of $2,000 or whole multiples of $1,000 in excess thereof; except that if all of the Notes of a Holder are to be redeemed or purchased, the entire outstanding amount of Notes held by such Holder shall be redeemed or purchased. Except as provided in the preceding sentence, provisions of this Indenture that apply to Notes called for redemption or purchase also apply to portions of Notes called for redemption or purchase.

Section 3.03 *Notice of Redemption.*

Subject to the provisions of Section 3.09 hereof, at least 30 days but not more than 60 days before a redemption date, the Company will mail or cause to be mailed, by first class mail, a notice of redemption to each Holder whose Notes are to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of this Indenture pursuant to Articles 8 or 11 hereof.

The notice will identify the Notes to be redeemed and will state:

(1) the redemption date;

(2) the redemption price;

(3) if any Note is being redeemed in part, the portion of the principal amount of such Note to be redeemed and that, after the redemption date upon surrender of such Note, a new Note or Notes in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note;

(4) the name and address of the Paying Agent;

(5) that Notes called for redemption must be surrendered to the Paying Agent to collect the redemption price;

(6) that, unless the Company defaults in making such redemption payment, interest on Notes called for redemption ceases to accrue on and after the redemption date;

(7) the paragraph of the Notes and/or Section of this Indenture pursuant to which the Notes called for redemption are being redeemed; and

(8) that no representation is made as to the correctness or accuracy of the CUSIP number, if any, listed in such notice or printed on the Notes.

At the Company's request, the Trustee will give the notice of redemption in the Company's name and at its expense; *provided, however*, that the Company has delivered to the Trustee, at least 45 days prior to the redemption date, an Officer's Certificate requesting that the Trustee give such notice and setting forth the information to be stated in such notice as provided in the preceding paragraph.

Section 3.04 *Effect of Notice of Redemption.*

Once notice of redemption is mailed in accordance with Section 3.03 hereof, Notes called for redemption become irrevocably due and payable on the redemption date at the redemption price.

Section 3.05 *Deposit of Redemption or Purchase Price.*

One Business Day prior to the redemption or purchase date, the Company will deposit with the Trustee or with the Paying Agent money sufficient to pay the redemption or purchase price of, accrued interest and Additional Amounts, if any, on all Notes to be redeemed or purchased on that date. The Trustee or the Paying Agent will promptly return to the Company any money deposited with the Trustee or the Paying Agent by the Company in excess of the amounts necessary to pay the redemption or purchase price of, accrued interest and Additional Amounts, if any, on all Notes to be redeemed or purchased.

If the Company complies with the provisions of the preceding paragraph, on and after the redemption or purchase date, interest will cease to accrue on the Notes or the portions of Notes called for redemption or purchase. If a Note is redeemed or purchased on or after an interest record date but on or prior to the related interest payment date, then any accrued and unpaid interest shall be paid to the Person in whose name such Note was registered at the close of business on such record date. If any Note called for redemption or purchase is not so paid upon surrender for redemption or purchase because of the failure of the Company to comply with the preceding paragraph, interest shall be paid on the unpaid principal, from the redemption or purchase date until such principal is paid, and to the extent lawful on any interest not paid on such unpaid principal, in each case at the rate provided in the Notes and in Section 4.01 hereof.

Section 3.06 *Notes Redeemed or Purchased in Part.*

Upon surrender of a Note that is redeemed or purchased in part, the Company will issue and, upon receipt of an Authentication Order, the Trustee will authenticate for the Holder at the expense of the Company a new Note equal in principal amount to the unredeemed or unpurchased portion of the Note surrendered.

Section 3.07 *Optional Redemption.*

(a) At any time prior to May 15, 2018, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of Notes issued under this Indenture, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 106.250% of the principal amount of the Notes redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption (subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant interest payment date), with the net cash proceeds of an Equity Offering; *provided* that

(1) at least 65% of the aggregate principal amount of the Notes originally issued under this Indenture (excluding Notes held by the Company and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and

(2) the redemption occurs within 90 days of the date of the closing of such Equity Offering.

(b) At any time prior to May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Notes redeemed, plus the Applicable Premium (as calculated by the Company) as of, and accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption, subject to the rights of Holders of the Notes on the relevant record date to receive interest due on the relevant interest payment date.

(c) Except pursuant to Section 3.07(a), Section 3.07(b) and Section 3.10 hereof, the Notes will not be redeemable at the Company's option prior to May 15, 2020.

(d) On or after May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes redeemed, to the applicable date of redemption, if redeemed during the twelve-month period beginning on May 15 of the years indicated below, subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant interest payment date:

Year	Redemption Price
2020	103.125%
2021	102.083%
2022	101.042%
2023 and thereafter	100.000%

(e) Unless the Company defaults in the payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable redemption date.

(f) Any redemption pursuant to this Section 3.07 shall be made pursuant to the provisions of Sections 3.01 through 3.06 hereof and notice may, in the Company's discretion, be subject to the satisfaction of one or more conditions precedent.

Section 3.08 *Mandatory Redemption.*

The Company is not required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

Section 3.09 *Offer to Purchase by Application of Excess Proceeds.*

In the event that, pursuant to Section 4.10 hereof, the Company is required to commence an Asset Sale Offer, it will follow the procedures specified below.

(a) The Asset Sale Offer shall be made to all Holders and all holders of other Indebtedness that is *pari passu* with the Notes containing provisions similar to those set forth in this Indenture with respect to offers to purchase, prepay or redeem with the proceeds of sales of assets. The Asset Sale Offer will remain open for a period of at least 20 Business Days following its commencement and not more than 30 Business Days, except to the extent that a longer period is required by applicable law (the "*Offer Period*"). No later than three Business Days after the termination of the Offer Period (the "*Purchase Date*"), the Company will apply all Excess Proceeds (the *"Offer Amount"*) to the purchase of Notes and such other *pari passu* Indebtedness (on a *pro rata* basis based on the principal amount of Notes and such other *pari passu* Indebtedness surrendered, if applicable) or, if less than the Offer Amount has been tendered, all Notes and other Indebtedness tendered in response to the Asset Sale Offer. Payment for any Notes so purchased will be made in the same manner as interest payments are made.

If the Purchase Date is on or after an interest record date and on or before the related interest payment date, any accrued and unpaid interest and Additional Amounts, if any, will be paid to the Person in whose name a Note is registered at the close of business on such record date, and no additional interest will be payable to Holders who tender Notes pursuant to the Asset Sale Offer.

(b) Upon the commencement of an Asset Sale Offer, the Company will send, by first class mail, a notice to the Trustee and each of the Holders, with a copy to the Trustee. The notice will contain all instructions and materials necessary to enable such Holders to tender Notes pursuant to the Asset Sale Offer. The notice, which will govern the terms of the Asset Sale Offer, will state:

(1) that the Asset Sale Offer is being made pursuant to this Section 3.09 and Section 4.10 hereof and the length of time the Asset Sale Offer will remain open;

(2) the Offer Amount, the purchase price and the Purchase Date;

(3) that any Note not tendered or accepted for payment will continue to accrue interest;

(4) that, unless the Company defaults in making such payment, any Note accepted for payment pursuant to the Asset Sale Offer will cease to accrue interest after the Purchase Date;

(5) that Holders electing to have a Note purchased pursuant to an Asset Sale Offer may elect to have Notes purchased in denominations of $2,000 or an integral multiple of $1,000 in excess thereof;

(6) that Holders electing to have Notes purchased pursuant to any Asset Sale Offer will be required to surrender the Note, with the form entitled "Option of Holder to Elect Purchase" attached to the Notes completed, or transfer by book-entry transfer, to the Company, a Depositary, if appointed by the Company, or a Paying Agent at the address specified in the notice at least three days before the Purchase Date;

(7) that Holders will be entitled to withdraw their election if the Company, the Depositary or the Paying Agent, as the case may be, receives, not later than the expiration of the Offer Period, a telegram, telex, facsimile transmission or letter setting forth the name of the Holder, the principal amount of the Note the Holder delivered for purchase and a statement that such Holder is withdrawing his election to have such Note purchased;

(8) that, if the aggregate principal amount of Notes and other *pari passu* Indebtedness surrendered by holders thereof exceeds the Offer Amount, the Company will select the Notes and other *pari passu* Indebtedness to be purchased on a *pro rata* basis based on the principal amount of Notes and such other *pari passu* Indebtedness surrendered (with such adjustments as may be deemed appropriate by the Company so that only Notes in denominations of $2,000, or an integral multiple of $1,000 in excess thereof, will be purchased); and

(9) that Holders whose Notes were purchased only in part will be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered (or transferred by book-entry transfer).

(c) On or before the Purchase Date, the Company will, to the extent lawful, accept for payment, on a *pro rata* basis to the extent necessary, the Offer Amount of Notes or portions thereof tendered pursuant to the Asset Sale Offer, or if less than the Offer Amount has been tendered, all Notes tendered, and will deliver or cause to be delivered to the Trustee the Notes properly accepted together with an Officers' Certificate stating that such Notes or portions thereof were accepted for payment by the Company in accordance with the terms of this Section 3.09. The Company, the Depositary or the Paying Agent, as the case may be, will promptly (but in any case not later than five days after the Purchase Date) mail or deliver to each tendering Holder an amount equal to the purchase price of the Notes tendered by

such Holder and accepted by the Company for purchase, and the Company will promptly issue a new Note, and the Trustee, upon written request from the Company, will authenticate and mail or deliver (or cause to be transferred by book entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Note surrendered. Any Note not so accepted shall be promptly mailed or delivered by the Company to the Holder thereof. The Company will publicly announce the results of the Asset Sale Offer on the Purchase Date.

Other than as specifically provided in this Section 3.09, any purchase pursuant to this Section 3.09 shall be made pursuant to the provisions of Sections 3.01 through 3.06 hereof.

Section 3.10 *Redemption for Changes in Taxes*

(a) The Company may redeem the Notes, in whole but not in part, at its discretion at any time upon giving not less than 30 nor more than 60 days' prior notice to the Holders (which notice will be irrevocable and given in accordance with Section 3.03 hereof), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to but not including the date fixed by the Company for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, the Company is or would be required to pay Additional Amounts, and the Company cannot avoid any such payment obligation by taking reasonable measures available (including, for the avoidance of doubt, the appointment of a new Paying Agent but excluding the reincorporation or reorganization of the Company or any Guarantor), and the requirement arises as a result of:

(1) any change in, or amendment to, the laws or treaties (or any regulations, or rulings promulgated thereunder) of the relevant Tax Jurisdiction (other than Russia or any political subdivision thereof or therein) affecting taxation which change or amendment becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change or amendment has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under this Indenture); or

(2) any change in, or amendment to, the existing official published position or the introduction of an official position regarding the application, administration or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction or a change in published practice), which change, amendment or official position becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change, amendment or official position has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under this Indenture).

(b) In the case of Additional Amounts required to be paid as a result of the Company conducting business other than in the place of its organization, such amendment or change must be announced and become effective on or after the date in which the Company begins to conduct business giving rise to the relevant withholding or deduction.

(c) The Company will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Company would be obligated to make such payment or withholding if a payment in respect of the Notes were then due and at the time such notice is given, the obligation to pay Additional Amounts must remain in effect. Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company will deliver the Trustee an opinion of independent tax counsel (which counsel shall be reasonably acceptable to the Trustee) to the effect that there has been such change or amendment which would entitle the Company to redeem the Notes hereunder. In addition, before the Company mails notice of redemption of the Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that it cannot avoid its obligation to pay Additional Amounts by the Company taking reasonable measures available to it.

(d) The Trustee will accept and shall be entitled to rely on such Officer's Certificate and Opinion of Counsel as sufficient evidence of the existence and satisfaction of the conditions as described above, in which event it will be conclusive and binding on all of the Holders.

(e) For the avoidance of doubt, the implementation of European Council Directive 2003/48/EC on any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income or any law implementing or complying with or introduced in order to conform to, such directive will not be a change or amendment for such purposes.

(f) Any redemption pursuant to this Section 3.10 shall be made pursuant to the provisions of Sections 3.01 through 3.06 hereof and notice may, in the Company's discretion, be subject to the satisfaction of one or more conditions precedent.

ARTICLE 4.
COVENANTS

Section 4.01 *Payment of Notes.*

(a) The Company will pay or cause to be paid the principal of, premium on, if any, and interest and Additional Amounts, if any, on, the Notes on the dates and in the manner provided in the Notes. Principal, premium, if any, and interest and Additional Amounts, if any, will be considered paid on the date due if the Paying Agent, if other than the Company or a Subsidiary thereof, holds as of 10:00 a.m. Eastern Time on the due date money deposited by the Company in immediately available funds and designated for and sufficient to pay all principal, premium, if any, and interest, if any, then due.

(b) The Company will pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue principal at a rate that is 1% higher than the then applicable interest rate on the Notes to the extent lawful; it will pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue installments of interest and Additional Amounts, if any (without regard to any applicable grace period), at the same rate to the extent lawful.

(c) All payments made by or on behalf of the Company or any of the Guarantors under or with respect to the Notes (whether or not in the form of Definitive Registered Notes) or any Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (i) any jurisdiction in which the Company or any Guarantor (including any successor entity), is then incorporated, engaged in business, organized or resident for tax purposes or any political subdivision or governmental authority thereof or therein or (ii) any jurisdiction from or through which payment is made by or on behalf of the Company or any Guarantor (including, without limitation, the jurisdiction of any Paying Agent) or any

political subdivision or governmental authority thereof or therein (each of (i) and (ii), a "*Tax Jurisdiction*"), will at any time be required to be made from any payments under or with respect to the Notes or any Note Guarantee, including, without limitation, payments of principal, redemption price, purchase price, interest or premium, the Company or the relevant Guarantor or other payor, as applicable, will pay such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received and retained in respect of such payments by each Holder or beneficial owner of Notes (including Additional Amounts) after such withholding, deduction or imposition will equal the respective amounts that would have been received and retained in respect of such payments in the absence of such withholding or deduction; *provided, however,* that no Additional Amounts will be payable with respect to:

(1) any Taxes, to the extent such Taxes would not have been imposed but for the Holder or the beneficial owner of the Notes (or a fiduciary, settlor, beneficiary, partner of, member or shareholder of, or possessor of a power over, the relevant Holder, if the relevant Holder is an estate, trust, nominee, partnership, limited liability company or corporation) being a citizen or resident or national of, incorporated in the relevant Tax Jurisdiction in which such Taxes are imposed or having any other present or former connection with the relevant Tax Jurisdiction other than the acquisition or holding of such Notes, the exercise or enforcement of rights under such Note or this Indenture or under a Note Guarantee or the receipt of payments in respect of such Note or a Note Guarantee;

(2) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Note for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the Holder (except to the extent that the Holder would have been entitled to Additional Amounts had the Note been presented on the last day of such 30 day period);

(3) any estate, inheritance, gift, sale, transfer, personal property or similar Taxes;

(4) any Taxes withheld, deducted or imposed on a payment to an individual and that are required to be made pursuant to European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing or complying with or introduced in order to conform to, such directive;

(5) any Taxes imposed as result of any Note presented for payment (where presentation is required) by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a member state of the European Union;

(6) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Notes or with respect to any Note Guarantee;

(7) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the Holder or beneficial owner of Notes, following the Company's reasonable written request addressed to the Holder or beneficial owner at least 60 days before any such withholding or deduction would be payable to the Holder or beneficial owner, to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the Holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the Holder or beneficial owner is legally entitled to provide such certification or documentation;

(8) any Taxes imposed or withheld by reason of the failure of the Holder or beneficial owner of the Notes to comply with the requirements of Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "*Code*"), as of the date of the Offering Memorandum (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), the U.S. Treasury Regulations issued thereunder or any official interpretation thereof or any agreement entered into pursuant to Section 1471 of the Code; or

(9) any combination of clauses (1) through (8) above.

(d) In addition to the foregoing, the Company and the Guarantors will also pay and indemnify the Holder for any present or future stamp, issue, registration, value added, transfer, court or documentary Taxes, or any other excise or property taxes, charges or similar levies (including penalties, interest and any other liabilities related thereto) which are levied by any jurisdiction on the execution, delivery, issuance, or registration of any of the Notes, this Indenture, any Note Guarantee or any other document referred to therein, or the receipt of any payments with respect thereto, or enforcement of, any of the Notes or any Note Guarantee.

(e) If the Company or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes or any Note Guarantee, the Company or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises after the 30th day prior to that payment date, in which case the Company or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificates must also set forth any other information reasonably necessary to enable the Paying Agents to pay Additional Amounts to Holders on the relevant payment date. The Company or the relevant Guarantor will provide the Trustee with documentation reasonably satisfactory to the Trustee evidencing the payment of Additional Amounts. The Trustee shall be entitled to rely absolutely on an Officer's Certificate as conclusive proof that such payments are necessary, and may conclusively presume that no payments are necessary unless and until it receives any such Officer's Certificate.

(f) The Company or the relevant Guarantor will make all withholdings and deductions (within the time period and in the minimum amount) required by law and will remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. The Company or the relevant Guarantor will use its reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld. The Company or the relevant Guarantor will furnish to the Trustee (or to a Holder upon request), within 60 days after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Company or a Guarantor, as the case may be, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other evidence of payments (reasonably satisfactory to the Trustee) by such entity.

(g) Whenever in this Indenture or the Notes there is mentioned, in any context, the payment of amounts based upon the principal amount of the Notes or of principal, interest or of any other amount payable under, or with respect to, any of the Notes or any Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

(h) The obligations described under Sections 4.01(c), (d), (e) and (f) hereof will survive any termination, defeasance or discharge of this Indenture, any transfer by a Holder or beneficial owner of its Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Company or any Guarantor is incorporated, engaged in business for tax purposes or resident for tax purposes or any jurisdiction from or through which such Person makes any payment on the Notes (or any Note Guarantee) and any political subdivision or taxing authority or agency thereof or therein having the power to tax.

Section 4.02 *Maintenance of Office or Agency.*

The Company will maintain in the Borough of Manhattan, the City of New York, an office or agency (which may be an office of the Trustee or an affiliate of the Trustee, Registrar or co-registrar) where Notes may be surrendered for registration of transfer or for exchange and where notices and demands to or upon the Company in respect of the Notes and this Indenture may be served. The Company will give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Company fails to maintain any such required office or agency or fails to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee.

The Company may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; *provided, however*, that no such designation or rescission will in any manner relieve the Company of its obligation to maintain an office or agency in the Borough of Manhattan, the City of New York for such purposes. The Company will give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

The Company hereby designates the Corporate Trust Office of the Trustee as one such office or agency of the Company in accordance with Section 2.03 hereof.

Section 4.03 *Reports.*

(a) So long as any Notes are outstanding, the Company will furnish to the Trustee:

(1) within 120 days after the end of the Company's fiscal year beginning with the fiscal year ending December 31, 2015, annual reports containing the following information with a level of detail that is substantially comparable and similar in scope to the Offering Memorandum and the following information: (A) audited consolidated balance sheet of the Company as of the end of the two most recent fiscal years and audited consolidated income statements and statements of cash flow of the Company for the three most recent fiscal years, including complete footnotes to such financial statements and the report of the independent auditors on the financial statements; (B) *pro forma* income statement and balance sheet information of the Company, together with explanatory footnotes, for any material acquisitions, dispositions or recapitalizations that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates (unless such *pro forma* information has been provided in a previous report pursuant to clause (2) or (3) below); *provided* that such *pro forma* financial information shall be provided only to the extent available without unreasonable expense; (C) an operating and financial review of the audited financial statements, including a discussion of the results of operations (including a discussion by business segment), financial condition and liquidity and capital resources, and a discussion of material commitments and contingencies and critical accounting policies; (D) a description of the business, management and shareholders of the Company, material affiliate transactions and material debt instruments; and (E) material risk factors and material recent

developments; *provided* that any item of disclosure that complies in all material respects with the requirements applicable under Form 20-F under the U.S. Exchange Act for annual reports with respect to such item will be deemed to satisfy the Company's obligations under this clause (1) with respect to such item;

(2) within 60 days following the end of each of the first three fiscal quarters in each fiscal year of the Company beginning with the fiscal quarter ended March 31, 2015, quarterly reports containing the following information: (A) an unaudited condensed consolidated balance sheet as of the end of such quarter and unaudited condensed statements of income and cash flow for the quarterly and year to date periods ending on the unaudited condensed balance sheet date, and the comparable prior year periods (which may be presented on a *pro forma* basis) for the Company, together with condensed footnote disclosure; (B) *pro forma* income statement and balance sheet information of the Company, together with explanatory footnotes, for any material acquisitions, dispositions or recapitalizations that have occurred since the beginning of the most recently completed fiscal quarter as to which such quarterly report relates (unless such *pro forma* information has been provided in a previous report pursuant to sub-clause (A) or (C) of this clause (2)); *provided* that such *pro forma* financial information shall be provided only to the extent available without unreasonable expense); (C) an operating and financial review of the unaudited financial statements, including a discussion of the consolidated financial condition and results of operations of the Company and any material change between the current quarterly period and the corresponding period of the prior year; and (D) material recent developments; and

(3) promptly after the occurrence of any material acquisition, disposition or restructuring of the Company and the Restricted Subsidiaries, taken as a whole, or any senior executive officer changes at the Company or change in auditors of the Company or any other material event that the Company announces publicly, a report containing a description of such event.

(b) Contemporaneously with the furnishing of each such report discussed above, the Company will post such report to its website or on IntraLinks or any comparable password-protected online data system, which will require a confidentiality acknowledgement (but not restrict the recipients of such information in trading of securities of the Company or its Affiliates).

(c) Within ten Business Days of the furnishing of each such report discussed above, the Company will hold a conference call related to the report. Details regarding access to such conference call will be posted at least 24 hours prior to the commencement of such call on the website, IntraLinks or other online data system on which the report is posted.

(d) The annual report required by the preceding paragraph will include a presentation either on the face of the financial statements or in footnotes thereto of the assets and liabilities and operating results of the Guarantors separate from the assets and liabilities and operating results of the non-Guarantor Subsidiaries. In addition, if the Company has designated any of its Subsidiaries as Unrestricted Subsidiaries and such Subsidiaries are Significant Subsidiaries, then the quarterly and annual financial information required by the preceding paragraphs will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, of the financial condition and results of operations of the Company and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Company.

(e) All financial statements shall be prepared in accordance with IFRS; *provided* that the Board of Directors of the Company may elect not to comply with the treatment of direct marketing and advertising costs under IAS 38, Intangible Assets, and, as determined in good faith by the Board of Directors of the Company, any other IFRS requirements inconsistent with industry practice. The

footnotes to such financial statements shall explain in reasonable detail any such non-IFRS practices used in the preparation of such financial statements. Except as provided in the second preceding sentence, all financial statements shall be prepared in accordance with IFRS on a consistent basis for the periods presented; *provided, however*, that the reports set forth in Section 4.03(a) above may, in the event of a change in applicable IFRS present earlier periods on a basis that applied to such periods, subject to the provisions of this Indenture. Except as provided for above, no report need include separate financial statements for the Company or Subsidiaries of the Company or any disclosure with respect to the results of operations or any other financial or statistical disclosure not of a type included in the Offering Memorandum.

(f) In addition, for so long as any Notes remain outstanding, the Company will furnish to the Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the U.S. Securities Act.

(g) The Trustee shall have no duty to examine any of such reports, information or documents to ascertain whether they contain the information and otherwise comply with the foregoing; the sole duty of the Trustee in respect of same being to file the same and make them available to Holders during normal business hours upon reasonable prior written request. Delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Company's compliance with any of its covenants under this Indenture (as to which the Trustee is entitled to rely exclusively on Officer's Certificates).

Section 4.04 *Compliance Certificate.*

(a) The Company and each Guarantor shall deliver to the Trustee, within 90 days after the end of each fiscal year, an Officer's Certificate stating that a review of the activities of the Company and its Subsidiaries during the preceding fiscal year has been made under the supervision of the signing Officers with a view to determining whether the Company has kept, observed, performed and fulfilled its obligations under this Indenture, and further stating, as to each such Officer signing such certificate, that to the best of his or her knowledge the Company has kept, observed, performed and fulfilled each and every covenant contained in this Indenture and is not in default in the performance or observance of any of the terms, provisions and conditions of this Indenture (or, if a Default or Event of Default has occurred, describing all such Defaults or Events of Default of which he or she may have knowledge and what action the Company is taking or proposes to take with respect thereto) and that to the best of his or her knowledge no event has occurred and remains in existence by reason of which payments on account of the principal of, premium on, if any, or interest or Additional Amounts, if any, on the Notes is prohibited or if such event has occurred, a description of the event and what action the Company is taking or proposes to take with respect thereto.

(b) So long as not contrary to the then current recommendations of the American Institute of Certified Public Accountants, the year-end financial statements delivered pursuant to Section 4.03 above shall be accompanied by a written statement of the Company's independent public accountants (who shall be a firm of established national reputation) that in making the examination necessary for certification of such financial statements, nothing has come to their attention that would lead them to believe that the Company has violated any provisions of Article 4 or Article 5 hereof or, if any such violation has occurred, specifying the nature and period of existence thereof, it being understood that such accountants shall not be liable directly or indirectly to any Person for any failure to obtain knowledge of any such violation.

(c) So long as any of the Notes are outstanding, the Company will deliver to the Trustee, within (30) thirty days upon any Officer becoming aware of any Default or Event of Default, an Officer's Certificate specifying such Default or Event of Default and what action the Company is taking or proposes to take with respect thereto.

Section 4.05 *Taxes.*

The Company will pay, and will cause each of its Subsidiaries to pay, prior to delinquency, all material taxes, assessments, and governmental levies except such as are contested in good faith and by appropriate proceedings or where the failure to effect such payment is not adverse in any material respect to the Holders of the Notes.

Section 4.06 *Stay, Extension and Usury Laws.*

The Company and each of the Guarantors covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay, extension or usury law wherever enacted, now or at any time hereafter in force, that may affect the covenants or the performance of this Indenture; and the Company and each of the Guarantors (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not, by resort to any such law, hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law has been enacted.

Section 4.07 *Restricted Payments.*

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Company's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Company's or any of its Restricted Subsidiaries' Equity Interests in their capacity as holders (other than dividends or distributions payable in Equity Interests (other than Disqualified Stock) of the Company or any of its Restricted Subsidiaries and other than dividends or distributions payable to the Company or a Restricted Subsidiary);

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Company) any Equity Interests of the Company or any direct or indirect parent entity of the Company;

(3) make any principal payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Indebtedness of the Company or any Guarantor that is expressly contractually subordinated in right of payment to the Notes or to any Note Guarantee (excluding any intercompany Indebtedness between or among the Company and any of its Restricted Subsidiaries), except (i) a payment of principal at the Stated Maturity thereof or (ii) the purchase, repurchase or other acquisition of Indebtedness purchased in anticipation of satisfying a sinking fund obligation, principal installment or scheduled maturity, in each case due within one year of the date of such purchase, repurchase or other acquisition; or

(4) make any Restricted Investment (all such payments and other actions set forth in these clauses (a)(1) through (a)(4) above being collectively referred to as "*Restricted Payments*"), unless, at the time of any such Restricted Payment:

(a) no Default or Event of Default has occurred and is continuing or would occur as a consequence of such Restricted Payment;

(b) the Company would, at the time of such Restricted Payment and after giving *pro forma* effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least $1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in Section 4.09(a) hereof; and

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Company and its Restricted Subsidiaries since October 1, 2012 (excluding Restricted Payments permitted by Sections 4.07(b)(2), (3), (4), (7) and (12) hereof), is less than the sum, without duplication, of:

(i) 50% of the Consolidated Net Income of the Company for the period (taken as one accounting period) from October 1, 2012 to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit); *plus*

(ii) 100% of the aggregate net cash proceeds and the Fair Market Value of marketable securities received by the Company since the Issue Date as a contribution to its common equity capital or from the issue or sale of Equity Interests of the Company (other than Disqualified Stock) or from the issue or sale of convertible or exchangeable Disqualified Stock of the Company or convertible or exchangeable debt securities of the Company, in each case that have been converted into or exchanged for Equity Interests of the Company (other than Equity Interests (or Disqualified Stock or debt securities) sold to a Subsidiary of the Company); *plus*

(iii) to the extent that any Restricted Investment that was made after the Issue Date is (a) sold, disposed of or otherwise cancelled, liquidated or repaid, 100% of the aggregate amount received in cash and the Fair Market Value of marketable securities received; or (b) made in an entity that subsequently becomes a Restricted Subsidiary, 100% of the Fair Market Value of the Company's Restricted Investment as of the date such entity becomes a Restricted Subsidiary; *plus*

(iv) to the extent that any Unrestricted Subsidiary of the Company designated as such after the Issue Date is redesignated as a Restricted Subsidiary, or is merged or consolidated into the Company or a Restricted Subsidiary, or all of the assets of such Unrestricted Subsidiary are transferred to the Company or a Restricted Subsidiary, in each case, after the Issue Date, the Fair Market Value of the Company's Restricted Investment in such Subsidiary as of the date of such redesignation, merger, consolidation or transfer of assets to the extent such investments reduced the restricted payments capacity under this clause (c) and were not previously repaid or otherwise reduced; *plus*

(v) 100% of any dividends or distributions received by the Company or a Restricted Subsidiary after the Issue Date from an Unrestricted Subsidiary to the extent that such dividends or distributions were not otherwise included in the Consolidated Net Income of the Company for such period (excluding, for the avoidance of doubt, repayments of, or interest payments in respect of, any Designated Proceeds Restricted Payment, any Ocean Subsidiaries Permitted Investment or the Permitted Investments pursuant to clause (16) or (17) of the definition thereof).

(b) The preceding provisions of Section 4.07(a) hereof will not prohibit:

(1) the payment of any dividend or the consummation of any redemption within 60 days after the date of declaration of the dividend or giving of the redemption notice, as the case may be, if at the date of declaration or notice, the dividend or redemption payment would have complied with the provisions of this Indenture;

(2) the making of any Restricted Payment in exchange for, or out of or with the net cash proceeds of the substantially concurrent sale (other than to a Subsidiary of the Company) of, Equity Interests of the Company (other than Disqualified Stock) or from the substantially concurrent contribution of common equity capital to the Company; *provided* that the amount of any such net cash proceeds that are utilized for any such Restricted Payment will be excluded from Section 4.07(a)(4)(c)(ii) and will not be considered to be net cash proceeds from an Equity Offering for purposes of Section 3.07 hereof;

(3) the repurchase, redemption, defeasance or other acquisition or retirement for value of Indebtedness of the Company, or any Guarantor that is contractually subordinated to the Notes or to any Note Guarantee with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness;

(4) so long as no Default or Event of Default has occurred and is continuing, the repurchase, redemption or other acquisition or retirement for value of any Equity Interests of the Company or any Restricted Subsidiary held by any current or former officer, director, employee or consultant of the Company or any of its Restricted Subsidiaries pursuant to any equity subscription agreement, stock option agreement, restricted stock grant, shareholders' agreement or similar agreement; *provided* that the aggregate price paid for all such repurchased, redeemed, acquired or retired Equity Interests may not exceed $1.0 million in the aggregate in any twelvemonth period with unused amounts being carried over to any subsequent twelve-month period subject to a maximum aggregate amount of $2.0 million being available in any twelve month period; and *provided, further,* that such amount in any twelve-month period may be increased by an amount not to exceed the cash proceeds from the sale of Equity Interests of the Company or a Restricted Subsidiary received by the Company or a Restricted Subsidiary during such twelvemonth period, in each case to members of management, directors or consultants of the Company, any of its Restricted Subsidiaries or any of its direct or indirect parent companies to the extent the cash proceeds from the sale of Equity Interests have not otherwise been applied to the making of Restricted Payments pursuant to Section 4.07(a)(4)(c) or Section 4.07(b)(2) of this paragraph or to an optional redemption of the Notes pursuant to Section 3.07 hereof;

(5) the repurchase of Equity Interests deemed to occur upon the exercise of stock options to the extent such Equity Interests represent a portion of the exercise price of those stock options;

(6) so long as no Default or Event of Default has occurred and is continuing, the declaration and payment of regularly scheduled or accrued dividends to holders of any class or series of Disqualified Stock of the Company or any preferred stock of any Restricted Subsidiary issued on or after the Issue Date in accordance with Section 4.09 hereof;

(7) payments of cash, dividends, distributions, advances or other Restricted Payments by the Company or any of its Restricted Subsidiaries to allow the payment of cash in lieu of the issuance of fractional shares upon (i) the exercise of options or warrants or (ii) the conversion or exchange of Capital Stock of any such Person;

(8) (i) the payment of any dividend (or, in the case of any partnership or limited liability company, any similar distribution) by a Restricted Subsidiary (other than a Jones Act Compliant Entity) to the holders of its Equity Interests (other than the Company or any Restricted Subsidiary) on no more than a pro rata basis or (ii) the payment of any dividend (or, in the case of any partnership or limited liability company, any similar distribution) by a Jones Act Compliant Entity to the holders of its Equity Interests (other than the Company or any Restricted Subsidiary) in an aggregate amount not to exceed in any calendar year $2.0 million per passenger cruise vessel owned by or contracted to be owned by such Jones Act Compliant Entity;

(9) so long as no Default or Event of Default has occurred and is continuing, any Designated Proceeds Restricted Payment;

(10) the declaration and payment of regularly scheduled or accrued dividends to holders of preferred stock of the Company issued prior to the Issue Date in an aggregate amount not to exceed $150,000 in any calendar year;

(11) so long as no Default or Event of Default has occurred and is continuing, other Restricted Payments in an aggregate amount not to exceed $10.0 million since the Issue Date; or

(12) the payment of a dividend to MISA Investments Limited in an aggregate amount not to exceed $175 million, plus any amounts necessary to pay unpaid interest, premiums, fees, expenses or other amounts in connection with any redemption; the proceeds of which shall be used by MISA Investments Limited to fund the redemption of all of its outstanding 8.625% / 9.375% Senior PIK Toggle Notes due 2018.

(c) The amount of all Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment.

Section 4.08 *Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries.*

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock to the Company or any Restricted Subsidiary, or with respect to any other interest or participation in, or measured by, its profits, or pay any Indebtedness owed to the Company or any Restricted Subsidiary;

(2) make loans or advances to the Company or any Restricted Subsidiary; or

(3) sell, lease or transfer any of its properties or assets to the Company or any Restricted Subsidiary,

provided that (x) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill period to) loans or advances made to the Company or any Restricted Subsidiary to other Indebtedness incurred by the Company or any Restricted Subsidiary, shall not be deemed to constitute such an encumbrance or restriction.

(b) The restrictions in Section 4.08(a) hereof will not apply to encumbrances or restrictions existing under or by reason of:

(1) agreements governing Indebtedness, charter documents and shareholder agreement as in effect on the Issue Date and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of those agreements; *provided* that the amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings are not materially less favorable to the Holders of the Notes, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on the Issue Date (as determined in good faith by the Company);

(2) this Indenture, the Notes and the Note Guarantees;

(3) agreements governing other Indebtedness permitted to be incurred under Section 4.09 hereof and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of those agreements; *provided* that the restrictions therein are not materially less favorable to the Holders of the Notes than is customary in comparable financings (as determined in good faith by the Company) and the Company determines at the time of the incurrence of such Indebtedness that such encumbrances or restrictions will not adversely effect, in any material respect, the Company's ability to make principal or interest payments on the Notes;

(4) applicable law, rule, regulation or order or the terms of any license, authorization, concession or permit;

(5) any instrument governing Indebtedness or Capital Stock of a Person acquired by the Company or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness or Capital Stock was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired; *provided* that, in the case of Indebtedness, such Indebtedness was permitted by the terms of this Indenture to be incurred;

(6) customary non-assignment and similar provisions in contracts, leases and licenses entered into in the ordinary course of business;

(7) purchase money obligations for property acquired in the ordinary course of business and Capital Lease Obligations that impose restrictions on the property purchased or leased of the nature described in Section 4.08(a)(3) hereof;

(8) any agreement for the sale or other disposition of the Capital Stock or all or substantially all of the property and assets of a Restricted Subsidiary that restricts distributions by that Restricted Subsidiary pending its sale or other disposition;

(9) Permitted Refinancing Indebtedness; *provided* that the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;

(10) Liens permitted to be incurred under Section 4.12 hereof that limit the right of the debtor to dispose of the assets subject to such Liens;

(11) provisions limiting the disposition or distribution of assets or property in joint venture agreements, asset sale agreements, sale-leaseback agreements, stock sale agreements and other similar agreements (including agreements entered into in connection with a Restricted Investment) entered into with the approval of the Company's Board of Directors, which limitation is applicable only to the assets that are the subject of such agreements;

(12) restrictions on cash or other deposits or net worth imposed by customers or suppliers or required by insurance, surety or bonding companies, in each case, under contracts entered into in the ordinary course of business;

(13) any customary Productive Asset Leases for Vessels and other assets used in the ordinary course of our business; *provided* that such encumbrance or restriction only extends to the Vessel or other asset financed in such Productive Asset Lease;

(14) any Restricted Investment not prohibited by Section 4.07 hereof and any Permitted Investment;

(15) any encumbrance or restriction existing with respect to any Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary that is designated as a Restricted Subsidiary in accordance with the terms of this Indenture at the time of such designation and not incurred in contemplation of such designation, which encumbrances or restrictions are not applicable to any Person other than such Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary; *provided* that the encumbrances or restrictions are customary for the business of such Unrestricted Subsidiary and would not, at the time agreed to, be expected (as determined in good faith by the Company) to affect the ability of the Company and the Guarantors to make payments under the Notes and this Indenture;

(16) customary encumbrances or restrictions contained in agreements in connection with Hedging Obligations permitted under this Indenture; and

(17) any encumbrance or restriction existing under any agreement that extends, renews, refinances, replaces, amends, modifies, restates or supplements the agreements containing the encumbrances or restrictions in Section 4.08(b)(1) through Section 4.08(b)(16) hereof, or in this Section 4.08(b)(17); *provided* that the terms and conditions of any such encumbrances or restrictions are no more restrictive in any material respect than those under or pursuant to the agreement so extended, renewed, refinanced, replaced, amended, modified, restated or supplemented.

Section 4.09 *Incurrence of Indebtedness and Issuance of Preferred Stock.*

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, "incur") any Indebtedness (including Acquired Debt), and the Company will not and will not permit any Restricted Subsidiary to issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; *provided, however,* that the Company may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, and the Guarantors may incur Indebtedness (including Acquired Debt) or issue preferred stock, if the Fixed Charge Coverage Ratio for the Company's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or such preferred stock is issued, as the case may be, would have been at least 2.0 to 1.0, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or the preferred stock had been issued, as the case may be, at the beginning of such four-quarter period.

(b) Section 4.09(a) above will not prohibit the incurrence of any of the following items of Indebtedness (collectively, "*Permitted Debt*"):

(1) the incurrence by the Company and its Restricted Subsidiaries of Existing Indebtedness;

(2) the incurrence by the Company and any Restricted Subsidiary of Indebtedness represented by letters of credit in an aggregate principal amount at any time outstanding not to exceed the greater of $25.0 million or 5% of Total Tangible Assets (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder);

(3) the incurrence by the Company and the Guarantors of Indebtedness represented by the Notes issued on the Issue Date and the related Note Guarantees;

(4) the incurrence by the Company or any Restricted Subsidiary of Indebtedness represented by Attributable Debt, Capital Lease Obligations, mortgage financings or purchase money obligations, in each case, incurred for the purpose of financing all or any part of the purchase price, lease expense, rental payments or cost of design, construction, installation or improvement of property (including Vessels), plant or equipment or other assets (including Capital Stock) used in the business of the Company or any of its Restricted Subsidiaries, in an aggregate principal amount, including all Permitted Refinancing Indebtedness, incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this Section 4.09(b)(4), not to exceed $50.0 million at any time outstanding (it being understood that any such Indebtedness may be incurred after the acquisition, purchase, charter or leasing or the construction, installation or the making of any improvement with respect to any asset (including Vessels)); *provided* that the principal amount of any Indebtedness permitted under this Section 4.09(b)(4) did not in each case at the time of incurrence exceed (i) in the case of a completed Vessel, the Fair Market Value and (ii) in the case of an uncompleted Vessel, 80% of the contract price for the acquisition of such Vessel, as determined on the date on which the agreement for construction of such Vessel was entered into by the Company or its Restricted Subsidiary, plus any other Ready for Sea Cost of such Vessel;

(5) the incurrence by the Company, any Guarantor or any Jones Act Compliant Entity of Indebtedness in connection with New Vessel Financings in an aggregate principal amount at any one time outstanding, including all Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred under this Section 4.09(b)(5), not exceeding the New Vessel Aggregate Secured Debt Cap as calculated on the date of the relevant incurrence under this Section 4.09(b)(5);

(6) Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, defease or discharge any Indebtedness (other than intercompany Indebtedness) that was permitted by this Indenture to be incurred under Section 4.09(a) or Sections 4.09(b)(1) or (b)(3) hereof or this Section 4.09(b)(6);

(7) the incurrence by the Company or any Restricted Subsidiary of intercompany Indebtedness between or among the Company or any Restricted Subsidiary; *provided* that:

(a) if the Company or any Guarantor is the obligor on such Indebtedness and the payee is not the Company or a Guarantor, such Indebtedness must be unsecured and ((i) except in respect of the intercompany current liabilities incurred in the ordinary course of business in connection with the cash management operations of the Company and its Restricted Subsidiaries and (ii) only to the extent legally permitted (the Company and its Restricted Subsidiaries having completed all procedures required in the reasonable judgment of directors of officers of the obligee or obligor to protect such Persons from any penalty or civil or criminal liability in connection with the subordination of such Indebtedness)) expressly subordinated to the prior payment in full in cash of all Obligations then due with respect to the Notes, in the case of the Company, or the Note Guarantee, in the case of a Guarantor; and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Company or a Restricted Subsidiary and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Company or a Restricted Subsidiary, will be deemed, in each case, to constitute an incurrence of such Indebtedness by the Company or such Restricted Subsidiary, as the case may be, that was not permitted by this Section 4.09(b)(7);

(8) the issuance by any Restricted Subsidiary to the Company or to any of its Restricted Subsidiaries of preferred stock; *provided* that:

(a) any subsequent issuance or transfer of Equity Interests that results in any such preferred stock being held by a Person other than the Company or a Restricted Subsidiary; and

(b) any sale or other transfer of any such preferred stock to a Person that is not either the Company or a Restricted Subsidiary, will be deemed, in each case, to constitute an issuance of such preferred stock by such Restricted Subsidiary that was not permitted by this Section 4.09(b)(8);

(9) the incurrence by the Company or any Restricted Subsidiary of Hedging Obligations in the ordinary course of business and not for speculative purposes;

(10) the Guarantee by the Company or any Guarantor of Indebtedness of the Company, or any Guarantor or any Jones Act Compliant Entity to the extent that the guaranteed Indebtedness was permitted to be incurred by another provision of this Section 4.09; *provided* that if the Indebtedness being guaranteed is subordinated to or *pari passu* with the Notes or a Note Guarantee, then the Guarantee must be subordinated or *pari passu*, as applicable, to the same extent as the Indebtedness guaranteed;

(11) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness (i) in respect of workers' compensation claims, self-insurance obligations, captive insurance companies, bankers' acceptances, performance and surety bonds in the ordinary course of business; (ii) in respect of letters of credit, surety, performance or appeal bonds, completion guarantees, judgment, advance payment, customs, VAT or other tax guarantees or similar instruments issued in the ordinary course of business of such Person or consistent with industry practice (including as required by any governmental authority) and not in connection with the borrowing of money, including letters of credit or similar instruments in respect of self-insurance and workers compensation obligations; *provided, however,* that upon the drawing of such letters of credit or other instrument, such obligations are reimbursed within 30 days following such drawing; (iii) arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently drawn against insufficient funds, so long as such Indebtedness is covered within 30 days; and (iii) consisting of (x) the financing of insurance premiums or (y) take-or-pay obligations contained in supply agreements, in each case, in the ordinary course of business;

(12) Indebtedness of any Person outstanding on the date on which such Person becomes a Restricted Subsidiary or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Company or any Restricted Subsidiary (other than Indebtedness Incurred to provide all or any portion of the funds used to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Company or a Restricted Subsidiary); *provided, however*, with respect to this Section 4.09(b)(12), that at the time of the acquisition or other transaction pursuant to which such Indebtedness was deemed to be incurred the Company would have been able to incur $1.00 of additional Indebtedness pursuant to Section 4.09(a) hereof after giving effect to the incurrence of such Indebtedness pursuant to this Section 4.09(b)(12);

(13) Indebtedness arising from agreements of the Company or a Restricted Subsidiary providing for customary indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Equity Interests of a Subsidiary, *provided* that the maximum liability of the Company and its Restricted Subsidiaries in respect of all such Indebtedness shall at no time exceed the gross proceeds, including the Fair Market Value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Company and its Restricted Subsidiaries in connection with such disposition;

(14) the incurrence by the Company or any Restricted Subsidiary of Indebtedness in the form of Unearned Customer Deposits and advance payments received in the ordinary course of business from customers for goods and services purchased in the ordinary course of business;

(15) Indebtedness of the Company or any Restricted Subsidiary incurred in connection with credit card processing arrangements entered into in the ordinary course of business;

(16) the incurrence by the Company or any Restricted Subsidiary of Indebtedness to finance the replacement (through construction or acquisition) of a Vessel upon the total loss, destruction, condemnation, confiscation, requisition, seizure or forfeiture of, or other taking of title or use of, such Vessel (collectively, a "*Total Loss*") in an aggregate amount no greater than the Ready for Sea Cost for such replacement Vessel, in each case less all compensation, damages and other payments (including insurance proceeds other than in respect of business interruption insurance) received by the Company or any of its Restricted Subsidiaries from any Person in connection with such Total Loss in excess of amounts actually used to repay Indebtedness secured by the Vessel subject to such Total Loss and any costs and expenses incurred by the Company or any of its Restricted Subsidiaries in connection with such Total Loss;

(17) the incurrence by the Company or any Restricted Subsidiary of Indebtedness in relation to (i) regular maintenance required on any of the Vessels owned or chartered by the Company or any of its Restricted Subsidiaries, and (ii) any expenditures that are, or are reasonably expected to be, recoverable from insurance on such Vessels; and

(18) the incurrence of Indebtedness by the Company or any Subsidiary of the Company that is a Restricted Subsidiary of additional Indebtedness in an aggregate principal amount (or accreted value, as applicable) at any time outstanding, including all Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this Section 4.09(b)(18), not to exceed $5.0 million.

(c) Neither the Company nor any Guarantor will incur any Indebtedness (including Permitted Debt) that is contractually subordinated in right of payment to any other Indebtedness of the Company or such Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the Notes and the applicable Note Guarantee on substantially identical terms; *provided, however,* that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Company or any Guarantor solely by virtue of being unsecured.

(d) For purposes of determining compliance with this Section 4.09, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in Section 4.09(b)(1) through Section 4.09(b)(18) above, or is entitled to be incurred pursuant to Section 4.09(a) hereof, the Company, in its sole discretion, will be permitted to classify such item of Indebtedness on the date of its incurrence and only be required to include the amount and type of such Indebtedness in one of such clauses and will be permitted on the date of such incurrence to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in Section 4.09(a) and Section 4.09(b) hereof and from time to time to reclassify all or a portion of such item of Indebtedness, in any manner that complies with this Section 4.09.

(e) The accrual of interest or preferred stock dividends, the accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, the reclassification of preferred stock as Indebtedness due to a change in accounting principles, and the payment of dividends on preferred stock or Disqualified Stock in the form of additional shares of the same class of preferred stock or Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of preferred stock or Disqualified Stock for purposes of this Section 4.09; *provided,* in each such case, that the amount of any such accrual, accretion or payment is included in the Fixed Charges of the Company as accrued. For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a different currency shall be utilized, calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred.

(f) Notwithstanding any other provision of this Section 4.09, the maximum amount of Indebtedness that the Company or any Restricted Subsidiary may incur pursuant to this Section 4.09 shall not be deemed to be exceeded solely as a result of fluctuations in exchange rates or currency values.

(g) The amount of any Indebtedness outstanding as of any date will be:

(1) in the case of any Indebtedness issued with original issue discount, the amount of the liability in respect thereof determined in accordance with IFRS;

(2) the principal amount of the Indebtedness, in the case of any other Indebtedness; and

(3) in respect of Indebtedness of another Person secured by a Lien on the assets of the specified Person, the lesser of:

(a) the Fair Market Value of such assets at the date of determination; and

(b) the amount of the Indebtedness of the other Person.

Section 4.10 *Asset Sales.*

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration received in the Asset Sale by the Company or such Restricted Subsidiary is in the form of cash, Cash Equivalents or Replacement Assets or a combination thereof. For purposes of this provision, each of the following will be deemed to be cash:

(a) any liabilities, as recorded on the balance sheet of the Company or any Restricted Subsidiary (other than contingent liabilities), that are assumed by the transferee of any such assets and as a result of which the Company and its Restricted Subsidiaries are no longer obligated with respect to such liabilities or are indemnified against further liabilities;

(b) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of the Asset Sale, to the extent of the cash or Cash Equivalents received in that conversion;

(c) any Capital Stock or assets of the kind referred to in Section 4.10(b)(2) or Section 4.10(b)(4) hereof;

(d) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Sale, to the extent that the Company and each other Restricted Subsidiary are released from any Guarantee of such Indebtedness in connection with such Asset Sale;

(e) consideration consisting of Indebtedness of the Company or any Guarantor received from Persons who are not the Company or any Restricted Subsidiary; and

(f) consideration other than cash, Cash Equivalents or Replacement Assets received by the Company or any Restricted Subsidiary in Asset Sales with a Fair Market Value not exceeding $10.0 million in the aggregate since the Issue Date.

(b) Within 360 days after the receipt of any Net Proceeds from an Asset Sale, the Company (or the applicable Restricted Subsidiary, as the case may be) may apply such Net Proceeds:

(1) to purchase the Notes pursuant to an offer to all Holders of Notes at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to (but not including) the date of purchase (a "*Notes Offer*");

(2) to acquire all or substantially all of the assets of, or any Capital Stock of, another Permitted Business, if, after giving effect to any such acquisition of Capital Stock, the Permitted Business is or becomes a Restricted Subsidiary;

(3) to make a capital expenditure;

(4) to acquire other assets (other than Capital Stock) not classified as current assets under IFRS that are used or useful in a Permitted Business;

(5) to repurchase, prepay, redeem or repay Indebtedness (a) of a Restricted Subsidiary which is not a Guarantor, or Indebtedness of any Guarantor that is secured by a Lien on such assets or (b) which is *pari passu* in right of payment with the Notes or any Note Guarantee; *provided, however*, that if the Company or a Restricted Subsidiary shall so repurchase, prepay, redeem, or repay Indebtedness pursuant to Section 4.10(b)(5)(b), the Company will make a Notes Offer for an aggregate principal amount of Notes at least equal to the proportion that (x) the total aggregate principal amount of Notes outstanding bears to (y) the sum of the total aggregate principal amount of Notes outstanding plus the total aggregate principal amount outstanding of such *pari passu* Indebtedness; *provided, further*, that the Company shall be deemed to have satisfied its obligation to make a Notes Offer if it otherwise equally and ratably reduces obligations under the Notes through (x) open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or (y) as provided under Section 3.07 hereof; or

(6) enter into a binding commitment to apply the Net Proceeds pursuant to Section 4.10(b)(2), (b)(3) or (b)(4) above; *provided* that such binding commitment (or any subsequent commitments replacing the initial commitment that may be cancelled or terminated) shall be treated as a permitted application of the Net Proceeds from the date of such commitment until the earlier of (x) the date on which such acquisition or expenditure is consummated and (y) the 180th day following the expiration of the aforementioned 360 day period.

(c) Pending the final application of any Net Proceeds, the Company (or the applicable Restricted Subsidiary) may temporarily reduce revolving credit borrowings or otherwise invest the Net Proceeds in any manner that is not prohibited by this Indenture.

(d) Any Net Proceeds from Asset Sales that are not applied or invested as provided in Section 4.10(b) hereof (it being understood that any portion of such Net Proceeds used to make an offer to purchase Notes as described in Section 4.10(b)(1) or Section 4.10(b)(5) hereof shall be deemed to have been invested whether or not such Notes Offer is accepted) will constitute "*Excess Proceeds*". When the aggregate amount of Excess Proceeds exceeds $20.0 million, within ten Business Days thereof, the Company will make an offer (an "*Asset Sale Offer*") to all Holders of Notes and may make an offer to all holders of other Indebtedness that is *pari passu* with the Notes or any Note Guarantees with respect to offers to purchase, prepay or redeem with the proceeds of sales of assets in accordance with Section 3.09 hereof to purchase, prepay or redeem the maximum principal amount of Notes and such other *pari passu* Indebtedness (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith) that may be purchased, prepaid or redeemed out of the Excess Proceeds. The offer price for the Notes in any Asset Sale Offer will be equal to 100% of the principal amount, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of purchase, prepayment or redemption, subject to the rights of Holders of Notes on the relevant record date to receive interest due on the relevant interest payment date, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by this Indenture. If the aggregate principal amount of Notes and other *pari passu* Indebtedness tendered into (or to be prepaid or redeemed in connection with) such Asset Sale Offer exceeds the amount of Excess Proceeds, or if the aggregate amount of Notes tendered pursuant to a Notes Offer exceeds the amount of the Net Proceeds so applied, the Trustee will select the Notes and such other *pari passu* Indebtedness, if applicable, to be purchased on a pro rata basis (or in the manner described in Section 3.02 hereof), based on the amounts tendered or required to be prepaid or redeemed. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

(e) The Company will comply with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with each repurchase of Notes pursuant to a Change of Control Offer, an Asset Sale Offer or a Notes Offer. To the extent that the provisions of any securities laws or regulations conflict with Section 3.09 hereof or the Change of Control, Asset Sale or Notes Offer provisions of this Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under Section 3.09 hereof or the Change of Control, Asset Sale or Notes Offer provisions of this Indenture by virtue of such compliance.

Section 4.11 *Transactions with Affiliates.*

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries or Ocean Subsidiaries to, make any payment to or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Company (each, an "*Affiliate Transaction*") involving aggregate payments or consideration in excess of $5.0 million, unless:

(1) the Affiliate Transaction is on terms that are, taken as a whole, no less favorable to the Company or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Company or such Restricted Subsidiary or Ocean Subsidiary, as applicable, with an unrelated Person; and

(2) the Company delivers to the Trustee:

(a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of $10.0 million, a resolution of the Board of Directors of the Company set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with this Section 4.11 and that such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors of the Company (or in the event there is only one disinterested director, by such disinterested director, or, in the event there are no disinterested directors, by unanimous approval of the members of the Board of Directors of the Company); and, in addition,

(b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of $25.0 million, an opinion of an accounting, appraisal or investment banking firm of international standing, or other recognized independent expert of international standing with experience appraising the terms and conditions of the type of transaction or series of related transactions for which an opinion is required, stating that the transaction or series of related transactions is (i) fair from a financial point of view taking into account all relevant circumstances or (ii) on terms not less favorable than might have been obtained in a comparable transaction at such time on an arm's length basis from a Person who is not an Affiliate.

(b) The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of Section 4.11(a) above:

(1) any employment agreement, collective bargaining agreement, consultant, employee benefit arrangements with any employee, consultant, officer or director of the Company or any Restricted Subsidiary or Ocean Subsidiary, including under any stock option, stock appreciation rights, stock incentive or similar plans, entered into in the ordinary course of business;

(2) transactions between or among the Company and/or its Restricted Subsidiaries and transactions between or among the Ocean Subsidiaries;

(3) transactions with a Person (other than an Ocean Subsidiary or other Unrestricted Subsidiary of the Company) that is an Affiliate of the Company solely because the Company owns, directly or through a Restricted Subsidiary, an Equity Interest in, or controls, such Person;

(4) payment of reasonable and customary fees, salaries, bonuses, compensation, other employee benefits and reimbursements of expenses (pursuant to indemnity arrangements or otherwise) of Officers, directors, employees or consultants of the Company or any of its Restricted Subsidiaries or Ocean Subsidiaries;

(5) any issuance of Equity Interests (other than Disqualified Stock) of the Company to Affiliates of the Company;

(6) Restricted Payments that do not violate Section 4.07 hereof;

(7) transactions pursuant to, or contemplated by any agreement in effect on the Issue Date (including the Management Agreement) and transactions pursuant to any amendment, modification or extension to such agreement, so long as such amendment, modification or extension, taken as a whole, is not-materially more disadvantageous to the Holders of the Notes than the original agreement as in effect on the Issue Date;

(8) Permitted Investments (other than Permitted Investments as defined in clauses (3), (4), (5), (12), (15) and (17) of the definition thereof);

(9) Management Advances;

(10) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of this Indenture that are fair to the Company, the Restricted Subsidiaries or the Ocean Subsidiaries, as applicable, in the reasonable determination of the members of the Board of Directors of the Company or the senior management thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated Person;

(11) the granting and performance of any registration rights for the Company's Capital Stock;

(12) any contribution to the capital of the Company;

(13) pledges of Equity Interests of Unrestricted Subsidiaries;

(14) transactions undertaken in good faith (as certified by a responsible financial or accounting officer of the Company in an Officer's Certificate) between the Company and any other Person or a Restricted Subsidiary of the Company and any other Person with which the Company or any of its Restricted Subsidiaries files a consolidated tax return or which the Company or any of its Restricted Subsidiaries is part of a group for tax purposes that are effected for the purpose of improving the consolidated tax efficiency of the Company and its Subsidiaries and not for the purpose of circumventing any provision of this Indenture; *provided* that any such tax sharing arrangement does not permit or require payments in excess of the amount of tax that would be payable by the Company and its Restricted Subsidiaries on a stand-alone basis; and

(15) (a) a repurchase or other acquisition by the Company or any Restricted Subsidiary of Equity Interests and/or preferred shares of Viking River Cruises Ltd (i) related to or arising out of the legal proceedings described under the caption "Business – Legal Proceedings" in the Offering Memorandum or any similar or related legal proceedings to which an Affiliate of the Company is a party (including a settlement or judgment in respect of any legal proceeding described in this clause (a)(i)) and (ii) that is (A) a Permitted Investment (other than Permitted Investments as defined in clauses (3), (4), (5), (12), (15) and (17) of the definition thereof); or (B) a Restricted Payment that does not violate the provisions of Section 4.07 hereof; and (b) any payment due to any party (other than an Affiliate of the Company) in connection with or as a result of any legal proceeding (or a settlement or judgment) described in clause (a) above.

Section 4.12 *Liens.*

The Company will not and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien of any kind securing Indebtedness upon any of their property or assets, now owned or hereafter acquired, except Permitted Liens, unless contemporaneously with (or prior to) the incurrence of such Lien all payments due under this Indenture and the Notes are secured on an equal and ratable basis with the obligations so secured until such time as such obligations are no longer secured by a Lien; *provided* that, if the Indebtedness secured by such Lien is subordinate or junior in right of payment to the Notes or a Note Guarantee, as the case may be, then the Lien securing such Indebtedness shall be subordinate or junior in priority to the Lien securing the Notes at least to the same extent as such Indebtedness is subordinate or junior to the Notes or a Note Guarantee, as the case may be.

Section 4.13 *Business Activities.*

The Company will not, and will not permit any of its Restricted Subsidiaries or Ocean Subsidiaries to, engage in any business other than a Permitted Business, except to such extent as would not be material to the Company and its Subsidiaries taken as a whole.

Section 4.14 *Corporate Existence.*

Subject to Article 5 hereof, the Company shall do or cause to be done all things necessary to preserve and keep in full force and effect:

(a) its corporate existence, and the corporate, partnership or other existence of each of its Subsidiaries, in accordance with the respective organizational documents (as the same may be amended from time to time) of the Company or any such Subsidiary; and

(b) the rights (charter and statutory), licenses and franchises of the Company and its Subsidiaries;

provided, however, that the Company shall not be required to preserve any such right, license or franchise, or the corporate, partnership or other existence of any of its Subsidiaries, if the Board of Directors of the Company shall determine that the preservation thereof is no longer desirable in the conduct of the business of the Company and its Subsidiaries, taken as a whole, and that the loss thereof is not adverse in any material respect to the Holders of the Notes.

Section 4.15 *Offer to Repurchase Upon Change of Control.*

(a) Upon the occurrence of a Change of Control, the Company will be required to make an offer (a "*Change of Control Offer*") to each Holder to repurchase all or any part (equal to $2,000 or an integral multiple of $1,000 in excess thereof) of that Holder's Notes pursuant to a Change of Control Offer on the terms set forth in this Indenture. In the Change of Control Offer, the Company will offer a payment in cash equal to 101% of the aggregate principal amount of Notes repurchased, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes repurchased to but not including the date of purchase (the "*Change of Control Payment*"), subject to the rights of Holders of Notes on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Company will mail a notice to each Holder at such Holder's registered address or otherwise deliver a notice in accordance with Section 3.03 hereof, stating that a Change of Control Offer is being made and offering to repurchase Notes on the date (the "*Change of Control Payment Date*") specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or delivered, pursuant to the procedures required by this Indenture and described in such notice. The Company will comply with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of this Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this Indenture by virtue of such compliance.

(b) On the Change of Control Payment Date, the Company will, to the extent lawful:

(1) accept for payment all Notes or portions of Notes properly tendered pursuant to the Change of Control Offer;

(2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes properly tendered; and

(3) deliver or cause to be delivered to the Trustee the Notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by the Company.

(c) The Paying Agent will promptly mail (or cause to be delivered) to each Holder which has properly tendered and so accepted the Change of Control Payment for such Notes, and the Trustee (or an authenticating agent appointed by the Company) will promptly authenticate and mail (or cause to be transferred by book-entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any. Any Note so accepted for payment will cease to accrue interest on or after the Change of Control Payment Date. The Company will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

(d) The Company will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in this Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes properly tendered and not withdrawn under the Change of Control Offer, or (2) a notice of redemption has been given pursuant Section 3.07 hereof, unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

(e) The Company's obligations under this Section 4.15, in accordance with Section 9.02, may be waived or modified with the consent of the Holders of a majority in principal amount of the Notes prior to the occurrence of the Change of Control.

Section 4.16 *Limitation on Sale and Leaseback Transactions.*

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any sale and leaseback transaction; *provided* that the Company or any Restricted Subsidiary may enter into a sale and leaseback transaction if:

(a) The Company or that Restricted Subsidiary, as applicable, could have (a) incurred Indebtedness in an amount equal to the Attributable Debt relating to such sale and leaseback transaction under the Fixed Charge Coverage Ratio test in Section 4.09(a) hereof and (b) incurred a Lien to secure such Indebtedness pursuant to Section 4.12 hereof;

(b) the gross cash proceeds of that sale and leaseback transaction are at least equal to the Fair Market Value of the property that is the subject of that sale and leaseback transaction; and

(c) the transfer of assets in that sale and leaseback transaction is permitted by, and the Company applies the proceeds of such transaction in compliance with, Section 4.10 hereof.

Section 4.17 *Limitation on Issuance of Guarantees of Indebtedness.*

(a) The Company will not permit any of its Restricted Subsidiaries that are not Guarantors on the Issue Date, directly or indirectly, to Guarantee the payment of any other Indebtedness of the Company or its Restricted Subsidiaries unless such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture providing for the Note Guarantee of the payment of the Notes by such Restricted Subsidiary which Guarantee will be senior to or *pari passu* with such Restricted Subsidiary's guarantee of such other Indebtedness and with respect to any guarantee of Indebtedness that is expressly contractually subordinated in right of payment to the Notes or to any Note Guarantee by such Restricted Subsidiary, any such guarantee will be subordinated to such Restricted Subsidiary's Note Guarantee at least to the same extent as such subordinated Indebtedness is subordinated to the Notes.

(b) Section 4.17(a) above will not be applicable to any guarantees of any Restricted Subsidiary:

(1) existing on the Issue Date;

(2) that existed at the time such Person became a Restricted Subsidiary if the guarantee was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary; or

(3) arising solely due to granting of a Permitted Lien that would not otherwise constitute a guarantee of Indebtedness of the Company or any Guarantor.

(c) Each additional Note Guarantee will be limited as necessary to recognize certain defenses generally available to guarantors or sureties (including those that relate to fraudulent conveyance or transfer, voidable preference, financial assistance, corporate purpose, capital maintenance or similar laws, regulations or defenses affecting the rights of creditors generally) or other considerations under applicable law.

(d) Notwithstanding the foregoing, the Company shall not be obligated to cause such Restricted Subsidiary to guarantee the Notes to the extent that such guarantee by such Restricted Subsidiary would reasonably be expected to give rise to or result in (i) any liability for the officers, directors or shareholders of such Restricted Subsidiary, (ii) any violation of applicable law that cannot be prevented or otherwise avoided through measures reasonably available to the Company or the Restricted Subsidiary or (iii) any significant cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out-of-pocket expenses and other than reasonable expenses incurred in connection with any governmental or regulatory filings required as a result of, or any measures pursuant to clause (ii) undertaken in connection with such Note Guarantee which cannot be avoided through measures reasonably available to the Company or the Restricted Subsidiary.

Section 4.18 *Payments for Consent.*

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms of the provisions of this Indenture or the Notes unless such consideration is offered to be paid and is paid to all Holders of the Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement. Notwithstanding the foregoing, the Company and its Restricted Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of this Indenture, to exclude Holders of Notes in any jurisdiction where (A)(i) the solicitation of such consent, waiver or amendment, including in

connection with an offer to purchase for cash, or (ii) the payment of the consideration therefor would require the Company or any of its Restricted Subsidiaries to file a registration statement, prospectus or similar document under any applicable securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states), which the Company in its sole discretion determines (acting in good faith) would be materially burdensome (it being understood that it would not be materially burdensome to file the consent document(s) used in other jurisdictions, any substantially similar documents or any summary thereof with the securities or financial services authorities in such jurisdiction); or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Section 4.19 *[Reserved]*.

Section 4.20 *Designation of Restricted and Unrestricted Subsidiaries.*

The Board of Directors of the Company may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate Fair Market Value of all outstanding Investments owned by the Company and its Restricted Subsidiaries in the Subsidiary designated as an Unrestricted Subsidiary will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under Section 4.07 hereof or under one or more clauses of the definition of Permitted Investments, as determined by the Company. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Company may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if that redesignation would not cause a Default.

Any designation of a Subsidiary of the Company as an Unrestricted Subsidiary will be evidenced to the Trustee by filing with the Trustee a copy of a resolution of the Board of Directors giving effect to such designation and an Officer's Certificate certifying that such designation complied with the preceding conditions and was permitted by Section 4.07 hereof. If, at any time, any Unrestricted Subsidiary would fail to meet the preceding requirements as an Unrestricted Subsidiary, it will thereafter cease to be an Unrestricted Subsidiary for purposes of this Indenture and any Indebtedness of such Subsidiary will be deemed to be incurred by a Restricted Subsidiary as of such date and, if such Indebtedness is not permitted to be incurred as of such date under Section 4.09 hereof, the Company will be in default of such covenant. The Board of Directors of the Company may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that such designation will be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of any outstanding Indebtedness of such Unrestricted Subsidiary, and such designation will only be permitted if (1) such Indebtedness is permitted under Section 4.09 hereof, calculated on a *pro forma* basis as if such designation had occurred at the beginning of the applicable reference period; and (2) no Default or Event of Default would be in existence following such designation.

Section 4.21 *Calculation of Original Issue Discount.*

If any Additional Notes are issued with "original issue discount," the Company shall file with the Trustee promptly at the end of each calendar year (a) a written notice specifying the amount of original issue discount (including daily rates and accrual periods) accrued on outstanding Notes as of the end of such year and (b) such other specific information relating to such original issue discount as may be required to be provided to the Trustee or to the holders of the Notes pursuant to the Internal Revenue Code of 1986, as amended, and the regulations issued thereunder.

(5) the Company delivers to the Trustee an Officer's Certificate and Opinion of Counsel, in each case, stating that such consolidation, merger or transfer and, in the case in which a supplemental indenture is entered into, such supplemental indenture, comply with this covenant and that all conditions precedent provided for in this Indenture relating to such transaction have been complied with.

(b) In addition, the Company will not, directly or indirectly, lease all or substantially all of the properties or assets of it and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to any other Person.

Section 5.02 *Successor Corporation Substituted.*

Upon any consolidation or merger, or any sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the properties or assets of the Company in a transaction that is subject to, and that complies with the provisions of, Section 5.01 hereof, the successor Person formed by such consolidation or into or with which the Company is merged or to which such sale, assignment, transfer, lease, conveyance or other disposition is made shall succeed to, and be substituted for (so that from and after the date of such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition, the provisions of this Indenture referring to the "Company" shall refer instead to the successor Person and not to the Company), and may exercise every right and power of the Company under this Indenture with the same effect as if such successor Person had been named as the Company herein; *provided, however*, that the predecessor Company shall not be relieved from the obligation to pay the principal of, premium on, if any, and interest and Additional Amounts, if any, on, the Notes except in the case of a sale of all of the Company's assets in a transaction that is subject to, and that complies with the provisions of, Section 5.01 hereof.

ARTICLE 6.

(b) results in the acceleration of such Indebtedness prior to its express maturity, and, in each case, the principal amount of any such Indebtedness that is due and has not been paid, together with the principal amount of any other such Indebtedness that is due and has not been paid or the maturity of which has been so accelerated, aggregates $25.0 million or more;

(6) failure by the Company, the Company or any Restricted Subsidiary that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary, to pay final judgments entered by a court or courts of competent jurisdiction aggregating in excess of $25.0 million, which judgments shall not have been discharged or waived and there shall have been a period of 60 consecutive days during which a stay of enforcement of such judgment or order, by reason of an appeal, waiver or otherwise, shall not have been in effect;

Section 6.02 *Acceleration.*

In the case of an Event of Default specified in clause (8) or (9) of Section 6.01 hereof, with respect to the Company, any Restricted Subsidiary that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary, all outstanding Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee may, or the Holders of at least 25% in aggregate principal amount of the then outstanding Notes may and the Trustee shall, if so directed by the Holders of at least 25% in aggregate principal amount of the then outstanding Notes, declare all the Notes to be due and payable immediately.

Section 6.03 *Other Remedies.*

If an Event of Default occurs and is continuing, the Trustee may pursue any available remedy to collect the payment of principal of, premium on, if any, or interest or Additional Amounts, if any, on the Notes or to enforce the performance of any provision of the Notes or this Indenture.

The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. A delay or omission by the Trustee or any Holder in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of or acquiescence in the Event of Default. All remedies are cumulative to the extent permitted by law.

Section 6.04 *Waiver of Past Defaults and Rescission of Acceleration.*

(a) The Holders of not less than a majority in aggregate principal amount of the Notes outstanding by notice to the Trustee may, on behalf of the Holders of all outstanding Notes, rescind acceleration or waive any existing Default or Event of Default and its consequences under this Indenture, except a continuing Default or Event of Default:

(1) in the payment of the principal or premium, if any, any Additional Amounts or interest on any Note held by a non-consenting Holder (which may only be waived with the consent of each Holder affected), or

(2) for any Note held by a non-consenting Holder, in respect of a covenant or provision which under this Indenture cannot be modified or amended without the consent of the Holder of each Note affected by such modification or amendment.

(b) Upon any such rescission or waiver, such Default shall cease to exist and any Event of Default arising therefrom shall be deemed to have been cured for every purpose under this Indenture, but no such waiver shall extend to any subsequent or other Default or impair any right consequent thereon.

Section 6.05 *Control by Majority.*

Holders of a majority in aggregate principal amount of the then outstanding Notes may direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee or exercising any trust or power conferred on it. However, the Trustee may refuse to follow any direction that conflicts with applicable law or this Indenture, that the Trustee determines may be unduly prejudicial to the rights of other Holders of the Notes (it being understood that the Trustee does not have an affirmative duty to ascertain whether or not any such directions are unduly prejudicial to such Holders) or that may involve the Trustee in personal liability.

Section 6.06 *Limitation on Suits.*

No Holder may pursue any remedy with respect to this Indenture or the Notes unless:

(1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;

(2) Holders of at least 25% in aggregate principal amount of the then outstanding Notes make a written request to the Trustee to pursue the remedy;

(3) such Holder or Holders have offered and, if requested, provide to the Trustee reasonable security or indemnity against any loss, liability or expense;

(4) the Trustee does not comply with such request within 60 days after receipt of the request and the offer of security or indemnity; and

(5) Holders of a majority in aggregate principal amount of the then outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

A Holder may not use this Indenture to prejudice the rights of another Holder or to obtain a preference or priority over another Holder.

Section 6.07 *Rights of Holders of Notes to Receive Payment.*

Notwithstanding any other provision of this Indenture, the contractual right expressly set forth in this Indenture and the Notes of any Holder to receive payment of principal of, premium on, if any, or interest or Additional Amounts, if any, on any Note, on or after the respective due dates expressed in the Note (including in connection with an offer to purchase), or to bring suit for the enforcement of any such payment on or after such respective dates, shall not be changed without the consent of such Holder. For the avoidance of doubt, no amendment to, or deletion of, Sections 4.02 through 4.21, inclusive, hereof, shall be deemed to change any Holder's right to receive payments of principal of, premium on, if any, or interest of Additional Amounts, if any, on the Notes.

Section 6.08 *Collection Suit by Trustee.*

If an Event of Default specified in Section 6.01(1) or (2) hereof occurs and is continuing, the Trustee is authorized to recover judgment in its own name and as trustee of an express trust against the Company for the whole amount of principal of, premium on, if any, and interest and Additional Amounts, if any, remaining unpaid on the Notes and interest on overdue principal and, to the extent lawful, interest and such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel.

Section 6.09 *Trustee May File Proofs of Claim.*

The Trustee is authorized to file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel) and the Holders of the Notes allowed in any judicial proceedings relative to the Company (or any other obligor upon the Notes), its creditors or its property and shall be entitled and empowered to collect, receive and distribute any money or other property payable or deliverable on any such claims and any custodian in any such judicial proceeding is hereby authorized by each Holder to make such payments to the Trustee, and in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof. To the extent that the payment of any such compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof out of the estate in any such proceeding, shall be denied for any reason, payment of the same shall be secured by a Lien on, and shall be paid out of, any and all distributions, dividends, money, securities and other properties that the Holders may be entitled to receive in such proceeding whether in liquidation or under any plan of reorganization or arrangement or otherwise. Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Holder, or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding.

Section 6.10 *Priorities.*

If the Trustee collects any money pursuant to this Article 6 or, after an Event of Default, any money or other property is distributable in respect of the Company's obligations under this Indenture, such money or property shall be paid in the following order:

First: to the Trustee (including any predecessor trustee), its agents and attorneys for amounts due under Section 7.07 hereof, including payment of all compensation, expenses and liabilities incurred, and all advances made, by the Trustee and the costs and expenses of collection;

Second: to Holders of Notes for amounts due and unpaid on the Notes for principal, premium, if any, and interest and Additional Amounts, if any, ratably, without preference or priority of any kind, according to the amounts due and payable on the Notes for principal, premium, if any, and interest and Additional Amounts, if any, respectively; and

Third: to the Company or to such party as a court of competent jurisdiction shall direct.

The Trustee may fix a record date and payment date for any payment to Holders of Notes pursuant to this Section 6.10.

Section 6.11 *Undertaking for Costs.*

In any suit for the enforcement of any right or remedy under this Indenture or in any suit against the Trustee for any action taken or omitted by it as a Trustee, a court in its discretion may require the filing by any party litigant in the suit of an undertaking to pay the costs of the suit, and the court in its discretion may assess reasonable costs, including reasonable attorneys' fees, against any party litigant in the suit, having due regard to the merits and good faith of the claims or defenses made by the party litigant. This Section 6.11 does not apply to a suit by the Trustee, a suit by a Holder pursuant to Section 6.07 hereof, or a suit by Holders of more than 10% in aggregate principal amount of the then outstanding Notes.

ARTICLE 7.
TRUSTEE

Section 7.01 *Duties of Trustee.*

(a) If an Event of Default has occurred and is continuing, the Trustee will exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

(b) Except during the continuance of an Event of Default:

(1) the duties of the Trustee will be determined solely by the express provisions of this Indenture and the Trustee need perform only those duties that are specifically set forth in this Indenture and no others, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and

(2) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture. However, in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Trustee, the Trustee will be under a duty to examine the same to determine whether or not they conform to the requirements of this Indenture (but need not confirm or investigate the accuracy of mathematical calculations or other facts, statements, opinions or conclusions stated therein).

(c) The Trustee may not be relieved from liabilities for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(1) this paragraph does not limit the effect of paragraphs (b) and (e) of this Section 7.01;

(2) the Trustee will not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved that the Trustee was negligent in ascertaining the pertinent facts; and

(3) the Trustee will not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it pursuant to Section 6.05 hereof.

(d) Whether or not therein expressly so provided, every provision of this Indenture that in any way relates to the Trustee is subject to this Section 7.01.

(e) No provision of this Indenture will require the Trustee to expend or risk its own funds or incur any liability. The Trustee will be under no obligation to exercise any of its rights or powers under this Indenture at the request of any Holders, unless such Holder has offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

(f) The Trustee will not be liable for interest on, or to invest, any money received by it except as the Trustee may agree in writing with the Company. Money held in trust by the Trustee need not be segregated from other funds except to the extent required by law.

Section 7.02 *Rights of Trustee.*

(a) The Trustee may conclusively rely and shall be fully protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Trustee need not investigate any fact or matter stated in the document.

(b) Before the Trustee acts or refrains from acting, it may require an Officer's Certificate or an Opinion of Counsel or both and the Trustee may conclusively rely upon such Officer's Certificate or Opinion of Counsel. The Trustee will not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or Opinion of Counsel. The Trustee may consult with counsel and the advice of such counsel or any Opinion of Counsel will be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon.

(c) The Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through its attorneys and agents and the Trustee will not be responsible for the misconduct or negligence of any agent or attorney appointed with due care by it hereunder.

(d) The Trustee will not be liable for any action it takes, suffers or omits to take in good faith that it believes to be authorized or within the discretion or rights or powers conferred upon it by this Indenture.

(e) Unless otherwise specifically provided in this Indenture, any demand, request, direction or notice from the Company will be sufficient if signed by an Officer of the Company.

(f) The Trustee will be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee indemnity and security satisfactory to the Trustee against the losses, liabilities and expenses that might be incurred by it in compliance with such request or direction.

(g) The Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, approval, appraisal, bond, debenture, note, other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Company, personally or by agent or attorney at the sole cost of the Company and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation.

(h) The Trustee shall not be deemed to have notice or be charged with knowledge of any Default or Event of Default unless written notice of such Default or Event of Default from the Company or any Holder is received by a Responsible Officer of the Trustee at the Corporate Trust Office of the Trustee, and such notice references the Notes and this Indenture. In the absence of receipt of such notice, the Trustee may conclusively assume that there is no Default or Event of Default.

(i) The rights, privileges, protections, immunities and benefits given to the Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Trustee in each of its capacities hereunder, and each agent, custodian and other Person employed to act hereunder.

(j) The Trustee may request that the Company deliver a certificate setting forth the names of individuals and/or titles of officers authorized at such time to take specified actions pursuant to this Indenture, which certificate may be signed by any person authorized to sign an Officer's Certificate, including any person specified as so authorized in any such certificate previously delivered and not superseded.

(k) Anything in this Indenture notwithstanding, in no event shall the Trustee be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to loss of profit), even if the Trustee has been advised as to the likelihood of such loss or damage and regardless of the form of action.

(l) The Trustee shall not be responsible or liable for any failure or delay in the performance of its obligations under this Indenture arising out of or caused, directly or indirectly, by circumstances beyond its control, including, without limitation, any provision of any law or regulation or any act of any governmental authority, acts of God; earthquakes; fire; flood; terrorism; wars and other military disturbances; sabotage; epidemics; riots; interruptions; loss or malfunctions of utilities, computer (hardware or software) or communication services; accidents; labor disputes; acts of civil or military authority and governmental action.

(m) The permissive right of the Trustee to take or refrain from taking action hereunder shall not be construed as a duty.

Section 7.03 *Individual Rights of Trustee.*

The Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Company or any Affiliate of the Company with the same rights it would have if it were not Trustee. However, in the event that the Trustee acquires any conflicting interest it must eliminate such conflict within 90 days or resign. Any Agent may do the same with like rights and duties. The Trustee is also subject to Sections 7.10 and 7.11 hereof.

Section 7.04 *Trustee's Disclaimer.*

The Trustee will not be responsible for and makes no representation as to the validity, sufficiency or adequacy of this Indenture or the Notes, it shall not be accountable for the Company's use of the proceeds from the Notes or any money paid to the Company or upon the Company's direction under any provision of this Indenture, it will not be responsible for the use or application of any money received by any Paying Agent other than the Trustee, and it will not be responsible for any statement or recital herein or any statement in the Notes or any other document in connection with the sale of the Notes or pursuant to this Indenture other than its certificate of authentication. The Trustee shall not be responsible to make any calculation with respect to any matter under this Indenture. The Trustee shall have no duty to monitor or investigate the Company's compliance with or the breach of, or cause to be performed or observed, any representation, warranty or covenant made in this Indenture.

No provision of this Indenture shall be deemed to impose any duty or obligation on the Trustee to perform any act or acts, receive or obtain any interest in property or exercise any interest in property, or exercise any right, power, duty or obligation conferred or imposed on it in any jurisdiction in which it shall be illegal, or in which, as a result thereof, the Trustee shall become subject to taxation or other consequents that, in the sole determination of the Trustee, are adverse to the Trustee, or in which the Trustee shall be unqualified or incompetent in accordance with applicable law, to perform any such act or acts, to receive or obtain any such interest in property or to exercise any such right, power, duty or obligation.

The Trustee, in each of its capacities, including without limitation, as Trustee, Paying Agent and Registrar, assumes no responsibility for the accuracy or completeness of the information concerning it or its affiliates or any other party contained in the Offering Memorandum or any of the related documents or for any failure by it or any other party to disclose events that may have occurred and may affect the significance or accuracy of such information.

Section 7.05 *Notice of Defaults.*

If a Default or Event of Default occurs and is continuing and if it is known to the Trustee, the Trustee will mail to Holders of Notes a notice of the Default or Event of Default within 90 days after it occurs. Except in the case of a Default or Event of Default in payment of principal of, premium on, if any, or interest or Additional Amounts, if any, on, any Note, the Trustee may withhold the notice if and so long as a committee of its Responsible Officers in good faith determines that withholding the notice is in the interests of the Holders of the Notes.

Section 7.06 *[Reserved].*

Section 7.07 *Compensation and Indemnity.*

(a) The Company will pay to the Trustee from time to time reasonable compensation for its acceptance of this Indenture and services hereunder. The Trustee's compensation will not be limited by any law on compensation of a trustee of an express trust. The Company will reimburse the Trustee promptly upon request for all reasonable disbursements, advances and expenses incurred or made by it in addition to the compensation for its services. Such expenses will include the reasonable compensation, disbursements and expenses of the Trustee's agents and counsel.

(b) The Company and the Guarantors will indemnify the Trustee against any and all losses, liabilities or expenses (including taxes (other than taxes based upon, measured by or determined by the income of the Trustee)) incurred by it arising out of or in connection with the acceptance or administration of its duties under this Indenture, including the costs and expenses of enforcing this Indenture against the Company and the Guarantors (including this Section 7.07) and defending itself against any claim (whether asserted by the Company, the Guarantors, any Holder or any other Person) or liability in connection with the exercise or performance of any of its powers or duties hereunder, except to the extent any such loss, liability or expense may be attributable to its negligence or willful misconduct. The Trustee will notify the Company promptly of any claim for which it may seek indemnity. Failure by the Trustee to so notify the Company will not relieve the Company or any of the Guarantors of their obligations hereunder. The Company or such Guarantor will defend the claim and the Trustee will cooperate in the defense. The Trustee may have separate counsel and the Company will pay the reasonable fees and expenses of such counsel. Neither the Company nor any Guarantor need pay for any settlement made without its consent, which consent will not be unreasonably withheld.

(c) The obligations of the Company and the Guarantors under this Section 7.07 will survive the satisfaction and discharge of this Indenture, the resignation or removal of the Trustee and the termination for any reason of this Indenture.

(d) To secure the Company's and the Guarantors' payment obligations in this Section 7.07, the Trustee will have a Lien prior to the Notes on all money or property held or collected by the Trustee, except that held in trust to pay principal of, premium on, if any, or interest or Additional Amounts, if any, on, particular Notes. Such Lien will survive the satisfaction and discharge of this Indenture, the resignation or removal of the Trustee and the termination for any reason of this Indenture.

(e) Without prejudice to its rights hereunder, when the Trustee incurs expenses or renders services after an Event of Default specified in clause (8) or (9) of Section 6.01 hereof occurs, the expenses and the compensation for the services (including the fees and expenses of its agents and counsel) are intended to constitute expenses of administration under any Bankruptcy Law or similar law.

(f) "Trustee" for purposes of this Section 7.07 shall include any predecessor Trustee; *provided, however,* that the negligence, willful misconduct or bad faith of any Trustee hereunder shall not affect the rights of any other Trustee hereunder.

Section 7.08 *Replacement of Trustee.*

(a) A resignation or removal of the Trustee and appointment of a successor Trustee will become effective only upon the successor Trustee's acceptance of appointment as provided in this Section 7.08.

(b) The Trustee may resign in writing at any time and be discharged from the trust hereby created by so notifying the Company. The Holders of a majority in aggregate principal amount of the then outstanding Notes may remove the Trustee by so notifying the Trustee and the Company in writing. The Company may remove the Trustee if:

(1) the Trustee fails to comply with Section 7.10 hereof;

(2) the Trustee is adjudged a bankrupt or an insolvent or an order for relief is entered with respect to the Trustee under any Bankruptcy Law;

(3) a custodian or public officer takes charge of the Trustee or its property; or

(4) the Trustee becomes incapable of acting.

(c) If the Trustee resigns or is removed or if a vacancy exists in the office of Trustee for any reason, the Company will promptly appoint a successor Trustee. Within one year after the successor Trustee takes office, the Holders of a majority in aggregate principal amount of the then outstanding Notes may appoint a successor Trustee to replace the successor Trustee appointed by the Company.

(d) If a successor Trustee does not take office within 30 days after the retiring Trustee resigns or is removed, the retiring Trustee, the Company, or the Holders of at least 10% in aggregate principal amount of the then outstanding Notes may petition any court of competent jurisdiction for the appointment of a successor Trustee.

(e) If the Trustee, after written request by any Holder who has been a Holder for at least six months, fails to comply with Section 7.10 hereof, such Holder may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.

(f) A successor Trustee will deliver a written acceptance of its appointment to the retiring Trustee and to the Company. Thereupon, the resignation or removal of the retiring Trustee will become effective, and the successor Trustee will have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee will mail a notice of its succession to Holders. The retiring Trustee will promptly transfer all property held by it as Trustee to the successor Trustee; *provided* all sums owing to the Trustee hereunder have been paid and subject to the Lien provided for in Section 7.07 hereof. Notwithstanding replacement of the Trustee pursuant to this Section 7.08, the Company's obligations under Section 7.07 hereof will continue for the benefit of the retiring Trustee.

Section 7.09 *Successor Trustee by Merger, etc.*

If the Trustee consolidates, merges or converts into, or transfers all or substantially all of its corporate trust business to, another Person, the successor Person without any further act will be the successor Trustee.

Section 7.10 *Eligibility; Disqualification.*

There will at all times be a Trustee hereunder that is a Person organized and doing business under the laws of the United States of America or of any state thereof that is authorized under such laws to exercise corporate trustee power, that is subject to supervision or examination by federal or state authorities and that has a combined capital and surplus of at least $100.0 million as set forth in its most recent published annual report of condition.

If the Trustee acquires any conflicting interest, it must eliminate such conflict within 90 days or resign as Trustee. For the purposes of this Indenture, the Trustee shall be deemed to have acquired a conflicting interest within the meaning of TIA §310(b).

This Indenture will always have a Trustee who satisfies the requirements of TIA §310(a)(1), (2) and (5). The Trustee is subject to TIA §310(b).

Section 7.11 *Preferential Collection of Claims Against Company*.

The Trustee is subject to TIA §311(a), excluding any creditor relationship listed in TIA §311(b). A Trustee who has resigned or been removed shall be subject to TIA §311(a) to the extent indicated therein.

Section 7.12 *Appointment of Co-Trustees and Separate Trustee.*

(a) Notwithstanding any other provisions of this Indenture, at any time for the purpose of meeting any legal requirement of any jurisdiction, or if the Trustee is unable or unwilling to execute any documents or take any other action under the Indenture in any jurisdiction, unless otherwise instructed by Holders of at least 25% in aggregate principal amount of the Notes then outstanding, the Trustee shall have the power to appoint, and may execute and deliver any and all instruments necessary for the appointment of, one or more Persons to act as a co-trustee or co-trustees with the Trustee, or separate trustee or separate trustees, and to vest in such Person or Persons, in such capacity and for the benefit of the Holders, subject to the other provisions of this Section, such powers, duties, obligations, rights and trusts as the Trustee may consider necessary or desirable and as are set forth in such instrument. No co-trustee or separate trustee hereunder shall be required to meet the terms of eligibility as a successor trustee under Section 7.10 hereof and no notice to Holders of the appointment of any co-trustee or separate trustee shall be required hereunder. Should any written instrument or instruments from the Company or any Guarantor be required by a co-trustee or separate trustee so appointed to more fully confirm to such co-trustee or separate trustee such powers, duties, obligations, rights and trusts, and any all instruments shall on request, be executed.

(b) Every separate trustee and co-trustee shall, to the extent permitted by law, be appointed and act subject to the following provisions and conditions:

(1) all rights, powers, duties and obligations conferred or imposed upon the Trustee shall be conferred or imposed upon and exercised or performed by the Trustee and such separate trustee or co-trustee jointly (it being understood that such separate trustee or co-trustee is not authorized to act separately without the Trustee joining in such act), except to the extent that the instrument of appointment provides that under any law of any jurisdiction in which any particular act or acts are to be performed the Trustee shall be incompetent or unqualified to perform such act or acts, in which event such rights, powers, duties and obligations shall be exercised and performed singly by such separate trustee or co-trustee, but solely at the direction of the Trustee or as otherwise provided in the instrument of appointment;

(2) the Trustee shall not be personally liable by reason of any act or omission of any co-trustee or separate trustee hereunder. No co-trustee hereunder shall be personally liable by reason of any act or omission of the Trustee, any separate trustee or any other co-trustee hereunder. No separate trustee hereunder shall be personally liable by reason of any act or omission of the Trustee, any co-trustee or any other separate trustee hereunder;

(3) the Trustee may at any time accept the resignation of or remove any separate trustee or co-trustee.

(c) Any notice, request or other writing given to the Trustee shall be deemed to have been given to each of the then separate trustees and co-trustees, as effectively as if given to each of them. Every instrument appointing any separate trustee or co-trustee shall refer to this Indenture and the conditions of this Article 7. Each separate trustee and co-trustee, upon its acceptance of the trusts conferred, shall be vested with the estates or property specified in its instrument of appointment, either jointly with the Trustee or separately, as may be provided therein, subject to all the provisions of this Indenture, specifically including every provision of this Indenture relating to the conduct of, affecting the liability of, or affording protection or rights (including the rights to compensation, reimbursement and indemnification hereunder) to, the Trustee. Every such instrument shall be filed with the Trustee.

(d) Any separate trustee or co-trustee may at any time constitute the Trustee its agent or attorney-in-fact with full power and authority, to the extent not prohibited by law, to do any lawful act under or in respect of this Indenture on its behalf and in its name. If any separate trustee or co-trustee shall die, become incapable of acting, resign or be removed, all of his, her or its estates, properties, rights, remedies and trusts shall vest in and be exercised by the Trustee, to the extent permitted by law, without appointment of a new or successor trustee.

ARTICLE 8.
LEGAL DEFEASANCE AND COVENANT DEFEASANCE

Section 8.01 *Option to Effect Legal Defeasance or Covenant Defeasance.*

The Company may at any time, at the option of its Board of Directors evidenced by a resolution set forth in an Officer's Certificate, elect to have either Section 8.02 or 8.03 hereof be applied to all outstanding Notes upon compliance with the conditions set forth below in this Article 8.

Section 8.02 *Legal Defeasance and Discharge.*

Upon the Company's exercise under Section 8.01 hereof of the option applicable to this Section 8.02, the Company and each of the Guarantors will, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, be deemed to have been discharged from their obligations with respect to all outstanding Notes (including the Note Guarantees) on the date the conditions set forth below are satisfied (hereinafter, "*Legal Defeasance*"). For this purpose, Legal Defeasance means that the Company and the Guarantors will be deemed to have paid and discharged the entire Indebtedness represented by the outstanding Notes (including the Note Guarantees), which will thereafter be deemed to be "outstanding"

only for the purposes of Section 8.05 hereof and the other Sections of this Indenture referred to in clauses (1) and (2) below, and to have satisfied all their other obligations under such Notes, the Note Guarantees and this Indenture (and the Trustee, on demand of and at the expense of the Company, shall execute proper instruments acknowledging the same), except for the following provisions which will survive until otherwise terminated or discharged hereunder:

(1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, or interest (including Additional Amounts) or premium, if any, on, such Notes when such payments are due from the trust referred to below;

(2) the Company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's and the Guarantors' obligations in connection therewith; and

(4) this Article 8.

Subject to compliance with this Article 8, the Company may exercise its option under this Section 8.02 notwithstanding the prior exercise of its option under Section 8.03 hereof.

Section 8.03 *Covenant Defeasance.*

Upon the Company's exercise under Section 8.01 hereof of the option applicable to this Section 8.03, the Company and each of the Guarantors will, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, be released from each of their obligations under the covenants contained in Sections 4.07, 4.08, 4.09, 4.10, 4.11, 4.12, 4.13, 4.15, 4.16, 4.17, 4.18, 4.20 hereof and clause (4) of Section 5.01 hereof with respect to the outstanding Notes on and after the date the conditions set forth in Section 8.04 hereof are satisfied (hereinafter, "*Covenant Defeasance*"), and the Notes will thereafter be deemed not "outstanding" for the purposes of any direction, waiver, consent or declaration or act of Holders (and the consequences of any thereof) in connection with such covenants, but will continue to be deemed "outstanding" for all other purposes hereunder (it being understood that such Notes will not be deemed outstanding for accounting purposes). For this purpose, Covenant Defeasance means that, with respect to the outstanding Notes and Note Guarantees, the Company and the Guarantors may omit to comply with and will have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of any reference in any such covenant to any other provision herein or in any other document and such omission to comply will not constitute a Default or an Event of Default under Section 6.01 hereof, but, except as specified above, the remainder of this Indenture and such Notes and Note Guarantees will be unaffected thereby. In addition, upon the Company's exercise under Section 8.01 hereof of the option applicable to this Section 8.03, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, Sections 6.01(a)(3), (4), (5), (6) and (7) hereof will not constitute Events of Default.

Section 8.04 *Conditions to Legal or Covenant Defeasance.*

In order to exercise either Legal Defeasance or Covenant Defeasance under either Section 8.02 or 8.03 hereof:

(a) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent public accountants, to pay the principal of, or interest (including Additional Amounts and premium, if any) on the outstanding Notes on the stated date for payment thereof or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to such stated date for payment or to a particular redemption date;

(b) in the case of an election under Section 8.02 hereof, the Company must deliver to the Trustee:

(1) an opinion of United States counsel, which counsel is reasonably acceptable to the Trustee, confirming that (i) the Company has received from, or there has been published by, the U.S. Internal Revenue Service a ruling or (ii) since the Issue Date, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel will confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Legal Defeasance and will be subject to tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred; and

(2) an Opinion of Counsel in the jurisdiction of incorporation of the Company, which counsel is reasonably acceptable to the Trustee, to the effect that the Holders of the Notes will not recognize income, gain or loss for tax purposes of such jurisdiction as a result of such deposit and defeasance and will be subject to tax in such jurisdiction on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred;

(c) in the case of an election under Section 8.03 hereof, the Company must deliver to the Trustee:

(1) an Opinion of Counsel in the United States, which counsel is reasonably acceptable to the Trustee, confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred; and

(2) an Opinion of Counsel in the jurisdiction of incorporation of the Company, which counsel is reasonably acceptable to the Trustee, to the effect that the Holders of the Notes will not recognize income, gain or loss for tax purposes of such jurisdiction as a result of such deposit and defeasance and will be subject to tax in such jurisdiction on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred;

(d) no Default or Event of Default has occurred and is continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit (and any similar concurrent deposit relating to other Indebtedness), and the granting of Liens to secure such borrowings);

(e) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than this Indenture and the agreements governing any other Indebtedness being defeased, discharged or replaced) to which the Company or any of the Guarantors is a party or by which the Company or any of the Guarantors is bound;

(f) the Company must deliver to the Trustee an Officer's Certificate stating that the deposit was not made by the Company with the intent of preferring the Holders of Notes over the other creditors of the Company with the intent of defeating, hindering, delaying or defrauding any creditors of the Company or others; and

(g) the Company must deliver to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Section 8.05 *Deposited Money and Government Securities to be Held in Trust; Other Miscellaneous Provisions.*

Subject to Section 8.06 hereof, all money and non-callable Government Securities (including the proceeds thereof) deposited with the Trustee (or other qualifying trustee, collectively for purposes of this Section 8.05, the "*Trustee*") pursuant to Section 8.04 hereof in respect of the outstanding Notes will be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Company acting as Paying Agent) as the Trustee may determine, to the Holders of such Notes of all sums due and to become due thereon in respect of principal, premium, if any, and interest and Additional Amounts, if any, but such money need not be segregated from other funds except to the extent required by law.

The Company will pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against the cash or non-callable Government Securities deposited pursuant to Section 8.04 hereof or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Holders of the outstanding Notes.

Notwithstanding anything in this Article 8 to the contrary, the Trustee will deliver or pay to the Company from time to time upon the request of the Company any money or non-callable Government Securities held by it as provided in Section 8.04 hereof which, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee (which may be the opinion delivered under Section 8.04(1) hereof), are in excess of the amount thereof that would then be required to be deposited to effect an equivalent Legal Defeasance or Covenant Defeasance.

Section 8.06 *Repayment to Company.*

Any money deposited with the Trustee or any Paying Agent, or then held by the Company, in trust for the payment of the principal of, premium on, if any, or interest or Additional Amounts, if any, on any Note and remaining unclaimed for two years after such principal, premium, if any, or interest or Additional Amounts, if any, has become due and payable shall be paid to the Company on its request or (if then held by the Company) will be discharged from such trust; and the Holder of such Note will thereafter be permitted to look only to the Company for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Company as trustee thereof, will thereupon cease; *provided, however*, that the Trustee or such Paying Agent, before being required to make any such repayment, may at the expense of the Company cause to be published once, in the New York Times and The Wall Street Journal (national edition), notice that such money remains unclaimed and that, after a date specified therein, which will not be less than 30 days from the date of such notification or publication, any unclaimed balance of such money then remaining will be repaid to the Company.

Section 8.07 *Reinstatement.*

If the Trustee or Paying Agent is unable to apply any U.S. dollars or non-callable Government Securities in accordance with Section 8.02 or 8.03 hereof, as the case may be, by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, then the Company's and the Guarantors' obligations under this Indenture and the Notes and the Note Guarantees will be revived and reinstated as though no deposit had occurred pursuant to Section 8.02 or 8.03 hereof until such time as the Trustee or Paying Agent is permitted to apply all such money in accordance with Section 8.02 or 8.03 hereof, as the case may be; *provided, however*, that, if the Company makes any payment of principal of, premium on, if any, or interest or Additional Amounts, if any, on, any Note following the reinstatement of its obligations, the Company will be subrogated to the rights of the Holders of such Notes to receive such payment from the money held by the Trustee or Paying Agent.

ARTICLE 9.

AMENDMENT, SUPPLEMENT AND WAIVER

Section 9.01 *Without Consent of Holders of Notes.*

(a) Notwithstanding Section 9.02 of this Indenture, without the consent of any Holder, the Company, the Guarantors and the Trustee may amend or supplement this Indenture, the Notes or the Note Guarantees:

(1) to cure any ambiguity, mistake, defect or inconsistency;

(2) to provide for uncertificated Notes in addition to or in place of certificated Notes (*provided* that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code);

(3) to provide for the assumption of the Company's or a Guarantor's obligations to the Holders of the Notes and Note Guarantees by a successor to the Company or such Guarantor pursuant to Article 5 or Article 10 hereof;

(4) to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the legal rights under this Indenture of any such Holder in any material respect;

(5) to conform the text of this Indenture, the Notes, or the Note Guarantees to any provision of the "Description of Notes" section of the Offering Memorandum to the extent that such provision in that "Description of Notes" was intended to be a verbatim recitation of a provision of this Indenture, the Notes or the Note Guarantees, which intent may be evidenced by an Officer's Certificate to that effect;

(6) to release any Note Guarantee in accordance with the terms of this Indenture;

(7) to provide for the issuance of Additional Notes in accordance with the limitations set forth in this Indenture as of the Issue Date;

(8) to allow any Guarantor to execute a supplemental indenture and a Note Guarantee with respect to the Notes;

(9) to comply with requirements of the Commission in order to effect or maintain the qualification hereof under the TIA; or

(10) to evidence and provide the acceptance of the appointment of a successorTrustee under this Indenture.

(b) Upon the request of the Company accompanied by a resolution of its Board of Directors authorizing the execution of any such amended or supplemental indenture, and upon receipt by the Trustee of the documents described in Section 7.02 hereof, the Trustee will join with the Company and the Guarantors in the execution of any amended or supplemental indenture authorized or permitted by the terms of this Indenture and to make any further appropriate agreements and stipulations that may be therein contained, but the Trustee will not be obligated to enter into such amended or supplemental indenture that affects its own rights, duties or immunities under this Indenture or otherwise.

In connection with any proposed amendment or supplement provided for in this Section 9.01, the Trustee will be entitled to receive, and rely conclusively on, an Opinion of Counsel and/or an Officer's Certificate.

Section 9.02 *With Consent of Holders of Notes.*

(a) Except as provided below in this Section 9.02, the Company and the Trustee may amend or supplement this Indenture (including, without limitation, Sections 3.09, 4.10 and 4.15 hereof) and the Notes and the Note Guarantees with the consent of the Holders of at least a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class (including, without limitation, consents obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes), and, subject to Sections 6.04 and 6.07 hereof, any existing Default or Event of Default (other than a Default or Event of Default in the payment of the principal of, premium on, if any, or interest or Additional Amounts, if any, on, the Notes, except a payment default resulting from an acceleration that has been rescinded) or compliance with any provision of this Indenture or the Notes or the Note Guarantees may be waived with the consent of the Holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class (including, without limitation, consents obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes). Section 2.08 hereof shall determine which Notes are considered to be "outstanding" for purposes of this Section 9.02.

(b) Upon the request of the Company accompanied by a resolution of its Board of Directors authorizing the execution of any such amended or supplemental indenture, and upon the filing with the Trustee of evidence satisfactory to the Trustee of the consent of the Holders of Notes as aforesaid, and upon receipt by the Trustee of the documents described in Section 7.02 hereof, the Trustee will join with the Company and the Guarantors in the execution of such amended or supplemental indenture unless such amended or supplemental indenture directly affects the Trustee's own rights, duties or immunities under this Indenture or otherwise, in which case the Trustee may in its discretion, but will not be obligated to, enter into such amended or supplemental Indenture.

The consent of the Holders under this Section 9.02 is not necessary to approve the particular form of any proposed amendment, waiver or consent. It is sufficient if such consent approves the substance of the proposed amendment, waiver or consent.

(c) After an amendment, supplement or waiver under this Section 9.02 becomes effective, the Company will mail to the Holders of Notes affected thereby a notice briefly describing the amendment, supplement or waiver. Any failure of the Company to mail such notice, or any defect therein, will not,

however, in any way impair or affect the validity of any such amended or supplemental indenture or waiver. Subject to Sections 6.04 and 6.07 hereof, the Holders of a majority in aggregate principal amount of the Notes then outstanding voting as a single class may waive compliance in a particular instance by the Company with any provision of this Indenture, the Notes or the Note Guarantees. However, without the consent of each Holder affected, an amendment, supplement or waiver under this Section 9.02 may not (with respect to any Notes held by a non-consenting Holder):

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;

(2) reduce the principal of or change the fixed maturity of any Note or alter the provisions with respect to the redemption of the Notes (except as provided above with respect to Sections 3.09, 4.10 and 4.15 hereof);

(3) reduce the rate of or change the time for payment of interest, including default interest, on any Note;

(4) make any change to the contractual right expressly set forth in this Indenture or the Notes of any Holder to institute suit for the enforcement of any payment on or with respect to such Holder's Notes or any Note Guarantee in respect thereof on or after the due dates therefor;

(5) waive a Default or Event of Default in the payment of principal of, or interest, Additional Amounts or premium, if any, on, the Notes (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the then outstanding Notes and a waiver of the Payment Default that resulted from such acceleration);

(6) make any Note payable in money other than that stated in the Notes;

(7) make any change in the provisions of this Indenture relating to waivers of past Defaults or to the contractual right expressly set forth in this Indenture or the Notes of any Holder of Notes to receive payments of principal of, or interest, Additional Amounts or premium, if any, on, the Notes on or after the due date therefor;

(8) waive a redemption payment with respect to any Note (other than a payment required by Sections 3.09, 4.10 or Section 4.15 hereof);

(9) release any Guarantor from any of its obligations under its Note Guarantee or this Indenture, except in accordance with the terms of this Indenture; or

(10) make any change in the preceding amendment and waiver provisions.

Section 9.03 *[Reserved]*

Section 9.04 *Revocation and Effect of Consents.*

Until an amendment, supplement or waiver becomes effective, a consent to it by a Holder is a continuing consent by the Holder and every subsequent Holder or portion of a Note that evidences the same debt as the consenting Holder's Note, even if notation of the consent is not made on any Note. However, any such Holder or subsequent Holder may revoke the consent as to its Note if the Trustee receives written notice of revocation before the date the amendment, supplement or waiver becomeseffective. An amendment, supplement or waiver becomes effective in accordance with its terms and thereafter binds every Holder

.

Section 9.05 *Notation on or Exchange of Notes.*

The Trustee may place an appropriate notation about an amendment, supplement or waiver on any Note thereafter authenticated. The Company in exchange for all Notes may issue and the Trustee shall, upon receipt of an Authentication Order, authenticate new Notes that reflect the amendment, supplement or waiver.

Failure to make the appropriate notation or issue a new Note will not affect the validity and effect of such amendment, supplement or waiver.

Section 9.06 *Trustee to Sign Amendments, etc.*

The Trustee will sign any amended or supplemental indenture authorized pursuant to this Article 9 if the amendment or supplement does not adversely affect the rights, duties, liabilities or immunities of the Trustee. The Company may not sign an amended or supplemental indenture until the Board of Directors of the Company approves it. In executing any amended or supplemental indenture, the Trustee will be entitled to receive and (subject to Section 7.01 hereof) will be fully protected in relying upon, in addition to the documents required by Section 12.04 hereof, an Officer's Certificate and an Opinion of Counsel stating that the execution of such amended or supplemental indenture is authorized or permitted by this Indenture.

ARTICLE 10.
NOTE GUARANTEES

Section 10.01 *Guarantee.*

(a) Subject to this Article 10, each of the Guarantors hereby, jointly and severally, unconditionally guarantees to each Holder of a Note authenticated and delivered by the Trustee and to the Trustee and its successors and assigns, irrespective of the validity and enforceability of this Indenture, the Notes or the obligations of the Company hereunder or thereunder, that:

(1) the principal of, premium, if any, on, and interest and Additional Amounts, if any, on, the Notes will be promptly paid in full when due, whether at maturity, by acceleration, redemption or otherwise, and interest on the overdue principal of, premium, if any, on and interest and Additional Amounts, if any, on the Notes (to the extent permitted by law) and all other obligations of the Company to the Holders or the Trustee hereunder or thereunder will be promptly paid in full or performed, all in accordance with the terms hereof and thereof; and

(2) in case of any extension of time of payment or renewal of any Notes or any of such other obligations, that same will be promptly paid in full when due or performed in accordance with the terms of the extension or renewal, whether at stated maturity, by acceleration or otherwise.

Failing payment when due of any amount so guaranteed or any performance so guaranteed for whatever reason, the Guarantors will be jointly and severally obligated to pay the same immediately. Each Guarantor agrees that this is a guarantee of payment and not a guarantee of collection.

(b) Each Guarantor hereby agrees that its obligations hereunder are unconditional, irrespective of the validity, regularity or enforceability of the Notes or this Indenture, the absence of any action to enforce the same, any waiver or consent by any Holder with respect to any provisions hereof or thereof, the recovery of any judgment against the Company, any action to enforce the same or any other circumstance which might otherwise constitute a legal or equitable discharge or defense of a guarantor. Each Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of insolvency or bankruptcy of the Company, any right to require a proceeding first against the Company, protest, notice and all demands whatsoever and covenant that this Note Guarantee will not be discharged except by complete performance of the obligations contained in the Notes and this Indenture.

(c) If any Holder or the Trustee is required by any court or otherwise to return to or for the benefit of the Company, the Guarantors or any custodian, trustee, liquidator or other similar official acting in relation to either the Company or the Guarantors, any amount paid by either the Company or the Guarantors to the Trustee or such Holder, this Note Guarantee, to the extent theretofore discharged, will be reinstated in full force and effect.

(d) Each Guarantor agrees that it will not be entitled to any right of subrogation in relation to the Holders in respect of any obligations guaranteed hereby until payment in full of all obligations guaranteed hereby. Each Guarantor further agrees that, as between the Guarantors, on the one hand, and the Holders and the Trustee, on the other hand, (1) the maturity of the obligations guaranteed hereby may be accelerated as provided in Article 6 hereof for the purposes of this Note Guarantee, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the obligations guaranteed hereby, and (2) in the event of any declaration of acceleration of such obligations as provided in Article 6 hereof, such obligations (whether or not due and payable) will forthwith become due and payable by the Guarantors for the purpose of this Note Guarantee. The Guarantors will have the right to seek contribution from any non-paying Guarantor so long as the exercise of such right does not impair the rights of the Holders under the Note Guarantee.

Section 10.02 *Limitation on Guarantor Liability.*

(a) Each Guarantor, and by its acceptance of Notes, each Holder, hereby confirms that it isthe intention of all such parties that the Note Guarantee of such Guarantor not constitute a fraudulent transfer or conveyance for purposes of Bankruptcy Law, the Uniform Fraudulent Conveyance Act, the Uniform Fraudulent Transfer Act or any similar national, federal, local or state law, a voidable preference, financial assistance or improper corporate benefit or violate the corporate purpose of the relevant Guarantor or any applicable capital maintenance or similar laws or regulations affecting the rights of creditors generally under any applicable law or regulation, in each case, to the extent applicable to any Note Guarantee. To effectuate the foregoing intention, the Trustee, the Holders and the Guarantors hereby irrevocably agree that the obligations of such Guarantor will be limited to the maximum amount that will, after giving effect to such maximum amount and all other contingent and fixed liabilities of such Guarantor that are relevant under such laws, and after giving effect to any collections from, rights to receive contribution from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under this Article 10, result in the obligations of such Guarantor under its Note Guarantee not constituting a fraudulent transfer or conveyance or a voidable preference, financial assistance or improper corporate benefit, or violating the corporate purpose of the relevant Guarantor or any applicable capital maintenance or similar laws or regulations affecting the rights of creditors generally under any applicable law or regulation.

(b) Limitations for Bermuda Guarantors. The Note Guarantee of any Guarantor incorporated under Bermuda law shall be limited to the net assets of such Guarantor at the relevant time.

(c) Limitations for Luxembourg Guarantors. The Note Guarantee of any Guarantor incorporated under Luxembourg law (hereinafter, a "*Luxembourg Guarantor*") shall be limited to the effect that, without limiting any specific exemptions set out below, no obligations guaranteed by a Luxembourg Guarantor will extend to include any obligation or liability if to do so would be unlawful financial assistance in respect of the acquisition of shares in itself under Article 49-6 of the Luxembourg Law dated August 10, 1915 on commercial companies, as amended, or if to do so would constitute a misuse of corporate assets (*abus des biens sociaux*) as defined at Article 171-1 of the Luxembourg Law dated August 10, 1915 on commercial companies, as amended.

Notwithstanding any other provision in this Indenture, the maximum amount payable by a Luxembourg Guarantor in respect of the obligations guaranteed by such Luxembourg Guarantor shall not, at any time, exceed the greater of: (A) an amount equal to 95 percent of that Luxembourg Guarantor's net assets (*capitaux propres*), existing as at the Issue Date, as shown in its most recently and duly approved financial statements (*comptes annuels*) or, where relevant, in respect of the opening balance sheet for the newly established Luxembourg Guarantors; and (B) an amount equal to 95 percent of that Luxembourg Guarantor's net assets (*capitaux propres*), existing as at the first date upon which the Trustee or a Holder makes written demand upon the relevant Luxembourg Guarantor to make payment in respect of the obligations guaranteed by the Luxembourg Guarantor, as shown in its most recently and duly approved financial statements (*comptes annuels*) or, where relevant, in respect of the opening balance sheet for the newly established Luxembourg Guarantors. For this purpose "net assets (*capitaux propres*)" will be determined in accordance with Article 34 of the Luxembourg Law dated December 19, 2002, as amended, on the Register of Commerce and Companies, on accounting and annual accounts of the companies and amending certain other legal provisions.

The limit in the preceding paragraph will not apply to the extent that the obligations guaranteed by a Luxembourg Guarantor relate to the Luxembourg Guarantor's borrowings and to the Luxembourg Guarantor's Subsidiaries' borrowings or any other liabilities of the relevant Luxembourg Guarantor's Subsidiaries under this Indenture, the Notes and the Note Guarantee of a Luxembourg Guarantor.

(d) Limitations for Swiss Guarantors. The Note Guarantee of any Guarantor incorporated under Swiss law shall be limited as set out hereunder:

If and to the extent that obligations of a Guarantor incorporated in Switzerland (the "*Swiss Guarantor*") under this Indenture or an applicable Note Guarantee, are for the benefit of its direct or indirect Affiliates (other than its direct or indirect wholly owned Subsidiaries) and that complying with such obligations would constitute a repayment of capital (*Einlagerückgewähr*), a violation of the legally protected reserves (*gesetzlich geschützte Reserven*) or the payment of a (constructive) dividend (*Gewinnausschüttung*) by such Swiss Guarantor or would otherwise be restricted under Swiss corporate law then applicable (the "*Restricted Obligations*"), the following provisions shall apply:

The aggregate liability of a Swiss Guarantor for Restricted Obligations under this Indenture or an applicable Note Guarantee shall be limited to the extent and in the maximum amount of its profits and reserves available for distribution to its shareholders at the point in time such Swiss Guarantor's obligations fall due (the "*Available Amount*"), provided that this is a requirement under applicable law at that time and further provided that such limitation (as may apply from time to time or not) shall not (generally or definitively) release such Swiss Guarantor from performing Restricted Obligations hereunder in excess thereof, but merely postpone the performance date therefor until such times as performance is again permitted notwithstanding such limitation.

Immediately after having been requested to perform Restricted Obligations under this Indenture or an applicable Note Guarantee, a Swiss Guarantor shall and any parent company of such Swiss Guarantor shall procure that such Swiss Guarantor will:

(i) if and to the extent requested by the Trustee or required under then applicable Swiss law, provide the Trustee, within 30 business days, with (a) an interim balance sheet audited by its statutory auditors, (b) the determination by the statutory auditors of the Available Amount based on such interim audited balance sheet and (c) a confirmation from the statutory auditors of such Swiss Guarantor that the Available Amount complies with the provisions of Swiss corporate law which are aimed at protecting the share capital and legal reserves;

(ii) take such further corporate and other action which may be necessary at the time (such as board and shareholder approvals and the receipt of any confirmations from its statutory auditors) in order to allow a prompt payment under this Indenture or an applicable Note Guarantee with a minimum of limitations; and/or

(iii) immediately after confirming the Available Amount in accordance with subparagraph (i) above, procure that any amounts received or collected by the Trustee under and in connection with Restricted Obligations under this Indenture or an applicable Note Guarantee in excess of the Available Amount shall be retransferred to it as soon as possible and, if not already done so, be paid up to the Available Amount (less, if required, any Swiss Withholding Tax) to the Trustee.

If so required under applicable law (including double tax treaties) in force at the time it is required to perform Restricted Obligations under this Indenture or an applicable Note Guarantee, a Swiss Guarantor shall:

(i) use its best efforts to ensure that any payments under this Indenture or an applicable Note Guarantee can be made without deduction of Swiss Withholding Tax or with deduction of Swiss Withholding Tax at a reduced rate, by discharging the liability to such tax by notification pursuant to applicable law (including tax treaties) rather than payment of the tax;

(ii) if and to the extent required by applicable law in force at the relevant time (including double taxation treaties):

(A) deduct the Swiss Withholding Tax at the rate of 35% (or such other rate as is in force at that time) from any payment under this Indenture or an applicable Note Guarantee;

(B) pay the Swiss Withholding Tax to the tax authorities referred to in Article 34 of the Swiss Federal Law on Withholding Tax (*Bundesgesetz über die Verrechnungssteuer vom 13. Oktober 1965, SR 642.21*) (the "*Swiss Federal Tax Administration*"); and

(C) notify and provide evidence to the Trustee that the Swiss Withholding Tax has been paid to the Swiss Federal Tax Administration.

A Swiss Guarantor shall use its best efforts to ensure that any person which is, as a result of a deduction of Swiss Withholding Tax, entitled to a full or partial refund of the Swiss Withholding Tax, will, as soon as possible after the deduction of the Swiss Withholding Tax, (i) request a refundof the Swiss Withholding Tax under any applicable law (including double tax treaties) and (ii) pay to the Trustee upon receipt any amount so refunded.

(e) For the avoidance of doubt, nothing in this Section 10.02 shall adversely affect the rights of Holders to receive Additional Amounts pursuant to Section 4.01(c) hereof.

Section 10.03 *Execution and Delivery of Note Guarantee.*

To evidence its Note Guarantee set forth in Section 10.01 hereof, each Guarantor hereby agrees that a notation of such Note Guarantee substantially in the form attached as Exhibit E hereto will be endorsed by an Officer or a Director of such Guarantor on each Note authenticated and delivered by the Trustee and that this Indenture will be executed on behalf of such Guarantor by one of its Officers or Directors.

Each Guarantor hereby agrees that its Note Guarantee set forth in Section 10.01 hereof will remain in full force and effect notwithstanding any failure to endorse on each Note a notation of such Note Guarantee. If an Officer or a Director whose signature is on this Indenture or on the Note Guarantee no longer holds that office at the time the Trustee authenticates the Note on which a Note Guarantee is endorsed, the Note Guarantee will be valid nevertheless.

The delivery of any Note by the Trustee, after the authentication thereof hereunder, will constitute due delivery of the Note Guarantee set forth in this Indenture on behalf of the Guarantors. The Company shall cause any Restricted Subsidiary so required by Section 4.17 to execute a supplemental indenture in the form of Exhibit F to this Indenture and a notation of Note Guarantees in the form of Exhibit E to this Indenture in accordance with Section 4.17 and this Article 11.

Section 10.04 *Guarantors May Consolidate, etc., on Certain Terms*

(a) A Guarantor (other than a Guarantor whose Note Guarantee is to be released in accordance with the terms of the Note Guarantee and this Indenture as described under this Article 10) will not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not such Guarantor is the surviving Person), or (2) sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the properties or assets of such Guarantor and its Subsidiaries which are Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Person, unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default is continuing;

(2) either:

(A) the person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under its Note Guarantee and this Indenture pursuant to a supplemental indenture; or

(B) the Net Proceeds of such sale or other disposition are applied in accordance with the applicable provisions of this Indenture; and

(3) the Company delivers to the Trustee an Officer's Certificate and Opinion of Counsel, in each case, stating that such consolidation, merger or transfer and, in the case in which a supplemental indenture hereinafter referred to is entered into, such supplemental indenture,comply with this covenant and that all conditions precedent provided for in this Indenture relating to such transaction have been complied with.

In case of any such consolidation, merger, sale or conveyance and upon the assumption by the successor Person (if other than the Guarantor), by supplemental indenture, executed and delivered to the Trustee and satisfactory in form to the Trustee, of the Note Guarantee and the due and punctual performance of all of the covenants and conditions of this Indenture to be performed by the Guarantor, such successor Person will succeed to and be substituted for the Guarantor with the same effect as if it had been named herein as a Guarantor. Such successor Person thereupon may cause to be signed any or all of the Note Guarantees to be endorsed upon all of the Notes issuable hereunder which theretofore shall not have been signed by the Company and delivered to the Trustee. All the Note Guarantees so issued will in all respects have the same legal rank and benefit under this Indenture as the Note Guarantees theretofore and thereafter issued in accordance with the terms of this Indenture as though all of such Note Guarantees had been issued at the date of the execution hereof.

Except as set forth in Articles 4 and 5 hereof, and notwithstanding clauses 2(a) and (b) above, nothing contained in this Indenture or in any of the Notes will prevent any consolidation or merger of a Guarantor with or into the Company or another Guarantor, or will prevent any sale or conveyance of the property of a Guarantor as an entirety or substantially as an entirety to the Company or another Guarantor.

Section 10.05 *Note Guarantees Release.*

(a) The Note Guarantee of a Guarantor will automatically be released:

(1) in connection with any sale or other disposition of all or substantially all of the assets of that Guarantor (including by way of merger, consolidation, amalgamation or combination) to a Person that is not (either before or after giving effect to such transaction) the Company or a Restricted Subsidiary, if the sale or other disposition does not violate Section 4.10 of this Indenture;

(2) in connection with any sale or other disposition of Capital Stock of that Guarantor to a Person that is not (either before or after giving effect to such transaction) the Company or a Restricted Subsidiary, if the sale or other disposition does not violate Section 4.10 of this Indenture and the Guarantor ceases to be a Restricted Subsidiary as a result of the sale or other disposition;

(3) if the Company designates any Restricted Subsidiary that is a Guarantor to be an Unrestricted Subsidiary in accordance with the applicable provisions of this Indenture;

(4) upon repayment of the Notes; or

(5) upon legal defeasance, covenant defeasance or satisfaction and discharge of this Indenture as provided in Section 8.02, Section 8.03 and Section 11.01;

provided that, in each case, such Guarantor has delivered to the Trustee an Officer's Certificate stating that all conditions precedent provided for in this Indenture relating to such release have been complied with.

(b) Any additional Note Guarantee by a Guarantor pursuant to Section 4.17 hereof shall be automatically released when the Indebtedness that caused such Guarantor to enter into the additional Note Guarantee pursuant to Section 4.17 hereof has been fully discharged or no longer Guaranteed.

ARTICLE 11.
SATISFACTION AND DISCHARGE

Section 11.01 *Satisfaction and Discharge.*

(a) This Indenture will be discharged and will cease to be of further effect as to all Notes issued hereunder, when:

(1) either:

(A) all Notes that have been authenticated, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to the Company, have been delivered to the Trustee for cancellation; or

(B) all Notes that have not been delivered to the Trustee for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable within one year and the Company or any Guarantor has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent public accountants, without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Notes not delivered to the Trustee for cancellation for principal, premium and Additional Amounts, if any, and accrued interest to but not including the date of maturity or redemption;

(2) the Company or any Guarantor has paid or caused to be paid all sums payable by it under this Indenture; and

(3) the Company has delivered irrevocable instructions to the Trustee under this Indenture to apply the deposited money toward the payment of the Notes at maturity or on the redemption date, as the case may be.

In addition, the Company must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied; *provided* that any such counsel may rely on any Officer's Certificate as to matters of fact (including as to compliance with the foregoing clauses (1), (2) and (3)).

Notwithstanding the satisfaction and discharge of this Indenture, if money has been deposited with the Trustee pursuant to subclause (b) of clause (1) of this Section 11.01, the provisions of Sections 11.02 and 8.06 hereof will and Additional Amounts, if any, survive. In addition, nothing in this Section 11.01 will be deemed to discharge those provisions of Section 7.07 hereof, that, by their terms, survive the satisfaction and discharge of this Indenture.

Section 11.02 *Application of Trust Money.*

Subject to the provisions of Section 8.06 hereof, all money deposited with the Trustee pursuant to Section 11.01 hereof shall be held in trust and applied by it, in accordance with the provisions of the Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the

Company acting as its own Paying Agent) as the Trustee may determine, to the Persons entitled thereto, of the principal, premium, if any, and interest and Additional Amounts, if any, for whose payment such money has been deposited with the Trustee; but such money need not be segregated from other funds except to the extent required by law.

If the Trustee or Paying Agent is unable to apply any money or Government Securities in accordance with Section 11.01 hereof by reason of any legal proceeding or by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, the Company's and any Guarantor's obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to Section 11.01 hereof; *provided* that if the Company has made any payment of principal of, premium on, if any, or interest or Additional Amounts, if any, on, any Notes because of the reinstatement of its obligations, the Company shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money or Government Securities held by the Trustee or Paying Agent.

Any such notices, instructions, directions or other communications shall be conclusively deemed to be valid instructions from the Company to the Trustee for the purposes of this Indenture.

Holders of the Notes may communicate pursuant to TIA §312(b) with other Holders of Notes with respect to their rights under this Indenture or the Notes. The Company, the Trustee, the Registrar and anyone else shall have the protection of TIA §312(c).

Section 12.04 *Certificate and Opinion as to Conditions Precedent.*

Upon any request or application by the Company to the Trustee to take any action under this Indenture, the Company shall furnish to the Trustee:

(1) an Officer's Certificate (which must include the statements set forth in Section 12.05 hereof) stating that all conditions precedent and covenants, if any, provided for in this Indenture relating to the proposed action have been satisfied; and

(3) a statement that, in the opinion of such Person, such Person has made such examination or investigation as is necessary to enable such Person to express an informed opinion as to whether or not such covenant or condition has been satisfied; and

(4) a statement as to whether or not, in the opinion of such Person, such condition or covenant has been satisfied.

Section 12.06 *Rules by Trustee and Agents.*

The Trustee may make reasonable rules for action by or at a meeting of Holders. The Registrar or Paying Agent may make reasonable rules and set reasonable requirements for its functions.

Section 12.07 *No Personal Liability of Directors, Officers, Employees and Stockholders.*

Each Holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Section 12.08 *Governing Law; Waiver of Trial by Jury.*

THE INTERNAL LAW OF THE STATE OF NEW YORK WILL GOVERN AND BE USED TO CONSTRUE THIS INDENTURE, THE NOTES AND THE NOTE GUARANTEES.

EACH OF THE COMPANY, THE GUARANTORS AND THE TRUSTEE, AND EACH HOLDER BY ITS ACCEPTANCE OF A NOTE, HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY AND ALL RIGHT IT MAY HAVE TO TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS INDENTURE, THE NOTES OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY.

Section 12.09 *Jurisdiction.*

(a) The Company and each of the Guarantors have appointed CT Corporation as their authorized agent upon whom process may be served in relation to any proceedings in a state or federal court in the Borough of Manhattan in The City of New York, New York (the "*Authorized Agent*"). Such appointment of the Authorized Agent shall be irrevocable unless and until replaced by an agent acceptable to the Trustee, or any person who controls the Trustee. The Company and each of the Guarantors represent and warrant that the Authorized Agent has agreed to act as said agent for service of process, and the Company and each of the Guarantors agree to take any and all action, including the filing of any and all documents and instruments, that may be necessary to continue such appointment in full force and effect as aforesaid. Service of process upon the Authorized Agent and written notice of such service to the Company and each of the Guarantors shall be deemed, in every respect, effective service of process upon this Indenture. The Company and each of the Guarantors agree that nothing herein shall affect the right to effect service of process in any other manner permitted by law or shall limit the right to sue in any other jurisdiction.

(b) To the extent that the Company or any of the Guarantors may be entitled, in any jurisdiction in which judicial proceedings may at any time be commenced with respect to or arising out of this Indenture to claim for itself or its revenues, assets or properties immunity (whether by reason of sovereign immunity or otherwise) from suit, from the jurisdiction of any court (including, but not limited to, any court of the United States of America or the State of New York) or from any legal process with respect to itself or its property, from attachment prior to judgment, from set-off, from execution of a judgment, from the grant of injunctive relief, whether prior to or after judgment, or from any other legal process (including, without limitation, in relation to enforcement of any arbitration award), and to the extent that in any such jurisdiction there may be attributed such an immunity (whether or not claimed), the Company or such Guarantor, as applicable, hereby irrevocably agrees not to claim and hereby irrevocably waives such immunity and consents to the grant of any such relief.

Section 12.10 *No Adverse Interpretation of Other Agreements.*

This Indenture may not be used to interpret any other indenture, loan or debt agreement of the Company or its Subsidiaries or of any other Person. Any such indenture, loan or debt agreement may not be used to interpret this Indenture.

Section 12.11 *Successors.*

All agreements of the Company in this Indenture and the Notes will bind its successors. All agreements of the Trustee in this Indenture will bind its successors. All agreements of each Guarantor in this Indenture will bind its successors, except as otherwise provided in Section 10.05 hereof.

Section 12.12 *Severability.*

In case any provision in this Indenture or in the Notes is invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions will not in any way be affected or impaired thereby.

Section 12.13 *Counterpart Originals.*

The parties may sign any number of copies of this Indenture. Each signed copy will be an original, but all of them together represent the same agreement. The exchange of copies of this Indenture and of signature pages by facsimile or electronic format (*i.e.*, "pdf") transmission shall constitute effective execution and delivery of this Indenture as to the parties hereto and may be used in lieu of the original Indenture for all purposes. Signatures of the parties hereto transmitted by facsimile or electronic format (*i.e.*, "pdf") shall be deemed to be their original signatures for all purposes.

Section 12.14 *Table of Contents, Headings, etc.*

The Table of Contents, Cross-Reference Table and Headings of the Articles and Sections of this Indenture have been inserted for convenience of reference only, are not to be considered a part of this Indenture and will in no way modify or restrict any of the terms or provisions hereof.

Section 12.15 *Judgment Currency*.

Any payment on account of an amount that is payable in U.S. dollars (the "*Required Currency*") which is made to or for the account of any Holder or the Trustee in lawful currency of any other jurisdiction (the "*Judgment Currency*"), whether as a result of any judgment or order or the enforcement thereof or the liquidation of the Company or any Guarantor, shall constitute a discharge of the Company or the Guarantor's obligation under this Indenture and the Notes or Note Guarantee, as the case may be, only to the extent of the amount of the Required Currency which the Holder or the Trustee, as the case may be, could purchase in the London foreign exchange markets with the amount of the Judgment Currency in accordance with normal banking procedures at the rate of exchange prevailing on the first Business Day following receipt of the payment in the Judgment Currency. If the amount of the Required Currency that could be so purchased is less than the amount of the Required Currency originally due to such Holder or the Trustee, as the case may be, the Company and the Guarantors shall indemnify and hold harmless the Holder or the Trustee, as the case may be, from and against all loss or damage arising out of, or as a result of, such deficiency. This indemnity shall constitute an obligation separate and independent from the other obligations contained in this Indenture or the Notes, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Holder or the Trustee from time to time and shall continue in full force and effect notwithstanding any judgment or order for a liquidated sum in respect of an amount due hereunder or under any judgment or order.

Section 12.16 *FATCA.*

In order to comply with applicable tax laws, rules and regulations (inclusive of directives, guidelines and interpretations promulgated by competent authorities) in effect from time to time ("*Applicable Tax Law*") that a foreign financial institution, issuer, trustee, paying agent, holder or other institution is or has agreed to be subject to related to this Indenture, the Company agrees (i) upon reasonable written request of The Bank of New York Mellon Trust Company, N.A. to use commercially reasonable efforts to provide to The Bank of New York Mellon Trust Company, N.A. sufficient information about holders or other applicable parties and/or transactions (including any modification to the terms of such transactions) so The Bank of New York Mellon Trust Company, N.A. can determine whether it has tax related obligations under Applicable Tax Law, and (ii) that The Bank of New York Mellon Trust Company, N.A. may, to the extent it is required to do so by law, deduct or withhold income or other similar taxes imposed by Applicable Tax Laws from payments hereunder without any liability therefor. The terms of this Section 12.16 shall survive the termination of this Indenture.

Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

(2) METHOD OF PAYMENT. The Company will pay interest on the Notes (except defaulted interest) and Additional Amounts, if any, to the Persons who are registered Holders of Notes at the close of business on the May 1 or November 1 next preceding the Interest Payment Date, even if such Notes are canceled after such record date and on or before such Interest Payment Date, except as provided in Section 2.12 of the Indenture with respect to defaulted interest. (3) PAYING AGENT AND REGISTRAR. Initially, The Bank of New York Mellon Trust Company, N.A., the Trustee under the Indenture, will act as Paying Agent and Registrar. The Company may change the Paying Agent or Registrar without prior notice to the Holders of the Notes. The Company or any of its Subsidiaries may act as Paying Agent or Registrar.

(4) INDENTURE. The Company issued the Notes under an Indenture dated as of May 8, 2015 (the "*Indenture*") among the Company, the Guarantors and the Trustee. The terms of the Notes include those stated in the Indenture. The Notes are subject to all such terms, and Holders are referred to the Indenture for a statement of such terms. To the extent any provision of this Note conflicts with the express provisions of the Indenture, the provisions of the Indenture shall govern and be controlling. The Notes are unsecured obligations of the Company. The Indenture does not limit the aggregate principal amount of Notes that may be issued thereunder.

(5) ADDITIONAL AMOUNTS.

(a) All payments made by or on behalf of the Company or any of the Guarantors under or with respect to the Notes (whether or not in the form of Definitive Registered Notes) or any Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (i) any jurisdiction in which the Company or any Guarantor (including any successor entity), is then incorporated, engaged in business, organized or resident for tax purposes or any political subdivision or governmental authority thereof or therein or (ii) any jurisdiction from or through which payment is made by or on behalf of the Company or any Guarantor (including, without limitation, the jurisdiction of any Paying Agent) or any political subdivision or governmental authority thereof or therein (each of (i) and (ii), a "*Tax Jurisdiction*"), will at any time be required to be made from any payments under or with respect to the Notes or any Note Guarantee, including, without limitation, payments of principal, redemption price, purchase price, interest or premium, the Company or the relevant Guarantor or other payor, as applicable, will pay such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received and retained in respect of such payments by each Holder or beneficial owner of Notes (including Additional Amounts) after such withholding, deduction or imposition will equal the respective amounts that would have been received and retained in respect of such payments in the absence of such withholding or deduction; *provided, however,* that no Additional Amounts will be payable with respect to: (i) any Taxes, to the extent such Taxes would not have been imposed but for the Holder or the beneficial owner of the Notes (or a fiduciary, settlor, beneficiary, partner of, member or shareholder of, or possessor of a power over, the relevant Holder, if the relevant Holder is an estate, trust, nominee, partnership, limited liability company or corporation) being a citizen or resident or national of, incorporated in the relevant Tax Jurisdiction in which such Taxes are imposed or having any other present or former connection with the relevant Tax Jurisdiction other than the acquisition or holding of such Notes, the exercise or enforcement of rights under such Note or the Indenture or under a Note Guarantee or the receipt of payments in respect of such Note or a Note Guarantee; (ii) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Note for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the Holder (except to the extent that the Holder would have been entitled to Additional Amounts had the Note been presented on the last day of such 30 day period); (iii) any estate, inheritance, gift, sale, transfer, personal property or similar Taxes; (iv) any Taxes withheld, deducted or imposed on a payment to an individual and that are required to be made pursuant to European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing or complying with or introduced in order to conform to, such directive; (v) any Taxes imposed as result of any Note presented for payment (where presentation is required) by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a member state of the European Union; (vi) any Taxes payable other than by deduction or withholding from

payments under, or with respect to, the Notes or with respect to any Note Guarantee; (vii) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the Holder or beneficial owner of Notes, following the Company's reasonable written request addressed to the Holder or beneficial owner at least 60 days before any such withholding or deduction would be payable to the Holder or beneficial owner, to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the Holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the Holder or beneficial owner is legally entitled to provide such certification or documentation; (viii) any Taxes imposed or withheld by reason of the failure of the Holder or beneficial owner of the Notes to comply with the requirements of Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "*Code*"), as of the date of the Offering Memorandum (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), the U.S. Treasury Regulations issued thereunder or any official interpretation thereof or any agreement entered into pursuant to Section 1471 of the Code; or (ix) any combination of clauses (1) through (8) above.

(b) In addition to the foregoing, the Company and the Guarantors will also pay and indemnify the Holder for any present or future stamp, issue, registration, value added, transfer, court or documentary Taxes, or any other excise or property taxes, charges or similar levies (including penalties, interest and any other liabilities related thereto) which are levied by any jurisdiction on the execution, delivery, issuance, or registration of any of the Notes, the Indenture, any Note Guarantee or any other document referred to therein, or the receipt of any payments with respect thereto, or enforcement of, any of the Notes or any Note Guarantee.

(c) If the Company or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes or any Note Guarantee, the Company or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises after the 30th day prior to that payment date, in which case the Company or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificates must also set forth any other information reasonably necessary to enable the Paying Agents to pay Additional Amounts to Holders on the relevant payment date. The Company or the relevant Guarantor will provide the Trustee with documentation reasonably satisfactory to the Trustee evidencing the payment of Additional Amounts. The Trustee shall be entitled to rely absolutely on an Officer's Certificate as conclusive proof that such payments are necessary, and may conclusively presume that no payments are necessary unless and until it receives any such Officer's Certificate.

(d) The Company or the relevant Guarantor will make all withholdings and deductions (within the time period and in the minimum amount) required by law and will remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. The Company or the relevant Guarantor will use its reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld. The Company or the relevant Guarantor will furnish to the Trustee (or to a Holder upon request), within 60 days after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Company or a Guarantor, as the case may be, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other evidence of payments (reasonably satisfactory to the Trustee) by such entity.

(e) Whenever in the Indenture or the Notes there is mentioned, in any context, the payment of amounts based upon the principal amount of the Notes or of principal, interest or of any other amount payable under, or with respect to, any of the Notes or any Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

(f) The obligations described under Sections 4.01(c), (d), (e) and (f) of the Indenture will survive any termination, defeasance or discharge of the Indenture, any transfer by a Holder or beneficial owner of its Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Company or any Guarantor is incorporated, engaged in business for tax purposes or resident for tax purposes or any jurisdiction from or through which such Person makes any payment on the Notes (or any Note Guarantee) and any department or political subdivision or taxing authority or agency thereof or therein having the power to tax.

(6) *OPTIONAL REDEMPTION.*

(a) At any time prior to May 15, 2018, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of Notes issued under the Indenture, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 106.250% of the principal amount of the Notes redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption (subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant Interest Payment Date), with the net cash proceeds of an Equity Offering; *provided* that:

(i) at least 65% of the aggregate principal amount of the Notes originally issued under the Indenture (excluding Notes held by the Company and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and

(ii) the redemption occurs within 90 days of the date of the closing of such Equity Offering.

(b) At any time prior to May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Notes redeemed, plus the Applicable Premium (as calculated by the Company) as of, and accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption, subject to the rights of Holders on the relevant record date to receive interest due on the relevant Interest Payment Date.

(c) Except pursuant to paragraph 6(a) and 6(b) and paragraph 10 hereof, the Notes will not be redeemable at the Company's option prior to May 15, 2020.

(d) On or after May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes redeemed, to the applicable date of redemption, if redeemed during the twelve-month period beginning on May 15 of the years indicated below, subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant Interest Payment Date:

Year	Redemption Price
2020	103.125%
2021	102.083%
2022	101.042%
2023 and thereafter	100.000%

Unless the Company defaults in the payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable redemption date.

(7) MANDATORY REDEMPTION. The Company is not required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

(8) REPURCHASE AT THE OPTION OF HOLDER.

(a) Upon the occurrence of a Change of Control, the Company will be required to make an offer (a "*Change of Control Offer*") to each Holder to repurchase all or any part (equal to $2,000 or an integral multiple of $1,000 in excess thereof) of that Holder's Notes pursuant to a Change of Control Offer on the terms set forth in the Indenture. In the Change of Control Offer, the Company will offer a payment in cash equal to 101% of the aggregate principal amount of Notes repurchased, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes repurchased to but not including the date of purchase (the "*Change of Control Payment*"), subject to the rights of Holders on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Company will mail a notice to each Holder at such Holder's registered address or otherwise deliver a notice in accordance with Section 3.03 of the Indenture, stating that a Change of Control Offer is being made and offering to repurchase Notes on the date (the "*Change of Control Payment Date*") specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or delivered, pursuant to the procedures required by the Indenture and described in such notice. The Company will comply with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of such compliance.

(b) If the Company or a Restricted Subsidiary of the Company consummates any Asset Sales, within ten Business Days of each date on which the aggregate amount of Excess Proceeds exceeds $20.0 million, the Company will make an offer (an "*Asset Sale Offer*") to all Holders of Notes and may make an offer to all holders of other Indebtedness that is *pari passu* with the Notes or any Note Guarantees with respect to offers to purchase, prepay or redeem with the proceeds of sales of assets to purchase, prepay or redeem the maximum principal amount of Notes and such other *pari passu* Indebtedness (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith) that may be purchased, prepaid or redeemed out of the Excess Proceeds. The offer price for the Notes in any Asset Sale Offer will be equal to 100% of the principal amount, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of purchase, prepayment or redemption, subject to the rights of Holders of Notes on the relevant record date to receive interest due on the relevant interest payment date, and will be payable in cash. If any Excess

Proceeds remain after consummation of an Asset Sale Offer, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and other *pari passu* Indebtedness tendered into (or to be prepaid or redeemed in connection with) such Asset Sale Offer exceeds the amount of Excess Proceeds, or if the aggregate amount of Notes tendered pursuant to a Notes Offer exceeds the amount of the Net Proceeds so applied, the Trustee will select the Notes and such other *pari passu* Indebtedness, if applicable, to be purchased on a pro rata basis (or in the manner described in Section 3.02 of the Indenture), based on the amounts tendered or required to be prepaid or redeemed. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

(9) Notice Of Redemption. At least 30 days but not more than 60 days before a redemption date, the Company will mail or cause to be mailed, by first class mail, a notice of redemption to each Holder whose Notes are to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture pursuant to Articles 8 or 11 thereof. Notes and portions of Notes selected will be in amounts of $2,000 or whole multiples of $1,000 in excess thereof; except that if all of the Notes of a Holder are to be redeemed or purchased, the entire outstanding amount of Notes held by such Holder shall be redeemed or purchased.

(10) Redemption For Changes In Taxes.

(a) The Company may redeem the Notes, in whole but not in part, at its discretion at any time upon giving not less than 30 nor more than 60 days' prior notice to the Holders (which notice will be irrevocable and given in accordance with Section 3.03 of the Indenture), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to but not including the date fixed by the Company for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, the Company is or would be required to pay Additional Amounts, and the Company cannot avoid any such payment obligation by taking reasonable measures available (including, for the avoidance of doubt, the appointment of a new Paying Agent but excluding the reincorporation or reorganization of the Company or any Guarantor), and the requirement arises as a result of: (i) any change in, or amendment to, the laws or treaties (or any regulations, or rulings promulgated thereunder) of the relevant Tax Jurisdiction (other than Russia or any political subdivision thereof or therein) affecting taxation which change or amendment becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change or amendment has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under the Indenture); or (ii) any change in, or amendment to, the existing official published position or the introduction of an official position regarding the application, administration or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction or a change in published practice), which change, amendment or official position becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change, amendment or official position has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under the Indenture).

(b) In the case of Additional Amounts required to be paid as a result of the Company conducting business other than in the place of its organization, such amendment or change must be announced and become effective on or after the date in which the Company begins to conduct business giving rise to the relevant withholding or deduction.

(c) The Company will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Company would be obligated to make such payment or withholding if a payment in respect of the Notes were then due and at the time such notice is given, the obligation to pay Additional Amounts must remain in effect. Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company will deliver the Trustee an opinion of independent tax counsel (which counsel shall be reasonably acceptable to the Trustee) to the effect that there has been such change or amendment which would entitle the Company to redeem the Notes hereunder. In addition, before the Company mails notice of redemption of the Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that it cannot avoid its obligation to pay Additional Amounts by the Company taking reasonable measures available to it.

(d) For the avoidance of doubt, the implementation of European Council Directive 2003/48/EC on any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income or any law implementing or complying with or introduced in order to conform to, such directive will not be a change or amendment for such purposes.

(e) Any redemption pursuant to this paragraph 10 shall be made pursuant to the provisions of Sections 3.01 through 3.06 of the Indenture and notice may, in the Company's discretion, be subject to the satisfaction of one or more conditions precedent.

(11) DENOMINATIONS, TRANSFER, EXCHANGE. The Notes are in registered form in denominations of $2,000 and integral multiples of $1,000 in excess thereof. The transfer of Notes may be registered and Notes may be exchanged as provided in the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. The Company need not exchange or register the transfer of any Note or portion of a Note selected for redemption, except for the unredeemed portion of any Note being redeemed in part. Also, the Company need not exchange or register the transfer of any Notes for a period of 15 days before a selection of Notes to be redeemed or during the period between a record date and the next succeeding Interest Payment Date.

(12) PERSONS DEEMED OWNERS. The registered Holder may be treated as the owner of it for all purposes. Only registered Holders have rights under the Indenture.

(13) AMENDMENT, SUPPLEMENT AND WAIVER. Subject to certain exceptions, the Indenture, the Notes or the Note Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class, and any existing Default or Event of Default or compliance with any provision of the Indenture or the Notes or the Note Guarantees may be waived with the consent of the Holders of a majority in

aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class. Without the consent of any Holder, the Indenture, the Notes or the Note Guarantees may be amended or supplemented to cure any ambiguity, mistake, defect or inconsistency; to provide for uncertificated Notes in addition to or in place of certificated Notes (*provided* that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code); to provide for the assumption of the Company's or a Guarantor's obligations to Holders of the Notes and Note Guarantees by a successor to the Company or such Guarantor pursuant to Article 5 or Article 10 of the Indenture; to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the legal rights under the Indenture of any such Holder in any material respect; to conform the text of the Indenture, the Notes, or the Note Guarantees to any provision of the "Description of Notes" section of the Offering Memorandum, to the extent that such provision in that "Description of Notes" was intended to be a verbatim recitation of a provision of the Indenture, the Notes, or the Note Guarantees, which intent may be evidenced by an Officer's Certificate to that effect; to release any Note Guarantee in accordance with the terms of the Indenture; to provide for the issuance of Additional Notes in accordance with the limitations set forth in the Indenture as of the Issue Date; to allow any Guarantor to execute a supplemental indenture and a Note Guarantee with respect to the Notes; to comply with the requirements of the Commission in order to effect or maintain the qualification of the Indenture under the TIA; or to evidence and provide the acceptance of the appointment of a successor Trustee under the Indenture.

(14) *DEFAULTS AND REMEDIES.* Events of Default include: (i) default for 30 days in the payment when due of interest or Additional Amounts, if any, with respect to the Notes; (ii) default in the payment when due (at maturity, upon redemption or otherwise) of the principal of, or premium, if any, on, the Notes; (iii) failure by the Company or relevant Guarantor to comply with Section 4.15 or Section 5.01 of the Indenture; (iv) failure by the Company or relevant Guarantor for 60 days after written notice to the Company by the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding voting as a single class to comply with any of the agreements in the Indenture (other than a default in performance, or breach, or a covenant or agreement which is specifically dealt with in clauses (i), (ii) or (iii) above); (v) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Company or any of its Restricted Subsidiaries (or the payment of which is guaranteed by the Company or any of its Restricted Subsidiaries), whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, if that default: (x) is caused by a failure to pay principal of such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default, or (y) results in the acceleration of such Indebtedness prior to its express maturity, and, in each case, the principal amount of any such Indebtedness that is due and has not been paid, together with the principal amount of any other such Indebtedness that is due and has not been paid or the maturity of which has been so accelerated, aggregates $25.0 million or more; (vi) failure by the Company, the Company or any Restricted Subsidiary that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary, to pay final judgments entered by a court or courts of competent jurisdiction aggregating in excess of $25.0 million, which judgments shall not have been discharged or waived and there shall have been a period of 60 consecutive days during which a stay of enforcement of such judgment or order, by reason of an appeal, waiver or otherwise, shall not have been in effect; (vii) except as permitted by the Indenture (including with respect to any limitations), any Note Guarantee of a Significant Subsidiary or any group of the Company's Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary is held in any judicial proceeding to be unenforceable or invalid or ceases for any reason to be in full force

If any other Event of Default occurs and is continuing, the Trustee may, or the Holders of at least 25% in aggregate principal amount of the then outstanding Notes may and the Trustee shall, if so directed by the Holders of at least 25% in aggregate principal amount of the then outstanding Notes, declare all the Notes to be due and payable immediately. The Trustee may withhold from Holders notice of any continuing Default or Event of Default if it determines that withholding notice is in their interest, except a Default or Event of Default relating to the payment of principal, interest or Additional Amounts or premium, if any. The Holders of not less than a majority in aggregate principal amount of the Notes outstanding by notice to the Trustee may, on behalf of the Holders of all outstanding Notes, rescind acceleration or waive any existing Default or Event of Default and its consequences under the Indenture, except a continuing Default or Event of Default: (i) in the payment of the principal or premium, if any, any Additional Amounts or interest on any Note held by a non-consenting Holder (which may only be waived with the consent of each Holder affected), or (ii) for any Note held by a non-consenting Holder, in respect of a covenant or provision which under the Indenture cannot be modified or amended without the consent of the Holder of each Note affected by such modification or amendment. (5) ADDITIONAL AMOUNTS.

(a) All payments made by or on behalf of the Company or any of the Guarantors under or with respect to the Notes (whether or not in the form of Definitive Registered Notes) or any Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed

or levied by or on behalf of (i) any jurisdiction in which the Company or any Guarantor (including any successor entity), is then incorporated, engaged in business, organized or resident for tax purposes or any political subdivision or governmental authority thereof or therein or (ii) any jurisdiction from or through which payment is made by or on behalf of the Company or any Guarantor (including, without limitation, the jurisdiction of any Paying Agent) or any political subdivision or governmental authority thereof or therein (each of (i) and (ii), a "*Tax Jurisdiction*"), will at any time be required to be made from any payments under or with respect to the Notes or any Note Guarantee, including, without limitation, payments of principal, redemption price, purchase price, interest or premium, the Company or the relevant Guarantor or other payor, as applicable, will pay such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received and retained in respect of such payments by each Holder or beneficial owner of Notes (including Additional Amounts) after such withholding, deduction or imposition will equal the respective amounts that would have been received and retained in respect of such payments in the absence of such withholding or deduction; *provided, however,* that no Additional Amounts will be payable with respect to: (i) any Taxes, to the extent such Taxes would not have been imposed but for the Holder or the beneficial owner of the Notes (or a fiduciary, settlor, beneficiary, partner of, member or shareholder of, or possessor of a power over, the relevant Holder, if the relevant Holder is an estate, trust, nominee, partnership, limited liability company or corporation) being a citizen or resident or national of, incorporated in the relevant Tax Jurisdiction in which such Taxes are imposed or having any other present or former connection with the relevant Tax Jurisdiction other than the acquisition or holding of such Notes, the exercise or enforcement of rights under such Note or the Indenture or under a Note Guarantee or the receipt of payments in respect of such Note or a Note Guarantee; (ii) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Note for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the Holder (except to the extent that the Holder would have been entitled to Additional Amounts had the Note been presented on the last day of such 30 day period); (iii) any estate, inheritance, gift, sale, transfer, personal property or similar Taxes; (iv) any Taxes withheld, deducted or imposed on a payment to an individual and that are required to be made pursuant to European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing or complying with or introduced in order to conform to, such directive; (v) any Taxes imposed as result of any Note presented for payment (where presentation is required) by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a member state of the European Union; (vi) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Notes or with respect to any Note Guarantee; (vii) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the Holder or beneficial owner of Notes, following the Company's reasonable written request addressed to the Holder or beneficial owner at least 60 days before any such withholding or deduction would be payable to the Holder or beneficial owner, to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the Holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the Holder or beneficial owner is legally entitled to provide such certification or documentation; (viii) any Taxes imposed or withheld by reason of the failure of the Holder or beneficial owner of the Notes to comply with the requirements of Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "*Code*"), as of the date of the Offering Memorandum (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), the U.S. Treasury

Regulations issued thereunder or any official interpretation thereof or any agreement entered into pursuant to Section 1471 of the Code; or (ix) any combination of clauses (1) through (8) above.

(b) In addition to the foregoing, the Company and the Guarantors will also pay and indemnify the Holder for any present or future stamp, issue, registration, value added, transfer, court or documentary Taxes, or any other excise or property taxes, charges or similar levies (including penalties, interest and any other liabilities related thereto) which are levied by any jurisdiction on the execution, delivery, issuance, or registration of any of the Notes, the Indenture, any Note Guarantee or any other document referred to therein, or the receipt of any payments with respect thereto, or enforcement of, any of the Notes or any Note Guarantee.

(c) If the Company or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes or any Note Guarantee, the Company or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises after the 30th day prior to that payment date, in which case the Company or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificates must also set forth any other information reasonably necessary to enable the Paying Agents to pay Additional Amounts to Holders on the relevant payment date. The Company or the relevant Guarantor will provide the Trustee with documentation reasonably satisfactory to the Trustee evidencing the payment of Additional Amounts. The Trustee shall be entitled to rely absolutely on an Officer's Certificate as conclusive proof that such payments are necessary, and may conclusively presume that no payments are necessary unless and until it receives any such Officer's Certificate.

(d) The Company or the relevant Guarantor will make all withholdings and deductions (within the time period and in the minimum amount) required by law and will remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. The Company or the relevant Guarantor will use its reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld. The Company or the relevant Guarantor will furnish to the Trustee (or to a Holder upon request), within 60 days after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Company or a Guarantor, as the case may be, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other evidence of payments (reasonably satisfactory to the Trustee) by such entity.

(e) Whenever in the Indenture or the Notes there is mentioned, in any context, the payment of amounts based upon the principal amount of the Notes or of principal, interest or of any other amount payable under, or with respect to, any of the Notes or any Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

(f) The obligations described under Sections 4.01(c), (d), (e) and (f) of the Indenture will survive any termination, defeasance or discharge of the Indenture, any transfer by a Holder or beneficial owner of its Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Company or any Guarantor is incorporated, engaged in business for tax purposes or resident for tax purposes or any jurisdiction from or through which such Person makes any payment on the Notes (or any Note Guarantee) and any department or political subdivision or taxing authority or agency thereof or therein having the power to tax.

(6) *OPTIONAL REDEMPTION.*

(a) At any time prior to May 15, 2018, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of Notes issued under the Indenture, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 106.250% of the principal amount of the Notes redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption (subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant Interest Payment Date), with the net cash proceeds of an Equity Offering; *provided* that:

(i) at least 65% of the aggregate principal amount of the Notes originally issued under the Indenture (excluding Notes held by the Company and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and

(ii) the redemption occurs within 90 days of the date of the closing of such Equity Offering.

(b) At any time prior to May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon giving not less than 30 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Notes redeemed, plus the Applicable Premium (as calculated by the Company) as of, and accrued and unpaid interest and Additional Amounts, if any, to but not including the date of redemption, subject to the rights of Holders on the relevant record date to receive interest due on the relevant Interest Payment Date.

(c) Except pursuant to paragraph 6(a) and 6(b) and paragraph 10 hereof, the Notes will not be redeemable at the Company's option prior to May 15, 2020.

(d) On or after May 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes redeemed, to the applicable date of redemption, if redeemed during the twelve-month period beginning on October 15 of the years indicated below, subject to the rights of Holders of Notes on the relevant record date to receive interest on the relevant Interest Payment Date:

Year	Redemption Price
2020	103.125%
2021	102.083%
2022	101.042%
2023 and thereafter	100.000%

Unless the Company defaults in the payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable redemption date.

(7) *MANDATORY REDEMPTION.* The Company is not required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

(8) *REPURCHASE AT OPTION OF HOLDER*.

(a) Upon the occurrence of a Change of Control, the Company will be required to make an offer (a "*Change of Control Offer*") to each Holder to repurchase all or any part (equal to $2,000 or an integral multiple of $1,000 in excess thereof) of that Holder's Notes pursuant to a Change of Control Offer on the terms set forth in the Indenture. In the Change of Control Offer, the Company will offer a payment in cash equal to 101% of the aggregate principal amount of Notes repurchased, plus accrued and unpaid interest and Additional Amounts, if any, on the Notes repurchased to but not including the date of purchase (the "*Change of Control Payment*"), subject to the rights of Holders on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Company will mail a notice to each Holder at such Holder's registered address or otherwise deliver a notice in accordance with Section 3.03 of the Indenture, stating that a Change of Control Offer is being made and offering to repurchase Notes on the date (the "*Change of Control Payment Date*") specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or delivered, pursuant to the procedures required by the Indenture and described in such notice. The Company will comply with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of such compliance.

(b) If the Company or a Restricted Subsidiary of the Company consummates any Asset Sales, within ten Business Days of each date on which the aggregate amount of Excess Proceeds exceeds $20.0 million, the Company will make an offer (an "*Asset Sale Offer*") to all Holders of Notes and may make an offer to all holders of other Indebtedness that is *pari passu* with the Notes or any Note Guarantees with respect to offers to purchase, prepay or redeem with the proceeds of sales of assets to purchase, prepay or redeem the maximum principal amount of Notes and such other *pari passu* Indebtedness (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith) that may be purchased, prepaid or redeemed out of the Excess Proceeds. The offer price for the Notes in any Asset Sale Offer will be equal to 100% of the principal amount, plus accrued and unpaid interest and Additional Amounts, if any, to but not including the date of purchase, prepayment or redemption, subject to the rights of Holders of Notes on the relevant record date to receive interest due on the relevant interest payment date, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and other *pari passu* Indebtedness tendered into (or to be prepaid or redeemed in connection with) such Asset Sale Offer exceeds the amount of Excess Proceeds, or if the aggregate amount of Notes tendered pursuant to a Notes Offer exceeds the amount of the Net Proceeds so applied, the Trustee will select the Notes and such other *pari passu* Indebtedness, if applicable, to be purchased on a pro rata basis (or in the manner described in Section 3.02 of the Indenture), based on the amounts tendered or required to be prepaid or redeemed. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

(9) *NOTICE OF REDEMPTION*. At least 30 days but not more than 60 days before a redemption date, the Company will mail or cause to be mailed, by first class mail, a notice of redemption to each Holder whose Notes are to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is

issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture pursuant to Articles 8 or 11 thereof. Notes and portions of Notes selected will be in amounts of $2,000 or whole multiples of $1,000 in excess thereof; except that if all of the Notes of a Holder are to be redeemed or purchased, the entire outstanding amount of Notes held by such Holder shall be redeemed or purchased.

(10) *REDEMPTION FOR CHANGES IN TAXES.*

(a) The Company may redeem the Notes, in whole but not in part, at its discretion at any time upon giving not less than 30 nor more than 60 days' prior notice to the Holders (which notice will be irrevocable and given in accordance with Section 3.03 of the Indenture), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to but not including the date fixed by the Company for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, the Company is or would be required to pay Additional Amounts, and the Company cannot avoid any such payment obligation by taking reasonable measures available (including, for the avoidance of doubt, the appointment of a new Paying Agent but excluding the reincorporation or reorganization of the Company or any Guarantor), and the requirement arises as a result of: (i) any change in, or amendment to, the laws or treaties (or any regulations, or rulings promulgated thereunder) of the relevant Tax Jurisdiction (other than Russia or any political subdivision thereof or therein) affecting taxation which change or amendment becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change or amendment has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under the Indenture); or (ii) any change in, or amendment to, the existing official published position or the introduction of an official position regarding the application, administration or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction or a change in published practice), which change, amendment or official position becomes effective on or after the Issue Date (or, in the case of Russia or any political subdivision thereof or therein, or if the relevant Tax Jurisdiction has changed since the Issue Date, which change, amendment or official position has not been publicly announced as formally proposed before and becomes effective on or after the date on which the then current Tax Jurisdiction became the applicable Tax Jurisdiction under the Indenture).

(b) In the case of Additional Amounts required to be paid as a result of the Company conducting business other than in the place of its organization, such amendment or change must be announced and become effective on or after the date in which the Company begins to conduct business giving rise to the relevant withholding or deduction.

(c) The Company will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Company would be obligated to make such payment or withholding if a payment in respect of the Notes were then due and at the time such notice is given, the obligation to pay Additional Amounts must remain in effect. Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company will deliver the Trustee an opinion of independent tax counsel (which counsel shall be reasonably acceptable to the Trustee) to the effect that there has been such change or amendment which would entitle the

Company to redeem the Notes hereunder. In addition, before the Company mails notice of redemption of the Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that it cannot avoid its obligation to pay Additional Amounts by the Company taking reasonable measures available to it.

(d) For the avoidance of doubt, the implementation of European Council Directive 2003/48/EC on any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income or any law implementing or complying with or introduced in order to conform to, such directive will not be a change or amendment for such purposes.

(e) Any redemption pursuant to this paragraph 10 shall be made pursuant to the provisions of Sections 3.01 through 3.06 of the Indenture and notice may, in the Company's discretion, be subject to the satisfaction of one or more conditions precedent

(11) DENOMINATIONS, TRANSFER, EXCHANGE. The Notes are in registered form in denominations of $2,000 and integral multiples of $1,000 in excess thereof. The transfer of Notes may be registered and Notes may be exchanged as provided in the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. The Company need not exchange or register the transfer of any Note or portion of a Note selected for redemption, except for the unredeemed portion of any Note being redeemed in part. Also, the Company need not exchange or register the transfer of any Notes for a period of 15 days before a selection of Notes to be redeemed or during the period between a record date and the next succeeding Interest Payment Date.

This Regulation S Temporary Global Note is exchangeable in whole or in part for one or more Global Notes only (i) on or after the termination of the 40-day distribution compliance period (as defined in Regulation S) and (ii) upon presentation of certificates (accompanied by an Opinion of Counsel, if applicable) required by Article 2 of the Indenture. Upon exchange of this Regulation S Temporary Global Note for one or more Global Notes, the Trustee shall cancel this Regulation S Temporary Global Note.

(12) PERSONS DEEMED OWNERS. The registered Holder may be treated as the owner of it for all purposes. Only registered Holders have rights under the Indenture.

(13) AMENDMENT, SUPPLEMENT AND WAIVER. Subject to certain exceptions, the Indenture, the Notes or the Note Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class, and any existing Default or Event of Default or compliance with any provision of the Indenture or the Notes or the Note Guarantees may be waived with the consent of the Holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, Additional Notes, if any) voting as a single class.
